LINCOLN ELECTRIC HOLDINGS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except per share amounts

NOTE 1 — BASIS OF PRESENTATION

As used in this report, the term “Company,” except as otherwise indicated by the context, means Lincoln Electric Holdings, Inc. and its wholly-owned and majority-owned subsidiaries for which it has a controlling interest. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these unaudited consolidated financial statements do not include all of the information and notes required by GAAP for complete financial statements. However, in the opinion of management, these unaudited consolidated financial statements contain all the adjustments (consisting of normal recurring accruals) considered necessary to present fairly the financial position, results of operations and cash flows for the interim periods. Operating results for the nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for the year ending December 31, 2013.

The accompanying Consolidated Balance Sheet at December 31, 2012 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012.

Certain reclassifications have been made to the prior year financial statements to conform to current year classifications.

Venezuela — Highly Inflationary Economy

Venezuela is a highly inflationary economy under GAAP. As a result, the financial statements of the Company’s Venezuelan operation are reported under highly inflationary accounting rules as of January 1, 2010. Under highly inflationary accounting, the financial statements of the Company’s Venezuelan operation have been remeasured into the Company’s reporting currency and exchange gains and losses from the remeasurement of monetary assets and liabilities are reflected in current earnings. On February 8, 2013, the Venezuelan government announced the devaluation of its currency relative to the U.S. dollar. Effective February 13, 2013, the non-essential rate moved from 4.3 to 6.3 bolivars to the U.S. dollar. The devaluation of the bolivar resulted in a foreign currency transaction loss of \$8,081 in Selling, general & administrative expenses and higher Cost of goods sold of \$4,117 due to the liquidation of inventory valued at the historical exchange rate.

Future impacts to earnings of applying highly inflationary accounting for Venezuela on the Company’s consolidated financial statements will be dependent upon movements in the applicable exchange rates between the bolivar and the U.S. dollar and the amount of monetary assets and liabilities included in the Company’s Venezuelan operation’s balance sheet. The bolivar-denominated monetary net asset position was \$19,104 at September 30, 2013 and \$31,545 at December 31, 2012.

NOTE 2 — EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

| | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|--|-------------------------------------|----------|------------------------------------|-----------|
| | 2013 | 2012 | 2013 | 2012 |

| Net income | \$66,044 | \$64,765 | \$205,456 | \$195,327 |
| Denominator: | | | | |
| Basic weighted average shares outstanding | 81,644 | 82,918 | 82,260 | 83,233 |
| Effect of dilutive securities - Stock options and awards | 1,063 | 998 | 1,054 | 1,093 |
| Diluted weighted average shares outstanding | 82,707 | 83,916 | 83,314 | 84,326 |

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

| | | | | |
|----------------------------|--------|--------|--------|--------|
| Basic earnings per share | \$0.81 | \$0.78 | \$2.50 | \$2.35 |
| Diluted earnings per share | \$0.80 | \$0.77 | \$2.47 | \$2.32 |

For the three months ended September 30, 2013 and 2012, common shares subject to equity-based awards of 44,026 and 461,093, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive. For the nine months ended September 30, 2013 and 2012, common shares subject to equity-based awards of 420,584 and 46,678, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive.

NOTE 3 — NEW ACCOUNTING PRONOUNCEMENTS

New Accounting Standards to be Adopted:

In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2013-11, "Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists." ASU 2013-11 requires an entity to present an unrecognized tax benefit in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward, with limited exceptions. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption and retrospective application is permitted. The Company is currently evaluating the impact of the adoption of ASU 2013-11, but does not expect it will have a significant impact on the Company's financial statements.

In March 2013, the FASB issued ASU No. 2013-05, "Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity." ASU 2013-05 clarifies the applicable guidance for the release of the cumulative translation adjustment under current U.S. GAAP by emphasizing that the accounting for the release of the cumulative translation adjustment into net income for sales or transfers of a controlling financial interest within a foreign entity is the same irrespective of whether the sale or transfer is of a subsidiary or a group of assets that is a nonprofit activity or business. When a reporting entity ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity, the parent is required to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income. The amendments are effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013. The Company is currently evaluating the impact of the adoption of ASU 2013-05 on the Company's financial statements.

NOTE 4 — ACQUISITIONS

On December 31, 2012, the Company completed the acquisition of the privately-held automated systems and tooling manufacturer, Tennessee Rand, Inc. ("Tenn Rand"). Tenn Rand, based in Chattanooga, Tennessee, is a leader in the design and manufacture of tooling and robotic systems for welding applications. The acquisition added tool design, system building and machining capabilities that will enable the Company to further expand its welding automation business. Annual sales for Tenn Rand in 2012 were approximately \$35,000.

On November 13, 2012, the Company completed the acquisition of the Kaliburn, Burny and Cleveland Motion Control businesses (collectively, "Kaliburn") from ITT Corporation. Kaliburn, headquartered in Ladson, South Carolina, is a designer and manufacturer of shape cutting solutions, producer of shape cutting control systems and manufacturer of web tension transducers and engineered machine systems. The acquisitions added to the Company's cutting business portfolio. Annual sales for Kaliburn at the date of acquisition were approximately \$36,000.

On May 17, 2012, the Company completed the acquisition of Wayne Trail Technologies, Inc. ("Wayne Trail"). Wayne Trail, based in Ft. Loramie, Ohio, is a manufacturer of automated systems and tooling, serving a wide range of applications in the metal processing market. The acquisition added to the Company's welding and automated solutions portfolio. Annual sales for Wayne Trail at the date of acquisition were approximately \$50,000.

On March 6, 2012, the Company completed the acquisition of Weartech International, Inc. ("Weartech"). Weartech, based in Anaheim, California, is a producer of cobalt-based hard facing and wear-resistant welding consumables. The acquisition added to the Company's consumables portfolio. Sales for Weartech during 2011 were approximately \$40,000.

The Company acquired Tenn Rand, Kaliburn, Wayne Trail and Weartech for approximately \$143,456 in cash, net of cash acquired and assumed debt. The fair value of net assets acquired was \$71,727, resulting in goodwill of \$71,729. The purchase price allocations for some of the acquisitions are preliminary and subject to final opening balance sheet adjustments.

Pro forma information related to these acquisitions has not been presented because the impact on the Company's Consolidated Statements of Income is not material. Acquired companies are included in the Company's consolidated financial statements as of the date of acquisition.

