5. Property and Equipment (including Concession Assets)

Property and equipment, including concession assets, and related accumulated depreciation and amortization are summarized below (in millions):

	June 30, 2017	December 31, 2016
Land	\$218.7	\$ 219.2
Concession land rights	141.2	141.2
Road property	7,369.4	7,186.0
Equipment	2,496.7	2,439.8
Technology and other	191.7	182.2
Construction in progress	382.9	293.4
Total property	10,800.6	10,461.8
Accumulated depreciation and amortization	2,553.3	2,392.1
Property and equipment (including concession assets), net	\$8,247.3	\$ 8,069.7

Concession assets, net of accumulated amortization of \$648.6 million and \$610.7 million, totaled \$2,154.7 million and \$2,131.6 million at June 30, 2017 and December 31, 2016, respectively.

Explanation of Responses:

6. Fair Value Measurements

Assets and liabilities recognized at fair value are required to be classified into a three-level hierarchy. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company

8

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

has the ability to access. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value in its entirety requires judgment and considers factors specific to the asset or liability.

The Company's derivative financial instruments are measured at fair value on a recurring basis and consist of foreign currency forward and option contracts and treasury lock agreements, which are classified as Level 2 valuations. The Company determines the fair value of its derivative financial instrument positions based upon pricing models using inputs observed from actively quoted markets and also takes into consideration the contract terms as well as other inputs, including market currency exchange rates and in the case of option contracts, volatility, the risk-free interest rate and the time to expiration. The fair value of the foreign currency derivative instruments was an asset of \$24.8 million and a liability of \$41.1 million at June 30, 2017 and December 31, 2016, respectively, and the fair value of the forward treasury lock agreements was a liability of \$3.8 million at June 30, 2017. There were no outstanding treasury lock agreements at December 31, 2016.

The Company's short-term financial instruments include cash and cash equivalents, accounts receivable, accounts payable and short-term borrowings. The carrying value of the short-term financial instruments approximates their fair value.

The fair value of the Company's debt is estimated using quoted market prices when available. When quoted market prices are not available, fair value is estimated based on current market interest rates for debt with similar maturities and credit quality. The fair value of the Company's debt was \$2,373.6 million and \$2,303.8 million at June 30, 2017 and December 31, 2016, respectively. The carrying value was \$2,285.8 million and \$2,296.9 million at June 30, 2017 and December 31, 2016, respectively. If the Company's debt were measured at fair value, the fair value measurements of the individual debt instruments would have been classified as either Level 1 or Level 2 in the fair value hierarchy.

7. Derivative Instruments

The Company enters into derivative transactions in certain situations based on management's assessment of current market conditions and perceived risks. Management intends to respond to evolving business and market conditions and in doing so, may enter into such transactions as deemed appropriate.

Credit Risk. As a result of the use of derivative instruments, the Company is exposed to counterparty credit risk. The Company manages this risk by limiting its counterparties to large financial institutions which meet the Company's credit rating standards and have an established banking relationship with the Company. As of June 30, 2017, the Company did not expect any losses as a result of default of its counterparties.

Interest Rate Derivative Instruments. In May 2017, the Company executed four treasury lock agreements with an aggregate notional value of \$275.0 million and a weighted average interest rate of 2.85%. The purpose of the treasury locks is to hedge the U.S. Treasury benchmark interest rate associated with future interest payments related to the anticipated refinancing of the \$275.0 million of KCS 2.35% senior notes due May 15, 2020. The Company has designated the treasury locks as cash flow hedges and recorded unrealized gains and losses in accumulated other comprehensive income. Upon settlement, the unrealized gain or loss in accumulated other comprehensive income will be amortized to interest expense over the life of the future underlying debt issuance.

Foreign Currency Derivative Instruments. The Company's Mexican subsidiaries have net U.S. dollar-denominated monetary liabilities which, for Mexican income tax purposes, are subject to periodic revaluation based on changes in the value of the Mexican peso against the U.S. dollar. This revaluation creates fluctuations in the Company's Mexican income tax expense and the amount of income taxes paid in Mexico. The Company hedges its exposure to this cash

tax risk by entering into foreign currency forward contracts and foreign currency option contracts known as zero-cost collars.

The foreign currency forward contracts involve the Company's purchase of pesos at an agreed-upon weighted-average exchange rate to each U.S dollar. The zero-cost collars involve the Company's purchase of a Mexican peso call option and a simultaneous sale of a Mexican peso put option, with equivalent U.S. dollar notional amounts for each option and no net cash premium paid by the Company. The Company does not physically exchange currencies upon maturity or expiration of its forward contracts or zero-cost collars. Instead, the Company settles the maturing/expiring transactions by entering into offsetting transactions, which results in a physical exchange of only the net gain or loss between the Company and the counterparty.

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

Below is a summary of the Company's 2017 and 2016 foreign currency derivative contracts (amounts in millions, except Ps./USD):

Foreign currency forward contracts

	Contracts to purchase Ps./pay USD				Offsetting contracts to sell Ps./receive USD				Cash received/(paid) on settlement

Contracts executed in 2017 and settled in 2017	\$195.0	4/25/2017	—	—	\$25.8
Contracts executed in 2015 and settled in 2016	\$80.0	1/15/2016	—	—	\$(10.1)

Explanation of Responses:

(i) During February 2017, the Company settled \$115.0 million of the zero-cost collar contracts. The Company has not designated any of the foreign currency derivative contracts as hedging instruments for accounting purposes. The Company measures the foreign currency derivative contracts at fair value each period and recognizes any change in fair value in foreign exchange gain (loss) within the consolidated statements of income.

The following tables present the fair value of derivative instruments included in the consolidated balance sheets (in millions):

	Derivative Assets		
	Balance Sheet Location	June 30, 2017	December 31, 2016
Derivatives not designated as hedging instruments:			
Foreign currency zero-cost collar contracts	Other current assets	\$ 24.8	\$ —
Total derivatives not designated as hedging instruments		24.8	—
Total derivative assets		\$ 24.8	\$ —

Table of ContentsKansas City Southern and Subsidiaries

8. Short-Term Borrowings

Commercial Paper. The Company's commercial paper program generally serves as the primary means of short-term funding. As of June 30, 2017, KCS had \$302.8 million commercial paper outstanding, net of \$0.2 million discount, at a weighted-average interest rate of 1.658%. As of December 31, 2016, KCS had \$181.3 million of commercial paper outstanding, net of \$0.1 million discount, at a weighted-average interest rate of 1.290%.

