**Notes to the Consolidated Financial Statements (Unaudited)**

**1. BASIS OF PRESENTATION**

References to “Brinker,” the “Company,” “we,” “us” and “our” in this Form 10-Q are references to Brinker International, Inc., subsidiaries, and any predecessor companies of Brinker International, Inc.

**Nature of Operations**

Our Consolidated Financial Statements as of March 27, 2019 and June 27, 2018, and for the thirteen and thirty-nine week periods ended March 27, 2019 and March 28, 2018, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). We are principally engaged in the ownership, operation, development, and franchising of the Chili’s® Grill & Bar (“Chili’s”) and Maggiano’s Little Italy (“Maggiano’s”) restaurant brands. At March 27, 2019, we owned, operated or franchised 1,676 restaurants, consisting of 997 company-owned restaurants and 679 franchised restaurants, located in the United States, 29 countries and two United States territories.

**Basis of Presentation**

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and costs and expenses during the reporting periods. Actual results could differ from those estimates.

The foreign currency translation adjustment included in Comprehensive income in the Consolidated Statements of Comprehensive Income represents the unrealized impact of translating the financial statements of our Canadian restaurants and our Mexican joint venture (prior to divestiture in the second quarter of fiscal 2018, see Note 10 - Fair Value Measurements for more details) from their respective functional currencies to U.S. dollars. This amount is not included in Net income and would only be realized upon disposition of the businesses. The Accumulated other comprehensive loss (“AOCL”) is presented in the Consolidated Balance Sheets.

The information furnished herein reflects all adjustments (consisting only of normal recurring accruals and adjustments) which are, in our opinion, necessary to fairly state the interim operating results, financial position and cash flows for the respective periods. However, these operating results are not necessarily indicative of the results expected for the full fiscal year. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been omitted pursuant to SEC rules and regulations. The Notes to the Consolidated Financial Statements should be read in conjunction with the Notes to the Consolidated Financial Statements contained in the Company’s June 27, 2018 Form 10-K. We believe the disclosures are sufficient for interim financial reporting purposes. All amounts within the Notes to the Consolidated Financial Statements are presented in millions unless otherwise specified.

**New Accounting Standards Implemented**

*ASU 2014-09, Revenue from Contracts with Customers (Topic 606)* - In May 2014, the FASB issued Accounting Standards Update (“ASU”) 2014-09, and subsequently amended this update by issuing additional ASU’s that provide clarification and further guidance around areas identified as potential implementation issues. These updates provide a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. These updates also require additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. These updates are effective for annual and interim periods for fiscal years beginning after December 15, 2017, which required us to adopt these provisions in the first quarter of fiscal 2019. Please refer to Note 2 - Revenue Recognition for disclosures about our adoption.

Table of Contents

*ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments (Topic 230)* - In August 2016, the FASB issued ASU 2016-15, this update provides clarification regarding how certain cash receipts and cash payments are presented and classified in the statement of cash flows. This update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. This update is effective for annual and interim periods for fiscal years beginning after December 15, 2017, which required us to adopt these provisions in the first quarter of fiscal 2019. The update was applied on a retrospective basis. The adoption of this guidance did not have an impact on our Consolidated Financial Statements or debt covenants.

*ASU 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* - In January 2017, the FASB issued ASU 2017-04, this update eliminates step two of the goodwill impairment analysis. Companies will no longer be required to perform a hypothetical purchase price allocation to measure goodwill impairment. Instead, they will measure impairment as the difference between the carrying amount and the fair value of the reporting unit. This update is effective for annual and interim periods for fiscal years beginning after December 15, 2019, and early adoption is permitted for interim or annual goodwill impairment tests performed with measurement dates after January 1, 2017. We elected to early adopt this guidance as of September 27, 2018. The guidance was adopted prospectively. The adoption of this guidance did not have an impact on our Consolidated Financial Statements. Refer to Note 10 - Fair Value Measurements for disclosure about goodwill.

*ASU 2018-15, Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract* - In August 2018, the FASB issued ASU 2018-15, this update aligns the requirements for capitalizing implementation costs incurred in a cloud computing arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. This update is effective for annual and interim periods in fiscal years beginning after December 15, 2019, and early adoption is permitted. We elected to early adopt this guidance during the third quarter of fiscal 2019, using a prospective approach. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

The impact of additional accounting standards updates that have not yet been adopted can be found at Note 14 - Effect of New Accounting Standards.

## **2. REVENUE RECOGNITION**

Effective June 28, 2018, our first quarter of fiscal 2019, we adopted FASB Accounting Standards Codification ("ASC") Topic 606, *Revenue from Contracts with Customers* ("ASC 606"), from the previous guidance ASC Topic 605, *Revenue Recognition* and ASC Subtopic 952-605, *Franchisors - Revenue Recognition* (together, "Legacy GAAP"). Our transition to ASC 606 represents a change in accounting principle. Our Consolidated Financial Statements for the third quarter and year-to-date periods of fiscal 2019 reflect the application of ASC 606 guidance using the modified retrospective transition method, while our Consolidated Financial Statements for prior periods were prepared under Legacy GAAP.

### **Significant Accounting Policy**

Revenues are presented in Company sales and Franchise and other revenues captions in the Consolidated Statements of Comprehensive Income. Company sales include revenues generated by the operation of company-owned restaurants including gift card redemptions. Franchise and other revenues include royalties, advertising fees (effective in the first quarter of fiscal 2019), gift card breakage, Maggiano's banquet service charge income, digital entertainment revenues, gift card equalization, gift card discount costs from third-party gift card sales, franchise and development fees, delivery fee income, merchandise income and retail royalty revenues.

### **Company Sales**

The adoption of ASC 606 did not impact revenue recognition related to Company sales. We will continue to record revenues from the sale of food, beverages and alcohol as products are sold.

Table of Contents**Franchise and Other Revenues**

*Royalties* - Franchise royalties are based on a percentage of the sales generated by our franchised restaurants. The provisions of ASC 606 did not impact the recognition of these royalties, as the performance obligation related to franchise sales is considered complete upon the sale of food, beverages and alcohol. Royalty revenues attributable to franchise restaurants will continue to be recognized in the same period the sales are generated at the franchise restaurants.

*Advertising Fees* - Domestic franchisees are contractually obligated to contribute into certain advertising and marketing funds. The adoption of ASC 606 did not impact the timing of revenue recognition of the advertising fees received; however, effective in the first quarter of fiscal 2019, advertising fees are now presented on a gross basis within Franchise and other revenues. Under Legacy GAAP, the advertising funds received from franchisees were considered a reimbursement of advertising expenses and were presented on a net basis as a reduction to advertising expenses in Restaurant expenses in the Consolidated Statements of Comprehensive Income.