NOTE 5 — SEGMENT INFORMATION

The Company's primary business is the design and manufacture of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. The Company also has a leading global position in the brazing and soldering alloys market. The Company has aligned its business units into five operating segments to enhance the utilization of the Company's worldwide resources and global end user and sourcing initiatives. The operating segments consist of North America Welding, Europe Welding, Asia Pacific Welding, South America Welding and The Harris Products Group. The North America Welding segment includes welding operations in the United States, Canada and Mexico. The Europe Welding segment includes welding operations in Europe, Russia, Africa and the Middle East. The other two welding segments include welding operations in Asia Pacific and South America, respectively. The fifth segment, The Harris Products Group, includes the Company's global cutting, soldering and brazing businesses as well as the retail business in the United States. Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being earnings before interest and income taxes ("EBIT"), as adjusted. Segment EBIT is adjusted for special items as determined by management such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

Dollars in thousands, except per share amounts

In the third quarter 2013, special items include net charges of \$1,595 and \$49 for rationalization actions in the Europe Welding and Asia Pacific Welding segments, respectively, and a net gain of \$17 in the North America Welding segment primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The Asia Pacific Welding segment special items also include charges of \$4,675 related to impairment of long-lived assets.

In the third quarter 2012, special items include charges of \$477, \$1,914 and \$311 for rationalization actions in the North America Welding, Europe Welding and Asia Pacific Welding segments, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The Asia Pacific Welding segment special items also include a charge of \$397 related to asset impairments.

In the nine months ended September 30, 2013, special items include net charges of \$1,109, \$1,664 and \$756 in the North America Welding, Europe Welding and Asia Pacific Welding segments, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The Asia Pacific Welding segment special items also include charges of \$4,675 related to impairment of long-lived assets. The South America Welding segment special items represent charges of \$12,198 related to the devaluation of the Venezuelan currency.

In the nine months ended September 30, 2012, special items include charges of \$554, \$2,506 and \$900 for rationalization actions in the North America Welding, Europe Welding and Asia Pacific Welding segments, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The Asia Pacific Welding segment special items also include a charge of \$397 related to asset impairments. The South America Welding segment special item represents a charge of \$1,381 related to a change in Venezuelan labor law, which provides for increased employee severance obligations.

NOTE 6 — RATIONALIZATION AND ASSET IMPAIRMENTS

The Company recorded net rationalization charges of \$8,204 for the nine months ended September 30, 2013. The charges include \$3,479 primarily related to employee severance and \$4,881 in asset impairment charges, partially offset by gains of \$156 related to sale of assets. A description of each restructuring plan and the related costs follows:

North America Welding Plans:

During 2012, the Company initiated various rationalization plans within the North America Welding segment. Plans for the segment include consolidating its Oceanside, California operations and its Reno, Nevada operations to another facility in Reno, Nevada and consolidating its Baltimore, Maryland manufacturing operations into its current manufacturing operations in Cleveland, Ohio. These actions impacted 72 employees within the North America Welding segment. During the nine months ended September 30, 2013, the Company recorded charges of \$1,109, which represent employee severance and other related costs. At September 30, 2013, a liability relating to these actions of \$614 was recognized in Other current liabilities, which will be substantially paid in 2013. Additional charges related to the completion of this plan are expected to be immaterial.

Europe Welding Plans:

The Company initiated a rationalization plan within the Europe Welding segment to consolidate certain consumable manufacturing operations. These actions are expected to impact 56 employees within the Europe Welding segment. During the nine months ended September 30, 2013, the Company recorded charges of \$1,518 related to these activities which represents employee severance and other related costs. At September 30, 2013, a liability relating to these actions of \$1,518 was recognized in Other current liabilities. The Company expects to incur additional charges in the range of \$600 to \$1,500 related to the completion of this plan.

During 2012, the Company initiated various rationalization plans within the Europe Welding segment. Plans for the segment include the consolidation of manufacturing facilities in Russia, relocation of its Italian machine manufacturing operations to current facilities in Poland and headcount restructuring at various other manufacturing operations within the segment to better align the cost structure and capacity requirements with current economic needs

and conditions. These actions impacted 285 employees within the Europe Welding segment. During the nine months ended September 30, 2013, the Company recorded net charges of \$146 related to these activities. The amount represents employee severance and other related costs partially offset by a gain on sale of assets. At September 30, 2013, a liability relating to these actions of \$1,315 was recognized in Other current liabilities, which will be substantially paid in 2013. Additional charges related to the completion of this plan are expected to be immaterial.

Asia Pacific Welding Plans:

During 2012, the Company initiated various rationalization plans within the Asia Pacific Welding segment. Plans for the segment include the rationalization of its Australian manufacturing operations and headcount restructuring at various other manufacturing operations within the segment to better align the cost structure and capacity requirements with current economic needs and conditions. These actions impacted 268 employees within the Asia Pacific Welding segment. During the nine months ended September 30, 2013, the Company recorded net charges of \$756, which represent employee severance and other related costs of \$704 and asset impairment charges of \$206, partially offset by gains of \$154 from the sale of assets. At September 30, 2013, a liability relating to these actions of \$461 was recognized in Other current liabilities, which will be substantially paid in 2013. Additional charges related to the completion of this plan are expected to be immaterial.

The Company continues evaluating its cost structure and additional rationalization actions may result in charges in future periods.

In the third quarter 2013, the Company recorded long-lived asset impairment charges of \$4,675 in Rationalization and asset impairment charges. The charge is the result of the Company removing capacity to align itself with current market conditions and improve operating efficiency.

The following tables summarize the activity related to the rationalization liabilities by segment for the nine months ended September 30, 2013:

NOTE 10 — INVENTORY VALUATION

Inventories are valued at the lower of cost or market. Fixed manufacturing overhead costs are allocated to inventory based on normal production capacity and abnormal manufacturing costs are recognized as period costs. For most domestic inventories, cost is determined principally by the last-in, first-out (“LIFO”) method, and for non-U.S. inventories, cost is determined by the first-in, first-out (“FIFO”) method. The valuation of LIFO inventories is made at the end of each year based on inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management’s estimates of expected year-end inventory levels and costs. Actual year-end costs and inventory levels may differ from interim LIFO inventory valuations. The excess of current cost over LIFO cost was \$74,599 and \$72,173 at September 30, 2013 and December 31, 2012, respectively.

NOTE 11 — ACCRUED EMPLOYEE BONUS

“Other current liabilities” at September 30, 2013 and 2012 include accruals for year-end bonuses and related payroll taxes of \$107,049 and \$105,685, respectively, related to the Company’s employees worldwide. The payment of bonuses is discretionary and subject to approval by the Board of Directors. A majority of annual bonuses are paid in December, resulting in an increasing bonus accrual during the Company’s fiscal year.