	Six Months Ended June 30, 2017			Six Months Ended June 30, 2016		
	City Southern Stockholders Equity	Noncontrolling Interest	Total Equity	City Southern Stockholders Equity	Noncontrolling Interest	Total Equity
Beginning balance	\$4,089.9	\$ 314.6	\$4,404.5	\$3,914.3	\$ 310.4	\$4,224.7
Cumulative-effect adjustment (i)	2.5	—	2.5	—	—	—
Net income	281.0	0.6	281.6	227.9	0.7	228.6
Other comprehensive loss	(1.0)	—	(1.0)	(0.7)	—	(0.7)
Dividends on common stock	(69.9)	—	(69.9)	(71.2)	—	(71.2)
Dividends on \$25 par preferred stock	(0.1)	—	(0.1)	(0.1)	—	(0.1)
Share repurchases	(120.4)	—	(120.4)	(59.2)	—	(59.2)
Options exercised and stock subscribed, net of shares withheld for employee taxes	0.1	—	0.1	(1.1)	—	(1.1)
Excess tax benefit from share-based compensation	—	—	—	(0.4)	—	(0.4)
Share-based compensation	10.5	—	10.5	11.1	—	11.1
Ending balance	\$4,192.6	\$ 315.2	\$4,507.8	\$4,020.6	\$ 311.1	\$4,331.7

The Company recognized a \$2.5 million net cumulative-effect adjustment to equity as of January 1, 2017, due to (i) the adoption of ASU 2016-09, Improvements to Employee Share-Based Payment Accounting. For additional discussion, see Note 1 - Basis of Presentation.

Share Repurchase Program

In May 2015, the Company announced a share repurchase program of up to \$500.0 million, which expired on June 30, 2017. During the three months ended June 30, 2017, KCS concluded the program by purchasing 701,209 shares of

common stock for \$64.7 million at an average price of \$92.27 per share. During the six months ended June 30, 2017, KCS repurchased 1,340,209 shares of common stock for \$120.4 million at an average price of \$89.83 per share. In total under this program, KCS repurchased 5,601,805 shares of common stock for \$500.0 million at an average price of \$89.25 per share. The excess of repurchase price over par value is allocated between additional paid-in capital and retained earnings.

Cash Dividends on Common Stock

On May 5, 2017, the Company's Board of Directors declared a cash dividend of \$0.330 per share payable on July 5, 2017, to common stockholders of record as of June 12, 2017. The aggregate amount of the dividends declared for the three and six months ended June 30, 2017 was \$34.9 million and \$69.9 million, respectively.

The following table presents the amount of cash dividends declared per common share by the Company's Board of Directors:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Cash dividends declared per common share	\$0.330	\$0.330	\$0.660	\$0.660

10. Commitments and Contingencies

Concession Duty. Under KCSM's 50-year railroad concession from the Mexican government (the "Concession"), which would expire in 2047 unless extended, KCSM pays annual concession duty expense of 1.25% of gross revenues. For the three and six months ended June 30, 2017, the concession duty expense, which is recorded within Materials and other in operating expenses, was \$4.3 million and \$8.5 million, respectively, compared to \$3.7 million and \$7.3 million for the same periods in 2016.

Litigation. The Company is a party to various legal proceedings and administrative actions, all of which, except as set forth below, are of an ordinary, routine nature and incidental to its operations. Included in these proceedings are various tort claims brought by current and former employees for job-related injuries and by third parties for injuries related to railroad operations. KCS aggressively defends these matters and has established liability provisions, which management believes are adequate to cover expected costs. Although it is not possible to predict with certainty the outcome of any legal proceeding, in the opinion of management, other than those proceedings described in detail below, such proceedings and actions should not, individually, or in the aggregate, have a material adverse effect on the Company's consolidated financial statements.

Environmental Liabilities. The Company's U.S. operations are subject to extensive federal, state and local environmental laws and regulations. The major U.S. environmental laws to which the Company is subject include, among others, the federal Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA," also known as the Superfund law), the Toxic Substances Control Act, the Federal Water Pollution Control Act, and the Hazardous Materials Transportation Act. CERCLA can impose joint and several liabilities for cleanup and investigation costs, without regard to fault or legality of the original conduct, on current and predecessor owners and operators of a site, as well as those who generate, or arrange for the disposal of, hazardous substances. The Company does not believe that compliance with the requirements imposed by the environmental laws will impair its competitive capability or result in any material additional capital expenditures, operating or maintenance costs. The Company is, however, subject to environmental remediation costs as described in the following paragraphs.

The Company's Mexico operations are subject to Mexican federal and state laws and regulations relating to the protection of the environment through the establishment of standards for water discharge, water supply, emissions, noise pollution, hazardous substances and transportation and handling of hazardous and solid waste. The Mexican government may bring administrative and criminal proceedings, impose economic sanctions against companies that violate environmental laws, and temporarily or even permanently close non-complying facilities.

The risk of incurring environmental liability is inherent in the railroad industry. As part of serving the petroleum and chemicals industry, the Company transports hazardous materials and has a professional team available to respond to and handle environmental issues that might occur in the transport of such materials.

The Company performs ongoing reviews and evaluations of the various environmental programs and issues within the Company's operations, and, as necessary, takes actions intended to limit the Company's exposure to potential liability.

Although these costs cannot be predicted with certainty, management believes that the ultimate outcome of identified matters will not have a material adverse effect on the Company's consolidated financial statements.

Personal Injury. The Company's personal injury liability is based on semi-annual actuarial studies performed on an undiscounted basis by an independent third party actuarial firm and reviewed by management. This liability is based on personal

12

Table of Contents

Kansas City Southern and Subsidiaries

Notes to Consolidated Financial Statements—(Continued)

injury claims filed and an estimate of claims incurred but not yet reported. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Adjustments to the liability are reflected within operating expenses in the period in which changes to estimates are known. Personal injury claims in excess of self-insurance levels are insured up to certain coverage amounts, depending on the type of claim and year of occurrence. The personal injury liability as of June 30, 2017, was based on an updated actuarial study of personal injury claims through May 31, 2017, and review of the June 2017 experience.

The personal injury liability activity was as follows (in millions):

	Six Months Ended June 30,	
	2017	2016
Balance at beginning of year	\$23.8	\$23.9
Accruals	2.4	2.4
Change in estimate	(2.0)	(0.6)
Payments	(2.8)	(2.0)
Balance at end of period	\$21.4	\$23.7

Tax Contingencies. Tax returns filed in the U.S. for periods after 2012 and in Mexico for periods after 2008 for KCSM and after 2010 for Mexico subsidiaries other than KCSM remain open to examination by the taxing authorities. The Servicio de Administración Tributaria (the “SAT”), the Mexican equivalent of the IRS, is currently examining the KCSM 2011 Mexico tax return. An SAT examination was completed during the quarter without adjustment for the KCSM Servicios 2013 Mexico tax return. The Company received audit assessments from the SAT during the first quarter of 2017 for the KCSM 2009 and 2010 Mexico tax returns. The Company commenced administrative actions with the SAT and if these assessments are not nullified, the matters will be litigated. The Company believes that it has strong legal arguments in its favor and it is more likely than not that the Company will prevail in any challenge of the assessments.