*Initial Development and Franchise Fees* - We receive development fees from franchisees for territory development arrangements and franchise fees for a new restaurant opening. Under ASC 606, the performance obligation related to these arrangements will be collectively deferred as a contract liability and recognized on a straight-line basis into Franchise and other revenues in the Consolidated Statements of Comprehensive Income over the term of the underlying agreements. Deferred franchise and development fees are classified within Other accrued liabilities for the current portion expected to be recognized within the next 12 months, and Other liabilities for the long-term portion in the Consolidated Balance Sheets. Under Legacy GAAP, development fees were recognized as income upon the execution of the agreement, when development rights were conveyed to the franchisee. Franchise fees were recognized as income when the obligations under the franchise agreement were satisfied, generally upon the opening of the new franchise restaurant.

*Gift Card Breakage Income* - Breakage revenues represent the monetary value associated with outstanding gift card balances for which redemption is considered remote. We estimate this amount based on our historical gift card redemption patterns and update the breakage rate estimate periodically and if necessary, adjust the deferred revenues balance within the Gift card liability account in the Consolidated Balance Sheets accordingly. In accordance with ASC 606, breakage revenues will be recognized proportionate to the pattern of related gift card redemptions. Under Legacy GAAP, breakage revenues were recognized when redemption was considered remote. We do not charge dormancy or any other fees related to monitoring or administering the gift card program to cardholders.

Additionally, proceeds from the sale of gift cards will continue to be recorded as deferred revenues in the Gift card liability in the Consolidated Balance Sheets and recognized as Company sales when the gift card is redeemed by the holder.

*Gift Card Discount Costs* - Our gift cards are sold through various outlets such as in-store, Chili's and Maggiano's websites, directly to other businesses, and through third-party distributors that sell our gift cards at various retail locations. We incur incremental direct costs related to gift card sales, such as commissions and activation fees, for gift cards sold by third-party businesses and distributors. These initial direct costs are deferred and amortized against revenues proportionate to the pattern of related gift card redemption.

*Other Revenues* - Other revenues not described above, such as Maggiano's banquet service charge income, digital entertainment revenues, retail royalty revenues and delivery fee income had no change in recognition from the adoption of ASC 606.

**Sales Taxes**

Taxes assessed by a governmental authority that are both imposed on and concurrent with specific revenue transactions and collected from a customer have been excluded from revenues under both Legacy GAAP and ASC 606.

Table of Contents**Disaggregation of Total Revenues**

The following tables disaggregate revenues by operating segment and major source:

Franchise fees and other revenues	26.6	16.2	42.8
Total revenues	\$2,056.8	\$ 327.0	\$2,383.8

Franchise fees and other revenues primarily include advertising fees, gift card breakage income, Maggiano's banquet service charge income, digital entertainment revenues, initial development and franchise fees from franchisees, delivery fee income, gift card discount costs from third-party gift card sales, and other revenues.

**Deferred Development and Franchise Fees**

Our deferred development and franchise fees consist of the unrecognized fees received from franchisees. A summary of significant changes to the related deferred balance during the thirty-nine week period ended March 27, 2019 is presented below, along with the revenues to be recognized in the subsequent periods.

terminations of these contracts may affect the timing of the recognition. We also expect to have future year royalties and advertising fees related to our franchise contracts, however under ASC 606, these future year revenues are not yet determinable due to unsatisfied performance obligations based upon a sales-based royalty.

**Financial Statement Impact of Transition to ASC 606**

ASC 606 was applied to all contracts with customers as of the first day of fiscal 2019, June 28, 2018. The cumulative effect was applied using the modified retrospective approach. Our Consolidated Balance Sheets reflects the transition to ASC 606 as an adjustment at June 28, 2018 as follows:

	June 27, 2018	ASC 606 Cumulative Effect Adjustments	June 28, 2018
<b>ASSETS</b>

Other liabilities <sup>(3)</sup>	131.7	16.6	148.3
Shareholders' deficit <sup>(2) (3)</sup>	(718.3)	(7.4 )	(725.7)

(1) Deferred income taxes, net adjustment relates to the net change in liabilities and equity as a result of the adoption of ASC 606 described in notes <sup>(2)</sup> and <sup>(3)</sup> below.

Gift card liability is adjusted for the ASC 606 adoption impact of the change to recognize gift card breakage proportionate to the pattern of related gift card redemption. Under Legacy GAAP, gift card breakage was recognized when the likelihood of redemption was deemed remote. The cumulative effect of applying ASC 606 accounting to gift card balances outstanding at June 28, 2018 resulted in an \$8.2 million decrease in Gift card liability due to the change in timing of recognition between ASC 606 and Legacy GAAP, and a corresponding \$2.0 million decrease in Deferred income taxes, net, and a \$6.2 million decrease in Shareholders' deficit.

(2) Other liabilities \$16.6 million and Other accrued liabilities \$1.5 million adjustments relate to the deferral of previously recognized franchise and development fees received from franchisees, with a corresponding \$4.5 million increase in Deferred income taxes, net, and a \$13.6 million increase to Shareholders' deficit at June 28, 2018.

***Comparison of Fiscal 2019 Periods if Legacy GAAP Had Been in Effect***

The following tables reflect the impact to our Condensed Consolidated Statement of Income for the thirteen and thirty-nine week periods ended March 27, 2019, Cash flows from operating activities for the thirty-nine week period ended March 27, 2019, and Condensed Consolidated Balance Sheet at March 27, 2019 as if the Legacy GAAP was still in effect.

The adjustments presented below in the Condensed Consolidated Statement of Income include under ASC 606, advertising fees now presented on a gross basis as a component of Franchise and other revenues. Under Legacy GAAP, the advertising fees were recorded as a reduction to advertising expenses within Restaurant expenses in the Consolidated Statements of Comprehensive Income. Additionally, the recognition timing change for franchise related fees and gift card breakage is included within Franchise and other revenues.

The adjustments presented below in the Condensed Consolidated Balance Sheet relate to the cumulative effect impact described above in the "Financial Statement Impact of Transition to ASC 606" section, as well as the impact from the

change in the gift card breakage, deferred development and franchise fees, and corresponding deferred tax and retained earnings balances as of March 27, 2019.

**3. SALE LEASEBACK TRANSACTIONS****Restaurant Properties Sale Leaseback Transactions**

In the thirteen week period ended March 27, 2019, we completed sale leaseback transactions of four restaurant properties sold for aggregate consideration of \$11.1 million. The balances attributable to the restaurant assets sold include Land of \$3.9 million, Buildings and leasehold improvements of \$6.7 million, certain fixtures included in Furniture and equipment of \$0.2 million, and Accumulated Depreciation of \$3.1 million. The total gain was \$3.4 million.

