MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For the Six Months Ended June 30, 2007

In the following discussion and analysis of our financial condition and results of operations, unless the context indicates or otherwise requires, references to we, us, our or PLDT Group mean the Philippine Long Distance Telephone Company and its consolidated subsidiaries, and references to PLDT mean the Philippine Long Distance Telephone Company, not including its consolidated subsidiaries (see Note 2 Summary of Significant Accounting Policies and Practices to the accompanying unaudited consolidated financial statements for a list of these subsidiaries, including a description of their respective principal business activities).

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements and the related notes. Our financial statements, and the financial information discussed below, have been prepared in accordance with Philippine Financial Reporting Standards, which differ in certain significant respects from generally accepted accounting principles in the United States.

The financial information appearing in this report and in the accompanying unaudited consolidated financial statements is stated in Philippine pesos. All references to pesos, Philippine pesos or Php are to the lawful currency of the Philippines; all references to U.S. dollars, US\$ or dollars are to the lawful currency of the United States; all references to Japanese yen, JP¥ or ¥ are to the lawful currency of Japan and all references to Euro or € are to the lawful currency of the European Union. Translations of Philippine peso amounts into U.S. dollars in this report and in the accompanying unaudited consolidated financial statements were made based on the exchange rate of Php46.246 to US\$1.00, the volume weighted average exchange rate at June 30, 2007 quoted through the Philippine Dealing System.

Some information in this report may contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as believe, plan, anticipate, continue, estimate, expect, may, will or other similar words.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We have chosen these assumptions or bases in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward-looking statements and assumed facts or bases almost always vary from actual results, and the differences between the results implied by the forward-looking statements

and assumed facts or bases and actual results can be material, depending on the circumstances. When considering forward-looking statements, you should keep in mind the description of risks and cautionary statements in this report. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as at the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this report after the date hereof. In light of these risks and uncertainties, any forward-looking statement made in this report or elsewhere might not occur.

Overview

We are the largest and most diversified telecommunications company in the Philippines. We have organized our business into three main segments:

- *Wireless* wireless telecommunications services provided by Smart Communications, Inc., or Smart, and Pilipino Telephone Corporation, or Piltel, our cellular service providers; Smart Broadband, Inc., or Smart Broadband, our wireless broadband provider; Wolfpac Mobile, Inc., or Wolfpac, our wireless content operator; Mabuhay Satellite Corporation, or Mabuhay Satellite, ACeS Philippines Cellular Satellite Corporation, or ACeS Philippines, and Telesat, Inc., or Telesat, our satellite and very small aperture terminal, or VSAT, operators;
- *Fixed Line* fixed line telecommunications services are primarily provided through PLDT. We also provide fixed line services through PLDT's subsidiaries PLDT Clark Telecom, Inc., Subic Telecommunications Company, Inc., PLDT-Maratel, Inc., PLDT Global Corporation, or PLDT Global, Piltel, Smart-NTT Multimedia, Inc., or SNMI and Bonifacio Communications Corporation, which together account for approximately 3% of our consolidated fixed line subscribers; and
- *Information and Communications Technology* information and communications infrastructure and services for Internet applications, Internet protocol-based solutions and multimedia content delivery provided by PLDT's subsidiary ePLDT, Inc., or ePLDT; call center services provided under one umbrella brand name *ePLDT Ventus*, include Ventus, Parlance Systems, Inc., or Parlance, and Vocativ Systems, Inc., or Vocativ; business process outsourcing, or BPO, provided by SPi Technologies, Inc. and its subsidiaries, or SPi Group (consolidated on July 11, 2006); Internet access and online gaming services provided by ePLDT's subsidiaries, Infocom Technologies, Inc., or Infocom, Digital Paradise, Inc., or Digital Paradise, Digital Paradise Thailand, Ltd., or Digital Paradise Thailand, netGames, Inc., or netGames, Airborne Access Corporation, or Airborne Access, Level Up!, Inc., or Level Up!; and e-commerce, and IT-related services provided by other investees of ePLDT, as discussed in *Note 9 Investments in Associates* to the accompanying unaudited consolidated financial statements.

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

We registered total revenues and other income of Php68,791 million in the first half of 2007, an increase of Php6,349 million, or 10%, as compared to Php62,442 million in the same period in 2006, primarily due to an increase in our service revenues by Php6,382 million.

Expenses decreased by Php1,016 million, or 2%, to Php42,801 million in the first half of 2007 from Php43,817 million in the same period in 2006, largely resulting from decreases in financing costs, and depreciation and amortization, partly offset by higher compensation and benefits, professional and other contracted services, and cost of sales.

Net income attributable to equity holders of PLDT increased by Php1,696 million, or 11%, to Php17,002 million in the first half of 2007 from Php15,306 million in the same period in 2006. Consequently, basic earnings per common share increased to Php88.95 in the first half of 2007 from Php83.02 in the same period in 2006.

Results of Operations

The table below shows the contribution by each of our business segments to our revenues and other income, expenses and net income for the six months ended June 30, 2007 and 2006. Most of our revenues are derived from our operations within the Philippines.

(in millions)	Wireless	Fixed Line	ICT	Inter-segment Transactions	Total

Wireless

Revenues and Other Income

Our wireless business segment offers cellular services as well as wireless broadband, satellite, VSAT and other services.

The following table summarizes our service and non-service revenues and other income from our wireless business for the six months ended June 30, 2007 and 2006 by service segment:

(in millions)	Six Months Ended June 30,					
	2007	%	2006	%	Increase (Decrease) Amount	%
Wireless services:						
Service Revenues						
Cellular	Php41,082	93	Php37,076	93	Php4,006	11

Sale of cellular handsets and SIM-packs	1,142	3	1,269	3	(127)	(10)
Other Income	99		133		(34)	(26)
Total Wireless Revenues and Other Income	Php44,205	100	Php39,993	100	Php4,212	11

Service Revenues

Our wireless service revenues increased by Php4,373 million, or 11%, to Php42,964 million in the first half of 2007 compared with Php38,591 million in the same period in 2006, mainly as a result of the growth in the cellular and wireless broadband subscriber base, an increase in inbound international traffic and inbound roaming revenues, partially offset by an increase in interconnection costs and the unfavorable effect of the appreciation of the Philippine peso on dollar-linked revenues. As a percentage of our total wireless revenues and other income, service revenues contributed 97% and 96% in the first half of 2007 and 2006, respectively.

Cellular Service

Our cellular service revenues consist of:

- revenues derived from actual usage of the network by prepaid subscribers and any unused peso value of expired prepaid cards or electronic air time loads, net of content costs and discounts given to dealers;
- monthly service fees from postpaid subscribers, including: (1) charges for calls in excess of allocated free local calls; (2) toll charges for national and international long distance calls; (3) charges for text messages of our service customers in excess of allotted free text messages; and (4) charges for value-added services, net of related content provider costs;
- revenues generated from incoming calls and messages to our subscribers, net of interconnection expenses; fees from reciprocal traffic from international correspondents; and revenues from inbound international roaming calls for the service; and
- other charges, including those for reconnection and migration.

Our cellular service revenues in the first half of 2007 amounted to Php41,082 million, an increase of Php4,006 million, or 11%, from Php37,076 million in the same period in 2006. Cellular service revenues accounted for 96% of our wireless service revenues in the first half of 2007 and 2006.

Smart markets nationwide cellular communications services under the brand names *Smart Buddy*, *Smart Gold*, *addict mobile*, *Smart Infinity* and *Smart Kid prepaid*. *Smart Buddy* and *Smart Kid prepaid* are prepaid services while *Smart Gold*, *Smart Infinity* and *addict mobile* are postpaid services, which are all provided through Smart's digital network. Piltel markets its cellular prepaid service under the brand name *Talk N Text* which is provided through Smart's network.

In 2006, Smart focused on segmenting its market by offering sector-specific, value-driven packages such as *All Text* a new variety of top-up service providing a fixed number of messages with prescribed validity periods. Offerings include *All Text 10 Bonus*, with a suggested retail price of Php12, which includes 10 messages to all networks plus five bonus on-network messages without expiration and *All Text 20*, which includes 100 on-network messages for Php20, with a validity period of one day. Effective March 24, 2007, *All Text 20* was replaced with *All Text Plus*, which offers 90 on-network messages plus 10 messages to all networks for Php20, with one day validity period and is in effect until October 25, 2007. *All Text* also has a voice counterpart in *All Talk 20* which is a call package allowing three calls of up to three minutes each for local on-network calls for Php20, valid for one day. Other voice offerings include: (a) the *Flat Rate Plus Call* promotion, which allows a subscriber to make: (1) an on-network call of up to three minutes for Php10 or extend the call to five minutes for Php15; or (2) an off-network call of up to two minutes for Php10 or extend the call up to three minutes for Php15, which replaced the *Flat Rate Call* service effective March 29, 2007; and (b) *Tipid Talk*, a call package which allows a subscriber to make four calls of up to 30 seconds each for local on-network calls, valid for one day for Php10 and another variant allowing four calls of up to 15 seconds each for local on-network calls, valid for one day for Php5.50. *All Text 10 Bonus*, *All Talk 20*, *Tipid Talk* and *Flat Rate Plus Call* are now permanent offerings. Smart also continues to offer *Smart 258*, a registration-based service which offers unlimited on-network text messaging in load denominations of Php15, Php30 and Php60 with corresponding expiration periods of 1, 2 and 4 days, respectively.

On January 18, 2007, Smart introduced *LAHATxt*, a top-up service which offers a bundle of text messages available to all networks. *LAHATxt 35* is available to all Smart prepaid subscribers and provides for 100 text messages to all networks for Php35 with a one day validity period. On the other hand, *Talk N Text* subscribers have *LAHATxt 20* which allows a subscriber to make 50 text messages to all networks for Php20, also valid for one day. A variant of the *All Text* promotion, *Gaantxt Plus* is specifically targeted at *Talk N Text* subscribers. For a load of Php10, the promotion gives 40 *Talk N Text* to *Talk N Text* messages plus five messages to all networks valid for one day. The *Gaantxt Plus* promotion is valid until October 31, 2007.

Smart likewise has in place various promotions to stimulate international usage. In June 2006, *Smart IDD Libre Text Abroad* was launched wherein subscribers earned one free international text for every minute of IDD calling. In October 2006, this was replaced by *International Budget Text* packages. These packages, which have a limited duration and a varying number of allowable messages, enable subscribers to send international text to pre-registered recipients of the subscriber's choice on supported overseas carriers.

Smart expanded its roster of services with the commercial launch of its 3G services in May 2006. These services include video calling, video streaming, high-speed Internet browsing and downloading of special 3G content, offered at rates similar to those of 2G services.

In February 2007, at the 3GSM Congress in Barcelona, Spain, Smart introduced the *Smart Remit*, a project which offers low-cost remittance services using its mobile phone-based financial services platform. This will enable migrant workers in the Middle Eastern and European countries to send remittances to the Philippines via SIM-based services using the services of Smart and its banking partners abroad.

The following table summarizes key measures of our cellular business as at and for the six months ended June 30, 2007 and 2006:

(in millions)	Six Months Ended June 30,			
	2007	2006	Increase	
		(Unaudited)	Amount	%
Cellular service revenues	Php41,082	Php37,076	Php4,006	11

Financial Services	23	16	7	44

As at June 30, 2007, Smart and Piltel cellular subscribers totaled 27,106,108, an increase of 4,640,952, or 21%, over their combined cellular subscriber base of 22,465,156 as at June 30, 2006. Prepaid subscribers accounted for 99% of our total subscriber base as at June 30, 2007 and 2006. Prepaid and postpaid subscribers totaled 26,773,221 and 332,887 as at June 30, 2007, reflecting net subscriber activations of 2,916,400 and 14,324, respectively, in the first half of 2007.

Revenues attributable to our cellular prepaid service amounted to Php37,088 million in the first half of 2007, a 10% increase over the Php33,693 million earned in the same period in 2006. Prepaid service revenues in the first half of 2007 and 2006 accounted for 93% of voice and data revenues. Revenues attributable to Smart's postpaid service amounted to Php2,938 million in the first half of 2007, a 22% increase over the Php2,403 million earned in the same period in 2006, and accounted for 7% of voice and data revenues in 2007 and 2006.

Voice Services

Cellular revenues from voice services, which include all voice traffic and voice value-added services such as voice mail and international roaming, increased by Php1,207 million, or 7%, to Php18,550 million in the first half of 2007 from Php17,343 million in the same period in 2006 primarily due to an increase in domestic voice, international long

distance and voice roaming revenues and international inbound revenues. The increase in domestic and international outbound and inbound revenues may be attributed to increased traffic mainly on account of subscriber growth.

Air time rates for postpaid subscribers vary depending on the type of postpaid plan selected by subscribers.

Data Services

Cellular revenues from data services, which include all text messaging-related services as well as value-added services, increased by Php2,723 million, or 15%, to Php21,476 million in the first half of 2007 from Php18,753 million in the same period in 2006. Cellular data services accounted for 52% of cellular service revenues in the first half of 2007 as compared to 51% in the same period in 2006.

The following table shows the breakdown of cellular data revenues for the six months ended June 30, 2007 and 2006:

- (1) *Includes standard services such as info-on-demand, ringtone/logo downloads, etc.*
- (2) *Includes MMS, WAP, GPRS, etc.*

Text messaging-related services contributed revenues of Php19,932 million in the first half of 2007, an increase of Php3,107 million, or 18%, compared to Php16,825 million in the same period in 2006, and accounted for 93% and 90% of the total cellular data revenues in the first half of 2007 and 2006, respectively. The increase in revenues from text messaging-related services resulted mainly from Smart's various bucket-priced text promotional offerings. Text messaging revenues from the various bucket plans totaled Php8,883 million.

Standard text messages totaled 13,354 million in the first half of 2007, a decrease of 3,325 million, or 20%, from 16,679 million in the same period in 2006 mainly due to a shift to bucket-priced text services. Bucket-priced text messages in the first half of 2007 totaled 94,789 million, an increase of 2,938 million, or 3%, as compared to 91,851 million in the same period in 2006.

Value-added services, which contributed revenues of Php1,502 million in the first half of 2007, decreased by Php392 million, or 21%, from Php1,894 million in the same period of 2006, primarily due to lower usage of standard services, partially offset by higher usage of financial services in the first half of 2007 as compared to the same period in 2006.

Subscriber Base, ARPU and Churn Rates

Prepaid subscribers accounted for approximately 99% of our 27,106,108 subscribers as at June 30, 2007, while postpaid subscribers accounted for the remaining 1%. The cellular prepaid subscriber base grew by 21% to 26,773,221 as at June 30, 2007 from 22,168,122 as at June 30, 2006, whereas the postpaid subscriber base increased by 12% to 332,887 as at June 30, 2007 from 297,034 as at June 30, 2006.

Our net subscriber activations for the six months ended June 30, 2007 and 2006 were as follows:

	Six Months Ended June 30,		Increase (Decrease)	
	2007	2006	Amount	%
	(Unaudited)			
Prepaid	2,916,400	2,039,579	876,821	43
Smart	1,930,959	963,313	967,646	100
Piltel	985,441	1,076,266	(90,825)	(8)

Postpaid	14,324	16,956	(2,632)	(16)
Total	2,930,724	2,056,535	874,189	43

The following table summarizes our cellular ARPUs for the six months ended June 30, 2007 and 2006:

	Six Months Ended June 30,							
	Gross		Increase		Net		Increase	
	2007	2006	Amount	%	2007	2006	Amount	%
	(Unaudited)							
Prepaid								
Smart	Php324	Php350	(Php26)	(7)	Php266	Php294	(Php28)	(10)
Piltel	230	239	(9)	(4)	193	204	(11)	(5)
Prepaid Blended	296	321	(25)	(8)	245	271	(26)	(10)
Postpaid Smart	2,093	1,893	200	11	1,504	1,400	104	7
Prepaid and Postpaid Blended	319	342	(23)	(7)	261	286	(25)	(9)

ARPU is computed for each month by dividing the revenues for the relevant services for the month by the average of the number of subscribers at the beginning and at the end of the month. Gross monthly ARPU is computed by dividing the revenues for the relevant services, gross of dealer discounts and allocated content-provider costs, including interconnection income but excluding inbound roaming revenues, by the average number of subscribers. Net monthly ARPU, on the other hand, is calculated based on revenues net of dealer discounts and allocated content-provider costs and interconnection income net of interconnection expense. ARPU for any period of more than one month is calculated as the simple average of the monthly ARPUs in that period.

Prepaid service revenues consist mainly of charges for subscribers' actual usage of their loads. Prepaid blended ARPU in the first half of 2007 was Php296, a decrease of 8%, compared to Php321 in the same period in 2006. The average outbound domestic and international voice as well as the average value-added services and inbound revenue per subscriber declined in the first half of 2007 compared to the same period in 2006, but were partly offset by an increase in the average text messaging revenue per subscriber. On a net basis, prepaid blended ARPU in the first half of 2007 was Php245, a decrease of 10%, compared to Php271 in the same period in 2006.

Monthly ARPU for Smart's postpaid services is calculated in a manner similar to that of prepaid service, except that the revenues consist mainly of monthly service fees and charges on usage in excess of the monthly service fees.

Gross monthly ARPU for postpaid subscribers increased by 11% to Php2,093 while net monthly ARPU increased by 7% to Php1,504 in the first half of 2007 as compared to Php1,893 and Php1,400 in the same period in 2006, respectively. Prepaid and postpaid monthly gross blended ARPU was Php319 in the first half of 2007, a decrease of

7%, compared to Php342 in the same period in 2006. Monthly net blended ARPU decreased by 9% to Php261 in the first half of 2007 as compared to Php286 in the same period in 2006.

Our quarterly prepaid and postpaid ARPUs for the six months ended June 30, 2007 and 2006 were as follows:

	Prepaid				Postpaid	
	Smart		Piltel		Smart	
	Gross	Net	Gross	Net	Gross	Net
(Unaudited)						
2007						
First Quarter	Php323	Php267	Php228	Php187	Php2,045	Php1,483
Second Quarter	324	265	233	198	2,141	1,526
2006						
First Quarter	Php356	Php294	Php245	Php207	Php1,867	Php1,386
Second Quarter	344	294	234	202	1,920	1,414
Third Quarter	323	280	213	184	1,891	1,403
Fourth Quarter	332	286	213	184	1,939	1,425

Churn, or the rate at which existing subscribers have their service cancelled in a given period, is computed based on total disconnections in the period, net of reconnections in the case of postpaid subscribers, divided by the average of the number of subscribers at the beginning and at the end of a month, all divided by the number of months in the same period.

We recognize a prepaid cellular subscriber as an active subscriber when that subscriber activates and uses the SIM card in the subscriber's handset, which contains pre-stored air time. The pre-stored air time, equivalent to Php1 plus 50 free SMS, can only be used upon purchase or reload of air time of any value. Subscribers can reload their air time by purchasing prepaid call and text cards; by purchasing additional air time over the air via *Smart Load*, *Smart Load All Text* or *Smart Connect*; and by receiving loads of Php2, Php5, Php10 and Php15 via *Pasa Load*, or through their handsets using *Smart Money*. Reloads have validity periods ranging from one day to two months, depending on the amount reloaded. A prepaid cellular subscriber is disconnected if the subscriber does not reload within four months after the full usage or expiry of the last reload. Our current policy is to recognize a prepaid subscriber as active only when the subscriber activates and uses the SIM card and reloads at least once during the month of initial activation or in the immediate succeeding month.

For Smart prepaid, the average monthly churn rate for the first half of 2007 and 2006 were 2.9%, while the average monthly churn rate for *Talk N Text* subscribers was 3.4% in the first half of 2007 compared to 3.3% in the same period in 2006.

The average monthly churn rate for Smart's postpaid subscribers for the first half of 2007 was 1.1% compared to 1.3% in the same period in 2006. Smart's policy is to redirect outgoing calls to an interactive voice response system if the postpaid subscriber's account is either 45 days overdue or the subscriber has exceeded the prescribed credit limit. If the subscriber does not make a payment within 44 days of redirection, the account is disconnected. Within this 44-day period, a series of collection activities are implemented, involving the sending of a collection letter, call-out reminders and collection messages via text messaging.

Wireless Broadband, Satellite, VSAT and Other Services

Our revenues from wireless broadband, satellite, VSAT and other services consist mainly of wireless broadband service revenues for Smart Broadband, rentals received for the lease of Mabuhay Satellite's transponders and Telesat's VSAT facilities to other companies, charges for ACeS Philippines' satellite phone service and service revenues generated from PLDT Global's subsidiaries. Gross revenues from these services for the first half of 2007 amounted to Php1,882 million, an increase of Php367 million, or 24%, from Php1,515 million in the same period in 2006 principally due to the growth in our wireless broadband business partially offset by lower satellite transponder rental revenues.

Smart Broadband offers a number of wireless broadband services and had 210,069 subscribers as at June 30, 2007. *SmartBro*, the fixed wireless broadband service of Smart linked to Smart's wireless broadband-enabled base stations, allows people to connect to the Internet using an outdoor aerial antenna installed in a subscriber's home. Wireless broadband revenues contributed Php930 million in the first half of 2007, increasing by Php631 million, or 211%, from Php299 million in the same period in 2006.

We also offer *PLDT WeRoam*, a wireless broadband service, running on Smart's nationwide wireless network (using GPRS, EDGE and WiFi technologies) and PLDT's extensive IP infrastructure. Some of the recent enhancements to the service are the inclusion of international roaming in key roaming countries all over the world and national WiFi roaming access. Principally targeted to the corporate market, the service had 11,984 subscribers as at June 30, 2007 compared to 6,622 subscribers as at June 30, 2006 and contributed Php61 million to our data revenues, increasing by 49% from Php41 million in the same period in 2006.

Non-service Revenues

Our wireless non-service revenues consist of:

- proceeds from sales of cellular handsets; and

- proceeds from sales of cellular SIM-packs.

Our wireless non-service revenues decreased by Php127 million, or 10%, to Php1,142 million in the first half of 2007 as compared to Php1,269 million in the same period in 2006 primarily due to a lower volume of postpaid handsets sold and a lower average revenue per handset and SIM-pack, partly offset by a higher volume of prepaid handsets and SIM-packs sold in the first half of 2007.

Other Income

All other income/gains such as rental income and which do not fall under service and non-service revenues are included under this classification. Our wireless business segment generated other income of Php99 million in the first half of 2007, a decrease of Php34 million, or 26%, as compared to Php133 million in the same period in 2006.

Expenses

Expenses associated with our wireless business in the first half of 2007 amounted to Php21,643 million, a decrease of Php96 million from Php21,739 million in the same period in 2006. A significant portion of this decrease was attributable to net financing gains which was partially offset by higher depreciation and amortization, rent, and selling and promotions expenses. As a percentage of our total wireless revenues and other income, expenses associated with our wireless business accounted for 49% and 54% in the first half of 2007 and 2006, respectively.

Cellular business expenses accounted for 93% of our wireless business expenses, while wireless broadband, satellite, VSAT and other business expenses accounted for the remaining 7% of our wireless business expenses in the first half of 2007 as compared to 89% and 11%, respectively, in the same period in 2006.

The following table summarizes the breakdown of our wireless-related expenses for the six months ended June 30, 2007 and 2006 and the percentage of each expense item to the total:

		Six Months Ended June 30,

Financing costs (gains)	(274)	(1)	2,264	10	(2,538)	(112)
Other expenses	549	3	358	2	191	53
Total	Php21,643	100	Php21,739	100	(Php96)	

(1) Includes salaries and benefits, incentive plan, pension and manpower rightsizing program, or MRP, costs.