NOTE 12 — CONTINGENCIES

The Company, like other manufacturers, is subject from time to time to a variety of civil and administrative proceedings arising in the ordinary course of business. Such claims and litigation include, without limitation, product liability claims and health, safety and environmental claims, some of which relate to cases alleging asbestos induced illnesses. The claimants in the asbestos cases seek compensatory and punitive damages, in most cases for unspecified amounts. The Company believes it has meritorious defenses to these claims and intends to contest such suits vigorously.

The Company’s accrual for contingent liabilities was \$3,930 as of September 30, 2013 and \$5,636 as of December 31, 2012. The accrual is included in Other current liabilities. The Company also recognized an asset for recoveries from insurance carriers related to the insured claims outstanding of \$545 as of September 30, 2013 and \$1,311 as of December 31, 2012. The asset is included in Other current assets.

The Company accrues its best estimate of the probable costs, after a review of the facts with management and counsel and taking into account past experience. If an unfavorable outcome is determined to be reasonably possible but not probable, or if the amount of loss cannot be reasonably estimated, disclosure is provided for material claims or litigation. Many of the current cases are in differing procedural stages and information on the circumstances of each claimant, which forms the basis for judgments as to the validity or ultimate disposition of such actions, varies greatly. Therefore, in many situations a range of possible losses cannot be made. Reserves are adjusted as facts and circumstances change and related management assessments of the underlying merits and the likelihood of outcomes change. Moreover, reserves only cover identified and/or asserted claims. Future claims could, therefore, give rise to increases to such reserves.

Based on the Company's historical experience in litigating product liability claims, including a significant number of dismissals, summary judgments and defense verdicts in many cases and immaterial settlement amounts, as well as the Company's current assessment of the underlying merits of the claims and applicable insurance, the Company believes resolution of these claims and proceedings, individually or in the aggregate, will not have a material effect on the Company's consolidated financial statements.

NOTE 13 — PRODUCT WARRANTY COSTS

The Company accrues for product warranty claims based on historical experience and the expected material and labor costs to provide warranty service. Warranty services are generally provided for periods up to three years from the date of sale. The accrual for product warranty claims is included in “Other current liabilities.”

The changes in the carrying amount of product warranty accruals for the nine months ended September 30, 2013 and 2012 are as follows:

| | Nine Months Ended September 30, | |
|--------------------------------|---------------------------------|-----------|
| | 2013 | 2012 |

NOTE 14 — DEBT

The Company has a line of credit totaling \$300,000 through the Amended and Restated Credit Agreement (the “Credit Agreement”), which was entered into on July 26, 2012. The Credit Agreement contains customary affirmative, negative and financial covenants for credit facilities of this type, including limitations on the Company and its subsidiaries with respect to liens, investments, distributions, mergers and acquisitions, dispositions of assets, transactions with affiliates and a fixed charges coverage ratio and total leverage ratio. As of September 30, 2013, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement. The Credit Agreement has a five-year term and may be increased, subject to certain conditions, by an additional amount up to \$100,000. The interest rate on borrowings is based on either LIBOR or the prime rate, plus a spread based on the Company’s leverage ratio, at the Company’s election.

The Company voluntarily contributed \$75,216 to its defined benefit plans in the United States during the nine months ended September 30, 2013.

NOTE 16 — INCOME TAXES

The Company recognized \$91,431 of tax expense on pre-tax income of \$295,053, resulting in an effective income tax rate of 31.0% for the nine months ended September 30, 2013. The effective income tax rate is lower than the Company’s statutory rate primarily due to income earned in lower tax rate jurisdictions, reversal of valuation allowance on deferred tax assets more-likely-than-not to be realized, U.S. tax credits and deductions and the utilization of foreign tax loss carry-forwards for which valuation allowances had been previously provided partially offset by the establishment of deferred tax liabilities for the planned repatriation of foreign earnings.

The effective income tax rate of 30.8% for the nine months ended September 30, 2012 was lower than the Company’s statutory rate primarily due to income earned in lower tax rate jurisdictions and the utilization of foreign tax loss carry-forwards for which valuation allowances had been previously provided.

The anticipated effective income tax rate for 2013 depends on the amount of earnings in various tax jurisdictions and the level of related tax deductions achieved during the year.

As of September 30, 2013, the Company had \$24,084 of unrecognized tax benefits. If recognized, approximately \$14,130 would be reflected as a component of income tax expense.

The Company files income tax returns in the U.S. and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009. The Company is currently subject to an IRS audit for 2010-2011, various U.S. state audits, a Canadian tax audit for 2003-2010, an Indian tax audit for 2012 and an Indonesian tax audit for

2003-2007. Except as discussed below, the Company does not expect the results of these examinations to have a material effect on the Company's consolidated financial statements.

Unrecognized tax benefits are reviewed on an ongoing basis and are adjusted for changing facts and circumstances, including progress of tax audits and closing of statutes of limitations. Based on information currently available, management believes that additional audit activity could be completed and/or statutes of limitations may close relating to existing unrecognized tax benefits. It is reasonably possible there could be a reduction of \$3,619 in prior years' unrecognized tax benefits by the end of the third quarter 2014.

In July 2012, the Company received a Notice of Reassessment from the Canada Revenue Agency (the "CRA") for 2004 to 2011, which would disallow the deductibility of inter-company dividends. These adjustments would increase Canadian federal and provincial tax due by \$60,711 plus approximately \$16,536 of interest, net of tax. The Company disagrees with the position taken by the CRA and believes it is without merit. The Company will vigorously contest the assessment through the Tax Court of Canada. A trial date has not yet been scheduled.

In connection with the litigation process, the Company is required to deposit no less than one-half of the tax and interest assessed by the CRA. The Company has elected to deposit the entire amount of the dispute in order to suspend the continuing accrual of a 5% interest charge. Additionally, deposited amounts will earn interest of approximately 1% due upon a favorable outcome. A deposit was made and is recorded as a non-current asset valued at \$86,827 as of September 30, 2013. Any Canadian tax ultimately due will be creditable in the parent company's U.S. federal tax return. The Company expects to be able to utilize the full amount of foreign tax credits generated in the statutorily allowed carry-back and carry-forward periods. Accordingly, should the Company not prevail in this dispute, the income statement charge will approximate the deficiency interest, net of tax.

The Company believes it will prevail on the merits of the tax position. In accordance with prescribed recognition and measurement thresholds, no income tax accrual has been made for any uncertain tax positions related to the CRA reassessment. An unfavorable resolution of this matter could have a material effect on the Company's financial statements in the quarter in which a judgment is reached.

NOTE 17 — DERIVATIVES

The Company uses derivatives to manage exposures to currency exchange rates, interest rates and commodity prices arising in the normal course of business. Derivative contracts to hedge currency and commodity exposures are generally written on a short-term basis but may cover exposures for up to two years while interest rate contracts may cover longer periods consistent with the terms of the underlying debt. The Company does not enter into derivatives for trading or speculative purposes.