During the thirty-nine week period ended March 27, 2019, we have completed total sale leaseback transactions of 149 restaurant properties sold for aggregate consideration of \$477.4 million. The balances attributable to the restaurant

***Lease Details***

The initial terms of all leases are for 15 years, plus renewal options at our discretion, which contain scheduled rent increases. All of the leases were determined to be operating leases. Rent expenses associated with these operating leases are being recognized on a straight-line basis over the lease terms. As of March 27, 2019, \$2.0 million of straight-line rent accrual has been recorded for these operating leases in Other liabilities in the Consolidated Balance Sheets.

The remaining balance of the deferred gain of \$269.4 million as of March 27, 2019 was recorded in Other accrued liabilities (current portion) and Deferred gain on sale leaseback transactions (long-term portion) in the Consolidated Balance Sheets.

**Corporate Headquarters Relocation**

During the third quarter of fiscal 2018, we sold the owned portion of our corporate headquarters property for net proceeds of \$13.7 million which was deferred in Other accrued liabilities in the Consolidated Balance Sheets until the third quarter of fiscal 2019 when we moved to our new corporate headquarters location, and fully relinquished possession of the sold property and terminated our involvement. As such, during the thirteen week period ended March 27, 2019 we recognized the sale, removed the balances attributable to the previous corporate headquarters assets sold that included Land of \$5.9 million, Buildings and leasehold improvements of \$10.6 million, Furniture and equipment of \$0.7 million, and Accumulated Depreciation of \$9.3 million, and recorded the related net gain of \$5.8 million to Other (gains) and charges in the Consolidated Statements of Comprehensive Income. Please see Note 6 - Other Gains and Charges for further details, including accelerated depreciation recorded to Other (gains) and charges in the Consolidated Statements of Comprehensive Income related to the sold property.

Table of Contents**4. NET INCOME PER SHARE**

Basic net income per share is computed by dividing Net income by the Basic weighted average shares outstanding for the reporting period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of Diluted net income per share, the Basic weighted average shares outstanding is increased by the dilutive effect of stock options and restricted share awards. Stock options and restricted share awards with an anti-dilutive effect are not included in the Diluted net income per share calculation. Basic weighted average shares outstanding are reconciled to Diluted weighted average shares outstanding as follows:

**Fiscal 2019**

The effective income tax rate in the thirteen and thirty-nine week periods ended March 27, 2019 compared to the thirteen and thirty-nine week periods ended March 28, 2018 decreased 10.1% and 17.0% respectively,

During the thirty-nine week period ended March 27, 2019, the gains related to the sale leaseback transactions, as described in Note 3 - Sale Leaseback Transactions, resulted in tax expenses of \$76.0 million when the transactions were completed. Also during the thirty-nine week period ended March 27, 2019, we paid \$75.0 million of the taxes, with a remaining \$1.0 million included as a payable net within Income taxes receivable in the Consolidated Balance Sheets as of March 27, 2019. This liability is expected to be paid during the fourth quarter of fiscal 2019.

**Fiscal 2018**

The thirteen and thirty-nine week periods ended March 28, 2018 consider the Tax Act that was enacted prior to the end of the second quarter of fiscal 2018 and therefore the federal statutory tax rate changes stipulated by the Tax Act were reflected in the third quarter of fiscal 2018. Our federal statutory tax rate for fiscal 2018 was 28.1% representing a blended tax rate for fiscal 2018 based on the number of days in fiscal 2018 before and after the effective date. In accordance with ASC 740, we re-measured our deferred tax accounts as of the enactment date using the new federal statutory tax rate and recognized the change as a discrete item in the provision for income taxes. The Company's deferred tax position was a net asset and as a result, the reduction in the federal statutory tax rate resulted in a one-time non-cash adjustment to our net deferred tax balance of \$8.4 million with a corresponding increase to the provision for income taxes in the thirteen and thirty-nine week periods ended March 28, 2018.

**7. SEGMENT INFORMATION**

Our operating segments are Chili's and Maggiano's. The Chili's segment includes the results of our company-owned Chili's restaurants in the United States and Canada as well as the results from our domestic and international franchise business. The Maggiano's segment includes the results of our company-owned Maggiano's restaurants as well as the results from our domestic franchise business.

Company sales include revenues generated by the operation of company-owned restaurants including gift card redemptions. Franchise and other revenues include Royalties and Franchise fees and other revenues. Franchise fees and other revenues include advertising fees (effective in the first quarter of fiscal 2019), gift card breakage, Maggiano's banquet service charge income, digital entertainment revenues, gift card equalization, gift card discount costs from third-party gift card sales, franchise and development fees, delivery fee income, merchandise income and retail royalty revenues. We do not rely on any major customers as a source of sales, and the customers and long-lived assets of our operating segments are predominantly in the United States. There were no material transactions amongst our operating segments.

Effective in the first quarter of fiscal 2019, we transitioned to ASC 606, from the previous Legacy GAAP guidance. Our Consolidated Financial Statements for the third quarter and year-to-date periods of fiscal 2019 reflect the application of ASC 606 guidance using the modified retrospective transition method, while our Consolidated Financial Statements for prior periods were prepared under Legacy GAAP. Please see Note 2 - Revenue Recognition for more details on the adoption of ASC 606.

Table of Contents

Our chief operating decision maker uses Operating income as the measure for assessing performance of our segments. Operating income includes revenues and expenses directly attributable to segment-level results of operations. Company restaurant expenses include food and beverage costs, restaurant labor costs and restaurant expenses, including advertising expenses. The following tables reconcile our segment results to our consolidated results reported in accordance with GAAP:

During the thirteen week period ended March 27, 2019, no indicators of impairment existed. During the thirty-nine week period ended March 27, 2019, based on our second quarter impairment review, we impaired long-lived assets with carrying values of \$1.0 million primarily related to two underperforming Chili's restaurants. We determined the leasehold improvements and other assets associated with the impaired restaurants had no fair value, based on Level 3 fair value measurements.

and one underperforming Chili's restaurant which will continue to operate. We determined the leasehold improvements associated with the impaired restaurants had a fair value of \$0.3 million, based on Level 3 fair value measurements, resulting in an impairment charge of \$2.0 million. Additionally during the first quarter of fiscal 2018, we impaired long-lived assets and reacquired franchise rights with carrying values of \$6.0 million and \$1.2 million, respectively, primarily related to nine underperforming Chili's restaurants located in Alberta, Canada which were identified for closure by management. We determined the leasehold improvements and other assets associated with these restaurants had no fair value, based on Level 3 fair value measurements, resulting in an impairment charge of \$7.2 million. The restaurant assets were assigned a zero fair value as the decision to close the restaurants in the second quarter of fiscal 2018 resulted in substantially all of the assets reverting to the landlords.

no indicators of impairment were identified.

