Stage Stores, Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The accompanying Condensed Consolidated Financial Statements (Unaudited) of Stage Stores, Inc. and subsidiaries ("Stage Stores" or the "Company") have been prepared in accordance with Rule 10-01 of Regulation S-X and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP" or "U.S. GAAP") for complete financial statements. Those adjustments that are, in the opinion of management, necessary for a fair presentation of the results of the interim periods have been made. The results of operations for such interim periods are not necessarily indicative of the results of operations for a full year. The Condensed Consolidated Financial Statements (Unaudited) should be read in conjunction with the Audited Consolidated Financial Statements and notes thereto filed with Stage Stores' Annual Report on Form 10-K for the year ended February 2, 2013. References to a particular year are to Stage Stores' fiscal year, which is the 52- or 53-week period ending on the Saturday closest to January 31st of the following calendar year. For example, a reference to "2012" is a reference to the fiscal year ended February 2, 2013 and a reference to "2013" is a reference to the fiscal year ending February 1, 2014. References to "current year" pertain to the thirty-nine weeks ended November 2, 2013, and references to "prior year" pertain to the thirty-nine weeks ended October 27, 2012.

Stage Stores is a Houston, Texas-based retailer, which operates both department stores and off-price stores. Its department stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. Its off-price stores, which are called Steele's, offer brand name family apparel, accessories, footwear and home décor at significant savings to department store prices. As of November 2, 2013, the Company operated 882 stores located in 40 states. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features similar merchandise to that found in the Company's stores as well as merchandise which is available only on-line. The Send program allows customers to have merchandise shipped directly to their homes from another store if their size or color is not available in a local store.

Vendor allowances. The Company receives consideration from its merchandise vendors in the form of allowances and reimbursements. Given the promotional nature of the Company's business, the allowances are generally intended to offset the Company's costs of handling, promoting, advertising and selling the vendors' products in its stores. Vendor allowances related to the purchase of inventory are recorded as a reduction to the cost of inventory until sold. Vendor allowances are recognized as a reduction of cost of goods sold or the related selling expense when the purpose for which the vendor funds were intended to be used has been fulfilled and amounts have been authorized by vendors. As part of the Company's South Hill merchandising consolidation, the Company changed the method of collecting advertising allowances from its vendors resulting in only a small portion of these allowances being considered as a reimbursement for specific, incremental, identifiable costs incurred to sell vendors' products. Accordingly, beginning in fiscal 2013, most advertising allowances are now recorded as a reduction to the cost of merchandise purchases.

Recent Accounting Standards. In February 2013, the FASB issued ASU No. 2013-02, which amends ASC Topic 220, Comprehensive Income and requires that entities present information about reclassification adjustments from accumulated other comprehensive income in their interim and annual financial statements. The standard requires that entities present either on the face of the income statement or as a separate note to the financial statements, the effect of significant amounts reclassified from each component of accumulated other comprehensive income. If a component is not required to be reclassified to net income in its entirety, entities are required to cross reference to the related footnote for additional information. For public companies, the standard is effective for fiscal years and interim periods beginning after December 15, 2012. The adoption of this guidance requires changes solely in presentation, and

therefore does not have a significant impact on the Company's condensed consolidated financial statements.

In July 2012, the FASB issued ASU No. 2012-02, Intangibles - Goodwill and Other, which amends the guidance in ASC 350-30 on testing indefinite-lived intangible assets for impairment. The revised guidance permits an entity first to assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test. The ASU is effective for impairment tests performed for fiscal years beginning after September 15, 2012. The Company will adopt this ASU for its 2013 impairment testing. The Company does not expect the adoption of this ASU to have a material impact, if any, on the Company's consolidated financial condition, results of operations or cash flows.

Table of Contents

2. South Hill Consolidation

On February 11, 2013, the Company announced its plans to consolidate its South Hill, Virginia operations into its Houston, Texas corporate headquarters (the "South Hill Consolidation"). This action was the culmination of an initiative that the Company began in 2012. The reasons for the South Hill Consolidation were: (i) to have department store functions and processes entirely together in one location, (ii) to strengthen collaboration, teamwork and communications, while streamlining operations, enhancing overall operational efficiency and reducing costs, and (iii) to create consistency in merchandising, marketing and eCommerce. The Company substantially completed the South Hill Consolidation during the second quarter of 2013.

Total expenses in the current year associated with the South Hill Consolidation were \$9.0 million, of which \$1.0 million remained unpaid and is included in accrued expenses and other current liabilities on the Condensed Consolidated Balance Sheet as of November 2, 2013. The costs, which were primarily for severance and transitional payroll and related benefits, recruiting and relocation costs, and visual presentation supplies and other, were recorded in selling, general and administrative expenses on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss). The Company incurred and paid \$2.7 million in the prior year primarily for transitional payroll and related benefits, recruiting and relocation costs, and property and equipment impairment. Merchandise cost of sales for the current year also includes approximately \$11.5 million related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

During the current year third quarter, the Company committed to a plan to sell the building which housed its former South Hill operations and expects to complete the sale within one year. Accordingly, the disposal group with a carrying value of \$0.6 million has been reclassified as held for sale and included in prepaid expenses and other current assets on the Condensed Consolidated Balance Sheet as of November 2, 2013.