All derivatives are recognized at fair value on the Company's Consolidated Balance Sheets. The accounting for gains and losses resulting from changes in fair value depends on the use of the derivative and whether it is designated and qualifies for hedge accounting. The Company formally documents the relationship of the hedge with the hedged item as well as the risk-management strategy for all designated hedges. Both at inception and on an ongoing basis, the hedging instrument is assessed as to its effectiveness, when applicable. If and when a derivative is determined not to be highly effective as a hedge, the underlying hedged transaction is no longer likely to occur, or the derivative is terminated, hedge accounting is discontinued. The cash flows from settled derivative contracts are recognized in operating activities in the Company's Consolidated Statements of Cash Flows. Hedge ineffectiveness was immaterial in the nine months ended September 30, 2013 and 2012.

The Company is subject to the credit risk of the counterparties to derivative instruments. Counterparties include a number of major banks and financial institutions. The Company manages individual counterparty exposure by monitoring the credit rating of the counterparty and the size of financial commitments and exposures between the Company and the counterparty. None of the concentrations of risk with any individual counterparty was considered significant at September 30, 2013. The Company does not expect any counterparties to fail to meet their obligations.

Cash Flow Hedges

Certain foreign currency forward contracts were qualified and designated as cash flow hedges. The dollar equivalent gross notional amount of these short-term contracts was \$45,359 and \$39,597 at September 30, 2013 and

December 31, 2012, respectively. The effective portions of the fair value gains or losses on these cash flow hedges are recognized in AOCI and subsequently reclassified to Cost of goods sold or Sales for hedges of purchases and sales, respectively, as the underlying hedged transactions affect earnings.

Net Investment Hedges

The Company has a foreign currency forward contract that qualifies and is designated as a net investment hedge. The dollar equivalent gross notional amount of this short-term contract was \$7,444 at September 30, 2013. The effective portion of the fair value gain or loss on this net investment hedge is recognized in AOCI and subsequently reclassified to Selling, general and administrative expenses, as the underlying hedged investment is liquidated.

Derivatives Not Designated as Hedging Instruments

The Company has certain foreign exchange forward contracts that are not designated as hedges. These derivatives are held as economic hedges of certain balance sheet exposures. The dollar equivalent gross notional amount of these contracts was \$245,101 and \$189,259 at September 30, 2013 and December 31, 2012, respectively. The fair value gains or losses from these contracts are recognized in Selling, general and administrative expenses, offsetting the losses or gains on the exposures being hedged.

The Company had short-term silver and copper forward contracts with notional amounts of 310,000 troy ounces and 375,000 pounds, respectively, at September 30, 2013. The notional amount of short-term silver and copper forward contracts was 275,000 troy ounces and 375,000 pounds, respectively, at December 31, 2012. Realized and unrealized gains and losses on these contracts are recognized in Costs of goods sold.

Fair values of derivative instruments in the Company's Consolidated Balance Sheets follow:

The Company expects a loss of \$67 related to existing contracts to be reclassified from AOCI, net of tax, to earnings over the next 12 months as the hedged transactions are realized.

NOTE 18 - FAIR VALUE

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The following hierarchy is used to classify the inputs used to measure fair value:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 Unobservable inputs for the asset or liability.

The following table provides a summary of assets and liabilities as of September 30, 2013, measured at fair value on a recurring basis:

| Description | Balance as of September 30, 2013 | Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|----------------------------|--|--|---|--|
| Assets: | | | | |
| Foreign exchange contracts | \$1,370 | \$— | \$1,370 | \$— |
| Commodity contracts | 289 | — | 289 | — |
| Total assets | \$1,659 | \$— | \$1,659 | \$— |
| Liabilities: | | | | |

The following table provides a summary of assets and liabilities as of December 31, 2012, measured at fair value on a recurring basis:

| Description | Balance as of December 31, 2012 | Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|----------------------------|---------------------------------------|--|---|--|
| Assets: | | | | |

| Commodity contracts | 731 | — | 731 | — |
| Total assets | \$1,593 | \$— | \$1,593 | \$— |
| Liabilities: | | | | |
| Foreign exchange contracts | \$1,227 | \$— | \$1,227 | \$— |
| Contingent consideration | 4,894 | — | — | 4,894 |
| Deferred compensation | 16,882 | — | 16,882 | — |
| Total liabilities | \$23,003 | \$— | \$18,109 | \$4,894 |

The Company's derivative contracts are valued at fair value using the market approach. The Company measures the fair value of foreign exchange contracts and net investment contracts using Level 2 inputs based on observable spot and forward rates in active markets. The Company measures the fair value of commodity contracts using Level 2 inputs through observable market transactions in active markets provided by financial institutions. During the nine months ended September 30, 2013, there were no transfers between Levels 1, 2 or 3.

In connection with an acquisition, the Company recorded a contingent consideration fair valued at \$5,250 as of September 30, 2013, which reflects a \$356 increase in the liability from December 31, 2012. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The fair value of the contingent consideration is a Level 3 valuation and fair valued using a probability weighted discounted cash flow analysis. The discounted cash flow utilized weighted average inputs, including a risk-based discount rate of 9.7% and a compounded annual revenue growth rate of 30.5%. The discount rate was determined using discount rates of 3.5% reflective of the Company's cost of debt and 14.1% as a risk adjusted cost of capital and the compounded annual revenue growth rate was determined using various scenarios with growth ranging from remaining relatively flat to growth rates of up to 65.6%.

The deferred compensation liability is the Company's obligation under its executive deferred compensation plan. The Company measures the fair value of the liability using the market values of the participants' underlying investment fund elections.

The fair value of "Cash and cash equivalents," "Accounts receivable," "Amounts due banks" and "Trade accounts payable" approximated book value due to the short-term nature of these instruments at both September 30, 2013 and December 31, 2012. The fair value of long-term debt at September 30, 2013 and December 31, 2012, including the current portion, was approximately \$1,503 and \$1,919, respectively, which was determined using available market information and methodologies requiring judgment. The carrying value of this debt at such dates was \$1,674 and \$2,055, respectively. Since considerable judgment is required in interpreting market information, the fair value of the debt is not necessarily the amount that could be realized in a current market exchange.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Dollars in thousands, except per share amounts)

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read together with the Company's unaudited consolidated financial statements and other financial information included elsewhere in this Quarterly Report on Form 10-Q.

