Report of Independent Registered Public Accounting Firm

Benefit Plans Administration Committee
TrueBlue, Inc. 401(k) Plan
Tacoma, Washington

We have audited the accompanying statements of net assets available for benefits of TrueBlue, Inc. 401(k) Plan (the Plan) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions (supplemental information) have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

TrueBlue, Inc. 401(k) Plan

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the TrueBlue, Inc. 401(k) Plan (Plan) is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan, which was restated effective January 1, 2014 and most recently amended effective April 1, 2015, is a defined contribution plan established by TrueBlue, Inc. (the "Company", "we", "our") under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. Eligible employees of the Company are defined under Article II of the TrueBlue, Inc. 401(k) Plan document and must be 21 years of age or older and depending on the type of employee, will have completed six months to one year of service to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended (ERISA). The Plan was amended subsequent to year end, with no material impact.

Contributions and Participant Investment Options

Eligible employees may elect to defer a specific amount of compensation each year instead of receiving that amount in cash. The total deferrals in any taxable year may not exceed a dollar limit that is set by law, which was \$18,000 for 2015 and \$17,500 for 2014. Participants turning age 50 or older may elect to defer additional amounts to the Plan (called "catch-up contributions"). Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

The Company provides a discretionary matching contribution equal to 25% of each participant's deferral contribution. Employer matching contributions were contributed in cash for the respective year end for 2015 and 2014 matching contributions. The Company has the discretion to require that participants be employed on the last day of the Plan year in order to receive the matching allocation.

In addition, effective January 1, 2012, employees who perform services subject to participating prevailing wage contracts are eligible to participate in the Plan for purposes of receiving prevailing wage contributions upon completion of one hour of service, but not for purposes of making or receiving other contributions.

All participants may direct the investment of their contributions, along with any employer matching contributions, into various investment options offered by the Plan which include a variety of mutual funds, a collective trust, and Company common stock.

Participant Accounts

Participant accounts are valued daily based on quoted market and unit prices. Each participant's account is credited or charged with the participant's contribution and allocations of (a) the Company's contribution (b) Plan earnings or losses, and (c) certain administrative expenses. Participants are charged directly with costs associated with the investments and loan processing fees, as applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are fully vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts, plus earnings thereon is based on years of continuous service. Participants vest in the matching employer contributions at 25% for each year of service completed, with the first 25% vesting after the second year of service. A participant is 100% vested after five years of credited service or upon death, disability or normal retirement age. In the event of termination of employment prior to the completion of five years of continuous service, for any reason other than death or disability, participants forfeit their non-vested portion of employer matching contributions.

All employer contributions to participants working under participating prevailing wage contracts are 100% vested at the time of contribution.

Notes Receivable from Participants

A participant may borrow up to the lesser of \$50,000 or 50% of his or her vested account balance, with a minimum note amount of \$1,000. The note is secured by the balance in the participant's account and is repaid through payroll deductions over periods ranging up to 60 months, unless the note is used to acquire a principal residence, in which case the note may be issued for a reasonable time determined by the Plan administrator. The interest rate is also determined by the Plan administrator based on prevailing market conditions, and is fixed over the life of the note.

Payment of Benefits and Withdrawals

Upon termination of employment, the participant is entitled to receive the vested portion of his or her account. If the vested amount is \$5,000 or less, the account is paid in a lump-sum payment to the participant within a reasonable time frame. If the vested amount is more than \$5,000, the participant must consent to the distribution before it may be made.

A participant may make a hardship withdrawal to satisfy certain immediate and heavy financial needs provided the participant has obtained all other nontaxable loans currently available under all Plans maintained by the Company. Participant contributions are suspended for the six months following a hardship withdrawal. A participant may withdraw any part of their vested account resulting from rollover contributions at any time.

A participant who has attained the age of 59 1/2 may withdraw all or a portion of his or her vested account balance.

Plan Administration

The Plan is administered by a Benefit Plans Administration Committee consisting of Company officers and employees who are approved by the Compensation Committee of the Board of Directors of the Company. No such officer or employee receives compensation from the Plan.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future employer discretionary matching contributions or employer administrative expenses. Unallocated forfeitures as of December 31, 2015 and 2014 totaled \$10,267 and \$5,167, respectively. In 2015 and 2014, \$31,113 and \$11,146, respectively, of unallocated forfeitures were used to reduce employer matching contributions. In 2015 and 2014, \$69,218 and \$17,649, respectively, of forfeitures were used to pay for administrative expenses.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Recently Adopted Accounting Standards

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I clarifies fully benefit-responsive investment contracts are limited to direct investments between the Plan and the issuer. Part I also eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Parts I and II.