3. Stock-Based Compensation

As approved by the Company's shareholders, the Company established the Amended and Restated 2001 Equity Incentive Plan (the "2001 Equity Incentive Plan") and the Second Amended and Restated 2008 Equity Incentive Plan (the "2008 Equity Incentive Plan" and collectively with the 2001 Equity Incentive Plan, the "Equity Incentive Plans") to reward, retain and attract key personnel. The Equity Incentive Plans provide for grants of nonqualified or incentive stock options, stock appreciation rights ("SARs"), performance shares or units, stock units and stock grants. To fund the 2001 and 2008 Equity Incentive Plans, 12,375,000 and 4,550,000 shares of the Company's common stock were reserved for issuance upon exercise of awards, respectively.

The following table summarizes stock-based compensation expense by type of grant for each period (in thousands):

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	November 2, 2013	October 27, 2012	November 2, 2013	October 27, 2012
Stock options and SARs	\$470	\$765	\$1,266	\$2,305
Non-vested stock	1,207	774	3,179	2,229
Performance shares	878	484	2,135	925
Total compensation expense	2,555	2,023	6,580	5,459
Related tax benefit	(985)	(761)	(2,474)	(2,053)
	\$1,570	\$1,262	\$4,106	\$3,406

As of November 2, 2013, the Company had unrecognized compensation cost of \$18.7 million related to stock-based compensation awards granted. That cost is expected to be recognized over a weighted average period of 2.4 years.

Table of Contents

Stock Options and SARs

The Company historically granted shares of stock options and SARs to its employees and members of management. The right to exercise stock options and SARs generally vests over four years from the date of grant, with 25% vesting at the end of each of the first four years following the date of grant. Stock options and SARs are settled by issuance of common stock. Stock options issued prior to January 29, 2005 will generally expire, if not exercised, within ten years from the date of the grant, while stock options and SARs granted after that date will generally expire, if not exercised, within seven years from the date of grant. No stock options or SARs were granted during the thirty-nine weeks ended November 2, 2013 or October 27, 2012.

The following table summarizes information about stock options and SARs outstanding under the Equity Incentive Plans as of November 2, 2013 and changes during the thirty-nine weeks ended November 2, 2013:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in thousands)
Outstanding at February 2, 2013	1,877,415	\$ 16.69		
Exercised	(653,523)) 16.89		
Forfeited	(76,860)) 17.23		
Outstanding at November 2, 2013	1,147,032	\$ 16.54	2.7	\$4,706
Vested or expected to vest at November 2, 2013	1,080,857	\$ 16.49	2.7	\$4,497
Exercisable at November 2, 2013	816,157	\$ 16.23	2.2	\$3,661

The following table summarizes information about non-vested stock option awards and SARs outstanding as of November 2, 2013 and changes during the thirty-nine weeks ended November 2, 2013:

Stock Options/SARs	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested at February 2, 2013	790,164	\$7.31
Vested	(391,089)) 6.63
Forfeited	(68,200)) 7.98
Non-vested at November 2, 2013	330,875	\$7.98

The aggregate intrinsic value of stock options and SARs, defined as the amount by which the market price of the underlying stock on the date of exercise exceeds the exercise price of the award, exercised during the thirty-nine weeks ended November 2, 2013 and October 27, 2012 was \$5.8 million and \$5.7 million, respectively.

Table of Contents

Non-vested Stock

The Company grants shares of non-vested stock to its employees, members of management and independent directors. The non-vested stock converts one for one to common stock at the end of the vesting period at no cost to the recipient to whom it is awarded. The vesting period of the non-vested stock ranges from one to four years from the date of grant.

The following table summarizes information about non-vested stock granted by the Company as of November 2, 2013 and changes during the thirty-nine weeks ended November 2, 2013:

Non-vested Stock	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at February 2, 2013	642,409	\$16.21
Granted	330,373	24.97
Vested	(181,113)) 16.47
Forfeited	(94,830)) 16.08
Outstanding at November 2, 2013	696,839	\$20.31

The aggregate intrinsic value of non-vested stock that vested during the current year was \$4.6 million. The payment of the employees' tax liability for a portion of the vested shares was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 139,083.

Performance Shares

The Company grants performance shares to members of senior management, at no cost to the recipient, as a means of rewarding them for the Company's long-term performance based on shareholder return performance measures. The actual number of shares that could be issued ranges from zero to a maximum of two times the number of granted shares outstanding as reflected in the table below. The actual number of shares issued is determined by the Company's shareholder return performance relative to a specific group of companies over a three-year performance cycle. Compensation expense, which is recorded ratably over the vesting period, is based on the fair value at grant date and the anticipated number of shares of the Company's common stock, which is determined on a Monte Carlo probability model. Grant recipients do not have any shareholder rights until the granted shares have been issued.

The following table summarizes information about the performance shares that remain outstanding as of November 2, 2013:

Period Granted	Target Shares Outstanding at February 2, 2013	Target Shares Granted During Current Year	Target Shares Vested During Current Year	Target Shares Forfeited During Current Year	Target Shares Outstanding at November 2, 2013	Weighted Average Grant Date Fair Value Per Share
2011	39,800	—	(1,150)) (5,775)) 32,875	\$25.00
2012	238,100	—	(3,300)) (25,000)) 209,800	18.04
2013	—	158,400	—	—	158,400	33.81
Total	277,900	158,400	(4,450)) (30,775)) 401,075	

During the current year, 104,490 shares, with an aggregate intrinsic value of \$2.7 million, vested related to the 2010 performance share grant. The payment of the recipients' tax liability of approximately \$0.9 million for vested shares

was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 75,176.