Depreciation and amortization charges increased by Php698 million, or 13%, to Php5,893 million in the first half of 2007, principally due to an increase in our depreciable asset base mainly transmission facilities, 3G and broadband networks, and broadband customer-deployed equipment.

Rent expenses increased by Php664 million, or 19%, to Php4,091 million on account of an increase in domestic fiber optic network, or DFON, facilities and transmission circuits leased by Smart from PLDT, as well as higher satellite transmission and site rental expenses. As at June 30, 2007, we had 4,731 GSM cell sites and 7,342 base stations, compared with 4,357 GSM cell sites and 6,060 base stations as at June 30, 2006.

Compensation and benefits expenses increased by Php254 million, or 12%, to Php2,456 million, primarily due to employees' basic pay increase, higher accrued bonuses and other employee benefits of Smart, partly offset by lower accrued pension, long-term incentive plan and MRP costs. Smart and subsidiaries' employee headcount increased by 43, or 1%, to 5,178 in the first half of 2007 as compared to 5,135 in the same period in 2006. For further discussion on our long-term incentive plan, please see *Note 21 Employee Benefits* to the accompanying unaudited consolidated financial statements.

Cost of sales increased by Php26 million, or 1%, to Php2,409 million due to an increase in the volume of phone kits and SIM-packs issued for activation and retention purposes in the first half of 2007, partially offset by a lower average cost of handsets and SIMs. The breakdown of cost of sales for our wireless business for the six months ended June 30, 2007 and 2006 is as follows:

	Six Months Ended June 30,			
			Increase (Decrease)	
(in millions)	2007	2006	Amount	%
			(Unaudited)	
Cost of cellular handsets and SIM-packs sold	Php2,323	Php2,284	Php39	2
Cost of satellite air time and terminal units	86	99	(13)	(13)
	Php2,409	Php2,383	Php26	1

Selling and promotions increased by Php385 million, or 27%, to Php1,795 million due to higher advertising, promotion and commission expenses, partly offset by a decrease in printing cost of prepaid cards with the prevalence of e-loading.

Maintenance expenses decreased by Php17 million, or 1%, to Php1,778 million mainly due to lower repairs and maintenance costs for network facilities and IT software, and a decrease in fuel costs for power generation, partly offset by higher expenses for electricity consumption for cell sites and offices.

Professional and other contracted services increased by Php219 million, or 25%, to Php1,083 million, primarily due to increased contracted service, consultancy and technical service, market research and advisory fees.

Taxes and licenses increased by Php122 million, or 22%, to Php674 million, primarily due to an increase in royalty and franchise fees, and higher non-creditable input tax, partly offset by lower business-related taxes and licenses.

Communication, training and travel expenses increased by Php80 million, or 18%, to Php526 million mainly due to higher mailing and courier charges, and local travel expenses incurred in the first half of 2007.

Insurance and security services decreased by Php42 million, or 10%, to Php380 million, primarily due to the decrease in site security expenses and lower charges on insurance contracts.

Provisions decreased by Php86 million, or 30%, to Php198 million primarily due to a lower level of write-down of slow-moving handsets to net realizable values. The breakdown of provisions for the six months ended June 30, 2007 and 2006 is as follows:

Six Months Ended June 30,

	2007	2006	Increase (Decrease)	
			Amount	%
			(Unaudited)	
(in millions)				
Doubtful accounts	Php136	Php98	Php38	39
Write-down of inventories to net realizable values	62	186	(124)	(67)
	Php198	Php284	Php(86)	(30)

Amortization of intangible assets decreased by Php52 million, or 38%, to Php85 million mainly due to intangible assets relating to technology application arising from the acquisition of Wolfpac which was fully amortized by end 2006.

We recognized net financing gains of Php274 million in the first half of 2007 as compared to a net financing cost of Php2,264 million in the same period in 2006 due to the appreciation of the Philippine peso to the U.S. dollar in 2007, complemented by lower accretion on financial liabilities due to the settlement of Piltel's debt partly offset by lower interest income and capitalized interest. The breakdown of our financing costs (gains) for our wireless business for the six months ended June 30, 2007 and 2006 is as follows:

	2007	2006	Six Months Ended June 30, Change	
			Amount	%
			(Unaudited)	
(in millions)				
Interest on loans and related items	Php812	Php899	(Php87)	(10)
Accretion on financial liabilities net	449	1,735	(1,286)	(74)
Financing charges	36	31	5	16
Dividends on preferred stock subject to mandatory redemption	9	93	(84)	(90)
Loss (gain) on derivative transactions net	(7)	29	(36)	(124)
Capitalized interest	(82)	(143)	61	(43)
Interest income	(499)	(585)	86	(15)
Foreign exchange losses (gains) net	(992)	205	(1,197)	584
	(Php274)	Php2,264	(Php2,538)	(112)

Other expenses increased by Php191 million, or 53%, to Php549 million primarily due to higher various business and operational-related expenses.

Provision for Income Tax

Provision for income tax increased by Php4,459 million, or 151%, to Php7,412 million in the first half of 2007 from Php2,953 million in the same period in 2006. In the first half of 2007, the effective tax rate for our wireless business was 33% as compared to 16% in the same period in 2006 mainly due to the recognition of deferred tax assets of Piltel in 2006.

Net Income

Our wireless business segment recorded a net income of Php15,150 million in the first half of 2007, a decrease of Php151 million, or 1%, over Php15,301 million registered in the same period in 2006 on account of higher provision for income tax largely due to Piltel's recognition of deferred tax assets in 2006.

Fixed Line

Revenues and Other Income

Our fixed line business provides local exchange service, international and national long distance services, data and other network services, and miscellaneous services. Total fixed line revenues generated from our fixed line business in the first half of 2007 totaled Php24,067 million, a decrease of Php251 million, or 1%, from Php24,318 million in the same period in 2006.

The following table summarizes revenues from our fixed line business for the six months ended June 30, 2007 and 2006 by service segment:

	Six Months Ended June 30,				Increase (Decrease)	
	2007	%	2006	%	Amount	%

			(Php251)	(1)

Service Revenues

Local Exchange Service

Our local exchange service revenues consist of:

- flat monthly fees for our postpaid and fixed charges for our bundled and data services;
- installation charges and other one-time fees associated with the establishment of customer service;
- revenues from usage of prepaid cards for calls within the local area and any unused peso value of expired prepaid cards; and
- charges for special features, including bundled value-added services such as call waiting, call forwarding, multi-party conference calling, speed calling and caller ID.

The following table summarizes key measures of our local exchange service business as at and for the six months ended June 30, 2007 and 2006:

	Six Months Ended June 30,		Increase	
	2007	2006	(Decrease)	%
	(Unaudited)			
Total local exchange service revenues (in millions of pesos)	7,822	8,587	(765)	(9)
Number of fixed line subscribers	1,819,943	1,747,048	72,895	4

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

Postpaid	1,460,110	1,461,639	(1,529)
Prepaid	359,833	285,409	74,424 26
Number of fixed line employees	8,670	9,149	(479) (5)
Number of fixed line subscribers per employee	210	191	19 10

Revenues from our local exchange service decreased by Php765 million, or 9%, to Php7,822 million in the first half of 2007 from Php8,587 million in the same period in 2006. The decrease was primarily due to the appreciation of the peso which required us to make downward adjustments in our monthly local service rates and the change in subscriber base mix in favor of prepaid subscribers with lower average revenue per user. The percentage contribution of local exchange revenues to our total fixed line service revenues decreased to 33% in the first half of 2007 as compared to 36% in the same period in 2006.

Initially intended as an affordable alternative telephone service for consumers under difficult economic conditions, our prepaid fixed line services now form an important part of our overall churn and credit risk exposure management and subscriber retention strategy. Prepaid fixed line subscribers are charged based on usage at a rate of Php1.00 per minute for local calls. A prepaid fixed line subscriber is recognized as an active subscriber when that subscriber activates and uses a prepaid call card, whether reloadable or the regular card. All sales of prepaid cards, whether through dealers or through PLDT's business offices, are non-refundable. In July 2006, we introduced *Telepwede*, an upgraded prepaid fixed line service. *Telepwede* subscribers are charged Php115 per month to receive incoming calls. Since *Telepwede* runs on the prepaid platform of *Pwede! Card*, subscribers can reload for as low as Php30 to make outgoing calls. Vibe prepaid dial-up service can also be accessed through *Pwede! Card*.

In March 2007, PLDT launched the PLDT Landline Plus, a GSM fixed wireless service where subscribers to the service benefit from a text-capable home phone. This service is initially offered outside Metro Manila with the phone unit at Php2,400 and a monthly service fee of Php600 and Php1,000 for residential and business subscribers, respectively. As at June 30, 2007, there were a total of 6,882 PLDT Landline Plus subscribers.

Pursuant to a currency exchange rate adjustment, or CERA, mechanism authorized by the Philippine National Telecommunications Commission, or the NTC, we adjust our postpaid monthly local service rates upward or downward by 1% for every Php0.10 change in the peso-to-dollar exchange rate relative to a base rate of Php11.00 to US\$1.00. In the first half of 2007, we implemented five downward adjustments in our monthly local service rates, while there were two upward adjustments and four downward adjustments in the same period in 2006. The average Philippine peso to U.S. dollar rate factored in our monthly local service rates in the first half of 2007 was Php48.36 to US\$1.00, compared to an average of Php51.97 to US\$1.00 in the same period in 2006. This change in the average peso-to-dollar rate translated to a peso appreciation of 7%, which resulted in a net decrease of approximately 7% in our average monthly local service rates in the first half of 2007. In its letter dated July 16, 2007, the NTC has approved our request to use annual average exchange rates as our basis in CERA computation instead of the currently used monthly averages.

International Long Distance Service

Our international long distance service revenues, which we generate through our international gateway facilities, consist of:

- inbound call revenues representing settlements from foreign telecommunications carriers for inbound international calls, virtual transit and hubbing service and reverse charged calls such as received collect and home country direct service;
- access charges paid to us by other Philippine telecommunications carriers for terminating inbound international calls to our local exchange network; and
- outbound call revenues representing amounts billed to our customers (other than our cellular customers) for outbound international calls, net of amounts payable to foreign telecommunications carriers for terminating calls in their territories.

The following table shows information about our international fixed line long distance business for the six months ended June 30, 2007 and 2006:

	Six Months Ended June 30,			
	2007	2006	Increase (Decrease) Amount %	
	(Unaudited)			
Total international long distance service revenues (in millions)	Php4,562	Php5,051	(Php489)	(10)
Inbound	3,835	4,265	(430)	(10)
Outbound	727	786	(59)	(8)
International call volumes (in million minutes, except call ratio)	1,141	1,031	110	11
Inbound	1,008	939	69	7
Outbound	133	92	41	45
Inbound-outbound call ratio	7.6:1	10.2:1		

Our total international long distance service revenues decreased by Php489 million, or 10%, to Php4,562 million in the first half of 2007 from Php5,051 million in the same period in 2006, primarily due to the peso appreciation and a decrease in average termination rates for inbound calls mitigated by an increase in call volumes. The percentage contribution of international long distance service revenues to our total fixed line service revenues decreased to 19% in the first half of 2007 from 21% in the same period in 2006.

Our revenues from inbound international long distance service decreased by Php430 million, or 10%, to Php3,835 million due to the appreciation of the Philippine peso to the U.S. dollar coupled with a decrease in average rate per minute due to the change in call mix with more traffic terminating to cellular operators where the net revenue kept by us is lower. These decreasing effects were partially offset by an increase in inbound traffic volume by 69 million minutes to 1,008 million minutes in the first half of 2007. The appreciation of the Philippine peso to the U.S. dollar with average rates of Php47.610 in the first half of 2007 and Php52.145 in the same period in 2006 contributed to the decrease in our inbound international long distance revenues in peso terms, since settlement charges for inbound calls are billed in U.S. dollars or in special drawing rights, an established method of settlement among international telecommunications carriers using values based on a basket of foreign currencies that are translated into pesos at the time of billing.

Our revenues from outbound international long distance service decreased by Php59 million, or 8%, to Php727 million in the first half of 2007 primarily due to a decline in average revenue per minute as a result of a lower average collection rate with the introduction of low-rate services such as *PLDT ID-DSL* and *Budget Card*, and the peso appreciation in 2007, which more than offset the increase in outbound international call volumes in 2006.

On September 15, 2005, we introduced *PLDT ID-DSL*, a service that allows overseas calls for registered *myDSL* plan subscribers using a regular PLDT fixed line or a voice pad dialer for as low as US\$0.10 per minute or US\$0.08 per minute, respectively, depending on the subscribers' DSL plan.

To address the market's demand for low-priced international calls, PLDT offers the *Budget Card*, a prepaid call card, which has a low rate of Php3 per minute to the US (Mainland), Canada and Hongkong, Php5 per minute to China, Malaysia, Singapore, South Korea and Taiwan, and Php8 per minute to 88 calling destinations. In April 2007, we introduced the *Budget Card Middle East Edition* which offers reduced IDD call rates of Php10 per minute and Php15 per minute to 15 different destinations in the Middle East. *Budget Cards* are sold in denominations of Php200 and Php100, which must be consumed within 30 days from first use.

National Long Distance Service

Our national long distance service revenues consist of:

- per minute charges for calls made by our fixed line customers outside of the local service areas but within the Philippines, net of interconnection charges payable for calls carried through the backbone network of, and/or terminating to the customer of, another telecommunications carrier;

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

- access charges received from other telecommunications carriers for calls carried through our backbone network and/or terminating to our customers; and
- fixed charges paid by other telephone companies, charges retained by PLDT for calls terminating to cellular subscribers within the local area, and local access charges paid by cellular operators for calls by cellular subscribers that terminate to our local exchange network.

The following table shows our national long distance service revenues and call volumes for the three months ended June 30, 2007 and 2006:

	Six Months Ended June 30,			
			Decrease	
	2007	2006	Amount	%
	(Unaudited)			
Total national long distance service revenues (in millions)	Php3,255	Php3,504	(Php249)	(7)
National long distance call volumes (in million minutes)	1,094	1,122	(28)	(2)

Our national long distance service revenues decreased by Php249 million, or 7%, to Php3,255 million in the first half of 2007 from Php3,504 million in the same period in 2006, primarily due to a decrease in call volumes coupled with lower average revenue per minute in the first quarter of 2007. Accordingly, the percentage contribution of national long distance revenues to our fixed line service revenues accounted for 14% and 15% in the first half of 2007 and 2006, respectively.

Data and Other Network Services

Our data and other network service revenues include charges for leased lines, IP-based, packet-based and switched-based services. These services are used for domestic and international communications such as private networking, broadband and narrowband Internet-based data communications, and packet-based communication.

The following table shows information about our data and other network service revenues for the six months ended June 30, 2007 and 2006:

Six Months Ended June 30,
Increase

(in millions)	2007	2006	Amount	%
			(Unaudited)	
Data and other network service revenues	Php7,251	Php6,242	Php1,009	16
Number of DSL broadband subscribers	200,029	109,245	90,784	83
Number of PLDT Vibe narrowband subscribers	302,571	299,991	2,580	1

In the first half of 2007, our data and other network services posted revenues of Php7,251 million, an increase of Php1,009 million, or 16%, from Php6,242 million in the same period in 2006, primarily due to increases in leased lines, IP-based and switched-based data services, particularly Diginet and DFON rental, and *PLDT DSL* mitigated by lower *PLDT Vibe* services. The revenue contribution of this service segment to our fixed line service revenues increased to 31% in the first half of 2007 from 26% in the same period in 2006.

IP-based products include *PLDT DSL (myDSL and BizDSL)*, *PLDT Vibe* and I-Gate. *PLDT DSL* broadband Internet service is targeted for heavy individual Internet users as well as for small and medium enterprises, while *PLDT Vibe*, *PLDT*'s dial-up/narrowband Internet service, is targeted for light to medium residential or individual Internet users. I-Gate, our dedicated leased line Internet access service, on the other hand, is targeted to enterprises and value-added service providers.

DSL contributed revenues of Php1,751 million in the first half of 2007, an increase of Php231 million, or 15%, from Php1,521 million in the same period in 2006, primarily due to an increase in the number of subscribers. *DSL* reached 200,029 subscribers as at June 30, 2007 compared with 109,245 subscribers in the same period in 2006. *DSL* offers a number of packages with maximum speeds ranging from 88 kbps to 5 Mbps depending on the plan.

PLDT Vibe revenues decreased by Php46 million, or 24%, to Php146 million in the first half of 2007 from Php192 million in the same period in 2006, primarily due to lower number of plan subscribers as well as the declining usage of Vibe prepaid. The declining number of Vibe plans and regular monthly users for Vibe prepaid may be attributed to the migration from Vibe dial-up to *DSL* which is now priced more competitively. As at June 30, 2007, *PLDT Vibe* registered users totaled 302,571, of which 84,735 were exclusive postpaid users, 207,791 were exclusive prepaid users, and 10,045 were both postpaid and prepaid users. As at June 30, 2006, *PLDT Vibe* registered users totaled 299,991, of which 112,296 were exclusive postpaid users, 164,374 were exclusive prepaid users, and 23,321 were both postpaid and prepaid users.

In support of the growing data requirements of the small and medium enterprise market, the network footprints of BRAINS, IP-VPN and *Shops.work*, *PLDT*'s private local networking services, have been expanded with the roll-out of NGN facilities in key business areas across the country.

The continued growth in data services revenues can be attributed to several product offerings. The steady demand for dedicated connectivity or private networking from the corporate market using *PLDT*'s traditional international and

domestic data offerings – Fibernet, Arcstar, Acacia, I-Gate, Diginet, BRAINS, IP-VPN and *Shops.work*, among others continues to provide us with a stable revenue source.

Diginet, our domestic private leased line service, has been providing Smart’s increasing fiber optic and leased line data requirements. Diginet revenues increased by Php462 million, or 14%, to Php3,288 million in the first half of 2007 as compared to Php2,826 million in the same period in 2006 mainly due to Smart’s DFON rental of Php2,469 million and Php1,990 million in the first half of 2007 and 2006, respectively.

Miscellaneous

Miscellaneous service revenues are derived mostly from directory advertising and facilities rental. In the first half of 2007, these revenues increased by Php31 million, or 5%, to Php700 million from Php669 million in the same period in 2006. The improvement was mainly due to an increase in facility management fees, mitigated by a decrease in rental income brought about by a decline in co-location charges. The percentage contribution of miscellaneous service revenues to our total fixed line service revenues was 3% in the first half of 2007 and 2006.

Non-service Revenues

Non-service revenues increased by Php53 million, or 147%, to Php89 million in the first half of 2007 from Php36 million in the same period in 2006 primarily due computer sales in relation to our DSL promotion.

Other Income

All other income/gains such as rental income and gain on disposal of property, which do not fall under service and non-service revenues, are included under this classification. In the first half of 2007, our fixed line business segment registered an increase in other income of Php159 million, or 69%, to Php388 million from Php229 million in the same period in 2006 mainly due to income from disposal of fixed assets and various materials.

Expenses

Expenses related to our fixed line business totaled Php20,604 million in the first half of 2007, a decrease of Php3,418 million, or 14%, as compared to Php24,022 million in the same period in 2006. The decrease was primarily due to lower depreciation and amortization, financing costs, and selling and promotions expense partially offset by higher

professional and other contracted services, compensation and benefits expense and taxes and licenses.

The following table shows the breakdown of our total fixed line-related expenses for the six months ended June 30, 2007 and 2006 and the percentage of each expense item to the total:

	Six Months Ended June 30,					
					Increase (Decrease)	
(in millions)	2007	%	2006	%	Amount	%
	(Unaudited)					
Fixed line services:						
Depreciation and amortization	Php6,508	32	Php10,038	42	(Php3,530)	(35)
Compensation and benefits(1)	4,817	23	4,560	19	257	6
Financing costs	3,459	17	3,876	16	(417)	(11)
Maintenance	1,714	8	1,611	7	103	6
Professional and other contracted services	849	4	469	2	380	81
Rent	794	4	827	4	(33)	(4)
Selling and promotions	578	3	975	4	(397)	(41)
Taxes and licenses	575	3	343	1	232	68
Provisions	529	3	485	2	44	9
Communication, training and travel	228	1	239	1	(11)	(5)
Insurance and security services	223	1	265	1	(42)	(16)
Cost of sales	82		77		5	6
Other expenses	248	1	257	1	(9)	(4)
Total	Php20,604	100	Php24,022	100	(Php3,418)	(14)

(1) Includes salaries and benefits, incentive plan, pension and MRP costs.

Depreciation and amortization charges decreased by Php3,530 million, or 35%, to Php6,508 million due to higher additional depreciation charges recognized in 2006 on certain properties and equipment affected by our NGN roll-out.

Compensation and benefits expenses increased by Php257 million, or 6%, to Php4,817 million, primarily due to the effect of collective bargaining agreement-related increases in salaries and benefits, and an increase in pension benefits, partially offset by a reduction in the number of fixed line employees due to PLDT's manpower rightsizing program and lower costs of long-term incentive plan. For further discussion on our long-term incentive plan, please see *Note 21 Employee Benefits* to the accompanying unaudited consolidated financial statements.

Financing costs decreased by Php417 million, or 11%, to Php3,459 million largely due to lower interest on loans and related items and lower hedge costs. These were partially offset by higher loss on derivative transactions in the first half of 2007 compared to a gain in the same period in 2006 and lower interest income. The breakdown of financing costs for our fixed line business for the six months ended June 30, 2007 and 2006 is as follows:

	Six Months Ended June 30,			
	2007	2006	Change	%
	(Unaudited)			
(in millions)				
Interest on loans and related items	Php2,809	Php3,449	(Php640)	(19)
Loss (gain) on derivative transactions	276	(6)	282	4,700
Hedge costs	645	746	(101)	(14)
Accretion on financial liabilities net	94	88	6	7
Financing charges	1	8	(7)	(88)
Interest income	(139)	(243)	104	(43)
Capitalized interest	(173)	(159)	(14)	9
Foreign exchange gains net	(54)	(7)	(47)	671
	Php3,459	Php3,876	(Php417)	(11)

Maintenance expenses increased by Php103 million, or 6%, to Php1,714 million, primarily due to higher maintenance costs for domestic cable and wire facilities as more operating and maintenance-related restorations were incurred in the first half of 2007 as compared to the same period in 2006.

Professional and other contracted services increased by Php380 million, or 81%, to Php849 million primarily due to PLDT's higher consultancy service fees coupled with higher contracted services in the first half of 2007.

Rent expenses decreased by Php33 million, or 4%, to Php794 million due to the decrease in transponder lease charges, partially offset by an increase in international leased circuits charges and higher office and building rentals.

Selling and promotion expenses decreased by Php397 million, or 41%, to Php578 million, primarily as a result of a collective effort in efficient media spending in relation to various products and services, partly offset by higher public relations expense in the first half of 2007.

Taxes and licenses increased by Php232 million, or 68%, to Php575 million, mainly on account of higher business-related taxes incurred in the first half of 2007 as compared to the same period in 2006.

Provisions increased by Php44 million, or 9%, to Php529 million primarily due to higher provision of doubtful accounts as a result of higher anticipated uncollectible receivables partially offset by lower provision for assessments in the first half of 2007 compared to the same period in 2006. The breakdown of provisions for our fixed line business for the six months ended June 30, 2007 and 2006 is as follows:

	Six Months Ended June 30,		Increase (Decrease)	
	2007	2006	Amount	%
	(Unaudited)			
(in millions)				
Doubtful accounts	Php510	Php336	Php174	52
Assessments	19	149	(130)	(87)
	Php529	Php485	Php44	9

Communication, training and travel expenses decreased by Php11 million, or 5%, to Php228 million due to a decrease in local and foreign travel and training in the first half of 2007 as compared to the same period in 2006.