\$18.0 million long-term note receivable as consideration related to the sale of our equity interest in the Chili's joint venture in Mexico. We determined the fair value of this note based on an internally developed analysis relying on Level 3 inputs at inception. This analysis was based on a credit rating we assigned to the counterparty and comparable interest rates associated with similar debt instruments observed in the market. As a result of the initial analysis, we determined the fair value of this note was approximately \$16.0 million and recorded this fair value as its initial carrying value. We believe the fair value of the note receivable continues to approximate the carrying value, which at March 27, 2019 was \$11.8 million. The current portion of the note, which represents the cash payments to be received over the next 12 months, is included within Accounts receivable, net while the long-term portion of the note is included within Other assets in the Consolidated Balance Sheets. Please refer to Note 6 - Other Gains and Charges for further details about this note receivable.

Additionally, we have recorded certain lease obligations related to the previously divested Romano's Macaroni Grill restaurants. These lease obligations are based on Level 3 fair value measurements based on an estimate of the obligation associated with the lease locations, stated rent and other factors such as ability and probability of the landlord to mitigate damages by leasing to new tenants. Please refer to Note 13 - Contingencies for further details.

**Share Repurchases**

Our share repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. We evaluate potential share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, proceeds from divestitures, borrowings, and planned investment and financing needs. Shares that have been paid for but not yet delivered are reflected as a reduction of Additional paid-in capital while other repurchased shares are reflected as an increase in Treasury stock within Shareholders' deficit in the Consolidated Balance Sheets. The repurchased shares during the thirty-nine week periods ended March 27, 2019 and March 28, 2018 included shares purchased as part of our share repurchase program and shares repurchased to satisfy team member tax withholding obligations on the vesting of restricted shares.

*Thirty-Nine Week Period Ended March 27, 2019*

In August 2018, our Board of Directors authorized a \$300.0 million increase to our existing share repurchase program resulting in total authorizations of \$4.9 billion. During the first quarter of fiscal 2019, we repurchased 2.1 million shares of our common stock for \$105.5 million. During the second quarter of fiscal 2019, we repurchased 1.5 million shares of our common stock for \$62.1 million.

\$197.8 million

Table of Contents

During the first quarter of fiscal 2018, we repurchased 1.3 million shares of our common stock for \$41.7 million. During the second quarter of fiscal 2018, we repurchased 1.0 million shares of our common stock for \$30.1 million. During the third quarter of fiscal 2018, we repurchased 2.5 million shares of our common stock for \$90.2 million.

**Stock-based Compensation**

The following table presents the stock options and restricted share awards granted, and related weighted average exercise price and fair value per share amounts for the thirty-nine week periods ended March 27, 2019 and March 28, 2018:

During the thirty-nine week period ended March 27, 2019, we modified certain fiscal 2018 performance-based stock option awards and 0.2 million options were canceled. We subsequently granted fiscal 2019 performance-based stock option awards of 0.4 million options with a grant date fair value equivalent to the fair value of the canceled fiscal 2018 options as of the modification date. Vesting of the fiscal 2019 performance-based options is conditioned on achievement of the same performance targets and vest on the same schedule as the fiscal 2018 performance-based stock options. There is no incremental compen

uring the thirty-nine week periods ended March 27, 2019 and March 28, 2018, we paid dividends of \$46.0 million and \$53.1 million to common stock shareholders, respectively. We also declared a quarterly dividend on January 28, 2019, that was paid subsequent to the third quarter of fiscal 2019, on March 28, 2019, in the amount of \$0.38 per share. As of March 27, 2019, we have accrued \$14.2 million for this dividend in Other accrued liabilities in our Consolidated Balance Sheets; see Note 9 - Accrued and Other Liabilities.

**Effect of Adoption of ASC 606**

During the first quarter of fiscal 2019, we adopted the new revenue recognition standard and recorded a \$7.4 million cumulative effect adjustment decrease to Retained earnings for the change in accounting principle. Please refer to Note 2 - Revenue Recognition for more details.

**Realized Foreign Currency Translation**

During the thirteen week period ended December 27, 2017, we divested our Mexican joint venture and realized \$5.4 million of foreign currency translation losses that were reclassified from Accumulated other comprehensive loss into Net income. Please refer to Note 10 - Fair Value Measurements for further details on the divestiture and related consideration received.

Please refer to Note 3 - Sale Leaseback Transactions and Note 5 - Income Taxes for further details.

Non-cash investing and financing activities are as follows:

**13. CONTINGENCIES****Lease Commitments**

We have, in certain cases, divested brands or sold restaurants to franchisees and have not been released from lease guarantees or lease liability for the related restaurants. As of March 27, 2019 and June 27, 2018, we have outstanding lease guarantees or are secondarily liable for \$58.4 million and \$58.2 million, respectively. These amounts represent the maximum potential liability of future rent payments under the current terms of the leases. These leases have been assigned to the buyers and expire at the end of the respective lease terms, which range from fiscal 2019 through fiscal 2028. In the event of default under a lease by a franchisee or owner of a divested brand, the indemnity and default clauses in our agreements with such third-parties and applicable laws govern our ability to pursue and recover amounts we may pay on behalf of such parties.

During fiscal 2018, Mac Acquisition LLC, the owner of Romano's Macaroni Grill restaurants, filed for Chapter 11 bankruptcy protection. We have outstanding lease guarantees or are secondarily liable for certain of its leases rejected in the bankruptcy. As of March 27, 2019 and June 27, 2018, balances of \$0.4 million and \$1.4 million, respectively, were recorded in Other accrued liabilities in our Consolidated Balance Sheets based on our analysis of the potential obligations and are inclusive of the fiscal 2019 activity detailed below.

We paid \$0.9 million during the thirty-nine week period ended March 27, 2019 to settle obligations of two of the leases rejected in the Mac Acquisition, LLC bankruptcy proceeding. We do not expect additional leases to be rejected because the period for doing so in the bankruptcy proceeding concluded and Mac Acquisition, LLC's plan for reorganization in the bankruptcy proceeding was confirmed. We will continue to monitor leases for which we have outstanding guarantees or are secondarily liable to assess the likelihood of any incremental losses. No other liabilities related to this matter have been recorded as of March 27, 2019.

Table of Contents**Letters Of Credit**

We provide letters of credit to various insurers to collateralize obligations for outstanding claims. As of March 27, 2019, we had \$29.0 million in undrawn standby letters of credit outstanding. All standby letters of credit are renewable within the next 1 to 13 months.