Table of Contents

6. Stockholders' Equity

On April 8, 2013, the Company announced that its Board of Directors (the "Board") approved a 25% increase in the Company's quarterly cash dividend rate to \$0.125 per share from the previous quarterly rate of \$0.10 per share. The quarterly rate of \$0.125 per share is applicable to dividends declared by the Board beginning May 23, 2013. In the current year, the Company has paid cash dividends totaling \$11.5 million. On November 21, 2013, the Board declared a quarterly cash dividend of \$0.125 per share of common stock, payable on December 18, 2013 to shareholders of record at the close of business on December 3, 2013.

On March 7, 2011, the Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. Through June 10, 2012, the Company repurchased approximately \$100.1 million of its outstanding common stock under the 2011 Stock Repurchase Program. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock equal to the amount of proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Under such authorization, the Company repurchased 1,626,037 shares of its common stock for approximately \$31.4 million during the thirty-nine weeks ended November 2, 2013. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.

Table of Contents

4. Debt Obligations

Debt obligations as of November 2, 2013 and February 2, 2013 consist of the following (in thousands):

	November 2, 2013	February 2, 2013
Revolving Credit Facility	\$137,600	\$6,000
Finance lease obligations	5,777	6,329
Total debt obligations	143,377	12,329
Less: Current portion of debt obligations	829	744
Long-term debt obligations	\$142,548	\$11,585

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR, plus an applicable margin, as set forth in the Revolving Credit Facility agreement. On July 24, 2013, the Revolving Credit Facility agreement was amended to lower the applicable margin rates by 0.25%. In addition, the amendment fixed the commitment fee at 0.25% for the remaining term of the Revolving Credit Facility. For the thirty-nine weeks ended November 2, 2013, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 1.87% and \$46.6 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At November 2, 2013, the Company had outstanding letters of credit totaling approximately \$5.0 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at November 2, 2013, net of letters of credit outstanding, outstanding borrowings and accrued interest of \$0.2 million, was \$107.2 million.

The Revolving Credit Facility agreement contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility agreement also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At November 2, 2013, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility agreement and expects to remain in compliance during fiscal year 2013.

Table of Contents

5. Earnings per Share

Basic earnings per share is computed using the weighted average number of common shares outstanding during the measurement period. Diluted earnings per share is computed using the weighted average number of common shares as well as all potentially dilutive common share equivalents outstanding during the measurement period. For the thirteen weeks and thirty-nine weeks ended November 2, 2013, 218,077 shares and 307,739 shares, respectively, and 380,980 shares for the thirteen weeks ended October 27, 2012, were attributable to stock options, SARs and non-vested stock grants that would have been considered dilutive securities but were excluded from the calculation of diluted earnings per share because the effect was anti-dilutive due to the net loss for the reported periods.

Under Accounting Standards Codification ("ASC") 260-10, Earnings Per Share, non-vested stock grants that contain non-forfeitable rights to dividends or dividend equivalents are considered participating securities and are included in the calculation of basic and diluted earnings per share pursuant to the two-class method. The two-class method determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Earnings per share have been calculated under the two-class method.

The following tables show the computation of basic and diluted earnings per share for each period (in thousands, except per share amounts):

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	November 2, 2013	October 27, 2012	November 2, 2013	October 27, 2012
Basic EPS:				
Net income (loss)	\$ (10,971) \$ (8,858) \$ (8,220) \$ 2,386
Less: Allocation of earnings to participating securities	—	—	—	(30)
Net income (loss) allocated to common shares	(10,971) (8,858) (8,220) 2,356
Basic weighted average shares outstanding	31,854	31,558	32,307	31,035
Basic EPS	\$ (0.34) \$ (0.28) \$ (0.25) \$ 0.08
Diluted EPS:				
Net income (loss)	\$ (10,971) \$ (8,858) \$ (8,220) \$ 2,386
Less: Allocation of earnings to participating securities	—	—	—	(30)
Net income (loss) allocated to common shares	(10,971) (8,858) (8,220) 2,356
Basic weighted average shares outstanding	31,854	31,558	32,307	31,035
Add: Dilutive effect of stock awards	—	—	—	266
Diluted weighted average shares outstanding	31,854	31,558	32,307	31,301
Diluted EPS	\$ (0.34) \$ (0.28) \$ (0.25) \$ 0.08

The following table illustrates the number of stock options and SARs that were outstanding, but not included in the computation of diluted earnings per share because the exercise price of the stock options and SARs was greater than the average market price of the Company's common shares (in thousands):

Thirteen Weeks Ended	Thirty-Nine Weeks Ended
----------------------	-------------------------

Edgar Filing: STAGE STORES INC - Form 10-Q

	November 2, 2013	October 27, 2012	November 2, 2013	October 27, 2012
Number of anti-dilutive stock options and SARs outstanding	451	247	129	956

7. Retirement Plan

The Company sponsors a frozen defined benefit plan. The components of pension cost for each period are as follows (in thousands):

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	November 2, 2013	October 27, 2012	November 2, 2013	October 27, 2012
Employer service cost	\$90	\$—	\$270	\$—
Interest cost	430	472	1,292	1,416
Expected return on plan assets	(559)	(563)	(1,678)	(1,689)
Net loss amortization	153	103	458	310
Net periodic pension cost	\$114	\$12	\$342	\$37

The Company's funding policy is to make contributions to maintain the minimum funding requirements for its pension obligations in accordance with the Employee Retirement Income Security Act. The Company may elect to contribute additional amounts to maintain a level of funding to minimize the Pension Benefit Guaranty Corporation premium costs or to cover the short-term liquidity needs of the plan in order to maintain current invested positions. No contributions were made by the Company in the current year.