The Company litigated a Value Added Tax (“VAT”) audit assessment from the SAT for KCSM for the year ended December 31, 2005. In November 2016, KCSM was notified of a resolution by the Mexican tax court annulling this assessment. The SAT has appealed this resolution and the matter is currently under review by the Mexican Circuit court. The Company believes it is probable that the court will dismiss the SAT’s appeal and the existing 2005 VAT audit assessment will be nullified. Further, the Company believes it is more likely than not that the SAT will be precluded from issuing a new 2005 VAT audit assessment. In the unexpected event that the SAT is provided the opportunity to issue a new 2005 VAT audit assessment, the Company cannot predict if the SAT would issue a new assessment or the basis of any new assessment. Accordingly, the Company is not able to estimate any related potential exposure.

KCSM has not historically assessed VAT on international import transportation services provided to its customers based on a written ruling that KCSM obtained from the SAT in 2008 stating that such services were not subject to VAT (the “2008 Ruling”). Notwithstanding the 2008 Ruling, in December 2013, the SAT unofficially informed KCSM of an intended implementation of new criteria effective as of January 1, 2014, pursuant to which VAT would be assessed on all international import transportation services on the portion of the services provided within Mexico. Additionally, in November 2013, the SAT filed an action to nullify the 2008 Ruling, potentially exposing the application of the new criteria to open tax years. In February 2014, KCSM filed an action opposing the SAT’s nullification action. In December 2016, KCSM was notified of a resolution issued by the Mexican tax court confirming the 2008 Ruling. The SAT has appealed this resolution and the matter is currently under review by the Mexican Circuit court. The Company believes it is more likely than not that it will continue to prevail in this matter. Further, as of the date of this filing, the SAT has not implemented any new criteria regarding this assessment of VAT on international import transportation services. The Company believes it is probable that any unexpected nullification

of the 2008 Ruling and the implementation of any new VAT criteria would be applied on a prospective basis, in which case, due to the pass-through nature of VAT, KCSM would begin to assess its customers for VAT on international import transportation services, resulting in no material impact to the Company's consolidated financial statements. Contractual Agreements. In the normal course of business, the Company enters into various contractual agreements related to commercial arrangements and the use of other railroads' or governmental entities' infrastructure needed for the operations of the business. The Company is involved or may become involved in certain disputes involving transportation rates, product loss or damage,

Table of ContentsKansas City Southern and Subsidiaries
Notes to Consolidated Financial Statements—(Continued)

charges, and interpretations related to these agreements. While the outcome of these matters cannot be predicted with certainty, the Company believes that, when resolved, these disputes will not have a material effect on its consolidated financial statements.

Credit Risk. The Company continually monitors risks related to economic changes and certain customer receivables concentrations. Significant changes in customer concentration or payment terms, deterioration of customer creditworthiness, bankruptcy, insolvency or liquidation of a customer, or further weakening in economic trends could have a significant impact on the collectability of the Company's receivables and its operating results. If the financial condition of the Company's customers were to deteriorate and result in an impairment of their ability to make payments, additional allowances may be required. The Company has recorded provisions for uncollectability based on its best estimate at June 30, 2017.

Panama Canal Railway Company ("PCRC") Guarantees and Indemnities. At June 30, 2017, the Company had issued and outstanding \$5.5 million under a standby letter of credit to fulfill its obligation to fund fifty percent of the debt service reserve and liquidity reserve established by PCRC in connection with the issuance of the 7.0% Senior Secured Notes due November 1, 2026 (the "PCRC Notes"). Additionally, KCS has pledged its shares of PCRC as security for the PCRC Notes.

Mexican Antitrust Review. Pursuant to the Mexican Antitrust Law and the Regulatory Railways Service Law, on September 12, 2016, the Mexican government's antitrust commission (Comisión Federal de Competencia Económica or "COFECE"), announced that it would review competitive conditions in the Mexican railroad industry, with respect to the existence of effective competition in the provision of interconnection services, trackage rights, switching rights and interline services used to render public freight transport in Mexico. The COFECE review includes the entire freight rail transportation market in Mexico and is not targeted to any single rail carrier.

On March 15, 2017, the COFECE published an executive summary of its preliminary report in the Diario Oficial de la Federación. The COFECE's preliminary report concluded that there was a lack of effective competition in the market for trackage rights ("Relevant Market") throughout the entire networks of Kansas City Southern de Mexico, S.A. de C.V. ("KCSM"), Ferrocarril Mexicano, S.A. de C.V. ("Ferromex"), Ferrosur, S.A. de C.V. ("Ferrosur"), and Ferrocarril y Terminal del Valle de Mexico, S.A. de C.V. ("FTVM").

The Company disagrees with the COFECE's reasoning and preliminary conclusions, and responded on April 20, 2017 with evidence and arguments to support the Company's position, as provided in the Mexican antitrust law. The Company's response argues that the investigation which supports the conclusions in the preliminary report was conducted contrary to the rule of law, the rules of procedure, and relied upon faulty economic analysis.

On April 27, 2017, the COFECE initiated the incidental procedure to analyze the recusal of two of its commissioners from ongoing proceedings ("Motion to Recuse"). On June 6, 2017, KCSM presented arguments in connection with the Motion to Recuse.

The COFECE has an additional term of up to 110 business days after the decision of the Motion to Recuse to issue a final report in connection with effective competition conditions in the Relevant Market. It is expected a final ruling will be issued around December 2017. It is too early to determine what, if any, impact this review may have on Mexican rail operations in the future. If the COFECE's final report determines there is a lack of effective competition, the COFECE could request the new Mexican Agencia Reguladora del Transporte Ferroviario ("Regulatory Agency of Rail Transportation" or "ARTF"), which has primary regulatory jurisdiction over the Company's Mexican operations, to conduct proceedings to determine whether to establish new limited mandatory trackage rights and/or rate regulation under the Amendments to the Mexican Regulatory Railroad Service Law.

U.S. Surface Transportation Board. On July 27, 2016, the Surface Transportation Board issued a Notice of Proposed Rulemaking in Ex Parte 711 (Sub-No.1) Reciprocal Switching, proposing rules related to reciprocal switching. Initial comments on the proposed rule were due by October 26, 2016, and replies to the initial comments were due by January 13, 2017. On December 27, 2016, the agency suspended the procedural deadline following submission of reply comments, pending anticipated changes in the agency's membership. Until the rule has been finalized, KCS

cannot determine what effect, if any, the rule will have on its business.