**Cyber Security Incident**

On May 12, 2018, we issued a public statement that malware had been discovered at certain Chili's restaurants that resulted in unauthorized access or acquisition of customer payment card data. We engaged third-party forensic firms and cooperated with law enforcement to investigate the matter. Based on the investigation of our third-party forensic experts, we believe most company-owned Chili's restaurants were impacted by the malware during time frames that vary by restaurant, but we believe in each case began no earlier than March 21, 2018 and ended no later than April 22, 2018.

We expect to incur significant legal and professional services expenses associated with the cyber security incident in future periods. We will recognize these expenses as services are received. Related to this incident, payment card companies and associations may request us to reimburse them for unauthorized card charges and costs to replace cards and may also impose fines or penalties in connection with the cyber security incident, and regulatory authorities may also impose fines or other remedies against us. While we do not acknowledge responsibility to pay any such amounts imposed by any third-parties, we may become obligated to pay such amounts or incur significant related settlement costs. We will record an estimate for losses at the time when it is both probable that a loss has been incurred and the amount of the loss is reasonably estimable.

To limit our exposure to cyber security events, we maintain cyber liability insurance coverage. This coverage and certain other insurance coverage may reduce our exposure for this incident. Our cyber liability insurance policy contains a \$2.0 million retention. Since the incident through March 27, 2019, we have incurred costs of \$4.1 million related to the cyber security incident which includes the \$2.0 million retention recorded in fiscal 2018, an additional \$0.4 million recorded to Other (gains) and charges in the Consolidated Statements of Comprehensive Income during the thirty-nine week period ended March 27, 2019, and \$1.7 million of receivable for costs we believe are reimbursable and probable of recovery under our insurance coverage.

The Company was named as a defendant in putative class action lawsuits in the United States District Court for the Middle District of Florida, the United States District Court for the District of Nevada, and two in the United States District Court for the Central District of California, filed on May 24, 2018, May 30, 2018, June 14, 2018, and June 28, 2018, respectively (collectively, the "Litigation") relating to the cyber security incident described above. In the Litigation, plaintiffs assert various claims stemming from the cyber security incident at the Company's Chili's restaurants involving customer payment card information and seek monetary damages in excess of \$5.0 million, injunctive and declaratory relief and attorney's fees and costs. Since the initial filing of these cases, the Nevada plaintiff voluntarily dismissed this case and joined the Florida lawsuit. Counsel for all parties subsequently agreed to the transfer of the California cases to Florida, and they have been consolidated into a single matter with the case already pending there. We believe we have defenses and intend to defend the Litigation. As such, as of March 27, 2019, we have concluded that a loss from this matter is not determinable, therefore, we have not recorded a liability related to the Litigation. We will continue to evaluate this matter based on new information as it becomes available.

**Legal Proceedings**

Evaluating contingencies related to litigation is a complex process involving subjective judgment on the potential outcome of future events, and the ultimate resolution of litigated claims may differ from our current analysis. Accordingly, we review the adequacy of accruals and disclosures pertaining to litigated matters each quarter in consultation with legal counsel and we assess the probability and range of possible losses associated with contingencies for potential accrual in the Consolidated Financial Statements.

We are engaged in various legal proceedings and have certain unresolved claims pending. Liabilities have been established based on our best estimates of our potential liability in certain of these matters. Based upon consultation with legal counsel, management is of the opinion that there are no matters pending or threatened which are expected

to have a material adverse effect, individually or in the aggregate, on our consolidated financial condition or results of operations.

**14. EFFECT OF NEW ACCOUNTING STANDARDS**

*ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* - In August 2018, the FASB issued ASU 2018-13, which modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement. The amendments under ASU 2018-13 add an incremental requirement, among others, for entities to disclose (1) the range and weighted average used to develop significant unobservable inputs and (2) how the weighted average was calculated for fair value measurements categorized within Level 3 of the fair value hierarchy. Entities may disclose other quantitative information in lieu of the weighted average if they determine that such information embodies a more reasonable and rational method of reflecting the distribution of significant unobservable inputs used to develop Level 3 fair value measurements. The new guidance is effective for all entities for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years, which will require us to adopt these provisions in the first quarter of fiscal 2021. Early adoption is permitted. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

*ASU 2016-02, Leases (Topic 842)* - In February 2016, the FASB issued ASU 2016-02, and has subsequently amended this update by issuing additional ASU's that provide clarification and further guidance around areas identified as potential implementation issues. These updates require a lessee to recognize in the balance sheet a liability to make lease payments and a corresponding right-of-use asset for virtually all leases, other than leases with a term of 12 months or less if the short-term lease exclusion expedient is elected. The update also requires additional disclosures about the amount, timing, and uncertainty of cash flows arising from leases. The updates are effective for annual and interim periods for fiscal years beginning after December 15, 2018, which will require us to adopt these provisions in the first quarter of fiscal 2020. Early adoption is permitted for financial statements that have not been previously issued. In July 2018, the FASB issued ASU 2018-11 that provided either a modified retrospective transition approach with application in all comparative periods presented, or an alternative transition method, which permits a company to use its effective date as the date of initial application without restating comparative period financial statements (cumulative effect transition method).

We currently expect to implement the standard using the alternative cumulative effect transition method and elect the package of practical expedients under which we will not reassess the classification of our existing leases, reevaluate whether any expired or existing contracts are or contain leases or reassess initial direct costs under the new guidance. Additionally, we expect to elect lessee and lessor practical expedients to not separate non-lease components, such as common area maintenance and property taxes, from lease components. We also anticipate electing the short-term lease exemption from balance sheet recognition for all leases that qualify, and the land easement practical expedient that allows entities to elect not to assess whether existing land easements are, or contain, leases in accordance with ASC 842 when transitioning to the new leasing standard. We do not expect to elect the practical expedient that permits a reassessment of lease terms for existing leases. We are currently evaluating other practical expedients and elections specified in the guidelines.

We have commenced an analysis of the impact of the new lease guidance and developed a comprehensive plan for our implementation of the new guidance. The project plan includes analyzing the impact of the new guidance on our current lease contracts, reviewing the completeness of our existing lease portfolio, comparing our accounting policies under current accounting guidance to the new accounting guidance and identifying potential differences from applying the requirements of the new guidance to our lease contracts, and the evaluation of lease accounting tools to assist with the adoption and ongoing disclosures related to this new standard. We have completed initial controls around identifying the completeness of our existing lease portfolio. We have also identified and are in progress of implementing a leasing tool with the functionality required by the new standard.