General

The Company is the world's largest designer and manufacturer of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. Welding products include arc welding power sources, wire feeding systems, robotic welding packages, fume extraction equipment, consumable electrodes and fluxes. The Company's product offering also includes computer numeric controlled plasma and oxy-fuel cutting systems and regulators and torches used in oxy-fuel welding, cutting and brazing. In addition, the Company has a leading global position in the brazing and soldering alloys market.

The Company's products are sold in both domestic and international markets. In North America, products are sold principally through industrial distributors, retailers and also directly to users of welding products. Outside of North America, the Company has an international sales organization comprised of Company employees and agents who sell products from the Company's various manufacturing sites to distributors and product users.

| Net income | \$66,044 | 9.5 % | \$64,765 | 9.3 % | \$1,279 | 2.0 % | | |

Net Sales: Net sales for the third quarter of 2013 decreased 0.8% from the third quarter 2012. The sales decrease reflects volume decreases of 2.5%, price increases of 0.1%, increases from acquisitions of 2.2% and unfavorable impacts from foreign exchange of 0.6%. Sales volumes decreased as a result of soft demand in both domestic and international markets.

Gross Profit: Gross profit increased 9.1% to \$232,697 for the third quarter 2013 compared with \$213,362 in the third quarter 2012. As a percentage of Net sales, Gross profit increased to 33.6% in the third quarter 2013 from 30.6% in the third quarter 2012. The increase was the result of geographic mix and pricing stability in the wake of lower year over year input costs. The current period includes charges of \$2,521 for inventory write-downs, partially offset by a gain of \$1,672 from insurance proceeds associated with a fire at a manufacturing operation. Foreign currency

exchange rates had a \$1,533 unfavorable translation impact in the third quarter 2013.

22

Selling, General & Administrative (“SG&A”) Expenses: SG&A expenses were higher by \$9,615, or 7.9%, in the third quarter 2013 compared with the third quarter of 2012. As a percentage of Net sales, SG&A expenses were 19.0% and 17.4% in the third quarter 2013 and 2012, respectively. The increase in SG&A expenses was predominantly due to higher general and administrative spending of \$5,466 primarily related to additional employee compensation costs and increased SG&A expenses from acquisitions of \$3,392.

Equity Earnings in Affiliates: Equity earnings in affiliates were \$1,170 in the third quarter 2013 compared with earnings of \$1,566 in the third quarter of 2012. The decrease was due to decreased earnings in Turkey and Chile.

Interest Expense: Interest expense decreased to \$558 in the third quarter 2013 from \$1,040 in the third quarter of 2012 as a result of lower levels of debt in the current period.

Income Taxes: The Company recognized \$33,588 of tax expense on pre-tax income of \$97,840, resulting in an effective income tax rate of 34.3% for the three months ended September 30, 2013 compared with an effective income tax rate of 28.8% in the third quarter of 2012. The higher effective income tax rate in the current period reflects a change in the mix of geographic earnings, the impact of losses incurred at certain non-U.S. entities for which no tax benefit was provided and the establishment of deferred tax liabilities for the planned repatriation of foreign earnings.

Net Income: Net income for the third quarter 2013 was \$66,044 compared with Net income of \$64,765 in the third quarter of 2012. Diluted earnings per share for the third quarter 2013 were \$0.80 compared with \$0.77 in the third quarter of 2012. Foreign currency exchange rate movements had an unfavorable translation effect of \$556 on Net income for the third quarter of 2013.

Segment Results

Net Sales: The table below summarizes the impacts of volume, acquisitions, price and foreign currency exchange rates on Net sales for the three months ended September 30, 2013:

| | Net Sales 2012 | Change in Net Sales due to: | | | | | Net Sales 2013 |

| Consolidated | | (2.5 %) | 2.2 % | 0.1 % | (0.6 %) | (0.8 %) | |

Net sales volumes for the third quarter of 2013 decreased for all operating segments except for the South America Welding segment, as a result of soft demand in both domestic and international markets. Net sales volumes in the South America Welding segment increased as a result of increased demand in Brazil. Net sales volumes in The Harris Products Group segment remained flat. Product pricing in the North America Welding and Europe Welding segments increased slightly due to the realization of price increases and improved pricing management. Product pricing decreased for the Asia Pacific Welding segment due to lower raw material costs and competitive pricing conditions. Product pricing in the South America Welding segment reflects a highly inflationary environment, particularly in Venezuela, and pricing increases in Brazil. Product pricing decreased for The Harris Products Group segment because of significant decreases in the costs of silver and copper as compared to the prior year period. The increase in Net sales from acquisitions was due to the acquisitions of Tennessee Rand, Inc. ("Tenn Rand") in December 2012 and the Kaliburn, Burny and Cleveland Motion Control businesses (collectively, "Kaliburn") in November 2012 (see the "Acquisitions" section below for additional information regarding the acquisitions). With respect to changes in Net sales due to foreign exchange, all segments, except for the Europe Welding segment, decreased due to a stronger U.S. dollar. The Europe Welding segment increased primarily due to a stronger euro.

Earnings Before Interest and Income Taxes (“EBIT”), as Adjusted: Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being EBIT, as adjusted. The following table presents EBIT, as adjusted for the three months ended September 30, 2013 by segment compared with the comparable period in 2012:

EBIT, as adjusted as a percent of total sales increased for the North America Welding segment in the three months ended September 30, 2013 as compared with the same period of the prior year primarily due to improved pricing and lower material costs. The decrease in the Europe Welding segment is primarily due to volume decreases of 8.2% and increased SG&A expenses. The Asia Pacific Welding segment decrease is due to lower profitability in Australia and China due to weaker demand. The South America Welding segment increase is a result of improving results in Brazil and pricing increases as a result of the highly inflationary economy in Venezuela. The Harris Products Group

segment decrease is primarily a result of lower commodity prices leading to lower margins.

In the three months ended September 30, 2013, special items include net charges of \$1,595 and \$49 for rationalization actions in the Europe Welding and Asia Pacific Welding segments, respectively, and a net gain of \$17 in the North America Welding segment primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The Asia Pacific Welding segment special items also include charges of \$4,675 related to impairment of long-lived assets.

In the three months ended September 30, 2012, special items include net charges of \$477, \$1,874 and \$708 for rationalization actions in the North America Welding, Europe Welding and Asia Pacific Welding segments, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations.

Net Sales: Net sales for the nine months ended September 30, 2013 decreased 1.4% from the comparable period in 2012. The sales decrease reflects volume decreases of 4.5%, price increases of 0.1%, increases from acquisitions of 3.6% and unfavorable impacts from foreign exchange of 0.6%. Sales volumes decreased as a result of soft demand in both domestic and international markets.