11. Geographic Information

The Company strategically manages its rail operations as one reportable business segment over a single coordinated rail network that extends from the Midwest and Southeast portions of the United States south into Mexico and connects with other Class I railroads. Financial information reported at this level, such as revenues, operating income and cash flows from operations, is used by corporate management, including the Company's chief operating decision-maker, in evaluating overall financial and operational performance, market strategies, as well as the decisions to allocate capital resources. The Company's chief operating decision-maker is the chief executive officer.

12. Condensed Consolidating Financial Information

Pursuant to Securities and Exchange Commission (“SEC”) Regulation S-X Rule 3-10 “Financial statements of guarantors and issuers of guaranteed securities registered or being registered”, the Company is required to provide condensed consolidating financial information for issuers of certain of its senior notes that are guaranteed.

As of June 30, 2017, KCS had outstanding \$2,093.5 million senior notes due through 2045. The senior notes are unsecured obligations of KCS, and are also jointly and severally and fully and unconditionally guaranteed on an unsecured senior basis by KCSR and certain wholly-owned domestic subsidiaries of KCS. As a result, the Company is providing the following condensed consolidating financial information (in millions).

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The discussion below, as well as other portions of this Form 10-Q, contain forward-looking statements that are not based upon historical information. Readers can identify these forward-looking statements by the use of such verbs as “expects,” “anticipates,” “believes” or similar verbs or conjugations of such verbs. Such forward-looking statements are based upon information currently available to management and management’s perception thereof as of the date of this Form 10-Q. However, such statements are dependent on and, therefore, can be influenced by, a number of external variables over which management has little or no control, including: competition and consolidation within the transportation industry; the business environment in industries that produce and use items shipped by rail; loss of the rail concession of Kansas City Southern’s subsidiary, Kansas City Southern de México, S.A. de C.V.; the termination of, or failure to renew, agreements with customers, other railroads and third parties; access to capital; disruptions to the Company’s technology infrastructure, including its computer systems; natural events such as severe weather, hurricanes and floods; market and regulatory responses to climate change; legislative and regulatory developments and disputes; rail accidents or other incidents or accidents on KCS’s rail network or at KCS’s facilities or customer facilities involving the release of hazardous materials, including toxic inhalation hazards; fluctuation in prices or availability of key materials, in particular diesel fuel; dependency on certain key suppliers of core rail equipment; changes in securities and capital markets; availability of qualified personnel; labor difficulties, including strikes and work stoppages; insufficiency of insurance to cover lost revenue, profits or other damages; acts of terrorism or risk of terrorist activities; war or risk of war; domestic and international economic, political and social conditions; the level of trade between the United States and Asia or Mexico; fluctuations in the peso-dollar exchange rate; increased demand and traffic congestion; the outcome of claims and litigation involving the Company or its subsidiaries; and other factors affecting the operation of the business. For more discussion about each risk factor, see Part II Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016, which is on file with the U.S. Securities and Exchange Commission (File No. 1-4717) and Part I Item 1A — “Risk Factors” in the Form 10-K and any updates contained herein. Readers are strongly encouraged to consider these factors when evaluating forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the timing when, or by which, such performance or results will be achieved. As a result, actual outcomes or results could materially differ from those indicated in forward-looking statements. We are not under any obligation, and we expressly disclaim any obligation, to update or alter any forward-looking statements. This discussion is intended to clarify and focus on Kansas City Southern’s (“KCS” or the “Company”) results of operations, certain changes in its financial position, liquidity, capital structure and business developments for the periods covered by the consolidated financial statements included under Item 1 of this Form 10-Q. This discussion should be read in conjunction with those consolidated financial statements and the related notes and is qualified by reference to them.

Critical Accounting Policies and Estimates

The Company’s discussion and analysis of its financial position and results of operations is based upon its consolidated financial statements. The preparation of these consolidated financial statements requires estimation and judgment that affect the reported amounts of revenue, expenses, assets and liabilities. The Company bases its estimates on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the accounting for assets and liabilities that are not readily apparent from other sources. If the estimates differ materially from actual results, the impact on the consolidated financial statements may be material. The Company’s critical accounting policies are disclosed in the 2016 Annual Report on Form 10-K filed with the SEC.

Overview

The Company is engaged primarily in the freight rail transportation business, operating a single coordinated rail network under one reportable business segment. The primary operating subsidiaries of the Company consist of the following: The Kansas City Southern Railway Company (“KCSR”), Kansas City Southern de México, S.A. de C.V. (“KCSM”), Meridian Speedway, LLC (“MSLLC”), and The Texas Mexican Railway Company (“TexMex”). The Company

generates revenues and cash flows by providing customers with freight delivery services both within its regions, and throughout North America through connections with other Class I rail carriers. KCS's customers conduct business in a number of different industries, including chemical and petroleum products, industrial and consumer products, agriculture and mineral products, energy products, automotive products and intermodal transportation. Appropriate eliminations and reclassifications have been recorded in preparing the consolidated financial statements.

27

Table of Contents

Second Quarter Analysis

Revenues increased 15% for the three months ended June 30, 2017, as compared to the same period in 2016, due to a 9% increase in revenue per carload/unit and a 6% increase in carload/unit volumes. Energy revenues increased \$33.3 million primarily due to an increase in utility coal resulting from higher natural gas prices and lower coal inventory levels. Revenue per carload/unit increased primarily due to mix, positive pricing impacts, and higher fuel surcharge. Operating expenses increased 20% during the three months ended June 30, 2017, as compared to the same period in 2016. In the second quarter of 2016, the Company determined it was eligible for and could utilize a credit for the excise tax included in the price of fuel that is purchased and consumed in locomotives and certain work equipment in Mexico and recognized a \$34.0 million year-to-date benefit during the second quarter of 2016, including \$17.3 million for the first quarter of 2016, compared to \$12.8 million during the second quarter of 2017. Additional expense increases were due to higher fuel prices and consumption, compensation and benefits, materials and other, depreciation expense, and equipment costs. These increases were partially offset by decreased purchased services and the weakening of the Mexican peso against the U.S. dollar. Expense fluctuations resulting from the weakening Mexican peso and higher fuel prices generally offset the revenue fluctuations driven by these same macroeconomic factors. Operating expenses as a percentage of revenues was 63.5% for the three months ended June 30, 2017, compared to 61.3% for the same period in 2016.