Insurance and security services decreased by Php42 million, or 16%, to Php223 million, primarily due to lower premiums on property all-risk, industrial all-risk and industrial fire insurance.

Cost of sales increased by Php5 million, or 6%, to Php82 million in the first half of 2007 due to the computer-bundled sales in relation to our DSL promotion and *WeRoam* subscriptions.

Other expenses decreased by Php9 million, or 4%, to Php248 million due to various business and operational-related expenses resulting from continuing cost-containing activities.

Provision for Income Tax

Provision for income tax amounted to Php1,341 million in the first half of 2007 as compared to Php45 million in the same period in 2006 primarily due to net movement in deferred tax assets owing to higher foreign exchange differentials realized in 2006.

Net Income

In the first half of 2007, our fixed line business segment contributed a net income of Php2,122 million, an increase of Php1,871 million, or 745%, as compared to Php251 million in the same period in 2006 mainly as a result of a 14% decrease in fixed line-related expenses, particularly depreciation and amortization partially offset by a slight decrease in our service revenues.

Information and Communications Technology

Revenues and Other Income

Our information and communications technology, or ICT, business is conducted by ePLDT and its subsidiaries.

On April 16, 2007, SPi acquired, through a wholly-owned US subsidiary, 100% of Springfield for an aggregate purchase price of US\$35 million, or Php1,664 million, plus possible future earn out payments with an aggregate fair value at acquisition date of Php960 million. Springfield is one of the largest player in the medical billing and revenue cycle management market. As at June 30, 2007, SPi's total investment cost in Springfield amounted to Php2,683 million, including fair value of possible future earn out payments of Php960 million and incidental cost of Php59 million, see *Note 11 Goodwill and Intangible Assets* to the accompanying unaudited financial statements for related discussion.

On July 11, 2006, ePLDT acquired a 100% equity interest in SPi and its direct and indirect Philippine and offshore subsidiaries. SPi is the second largest pure-play BPO service provider and the ninth largest independent BPO service provider worldwide. It has operations in 19 locations in North America, Europe and Asia. On August 11, 2006, SPi acquired 100% of CyMed, Inc., a leading medical transcription company based in Richmond, Virginia.

On February 16, 2006, ePLDT acquired a 60% equity interest in Level Up!, a leading publisher of online games in the Philippines. The acquisition of Level Up!, together with netGames, ePLDT's online gaming subsidiary, will strengthen ePLDT's online gaming business in the Philippines.

For further discussion, see *Note 2 Summary of Accounting Policies and Practices Basis of Preparation* to the accompanying unaudited consolidated financial statements.

In the first half of 2007, our information and communications technology business generated revenues of Php4,981 million, an increase of Php2,970 million, or 148%, from Php2,011 million in the same period in 2006. This increase

was largely due to the consolidation of SPi Group and Level Up! and the continued increase of our call center revenues.

The following table summarizes revenues from our information and communications technology business for the six months ended June 30, 2007 and 2006 by service segment:

	2007		2006		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
	Six Months Ended June 30, (Unaudited)					
(in millions)						
Service Revenues

Total ICT Revenues and Other Income	Php4,981	100	Php2,011	100	Php2,970	148

Service Revenues

Service revenues generated by our information and communications technology segment amounted to Php4,806 million in the first half of 2007, an increase of Php2,994 million, or 165%, as compared to Php1,812 million in the same period in 2006 primarily as a result of the consolidation of SPi Group and Level Up! and the continued growth of our call center business.

Call Center

We are focused on developing our call center business which capitalizes on the availability of English-speaking college graduates in the Philippines with a strong customer service orientation. ePLDT has established one umbrella

brand name, *ePLDT Ventus*, for all of its call center businesses, including Ventus, Vocativ and Parlance. Ventus provides offshore contact center outsourcing solutions specializing in inbound customer care. Vocativ provides customer and technical support to its clients in the Philippines, United States and the United Kingdom, while Parlance provides exclusive customer support and billing requirements to one of the largest direct-to-home satellite television providers in the United States. In addition, Infocom, through its Customer Service Outsourcing Group, handles PLDT group's nationwide technical helpdesk operations.

Call center revenues consist of:

- inbound calls for customer care, product inquiries, sales and technical support based on active minutes, billable hours and full-time equivalents;
- outbound calls for sales and collections based on active minutes, billable hours and full-time equivalents; and
- service income for e-mail handling, web chat, web co-browsing, data entry and BPO based on transaction volume.

Revenues related to our call center business increased by Php294 million, or 24%, to Php1,531 million in the first half of 2007 from Php1,237 million in the same period in 2006 primarily due to the expansion of our facilities. In total, we own and operate approximately 6,030 seats with 4,730 customer service representatives, or CSRs, as at June 30, 2007 compared to approximately 4,660 seats with 3,500 CSRs as at June 30, 2006. In 2006, *ePLDT Ventus* launched two new sites bringing our total call center site count to seven as at June 30, 2007.

Call center revenues accounted for 32% and 68% of total information and communications technology service revenues in the first half of 2007 and 2006, respectively.

Business process outsourcing

BPO revenues consist of:

- editorial and content production services to the scholarly scientific, technical and medical (SSTM) journal publishing industry;

- digital content conversion services to information incentive organizations such as online and traditional publishers, libraries, educational institutions, Global 1,000 corporations and government agencies worldwide;
- pre-press project management services to book publishers;
- litigation support services which involve conventional coding and electronic discovery support services for international law firms, corporate counsels and government agencies; and
- conversion services of medical record/data from handwritten or speech format to electronic format and patient scheduling, coding and compliance assistance, consulting and specialized reporting services.

We provide our BPO services primarily through the SPi Group, which we acquired on July 11, 2006. In the first half of 2007, BPO contributed revenues of Php2,561 million, primarily from SPi Group services, and accounted for 53% of service revenues.

Internet and online gaming

Internet service revenues consist of:

- revenues derived from actual usage of the Internet access network by prepaid subscribers and any unused peso value of expired prepaid cards or electronic Internet time loads, net of discounts given to dealers;
- monthly service fees from postpaid corporate and consumer subscribers including:
(1) charges for Internet usage in excess of allocated free plan Internet hours; (2) one-time installation and activation fees; and (3) fees for value-added services including e-mail and web hosting services;
- one-time fees generated from the reselling of Internet-related solutions such as security solutions and domain registration;

- franchise and royalty fees for *Netopia* Internet cafés, including a one-time subscription fee and monthly recurring franchise fees based on certain conditions in the franchise agreement;
- revenues from community access of computers and desktop publishing based on actual usage, net of discounts given to users; and
- online gaming revenues from unique subscribers, including one-time sale of gaming cards and electronic pins, and top-up fees upon actual consumption of gaming credits or after expiration of any unused peso value thereof.

Revenues from our Internet and online gaming businesses increased by Php117 million, or 34%, to Php457 million in the first half of 2007 from Php340 million in the same period in 2006 primarily due to the consolidation of Level Up! in May 2006 which resulted in additional revenues of Php45 million and an increase in Infocom's revenues by Php30 million. Our Internet and online gaming business revenues accounted for 10% and 19% of service revenues of our information and communications technology business in the first half of 2007 and 2006, respectively.

Vitroä data center

ePLDT operates an Internet data center under the brand name *Vitroä* which provides co-location services, server hosting, hardware and software maintenance services, website development and maintenance services, webcasting and webhosting, shared applications, data disaster recovery and business continuity services, intrusion detection, and security services such as firewalls and managed firewalls.

Vitroä revenues consist of:

- monthly service fees derived from co-location services, server hosting, hardware and software maintenance services, website development and maintenance services, web hosting, data recovery security services and other value-added services; and
- installation charges or one-time fees associated with the set-up of services and professional services of *Vitroä*'s certified professionals.

In the first half of 2007, *Vitroä* contributed revenues of Php207 million, an increase of Php32 million, or 18%, from Php175 million in the same period in 2006, primarily due to an increase in co-location revenues and server hosting.

Vitro revenues accounted for 4% and 10% of service revenues of our information and communications technology business in the first half of 2007 and 2006, respectively.

Others

Other revenues consist of fees generated from the issuance of digital certificates and licenses and revenues derived from IT helpdesk/contact center solutions and terminals for credit, debit and credit card transactions.

Revenues from other businesses related to our information and communications technology segment decreased by Php10 million, or 17%, to Php50 million in the first quarter of 2007 from Php60 million in the same period in 2006.

Please refer to *Note 9 Investments in Associates* to the accompanying unaudited consolidated financial statements for further discussion on ePLDT's investments.

Non-service Revenues

Non-service revenues consist of sales generated from reselling certain software licenses, server solutions, networking products, storage products and data security products. In the first quarter of 2007, non-service revenues generated by our information and communications technology business decreased by Php10 million, or 6%, to Php162 million as compared to Php172 million in the same period in 2006, primarily due to higher revenues from sales of software licenses.

Other Income

All other income/gains which do not fall under service and non-service revenues are included under this classification. Other income generated from our information and communications technology business decreased to Php13 million in the first half of 2007 from Php24 million in the same period in 2006 primarily due to lower income from unconsolidated investee companies.

Equity Share in Net Income of Associates

ePLDT's equity share in net income of associates amounted to Php3 million in the first half of 2006 due to ePLDT's share in the earnings of its unconsolidated investee companies.

Expenses

Expenses associated with our information and communications technology business totaled Php5,016 million in the first half of 2007, an increase of Php3,080 million, or 159%, from Php1,936 million in the same period in 2006 primarily due to the consolidation of SPi Group and Level Up! resulting to an increase in compensation and benefits, professional and other contracted services, and depreciation and amortization. We currently expect these expenses to be significantly higher going forward as a result of the full year consolidation of SPi Group and Level Up!. As a percentage of our information and communications technology revenues, expenses related to our information and communications technology business were 101% and 96% for the first half of 2007 and 2006, respectively.

The following table shows the breakdown of our total information and communications technology-related expenses for the six months ended June 30, 2007 and 2006 and the percentage of each expense item to the total:

	Six Months Ended June 30,					
	2007	%	2006	%	Increase (Decrease) Amount	%
	(Unaudited)

Total	Php5,016	100	Php1,936	100	Php3,080	159

(1) Includes salaries and benefits, incentive plan, pension and MRP costs.

Compensation and benefits increased by Php1,728 million, or 202%, to Php2,583 million largely due to the increased number of employees and corresponding salaries and employee benefits resulting from the expansion of our call center businesses and the consolidation of SPi Group and Level Up! in 2006.

Professional and other contracted services increased by Php557 million to Php607 million primarily due to higher consultancy fees and sub-contracted services by SPi Group related to its BPO services.

Depreciation and amortization charges increased by Php223 million, or 88%, to Php475 million primarily due to an increase in the depreciable asset base in relation to the expansion of our call center businesses and the consolidation of SPi Group in July 2006.

Rent expenses increased by Php101 million, or 44%, to Php329 million primarily due to higher office space rentals and leased circuits from other carriers by call center business and Level Up!.

Maintenance expenses increased by Php106 million, or 76%, to Php245 million primarily due to higher maintenance costs for call centers relative to its new facilities complemented by higher electricity charges of *Vitro*™ and the consolidation of the SPi Group and Level Up!.

Communication, training and travel expenses increased by Php154 million, or 205%, to Php229 million, primarily due to the increased cost of phone lines, bandwidth and information system charges, coupled with the increase in local travel costs, mailing and courier charges and freight and hauling charges incurred by our call center and BPO businesses.

Cost of sales decreased by Php1 million, or 1%, to Php143 million primarily due to a decrease in the cost of point products sold in the first half of 2007.

Selling and promotion expenses increased by Php41 million, or 46%, to Php130 million mainly due to SPi Group's commissions expenses as well as an increase in advertising and marketing spending of netGames and Level Up!.

Amortization of intangible assets increased by Php93 million to Php96 million in the first half of 2007 in relation to the acquisition of SPi Group and Level Up!. See *Note 11 Goodwill and Intangible Assets* to the accompanying unaudited consolidated financial statements for further discussion.

Taxes and licenses increased by Php20 million, or 105%, to Php39 million primarily due to the consolidation of the SPi Group and higher business-related taxes accrued and paid in the first half of 2007 as compared to the same period in 2006.

Insurance and security services increased by Php14 million, or 140%, to Php24 million, primarily due to higher premium costs and an increase in the value of assets insured in the first half of 2007 as compared to the same period in 2006.

ePLDT's equity share in net losses of associates amounted to Php9 million in the first half of 2007, primarily due to the amortization of intangibles pertaining to the Philweb acquisition. ePLDT acquired a total of 25.5% equity interest in Philweb in May 2006 and October 2006.

Provisions increased by Php2 million, or 200%, to Php3 million mainly due to anticipated uncollectible accounts specifically identified in the first half of 2007 and 2006.

Financing gains amounted to Php8 million in the first half of 2007, primarily due to a gain on derivative transactions; no similar transaction was recorded in the same period in 2006. This was partially offset by higher foreign exchange losses largely due to the significant peso appreciation.

Other expenses increased by Php20 million, or 28%, to Php91 million mainly due to higher business-related costs, such as office supplies.

Benefit from Income Tax

Benefit from income tax amounted to Php38 million in the first half of 2007 primarily due to the corresponding deferred tax effect of the amortization of intangible assets in relation to the acquisition of SPi Group and Level Up!, as compared to Php12 million in the same period in 2006.

Net Income

In the first half of 2007, our information and communications technology business segment registered a net income of Php3 million as compared to Php87 million in the same period in 2006 mainly as a result of a 148% increase in ICT-related revenues mainly from the consolidation of SPi Group and increased contribution of our call center business, partly offset by the 159% increase in ICT expenses mainly from the opening of two call centers and the consolidation of SPi Group.

Liquidity and Capital Resources

The following table shows our consolidated cash flows for the six months ended June 30, 2007 and for the year ended December 31, 2006 as well as consolidated capitalization and other selected financial data as at June 30, 2007 and 2006:

	Six Months Ended

Other Financial Data

Total assets	Php239,171	Php241,892
Property, plant and equipment - net	160,735	164,190
Cash and cash equivalents	12,789	16,870

As at June 30, 2007, our consolidated cash and cash equivalents totaled Php12,789 million. Principal sources of consolidated cash and cash equivalents in the first half of 2007 were cash flows from operating activities amounting to Php37,976 million and drawings from Smart's, PLDT's and ePLDT's debt facilities aggregating Php5,429 million. These funds were used principally for capital outlays of Php9,966 million, total debt principal payments of Php14,130 million and short-term investments of Php9,182 million.

Operating Activities

Our consolidated net cash flows from operating activities increased by Php4,381 million, or 13%, to Php37,976 million in the first half of 2007 from Php33,595 million in the same period in 2006. A significant portion of our cash flow is generated by our wireless business, which contributed approximately 60% of our total revenues and other income in the first half of 2007 and 2006. Revenues from our fixed line and information and communications technology services accounted for 33% and 7%, respectively, of our total revenues and other income in the first half of 2007 compared to 37% and 3%, respectively, in the same period in 2006.

Cash flows from operating activities of our wireless business amounted to Php24,749 million in the first half of 2007, an increase of Php7,270 million, or 42%, compared to Php17,479 million in the same period in 2006. The increase in our wireless business segment's cash flows from operating activities was primarily due to the decrease in our working capital requirements owing to the settlement of various payables in 2006. However, cash flows from operating activities of our fixed line business decreased to Php11,073 million in the first half of 2007, compared to Php14,440 million in the same period in 2006 due to higher accounts receivable billings vis-a-vis collections for the comparative period. Our wireless business segment accounted for 68% of our cash flows from operating activities while our fixed line segment accounted for 31% in the first half of 2007. We believe that our continuing strong cash flows from operating activities on a consolidated basis will allow us to defray our current liabilities despite our current ratio being less than 1:1 as at June 30, 2007.

Until April 2006, Smart was subject to loan covenants that restricted its ability to pay dividends, redeem preferred shares, make distributions to PLDT or otherwise provide funds to PLDT or any associate without the consent of its lenders. Smart was able to obtain waivers from Finnvera and certain of its lenders for all dividend payments made by Smart to PLDT up to March 2006. Dividend payments made by Smart to PLDT after April 2006 did not require prior creditor consent as all loan facilities that contain such restrictions have already been repaid. Dividends paid by Smart to PLDT for the six months ended June 30, 2007 and 2006 amounted to Php18,000 million and Php14,000 million, respectively.

Investing Activities

Net cash used in investing activities amounted to Php19,865 million in the first half of 2007, an increase of Php5,974 million, or 43%, compared to Php13,891 million in the same period in 2006. This was primarily a net result of: (1) the increase in short-term investments by Php8,757 million in the first half of 2007 mainly due to Smart's increased investment in money market placements with over 90 days maturity; (2) a decrease in capital expenditures by Php2,464 million; and (3) lower investment acquisition by Php288 million. However, we expect capital expenditures to be higher in the second half of 2007.

Our consolidated capital expenditures in the first half of 2007 totaled Php9,966 million, a decrease of Php2,464 million, or 20%, from Php12,430 million in the same period in 2006 primarily due to PLDT's, Smart's and ePLDT's lower capital spending. Smart's capital spending of Php3,989 million in the first half of 2007 was used primarily to further upgrade its core, access and transmission network facilities, expand its wireless broadband facilities and develop IT platforms for new businesses. PLDT's capital spending of Php5,661 million was principally used to finance the expansion and upgrade of its submarine cable facilities, fixed line data and IP-based network services. ePLDT and its subsidiaries' capital spending of Php276 million was primarily used to fund its continued call center expansion. The balance represented other subsidiaries' capital spending. Consolidated capital expenditures in the first half of 2006 amounted to Php12,430 million, of which Php6,064 million, Php5,765 million and Php520 million were attributable to Smart, PLDT and ePLDT, respectively.

Financing Activities

On a consolidated basis, we used net cash of Php21,951 million for financing activities, net of loan drawings by Smart, in the first half of 2007, a decrease of Php1,992 million, or 8%, compared to Php23,943 million in the same period in 2006. The net cash used in financing activities in 2006 was mainly utilized for debt repayments and interest payments by PLDT and Piltel in line with their ongoing debt reduction programs, and dividend payments distributed by PLDT to its common and preferred stockholders.

Debt Financing

Additions to our consolidated long-term debt in the first half of 2007 totaled Php5,429 million mainly from Smart's drawings related to the financing of its network expansion projects. Payments in respect of principal and interest of our total debt amounted to Php14,130 million and Php3,375 million, respectively, in the first half of 2007, of which Php10,684 million and Php2,641 million were attributable to PLDT, respectively.

The following table shows our long-term debt, including current portion, as at June 30, 2007 and December 31, 2006:

	June 30,	December 31,	Increase	
	2007	2006	(Decrease)	
	(Unaudited)	(Audited)	Amount	%
(in millions)				
U.S. Dollar Debt:				
Export Credit Agencies-Supported Loans	Php10,591	Php14,981	(Php4,390)	(29)
Fixed Rate Notes	31,254	40,971	(9,717)	(24)
Term Loans	16,494	18,611	(2,117)	(11)
Satellite Acquisition Loans	1,621	2,083	(462)	(22)
	59,960	76,646	(16,686)	(22)
Philippine Peso Debt:				
Peso Fixed Rate Corporate Notes	4,987	808	4,179	517
Term Loans	2,917	2,499	418	17
	7,904	3,307	4,597	139
	Php67,864	Php79,953	(Php12,089)	(15)

For a complete discussion of our long-term debt, see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

Our long-term debt decreased by Php12,089 million, or 15%, to Php67,864 million as at June 30, 2007, largely due to debt amortizations in line with PLDT's efforts to reduce its overall debt level, and also due to the appreciation of the peso. PLDT's debt was reduced by 24% to Php39,749 million by June 30, 2007. The debt levels of Smart increased by 4% to Php26,454 million while Mabuhay and ePLDT decreased by 22% and 29% to Php1,621 million and Php40 million, respectively, as at June 30, 2007 due to amortizations and prepayments during the first half of 2007.

On May 22, 2007, PLDT signed loan agreements with The Philippine American Life and General Insurance Company for Php400 million and with The Philam Bond Fund, Inc. for Php20 million to refinance their respective participations in the Ten-Year Note under the Php1,270 million Peso Fixed Rate Corporate Notes which were repaid on June 12, 2007.

On February 15, 2007 Smart issued Php5 billion unsecured fixed rate corporate notes, made up of Series A notes amounting to Php3.8 billion and Series B notes amounting to Php1.2 billion with five and ten year terms, respectively. Series A notes were priced at 5.625%, while Series B notes were priced at 6.500%. Funds raised from the issuance of these notes will be used primarily for Smart's capital expenditures for network improvement and expansion.

On October 16, 2006, Smart signed a U.S. Dollar Term Loan Facility with Metropolitan Bank and Trust Company to finance the related Phase 9 GSM Facility for an amount of US\$50 million. As at June 30, 2007, this facility remained undrawn. Please see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements for a detailed discussion of our long-term debt.

The scheduled maturities of our outstanding consolidated long-term debt at nominal values as at June 30, 2007 are as follows:

Year (Unaudited)	US\$ Loans (in millions)	Peso Loans	Total
2007(1)	US\$84	Php3,908	Php4,187
2008	147	6,795	7,353
2009	263	12,163	12,733
2010	71	3,274	3,842
2011	15	686	1,254
2012 and onwards	830	38,391	43,775
	US\$1,410	Php65,217	Php73,144

(1) July 1, 2007 through December 31, 2007.

Approximately Php29,369 million principal amount of our consolidated outstanding long-term debt as at June 30, 2007 is scheduled to mature over the period from 2007 to 2011. Of this amount, Php14,360 million was attributable to PLDT, Php13,348 million to Smart and the remainder to Mabuhay Satellite and ePLDT.

Debt Covenants

Our debt instruments contain restrictive covenants, including covenants that could prohibit us from paying dividends on common stock under certain circumstances, and require us to comply with specified financial ratios and other financial tests, calculated in conformity with Philippine Financial Reporting Standards, at relevant measurement dates, principally at the end of each quarterly period. We have complied with all of our maintenance financial ratios as required under our loan covenants and other debt instruments.

Please see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements for a detailed discussion of our covenants.

Financing Requirements

We believe that our available cash, including cash flow from operations, will provide sufficient liquidity to fund our projected operating, investment, capital expenditures and debt service requirements for the next 12 months.

As a result of our improving cash flows and reduced debt levels, we currently intend to gradually increase our dividend payout ratio in succeeding years as we improve our leverage ratios. For 2006, our dividend payout ratio was 60% of 2006 earnings which we currently intend to increase to 70% in 2007.

On August 7, 2007, we declared a special dividend of Php40 per share attributable to our 2006 earnings. This special dividend is an incremental dividend payout representing approximately 25% of our 2006 earnings per share. As a result of such special dividend declaration, our total dividend payments attributable to our 2006 earnings increased to Php140 per share, inclusive of the regular dividends paid out of our 2006 earnings aggregating Php100 per share.