Gross Profit: Gross profit increased 7.0% to \$699,607 for the nine months ended September 30, 2013 compared with \$653,624 in the comparable period in 2012. As a percentage of Net sales, Gross profit increased to 32.7% in the nine months ended September 30, 2013 from 30.1% in the comparable period in 2012. The increase was the result of geographic mix and pricing stability in the wake of lower year over year input costs. The current period includes incremental costs of \$4,117 due to the devaluation of the Venezuelan currency and charges of \$2,521 for inventory write-downs, partially offset by a gain of \$1,672 from insurance proceeds associated with a fire at a manufacturing operation. The prior year period includes charges of \$1,039 due to a change in Venezuelan labor law, which provides for increased employee severance obligations. Foreign currency exchange rates had a \$3,979 unfavorable translation impact in the nine months ended September 30, 2013.

Selling, General & Administrative (“SG&A”) Expenses: SG&A expenses were higher by \$30,392, or 8.1%, in the nine months ended September 30, 2013 compared with the comparable period in 2012. As a percentage of Net sales, SG&A expenses were 18.9% and 17.2% in the nine months ended September 30, 2013 and 2012, respectively. The

increase in SG&A expenses was predominantly due to increased SG&A expenses from acquisitions of \$15,780, higher general and administrative spending of \$13,233 primarily related to additional employee compensation costs and higher foreign exchange transaction losses of \$6,791, which include a charge of \$8,081 due to the devaluation of the Venezuelan currency, partially offset by lower bonus expense of \$2,952 and lower foreign currency translation of \$2,310.

Table of Contents

Equity Earnings in Affiliates: Equity earnings in affiliates were \$3,687 in the nine months ended September 30, 2013 compared with earnings of \$4,264 in the comparable period in 2012. The decrease was due to a decrease in earnings in Turkey and Chile.

Interest Expense: Interest expense decreased to \$2,307 in the nine months ended September 30, 2013 from \$3,338 in the comparable period in 2012 as a result of lower levels of debt in the nine months ended September 30, 2013.

Income Taxes: The Company recognized \$91,431 of tax expense on pre-tax income of \$295,053, resulting in an effective income tax rate of 31.0% for the nine months ended September 30, 2013 compared with an effective income tax rate of 30.8% for the nine months ended September 30, 2012.

Net Income: Net income for the nine months ended September 30, 2013 was \$205,456 compared with Net income of \$195,327 in the nine months ended September 30, 2012. Diluted earnings per share for the nine months ended September 30, 2013 was \$2.47 compared with \$2.32 in the comparable period in 2012. Foreign currency exchange rate movements had an unfavorable translation effect of \$1,044 on Net income for the nine months ended September 30, 2013.

Net sales volumes for the nine months ended September 30, 2013 decreased for all operating segments except for the South America Welding segment, as result of soft demand in both domestic and international markets. Net sales volumes in the South America Welding segment increased as a result of increased demand in Brazil. Product pricing in the North America Welding segment increased slightly due to the realization of price increases and improved pricing management. Product pricing in the Europe Welding segment decreased due to declining raw material costs. Product pricing decreased for the Asia Pacific Welding segment due to lower raw material costs and competitive pricing conditions. Product pricing in the South America Welding segment reflects a highly inflationary environment, particularly in Venezuela, and pricing increases in Brazil. Product pricing decreased for The Harris Products Group segment because of significant decreases in the costs of silver and copper as compared to the prior year period. The

increase in Net sales from acquisitions was due to the acquisitions of Tenn Rand in December 2012, Kaliburn in November 2012, Wayne Trail Technologies, Inc. ("Wayne Trail") in May 2012 and Weartech International, Inc. ("Weartech") in March 2012 (see the "Acquisitions" section below for additional information regarding the acquisitions). With respect to changes in Net sales due to foreign exchange, all segments decreased due to a stronger U.S. dollar.

EBIT, as adjusted as a percent of total sales increased for the North America Welding segment in the nine months ended September 30, 2013 as compared with the same period of the prior year primarily due to improved pricing and lower material costs. The decrease in the Europe Welding segment is primarily due to volume decreases of 6.7%. The Asia Pacific Welding segment decrease is due to lower profitability in Australia and China due to weaker demand.

The South America Welding segment increase is a result of improving results in Brazil and pricing increases as a result of the highly inflationary economy in Venezuela. The Harris Products Group segment decrease is primarily a result of lower commodity prices leading to lower margins, and higher SG&A expenses.

Table of Contents

In the nine months ended September 30, 2013, special items include net charges of \$1,109, \$1,664 and \$756 in the North America Welding, Europe Welding and Asia Pacific Welding segments, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The Asia Pacific Welding segment special items also include charges of \$4,675 related to impairment of long-lived assets. The South America Welding segment special items represent charges of \$12,198 related to the devaluation of the Venezuelan currency.

In the nine months ended September 30, 2012, special items include net charges of \$554, \$2,466 and \$1,297 for rationalization actions in the North America Welding, Europe Welding and Asia Pacific Welding segments, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations. The South America Welding segment special item represents a charge of \$1,381 related to a change in Venezuelan labor law, which provides for increased employee severance obligations.

Non-GAAP Financial Measures

The Company reviews Adjusted operating income, Adjusted net income and Adjusted diluted earnings per share, all non-GAAP financial measures, in assessing and evaluating the Company's underlying operating performance. These non-GAAP financial measures exclude the impact of special items on the Company's reported financial results. Non-GAAP financial measures should be read in conjunction with the GAAP financial measures, as non-GAAP measures are a supplement to, and not a replacement for, GAAP financial measures.

The following table presents a reconciliation of Operating income as reported to Adjusted operating income:

| | Three Months Ended September 30, | | Nine Months Ended September 30, | |

Special items included in Net income during the three and nine month periods ended September 30, 2013 include net rationalization and asset impairment charges of \$6,098 and \$7,350, respectively, related to employee severance and other costs associated with the consolidation of manufacturing operations and impairment of long-lived assets. Associated with the impairment of long-lived assets is an offsetting special item of \$1,021 attributable to non-controlling interests. Special items for the nine months ended September 30, 2013 also include charges of \$12,198 related to the devaluation of the Venezuelan currency.

Special items included in Net income during the three and nine month periods ended September 30, 2012 include net rationalization and asset impairment charges of \$2,704 and \$3,619, respectively, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations in the North America Welding, Europe Welding and Asia Pacific Welding segments resulting from actions initiated in 2012. Special items for the nine months ended September 30, 2012 also include a charge of \$906 related to a change in Venezuelan labor law, which provides for increased employee severance obligations in the South America Welding segment.