The Company reported quarterly earnings of \$1.27 per diluted share on consolidated net income of \$134.4 million for the three months ended June 30, 2017, compared to earnings of \$1.11 per diluted share on consolidated net income of \$120.1 million for the same period in 2016, primarily due to increased operating income and foreign exchange gain, partially offset by an increase in income tax expense.

Results of Operations

The following summarizes KCS's consolidated income statement components (in millions):

	Three Months Ended		Change
	June 30, 2017	June 30, 2016

Other revenue	49.8	47.6	5 %						
Total revenues (i)	\$1,265.9	\$1,131.2	12 %						

(i) Included in revenues:

Fuel surcharge \$77.0 \$50.9

Freight revenues include revenue for transportation services and fuel surcharges. For the three months ended June 30, 2017, revenues and carload/unit volumes increased 15% and 6%, respectively, compared to the same period in 2016. For the six months ended June 30, 2017, revenues and carload/unit volumes increased 12% and 6%, respectively, compared to the same period in 2016. Energy revenues increased \$33.3 million and \$60.3 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, primarily due to an increase in utility coal resulting from higher natural gas prices and lower coal inventory levels. Revenue per carload/unit increased by 9% and 6% for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to mix, positive pricing impacts, and higher fuel surcharge. These increases were partially offset

by the weakening of the Mexican peso against the U.S. dollar of approximately \$5.0 million and \$19.0 million for the three and six months ended June 30, 2017, compared to the same periods in 2016, for revenue transactions denominated in Mexican pesos. The average exchange rate of Mexican pesos per U.S. dollar was Ps.18.6 and Ps.19.5 for the three and six months ended June 30, 2017, respectively, compared to Ps.18.1 and Ps.18.0 for the same periods in 2016.

KCS's fuel surcharges are a mechanism to adjust revenue based upon changes in fuel prices above fuel price thresholds set in KCS's tariffs or contracts. Fuel surcharge revenue is calculated using a fuel price from a prior time period that can be up to 60 days earlier. In a period of volatile fuel prices or changing customer business mix, changes in fuel expense and fuel surcharge revenue may differ.

Table of Contents

For the three and six months ended June 30, 2017, fuel surcharge revenue increased \$24.2 million and \$26.1 million, respectively, compared to the same periods in 2016, due to higher fuel prices and the impact of fuel prices increasing above the fuel price thresholds for certain KCS's tariffs and contracts. Additionally, the increase is due to the adjustment of certain line haul rates that increased fuel surcharges on those rates.

The following discussion provides an analysis of revenues by commodity group:

Revenues by
commodity
group
for the three
months ended
June 30, 2017

Chemical and petroleum. Revenues increased \$16.4 million for the three months ended June 30, 2017, compared to the same period in 2016, due to a 7% increase in revenue per carload/unit and a 6% increase in carload/unit volumes. Revenues increased \$25.6 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a 6% increase in revenue per carload/unit and a 5% increase in carload/unit volumes. Revenue per carload/unit increased due to positive pricing impacts and mix. Petroleum volumes increased due to refined product and liquefied petroleum gas (LPG) shipments to Mexico. Chemical volumes increased due to strong market demand. Additionally, volumes increased for the six months ended June 30, 2017 as the first quarter of 2016 was adversely affected due to the impact of service interruptions resulting from flooding in the southeastern United States.

Industrial and consumer products. Revenues increased \$12.5 million for the three months ended June 30, 2017, compared to the same period in 2016, due to a 5% increase in revenue per carload/unit and a 4% increase in carload/unit volumes. Revenues increased \$11.2 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a 3% increase in revenue per carload/unit and a 1% increase in carload/unit volumes. Revenue per carload/unit increased due to positive pricing impacts, mix, and higher fuel surcharge, partially offset by the weakening of the Mexican peso against the U.S. dollar. For the three months ended June 30, 2017, growth was driven by increased volumes in other carloads due to strong military movements and forest products due to paper volumes. Paper volumes increased as a result of customers' planned temporary plant shutdowns in the second quarter of 2016. For the six months ended June 30, 2017, volume increases in other carloads were partially offset by a decrease in metals and scrap volumes due to competitive trucking and barge markets.

Table of Contents

Revenues by
commodity
group
for the three
months ended
June 30, 2017

Agriculture and minerals. Revenues increased \$8.3 million for the three months ended June 30, 2017, compared to the same period in 2016, due to a 10% increase in revenue per carload/unit, partially offset by a 3% decrease in carload/unit volumes. Revenues increased \$14.6 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a 7% increase in revenue per carload/unit. Revenue per carload/unit increased due to mix, length of haul, positive pricing impacts, and higher fuel surcharge. For the six months ended June 30, 2017, food products volumes decreased due to change in market demand.

Energy. Revenues increased \$33.3 million for the three months ended June 30, 2017, compared to the same period in 2016, due to a 41% increase in carload/unit volumes and a 35% increase in revenue per carload/unit. Revenues increased \$60.3 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a 35% increase in carload/unit volumes and a 30% increase in revenue per carload/unit. Utility coal volumes increased due to higher natural gas prices and lower coal inventory levels. Frac sand volumes also increased due to strong demand as a result of higher crude oil prices. Revenue per carload/unit increased due to longer average length of haul, positive pricing impacts, mix, and higher fuel surcharge.

Intermodal. Revenues remained flat for the three months ended June 30, 2017, compared to the same period in 2016, as a 1% decrease in carload/unit volumes was offset by a 1% increase in revenue per carload/unit. Revenues decreased \$2.4 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a 1% decrease in carload/unit volumes. The volume decrease was attributable to competition seen in Mexico from the weakening of the peso and truck capacity in the U.S. and Mexico, partially offset by new business.

Automotive. Revenues increased \$12.9 million for the three months ended June 30, 2017, compared to the same period in 2016, due to a 23% increase in carload/unit volumes and a 4% increase in revenue per carload/unit. Revenues increased \$23.2 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a 30% increase in carload/unit volumes, partially offset by a 3% decrease in revenue per carload/unit. Volumes increased due to customers' temporary plant shutdowns in the first half of 2016 and new plant openings. For the three months ended June 30, 2017, revenue per carload/unit increased due to mix, positive pricing impacts, and higher fuel surcharge, partially offset by the weakening of the Mexican peso against the U.S. dollar. For the six months ended June 30, 2017, revenue per carload/unit decreased due to the weakening of the Mexican peso against the U.S. dollar, partially offset by mix and positive pricing impacts.