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information from the investment advisor, custodian and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments and withdrawals are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent notes receivable are recorded as distributions on the basis of the terms of the Plan document.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investment presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

We evaluated other events and transactions occurring after the balance sheet date through the date that the financial statements

were issued. On January 4, 2016, the Company acquired the RPO business of Aon Hewitt, and those employees that transitioned during the acquisition are eligible to participate in the Plan based on their original date of hire with Aon Hewitt. We noted no other events that were subject to recognition or disclosure.

Note 3 - Fair Value of Investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. We apply a fair value hierarchy that prioritizes the inputs used to measure fair value:

Level 1: Inputs are valued using quoted market prices in active markets for identical assets or liabilities. Our Level 1 assets primarily include mutual funds and TrueBlue, Inc. common stock.

Level 2: Inputs are valued based upon quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active. Our Level 2 assets primarily consist of the collective trust. We obtain our inputs from quoted market prices and independent pricing vendors.

Level 3: Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. We currently have no Level 3 assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2015 and 2014. There are inherent limitations when estimating the fair value of financial instruments and the fair values reported are not necessarily indicative of the amounts that would be realized in current market transactions.

Mutual funds and TrueBlue, Inc. common stock are reported at fair value based on the quoted market price available on the active markets in which they trade.

The collective trust is valued at the net asset value (NAV) of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manners.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

December 31, 2015

	Level 1	Level 2	Level 3	Total
Collective trust	\$—	\$3,192,001	\$—	-\$3,192,001
Mutual funds	43,718,083	—	—	43,718,083
Employer common stock	1,957,327	—	—	1,957,327
Total investments at fair value	\$45,675,410	\$3,192,001	\$—	-\$48,867,411

December 31, 2014

	Level 1	Level 2	Level 3	Total
Collective trust	\$—	\$2,491,362	\$—	-\$2,491,362
Mutual funds	37,588,788	—	—	37,588,788
Employer common stock	2,060,598	—	—	2,060,598
Total investments at fair value	\$39,649,386	\$2,491,362	\$—	-\$42,140,748

Note 4 - Party-In-Interest Transactions

The Plan invests in units of a collective trust fund managed by Principal. Principal is the custodian as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of \$393,457 and \$296,324 which was not covered by revenue sharing for the years ended December 31, 2015 and 2014, respectively. The Plan sponsor pays directly any other fees related to the Plan's operations.

At December 31, 2015 and 2014, the Plan held 75,983 and 92,611 shares, respectively, of common stock of the Company, a party-in-interest, with a fair value of \$1,957,327 and \$2,060,598, respectively. During the years ended December 31, 2015 and 2014, the Plan recorded no dividend income from the common stock of the Company.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

Note 6 - Plan Tax Status

The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. There are no uncertain tax positions as of the financial statement date. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Risks and Uncertainties

The Plan provides for investment options encompassing various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and participant account balances.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,	
	2015	2014
Net assets available for benefits per the financial statements	\$51,667,642	\$44,277,913
Deemed distributions of participant loans	(181,107)	(169,370)
Fair market value adjustment	—	26,476
Net assets available for benefits per Form 5500	\$51,486,535	\$44,135,019

The following is a reconciliation of benefit payments per the financial statements to Form 5500:

	2015
Benefit payments per the financial statements	\$7,512,555
Prior year deemed distributions of participant loans	(169,370)
Current year deemed distributions of participant loans	181,107
Benefit payments per Form 5500	\$7,524,292

Note 9 - Transfer of Assets to the Plan

The transfer of assets into the Plan for the year ended December 31, 2015 represents the merger of the Seaton Corporation 401(k) Plan, effective April 1, 2015.

Note 10 - Non-exempt Transactions

The Company failed to remit employee 401(k) deferral contributions for certain payroll periods within the timeframe prescribed by the Department of Labor. This is deemed a prohibited transaction in accordance with ERISA and the Internal Revenue Code. The Company has corrected the prohibited transaction by depositing the lost earnings, filing the required Form 5330 with the Internal Revenue Service, and paying the appropriate excise tax.