Table of Contents

8. Fair Value Measurements

The Company recognizes or discloses the fair value of its financial and non-financial assets and liabilities on a recurring and non-recurring basis. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Company assumes the highest and best use of the asset by market participants in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability.

The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs that are both unobservable and significant to the overall fair value measurement reflect the Company's estimates of assumptions that market participants would use in pricing the asset or liability.

Table of Contents

The following tables present the Company's financial assets and liabilities measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

November 2, 2013				
	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$23,644	\$23,644	\$—	\$—
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$234	\$234	\$—	\$—
February 2, 2013				
	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$18,498	\$18,498	\$—	\$—
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$253	\$253	\$—	\$—

(1) The Company has recorded in other long-term liabilities amounts related to these assets for the amount due to participants corresponding in value to the securities held in the grantor trust.

(2) Using the market approach, the fair values of these items represent quoted market prices multiplied by the quantities held. Net gains and losses related to the changes in fair value in the assets and liabilities under the various deferred compensation plans are recorded in selling, general and administrative expenses and were nil for the thirty-nine weeks ended November 2, 2013 and for the fiscal year ended February 2, 2013.

Table of Contents

The following table shows the Company's non-financial assets measured at fair value on a nonrecurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

November 2, 2013				
	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Store property, equipment and leasehold improvements (1)	\$3,091	\$—	\$—	\$3,091
February 2, 2013				
	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Store property, equipment and leasehold improvements (1)	\$3,024	\$—	\$—	\$3,024

(1) In accordance with ASC No. 360-10, Accounting for the Impairment or Disposal of Long-Lived Assets, using an undiscounted cash flow model, the Company identified certain stores whose cash flow trends indicated that the carrying value of store property, equipment and leasehold improvements may not be fully recoverable and determined that impairment charges were necessary for the current year. The Company uses a discounted cash flow model to determine the fair value of its impaired assets. Key assumptions in determining future cash flows include, among other things, expected future operating performance and changes in economic conditions. Impairment charges of \$0.2 million have been recognized during the current year and \$1.0 million were recognized during fiscal year 2012. The impairment charges are included in cost of sales and related buying, occupancy and distribution expenses in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) (Unaudited).

Financial instruments not measured at fair value are cash and cash equivalents, payables and debt obligations. The Company believes that the Revolving Credit Facility approximates fair value since interest rates are adjusted to reflect current rates.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

Certain statements in this Form 10-Q contain forward-looking statements that are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Forward-looking statements reflect the Company's expectations regarding future events and operating performance and often contain words such as "believe," "expect," "may," "will," "should," "could," "anticipate," "plan" or similar words.

Forward-looking statements are based on various assumptions and factors that could cause actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, the ability of the Company and its subsidiaries to maintain normal trade terms with vendors, the ability of the Company and its subsidiaries to comply with the various covenant requirements contained in the Company's Revolving Credit Facility agreement, the demand for apparel, and other factors. The demand for apparel and sales volume can be affected by significant changes in economic conditions, including an economic downturn, employment levels in the Company's markets, consumer confidence, energy and gasoline prices and other factors influencing discretionary consumer spending. Other factors affecting the demand for apparel and sales volume include unusual weather patterns, an increase in the level of competition in the Company's market areas, competitors' marketing strategies, changes in fashion trends, changes in the average cost of merchandise purchased for resale, availability of product on normal payment terms and the failure to achieve the expected results of the Company's merchandising and marketing plans as well as its store opening plans. The occurrence of any of these factors could have a material and adverse impact on the Company's business, financial condition, operating results, or liquidity. Most of these factors are difficult to predict accurately and are generally beyond the Company's control.

Readers should consider the risks and uncertainties described in the Company's Annual Report on Form 10-K for the year ended February 2, 2013 ("Form 10-K"). Readers should carefully review the Form 10-K in its entirety including, but not limited to, the Company's financial statements and the notes thereto and the risks and uncertainties described in Item 1A - "Risk Factors" of the Form 10-K. Forward-looking statements contained in this Form 10-Q are as of the date of this Form 10-Q. The Company does not undertake to update its forward-looking statements.

General

Stage Stores, Inc. (the "Company" or "Stage Stores") is a Houston, Texas-based retailer, which operates both department stores and off-price stores. Its department stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. Its off-price stores, which are called Steele's, offer brand name family apparel, accessories, shoes and home décor at significant savings to department store prices. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features similar merchandise to that found in the Company's stores as well as merchandise which is available only on-line. The Send program allows customers to have merchandise shipped directly to their homes from another store if their size or color is not available in a local store.