Table of Contents

Operating Expenses

Operating expenses, as shown below (in millions), increased \$68.5 million and \$92.5 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to higher fuel prices and consumption, compensation and benefits, materials and other, depreciation expense, lower Mexican fuel excise tax credit, and equipment costs. These increases were partially offset by decreased purchased services and the weakening of the Mexican peso against the U.S. dollar. The weakening of the Mexican peso against the U.S. dollar resulted in expense reductions of approximately \$3.0 million and \$13.0 million for the three and six months ended June 30, 2017, compared to the same periods in 2016, for expense transactions denominated in Mexican pesos. The average exchange rate of Mexican pesos per U.S. dollar was Ps. 18.6 and Ps. 19.5 for the three and six months ended June 30, 2017, respectively, compared to Ps.18.1 and Ps.18.0 for the same periods in 2016.

	Three Months		Change	
	Ended		Dollars	Percent
	June 30,	2016		
	2017			
Compensation and benefits	\$125.2	\$109.0	\$16.2	15 %
Purchased services	51.4	53.7	(2.3)	(4 %)
Fuel	78.9	61.6	17.3	28 %
Mexican fuel excise tax credit	(12.8)	(34.0)	21.2	(62 %)
Equipment costs	31.2	27.2	4.0	15 %
Depreciation and amortization	80.4	75.7	4.7	6 %
Materials and other	62.8	55.4	7.4	13 %
Total operating expenses	\$417.1	\$348.6	\$68.5	20 %

	Six Months		Change	
	Ended		Dollars	Percent
	June 30,	2016		
	2017			
Compensation and benefits	\$242.6	\$219.1	\$23.5	11 %
Purchased services	100.2	104.6	(4.4)	(4 %)
Fuel	154.3	118.4	35.9	30 %
Mexican fuel excise tax credit	(24.5)	(34.0)	9.5	(28 %)
Equipment costs	62.4	53.9	8.5	16 %
Depreciation and amortization	159.7	150.0	9.7	6 %
Materials and other	121.2	111.4	9.8	9 %
Total operating expenses	\$815.9	\$723.4	\$92.5	13 %

Compensation and benefits. Compensation and benefits increased \$16.2 million for the three months ended June 30, 2017, compared to the same period in 2016, due to increases in annual wages and benefits of approximately \$7.0 million, incentive compensation of approximately \$4.0 million, increased headcount of approximately \$3.0 million, and additional headcount for car repair in Mexico being performed in-house starting in October 2016 of approximately \$2.0 million. Compensation and benefits increased \$23.5 million for the six months ended June 30, 2017, compared to the same period in 2016, due to increases in annual wages and benefits of approximately \$14.0 million, incentive compensation of approximately \$5.0 million, additional headcount for car repair in Mexico being performed in-house starting in October 2016 of approximately \$3.0 million, and increased headcount of approximately \$3.0 million, partially offset by the weakening of the Mexican peso of approximately \$4.0 million. Purchased services. Purchased services expense decreased \$2.3 million and \$4.4 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to car repair in Mexico being performed in-house starting in October 2016, partially offset by an increase in U.S. car repairs, trackage rights, maintenance-related detours, and corporate expenses.

Fuel. Fuel increased \$17.3 million for the three months ended June 30, 2017, compared to the same period in 2016, due to higher diesel fuel prices of approximately \$9.0 million and \$3.0 million in Mexico and the U.S., respectively, and higher consumption of approximately \$7.0 million, partially offset by the weakening of the Mexican peso of approximately \$2.0 million. Fuel increased \$35.9 million for the six months ended June 30, 2017, compared to the same period in 2016, due to higher diesel fuel prices of approximately \$19.0 million and \$12.0 million in Mexico and the U.S., respectively, and higher consumption of approximately \$13.0 million, partially offset by the weakening of the Mexican peso of approximately \$8.0 million. The average price per gallon was \$2.22 and \$2.21 for the three and six months ended June 30, 2017, respectively, compared to \$1.97 and \$1.89 for the same periods in 2016. Mexican fuel excise tax credit. Fuel purchases made in Mexico are subject to an excise tax that is included in the price of fuel. In the second quarter of 2016, the Company determined it was eligible for and could utilize a credit for the excise tax included in the

Table of Contents

price of fuel that is purchased and consumed in locomotives and certain work equipment in Mexico and recognized a \$34.0 million year-to-date benefit in the second quarter of 2016, including \$17.3 million for the first quarter of 2016. For the three and six months ended June 30, 2017, the Company recognized a \$12.8 million and \$24.5 million benefit, respectively. The reduced benefit is also due to a lower excise tax rate in effect for 2017 as compared to 2016. The Mexican fuel excise tax credit is realized through the offset of the total annual Mexico income tax liability and income tax withholding payment obligations of KCSM, with no carryforward to future periods.

Equipment costs. Equipment costs increased \$4.0 million and \$8.5 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to higher car hire expense as a result of increased automotive volumes and rates.

Depreciation and amortization. Depreciation and amortization expense increased \$4.7 million and \$9.7 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to a larger asset base.

Materials and other. Materials and other expense increased \$7.4 million for the three months ended June 30, 2017, compared to the same period in 2016, due to car repair in Mexico being performed in-house starting in October 2016 of approximately \$7.0 million and a net insurance recovery of approximately \$5.0 million recognized in the second quarter of 2016 related to a first quarter flooding event. These increases were partially offset by a decrease in casualty expense of approximately \$3.0 million related to 2016 flooding and storm-related events, as well as a decrease to the personal injury liability of approximately \$2.0 million as a result of changes in estimate due to favorable claims experience. Materials and other expense increased \$9.8 million for the six months ended June 30, 2017, compared to the same period in 2016, due to car repair in Mexico being performed in-house starting in October 2016 of approximately \$12.0 million and the favorable settlement of a legal dispute in the first quarter of 2016 of approximately \$2.0 million. These increases were partially offset by a decrease in casualty expense of approximately \$3.0 million related to 2016 flooding and storm-related events, as well as a decrease to the personal injury liability as a result of changes in estimate due to favorable claims experience of approximately \$2.0 million.

Non-Operating Income and Expenses

Equity in net earnings of affiliates. Equity in net earnings from affiliates remained flat for the three and six months ended June 30, 2017, compared to the same periods in 2016.

Interest expense. Interest expense increased \$0.6 million and \$1.7 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to higher average debt balances, partially offset by lower average interest rates as a result of an increased proportion of commercial paper in the overall debt mix. During the three and six months ended June 30, 2017, the average debt balances (including commercial paper) were \$2,595.5 million and \$2,570.8 million, respectively, compared to \$2,486.0 million and \$2,446.5 million for the same periods in 2016. Average interest rates during the three and six months ended June 30, 2017 were 3.9%, compared to 4.0% for the same periods in 2016.