The following table set forth the dividend declaration on PLDT's common stock pertaining to 2006 and 2007 earnings:

Earnings	Approved	Date Record	Payable	Amount	
				Per share	Total (in millions)
2006	August 8, 2006	August 21, 2006	September 21, 2006	Php50	Php9,379
2006	March 6, 2007	March 20, 2007	April 20, 2007	50	9,429
2006	August 7, 2007	August 24, 2007	September 24, 2007	40	7,546
				Php140	Php26,354
2007	August 7, 2007	August 24, 2007	September 24, 2007	Php60	Php11,318

Credit Ratings

None of our existing indebtedness contains provisions under which credit rating downgrades would trigger a default, changes in applicable interest rates or other similar terms and conditions.

PLDT's current credit ratings are as follows:

<u>Rating Agency</u>	<u>Credit Rating</u>	<u>Outlook</u>
Moody's Investor Services	Foreign Currency Senior Unsecured Debt Rating	Ba2 Stable
	Local Currency Corporate Family Rating	Baa2 Stable
Standard and Poor's	Foreign Currency Senior Unsecured Debt Rating	BB+ Stable
Fitch	Long-term Foreign Currency Rating	BB Stable
	Long-term Local Currency Rating	BB+ Stable
	Long-term Foreign Currency Issuer Default Rating	BB+ Stable
	Long-term Local Currency Issuer Default Rating	BBB- Positive
	National Long-term Rating	AAA(ph1) Stable

On May 31, 2007, Moody's upgraded our local currency corporate family rating to Baa2 with a stable outlook from Baa3. At the same time, Moody's affirmed our foreign currency rating at Ba2 with a stable outlook. This rating action concluded the review for possible upgrade that Moody's commenced on April 11, 2007. The upgrade reflects the continued improvement in our financial profile and the consolidation of our strong operating performance.

On November 3, 2006, Moody's affirmed PLDT's Ba2 senior unsecured foreign currency rating and changed its outlook to stable from negative. The rating action was prompted by the change in outlook on the Philippines Ba3 country ceiling for foreign currency bonds to stable from negative. On July 18, 2006, Moody's upgraded PLDT's local currency corporate family rating from Ba1 to Baa3 with a positive outlook.

On August 18, 2006, Fitch upgraded PLDT's long-term foreign currency IDR to BB+ from BB with a stable outlook, at the same time upgrading PLDT's global bonds and senior notes to BB+ from BB and affirmed PLDT's long-term local currency IDR of BBB- with a positive outlook. Following the licensing of Fitch to provide National ratings in the Philippines, Fitch assigned PLDT a National long-term rating of AAA(ph1) with a stable outlook. The ratings action follows Fitch's announcement that it has upgraded the Country Ceiling on the Republic of the Philippines to BB+ from BB.

On August 30, 2006, Standard & Poor's Ratings Services affirmed its BB+ foreign currency rating on PLDT with stable outlook. At the same time, the rating on PLDT's Series III Preferred Stock has been withdrawn as the preferred stock have been fully converted into common equity.

Equity Financing

For a discussion of our long-term debt, see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

Long-term Capital Lease Obligations

For a discussion of our long-term capital lease obligations, see *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements.

Long-term Operating Lease Obligations

Digital Passage Service Contracts. PLDT has existing Digital Passage Service Contracts with foreign telecommunication administrations for several dedicated circuits to various destinations for 10 to 25 years expiring at various dates. As at June 30, 2007, PLDT's aggregate remaining obligation under these contracts amounted to approximately Php4 million.

License Agreement with Mobius Management Systems (Australia) Pty Ltd., or Mobius. PLDT entered into a license agreement with Mobius pursuant to which Mobius has granted PLDT a non-exclusive, non-assignable and non-transferable license for the use of computer software components. Under this agreement, Mobius is also required to provide maintenance services for a period of one year at no additional maintenance charge. PLDT may purchase maintenance services upon expiration of the first year for a fee of 15% of the current published license fee. As at June 30, 2007, PLDT's aggregate remaining obligation under this agreement was approximately Php20 million.

Other Long-term Operating Lease Obligations. The PLDT Group has various long-term lease contracts for periods ranging from two to ten years covering certain offices, warehouses, cell sites telecommunication equipment locations and various office equipment. In particular, Smart has lease obligations amounting to Php3,091 million as at June 30, 2007 in respect of office and cell site rentals with over 3,000 lessors nationwide, PLDT has lease obligations amounting to Php85 million as at June 30, 2007 in respect of office and lot rentals with over 172 lessors nationwide, ePLDT has lease obligations amounting to Php186 million as at June 30, 2007 in respect of certain office space rentals and PLDT Global has lease obligations amounting to Php148 million as at June 30, 2007 in respect of certain office space rentals.

Unconditional Purchase Obligations

Air Time Purchase Agreement with AIL. PLDT was a party to a Founder National Service Provider, or NSP, Air Time Purchase Agreement, or ATPA, entered into in March 1997 (amended in December 1998) with AIL, under

which PLDT was granted the exclusive right to sell AIL services as NSP in the Philippines. In exchange, the ATPA required PLDT to purchase from AIL a minimum of US\$5 million worth of air time annually over ten years commencing January 1, 2002, the purported date of commercial operations of Garuda I Satellite. In the event that AIL's aggregate billed revenue is less than US\$45 million in any given year, the ATPA states that PLDT has to make supplemental air time purchase payments not to exceed US\$15 million per during the ten-year term.

After lengthy negotiations including a collaboration arrangement with Inmarsat, AIL and ACeS signed a term sheet (Banks Term Sheet) in September 2006 (as amended in October 2006, November 2006 and January 2007) with the majority of AIL's bank creditors. The Banks Term Sheet was aimed to be used as basis for further good faith negotiations among the parties with a view to enter into a further amendment to the Amended and Restated Credit Agreement. Under the Banks Term Sheet, the majority banks, subject to the satisfaction of certain conditions, agreed to, among others: (1) redenominate AIL's debt, and (2) amend the Founder NSP ATPA payments to: (i) US\$500,000 per year for each of the NSPs, including PLDT, PSN and Jasmine, from 2007 to 2010, and (ii) US\$3,000,000 per year each for PLDT and PSN from 2011 to 2015. For further discussion please see *Note 20 Related Party Transactions* to the accompanying unaudited consolidated financial statements.

As at June 30, 2007, PLDT's aggregate remaining minimum obligation under the amended ATPA was approximately Php763 million.

Other Long-term Obligations

Mandatory Conversion and Purchase of Shares. As discussed in *Note 17 Interest-bearing Financial Liabilities*, as at June 30, 2007, PLDT had issued a total of 3 million shares of Series V Convertible Preferred Stock, 5 million shares of Series VI Convertible Preferred Stock and 4 million shares of Series VII Convertible Preferred Stock in exchange for a total of 58 million shares of Series K Class I Convertible Preferred Stock of Piltel, pursuant to the debt restructuring plan of Piltel adopted in June 2001. As at June 30, 2007, 2,680,870 shares of Series V Convertible Preferred Stock and 4,551,886 shares of Series VI Convertible Preferred Stock and 3,842,000 shares of Series VII Convertible Preferred Stock had been voluntarily converted to PLDT common shares. As at June 30, 2007, 40,570 shares of Series V and 743,218 shares of Series VI Convertible Preferred Stocks remained outstanding.

Each share of Series V and VI Convertible Preferred Stock is convertible at any time at the option of the holder into one PLDT common share. On the date immediately following the seventh anniversary of the issue date of the Series V and Series VI Convertible Preferred Stocks, the remaining outstanding shares under these series will be mandatorily converted to PLDT common shares. Under a put option exercisable for 30 days, holders of common shares received on mandatory conversion of the Series V and VI Convertible Preferred Stocks will be able to require PLDT to purchase such PLDT common shares for Php1,700 per share and US\$36.132 per share, respectively.

The aggregate value of the put option based on outstanding shares as at June 30, 2007 was Php1,311 million which is puttable on June 4, 2008, if all of the outstanding shares of Series V and VI Convertible Preferred Stocks were

mandatorily converted and all the common shares were put to PLDT at that time. The market value of the underlying shares of common stock was Php2,077 million, based on the market price of PLDT common shares of Php2,650 per share as at June 30, 2007.

Please refer to *Note 17 Interest-bearing Financial Liabilities* to the accompanying unaudited consolidated financial statements for further discussion.

Commercial Commitments

As at June 30, 2007, our outstanding commercial commitments, in the form of letters of credit, amounted to Php1,767 million. These commitments will expire within one year.

Quantitative and Qualitative Disclosures about Market Risks

Our operations are exposed to various risks, including liquidity risk, foreign exchange risk and interest rate risk. The importance of managing these risks has significantly increased in light of considerable change and continuing volatility in both the Philippine and international financial markets. With a view to managing these risks, we have incorporated financial risk management functions in our organization, particularly in our treasury operations and equity issues and sales of certain assets.

Liquidity Risk Management

We seek to manage our liquidity profile to be able to finance our capital expenditures and service our maturing debts. To cover our financing requirements, we currently intend to use internally generated funds and proceeds from debt and equity issues and sales of certain assets.

As part of our liquidity risk management program, we regularly evaluate our projected and actual cash flow information and continuously assess conditions in the financial markets for opportunities to pursue fund-raising initiatives. These initiatives may include bank loans, export credit agency-guaranteed facilities, and debt capital and equity market issues.

Foreign Exchange Risk Management

As at June 30, 2007, the Philippine peso had appreciated by 6% against the U.S. dollar to Php46.246 to US\$1.00 from Php49.045 to US\$1.00 as at December 31, 2006. On the other hand, as at June 30, 2006, the peso had depreciated to Php53.220 to US\$1.00 from Php53.062 to US\$1.00 as at December 31, 2005. The revaluation of our foreign-currency denominated assets and liabilities is recognized as foreign exchange gains or losses as at the balance sheet date. Since most of our indebtedness is denominated in U.S. dollars, the appreciation or depreciation of the Philippine peso results in the recognition of foreign exchange gains or losses. The extent of foreign exchange gains or losses is largely dependent on the amount of foreign currency debt and hedges we carry. As at June 30, 2007, consolidated foreign currency denominated debt was reduced to Php59,960 million from Php88,865 million as at June 30, 2006. As such, we recognized foreign exchange gains of Php995 million and a foreign exchange loss of Php195 million in the first half of 2007 and 2006, respectively.

While a certain percentage of our revenues are either linked to or denominated in U.S. dollars, most of our indebtedness and related interest expense, a substantial portion of our capital expenditures and a portion of our operating expenses are denominated in foreign currencies, mostly in U.S. dollars.

As at June 30, 2007, approximately 89% of our total consolidated debts were denominated in U.S. dollars. Thus, a strengthening or weakening of the Philippine peso against the U.S. dollar will decrease or increase both the principal amount of our unhedged foreign currency-denominated debts (representing 46% of our consolidated debts, or 34% net of our U.S. dollar cash balances as at June 30, 2007), and interest expense on our debt in Philippine peso terms. In addition, many of our financial ratios and other financial tests are affected by the movements in the Philippine peso to U.S. dollar exchange rate.

To manage our foreign exchange risks, stabilize cash flows, and improve investment and cash flow planning, we enter into forward foreign exchange contracts, foreign currency swap contracts, currency option contracts and other hedging products aimed at reducing and/or managing the adverse impact of changes in foreign exchange rates on our operating results and cash flows. However, these hedges do not cover all of our exposure to foreign exchange risks.

Specifically, we use forward foreign exchange contracts, foreign currency swap contracts and currency option contracts to manage the foreign exchange risks associated with our foreign currency-denominated loans. In order to manage hedge costs of these contracts, we utilize structures that include credit-linkage with PLDT as the reference entity, a combination of currency option contracts, and fixed to floating coupon only swap agreements. Accounted for as either cash flow hedges or transactions not designated as hedges, changes in the fair value of these instruments are recognized as cumulative translation adjustments in equity until the hedged item is recognized directly as income or expense for the period. As at June 30, 2007, PLDT's outstanding principal-only long-term cross-currency swap contracts and currency option contracts amounted to US\$550 million; and US\$136 million, respectively. Smart had no outstanding forward foreign exchange contracts as at June 30, 2007.

For further discussions of these contracts, see *Note 24 Financial Assets and Liabilities - Derivative Financial Instruments* to the accompanying unaudited consolidated financial statements.

Interest Rate Risk Management

On a limited basis, we enter into interest rate swap agreements in order to manage our exposure to interest rate fluctuations. As at June 30, 2007, PLDT's outstanding interest rate swap contracts amounted to US\$31 million. For further discussions of these contracts, see *Note 24 Financial Assets and Liabilities - Derivative Financial Instruments* to the accompanying unaudited consolidated financial statements.

We make use of hedging instruments and structures solely for reducing or managing financial risks associated with our liabilities and not for trading or speculative purposes.

Impact of Inflation and Changing Prices

Inflation can be a significant factor in the Philippine economy, and we are continually seeking ways to minimize its impact. In recent periods, we do not believe inflation has had a material impact on our operations. The average inflation rate in the Philippines in the first half of 2007 was 2.6%, compared to 7.1% in the same period in 2006.

Other Information

Launch of mobile TV service

On July 24, 2007, Mediaquest Holdings, Inc., through its subsidiary, 360media Corp., launched *myTV*, the first commercial mobile TV service in the country. This service enables Smart subscribers with mobile TV-capable handsets to enjoy *myTV*'s range of top-rated TV channels. *myTV* uses Digital Video Broadcasting - Handheld, or DVB-H, platform that delivers real-time events through a digital TV signal optimized for mobile devices wherein programs can be simultaneously viewed by an unlimited number of subscribers. *myTV* is not transmitted through the cellular network unlike mobile TV from video streaming and video-downloads services which are currently offered through 3G cellular networks. Initial coverage areas include Mega Manila, Cebu, Davao, Tagaytay, Batangas and Baguio.

The *myTV* package will be an additional charge of Php488 on top of the regular postpaid airtime plans. Prepaid subscribers on the other hand, need only maintain Php1 airtime load on top of the Php488 monthly *myTV* package to avail the service. *myTV* service will be free until August 31, 2007.

As the sales and distribution partner for *myTV*, Smart will receive 60% of net revenues, with net revenues being defined as gross revenues less VAT, programming and reloading costs.

Partnership with Inmarsat plc

On August 2, 2007, Smart announced a partnership with global satellite communications service firm Inmarsat plc to offer a wider terrestrial and maritime coverage for its satellite phone services, *SMARTLink*. This strategic collaboration involves Inmarsat making available its global satellite infrastructure for the delivery of Smart's products and services to *SMARTLink* subscribers as well as a US\$5 million investment by Smart to set up the gateway facility and ground infrastructure in Subic, Zambales. The partnership will result in an initial expanded coverage for the *SMARTLink* prepaid wireless satellite phone service to include India, the Indian Ocean, the Middle East, Africa, one-half of the Australian continent, and parts of Russia and the Pacific Ocean. The *SMARTLink* services will be carried on Inmarsat's I-4 satellite, which can support both voice call services and data connectivity. This expanded coverage area complements the existing coverage provided by the Garuda I base of Asia Cellular Satellite, which already covers 11 million square miles of Asia, from Pakistan in the west to Japan in the east and Indonesia and Papua New Guinea in the south.

Smart's Acquisition of Blue Ocean Wireless, or BOW

On August 3, 2007, Smart has agreed to acquire a 30% equity interest in BOW, a Dublin-based company delivering GSM communication capability for the merchant maritime sector. The investment by Smart will be US\$15.9 million. BOW provides the world's first GSM network on the seas through *Altobridge*, a patented GSM platform that supports full voice and text services, thus providing an important complementary service to Smart's prepaid wireless satellite phone service, *SMARTLink*.

Related Party Transactions

a. Air Time Purchase Agreement between PLDT and AIL and Related Agreements

For a more detailed discussion on the Air Time Purchase Agreement, see *Contractual Obligations and Commercial Commitments*, *Unconditional Purchase Obligations*, and *Air Time Purchase Agreement with AIL*.

b. Transactions with Major Stockholders, Directors and Officers

Transactions to which PLDT or any of its subsidiaries is a party, in which a director, key officer or owner of more than 10% of the outstanding common stock of PLDT, or any member of the immediate family of a director, key officer or owner of more than 10% of the outstanding common stock of PLDT had a direct or indirect material interest, as at June 30, 2007 (unaudited) and December 31, 2006 (audited) and for the six months ended June 30, 2007 and 2006 (unaudited) are as follows:

Cooperation Agreement with First Pacific and certain affiliates, or the FP Parties, NTT Communications and DoCoMo In connection with the transfer by NTT Communications of approximately 12.6 million shares of PLDT's common stock to DoCoMo pursuant to a Stock Sale and Purchase Agreement dated January 31, 2006 between NTT Communications and DoCoMo, the FP Parties, NTT Communications and DoCoMo entered into a Cooperation Agreement, dated January 31, 2006. Under the Cooperation Agreement, the relevant parties extended certain rights of NTT Communications under the Stock Purchase and Strategic Investment Agreement dated September 28, 1999, as amended, and the Shareholders Agreement dated March 24, 2000, to DoCoMo, including:

- certain contractual veto rights over a number of major decisions or transactions; and
- rights relating to the representation on the board of directors of PLDT and Smart, respectively, and any committees thereof.

Key provisions of the Cooperation Agreement pertain to, among other things, restrictions on the ownership of shares of PLDT by NTT Communications and DoCoMo, limitation on competition, business cooperation, additional rights of DoCoMo, change in control and termination. See *Note 20 Related Party Transactions* to the accompanying unaudited consolidated financial statements for further details.

Integrated i-mode Services Package Agreement between DoCoMo and Smart An Integrated i-mode Services Package Agreement was entered into by Smart and DoCoMo on February 15, 2006, under which DoCoMo agreed to grant Smart, on an exclusive basis within the territory of the Philippines for a period of five years, an integrated i-mode services package including a non-transferable license to use the licensed materials and the i-mode brand, as well as implementation support and assistance and post-commercial launch support from DoCoMo. Pursuant to this agreement, Smart is required to pay an initial license fee and running royalty fees based on the revenue arising from i-mode subscription fees and data traffic. Outstanding obligation under this agreement amounted to Php46 million and Php53 million as at June 30, 2007 and December 31, 2006, respectively.

Advisory Services Agreement between DoCoMo and PLDT An Advisory Services Agreement was entered into by DoCoMo and PLDT on June 5, 2006, in accordance with the Cooperation Agreement dated January 31, 2006. Pursuant to the Advisory Services Agreement, DoCoMo will provide the services of certain key personnel in connection with certain aspects of the business of PLDT and Smart. Also, said agreement governs the terms and

conditions of the appointments of such key personnel and the corresponding fees related thereto. Total fees under this agreement for the six months ended June 30, 2007 amounted to Php38 million. Outstanding liability under this agreement amounted to Php6 million and Php32 million as at June 30, 2007 and December 31, 2006, respectively.

Other Agreements with NTT Communications and/or its Affiliates Under certain agreements, (1) NTT Communications provides advisory services for various business areas of PLDT; (2) PLDT is licensed to market managed data and other services using NTT Communications Arcstar brand; and (3) PLDT and NTT Communications agreed to cooperative arrangements for conventional international telecommunications services. Total fees under these agreements totaled Php47 million and Php100 million for the six months ended June 30, 2007 and 2006, respectively. PLDT's outstanding obligations under these agreements amounted to Php6 million and Php18 million as at June 30, 2007 and December 31, 2006, respectively.

Agreement between Smart and Asia Link B.V., or ALBV. Smart has an existing Technical Assistance Agreement with ALBV, a subsidiary of the First Pacific Group, for the latter's provision of technical support services and assistance in the operations and maintenance of cellular business for a period of five years, subject to renewal upon mutual agreement between the parties. The agreement provides for quarterly payments of technical service fees equivalent to 2% of the net revenues of Smart. In January 2004, the agreement was amended, reducing the technical service fees to be paid by Smart to ALBV to 1% of net revenues effective January 1, 2004. On February 18, 2004, Smart and ALBV entered into a renewal of the Technical Assistance Agreement extending the effectivity of the terms thereof to February 23, 2008. Furthermore, in view of the acquisition by Smart of ownership of 92.1% of the outstanding common stock of Piltel held by PLDT, the parties agreed to make the consolidated net revenues of Smart the basis for the computation of the 1% technical service fees payable by Smart to ALBV, effective January 1, 2005. Total service fees charged to operations under this agreement amounted to Php300 million and Php274 million for the six months ended June 30, 2007 and 2006, respectively. Outstanding payable of Smart to ALBV under this agreement as at June 30, 2007 and December 31, 2006 amounted to Php7 million and Php128 million, respectively.

Smart also has an existing Services Agreement with ALBV for a period of 25 years starting January 1, 1999, which will automatically expire unless renewed by mutual agreement of both parties. Under the agreement, ALBV provides advice and assistance to Smart in sourcing capital equipment and negotiating with international suppliers, arranging international financing and other services therein consistent with and for the furtherance of the objectives of the services. Service agreement fees were paid for the whole 25-year period. Outstanding prepaid management fees as at June 30, 2007 and December 31, 2006 amounted to Php843 million and Php869 million, respectively. Financing service fee charged to operations amounted to Php26 million each for the six months ended June 30, 2007 and 2006.

Agreements relating to insurance companies Gotuaco del Rosario and Associates, or Gotuaco, acts as the broker for certain insurance companies to cover certain insurable properties of the PLDT Group. Insurance premiums are remitted to Gotuaco and the broker's fees are settled between Gotuaco and the insurance companies. In addition, PLDT has an insurance policy with Malayan Insurance Co., Inc., or Malayan, wherein premiums are directly paid to Malayan. Total insurance expenses under these agreements amounted to Php198 million and Php189 million for the six months ended June 30, 2007 and 2006, respectively. Two directors of PLDT have direct/indirect interests in or serve as a director/officer of Gotuaco and Malayan.

For a more detailed discussion of the related party transactions enumerated above, see *Note 20 Related Party Transactions* to the accompanying unaudited consolidated financial statements.

PHILIPPINE LONG DISTANCE TELEPHONE COMPANY AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

The Philippine Long Distance Telephone Company, or PLDT, or Parent Company, was incorporated under the old Corporation Law of the Philippines (Act 1459, as amended) on November 28, 1928, following the merger of four telephone companies under common U.S. ownership. Under its amended Articles of Incorporation, PLDT's corporate term is currently limited through 2028. In 1967, effective control of PLDT was sold by General Telephone and Electronics Corporation (a major shareholder since PLDT's incorporation) to a group of Filipino businessmen. In 1981, in furtherance of the then existing policy of the Philippine government to integrate the Philippine telecommunications industry, PLDT purchased substantially all of the assets and liabilities of the Republic Telephone Company, which at that time was the second largest telephone company in the Philippines. In 1998, First Pacific Company Limited, or First Pacific, and its Philippine and other affiliates, or collectively the First Pacific Group, acquired a significant interest in PLDT. On March 24, 2000, NTT Communications Corporation, or NTT Communications, through its wholly-owned subsidiary NTT Communications Capital (UK) Ltd., or NTTC-UK, became PLDT's strategic partner with approximately 15% economic and voting interest in the issued and outstanding common stock of PLDT. Simultaneous with NTT Communications' investment in PLDT, we acquired 100% of Smart Communications, Inc., or Smart. On March 14, 2006, NTT DoCoMo, Inc., or DoCoMo, acquired from NTT Communications approximately 7% of PLDT's outstanding common shares held by NTT Communications with NTT Communications retaining ownership of approximately 7% of PLDT's common shares. On February 28, 2007, Metro Pacific Asset Holdings, Inc., a Philippine affiliate of First Pacific completed the acquisition of an additional interest of approximately 46% in Philippine Telecommunications Investment Corporation, or PTIC, a shareholder of PLDT. This additional investment in PTIC represents an attributable interest of approximately 6.4% of the issued common shares of PLDT and thereby raised First Pacific Group's beneficial ownership to approximately 28% of PLDT's shares of common stock as at that date.