The Company's principal focus is on consumers in small and mid-sized markets which the Company believes are under-served and less competitive. In those small town markets where it operates a department store and an off-price store, the Company targets a different customer for each store and, therefore, believes that customer overlap between the two formats is minimal. At November 2, 2013, the Company operated 882 stores located in 40 states.

Table of Contents

The Company made progress on a number of its key initiatives during the thirty-nine weeks ended November 2, 2013 (the "current year"). The Company completed the consolidation of its South Hill operations (the "South Hill Consolidation"), announced on February 11, 2013. The South Hill Consolidation is expected to increase productivity, create synergies, strengthen collaboration, enhance the Company's purchasing power, provide for a consistent message to customers and accelerate sales growth. The consolidation is also expected to result in annual savings of approximately \$5 million. In addition, as part of ongoing efforts to become more productive and improve profitability, the Company implemented an expense reduction program in early November. These cost cutting measures, which included the elimination of approximately 50 corporate positions, are expected to yield an additional annual savings of approximately \$5 million.

Growing the cosmetics line of business through the installation of additional Estee Lauder and Clinique counters, opening new stores and expanding existing stores, improving the appearance of its stores and enhancing the eCommerce shopping experience through increased product selections and investments in technology continue to be among the Company's top priorities. During the current year, the Company installed 23 new Estee Lauder and 25 new Clinique counters, and installed 12 more of each type of counter in November. New prototype fixture packages were rolled out to 72 of the Company's largest department stores in the current year, with the expectation of outfitting more than 80 department stores by year end. In addition, the Company opened 22 new department stores during the current year. On November 14, the Company opened an additional 6 department stores and one Steele's store, which brought the total number of stores opened during the year to 29 and completed the Company's 2013 store opening program. The Company also moved forward on replatforming and enhancing its eCommerce website, which went live on November 5 with increased functionality in time for holiday shopping.

The financial information, discussion and analysis that follow should be read in conjunction with the Company's Consolidated Financial Statements as included in the Form 10-K.

Results of Operations

The following table sets forth the results of operations as a percentage of sales for the periods indicated:

	Thirteen Weeks Ended (1)		Thirty-Nine Weeks Ended (1)	
	November 2, 2013	October 27, 2012	November 2, 2013	October 27, 2012
Net sales	100.0	% 100.0	% 100.0	% 100.0
Cost of sales and related buying, occupancy and distribution expenses	76.9	78.4	74.5	74.2
Gross profit	23.1	21.6	25.5	25.8
Selling, general and administrative expenses	27.4	25.0	26.2	25.0

Table of Contents

Non-GAAP Financial Measures

The following supplemental information presents the results of operations for the third fiscal quarter of 2013 and 2012 as well as for the current year and prior year periods. All periods are presented on a basis in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and on a non-U.S. GAAP basis to show earnings with and without charges associated with the South Hill Consolidation and the former Chief Executive Officer's resignation. Management believes this supplemental financial information enhances an investor's understanding of the Company's financial performance as it excludes those items which impact comparability of operating trends. The non-U.S. GAAP financial information should not be considered in isolation or viewed as a substitute for net income, cash flow from operations or other measures of performance as defined by U.S. GAAP. Moreover, the inclusion of non-U.S. GAAP financial information as used herein is not necessarily comparable to other similarly titled measures of other companies due to the potential inconsistencies in the method of presentation and items considered. The following tables set forth the supplemental financial information and the reconciliation of U.S. GAAP disclosures to non-U.S. GAAP financial metrics (in thousands, except diluted earnings per share):

	Thirteen Weeks Ended		Thirty-Nine Weeks Ended	
	November 2, 2013	October 27, 2012	November 2, 2013	October 27, 2012
Net income (loss):				
On a U.S. GAAP basis	\$(10,971)	\$(8,858)	\$(8,220)	\$2,386
South Hill consolidation related charges, net of tax of \$1,832, \$503, \$7,815 and \$503, respectively	2,552	866	12,718	866
Former Chief Executive Officer resignation related charges, net of tax of \$1,103	—	—	—	1,897
On a non-U.S. GAAP basis	\$(8,419)	\$(7,992)	\$4,498	\$5,149

South Hill consolidation related charges	0.08	0.03	0.39	0.03
Former Chief Executive Officer resignation related charges	—	—	—	0.06
On a non-U.S. GAAP basis	\$(0.26)	\$(0.25)	\$0.14	\$0.16 (1)

(1) EPS does not foot due to rounding

Table of Contents

Thirteen Weeks Ended November 2, 2013 Compared to Thirteen Weeks Ended October 27, 2012

Sales for the thirteen weeks ended November 2, 2013 (the "current year third quarter") decreased 2.8% to \$360.2 million from \$370.6 million for the thirteen weeks ended October 27, 2012 (the "prior year third quarter"). Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, decreased 4.6% in the current year third quarter compared to an 8.1% increase in the prior year third quarter. Excluding eCommerce sales, comparable store sales decreased 4.8% in the current year third quarter as compared to a 7.5% increase in the prior year third quarter. The decrease in comparable sales is reflective of lower clearance sales in the current year third quarter as compared with the prior year third quarter. The 4.6% decrease in comparable store sales for the current year third quarter reflects a 1.3% decrease in average unit retail, a 3.0% decrease in number of units sold and 0.6% decrease in the number of transactions.