Under current accounting guidance for leases, we do not recognize an asset or liability created by operating leases where we are the lessee. We expect a material increase to our assets and liabilities in our consolidated balance sheet as a result of recognizing assets and liabilities for operating leases where we are the lessee on the date of initial

Table of Contents

application of the new guidance. The discounted minimum remaining rental payments will be the starting point for determining the right-of-use asset and lease liability. We had operating real estate leases with undiscounted remaining rental payments of approximately \$1,060.0 million as of March 27, 2019, this includes the 149 sale leaseback leases added during fiscal 2019. Additionally, we expect to derecognize the deferred gain from the sale leaseback transactions through an opening retained earnings adjustment upon adoption using the cumulative effect transition method, and as of March 27, 2019, we had \$269.4 million recorded in Other accrued liabilities (current portion) and Deferred gain on sale leaseback transactions (long-term portion) in the Consolidated Balance Sheets.

We are continuing to evaluate the impact of the new guidance on capital leases, as well as the impact of transition provisions under the new guidance on amounts recognized in connection with our previous application of acquisition accounting. We are also continuing to evaluate the impact that adoption of this guidance will have on our consolidated statements of operations. We do not expect the adoption of this new guidance to have a material impact on the amount or timing of our cash flows and liquidity.

## **15. SUBSEQUENT EVENTS**

### **Revolver Net Borrowings**

Net borrowings of \$63.0 million were drawn on the revolving credit facility subsequent to the end of the third quarter of fiscal 2019.

### **Dividend Declaration**

On April 29, 2019, our Board of Directors declared a quarterly dividend of \$0.38 per share to be paid on June 27, 2019 to shareholders of record as of June 7, 2019.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**GENERAL**

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help you understand our company, our operations, and our current operating environment. For an understanding of the significant factors that influenced our performance during the thirteen and thirty-nine week periods ended March 27, 2019 and March 28, 2018, the MD&A should be read in conjunction with the Consolidated Financial Statements (Unaudited) and related Notes to the Consolidated Financial Statements included in this quarterly report. All amounts within the MD&A are presented in millions unless otherwise specified.

**OVERVIEW**

We are principally engaged in the ownership, operation, development, and franchising of the Chili's® Grill & Bar ("Chili's") and Maggiano's Little Italy ("Maggiano's") restaurant brands. At March 27, 2019, we owned, operated or franchised 1,676 restaurants, consisting of 997 company-owned restaurants and 679 franchised restaurants, located in the United States, 29 countries and two United States territories.

We are committed to strategies and a company culture that we believe are centered on a guest experience which includes bringing back guests, growing long-term sales and profit and engaging team members. Our strategies and culture are intended to differentiate our brands from the competition, reduce the costs associated with managing our restaurants and establish a strong presence for our brands in key markets around the world.

We regularly evaluate our processes and menu at Chili's to identify opportunities where we can improve our service quality and food. During fiscal 2018, we reduced our menu items by approximately one-third compared to the prior year, and focused on our core equities of burgers, ribs, fajitas and margaritas. This initiative improved kitchen efficiency and allowed our managers and cooks to deliver our food hotter and faster to our guests. We also invested in the quality of our food. During fiscal 2019, we continue to focus on our core equities and improving guest satisfaction with our food.

We remain competitive with a flexible platform of our value offerings at both lunch and dinner and are committed to offering consistent, quality products at a price point that is compelling to our guests. Our "3 for \$10" platform allows guests to combine a starter, a non-alcoholic drink and an entrée for just \$10.00 and is part of the every day base menu. Additionally, we have continued our margarita of the month promotion that started in fiscal year 2018 that features a new premium-liquor margarita every month at an every-day value price of \$5.00. We believe these and other value offers are increasing guest frequency and that few of our competitors can match these offers on a consistent basis. We continue to seek opportunities to reinforce value and create interest for the Chili's brand with new and varied offerings to further enhance sales and drive incremental traffic.

We believe that guests will continue to prefer more convenience and options that allow them to eat at home or other off-premise locations, and we plan to continue investments in our digital guest experience and To Go capabilities. The importance of delivery continues to be a focus and we are engaged in growing off-premise delivery business, and are evaluating delivery program partners capable of managing our scale, with the same level of commitment to our guests. The Chili's brand continues to leverage technology to improve convenience for our guests and to create a digital guest experience that we believe will help us engage our guests more effectively. With our loyalty program, we are able to give our loyalty members customized offers tied to their purchase behavior. We anticipate that guest loyalty programs will be a significant part of our marketing strategy going forward. We also have put greater emphasis on improving and advertising our To Go capabilities. In the third quarter of fiscal 2019, Chili's grew its To Go business by 17.2% compared to the same quarter in the prior year. To Go sales were approximately 13.0% of total Chili's To Go and dine-in during the thirteen week period ended March 27, 2019.

Table of Contents

We believe that improvements at domestic Chili's will have a significant impact on the business; however, our results will also benefit through additional contributions from Maggiano's and our global Chili's business. Maggiano's opened one franchise location in the Dallas Fort Worth International Airport in the second quarter of fiscal 2019. Guests are responding favorably to the new Maggiano's location, and we intend to explore other opportunities to franchise Maggiano's in additional airport locations. During fiscal 2019, Maggiano's is using technology and innovation in the front of the house to improve the accuracy of wait-time quotes to customers, and in the back of the house to improve labor efficiencies. Additionally, Maggiano's has brought additional value to our carry out menu by offering customers the opportunity to "Double the Portion, Not the Price" by taking home a second portion of certain menu items for a reduced price. Maggiano's guests also continue to show an increased preference for our carry out menu and delivery service. In the thirteen week period ended March 27, 2019, Maggiano's grew its carry out business by 18.0% compared to the same quarter in the prior year.

Our global Chili's franchisees continue to open new locations, with Chili's having a presence in 29 countries and two territories outside of the United States. Our international franchisees are expected to open between 21-24 new restaurants in fiscal 2019, with our first Chili's restaurant opening in China this summer. We plan to strategically pursue expansion of Chili's internationally through development agreements with new and existing franchise partners. The following table details the number of restaurant openings during the thirteen and thirty-nine week periods ended March 27, 2019 and March 28, 2018, respectively, total full year projected openings in fiscal 2019, and the total restaurants open at each period end:

Relocations are not included in the table above. During the thirty-nine week period ended March 27, 2019 we have relocated five company-owned restaurants, with two of those relocations occurring during the thirteen week period ended March 27, 2019.

During the thirty-nine week period ended March 27, 2019, we sold and subsequently leased back 149 previously owned restaurant properties. At March 27, 2019, we continue to own property for 47 of the 997 company-owned restaurants. The net book values of the land totaled \$37.4 million and the buildings totaled \$22.3 million associated with these restaurants.