The common shares of PLDT are listed and traded on the Philippine Stock Exchange, or PSE. On October 19, 1994, an American Depositary Receipt, or ADR, facility was established, pursuant to which Citibank N.A., as the depository, issued ADRs evidencing American Depositary Shares, or ADSs, with each ADS representing one PLDT common share with a par value of Php5 per share. Effective February 10, 2003, PLDT appointed JP Morgan Chase Bank as successor depository for PLDT's ADR facility. The ADSs are listed on the New York Stock Exchange, or NYSE, in the United States and are traded on the NYSE under the symbol "PHI". As at December 31, 2006, there were a total of over 37 million ADSs outstanding.

Until recently, the ADSs were also listed on the NYSE Arca. However, on December 18, 2006, PLDT issued a notice of its intent to voluntarily delist its ADSs from NYSE Arca, after determining that doing so is in the best interest of PLDT and its stockholders as it would eliminate the duplicative administrative burdens and costs inherent in dual listing on both the NYSE and NYSE Arca. The actual delisting from the NYSE Arca became effective on February 12, 2007.

PLDT operates under the jurisdiction of the Philippine National Telecommunications Commission, or NTC, which jurisdiction extends, among other things, to approving major services offered by PLDT and certain rates charged by PLDT.

Our registered office address is Ramon Cojuangco Building, Makati Avenue, Makati City , Philippines.

2. Summary of Significant Accounting Policies and Practices

Basis of Preparation

Our unaudited consolidated financial statements have been prepared under the historical cost convention as modified by the revaluation of derivative financial instruments, available-for-sale financial assets and investment properties that have been measured at fair values. The carrying values of recognized assets and liabilities that are hedged items in fair value hedges, and are otherwise carried at cost, are adjusted to record changes in the fair values attributable to the risks that are being hedged.

Our unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the Philippines as set forth under Philippine Financial Reporting Standards, or PFRS.

Our unaudited consolidated financial statements include, in our opinion, adjustments consisting only of normal recurring adjustments, necessary to present fairly the results of operations for the interim periods. The results of operations for the six months ended June 30, 2007 are not necessarily indicative of the results of operations that may be expected for the full year.

Our unaudited consolidated financial statements are presented in Philippine pesos, PLDT's functional and presentation currency and all values are rounded to the nearest million except when otherwise indicated.

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except that we have adopted the following new and amendments to Philippine Accounting Standards, or PAS, PFRS and Philippine Interpretations of International Financial Reporting Interpretations Committee, or IFRIC, during the year. Our adoption of these new and revised standards and interpretations did not have any effect on our financial statements. Our adoption, however, gave rise to additional disclosures on the following:

- IFRIC 7 Applying the Restatement Approach under PAS 29, Financial Reporting in Hyperinflationary Economies;
- IFRIC 8 Scope of PFRS 2, Share-based Payment;
- IFRIC 9 Reassessment of Embedded Derivatives;
- IFRIC 10 Interim Financial Reporting and Impairment;
- IFRIC 11 IFRS 2, Group and Treasury Share Transactions;
- PAS 1 Amendments Presentation of Financial Statements Capital Disclosures; and
- PFRS 7 Financial Instruments - Disclosures.

The principal effects of our adoption of the above standards are as follows:

IFRIC 7, Applying the Restatement Approach under PAS 29, Financial Reporting in Hyperinflationary Economies . The Interpretation requires that when a country becomes hyperinflationary, PAS 29 must be applied as if the country had always been hyperinflationary and it provides guidance on calculating deferred taxes and comparatives. As we do not operate in a hyperinflationary economy, this standard has had no impact on our unaudited consolidated financial statements.

IFRIC 8, Scope of PFRS 2, Share-based Payment . The Interpretation clarifies that *PFRS 2, Share-based Payment* , applies to share-based payment transactions in which the entity cannot specifically identify some or all of the goods or services received. If the value of the identifiable consideration received (if any) appears to be less than the fair value of the equity instruments granted or the liability incurred, this is an indication of other consideration (i.e., unidentifiable goods or services) has been (or will be) received which should be measured in accordance with PFRS 2. The adoption has had no significant impact on our unaudited consolidated financial statements as at June 30, 2007.

IFRIC 9, *Reassessment of Embedded Derivatives* . The Interpretation clarifies when an entity should reassess whether an embedded derivative needs to be separated from the host contract after the initial hybrid contract is recognized. It concludes that reassessment is prohibited unless there is a change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract, in which case reassessment is required. The adoption has had no significant impact on our unaudited consolidated financial statements as at June 30, 2007.

IFRIC 10, *Interim Financial Reporting and Impairment* . The Interpretations states that any such impairment losses recognized in an interim financial statement must not be reversed in subsequent interim or annual financial statements. The adoption has had no significant impact on our unaudited consolidated financial statements as at June 30, 2007.

IFRIC 11, *IFRS 2, Group and Treasury Share Transactions* . This Interpretation addresses issues whether transactions should be accounted for as equity-settled or as cash-settled under PFRS 2 and issues the concerning share-based payment arrangement involving entities within the same group. The adoption has had no significant impact on our unaudited consolidated financial statements as at June 30, 2007.

The Amendments to PAS 1, *Presentation of Financial Statements - Capital Disclosures* . This amendment requires us to include new disclosures to enable users of the financial statements to evaluate our objectives, policies and processes for managing capital. The adoption has had no significant impact on our unaudited consolidated financial statements as at June 30, 2007 except for additional disclosures as required by the standard.

PFRS 7, *Financial Instruments - Disclosures* . This introduces new disclosures to improve information about our consolidated financial statements and the nature and extent of risks arising from financial instruments. The revised disclosures on financial instruments provided by this standard are included on our unaudited consolidated financial statements.

Basis of Consolidation

Our unaudited consolidated financial statements include the financial statements of PLDT and those of the following significant subsidiaries (collectively, the PLDT Group).

Name of Subsidiary	Place of Incorporation	Principal Activity	Percentage of Ownership	
			Direct	Indirect

Wireless

Smart	Philippines	Cellular mobile services	100.0	
Smart Broadband, Inc., or Smart Broadband	Philippines	Internet broadband and distributor		100.0
Wolfpac Mobile, Inc., or Wolfpac	Philippines	Mobile applications developer and service provider		100.0
Pilipino Telephone Corporation, or Piltel	Philippines	Providing cellular and fixed line services		92.1
Telesat, Inc., or Telesat	Philippines	Satellite communications services	100.0	
ACeS Philippines Cellular Satellite Corporation, or ACeS Philippines	Philippines	Satellite phone services	88.5	11.5
Mabuhay Satellite Corporation, or Mabuhay Satellite	Philippines	Satellite communications services	67.0	

Fixed Line

PLDT Clark Telecom, Inc., or ClarkTel	Philippines	Telecommunications services	100.0	
Subic Telecommunications Company, Inc., or SubicTel	Philippines	Telecommunications services	100.0	
PLDT Global Corporation, or PLDT Global	British Virgin Islands	Telecommunications services	100.0	
Smart-NTT Multimedia, Inc., or SNMI	Philippines	Data and network services	100.0	
PLDT-Maratel, Inc., or Maratel	Philippines	Telecommunications services	97.5	
Bonifacio Communications Corporation, or BCC	Philippines	Telecommunications, infrastructure and related value-added services	75.0	

Information and Communications Technology

ePLDT, Inc., or ePLDT	Philippines	Information and communications infrastructure for internet-based services, e-commerce, call centers and IT-related services	100.0	
Vocativ Systems, Inc., or Vocativ	Philippines	Call center services		100.0
Parlance Systems, Inc., or Parlance	Philippines	Call center services		100.0
ePLDT Ventus, Inc., or Ventus	Philippines	Call center services		100.0
SPi Technologies, Inc., or SPi, and Subsidiaries	Philippines	Business process outsourcing, or BPO, services		100.0
Infocom Technologies, Inc., or Infocom	Philippines	Internet services		99.6
netGames, Inc., or netGames	Philippines	Publisher of online games		80.0
Digital Paradise, Inc., or Digital Paradise, (formerly Netopia Computer Technologies, Inc.)	Philippines	Internet access services		75.0
Level Up! (Philippines), Inc., or Level Up!	Philippines	Publisher of online games		60.0
Digital Paradise Thailand	Thailand	Internet access services		51.0
Airborne Access Corporation, or Airborne Access	Philippines	Wireless internet services		51.0

Subsidiaries are consolidated from the date when control is transferred to the PLDT Group and cease to be consolidated from the date when control is transferred out of the PLDT Group.

We prepare our unaudited consolidated financial statements using uniform accounting policies for like transactions and other events with similar circumstances. Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated.

Minority interests represent the equity interests in Piltel, Level Up!, Mabuhay Satellite, Maratel, BCC, Digital Paradise, Digital Paradise Thailand, netGames, Infocom, and Airborne Access, not held by the PLDT Group.

ePLDT's Acquisition of SPi

On July 11, 2006, ePLDT acquired a 100% equity interest in SPi and its direct and indirect Philippine and offshore subsidiaries for a total cash consideration of US\$135 million. As part of the transaction, ePLDT also acquired a US\$7 million debt owed by SPi to the seller at face value. In addition, ePLDT advanced US\$16 million to SPi in order for SPi to fully pay its debt owed to DBS Bank Singapore. ePLDT currently intends to have this debt refinanced by SPi in due course.

SPi's Acquisition of CyMed, Inc., or CyMed

On August 11, 2006, SPi in turn acquired a 100% equity interest in CyMed for an aggregate purchase price of US\$35 million, inclusive of certain debt obligations. CyMed is a leading medical transcription company based in Richmond, Virginia, United States of America (USA). It provides medical transcription services and technology products through proprietary processes based on Six Sigma quality management principles.

SPi's Acquisition of Springfield Service Corporation, or Springfield

On April 16, 2007, SPi acquired, through a wholly-owned US subsidiary, 100% of Springfield for an aggregate purchase price of US\$35 million, or Php1,664 million, plus possible future earn-out payments with an aggregate fair value at acquisition date of Php962 million. Springfield is one of the largest player in the medical billing and revenue cycle management market. As at June 30, 2007, SPi's total investment cost in Springfield amounted to Php2,685 million, including fair value of possible future earn-out payments of Php960 million and incidental cost of Php59 million, see *Note 11 Goodwill and Intangible Assets* for related discussion.

Piltel's Equity Restructuring

On April 20, 2007, the Philippine Securities and Exchange Commission, or Philippine SEC, approved Piltel's request to undergo equity restructuring to eliminate its deficit as at December 31, 2006 amounting to Php22,251 million against its additional paid-in capital. The equity restructuring was approved by Piltel's Board of Directors on March 5, 2007.

Investments in Associates

Investment in associates is accounted for using the equity method of accounting. An associate is an entity in which we have significant influence and which is neither a subsidiary nor a joint venture.

Under the equity method, the investment in associate is carried in the balance sheet at cost plus post acquisition changes in our share of net assets of the associate. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortized. Our unaudited consolidated statement of income reflects the share of the results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, we recognize our share in any change and disclose this, when applicable, in our audited consolidated statements of changes in equity. Profits and losses resulting from our transactions with and among our associates are eliminated to the extent of the interest in the associate.

Our reporting dates and that of our associates are identical and our associate's accounting policies conform to those used by us for like transactions and events in similar circumstances.

Foreign Currency Translations

The functional and presentation currency of the PLDT Group (except for Mabuhay Satellite, PLDT Global, Digital Paradise Thailand and SPi and certain of its subsidiaries) is the Philippine peso. Transactions in foreign currencies are initially recorded in the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange prevailing at the balance sheet date. All differences are recognized in the consolidated statement of income except for foreign exchange losses that qualify as capitalizable borrowing costs during the construction period. For income tax purposes, exchange gains or losses are treated as taxable income or deductible expenses in the period such exchange gains or losses are realized.

The functional currency of Mabuhay Satellite, PLDT Global, SPi and certain of its subsidiaries is the U.S. dollar and Digital Paradise Thailand is the Thai baht. As at the reporting date, the assets and liabilities of these subsidiaries are translated into the reporting currency of the PLDT Group at the rate of exchange prevailing at the balance sheet date, and income and expenses of these subsidiaries are translated at the weighted average exchange rate for the period. The exchange differences arising on translation are taken directly to a separate component of equity as cumulative translation adjustments. On disposal of these subsidiaries, the amount of the cumulative translation adjustments recognized in equity relating to subsidiaries are recognized in the consolidated statement of income.

Property, Plant and Equipment

Property, plant and equipment, except for land, are stated at cost less accumulated depreciation and amortization and any impairment in value. Land is stated at cost less any impairment in value.

The initial cost of property, plant and equipment comprises its purchase price and any costs directly attributable in bringing the asset to its working condition and location for its intended use. Expenditures incurred after the assets have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to income in the period the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property, plant and equipment. Cost also includes asset retirement obligation, interest on borrowed funds used during the construction period and qualified borrowing costs from foreign exchange losses related to foreign currency-denominated liabilities used to acquire such qualifying assets. When assets are sold or retired, their costs and accumulated depreciation, amortization and impairment losses, if any, are eliminated from the accounts and any gain or loss resulting from their disposal is included in the consolidated statement of income of such period.

Depreciation and amortization are calculated on a straight-line basis over the estimated useful lives of the assets.

The useful lives and depreciation and amortization method are reviewed periodically to ensure that the periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property, plant and equipment.

Property under construction is stated at cost. This includes cost of construction, plant and equipment and other direct costs. Property under construction is not depreciated until such time that the relevant assets are completed and substantially available for their intended use.

Borrowing Costs

Borrowing costs are capitalized if they are directly attributable to the acquisition, construction or production of a qualifying asset. Capitalization of borrowing costs commences when the activities for intended use are in progress and expenditures and borrowing costs are being incurred. Borrowing costs are capitalized until the assets are ready for their intended use. If the resulting carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized. Borrowing costs include interest charges and other costs incurred in connection with the borrowing of funds, as well as exchange differences arising from foreign currency borrowings used to finance these projects to the extent that they are regarded as an adjustment to interest cost.

All other borrowing costs are expensed as incurred.

Borrowing costs are treated as deductible expenses for income tax reporting purposes in the period they are incurred or realized.

Asset Retirement Obligations

We are legally required under various lease agreements to dismantle the installations on leased sites and restore such sites to their original condition at the end of the lease contract term. We recognized the fair value of the liability for these obligations and capitalized the present value of these costs as part of the balance of the related property and equipment accounts, which are being depreciated on a straight-line basis over the useful lives of the related assets or the contract periods, whichever is shorter.

Investment Properties

Investment properties are initially measured at cost including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance sheet date. Gains or losses arising from changes in the fair values of investment properties are included in the consolidated statement of income in the period in which they arise.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gain and loss on the retirement or disposal of an investment property is recognized in the consolidated statement of income in the period of retirement or disposal.

Business Combinations and Goodwill

Business combinations are accounted for using the purchase method of accounting. This involves recognizing identifiable assets (including previously unrecognized intangible assets) and liabilities (including contingent liabilities and excluding future restructuring) of our acquired business at fair value.

Goodwill acquired in a business combination is initially measured at cost, such cost, being the excess of the cost of the business combination over our interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of our cash generating units, or groups of our cash generating units, that are expected to benefit from the synergies of the combination, irrespective of whether our other assets or liabilities are assigned to those units or groups of units. Each unit or group of units to which the goodwill is allocated: (1) represents our lowest level at which the goodwill is monitored for internal management purposes; and (2) is not larger than a segment based on either our primary or secondary reporting format determined in accordance with *PAS 14, Segment Reporting*.

Where goodwill forms part of a cash-generating unit (group of cash generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

When subsidiaries are sold, the difference between the selling price and the net assets plus cumulative translation differences and unamortized goodwill is recognized in the consolidated statement of income.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired from business combinations is initially recognized at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment loss. The useful lives of intangible assets are assessed at the individual asset level as having either a finite or indefinite life.

Intangible assets with finite lives are amortized over the useful economic life using the straight-line method and assessed for impairment whenever there is an indication that the intangible assets may be impaired. At a minimum, the amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at each financial period end. Changes in the expected useful life or the expected pattern of consumption of future economic

benefits embodied in the asset are accounted for by changing the amortization period, as appropriate, and treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of income in the expense category consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortized. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of income when the asset is derecognized.

Intangible assets created within the business are not capitalized and expenditure is charged against operations in the period in which the expenditure is incurred.

Impairment of Non-Financial Assets

We assess at each reporting period whether there is an indication that an asset may be impaired. If any such indication exists, or when the annual impairment testing for an asset is required, we make an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher between an asset's or cash-generating unit's fair value less costs to sell or its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent from those of other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining the fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognized in the consolidated statement of income in those expense categories consistent with the function of the impaired asset, except for property previously revalued where the revaluation was taken to equity. In this case, the impairment is also recognized in equity up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, we make an estimate of recoverable amount. A previously recognized impairment loss is reversed only if there has been a

change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If this is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior periods. Such reversal is recognized in the consolidated statement of income. After such a reversal, the depreciation charged is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

The following criteria are also applied in assessing impairment of specific assets:

Goodwill

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of the cash-generating unit (or group of cash-generating units), to which the goodwill relates. Where the recoverable amount of the cash-generating unit (or group of cash-generating units) is less than the carrying amount of the cash-generating unit (group of cash-generating units) to which goodwill has been allocated, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible Assets

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash generating unit level, as appropriate.

Investments in Associates

After application of the equity method, we determine whether it is necessary to recognize an additional impairment loss of our investment in associates. We determine at each balance sheet date whether there is any objective evidence that our investment in an associate is impaired. If this is the case, we calculate the amount of impairment as being the difference between the fair value of the investment in associate and the carrying amount and recognize the amount in the consolidated statement of income.

Research and Development Costs

Research and development costs are expensed as incurred.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from the date of acquisition and that are subject to an insignificant risk of change in value.

Trade and Other Receivables

Trade and other receivables are stated at face value, net of an allowance for any doubtful accounts.

Allowance for Doubtful Accounts

The PLDT Group's accounting policy in evaluating any impairment of receivable is discussed under impairment of financial assets section of this Note. Consequently, allowance for doubtful accounts is maintained at a level considered adequate to provide for uncollectible receivables. The level of allowance is based on historical collections, write-off experience, current economic trends, changes in our customer payment terms and other factors that may affect our ability to collect payments. An evaluation of the receivables, designed to identify potential charges to the allowance, is performed on a continuous basis during the period.

Subscribers. Full allowance is provided for receivables from permanently disconnected subscribers. Permanent disconnections are made after a series of collection steps following non-payment by subscribers. Such permanent disconnections generally occur within 105 days from the date of payment was due. Partial allowance is provided for active subscribers based on the historical loss experience and aging profile of the receivable.

Traffic settlement receivables - net. Full allowance is provided for carrier accounts which are considered over-due and after a review of the status of settlement with other carriers.

Inventories and Supplies

Inventories and supplies which include, among other things, cellular phone units, materials, spare parts, terminal units and accessories, are valued at the lower of cost and net realizable value.

Cost is determined using the moving average method. Net realizable value is the estimated selling price in the ordinary course of the business less the estimated cost to sell.

Interest-bearing Financial Liabilities

All loans and borrowings are initially recognized at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method.

Gains and losses are recognized in the consolidated statement of income when the liabilities are derecognized as well as through the amortization process.

Convertible Preferred Stock

Peso-denominated

The component of our convertible preferred stock that exhibits characteristics of a liability is recognized as a liability in the consolidated balance sheet, net of transaction costs. The corresponding dividends on those shares are charged as interest expense in the consolidated statement of income. On issuance of our convertible preferred stock, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond and this amount is carried as a long-term liability on the amortized cost basis until extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognized and included in the equity section of the consolidated balance sheet, net of transaction costs. The carrying amount of the conversion option is not

re-measured in subsequent periods.

Transaction costs are apportioned between the liability and equity components of the convertible preferred stock based on the allocation of proceeds to the liability and equity components when the instruments are first recognized.

Foreign currency-denominated

We treated the Series VI and VII Convertible Preferred Stock as debt instruments with embedded call options. The fair value of embedded call options as of issuance date was bifurcated and thereafter accounted for separately at fair value through profit and loss. The residual amount was assigned as a liability component and accreted to the redemption amount up to the call option date using the effective interest rate method.

Provisions

We recognize provisions when we have present obligations, legal or constructive, as a result of past events, and when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where we expect some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of income, net of any reimbursements. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as additional provisions.

Retirement Benefits

Defined Benefit Pension

We have funded retirement plans, administered by our respective Fund's Trustees, covering permanent employees. Retirement costs are actuarially determined using the projected unit credit of accrued benefit valuation method. This method reflects services rendered by employees to the date of valuation and incorporates assumptions concerning employees' projected salaries. Retirement costs include current service cost plus amortization of past service cost, experience adjustments and changes in actuarial assumptions. Past service cost is recognized as an expense on a straight-line basis over the average period until the benefits become vested. If the benefits are already vested immediately following the introduction of, or changes to, a pension plan, past service cost is recognized immediately. Actuarial gains and losses are recognized as income or expense when the net cumulative unrecognized actuarial gains

and losses at the end of the previous reporting period exceeded 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. These gains and losses are recognized over the expected average remaining working lives of the employees participating in the plan.

The defined benefit asset or liability comprises the present value of the defined benefit obligation less past service cost not yet recognized and less the fair value of plan assets out of which the obligations are to be settled directly. The value of any asset is restricted to the sum of any past service cost not yet recognized and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan.

Upon our adoption of *PAS 19, Employee Benefits*, in 2004, we opted to amortize our transition liabilities for the three years until December 31, 2006, see *Note 21 Employee Benefits*.

Defined Contribution Plans

Smart and I-Contacts, Inc., or I-Contacts, record expenses for defined contribution plans for their contribution when the employee renders service to Smart and I-Contacts, respectively, essentially coinciding with their cash contributions to the plans.

Share-Based Payment Transactions

Certain of our employees (including directors) receive remuneration in the form of share-based payment transactions, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions with employees is measured by reference to the fair value of the stock options at the date at which they are granted. Fair value is determined using an option-pricing model, further details of which are set forth in *Note 21 Employee Benefits*. In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of PLDT (market conditions).

The cost of equity-settled transactions is recognized, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (vesting date). The cumulative expense recognized for equity-settled transactions at each

reporting date until the vesting date reflects the extent to which the vesting period has expired and the number of awards that will ultimately vest, in the opinion of PLDT's Board of Directors, at that date, based on the best available estimate.

No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

Where the terms of an equity-settled award are modified, an expense, at a minimum, is recognized as if the terms had not been modified. An expense is recognized for any increase in the value of the transactions as a result of the modification, as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were modifications of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share, see *Note 7 Earnings Per Common Share*.

Cash-settled transactions

Our Long-Term Incentive Plan, or LTIP, grants share appreciation rights, or SARs, to our eligible key executives and advisors. Under the LTIP, we recognize the services we receive from our eligible key executives and advisors, and our liability to pay for those services, as the eligible key executives and advisors render services during the vesting period. We measure our liability, initially and at each reporting date until settled, at the fair value of the SARs, by applying an option valuation model, taking into account the terms and conditions on which the SARs were granted, and the extent to which the eligible key executives and advisors have rendered service to date. We recognize any changes in fair value at each reporting date until settled, in the consolidated statement of income for the period.

