FORWARD-LOOKING STATEMENTS

Forward-looking statements in this Form 8-K are based on current plans and expectations that are subject to uncertainties and risks, which could cause the Company's future results to differ materially. The following factors, among others, could cause the Company's actual results to differ: the frequency and magnitude of foreclosure of the Company's loans; the effects of the Company's lack of a diversified loan portfolio, including the risks of geographic and industry concentrations; the accuracy of the Company's financial statement estimates and assumptions, including the estimate for the Company's loan loss provision; the Company's ability to integrate acquisitions; the strength of the U.S. economy and the local economies where the Company conducts operations; harsh weather conditions; fluctuations in inflation, interest rates, or monetary policies; changes in the stock market and other capital and real estate markets; legislative or regulatory changes; customer acceptance of third-party products and services; increased competition and its effect on pricing; technological changes; the effects of security breaches and computer viruses that may affect the Company's computer systems; changes in consumer spending and savings habits; the Company's growth and profitability; changes in accounting; and the Company's ability to manage the risks involved in the foregoing. Additional factors can be found in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, and the Company's other filings with the SEC, which are available at the SEC's internet site (<http://www.sec.gov>). Forward-looking statements in this Form 8-K speak only as of the date of the Form 8-K, and the Company assumes no obligation to update forward-looking statements or the reasons why actual results could differ.