Foreign exchange gain (loss). For the three and six months ended June 30, 2017, foreign exchange gain was \$14.2 million and \$61.0 million, respectively, compared to a loss of \$24.0 million and \$27.5 million for the same periods in 2016. Foreign exchange gain (loss) includes the re-measurement and settlement of monetary assets and liabilities denominated in Mexican pesos and the gain (loss) on foreign currency derivative contracts.

For the three and six months ended June 30, 2017, the re-measurement and settlement of monetary assets and liabilities denominated in Mexican pesos resulted in a foreign exchange gain of \$5.9 million and \$18.8 million, respectively, compared to a loss of \$6.0 million and \$7.8 million for the same periods in 2016.

The Company enters into foreign currency derivative contracts to hedge its net exposure to fluctuations in the Mexican cash tax obligation due to changes in the value of the Mexican peso against the U.S. dollar. For the three and six months ended June 30, 2017, foreign exchange gain on foreign currency derivative contracts was \$8.3 million and \$42.2 million, respectively, compared to a loss of \$18.0 million and \$19.7 million for the same periods in 2016.

Other income (expense), net. Other income (expense), net increased \$0.6 million and \$1.5 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to an increase in miscellaneous

income.

Income tax expense. Income tax expense increased \$43.3 million and \$77.5 million for the three and six months ended June 30, 2017, respectively, compared to the same periods in 2016, due to higher pre-tax income and a higher effective tax rate due to fluctuations in the foreign exchange rate. The components of the effective tax rates for the three and six months ended June 30, 2017, compared to the same periods in 2016, are as follows:

33

Table of Contents

	Three Months		Six Months	
	Ended		Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Statutory rate in effect	35.0%	35.0%	35.0%	35.0%
Tax effect of:				
Difference between U.S. and foreign tax rate	(2.9 %)	(2.9 %)	(3.0 %)	(2.9 %)
State and local income tax provision, net	1.1 %	1.2 %	1.0 %	1.2 %
Foreign exchange (i)	7.2 %	(3.0 %)	5.7 %	(1.2 %)
Other, net	1.4 %	0.4 %	1.3 %	0.4 %
Effective tax rate	41.8%	30.7%	40.0%	32.5%

Mexican income taxes are paid in Mexican pesos, and as a result, the effective income tax rate reflects fluctuations in the value of the Mexican peso against the U.S. dollar measured by the forward exchange rate. The foreign exchange impact on income taxes includes the gain or loss from the revaluation of net U.S. dollar-denominated monetary liabilities into Mexican pesos which is included in Mexican taxable income under Mexican tax law. As a result, a strengthening of the Mexican peso against the U.S. dollar for the reporting period will generally increase (i) the Mexican cash tax obligation and the effective income tax rate, and a weakening of the Mexican peso against the U.S. dollar for the reporting period will generally decrease the Mexican cash tax obligation and the effective tax rate. To hedge its exposure to this cash tax risk, the Company enters into foreign currency derivative contracts, which are measured at fair value each period and any change in fair value is recognized in foreign exchange gain (loss) within the consolidated statements of income as described above. Refer to Note 7 Derivative Instruments for more information.

Liquidity and Capital Resources

Overview

The Company focuses its cash and capital resources on investing in the business, shareholder returns and optimizing its capital structure.

The Company believes, based on current expectations, that cash and other liquid assets, operating cash flows, access to debt and equity capital markets, and other available financing resources will be sufficient to fund anticipated operating expenses, capital expenditures, debt service costs, dividends, and other commitments in the foreseeable future. The Company's current financing instruments contain restrictive covenants which limit or preclude certain actions; however, the covenants are structured such that the Company expects to have sufficient flexibility to conduct its operations. The Company was in compliance with all of its debt covenants as of June 30, 2017.

Though KCS's cash flows from operations are expected to be sufficient to fund operations, capital expenditures, debt service and dividends, the Company may, from time to time, incur debt to refinance existing indebtedness, purchase equipment under operating leases, repurchase shares or fund equipment additions or new investments.

During the first half of 2017, the Company invested \$253.3 million in capital expenditures.

During the second quarter of 2017, KCS concluded its \$500.0 million share repurchase program, announced in May 2015, by purchasing 701,209 shares of common stock for \$64.7 million at an average price of \$92.27 per share.

During the six months ended June 30, 2017, KCS repurchased 1,340,209 shares of common stock for \$120.4 million at an average price of \$89.83 per share. In total under this program, KCS repurchased 5,601,805 shares of common stock for \$500.0 million at an average price of \$89.25 per share.

During the first and second quarters of 2017, the Company's Board of Directors declared quarterly cash dividends on its common stock of \$0.33 per share (total of \$69.9 million). Subject to the discretion of the Board of Directors, capital availability and a determination that cash dividends continue to be in the best interest of its stockholders, the Company intends to pay a quarterly dividend on an ongoing basis.

For additional discussion of the agreements representing the indebtedness of KCS, see "Note 11, Short-Term Borrowings" and "Note 12, Long-Term Debt" in the "Notes to the Consolidated Financial Statements" section of the

Company's Annual Report on Form 10-K for the year ended December 31, 2016.

On June 30, 2017, total available liquidity (the cash balance plus revolving credit facility availability) was \$663.3 million, compared to availability at December 31, 2016 of \$789.2 million.

As of June 30, 2017, the total cash and cash equivalents held outside of the U.S. in foreign subsidiaries was \$157.3 million. The Company expects that this cash will be available to fund operations without incurring significant additional income taxes.

Table of Contents

KCS's operating results and financing alternatives can be unexpectedly impacted by various factors, some of which are outside of its control. For example, if KCS were to experience a reduction in revenues or a substantial increase in operating costs or other liabilities, its earnings could be significantly reduced, increasing the risk of non-compliance with debt covenants. Additionally, the Company is subject to external factors impacting debt and equity capital markets and its ability to obtain financing under reasonable terms is subject to market conditions. Volatility in capital markets and the tightening of market liquidity could impact KCS's access to capital. Further, KCS's cost of debt can be impacted by independent rating agencies which assign debt ratings based on certain factors including competitive position, credit measurements such as interest coverage and leverage ratios, and liquidity.

Cash Flow Information

Summary cash flow data follows (in millions):

	Six Months Ended June 30, 2017 2016	
Cash flows provided by (used for):		
Operating activities	\$416.9	\$418.1
Investing activities	(337.4)	(283.3)
Financing activities	(83.8)	22.2
Net increase (decrease) in cash and cash equivalents	(4.3)	157.0
Cash and cash equivalents beginning of year	170.6	136.6
Cash and cash equivalents end of period	\$166.3	\$293.6

Cash flows from operating activities decreased \$1.2 million for the six months ended June 30, 2017, compared to the same period in 2016 as cash inflows from working capital decreased \$59.2 million resulting mainly from the timing of certain receipts. This decrease was largely offset by increased net income of \$53.0 million.