Leases

The determination of whether an arrangement contains a lease is based on the substance of the arrangement at the inception date of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset. A reassessment is made after the inception date of the lease only if the

following criteria apply: (1) there is a change in the contractual terms, other than a renewal or extension of the arrangement; (2) a renewal option is exercised or an extension is granted, unless the term of the renewal or extension was initially included in the lease term; (3) there is a change in the determination of whether fulfillment is dependent on a specified asset; or (4) there is a substantial change to the asset.

Where a reassessment is made, lease accounting commences or ceases, as the case may be, from the date when the change in circumstances gives rise to the reassessment for scenarios (1), (3) or (4) and at the date of renewal or extension period for scenario (2).

For arrangements entered into prior to January 1, 2005, the date of inception is deemed to be January 1, 2005 in accordance with the transitional requirements of *IFRIC 4, Determining Whether an Arrangement Contains a Lease* .

Lease obligations having provisions for bargain purchase options, or ownership transfer at the end of the lease term, or a lease term equal to 75% or more of the estimated economic life of the leased property, or lease obligations where the present value at the beginning of the lease term of the minimum lease payments (excluding executory costs and taxes to be paid or paid by the lessor and including any profit thereon) equals or exceeds 90% of the fair value of the leased property, are capitalized. The related obligations are recognized as liabilities at fair value. Minimum lease payments are allocated between the finance charges and reduction of the lease liability so as to achieve a constant periodic rate of interest on the remaining balance of the liability.

A capital lease gives rise to a depreciation expense for the asset, as well as a borrowing cost for each period. Finance charges are charged directly to current operations. The depreciation policy for leased assets is consistent with that for depreciable assets that are owned.

Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term, if there is no reasonable certainty that we will obtain ownership of the leased asset at the end of the lease term.

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are deferred and amortized on a straight-line method over the lease term on the same bases as the lease income. Operating lease payments are recognized as an expense in the consolidated statement of income on a straight-line basis over the lease term. For income tax reporting purposes, expenses that should have been incurred under a lease agreement are considered as deductible expenses.

Revenue Recognition

Revenues for services are stated at amounts invoiced to customers, net of value-added tax, or VAT, or overseas communication tax, or OCT, if applicable. We provide wireless communication, fixed line communication, and information and communications technology services. We provide such services to mobile, business, residential and payphone customers. Revenues represent the value of fixed consideration that have been received or are receivable. Revenues are recognized when there is evidence of an arrangement, collectibility is reasonably assured, and the delivery of the product or service has occurred. In certain circumstances, revenue is split into separately identifiable components and recognized when the related components are delivered in order to reflect the substance of the transactions. The value of components is determined using verifiable objective evidence. Under certain arrangements where the above criteria are met, but there is uncertainty regarding the outcome of the transaction for which service was rendered, revenue is recognized only to the extent of expenses incurred for rendering the service, and such amount is determined to be recoverable. We do not provide our customers with the right to a refund.

Service revenues

Subscriptions

We provide telephone and data communication services under prepaid and postpaid payment arrangements. Revenues, including fees for installation and activation, are accrued upon subscription.

Air time, traffic and value-added services

Prepaid service revenues collected in advance are deferred and recognized based on the earlier of actual usage or upon expiration of the usage period. Interconnection revenues for call termination, call transit, and network usage are recognized in the period the traffic occurs. Revenues related to local, long distance, network-to-network, roaming and international call connection services are recognized when the call is placed or connection is provided, net of amounts payable to other telecommunication carriers for terminating calls in their territories. Revenues related to products and value-added services are recognized upon delivery of the product or service.

Business Process Outsourcing, or BPO

Where applicable, supplemental revenues are recognized depending on service levels or achievement of certain performance measurement targets. We recognize these supplemental revenues only after it has achieved the required measurement targets. When these service levels or performance measurement targets are not achieved, we grant service credits as a reduction in fees. Advance customer receipts that have not been recognized as revenue in accordance with its stated policies are recorded as advances from customers and presented as a liability in the consolidated balance sheet. If the fee is not fixed or determinable, revenue is not recognized on those arrangements until the customer payment is received. For arrangements requiring specific customer acceptance, revenue recognition

is deferred until the earlier of the end of the deemed acceptance period or until a written notice of acceptance is received from the customer. Revenue on services rendered to customers whose ability to pay is in doubt at the time of performance of services is also not recorded. Rather, revenue is recognized from these customers as payment is received.

Incentives

We record insignificant commission expenses based on the number of new subscriber connections initiated by certain dealers. All other cash incentives provided to dealers and customers are recorded as a reduction of revenue. Product-based incentives provided to dealers and customers as part of a transaction are accounted for as multiple element arrangements and recognized when earned.

Non-service revenues

Handset and equipment sales

Sales of cellular handsets and communication equipment are recognized upon delivery to the customer.

Interest income

Interest income is recognized as it accrues on a time proportion basis taking into account the principal amount outstanding and the effective interest rate.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the balance sheet date.

Deferred income tax

Deferred income tax is provided using the balance sheet liability method on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences except: (1) when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and (2) with respect to taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is possible that the temporary differences will not reverse in the foreseeable future. Deferred income tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits from excess minimum corporate income tax, or MCIT, and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carryforward of unused tax credits and unused tax losses can be utilized except: (1) when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and (2) with respect to deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred income tax liabilities are not provided on non-taxable temporary differences associated with investments in domestic subsidiaries and associates. With respect to investments in other subsidiaries and associates, deferred tax liabilities are recognized except when the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets are reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred income tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted as at the balance sheet date.

Income tax relating to items recognized directly in equity is included in the related equity account and not in the consolidated statement of income.

Deferred income tax assets and liabilities are offset, if a legally enforceable right exists to offset deferred income tax assets against deferred income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Earnings Per Common Share, or EPS

Basic EPS is calculated by dividing the consolidated net income for the period attributable to common shareholders (consolidated net income adjusted for dividends on all series of preferred shares except for dividends on preferred stock subject to mandatory redemption) by the weighted average number of common shares outstanding during the period, after giving retroactive effect to any stock dividend declarations.

Diluted EPS is calculated in the same manner assuming that, at the beginning of the period or at the time of issuance during the period, all outstanding options are exercised and convertible preferred shares are converted to common shares, and appropriate adjustments to consolidated net income are effected for the related expenses and income on preferred shares. Outstanding stock options will have a dilutive effect under the treasury stock method only when the average market price of the underlying common share during the period exceeds the exercise price of the option.

Where the effect of the assumed conversion of the preferred shares and the exercise of all outstanding options have an anti-dilutive effect, basic and diluted EPS are stated at the same amount.

If the required dividends to be declared on each series of convertible preferred shares divided by the number of equivalent common shares, assuming such convertible preferred shares are converted to common shares, would decrease the basic EPS, then such convertible preferred shares would be deemed dilutive. As such, the diluted EPS will be calculated by dividing consolidated net income attributable to common shareholders (consolidated net income, adding back any dividends and/or other charges recognized in the period related to the dilutive convertible preferred shares classified as liability, less dividends on non-dilutive preferred shares except for dividends on preferred stock subject to mandatory redemption) by the weighted average number of common shares including the common share equivalent arising from the conversion of the dilutive convertible preferred shares.

Investments and Other Financial Assets and Liabilities

Financial assets and liabilities within the scope of *PAS 39, Financial Instruments: Recognition and Measurement*, are classified as either financial assets and liabilities at fair value through profit or loss, loans and receivables, held-to-maturity investments, and available-for-sale financial assets, as appropriate. We determine the classification of our financial assets and liabilities after initial recognition and, where allowed and appropriate, re-evaluates this designation at each balance sheet date. When financial assets and liabilities are recognized initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable to transaction costs. The fair value of investments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business on the balance sheet date. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument which is substantially the same; discounted cash flow analysis or other valuation models.

All regular way purchases and sales of financial assets are recognized on the trade date, which is the date that we commit to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets with the period generally established by regulation or convention in the market place.

Financial assets and liabilities at fair value through profit or loss

Financial assets and liabilities at fair value through profit or loss includes financial assets and liabilities held for trading and financial assets and liabilities designated upon initial recognition as at fair value through profit and loss.

Financial assets and liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments or a financial guarantee contract. Gains or losses on investments or liabilities held for trading are recognized in profit and loss.

Where a contract contains one or more embedded derivatives, the entire hybrid contract may be designated as a financial asset and financial liability at fair value through profit or loss, except where the embedded derivative does not significantly modify the cash flows or it is clear that separation of the embedded derivative is prohibited.

Financial assets and liabilities may be designated at initial recognition as at fair value through profit or loss if the following criteria are met: (i) the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets and liabilities or recognizing gains or losses on them on a different basis; or (ii) the assets and liabilities are part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management strategy; or (iii) the financial assets and liabilities contains an embedded derivative that would need to be separately recorded.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets which carry fixed or determinable payments and fixed maturities and which we have the positive intention and ability to hold to maturity. After initial measurement held-to-maturity, investments are measured at amortized cost. This cost is computed as the amount initially recognized minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initially recognized amount and the maturity amount, less allowance for impairment. This calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate method, transaction costs and all other premiums and discounts. Gains and losses are recognized in the consolidated statement of income when the investments are derecognized or impaired, as well as through the amortization process.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, loans and receivables are subsequently carried at amortized cost using the effective interest rate method less any allowance for impairment. Amortized cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate method and transaction costs. Gains and losses are recognized in the consolidated statement of income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Available-for-sale financial investments

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three preceding categories. After initial measurement, available-for-sale financial assets are measured at fair value with unrealized gain or loss being recognized directly in equity in the cumulative translation adjustments except when the financial asset is impaired. When the investment is disposed of, the cumulative gain or loss previously recorded in equity is recognized in the consolidated statement of income. Interest earned or paid on the investments is reported as interest income or expense using the effective interest rate method. Dividends earned on investments are recognized in the consolidated statement of income when the right of payment has been established.

We consider whether a contract contains an embedded derivative, when the entity first becomes a party to it. The embedded derivatives are separated from the host contract which is not measured at fair value through profit or loss when the analysis shows that the economic characteristics and risks of embedded derivatives are not closely related to those of the host contract.

Impairment of Financial Assets

We assess at each balance sheet date whether a financial asset or group of financial assets is impaired.

Assets carried at amortized cost

If there is objective evidence that an impairment loss on loans and receivables carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through an allowance account. The amount of the loss is recognized in the consolidated statement of income.

We first assess whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the consolidated statement of income, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

In relation to trade receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that we will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through an allowance account. Impaired debts are derecognized when they are assessed as uncollectible.

Available-for-sale financial investments

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortization) and its current fair value, less any impairment loss previously recognized in the consolidated statement of income, is transferred from equity to the consolidated statement of income. Reversals in respect of equity instruments classified as available-for-sale are not recognized in the consolidated statement of income. Reversals of impairment losses on debt instruments are reversed through the consolidated statement of

income, if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statement of income.

Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when: (1) the rights to receive cash flows from the asset have expired; (2) we retain the right to receive cash flows from the asset, but have assumed an obligation to pay them in full without material delay to a third party under a pass through arrangement; or (3) we have transferred our right to receive cash flows from the asset and either (a) have transferred substantially all the risks and rewards of the asset, or (b) have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

Where we have transferred our right to receive cash flows from an asset and have neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of our continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that we could be required to repay.

Where continuing involvement takes the form of a written and/or purchased option (including a cash-settled option or similar provision) on the transferred asset, the extent of our continuing involvement is the amount of the transferred asset that we may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of our continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of income.

Derivative Financial Instruments and Hedging

We use derivative financial instruments such as long-term currency swaps, foreign-currency options, forward currency contracts and interest rate swaps to hedge our risks associated with interest rate and foreign currency fluctuations. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value on derivatives during the period that do not qualify for hedge accounting are taken directly to the consolidated statement of income.

The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. The fair value of long-term currency swaps, foreign currency options and interest rate swap contracts is determined by reference to market values for similar instruments.

For the purpose of hedge accounting, hedges are classified as: (1) fair value hedges when hedging the exposure to changes in the fair value of a recognized financial asset or liability or an unrecognized firm commitment (except for foreign-currency risk); or (2) cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized financial asset or liability or a highly probable forecast transaction or the foreign-currency risk in an unrecognized firm commitment; or (3) hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, we formally designate and document the hedge relationship to which we wish to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an on-going basis to determine that they actually have been highly effective throughout the financial reporting periods for which they are designated.

Hedges which meet the strict criteria for hedge accounting are accounted for as follows:

Fair value hedges

The change in the fair value of a hedging derivative is recognized in the consolidated statement of income. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the consolidated statement of income.

For fair value hedges relating to items carried at amortized cost, the adjustment to carrying value is amortized through the consolidated statement of income over the remaining term to maturity. Any adjustment to the carrying amount of a hedged financial instrument for which the effective interest rate method is used is amortized through the consolidated statement of income.

Amortization may begin as soon as an adjustment exists, beginning no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to the risk being hedged.

If the hedge item is derecognized, the unamortized fair value is recognized immediately in the consolidated statement of income.

When an unrecognized firm commitment is designated as a hedged item, the subsequent cumulative change in the fair value of the firm commitment attributable to the hedged risk is recognized as financial asset or liability with a corresponding gain or loss recognized in the consolidated statement of income. The changes in the fair value of the hedging instrument are also recognized in the consolidated statement of income.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognized directly in equity, while any ineffective portion is recognized immediately in the consolidated statement of income.

Amounts taken to equity are transferred to the consolidated statement of income when the hedged transaction affects the consolidated statement of income, such as when the hedged financial income or financial expense is recognized or when a forecast sale occurs. Where the hedged item is the cost of a non-financial asset or non-financial liability, the amounts taken to equity are transferred to the initial carrying amount of the non-financial asset or liability.

If the forecast transaction or firm commitment is no longer expected to occur, amounts previously recognized in equity are transferred to the consolidated statement of income. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, amounts previously

recognized in equity remain in equity until the forecast transaction or firm commitment occurs.

Hedges of a net investment

Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Gains or losses on the hedging instrument relating to the effective portion of the hedge are recognized directly in equity while any gains or losses relating to the ineffective portion are recognized in the consolidated statement of income. On disposal of the foreign operation, the cumulative value of any such gains or losses recognized directly in equity is transferred to the consolidated statement of income.

New Accounting Standards Subsequent to June 2007

Following are the new PFRS and IFRIC, which will be effective subsequent to June 30, 2007:

IFRIC 12, Service Concession Arrangements . This will become effective on January 1, 2008. This interpretation, which covers contractual arrangements arising from entities providing public services, is not relevant to our current operations.

PFRS 8, Operating Segments . The standard is effective beginning January 1, 2009 and will replace *PAS 14, Segment Reporting* , and adopts a management approach to reporting segment information. The requirements of this standard will be included on our consolidated financial statements when the standard is adopted.

We expect that the adoption of the pronouncements listed above will have no significant impact on our consolidated financial statements in the period of our initial application.

3. Management's Use of Estimates and Judgments

The preparation of our unaudited consolidated financial statements in conformity with PFRS requires us to make estimates and assumptions that affect the reported amounts of our assets and liabilities and disclosure of contingent assets and liabilities at the date of our unaudited consolidated financial statements, and the reported amounts of revenues and expenses during the period reported and related notes. In preparing our unaudited consolidated financial statements, we have made our best estimates and judgments of certain amounts, giving due consideration to materiality. We believe the following represents a summary of these significant estimates and judgments and related impacts and associated risks to our unaudited consolidated financial statements.

Estimating useful lives of property, plant and equipment

We estimate the useful lives of our property, plant and equipment based on the periods over which our assets are expected to be available for use. Our estimation of the useful lives of our property, plant and equipment is based on our collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful lives of our property, plant and equipment are reviewed at least annually and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limitations on the use of our assets. It is possible, however, that future results of operations could be materially affected by changes in our estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of our property, plant and equipment would increase our recorded operating expenses and decrease our noncurrent assets.

Total carrying values of property, plant and equipment amounted to Php160,735 million and Php164,190 million as at June 30, 2007 and December 31, 2006, respectively, see *Note 8 Property, Plant and Equipment*.

Goodwill and intangible assets

Purchase accounting requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities at the acquisition date. It also requires the acquiree to recognize goodwill. Our business acquisitions have resulted in goodwill and intangible assets, which are subject to periodic impairment test and amortization, respectively, see *Note 11 Goodwill and Intangible Assets*.

Total carrying values of goodwill and intangible assets as at June 30, 2007 and December 31, 2006 amounted to Php14,096 million and Php12,214 million, respectively. We have no impairment losses recognized for the six months ended June 30, 2007 and 2006.

Asset impairment

PFRS requires that an impairment review be performed when certain impairment indicators are present. In the case of goodwill, at a minimum, such asset is subject to a yearly impairment test and whenever there is an indication that such asset may be impaired. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires us to make an estimate of the expected future cash flows from the cash-generating unit and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Determining the fair values of property, plant and equipment, investments and intangible assets, which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, requires us to make estimates and assumptions that can materially affect our unaudited consolidated financial statements. Future events could cause us to conclude that property, plant and equipment, investments and intangible assets associated with an acquired business are impaired. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations.

The preparation of estimated future cash flows involves significant judgments and estimations. While we believe that our assumptions are appropriate and reasonable, significant changes in our assumptions may materially affect our assessment of recoverable values and may lead to future additional impairment charges under PFRS. We have no impairment losses recognized for the six months ended June 30, 2007 and 2006.

Investment properties

We have adopted the fair value approach in determining the carrying value of our investment properties. We have opted to rely on independent appraisers in determining the fair values of our investment properties, and such fair values were determined based on recent prices of similar properties, with adjustments to reflect any changes in economic conditions since the date of those transactions. The amounts and timing of recorded changes in fair value for any period would differ if we made different judgments and estimates or utilized a different basis for determining fair value.

Total carrying values of investment properties as at June 30, 2007 and December 31, 2006 amounted to Php582 million and Php587 million, respectively, see *Note 10 Investment Properties*.

Deferred tax assets

We review the carrying amounts of deferred tax assets at each balance sheet date and reduce these to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be

utilized. Our assessment on the recognition of deferred tax assets on deductible temporary differences is based on the forecasted taxable income of the subsequent reporting periods. This forecast is based on our past results and future expectations on revenues and expenses. As management believes, it will have no sufficient future taxable income to utilize the benefits of deductible temporary differences. However, there is no assurance that we will generate sufficient taxable income to allow all or part of our deferred tax assets to be utilized.

Total unrecognized deferred tax assets as at June 30, 2007 and December 31, 2006 amounted to Php306 million and Php299 million, respectively, see *Note 6 Income Tax*.

Financial assets and liabilities

We carry certain of our financial assets and liabilities at fair value, which requires extensive use of accounting estimates and judgments. In addition, certain liabilities acquired through debt exchange and restructuring are required to be carried at fair value at the time of the debt exchange and restructuring, see *Note 24 Financial Assets and Liabilities*. While significant components of fair value measurement were determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, volatility rates), the amount of changes in fair value would differ if we utilized a different valuation methodology. Any change in fair value of these financial assets and liabilities would directly affect our consolidated statement of income and equity.

Total fair value of financial assets and liabilities as at June 30, 2007 amounted to Php39,695million and Php94,050 million, respectively, while the total fair value of financial assets and liabilities as at December 31, 2006 amounted to Php35,952 million and Php106,301 million, respectively.

Estimating allowance for doubtful accounts

We estimate the allowance for doubtful accounts related to our trade receivables based on two methods. The amounts calculated using each of these methods are combined to determine the total amount we reserve. We evaluate specific accounts where we have information that certain customers are unable to meet their financial obligations. In these cases, we use judgment based on the best available facts and circumstances, including but not limited to, the length of our relationship with the customer and the customer's current credit status based on third party credit reports and known market factors, to record specific reserves for customers against amounts due to reduce our receivables to amounts that we expect to collect. These specific reserves are re-evaluated and adjusted as additional information received affects the amounts estimated. Full allowance is provided for receivables from permanently disconnected subscribers and carriers. Such permanent disconnections generally occur within 105 days from the date of payment was due. Partial allowance is provided for active subscribers and carriers based on the age status of receivables.

The amounts and timing of recorded expenses for any period would differ if we made different judgments or utilized different estimates. An increase in our allowance for doubtful accounts would increase our recorded operating expenses and decrease our current assets.

Provision for doubtful accounts amounted to Php649 million and Php435 million for the six months ended June 30, 2007 and 2006, respectively. Trade and other receivables, net of allowance for doubtful accounts, amounted to Php9,445 million and Php10,158 million as at June 30, 2007 and December 31, 2006, respectively, see *Note 5 Income and Expenses* and *Note 14 Trade and Other Receivables*.

Asset retirement obligations

Asset retirement obligations are recognized in the period in which they are incurred if a reasonable estimate of fair value can be made. This requires an estimation of the cost to restore/dismantle on a per square meter basis, depending on the location, and is based on the best estimate of the expenditure required to settle the obligation at the balance sheet date, discounted using a pre-tax rate that reflects the current market assessment of the time value of money and, where appropriate, the risk specific to the liability. Total provision for asset retirement obligations amounted to Php881 million and Php831 million as at June 30, 2007 and December 31, 2006, respectively, see *Note 8 Property, Plant and Equipment* and *Note 18 Other Noncurrent Liabilities*.

Revenue recognition

Our revenue recognition policies require us to make use of estimates and assumptions that may affect the reported amounts of our revenues and receivables.

Our agreements with domestic and foreign carriers for inbound and outbound traffic subject to settlements require traffic reconciliations before actual settlement is done, which may not be the actual volume of traffic as measured by us. Initial recognition of revenues is based on our observed traffic adjusted by our normal experience adjustments, which historically are not material to our unaudited consolidated financial statements. Differences between the amounts initially recognized and the actual settlements are taken up in the accounts upon reconciliation. However, there is no assurance that such use of estimates will not result in material adjustments in future periods.

Revenues under a multiple element arrangement specifically applicable to our wireless business are split into separately identifiable components and recognized when the related components are delivered in order to reflect the substance of the transaction. The fair value of components is determined using verifiable objective evidence. Revenue for handset sales has been quantified and identified separately using the residual value method from our cellular service revenue.

Under certain arrangements with our BPO services, if there is uncertainty regarding the outcome of the transaction for which service was rendered, revenue is recognized only to the extent of expenses incurred for rendering the service and such amount is determined to be recoverable.

Pension and other retirement benefits

The determination of our obligation and cost for pension and other retirement benefits is dependent on our selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in *Note 21 Employee Benefits* and include, among other things, discount rates, expected returns on plan assets and rates of compensation increases. In accordance with PFRS, actual results that differ from our assumptions are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting period exceed 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. While we believe that our assumptions are reasonable and appropriate, significant differences in our actual experience or significant changes in our assumptions may materially affect our pension and other retirement obligations.

Unrecognized net actuarial loss as at June 30, 2007 amounted to Php4,657 million. The accrued benefit cost as at June 30, 2007 and December 31, 2006 amounted to Php3,059 million and Php2,888 million, respectively, see *Note 21 Employee Benefits*.