**REVENUES****Transition to New Revenue Recognition Accounting Standard**

Effective June 28, 2018, our first quarter of fiscal 2019, we adopted FASB Accounting Standards Codification (“ASC”) Topic 606, *Revenue from Contracts with Customers* (“ASC 606”), from the previous guidance ASC Topic 605, *Revenue Recognition* and ASC Subtopic 952-605, *Franchisors - Revenue Recognition* (together, “Legacy GAAP”). Our transition to ASC 606 represents a change in accounting principle. Our Consolidated Financial Statements for the third quarter and year-to-date periods of fiscal 2019 reflect the application of ASC 606 guidance using the modified retrospective transition method, while our Consolidated Financial Statements for prior periods were prepared under Legacy GAAP. Please refer to Note 2 - Revenue Recognition for further details of our adoption of ASC 606 and our policies for recognition of revenues from contracts with customers. The most significant effect of the transition to ASC 606 that affect the comparability of our results of operations between fiscal 2019 (reported under ASC 606) and fiscal 2018 (reported under Legacy GAAP) include the following:

*Advertising Fees* - Domestic franchisees are contractually obligated to contribute into certain advertising and marketing funds. The adoption of ASC 606 did not impact the timing of revenue recognition of the advertising fees received; however, effective in the first quarter of fiscal 2019, advertising fees are now presented on a gross basis within Franchise and other revenues. Under Legacy GAAP, the advertising funds received from

Table of Contents

franchisees were considered a reimbursement of advertising expenses and were presented on a net basis as a reduction to advertising expenses in Restaurant expenses in the Consolidated Statements of Comprehensive Income.

The adoption of ASC 606 changed the recognition timing of our initial development and franchise fees, and gift card breakage income as noted below. The recognition timing change did not have a significant impact to our results of operations during the first three quarters of fiscal 2019:

*Initial Development and Franchise Fees* - We receive development fees from franchisees for territory development arrangements and franchise fees for a new restaurant opening. Under ASC 606, the performance obligation related to these arrangements will be collectively deferred as a contract liability and recognized on a straight-line basis into Franchise and other revenues in the Consolidated Statements of Comprehensive Income over the term of the underlying agreements. Deferred franchise and development fees are classified within Other accrued liabilities for the current portion expected to be recognized within the next 12 months, and Other liabilities for the long-term portion in the Consolidated Balance Sheets.

Under Legacy GAAP, development fees were recognized as income upon the execution of the agreement, when development rights were conveyed to the franchisee. Franchise fees were recognized as income when the obligations under the franchise agreement were satisfied, generally upon the opening of the new franchise restaurant.

*Gift Card Breakage Income* - Breakage revenues represent the monetary value associated with outstanding gift card balances for which redemption is considered remote. We estimate this amount based on our historical gift card redemption patterns and update the breakage rate estimate periodically and if necessary, adjust the deferred revenues balance within the Gift card liability account in the Consolidated Balance Sheets accordingly. In accordance with ASC 606, breakage revenues will be recognized proportionate to the pattern of related gift card redemptions. Under Legacy GAAP, breakage revenues were recognized when redemption was considered remote. We do not charge dormancy or any other fees related to monitoring or administering the gift card program to cardholders. Breakage income is reflected within Franchise and other revenues in the Consolidated Statements of Comprehensive Income.

**Revenue Results**

Revenues are presented in two separate captions in the Consolidated Statements of Comprehensive Income to provide more clarity around company-owned restaurant revenues and operating expense trends. Total revenues are further disaggregated as follows:

• Company sales include revenues generated by the operation of company-owned restaurants including gift card redemptions.

• Franchise and other revenues include Royalties from franchisees and Franchise fees and other revenues which contains advertising fees, franchise and development fees, Maggiano's banquet service charge income, gift card breakage and discounts, digital entertainment revenues, Chili's retail food product royalties, merchandise and delivery fee income.

Franchise fees and other revenues	5.7	14.6
For the period ended March 27, 2019 (ASC 606)	\$839.3	\$2,383.8

Total revenues in the thirteen week period ended March 27, 2019 increased 3.3% to \$839.3 million from the \$812.5 million generated in the thirteen week period ended March 28, 2018 primarily driven by a \$19.8 million increase in comparable restaurant sales and a net increase of \$5.7 million in Franchise fees and other revenues related to the ASC 606 adoption. Total revenues in the thirty-nine week period ended March 27, 2019 increased 2.8% to \$2,383.8 million from the \$2,318.3 million generated in the thirty-nine week period ended March 28, 2018 primarily driven by a \$51.5 million increase in comparable restaurant sales and a net increase of \$14.6 million in Franchise fees and other revenues related to the impact of ASC 606 adoption.

Royalties of \$13.5 million were flat in the thirteen week period ended March 27, 2019 compared to the thirteen week period ended March 28, 2018. Royalties are based on franchise sales, our franchisees generated approximately \$335.0 million in sales for the thirteen week period ended March 27, 2019 compared to \$337.0 million in sales for the thirteen week period ended March 28, 2018. Royalties decreased 1.0% to \$39.6 million in the thirty-nine week period ended March 27, 2019 compared to \$40.0 million in the thirty-nine week period ended March 28, 2018. Our franchisees generated approximately \$982.7 million in sales for the thirty-nine week period ended March 27, 2019 compared to \$980.9 million in sales for the thirty-nine week period ended March 28, 2018.

Franchise fees and other revenues increased 67.1% to \$14.2 million in the thirteen week period ended March 27, 2019 compared to \$8.5 million in the thirteen week period ended March 28, 2018 primarily due to \$5.5 million of advertising fees presented gross with the adoption of ASC 606, and higher gift card related revenues. Franchise fees and other revenues increased 51.8% to \$42.8 million in the thirty-nine week period ended March 27, 2019 compared to \$28.2 million in the thirty-nine week period ended March 28, 2018 primarily due to \$15.9 million of advertising fees presented gross with the adoption of ASC 606 and higher gift card related revenues, partially offset by lower retail royalty revenues and digital entertainment revenues. During the thirteen and thirty-nine week periods ended March 28, 2018, advertising contributions of \$6.2 million and \$17.0 million from franchisees were recorded net within Restaurant expenses, respectiv

(1) Comparable restaurant sales include all restaurants that have been in operation for more than 18 months. Amounts are calculated based on comparable current period versus same period a year ago.

(2) Mix-shift is calculated as the year-over-year percentage change in Company sales resulting from the change in menu items ordered by guests.

(3) Restaurant capacity is measured by sales weeks. Amounts are calculated based on comparable current period versus same period a year ago.

