2013 Full-Year Guidance

Altria Group, Inc. (“Altria”) has revised its guidance for 2013 full-year reported diluted earnings per share (“EPS”) from a range of \$2.49 to \$2.55 to a range of \$2.50 to \$2.56 to reflect the impact of an additional \$36 million credit to be applied against Philip Morris USA Inc.’s (“PM USA”) Master Settlement Agreement payment obligations as a result of an additional two states joining the previously disclosed settlement with certain states of the non-participating manufacturer adjustment (“NPM Adjustment”) disputes for 2003 - 2012. This revised forecast includes estimated net income of \$0.15 per share, as detailed in the table below, as compared with the 2012 full-year reported diluted EPS of \$2.06, which included \$0.15 per share of net expenses, as detailed in the table below. Expected 2013 full-year adjusted diluted EPS, which excludes the items in the table below, represents a growth rate of 6% to 9% over 2012 full-year adjusted diluted EPS.

For more information on the NPM Adjustment, see Altria’s Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2013 (the “2013 First Quarter Form 10-Q”).

The factors described in the Forward-Looking and Cautionary Statements section of the press release attached as Exhibit 99.2 to this Current Report on Form 8-K represent continuing risks to this forecast.

Expense (Income), Net Included in Reported Diluted EPS

	2013	2012
Loss on early extinguishment of debt	\$—	\$0.28
NPM Adjustment	(0.16)	—
Asset impairment, exit and implementation costs	—	0.01

PMCC leveraged lease benefit	—	(0.03)
Tax items*	—	(0.03)
	\$ (0.15)	\$ 0.15

* Excludes the tax impact of the Philip Morris Capital Corporation (“PMCC”) leveraged lease benefit.

Adjusted diluted EPS is a financial measure that is not consistent with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Altria’s management reviews diluted EPS on an adjusted basis, which excludes certain income and expense items that management believes are not part of underlying operations. These items may include, for example, loss on early extinguishment of debt, restructuring charges, SABMiller plc (“SABMiller”) special items, certain PMCC leveraged lease items, certain tax items, tobacco and health judgments, and settlements of certain NPM Adjustment disputes. Altria’s management does not view any of these special items to be part of its sustainable results as they may be highly variable and difficult to predict and can distort underlying business trends and results. Altria’s management believes it is appropriate to disclose this non-GAAP financial measure to provide useful insight into underlying business trends and results, and to provide a more meaningful comparison of year-over-year results. Adjusted measures are used by management and regularly provided to Altria’s chief operating decision maker for planning, forecasting and evaluating the performances of Altria’s businesses, including allocating resources and evaluating results relative to employee compensation targets. This information should be considered as supplemental in nature and not considered in isolation or as a substitute for the related financial information prepared in accordance with U.S. GAAP.

Restated Retail Share Performance

As previously disclosed in the 2013 First Quarter Form 10-Q, effective in the first quarter of 2013, retail share results for cigarettes are based on a new tracking service, IRI/Management Science Associate Inc. (“MSAi”), and retail share results for cigars and smokeless products are based on a new tracking service, IRI InfoScan. These cost-effective new services measure retail share in stores representing trade classes selling a significant majority of the volume of the product being measured. For other trade classes selling cigarettes, retail share is based on shipments from wholesalers to retailers reported through the Store Tracking Analytical Reporting System (“STARS”). Retail market share results reported using the new services cannot be meaningfully compared to retail market shares previously reported by Altria’s tobacco companies under the previous services.

As a result of the transition to the new tracking services for cigarettes and cigars, PM USA and John Middleton Co. have restated previously released 2012 and 2011 retail share results, which are summarized below. The restated retail share results for 2012 were previously reported in the 2013 First Quarter Form 10-Q.