Net cash used for investing activities increased \$54.1 million for the six months ended June 30, 2017, compared to the same period in 2016, due to a \$26.9 million increase in capital expenditures, a \$16.5 million increase in expenditures for the purchase or replacement of equipment under existing operating leases, and a \$11.1 million increase in expenditures for other investing activities. Additional information regarding capital expenditures is provided below.

Net cash used for financing activities was \$83.8 million for the six months ended June 30, 2017, compared to net proceeds from financing activities of \$22.2 million for the same period in 2016. This change was primarily due to net proceeds from the issuance of long-term debt of \$248.7 million in 2016 and higher payments for the repurchase of common stock of \$61.2 million in 2017, partially offset by higher net proceeds from the issuance of commercial paper of \$199.9 million in 2017.

Table of Contents

Capital Expenditures

KCSR has funded, and expects to continue to fund capital expenditures with operating cash flows and short and long-term debt.

The following table summarizes capital expenditures by type (in millions):

	Six Months Ended June 30,	
	2017	2016
Roadway capital program	\$127.4	\$148.2
Locomotives and freight cars	25.0	38.1
Capacity	51.9	41.9
Positive train control	27.1	25.3
Information technology	16.3	10.2
Other	5.6	2.5
Total capital expenditures (accrual basis)	253.3	266.2
Change in capital accruals	32.1	(7.7)
Total cash capital expenditures	\$285.4	\$258.5

Purchase or replacement of equipment under operating leases (accrual basis)	\$38.8	\$5.4
---	--------	-------

Change in capital accruals	(16.9)	—
----------------------------	---------	---

Total cash purchase or replacement of equipment under operating leases	\$21.9	\$5.4
--	--------	-------

Generally, the Company's capital program consists of capital replacement and equipment. For 2017, internally generated cash flows are expected to fund cash capital expenditures, which are currently estimated to be between \$550.0 million and \$560.0 million. In addition, the Company periodically reviews its equipment under operating leases. Any additional purchase or replacement of equipment under operating leases during 2017 is expected to be funded with internally generated cash flows and/or short-term debt.

Other Matters

KCSR participates in industry-wide multi-employer bargaining as a member of the National Carriers' Conference Committee, as well as local bargaining for agreements that are limited to KCSR's property. Approximately 75% of KCSR employees are covered by collective bargaining agreements. Long-term settlement agreements were reached and ratified during 2011 and the first half of 2012 covering all of the participating unions. These agreements were in effect through December 2015, and will remain in effect until new agreements are reached.

KCSM Servicios, S.A. de C.V. ("KCSM Servicios"), a wholly owned subsidiary of KCS, provides employee services to KCSM, and KCSM pays KCSM Servicios market-based rates for these services. KCSM Servicios union employees are covered by one labor agreement, which was signed on April 16, 2012, between KCSM Servicios and the Sindicato de Trabajadores Ferrocarrileros de la República Mexicana ("Mexican Railroad Union"), for an indefinite period of time, for the purpose of regulating the relationship between the parties. Approximately 80% of KCSM Servicios employees are covered by this labor agreement. The compensation terms under this labor agreement are subject to renegotiation on an annual basis and all other benefits are subject to negotiation every two years. KCSM Servicios has started negotiations of compensation and all other benefits terms with the Mexican Railroad Union for the period covering July 1, 2017 to June 30, 2018. The anticipated resolution of this negotiation is not expected to have a material impact to the consolidated financial statements.

Union labor negotiations have not historically resulted in any strike, boycott, or other disruption in the Company's business operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Explanation of Responses:

There was no material change during the quarter from the information set forth in Part II, Item 7A. “Quantitative and Qualitative Disclosure about Market Risk” in the Annual Report on Form 10-K for the year ended December 31, 2016.

Table of Contents

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures

As of the end of the period for which this Quarterly Report on Form 10-Q is filed, the Company's Chief Executive Officer and Chief Financial Officer have each reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have each concluded that the Company's current disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting that occurred during the second quarter of 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

For information related to the Company's legal proceedings, see Note 10, Commitments and Contingencies under Part I, Item 1 of this quarterly report on Form 10-Q.

Item 1A. Risk Factors

The following risk factor, which is included in our 2016 Form 10-K, is updated as follows. The remaining risk factors included in our 2016 Form 10-K remain unchanged and are incorporated herein by reference.

KCS's business is subject to regulation by federal, state and local legislatures and agencies that could impose significant cost on the Company's business operations.

Mexican Antitrust Review. Pursuant to the Mexican Antitrust Law and the Regulatory Railways Service Law, on September 12, 2016, the Mexican government's antitrust commission (Comisión Federal de Competencia Económica or "COFECE"), announced that it would review competitive conditions in the Mexican railroad industry, with respect to the existence of effective competition in the provision of interconnection services, trackage rights, switching rights and interline services used to render public freight transport in Mexico. The COFECE review includes the entire freight rail transportation market in Mexico and is not targeted to any single rail carrier.

On March 15, 2017, the COFECE published an executive summary of its preliminary report in the Diario Oficial de la Federación. The COFECE's preliminary report concluded that there was a lack of effective competition in the market for trackage rights ("Relevant Market") throughout the entire networks of Kansas City Southern de Mexico, S.A. de C.V. ("KCSM"), Ferrocarril Mexicano, S.A. de C.V. ("Ferromex"), Ferrosur, S.A. de C.V. ("Ferrosur"), and Ferrocarril y Terminal del Valle de Mexico, S.A. de C.V. ("FTVM").

The Company disagrees with the COFECE's reasoning and preliminary conclusions, and responded on April 20, 2017 with its evidence and arguments to support its position, as provided in the Mexican antitrust law.

On April 27, 2017, the COFECE initiated the incidental procedure to analyze the recusal of two of its commissioners from ongoing proceedings ("Motion to Recuse"). On June 6, 2017, KCSM presented arguments in connection with the Motion to Recuse.

The COFECE has an additional term of up to 110 business days after the decision of the Motion to Recuse to issue a final report in connection with effective competition conditions in the Relevant Market. It is expected a final ruling will be issued around December 2017. It is too early to determine what, if any, impact this review may have on Mexican rail operations in the future. If the COFECE's final report determines there is a lack of effective competition, the COFECE could request the new Mexican Agencia Reguladora del Transporte Ferroviario ("Regulatory Agency of Rail Transportation" or "ARTF"), which has primary regulatory jurisdiction over the Company's Mexican operations, to conduct proceedings to determine whether to establish new limited mandatory trackage rights and/or rate regulation under the Amendments to the Mexican Regulatory Railroad Service Law.