Chili's franchise sales generated by franchisees are not included in revenues in the Consolidated Statements of Comprehensive Income; however, we generate royalty revenues and advertising fees based on franchisee revenues, where applicable. We believe including franchise comparable restaurant sales provides investors information regarding brand performance that is relevant to current operations and may impact future restaurant development.

(4) Chili's domestic comparable restaurant sales percentages are derived from sales generated by company-owned and franchise operated Chili's restaurants in the United States.

(6) System-wide comparable restaurant sales are derived from sales generated by company-owned Chili's and Maggiano's restaurants in addition to the sales generated at franchise-operated Chili's restaurants.

Please see further discussion of revenues for our Chili's and Maggiano's segments below in SEGMENT RESULTS.

Effective income tax rate	10.3%	20.4%	(10.1)%	11.7%	28.7%	(17.0)%

The effective income tax rate in the thirteen and thirty-nine week periods ended March 27, 2019 decreased compared to the thirteen and thirty-nine week periods ended March 28, 2018, respectively, primarily due to the Tax Cuts and Jobs Act of 2017 (the "Tax Act") that was enacted on December 22, 2017. The Tax Act lowered the federal statutory tax rate from 35.0% to 21.0% effective January 1, 2018. The effective income tax rate for the thirteen and thirty-nine week periods ended March 28, 2018 included the negative impact of revaluing the Company's deferred tax accounts pursuant to the Tax Act, partially offset by the positive impact of lowering the federal statutory tax rate. Our fiscal 2019 effective income tax rate is further lowered due to an increase in the FICA tax credit benefit, partially offset by the impact of the sale leaseback transactions.

During the thirty-nine week period ended March 27, 2019, the sale leaseback transactions, as described in Note 3 - Sale Leaseback Transactions, resulted in tax expenses of \$76.0 million when the transactions were completed.

***Cash Flow Outlook***

We believe that our various sources of capital, including future cash flow from operating activities and availability under our existing credit facility are adequate to finance operations as well as the repayment of current debt obligations. We are not aware of any other event or trend that would potentially affect our liquidity. In the event such a trend develops, we believe that there are sufficient funds available under our credit facility and from our internal cash generating capabilities to adequately manage our ongoing business. We will continue to periodically evaluate ways to monetize the value of our remaining owned real estate and should alternatives become available that are more cost effective than our financing options currently available, we will consider execution of those alternatives.

**OFF-BALANCE SHEET ARRANGEMENTS**

We have obligations for guarantees on certain lease agreements and letters of credit as disclosed in Note 13 - Contingencies, in our consolidated financial statements included in Part I, Item 1 of this Form 10-Q. Other than these items, we do not have any off-balance sheet arrangements.

**RECENT ACCOUNTING PRONOUNCEMENTS**

The impact of recent accounting pronouncements can be found at Part I, Item 1, Note 14 - Effect of New Accounting Standards of this Form 10-Q report.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in our quantitative and qualitative market risks set forth in Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the year ended June 27, 2018.

Table of Contents**ITEM 4. CONTROLS AND PROCEDURES*****Evaluation of Disclosure Controls and Procedures***

Based on their evaluation of our disclosure controls and procedures (as defined in Rules 13(a)-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective.

***Changes in Internal Control Over Financial Reporting***

Beginning on June 28, 2018, the first day of fiscal year 2019, we integrated certain new controls to ensure the completeness and accuracy of the adoption FASB Accounting Standards Codification Topic 606, *Revenue from Contracts with Customers* (“ASC 606”).

***Internal Control Over Financial Reporting***

Other than changes described above in Changes in Internal Control Over Financial Reporting, there were no changes in our internal control over financial reporting during the thirteen week period ended March 27, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**FORWARD-LOOKING STATEMENTS**

Information and statements contained in this Form 10-Q, in our other filings with the SEC or in our written and verbal communications that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are generally accompanied by words like “believes,” “anticipates,” “estimates,” “predicts,” “expects,” “plans,” “intends,” “projects,” “continues” and other similar expressions that convey uncertainty about future events or outcomes. Forward-looking statements are based on our current plans and expectations and involve risks and uncertainties which could cause actual results to differ materially from our historical results or from those projected in forward-looking statements. These risks and uncertainties are, in many instances, beyond our control. We wish to caution you against placing undue reliance on forward-looking statements because of these risks and uncertainties. Except as required by law, we expressly disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

The forward-looking statements contained in this report are subject to the risks and uncertainties described in Part I, Item IA “Risk Factors” in our Annual Report on Form 10-K for the year ended June 27, 2018, and below in Part II, Item 1A “Risk Factors” in this report on Form 10-Q, as well as the risks and uncertainties that generally apply to all businesses. We further caution that it is not possible to identify all risks and uncertainties, and you should not consider the identified factors as a complete list of all risks and uncertainties. Among the factors that could cause actual results to differ materially are: the impact of competition, changes in consumer preferences, consumer perception of food safety, reduced disposable income, unfavorable publicity, increased minimum wages, governmental regulations, the impact of mergers, acquisitions, divestitures and other strategic transactions, the Company’s ability to meet its business strategy plan, loss of key management personnel, failure to hire and retain high-quality restaurant management, the impact of social media, failure to protect the security of data of our guests and team members, product availability, regional business and economic conditions, litigation, franchisee success, inflation, changes in the retail industry, technology failures, failure to protect our intellectual property, outsourcing, impairment of goodwill or assets, failure to maintain effective internal control over financial reporting, actions of activist shareholders, adverse weather conditions, terrorist acts, health epidemics or pandemics, and tax reform.

Other risk factors may adversely affect our financial performance. These other risk factors could cause our actual results to differ materially from those indicated in the forward-looking statements by affecting, among many things, pricing, consumer spending, consumer confidence, and operating costs. Such risks include, without limitation, changes in financial and credit markets (including rising interest rates); increases in fuel costs and availability for our team members, customers and suppliers; increases in health care costs; health epidemics or pandemics or the prospects of these events; changes in consumer behaviors; changes in demographic trends; labor shortages and availability of employees; union organization; strikes; terrorist acts; energy shortages and rolling blackouts; and weather (including

**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

Information regarding legal proceedings is incorporated by reference from Note 13 - Contingencies to our unaudited Consolidated Financial Statements set forth in Part I, Item 1, of this report.

**ITEM 1A. RISK FACTORS**

In addition to the other information in this report, you should carefully consider the factors discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended June 27, 2018, which could materially affect our business, financial condition or results of operations. It is not possible to predict or identify all risk factors. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also impair our business, financial condition or results of operations. Therefore, the risks identified are not intended to be a complete discussion of all potential risks or uncertainties.

During the thirteen week period ended March 27, 2019, there have been no material changes in the risk factors set forth in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended June 27, 2018.