On a market population basis, utilizing a ten-mile radius from each store, the mid-sized and large market stores outperformed the small market stores. The Company's mid-sized market stores (populations of 50,000 to 150,000) and large market stores (populations greater than 150,000) had comparable store sales decreases of 3.5% and 3.8%, respectively, while the small market stores (populations less than 50,000) had a comparable store sales decrease of 5.4%. Geographically, the Northwest and South Central were the best performing regions, followed by the Northeast and Mid Atlantic regions, which all outperformed the Company average.

On a merchandise category basis, outerwear and swimwear, cosmetics, accessories, footwear, and intimates performed better than the Company's comparable store sales average. The cosmetics line of business benefited from the installation of additional Estee Lauder and Clinique counters. During the current year third quarter, the Company installed 6 new Estee Lauder and 6 new Clinique counters. Handbags from vendors such as G by Guess, Anne Klein, Nine West, and Jessica Simpson helped drive the accessories line of business. Footwear, especially lightweight running shoes, benefited from sales of key brands such as Nike and Skechers.

The following is a summary of the changes in the components of the cost of sales rate between the current year third quarter and the prior year third quarter, expressed as a percent of sales:

	Increase/ (Decrease)	
Merchandise cost of sales rate	(1.9)	%
Buying, occupancy and distribution expenses rate	0.4	
Cost of sales rate	(1.5)	%

Gross profit for the current year third quarter was \$83.1 million, an increase of 4.0% from \$79.9 million in the prior year third quarter. Gross profit, as a percent of sales, increased to 23.1% in the current year third quarter from 21.6% in the prior year third quarter primarily as a result of lower clearance sales in the current year third quarter as compared to the prior year third quarter. In addition, merchandise cost of sales for the current year third quarter includes approximately \$4.4 million, or approximately 1.2% of sales, related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

Selling, general and administrative ("SG&A") expenses in the current year third quarter increased \$6.2 million to \$98.6 million from \$92.4 million in the prior year third quarter. As a percent of sales, SG&A expenses increased to 27.4% in the current year third quarter from 25.0% in the prior year third quarter. The increase in SG&A reflects incremental costs to operate 31 net additional stores and higher medical insurance costs resulting from several large claims as compared to the prior year third quarter. These higher costs were partially offset by lower incentive compensation costs. The SG&A rate was also negatively impacted by deleveraging from the decline in net sales

during the current year third quarter.

Store opening costs of \$1.4 million in the current year third quarter include costs related to the opening of 12 stores. During the prior year third quarter, the Company incurred \$1.6 million in store opening costs related to the opening of 19 new stores. Store opening costs are expensed as incurred and include costs of stores opening in future quarters.

Table of Contents

Net interest expense was \$0.7 million in the current year third quarter compared to \$0.6 million in the prior year third quarter. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations.

The Company's effective tax rate for the current year third quarter was 37.8%, resulting in an estimated tax benefit of \$6.7 million. This compares to an effective tax rate of 40.2% and income tax benefit of \$5.9 million in the prior year third quarter.

As a result of the foregoing, the Company had a net loss of \$11.0 million for the current year third quarter as compared to net loss of \$8.9 million for the prior year third quarter.

Thirty-Nine Weeks Ended November 2, 2013 Compared to Thirty-Nine Weeks Ended October 27, 2012

Sales for the thirty-nine weeks ended November 2, 2013 (the "current year") increased 1.5% to \$1,134.1 million from \$1,117.9 million for the thirty-nine weeks ended October 27, 2012 (the "prior year"). The sales increase was primarily driven by the Company's new stores and an increase in eCommerce sales. Unseasonably cool weather in the spring and weakness in the overall apparel market negatively impacted sales in the current year compared to the prior year. Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, decreased 0.7% in the current year compared to a 5.3% increase in the prior year. Excluding eCommerce sales, comparable store sales decreased 1.2% in the current year as compared to a 4.8% increase in the prior year. The 0.7% decrease in comparable store sales for the current year reflects a 3.5% decrease in average unit retail, partially offset by a 2.6% increase in the number of transactions.

On a market population basis, utilizing a ten-mile radius from each store, the mid-sized and large market stores outperformed the small market stores. The Company's mid-sized market stores (populations of 50,000 to 150,000) and large market stores (populations greater than 150,000) achieved comparable store sales increases of 0.4% and 1.2%, respectively, while the small market stores (populations less than 50,000) had a comparable store sales decrease of 1.9%. Geographically, the Southwest region was the best performing region, followed by the South Central and Northwest regions, which all outperformed the Company average.

On a merchandise category basis, home and gifts, accessories, men's and young men's, cosmetics, and footwear all outperformed the Company's comparable store sales average. Home and gifts had the strongest increases as it benefited from new product launches such as Keurig and Cuisinart. The cosmetics line of business benefited from the installation of additional Estee Lauder and Clinique counters. During the current year, the Company installed 23 new Estee Lauder and 25 new Clinique counters. The increase in accessories was driven by the strength in handbags. Activewear has been the strongest trending area across multiple merchandise categories. The Company also continues to focus on sales growth through the introduction of new product offerings and the expansion of existing sought-after brand names.