Liquidity and Capital Resources

The Company's cash flow from operations can be cyclical. Operational cash flow is a key driver of liquidity, providing cash and access to capital markets. In assessing liquidity, the Company reviews working capital measurements to define areas for improvement. Management anticipates the Company will be able to satisfy cash requirements for its ongoing businesses for the foreseeable future primarily with cash generated by operations, existing cash balances and, if necessary, borrowings under its existing credit facilities.

The Company continues to expand globally and periodically looks at transactions that would involve significant investments. The Company can fund its global expansion plans with operational cash flow, but a significant acquisition may require access to capital markets, in particular, the long-term debt market, as well as the syndicated bank loan market. The Company's financing strategy is to fund itself at the lowest after-tax cost of funding. Where possible, the Company utilizes operational cash flows and raises capital in the most efficient market, usually the United States, and then lends funds to the specific subsidiary that requires funding. If additional acquisitions providing appropriate financial benefits become available, additional expenditures may be made.

| Cash dividends paid to shareholders | (32,987) | (42,510) | 9,523 |
| Other financing activities | (2,809) | — | (2,809) |
| Increase (decrease) in Cash and cash equivalents | 43,845 | (20,426) | |

Cash and cash equivalents increased 15.3% or \$43,845 during the nine months ended September 30, 2013 to \$330,309 from \$286,464 as of December 31, 2012. This increase was predominantly due to a decrease in cash used in the acquisition of businesses of \$47,915 and a decrease in net payments on long-term borrowings of \$84,324 offset by higher net operating working capital requirements, a voluntary contribution of \$75,216 to the Company's U.S. pension plans, an increase of \$21,939 from the comparable period in 2012 and cash used in the purchases of common shares for treasury of \$113,641, an increase of \$53,486. Additionally, in the nine months ended September 30, 2012, a deposit of \$56,016 for tax and interest assessed by the Canada Revenue Agency ("CRA") was made, which did not recur in the current period. The increase in Cash and cash equivalents during the nine months ended September 30, 2013 compares to a decrease of 5.7% or \$20,426 to \$340,675 during the nine months ended September 30, 2012.

Cash provided by operating activities decreased by \$1,250 for the nine months ended September 30, 2013, compared with the nine months ended September 30, 2012. The decrease was predominantly due to higher net operating working capital requirements and an increase in contributions to the Company's U.S. pension plans of \$21,939 in the nine months ended September 30, 2013 compared with the nine months ended September 30, 2012. This is offset by the \$56,016 deposit made in the nine months ended September 30, 2012 for tax and interest assessed by the CRA, which did not recur in the current period. Net operating working capital is defined as the sum of Accounts receivable and Total inventory less Trade accounts payable. Net operating working capital to sales, defined as net operating working capital divided by annualized rolling three months of Net sales, increased to 20.5% at September 30, 2013 compared with 18.8% at December 31, 2012 and decreased compared with 21.4% at September 30, 2012. Days sales in inventory increased to 101.2 days at September 30, 2013 from 94.3 days at December 31, 2012 and 97.3 days at September 30, 2012. Accounts receivable days increased to 52.6 days at September 30, 2013 from 51.8 days at December 31, 2012 and decreased from 54.1 at September 30, 2012. Average days in accounts payable decreased to 38.8 days at September 30, 2013 from 43.9 days at December 31, 2012 and increased from 37.7 days at September 30, 2012.

Cash used by investing activities for the nine months ended September 30, 2013 compared with the nine months ended September 30, 2012 decreased by \$25,113. The decrease is predominantly due to a decrease in cash used in the acquisition of businesses of \$47,915 offset by an increase of \$20,384 in capital expenditures. In the nine months ended September 30, 2013, capital expenditures include a building purchase in Venezuela of \$11,400. The Company currently anticipates capital expenditures of \$75,000 in 2013. Anticipated capital expenditures reflect investments for capital maintenance and to improve operational effectiveness. Management critically evaluates all proposed capital expenditures and requires each project to increase efficiency, reduce costs, promote business growth, or improve the overall safety and environmental conditions of the Company's facilities.

Cash used by financing activities decreased by \$43,639 to \$128,738 in the nine months ended September 30, 2013 compared with the nine months ended September 30, 2012. The decrease was predominantly due to lower net payments of long-term borrowings of \$84,324, lower cash dividends paid to shareholders of \$9,523 partially offset by higher purchases of common shares for treasury of \$53,486.

The Company's debt levels decreased from \$20,275 at December 31, 2012 to \$16,143 at September 30, 2013. Debt to total invested capital decreased to 1.1% at September 30, 2013 from 1.5% at December 31, 2012.

In October 2013, the Company paid a cash dividend of \$0.20 per share, or \$16,289, to shareholders of record on September 30, 2013.

Canada — Notice of Reassessment

As discussed in Note 16 to the consolidated financial statements, in July 2012, the Company received a Notice of Reassessment from the CRA for 2004 to 2011, which would disallow the deductibility of inter-company dividends. These adjustments would increase Canadian federal and provincial tax due by \$60,711 plus approximately \$16,536 of interest, net of tax. The Company disagrees with the position taken by the CRA and believes it is without merit. The Company will vigorously contest the assessment through the Tax Court of Canada. A trial date has not yet been scheduled.

In connection with the litigation process, the Company is required to deposit no less than one-half of the tax and interest assessed by the CRA. The Company has elected to deposit the entire amount of the dispute in order to suspend the continuing accrual of a 5% interest charge. Additionally, deposited amounts will earn interest of approximately 1% due upon a favorable outcome. A deposit was made in 2012 and is recorded as a non-current asset as of September 30, 2013. Although the Company believes it will prevail on the merits of the tax position, the ultimate outcome of the assessment remains uncertain.

Venezuela — Highly Inflationary Economy

Venezuela is a highly inflationary economy under GAAP. As a result, the financial statements of the Company's Venezuelan operation are reported under highly inflationary accounting rules as of January 1, 2010. Under highly inflationary accounting, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency and exchange gains and losses from the remeasurement of monetary assets and liabilities are reflected in current earnings. On February 8, 2013, the Venezuelan government announced the devaluation of its currency relative to the U.S. dollar. Effective February 13, 2013 the non-essential rate moved from 4.3 to 6.3 bolivars to the U.S. dollar. The devaluation of the bolivar resulted in a foreign currency transaction loss of \$8,081 in Selling, general & administrative expenses and higher Cost of goods sold of \$4,117 due to the liquidation of inventory valued at the historical exchange rate.

Future impacts to earnings of applying highly inflationary accounting for Venezuela on the Company's consolidated financial statements will be dependent upon movements in the applicable exchange rates between the bolivar and the U.S. dollar and the amount of monetary assets and liabilities included in the Company's Venezuelan operation's balance sheet. The bolivar-denominated monetary net asset position was \$19,104 at September 30, 2013 and \$31,545 at December 31, 2012.