Share-based payment transactions

Our LTIP grants share appreciation rights, or SARs, to our eligible key executives and advisors. Under the LTIP, we recognize the services we receive from the eligible key executives and advisors, and our liability to pay for those services, as the eligible key executives and advisors render services during the vesting period. We measure our liability, initially and at each reporting date until settled, at the fair value of the SARs, by applying an option valuation model, taking into account the terms and conditions on which the SARs were granted, and the extent to which the eligible key executives and advisors have rendered service to date. We recognize any changes in fair value at each reporting date until settled, in the results of operations for the period. The assumptions and estimates are described in *Note 21 Employee Benefits* and include, among other things, annual stock volatility, risk free interest rate, remaining life, and the fair value of common stock. While management believes that the assumptions and estimates used are reasonable and appropriate, significant differences in our actual experience or significant changes in the assumptions may materially affect the stock compensation costs charged to operations. The fair value of the LTIP recognized as an expense for the six months ended June 30, 2007 and 2006 amounted to Php583 million and Php933 million, respectively. As at June 30, 2007 and December 31, 2006, total LTIP liability amounted to Php672 million and Php5,030 million, respectively, see *Note 5 Income and Expenses* and *Note 21 Employee Benefits*.

Legal contingencies

We are currently involved in various legal proceedings. Our estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling our defense in these matters and is based upon an analysis of potential results. We currently do not believe these proceedings will have a material adverse effect on our unaudited consolidated financial statements. It is possible, however, that future results of operations could be materially affected by changes in our estimates or in the effectiveness of our strategies relating to these proceedings, see *Note 23 Provisions and Contingencies*.

Determination of functional currency

Based on the economic substance of the underlying circumstances relevant to the PLDT Group, the functional and presentation currency of the PLDT Group (except for Mabuhay Satellite, PLDT Global, Digital Paradise Thailand and SPi and certain of its subsidiaries) is the Philippine peso. Transactions in foreign currencies are initially recorded in the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange prevailing at the balance sheet date. All differences are taken to the consolidated statement of income except for foreign exchange losses that qualify as capitalizable borrowing costs during the construction period. For income tax purposes, exchange gains or losses are treated as taxable income or deductible expenses in the period such gains or losses are realized.

The functional currency of Mabuhay Satellite, PLDT Global, SPi and certain of its subsidiaries is the U.S. dollar and Digital Paradise Thailand is the Thai baht. As at the reporting date, the assets and liabilities of these subsidiaries are translated into the reporting currency of the PLDT Group at the rate of exchange prevailing at the balance sheet date and its income and expenses are translated at the weighted average exchange rate for the period. The exchange differences arising on translation are taken directly to a separate component of equity as cumulative translation adjustments. On disposal of these subsidiaries, the amount of deferred cumulative translation adjustments recognized in equity relating to subsidiaries is recognized in the consolidated statement of income.

The functional currencies of the Group are the currency of the primary economic environment in which each entity operates. It is the currency that mainly influences the revenue from and cost of rendering services.

4. Segment Information

Operating segments are components of PLDT that engage in business activities from which they may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of PLDT), whose operating results are regularly reviewed by the enterprise's chief operating decision-maker to make decisions about how resources are to be allocated to the segment and assess their performances, and for which discrete financial information is available. The accounting policies of the reportable segments are the same as those described in *Note 2 Summary of Significant Accounting Policies and Practices*.

We have organized our business into three main segments:

- **Wireless** – wireless telecommunications services provided through our cellular service providers namely, Smart and Piltel; Smart Broadband, our wireless broadband provider; Wolfpac, our wireless content operator; and our satellite and very small aperture terminal, or VSAT operators, namely PLDT's subsidiaries Mabuhay Satellite, ACeS Philippines and Telesat;
- **Fixed Line** – fixed line telecommunications services are primarily provided through PLDT. We also provide fixed line services through PLDT's subsidiaries: ClarkTel, SubicTel, Maratel, Piltel, BCC, PLDT Global and SNMI, which together account for approximately 3% of our consolidated fixed line subscribers; and
- **Information and Communications Technology** – information and communications infrastructure and services for internet applications, internet protocol-based solutions and multimedia content delivery provided by PLDT's subsidiary ePLDT; call center services provided under one umbrella brand name *ePLDT Ventus*, include Ventus, Parlance and Vocativ; BPO services provided by SPi (consolidated since July 11, 2006) and its subsidiaries; internet and online gaming services provided by ePLDT's subsidiaries, namely, Infocom, Digital Paradise, Digital Paradise Thailand, netGames, Airborne Access and Level Up!; and e-commerce and IT-related services provided by other investees of ePLDT, as described in *Note 9 Investments in Associates*.

Transfer prices between business segments are set on an arm's-length basis in a manner similar to transactions with third parties. Segment revenue, segment expense and segment result include transfers between business segments. These transfers are eliminated in consolidation.

The segment assets as at June 30, 2007 and December 31, 2006 and results of operations of our reportable segments for the six months ended June 30, 2007 and 2006 are as follows:

Wireless	Fixed Line	Information and Communications Technology	Inter-segment Transactions

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

Unearned revenues	(1)	(1)
Excess of fair value over cost of investment properties	(69)	(38)
Intangible assets and fair value adjustments on assets required	(481)	(357)
Unrealized foreign exchange gains		(6)
	(551)	(402)

Provision for corporate income tax consists of:

	Six Months	
	Ended June	
	30,	
	2007	2006
	(Unaudited)	
	(in million	
	pesos)	
Current	4,806	4,616
Deferred	3,909	(1,630)
	8,715	2,986

The reconciliation between the provision for income tax at the applicable statutory tax rates and the actual provision for corporate income tax is as follows:

	Six Months	
	Ended June	
	30,	
	2007	2006
	(Unaudited)	
	(in million	
	pesos)	
Provision for corporate income tax at the applicable statutory tax rates	9,097	6,519
Tax effects of:		
Non-deductible expenses	210	222
Equity share in net loss (income) of investees	3	(1)
Income not subject to tax	(148)	(685)
Loss (income) subject to lower tax rate	(211)	2
Income subject to final tax	(236)	(303)
Net movement in deferred income tax		(2,768)
Actual provision for corporate income tax	8,715	2,986

Mabuhay Satellite and SubicTel are registered as Subic Bay Freeport Enterprises while ClarkTel is registered as a Clark Special Economic Zone Enterprise under Republic Act No. 9337, or R.A. 7227, otherwise known as the Bases

Conversion and Development Act of 1992. As registrants, Mabuhay Satellite, SubicTel and ClarkTel are entitled to all the rights, privileges and benefits established thereunder including tax and duty-free importation of capital equipment and a special income tax rate of 5% of gross income, as defined in the R.A. 7227.

On December 22, 2000, the Philippine Board of Investments, or BOI, approved ePLDT's registration as a new information technology, or IT, service firm in the field of services related to its internet data center on a pioneer status. As such, ePLDT enjoys, among other incentives, a six-year income tax holiday, or ITH, starting January 2001.

On January 3, 2007, the BOI approved ePLDT's application for pioneer status for its new data center facility as a new IT service firm in the field of services related to Internet Data Center. ePLDT was granted a six-year ITH on its new data center facility from January 2007 or actual start of operations, whichever comes first.

Parlance is registered with the BOI as a new IT export service firm in the field of customer interaction center on a pioneer status. Under this registration, Parlance is entitled to certain tax incentives, including an ITH for six years starting in June 2002. Parlance is required to comply with specific terms and conditions stated in its BOI registration.

iPlus Intelligent Network, Inc., or iPlus, is a wholly-owned subsidiary of ePLDT and is registered with the BOI as a new IT service firm in the field of application service provider on a pioneer status. Under such registration, iPlus is entitled to a six-year ITH incentive from the actual start of commercial operations until January 1, 2009.

Vocativ is registered with the Philippine Economic Zone Authority, or PEZA, as an Ecozone Export Enterprise to develop and operate a call center business that serves overseas clients by providing customer relationship management services. As a registered enterprise, Vocativ is entitled to certain tax and non-tax incentives which include, among other things, tax and duty-free importations, exemption from local tax and an ITH for four years from start of commercial operations. After the ITH period, Vocativ is liable for a final tax, in lieu of all taxes, of 5% gross income less allowable deductions as defined under R.A. No. 7916, The Special Economic Zone Act of 1995. The 5% final tax must be paid and remitted in accordance with the amendments contained in R.A. No. 8748, as follows: (a) 3% to the National Government; and (b) 2% which will be directly remitted by the business establishments to the treasurer's office of the municipality or city where the enterprise is located.

On December 5, 2005, Vocativ received approval from PEZA for the adjustment of the start of its commercial operations, effectively extending the ITH to end of March 2006. On June 30, 2006, PEZA approved Vocativ's ITH extension for another year which extends the ITH until April 2007.

mySecureSign, Inc., or mSSI, is a wholly-owned subsidiary of ePLDT and is registered with the BOI as a new IT service firm in the field of services related to public key infrastructure on a pioneer status. Under such registration, mSSI enjoys, among other incentives, a six-year ITH from August 1, 2001 or the actual start of commercial

operations, whichever comes first. mSSI started commercial operations on January 1, 2002.

Ventus is registered with the BOI as a new IT export service firm in the field of customer interaction center on a pioneer status. Under this registration, Ventus is entitled to certain tax incentives such as an ITH for six years starting March 2005. In relation to this, Ventus is required to comply with specific terms and conditions stated in the BOI registration.

Two of Ventus' call center projects are registered with the BOI as a new IT export service firm in the field of customer interaction center on a pioneer status. Under this registration, Ventus' Iloilo and Pasig call center projects are entitled to certain tax incentives such as an ITH for six years starting March 2005 and August 2006, respectively. In relation to this, Ventus is required to comply with specific terms and conditions stated in the BOI registration.

Digital Paradise is registered with the BOI as a new IT service firm in the field of community access on a non-pioneer status. Under the provisions of the registration, Digital Paradise's sales generated from its own community access activity and franchise fees are entitled to an ITH for a period of four years beginning December 2002. In December 2006, the BOI approved Digital Paradise's application for a status upgrade from non-pioneer to pioneer, accordingly extending the ITH period for another two years starting January 2007.

Level Up! was originally registered with the BOI as a new IT service firm in the field of application service provider on a non-pioneer status. Under such registration, Level Up! is entitled to certain tax incentives, which includes a four-year ITH from January 2003 and a tax credit for taxes on duties on materials used in export products for ten years starting January 2003. In April 2004, the BOI approved Level Up!'s request for upgrading its status from non-pioneer to pioneer in connection with its IT service activity in the field of application service provider for entertainment and educational project. Accordingly, the ITH period was extended from four to six years.

In September 2006, PEZA approved SPi's application for registration as an ecozone information technology enterprise to provide IT enabled services with emphasis on the creation of electronic discovery, presentation of content in electronic information formats, data analysis, capture, abstracting and data processing, design, development and implementation of healthcare documentation solutions. As a registered enterprise, SPi is entitled to certain tax and non-tax incentives which include, among other things, tax and duty-free importations, exemption from local tax and an ITH for four years. After the ITH period, SPi is liable for a final tax, in lieu of all taxes. The final tax is computed at 5% of gross income less allowable deductions as defined under R.A. 7916, 'The Special Economic Zone Act of 1995,' and will be paid and remitted in accordance with the amendments contained in R.A. 8748, as follows: (a) 3% to the National Government; and (b) 2% which will be directly remitted by the business establishments to the treasurer's office of the municipality or city where the enterprise is located.

Wolfpac is registered with the BOI as a new operator of service provider applications. Under the terms of its registration, it is entitled to certain tax and non-tax incentives which include, among other things, an ITH for four years starting February 2004.

Smart Broadband has three registered activities with the BOI on a pioneer status, namely: (i) a new operator of telecommunications systems (inter-exchange carrier for data services); (ii) new information technology service firm in the field of providing internet services; and (iii) a new operator of telecommunications facilities (nationwide broadband wireless access). Under the terms of these registrations, Smart Broadband is entitled to certain tax and non-tax incentives which include, among other things, an ITH for six years from February 2001, August 2001 and July 2005, respectively.

Income derived from non-registered activities with the BOI is subject to the normal income tax rate enacted as at the balance sheet date.

Consolidated tax incentives that we availed for the six months ended June 30, 2007 and 2006 amounted to Php253 million and Php125 million, respectively.

On May 24, 2005, the president of the Philippines signed into law Republic Act No. 9337, or R.A. 9337, amending certain sections of the National Internal Revenue Code, which took effect on November 1, 2005. R.A. 9337, among others, introduced the following changes:

- a. The regular corporate income tax rate for domestic corporations and resident/non-resident foreign corporations increased from 32% to 35% effective November 1, 2005 and will be reduced to 30% effective January 1, 2009.
- b. The VAT rate increased from 10% to 12% effective February 1, 2006.
- c. The input VAT on capital goods should be spread evenly over the estimated useful life or sixty months, whichever is shorter, if the acquisition cost, excluding the VAT component thereof, exceeds one million pesos.

Our deferred income tax assets have been recorded to the extent that such deferred tax assets are expected to be utilized against sufficient future taxable profit. We had unrecognized deferred tax assets of Php306 million and Php299 million largely pertaining to MCIT as at June 30, 2007 and to asset impairment as at December 31, 2006.

Our unaudited consolidated unutilized NOLCO as at June 30, 2007 is as follows:

Year Incurred	Year Expiring	(in million pesos)
2004	2007	15
2005	2008	12,029
2006	2009	5,600
2007	2010	2,063
		19,707
Tax benefit		6,898
Unrecognized deferred income tax assets from NOLCO as at June 30, 2007		(5)
		6,893

Our unaudited consolidated MCIT as at June 30, 2007 is as follows:

Year Incurred Year Expiring (in million pesos)		
2005	2008	484
2006	2009	499
		983

7. Earnings Per Common Share

The following table presents information necessary to calculate the earnings per common share:

	Six Months Ended June 30,			
	2007		2006	
	Basic	Diluted	Basic	Diluted
	(Unaudited)			
	(in million pesos)			
Consolidated net income attributable to equity holders of PLDT	17,002	17,002	15,306	15,306
Dividends on preferred shares	(227)	(227)	(228)	(228)
Dividends on preferred stock subject to mandatory redemption charged to interest expense for the period		9		
Accretion of preferred stock subject to mandatory redemption		71		
Foreign exchange gain on preferred stock subject to mandatory redemption		(67)		
Consolidated net income applicable to common shares	16,775	16,788	15,078	15,078

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

(in thousands, except per share amounts)

Outstanding common shares at beginning of period	188,435	188,435	180,789	180,789
Effect of issuance of common shares during the period	161	161	823	823
Average incremental number of shares under ESOP during the period		50		40
Common shares equivalent of preferred shares deemed dilutive:				
Preferred Stock Series VI (Note 17)		743		
Weighted average number of common shares for the period	188,596	189,389	181,612	181,652
Earnings per common share	Php88.95	Php88.64	Php83.02	Php83.00

Series VI Convertible Preferred Stocks were deemed dilutive based on a calculation of the required dividends on these preferred shares divided by the number of equivalent common shares assuming such preferred shares are converted into common shares, including the effect of shares under ESOP, and compared against the basic EPS. Since the amount of dividends on the Series A to EE and V in 2007 and Series A to EE, V and VII in 2006 over its equivalent number of common shares increased the basic EPS, these Convertible Preferred Stocks were anti-dilutive.

Substantially all our telecommunications equipment is purchased from outside the Philippines. Our significant sources of financing for such purchases are foreign loans requiring repayment in currencies other than Philippine pesos, principally in U.S. dollars, see *Note 17 Interest-bearing Financial Liabilities*. Interest, using an average capitalization rate of 10%, and net foreign exchange losses capitalized to property, plant and equipment qualified as borrowing costs for the six months ended

June 30, 2007 and 2006 were as follows:

	Six Months Ended June 30, 2007 2006	
	(Unaudited)	
	(in million pesos)	
Interest	255	302
Foreign exchange loss (gains)	(260)	106

As at June 30, 2007 and December 31, 2006, the undepreciated capitalized net foreign exchange losses which qualified as borrowing costs amounted to Php2,183 million and Php2,646 million, respectively.

The consolidated useful lives of the assets are estimated as follows:

Buildings		25 years
Cable and wire facilities	10	25 years
Central office equipment	10	20 years
Communications satellite		15 years
Information origination and termination equipment	3	15 years
Land improvements		10 years
Vehicles, furniture and other network equipment	3	10 years
Cellular facilities	3	10 years

We recognized additional depreciation charge of Php1,100 million and Php4,233 million for the six months ended June 30, 2007 and 2006, respectively, due to a change in the estimated useful lives of certain of our network assets owing to continuing network upgrade and expansion.

Asset Impairment Review

Piltel carries out annual impairment tests on its fixed line assets based on the net present value, or NPV, of future cash flows from the continued use of these assets. For the impairment review in 2006, a discount factor of 6.25% on a pre-tax basis was used for both E.O. 109 and RTS, applied on cash flow projections from 2007 until such year when the assets are fully depreciated. Cash flow assumptions for E.O. 109 averaged Php64 million per year from 2007 to 2017 and Php271 million per year for RTS from 2007 to 2013. The resulting NPV of the total cash flow projections was higher than the carrying value of both the E.O. 109 and RTS assets.

Management believes that due to Mabuhay Satellite's difficulty in generating cash flows with the satellite nearing its end-of-life and other events affecting its business, Mabuhay Satellite's Agila II transponder is considered impaired. This impairment review is based on the NPV of future cash flows from the continued use of this asset using the discount factor of 10% as applied on cash flow projections from 2007 until 2010. An impairment loss of Php1,391 million was applied to the carrying value of this satellite as at December 31, 2006 and included in the accumulated depreciation and amortization account in the unaudited consolidated balance sheet as at June 30, 2007.

Property, plant and equipment include the following amounts for capitalized leases as at June 30, 2007 and December 31, 2006:

	June 30, 2007 (Unaudited)			December 31, 2006 (Audited)		
	Central office equipment	Vehicles, furniture and other network equipment	Total	Central office equipment	Vehicles, furniture and other network equipment	Total
Cost	354		1,186	354		1,183
Less accumulated depreciation	322		1,066	310		950
	32		120	44		233
			1,540			1,537
			1,388			1,260
			152			277

The following table summarizes all changes to the liabilities on asset retirement obligations as at June 30, 2007 and December 31, 2006:

	June 30, 2007 (Unaudited)	December 31, 2006 (Audited)
Asset retirement obligations at beginning of period	831	752
Accretion expenses	44	87
Additional liability recognized during the period	10	45
Settlement of obligations	(4)	(53)
Asset retirement obligations at end of period (Note 18)	881	831

9. Investments in Associates

ePDS, Inc.	6	6
	3,928	3,982
Less accumulated impairment losses and equity share in net losses of associates	3,300	3,346
	628	636

Investment of ACeS Philippines in ACeS International Limited, or AIL

As at June 30, 2007 and December 31, 2006, ACeS Philippines had a 36.99% and 20% investment in AIL, respectively, a company incorporated under the laws of Bermuda. AIL owns the Garuda I Satellite and the related system control equipment in Batam, Indonesia.

AIL has incurred recurring significant operating losses, negative operating cash flows, and significant levels of debt. The financial condition of AIL was partly due to the National Service Providers, or NSPs, inability to generate the amount of revenues originally expected as the growth in subscriber numbers has been significantly lower than budgeted. These factors raise substantial doubt about AIL's ability to continue as a going concern. On this basis, we recognized a full impairment provision in respect of our investment in AIL amounting to Php1,614 million in 2003.

For further details as to the contractual relationships in respect of AIL, see *Note 20 Related Party Transactions*.

Investment of Mabuhay Satellite in Mabuhay Satellite Space Holdings Limited, or MSHL

In 1996, Mabuhay Satellite entered into a Joint Venture Agreement, or JVA, with Space Systems/Loral Inc., or SS/L, to form MSHL for the purpose of providing high-power Ku-Band satellite transmission services using the payload which was added by SS/L to the Agila II Satellite. Under the terms of the JVA, SS/L is required to convey title to the additional payload service to MSHL in consideration for SS/L's 35% equity interest in MSHL, and Mabuhay Satellite is required to pay SS/L US\$19 million for a 65% equity interest in MSHL.

In 2000, SS/L filed a Notice of Default and Termination against Mabuhay Satellite arising from the latter's alleged failure to amicably resolve its unpaid obligation to SS/L under the JVA. In 2002, the arbitration panel handed down its decision and provided for payment by Mabuhay Satellite to SS/L of the principal amount of US\$10 million plus accrued interest at 9% per annum. On June 30, 2003, Mabuhay Satellite and SS/L concluded a US\$15 million settlement agreement under which Mabuhay Satellite leased two transponders under a transponder agreement on a life-term basis to SS/L and offset the lease charges due from SS/L and its receivables from Loral Skynet Network Services, Inc. (formerly known as the Loral Cyberstar, Inc.), among other things, for a full and final settlement of the arbitration decision. The agreement was subsequently approved by Mabuhay Satellite's creditors in March 2004.

In accordance with the settlement agreement, Mabuhay Satellite and SS/L shall proceed to dissolve the joint venture under a separate agreement, for which each of the parties will receive title over a number of transponders owned by the joint venture in proportion to their respective interests. On the basis of the joint venture dissolution, we recognized an impairment provision in respect of our investment in MSHL of Php431 million in 2004.

Investment of ePLDT in Philweb Corporation, or Philweb

In May 2006, ePLDT subscribed newly issued common shares of Philweb, an internet-based online gaming company, equivalent to 20% of the total outstanding capital stock of Philweb at a price of Php0.020 per share or an aggregate amount of Php502 million. Of the total subscription price, Php427 million was paid by ePLDT on the closing date. The portion of the unpaid subscription price amounting to Php25 million will be paid by ePLDT at the same time as the Philweb majority stockholders pay the remaining unpaid portion of the subscription pursuant to a general call on subscription to be made by Philweb's board of directors. The balance of Php50 million will be paid upon the lapse of certain post-closing price adjustment periods. The unpaid subscription of Php75 million was recorded as part of accrued expenses and other current liabilities in the balance sheet.

In October 2006, ePLDT acquired an additional 8,037,692,308 shares of Philweb at a price of Php0.026 per share or an aggregate amount of Php209 million. This represents an additional 6.2% of the outstanding shares of Philweb, raising ePLDT's total equity stake to 25.5% as at December 31, 2006.

Philweb is primarily engaged in internet-based online gaming, through its appointment as Principal Technology Service Provider under the Marketing Consultancy Agreement for Internet Sports Betting and Internet Casino with the Philippine Amusement and Gaming Corporation, or PAGCOR. As of the end of June 2007, Philweb offers Internet Sports Betting in over 239 PAGCOR Internet Sports Betting Stations and over 50 Internet Casino Stations nationwide. As at June 30, 2006, the market value of ePLDT's investments in Philweb amounted to Php2,072 million.

Investment of ePLDT in Stradcom International Holdings, Inc., or SIHI

ePLDT has a 22.5% interest in convertible securities of SIHI, the parent company of Stradcom Corporation, which has an existing concession agreement with the Philippine Government for the modernization of the Philippine Land Transportation Office, including the computerization of driver's license issuance, vehicle registration and traffic adjudication systems. SIHI has been incurring losses from the start of operations due to Stradcom Corporation's continuous losses and recurring excess of current liabilities over current assets. On this basis, we recognized an impairment provision in respect of our investment in SIHI of Php616 million in 2004.

Stradcom Corporation is currently undertaking the issuance of Asset-Backed Bonds amounting to Php1.6 billion intended for debt refinancing and general corporate purposes, including working capital and investments.