The following is a summary of the changes in the components of the cost of sales rate between the current year and the prior year, expressed as a percent of sales:

	Increase	
Merchandise cost of sales rate	0.3	%
Buying, occupancy and distribution expenses rate	—	
Cost of sales rate	0.3	%

Gross profit was \$288.8 million, essentially equal to prior year gross profit of \$288.9 million. Gross profit, as a percent of sales, decreased to 25.5% in the current year from 25.8% in the prior year. The decline in the gross profit rate reflects a 0.3% increase in the merchandise cost of sales rate. The increase in the merchandise cost of sales rate is primarily a result of a more promotional business environment in the current year as compared to the prior year. The buying, occupancy and distribution expenses rate is a result of leverage from higher sales in the current year as compared to the prior year, offset by increased store occupancy expenses. Merchandise cost of sales for the current year includes approximately \$11.5 million, or approximately 1.0% of sales, related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

Table of Contents

Selling, general and administrative ("SG&A") expenses in the current year increased \$17.6 million to \$297.6 million from \$280.0 million in the prior year. As a percent of sales, SG&A expenses increased to 26.2% in the current year from 25.0% in the prior year. The increase in SG&A expenses reflects charges of approximately \$9.0 million incurred in the current year related to the South Hill Consolidation, while the prior year included \$3.0 million of charges associated with the resignation of the Company's former Chief Executive Officer and \$0.4 million associated with the start of the South Hill Consolidation. In addition, the increase in SG&A reflects incremental costs to operate 31 net additional stores and higher medical insurance costs resulting from several large claims as compared to the prior year. These higher costs were partially offset by higher credit income associated with the Company's private label credit card portfolio and lower incentive compensation costs.

Store opening costs of \$2.5 million in the current year include costs related to the opening of 22 new stores and the relocation of two stores. During the prior year, the Company incurred \$3.2 million in store opening costs related to the opening of 41 new stores and the relocation of six stores.

Net interest expense was \$2.0 million in the current year and \$2.4 million in the prior year. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations.

The Company's effective tax rate for the current year was 38.1%, resulting in an estimated tax benefit of \$5.1 million. This compares to an income tax expense of \$1.0 million in the prior year at an effective rate 30.0%.

As a result of the foregoing, the Company had a net loss of \$8.2 million for the current year as compared to net income of \$2.4 million for the prior year.

Seasonality and Inflation

Historically, the Company's business is seasonal and sales are traditionally lower during the first three quarters of the fiscal year (February through October) and higher during the last quarter of the fiscal year (November through January). The fourth quarter usually accounts for slightly more than 30% of the Company's annual sales, with the other quarters accounting for approximately 22% to 24% each. Working capital requirements fluctuate during the year and generally reach their highest levels during the third and fourth quarters. The Company does not expect inflation will have a material impact on its operations. However, there can be no assurance that the Company's business will not be affected by inflation in the future.

Liquidity and Capital Resources

The Company's liquidity is currently provided by (i) existing cash balances, (ii) operating cash flows, (iii) normal trade credit terms from the vendor and factor community and (iv) the Revolving Credit Facility. The Company's primary cash requirements are for capital expenditures related to new stores, store relocations and remodeling, and seasonal and new store inventory purchases.

Key components of the Company's cash flows for the current year and the prior year are summarized below (in thousands):

	Thirty-Nine Weeks Ended	
	November 2, 2013	October 27, 2012
Net cash provided by (used in):		
Operating activities	\$(45,468) \$60,057

Investing activities	(46,706) (35,610)
Financing activities	97,954	(5,648)

Table of Contents

Operating Activities

During the current year, the Company used \$45.5 million in cash from operating activities. Net loss, adjusted for non-cash expenses, provided cash of approximately \$44.5 million. Changes in operating assets and liabilities used net cash of approximately \$94.1 million, which included a \$137.6 million increase in merchandise inventories primarily due to planned investments in inventory, the seasonal build of inventories and the higher number of stores in operation and an increase in other assets of \$14.7 million, partially offset by an increase in accounts payable and other liabilities of \$58.2 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$4.2 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores. The increase in cash used in operating activities compared to the prior year is reflective of the increase in the level of payments for merchandise purchases due to earlier receipts within the current year third quarter as compared to the prior year, increase in incentive bonus paid related to fiscal 2012, timing of rent payments due to the later fiscal period end date, and an increase in income taxes paid.

During the prior year, the Company generated \$60.1 million in cash from operating activities. Net income, adjusted for non-cash expenses, provided cash of approximately \$51.2 million. Changes in operating assets and liabilities provided net cash of approximately \$4.8 million, which included a \$162.9 million increase in merchandise inventories due to the seasonal build in inventories and higher number of open stores, partially offset by a decrease in other assets of \$10.3 million and an increase in accounts payable and other liabilities of \$157.4 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$4.1 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores.

Investing Activities

Capital expenditures were \$46.7 million in the current year as compared to \$35.6 million in the prior year. For the current year, the Company opened 22 new stores, reopened one store due to a fire and relocated two stores, as compared to 41 new stores and 6 relocated stores in the prior year. As noted above, the Company received construction allowances from landlords of \$4.2 million in the current year and \$4.1 million in the prior year to fund a portion of the capital expenditures related to store leasehold improvements in new and relocated stores. These funds are recorded as a deferred rent credit on the balance sheet and are recognized as an offset to rent expense over the lease term commencing with the date the allowances are earned.