The Company's ability to effectively manage sales and profit levels in Venezuela will be impacted by several factors. These include but are not limited to the Company's ability to mitigate the effect of any potential future devaluation and Venezuelan government price or exchange controls. If in the future the Company were to convert bolivars at a rate other than the official exchange rate or the official exchange rate is revised, the Company may realize a loss to earnings. For example, a future devaluation in the Venezuelan currency to a rate of 12.6 would result in the Company realizing additional charges of approximately \$4,500 to Cost of goods sold based on current inventory levels and \$9,500 to Selling, general and administrative expenses based upon the current bolivar-denominated monetary net asset position.

New Accounting Pronouncements

Refer to Note 3 to the consolidated financial statements for a discussion of accounting standards recently adopted or required to be adopted in the future.

Acquisitions

On December 31, 2012, the Company completed the acquisition of the privately-held automated systems and tooling manufacturer, Tenn Rand. Tenn Rand, based in Chattanooga, Tennessee, is a leader in the design and manufacture of tooling and robotic systems for welding applications. The acquisition added tool design, system building and

machining capabilities that will enable the Company to further expand its welding automation business. Annual sales for Tenn Rand in 2012 were approximately \$35,000.

On November 13, 2012, the Company completed the acquisition of Kaliburn from ITT Corporation. Kaliburn, headquartered in Ladson, South Carolina, is a designer and manufacturer of shape cutting solutions, producer of shape cutting control systems and manufacturer of web tension transducers and engineered machine systems. The acquisitions added to the Company's cutting business portfolio. Annual sales for Kaliburn at the date of acquisition were approximately \$36,000.

On May 17, 2012, the Company completed the acquisition of Wayne Trail. Wayne Trail, based in Ft. Loramie, Ohio, is a manufacturer of automated systems and tooling, serving a wide range of applications in the metal processing market. The acquisition added to the Company's welding and automated solutions portfolio. Annual sales for Wayne Trail at the date of acquisition were approximately \$50,000.

On March 6, 2012, the Company completed the acquisition of Weartech. Weartech, based in Anaheim, California, is a producer of cobalt-based hard facing and wear-resistant welding consumables. The acquisition added to the Company's consumables portfolio. Sales for Weartech during 2011 were approximately \$40,000.

The Company acquired Tenn Rand, Kaliburn, Wayne Trail and Weartech for approximately \$143,456 in cash, net of cash acquired and assumed debt. The fair value of net assets acquired was \$71,727, resulting in goodwill of \$71,729. The purchase price allocations for some of the acquisitions are preliminary and subject to final opening balance sheet adjustments.

Pro forma information related to these acquisitions has not been presented because the impact on the Company's Consolidated Statements of Income is not material. Acquired companies are included in the Company's consolidated financial statements as of the date of acquisition.

Debt

The Company has a line of credit totaling \$300,000 through the Amended and Restated Credit Agreement (the "Credit Agreement"), which was entered into on July 26, 2012. The Credit Agreement contains customary affirmative, negative and financial covenants for credit facilities of this type, including limitations on the Company and its subsidiaries with respect to liens, investments, distributions, mergers and acquisitions, dispositions of assets, transactions with affiliates and a fixed charges coverage ratio and total leverage ratio. As of September 30, 2013, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement. The Credit Agreement has a five-year term and may be increased, subject to certain conditions, by an additional amount up to \$100,000. The interest rate on borrowings is based on either LIBOR or the prime rate, plus a spread based on the Company's leverage ratio, at the Company's election.

Forward-looking Statements

The Company's expectations and beliefs concerning the future contained in this report are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect management's current expectations and involve a number of risks and uncertainties. Forward-looking statements generally can be identified by the use of words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "forecast," "guidance" or words of similar meaning. Actual results may differ materially from such statements due to a variety of factors that could adversely affect the Company's operating results. The factors include, but are not limited to: general economic and market conditions; the effectiveness of operating initiatives; currency exchange and interest rates; adverse outcome of pending or potential litigation; actual costs of the Company's rationalization plans; possible acquisitions; market risks and price fluctuations related to the purchase of commodities and energy; global regulatory complexity; and the possible effects of events beyond our control, such as political unrest, acts of terror and natural disasters, on the Company or its customers, suppliers and the economy in general. For additional discussion, see "Item 1A. Risk Factors" in this Quarterly Report on Form 10-Q and in the Company's Annual Report on Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's exposure to market risk since December 31, 2012. See "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of September 30, 2013.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2013 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject, from time to time, to a variety of civil and administrative proceedings arising out of its normal operations, including, without limitation, product liability claims, regulatory claims and health, safety and environmental claims. Among such proceedings are the cases described below.

At September 30, 2013, the Company was a co-defendant in cases alleging asbestos induced illness involving claims by approximately 15,056 plaintiffs, which is a net increase of 23 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The asbestos claimants seek compensatory and punitive damages, in most cases for unspecified sums. Since January 1, 1995, the Company has been a co-defendant in other similar cases that have been resolved as follows: 41,345 of those claims were dismissed, 20 were tried to defense verdicts, seven were tried to plaintiff verdicts (two of which are being appealed, and one of the two verdicts has been vacated), one was resolved by agreement for an immaterial amount and 631 were decided in favor of the Company following summary judgment motions.

In July 2012, the Company received a Notice of Reassessment from the Canada Revenue Agency (the "CRA") for 2004 to 2011, which would disallow the deductibility of inter-company dividends. These adjustments would increase Canadian federal and provincial tax due. The Company disagrees with the position taken by the CRA and believes it is without merit. The Company will vigorously contest the assessment through the Tax Court of Canada. A trial date has not yet been scheduled.

In connection with the litigation process, the Company is required to deposit no less than one-half of the tax and interest assessed by the CRA. The Company has elected to deposit the entire amount of the dispute in order to suspend the continuing accrual of a 5% interest charge. Any Canadian tax ultimately due will be creditable in the parent company's U.S. federal tax return. The Company expects to be able to utilize the full amount of foreign tax credits generated in the statutorily allowed carry-back and carry-forward periods. Accordingly, should the Company not prevail in this dispute, the income statement charge will approximate the deficiency interest, net of tax.

The Company believes it will prevail on the merits of the tax position. In accordance with prescribed recognition and measurement thresholds, no income tax accrual has been made for any uncertain tax positions related to the CRA reassessment. An unfavorable resolution of this matter could have a material effect on the Company's financial statements in the period in which a judgment is reached.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, the reader should carefully consider the factors discussed in "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 and on Form 10-Q for the quarter ended March 31, 2013, which could materially affect the Company's business, financial condition or future results.