Management currently estimates that capital expenditures in 2013, net of construction allowances to be received from landlords, will be approximately \$57 million. The expenditures will principally be for the opening of new stores and investments in eCommerce, systems, logistics and existing stores.

Financing Activities

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR, plus an applicable margin, as set forth in the Revolving Credit Facility agreement. On July 24, 2013, the Revolving Credit Facility agreement was amended to lower the applicable margin rates by 0.25%. In addition, the amendment fixed the commitment fee at 0.25% for the remaining term of the Revolving Credit Facility. For the thirty-nine weeks ended November 2, 2013, the weighted average interest rate on outstanding borrowings and

the average daily borrowings under the Revolving Credit Facility were 1.87% and \$46.6 million, respectively. The increase in borrowings on the Revolving Credit Facility in the current year as compared with the prior year is primarily due to the timing of payments related to operating activities as discussed above.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At November 2, 2013, the Company had outstanding letters of credit totaling approximately \$5.0 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at November 2, 2013, net of letters of credit outstanding, outstanding borrowings and accrued interest of \$0.2 million, was \$107.2 million.

Table of Contents

The Revolving Credit Facility agreement contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility agreement also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At November 2, 2013, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility agreement and expects to remain in compliance during fiscal year 2013.

On April 8, 2013, the Company announced that its Board of Directors (the "Board") approved a 25% increase in the Company's quarterly cash dividend rate to \$0.125 cents per share from the previous quarterly rate of \$0.10 cents per share. The quarterly rate of \$0.125 cents per share is applicable to dividends declared by the Board beginning May 23, 2013. In the current year, the Company has paid cash dividends totaling \$11.5 million. On November 21, 2013, the Board declared a quarterly cash dividend of \$0.125 per share of common stock, payable on December 18, 2013 to shareholders of record at the close of business on December 3, 2013.

On March 7, 2011, the Board approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. Through June 10, 2012, the Company repurchased approximately \$100.1 million of its outstanding common stock under the 2011 Stock Repurchase Program. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock equal to the amount of proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Under such authorization, the Company repurchased 1,626,037 shares of its common stock for approximately \$31.4 million during the current year. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.

While there can be no assurances, management believes that there should be sufficient liquidity to cover both the Company's short-term and long-term funding needs. The Company anticipates that it has adequate cash flows to cover its working capital needs, planned capital expenditures and debt service requirements for the remainder of 2013 and the foreseeable future.

Recent Accounting Standards

Disclosure concerning recent accounting standards is incorporated by reference to Note 1 of the Company's Condensed Consolidated Financial Statements (Unaudited) contained in this Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

None.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act"), the term "disclosure controls and procedures" means controls and other procedures of an issuer that are designed to ensure that

information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management of the Company, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures and concluded that the Company's disclosure controls and procedures were effective as of November 2, 2013.

Table of Contents

Internal Control Over Financial Reporting

As defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act, the term "internal control over financial reporting" means a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers, or persons performing similar functions, and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;

- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and
- (2)

- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material adverse effect on the financial statements.
- (3)

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. There were no changes in the Company's internal control over financial reporting during the quarter ended November 2, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

During the current year third quarter ended November 2, 2013, the Company did not have any material legal proceedings brought against it, its subsidiaries or their properties.

ITEM 1A. RISK FACTORS

There have not been any material changes from the risk factors as previously disclosed in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On March 7, 2011, the Board of Directors (the "Board") approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. Through June 10, 2012, the Company repurchased approximately \$100.1 million of its outstanding common stock under the 2011 Stock Repurchase Program. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock equal to the amount of proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.

Table of Contents

The table below sets forth information regarding the Company's repurchases of its common stock during the current year third quarter:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)
August 4, 2013 to August 31, 2013	515,783	\$ 19.37	—	\$99,938,428
September 1, 2013 to October 5, 2013	1,076,311	19.25	—	\$99,938,428
October 6, 2013 to November 2, 2013	38,374	19.58	—	\$99,938,428
Total	1,630,468	\$ 19.29	—	

(1) Although the Company did not repurchase any of its common stock during the current year third quarter under the 2011 Stock Repurchase Program:

The Company repurchased 1,626,037 shares of common stock for approximately \$31.4 million at a weighted average price of \$19.29 associated with the proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants;

The Company reacquired 2,510 shares of common stock from certain employees to cover tax withholding obligations from exercises of Stock Appreciation Rights and the vesting of restricted stock at a weighted average acquisition price of \$20.96 per share; and

The trustee of the grantor trust established by the Company for the purpose of holding assets under the Company's Deferred Compensation Plan (the "Plan") purchased an aggregate of 1,921 shares of the Company's common stock in the open market at a weighted average price of \$20.30 in connection with the Company Stock Investment Option under the Plan and in connection with the reinvestment of dividends paid on the Company's common stock held in trust in the Plan.

(2) Reflects the \$200.0 million authorized under the 2011 Stock Purchase Program, less the \$100.1 million repurchased using the Company's existing cash, cash flow and other liquidity sources since March 2011. Excludes repurchases of the Company's outstanding common stock associated with the proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants.