Investment of ePLDT in BayanTrade Dotcom, Inc., or BayanTrade

BayanTrade was incorporated and registered with the Philippine Securities and Exchange Commission, or Philippine SEC, on August 8, 2000 to provide: (a) a business-to-business electronic purchasing market place to link buyers and suppliers of goods services over the Internet; (b) electronic catalogue purchasing facilities over the Internet to buyers and suppliers; (c) link-up with similar horizontal markets and vertical markets across the Asia-Pacific Region and the world; and (d) facilitating services incidental to the business. BayanTrade is an e-procurement joint venture established together with six of the Philippines' leading conglomerates. ePLDT's initial shareholding in BayanTrade was 20.5%, which was subsequently diluted to 19.17% in August 2004 due to an equity call to which ePLDT did not subscribe.

In September 2005, ePLDT received 4,794,615 bonus warrants from BayanTrade which entitles ePLDT to purchase 2,794,615 common shares at a price of Php0.50 per share at any time on or before August 31, 2010. We did not account for the value of bonus warrants because the value is not material.

Investment of ePLDT in ePDS, Inc., or ePDS

On June 30, 2003, ePLDT signed a joint venture agreement with DataPost Pte Ltd., or DataPost, a subsidiary of Singapore Post, and G3 Worldwide ASPAC, or Spring, pursuant to which the parties formed ePDS, a bills printing company which does laser printing and enveloping services for statements, bills and invoices, and other value-added services for companies in the Philippines. ePLDT has a 50% interest in ePDS, while DataPost has a 30% interest. Spring, the largest international mail services provider, owns the remaining 20%. ePDS has an initial paid-up capital of Php11 million.

In October 2005, ePDS Board of Directors approved the declaration of a 100% stock dividend on its common stock equivalent to Php11 million. The stock dividends were issued from the increase in authorized capital stock of ePDS which was approved by the Philippine SEC in June 2006.

Investment of Smart in Blue Ocean Wireless, or BOW

On August 3, 2007, Smart has agreed to acquire a 30% equity interest in BOW, a Dublin-based company delivering GSM communication capability for the merchant maritime sector. The investment by Smart will be US\$15.9 million. BOW provides the world's first GSM network on the seas through Altobridge, a patented GSM platform that supports full voice and text services, thus providing an important complementary service to Smart's prepaid wireless satellite phone service, *SMARTLink*.

Summarized Financial Information of Equity Investees

The following table presents summarized financial information in conformity with PFRS for equity investees for which we have significant influence as at June 30, 2007 and December 31, 2006 and for the six months ended June 30, 2007 and 2006.

	June 30,

Balance at beginning of period	587	701
Disposals	(5)	(112)
Net loss from fair value adjustments		(2)
Balance at end of period	582	587

Investment properties are stated at fair values, which have been determined based on the latest valuations performed by an independent firm of appraisers, which is an industry specialist in valuing these types of investment properties. The valuation undertaken was based on an open market value, supported by a market evidence in which assets could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arm's-length transaction at the date of valuation, in accordance with international valuation standards.

11. Goodwill and Intangible Assets

Movements in goodwill and intangible assets during the periods are as follows:

	June 30, 2007 (Unaudited)		December 31, 2006 (Audited)

In relation to SPi s acquisition of Springfield, the fair value of Springfield s net assets, determined provisionally, was assessed to be equal to its book value, which resulted in goodwill amounting to

Php2,266 million. Intangible assets pertaining to Springfield s customer relationship and customer contracts were initially determined at Php338 million with estimated useful life of five and ten years, respectively. Valuation of intangible assets by independent appraiser is ongoing which is expected to be completed by fourth quarter of 2007.

Other intangible assets consist of:

	June 30, 2007 (Unaudited)		December 31, 2006 (Audited)		
	Estimated Useful Lives	Carrying Amount	Net Accumulated Amortization	Gross Carrying Amount	Net Accumulated Amortization

		3,716	1,1182,598	3,456	9412,515

As at December 2006, ePLDT has provided an impairment in value of its intangible assets in Level Up! amounting to Php50 million, representing a write-down of such intangible assets to recoverable amounts using the value-in-use approach. The impairment was a result of projected decline on revenues related to certain license agreements. Market value-in-use was based on the discounted cash flow projections using the most recent financial forecast approved by

our management.

The future amortization of other intangible assets as at June 30, 2007 are as follows:

	(in million pesos)
2007(1)	191
2008	418

2012 and onwards	925
Balance at end of period	2,598

(1) July 1, 2007 through December 31, 2007

Impairment Testing of Goodwill

Goodwill from Smart Broadband Acquisition

The test for recoverability of Smart's goodwill was applied to an asset group, representing the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities.

Although revenue streams may be segregated between Smart and Smart Broadband through subscribers availing themselves of their respective cellular and wireless broadband services, the cost items and cash flows are difficult to carve out, largely due to the significant portion of shared and common-used networks/platforms. In the case of Smart Broadband, it provides broadband wireless access to its subscribers using Smart's cellular base stations, fiber optic and IP backbone. With the common use of wireless assets with Smart in providing wireless services, the lowest asset group for Smart Broadband for which cash flows could be clearly identified from other groups of assets will be Smart's wireless business segment.

Our wireless business segment has been our largest revenue and cash flow contributor since 2003. As such, there is no impairment of our wireless business segment. As at June 30, 2007, the recoverable amount of this segment is determined on the basis of value in use calculations using cash flow projections based on the financial budgets approved by Smart's Management covering a 5-year period from 2007 to 2011. The pre-tax discount rate applied to cash flow projections is 10.6% and cash flows beyond the 5-year period are determined using a 2.5% growth rate that

is the same as the long-term average growth rate for the telecommunications industry.

The calculation of value in use for Smart's wireless business segment was based on the following assumptions: (a) usage revenues for 2007 were based on the annualized actual year-to-date results available at the time the budget was prepared in 2006; (b) usage revenues were assumed to grow at an average rate of 5% per annum from 2007 to 2011; (c) average capital expenditures per year were assumed at Php8.6 billion from 2007 to 2011; (d) the discount rate used was the weighted average cost of capital; and (e) the growth rate used for cash flows beyond the budget period was based on published industry research.

Goodwill from SPi Acquisition and its Subsidiary, CyMed

The goodwill acquired through the SPi and CyMed transactions was allocated for impairment testing to each of the cash generating units of those businesses namely: healthcare, litigation and publishing.

As at June 30, 2007, we determined that there would be no impairment loss recognized for each of the cash generating units since the recoverable amount exceeded the carrying amount of the individual assets. The recoverable amount of goodwill was determined using the value in use approach. Value in use was based on the cash flow projections of the most recent financial budgets/forecasts approved by management, which management believes are reasonable and are management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset.

In determining the appropriate discount rate to be applied, our weighted average cost of capital was used and adjusted for the difference in currency and specific risks associated with the assets or business of a cash-generating unit.

Management assessed the reasonableness of the assumptions by examining the causes of differences between actual 2006 cash flow and budgeted/projected cash flows, with a particular emphasis on the observed trends towards the last quarter of 2006.

12. Notes Receivable

Investment of ePLDT in Debt Securities of Technology Support Services, Inc., or TSSI (formerly First Advance Multi-Media Entertainment Corp., or FAME)

On June 1, 2004, ePLDT and FAME entered into an agreement whereby ePLDT granted a seven-year zero-coupon loan to FAME amounting to US\$3.1 million. Based on agreement, upon maturity of the loan, which is at the end of seven years from issuance, ePLDT may require FAME to redeem or pay the loan at a redemption value amounting to US\$6.1 million. At any time during the life of the outstanding loan, ePLDT may convert the loan into 20% of the total outstanding capital stock of FAME.

On August 20, 2004, FAME changed its corporate name to TSSI.

On September 14, 2004, ePLDT entered into a second agreement with TSSI whereby ePLDT granted another seven-year zero coupon loan to TSSI amounting to US\$3.1 million with the same terms and features as the first loan. As at June 30, 2007 and December 31, 2006, the aggregate loans of ePLDT to TSSI amounted to Php346 million.

TSSI has been incurring losses from the start of operations due to delays in its projects. On this basis, we recognized a full impairment provision in respect of our notes receivable from TSSI amounting to Php346 million in December 2006.

13. Cash and Cash Equivalents

This account consists of:

	June 30, 2007	December 31, 2006
	(Unaudited)	(Audited)
	(in million pesos)	
Cash on hand and in banks	3,164	3,416
Temporary cash investments	9,625	13,454
	12,789	16,870

Cash in banks earns interest at prevailing bank deposit rates. Temporary cash investments are made for varying periods of up to two months depending on our immediate cash requirements, and earn interest at the prevailing short-term deposit rates. Due to the short-term nature of such transactions, the carrying value approximates the fair value of our temporary cash investments.

14. Trade and Other Receivables

This account consists of receivables from:

	June 30, 2007 (Unaudited)	December 31, 2006 (Audited)
	(in million pesos)	
Customers and carriers	24,884	25,349
Others (Notes 20, 22 and 23)	1,507	1,579
	26,391	26,928
Less allowance for doubtful accounts	16,946	16,770
	9,445	10,158

Movements in the allowance for doubtful accounts are as follows:

	June 30, 2007 (Unaudited)	December 31, 2006 (Audited)
	(in million pesos)	
Balance at beginning of period	16,770	18,525
Provisions for the period (Note 5)	649	736
Translation adjustments	(27)	(24)
Write-offs	(446)	(1,813)
Reversals		(654)
Balance at end of period	16,946	16,770

Receivables from carriers represent receivables arising from interconnection agreements with other telecommunications carriers. The aforementioned receivable balances are shown net of related payables to the same telecommunications carriers because an established right of offset exists.

On October 10, 2002, PLDT entered into a Receivables Purchase Deed, or RPD, with a foreign financial institution, or the Purchaser, under which PLDT agreed (1) to sell its receivables from certain eligible foreign carriers for an advance payment of US\$50 million, of which US\$1 million, or Php46 million, remained outstanding as at June 30, 2007, and (2) to service, administer and collect the receivables on behalf of the Purchaser. Under the RPD, the Purchaser has no recourse against PLDT should an eligible carrier fail or refuse to settle the assigned/purchased receivables, except when PLDT commits a breach of its representations and warranties under the RPD.

Sale of receivables under the RPD amounted to US\$2 million (Php117 million) and US\$3 million (Php152 million) for the six months ended June 30, 2007 and 2006, respectively. Loss on sale of receivables under the RPD amounted to US\$0.1 million (Php5 million) and US\$0.34 million (Php17 million) for the six months ended June 30, 2007 and 2006, respectively.

15. Inventories and Supplies

This account consists of:

Conversion			(4)	1 1
Balance at June 30, 2007 (Unaudited)	406 36	442	Php4,420	189 Php943

Preferred Stock

The preferred stock is non-voting, except as specifically provided by law, and is preferred as to liquidation.

The Series A to EE 10% Cumulative Convertible Preferred Stocks earn cumulative dividends at an annual rate of 10%. After the lapse of one year from the last day of the year of issuance of a particular series of 10% Cumulative Convertible Preferred Stock, any holder of such series may convert all or any of the shares of 10% Cumulative Convertible Preferred Stock held by him into fully paid and non-assessable shares of Common Stock of PLDT, at a conversion price equivalent to 10% below the average of the high and low daily sales price of a share of Common Stock on the PSE, or if there have been no such sales on the PSE on any day, the average of the bid and the asked prices of a share of Common Stock of PLDT at the end of such day on such Exchange, in each such case averaged over a period of 30 consecutive trading days prior to the conversion date, but in no case shall the conversion price be less than the price set by the Board of Directors which, as at June 30, 2007, was Php5.00 per share. The number of shares of Common Stock issuable at any time upon conversion of one share of the subscriber investment plan, or SIP, or the 10% Cumulative Convertible Preferred Stock is determined by dividing Php10.00 by the then applicable conversion price.

In case the shares of Common Stock at anytime outstanding are subdivided into a greater or consolidated into a lesser number of shares, then the minimum conversion price per share of Common Stock will be proportionately decreased or increased, as the case may be, and in the case of a stock dividend, such price will be proportionately decreased, provided, however, that in every case the minimum conversion price shall not be less than the par value per share of Common Stock. In the event the relevant effective date for any such subdivision or consolidation of shares or stock dividend occurs during the period of 30 trading days preceding the presentation of any shares of 10% Cumulative Convertible Preferred Stock for conversion, a similar adjustment will be made in the sales prices applicable to the trading days prior to such effective date utilized in calculating the conversion price of the shares presented for conversion.

In case of any other reclassification or change of outstanding shares of Common Stock, or in case of any consolidation or merger of PLDT with or into another corporation, the Board of Directors shall make such provisions, if any, for adjustment of the minimum conversion price and the sales price utilized in calculating the conversion price as the Board of Directors, in its sole discretion, shall be deemed appropriate.

At PLDT's option, the Series A to EE 10% Cumulative Convertible Preferred Stocks are redeemable at par value plus accrued dividends five years after the year of issuance.

On December 9, 2004, the Board of Directors designated 500,000 shares of serial preferred stock as Series FF 10% Cumulative Convertible Preferred Stock for issuance throughout 2005.

On December 6, 2005, the Board of Directors designated 100,000 shares of serial preferred stock as Series GG 10% Cumulative Convertible Preferred Stock for issuance throughout 2006.

On January 30, 2007, the Board of Directors designated 150,000 shares of serial preferred stock as Series HH 10% Cumulative Preferred Stock for issuance up to December 31, 2009.

The issuance of SIP Series FF, GG and HH is an exempt transaction under Section 10.2 of the Securities Regulation Code, as confirmed by the Philippine SEC on April 2, 2007.

On October 24, 2005, PLDT issued to JPMorgan, as depositary, and to the holders of the Series III Convertible Preferred Stock a notice of mandatory conversion of all of its outstanding 4,616,200 shares of Series III Convertible Preferred Stock into shares of PLDT Common Stock. The conditions for mandatory conversion under the terms of the Series III Preferred Stock have been satisfied, including:

(i) that the average closing price of PLDT's ADSs for the 30-day period ending seven days prior to the date in which notice of the mandatory conversion was given was above US\$29.19 a share; (ii) that there were no dividends in arrears on any shares of the Series III Convertible Preferred Stock; and (iii) that PLDT had sufficient distributable reserves to

pay the fixed preferential dividends on the shares of Series III Convertible Preferred Stock, calculated down to and including the mandatory conversion date.

In November 2005, PLDT issued 710,891 shares of common stock on account of the voluntary conversion of 415,023 shares of Series III Convertible Preferred Stock.

As at December 19, 2005, as a result of PLDT's issuance of a notice of mandatory conversion, all of the outstanding shares of Series III Convertible Preferred Stock were voluntarily and mandatorily converted into shares of PLDT Common Stock wherein each share of Series III Convertible Preferred Stock was converted into 1.7129 shares of Common Stock. A total of 7,907,032 shares of PLDT's Common Stock were issued as a result of the voluntary and mandatory conversions of all of the Series III Convertible Preferred Stock.

The Series IV Cumulative Non-Convertible Redeemable Preferred Stock earns cumulative dividends at an annual rate of 13.5% based on the paid-up subscription price. It is redeemable at the option of PLDT at any time one year after subscription and at the actual amount paid for such stock, plus accrued dividends. On February 26, 2002, the Board of Directors called for the payment of a portion of the balance of the subscription price of the Series IV Cumulative Non-Convertible Redeemable Preferred Stock amounting to Php72 million, which was paid on March 5, 2002. On March 22, 2002, PLDT redeemed 60 million shares out of the 360 million subscribed shares of its Series IV Cumulative Non-Convertible Preferred Stock and paid Php72 million, representing the redemption price plus unpaid dividends up to the date of redemption.

The provisions of certain subscription agreements involving preferred stock have an effect on the ability of PLDT to, without written consent, sell certain assets and pay cash dividends unless all dividends for all past quarterly dividend periods have been paid, and provision has been made for the currently payable dividends.

17. Interest-bearing Financial Liabilities

This account consists of the following:

June 30,	
2007	December 31, 2006
(Unaudited)	(Audited)
(in million pesos)	

Long-term portion of interest-bearing financial liabilities - net of current portion:

Long-term debt (Note 24)	59,982	63,769
Obligations under capital lease (Notes 8 and 24)	39	106
Preferred stock subject to mandatory redemption (Note 24)	1,174	1,369
	61,195	65,244

Current portion of interest-bearing financial liabilities:

Notes payable	258	201
Long-term debt maturing within one year (Note 24)	7,882	16,184
Obligations under capital lease maturing within one year (Notes 8 and 24)	929	924
	9,069	17,309

Unamortized debt discount, representing debt issuance costs and any difference between the fair value of consideration given or received on initial recognition, included in the financial liabilities are as follows:

	June 30, 2007	December 31, 2006
	(Unaudited)	(Audited)

(1) July 1, 2007 through December 31, 2007

U.S. Dollar Debt:

Export Credit Agencies-Supported Loans

In order to obtain imported components for our network infrastructure in connection with our expansion and service improvement programs, we obtained loans extended and/or guaranteed by various export credit agencies. These financings account for a significant portion of our indebtedness.

Kreditanstalt für Wiederaufbau, or KfW

KfW, a German state-owned development bank, is PLDT's largest single creditor. As at June 30, 2007, we owed US\$165 million, or Php7,627 million, aggregate principal amount of debt to KfW, as follows:

-

- US\$123 million provided under various export credit agency-backed facilities, of which US\$28 million was in connection with our expansion and service improvement programs, and US\$95 million in connection with the US\$149 million refinancing facility discussed below; and
- US\$42 million provided for the 15% downpayment portion and credit facilities without guarantee/insurance cover from the export credit agencies, of which US\$26 million was in connection with the US\$149 million refinancing facility discussed in the following paragraphs.

On January 25, 2002, PLDT signed two loan agreements with KfW, which provided PLDT with a US\$149 million facility to refinance in part the repayment installments under its existing loans from KfW due from January 2002 to December 2004. The facility is composed of a nine-year loan, inclusive of a three-year disbursement period and a two-year grace period during which no principal is payable. It partly enjoys the guarantee of HERMES, the export credit agency of the Federal Republic of Germany. We have drawn US\$140 million (Php6,474 million) under this facility as at June 30, 2007. PLDT waived further disbursements under this refinancing facility effective September 1, 2004. Thus, the undrawn portion of US\$9 million was cancelled.

Of the amounts outstanding under these KfW loans, US\$35 million will mature on various dates between July 2, 2007 and December 4, 2007, US\$55 million will mature in 2008, US\$44 million will mature in 2009 and US\$31 million will mature in 2010. Principal amortizations on these loans are generally payable in equal semi-annual installments.

Finnvera, Plc, or Finnvera

As at June 30, 2007, US\$60 million (US\$59 net of unamortized discount of US\$1 million) or Php2,775 million (Php2,739 million net of unamortized discount of Php36 million) principal amount of Smart's debt was provided by various banks under an export credit agency-backed facility in connection with Smart's GSM expansion program. This facility is covered by a guaranty from Finnvera, the Finnish Export Credit Agency, for 100% of political and commercial risk for the refinancing facility of GSM Phases 5A and 5B. Other Finnvera-guaranteed GSM loan facilities were fully paid in the aggregate amount of US\$17 million for GSM Phases 3 and 4 loan facilities on April 28, 2006.

Of the amount outstanding under the remaining Finnvera guaranteed loan, US\$10 million will mature on September 1, 2007, US\$20 million will mature in 2008, US\$20 million will mature in 2009 and US\$10 million will mature in 2010. Principal amortization on this loan is payable in equal semi-annual installments.

Nippon Export and Investment Insurance of Japan, or NEXI

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

On November 28, 2002, Smart signed a US\$100 million term loan facility supported by NEXI, of which US\$60 million was drawn on November 28, 2003 and US\$40 million on April 5, 2004. This loan is payable semi-annually over four years in eight equal installments starting May 28, 2004 with final repayment due in November 2007. The outstanding balance was fully paid in the amount of US\$25 million on May 25, 2007.

Other Export Credit Agency Supported Loans

PLDT has also obtained loans extended and/or guaranteed by other export credit agencies, including the Export-Import Bank of the United States, and the respective export credit agencies of France and Italy, in the aggregate outstanding principal amount of US\$4 million as at June 30, 2007. Smart, likewise, obtained loans guaranteed by the export credit agencies of Norway and Italy with outstanding balance of US\$1 million as at June 30, 2007. Of the amounts outstanding under these loans, US\$4 million will mature on various dates between September 15, 2007 and December 15, 2007 and US\$1 million will mature in 2008.

Fixed Rate Notes

PLDT has the following non-amortizing fixed rate notes outstanding as at June 30, 2007 and December 31, 2006:

Principal Amount	Interest Rate	Maturity Date	June 30, 2007 (Unaudited)	December 31, 2006 (Audited)	
				(in millions)

			US\$676	Php31,254	US\$835 Php40,971

Term Loans

US\$283 Million Term Loan Facility, or Debt Exchange Facility

On July 2, 2004, Smart acquired from Piltel's creditors approximately US\$289 million, or 69.4%, in the aggregate of Piltel's outstanding restructured debt at that time, in exchange for Smart debt and a cash payment by Smart. In particular, Smart paid an amount in cash of US\$1.5 million, or Php84 million and issued new debt of US\$283.2 million, or Php15,854 million, at fair value of Php8,390 million, net of debt discount amounting to Php7,464 million.

The breakdown of the total amount of Smart debt issued to participating Piltel creditors is as follows:

- 2007 Facility in the amount of US\$0.2 million payable in full in December 2007;
- 2008 Facility in the amount of US\$2.9 million payable in full in December 2008; and
- 2014 Facility in the amount of US\$280.1 million payable in full in June 2014.

As at June 30, 2007, outstanding balance of these loans amounted to US\$283 million (US\$181 million net of unamortized discount of US\$102 million) or Php13,100 million (Php8,388 million net of unamortized discount of Php4,712 million).

Interest for the above facilities is payable every quarter at a floating rate of three months US\$ LIBOR plus 1.00% for the 2007 and 2008 facilities, and a fixed rate of 2.25% per annum for the 2014 facility. Furthermore, a portion of the 2014 facility amounting to US\$144 million has a variable yield option whereby the creditors have an option to elect for an early repayment at a discount either in December 2007 at 52.5% of the relevant debt amount or in December 2008 at 57.5% of the relevant debt amount.

GSM Network Expansion Facilities

On September 13, 2004, Smart signed a US\$104 million 5-year term loan facility to finance the related Phase 7 GSM Equipment and services. The facility was awarded to ABN AMRO Bank, Banque National de Paribas, Calyon, DBS Bank and Sumitomo Mitsui Banking Corporation as the Lead Arrangers with Finnish Export Credit, Plc as the Lender. The full amount of the facility was drawn on November 22, 2004, of which US\$52 million remained outstanding as at June 30, 2007. The loan is payable over five years in ten equal semi-annual payments starting May 2005 with final repayment in November 2009.

On August 8, 2005, Smart signed a US\$30 million commercial facility with NIB to partly finance the related Phase 8 GSM equipment and services contracts. The facility is a 5-year term loan payable semi-annually in ten equal installments commencing six months from the first drawdown date at a floating rate of US\$ LIBOR plus 0.815% margin per annum. The facility was drawn on July 11, 2006 for the full amount of US\$30 million at a floating interest of 6.445% (5.63% US\$ LIBOR plus 0.815% per annum margin). The first installment payment commenced on January 11, 2007. US\$27 million amount remained outstanding as at June 30, 2007.

On August 10, 2005, Smart signed a loan facility for its GSM Phase 8 financing in the amount of US\$70 million. The facility was awarded to the Bank of Tokyo Mitsubishi Ltd., Mizuho Corporate Bank Ltd., Standard Chartered Bank and Sumitomo Mitsui Banking Corporation as the Lead Arrangers, with FEC as the Lender. Smart opted to utilize only a total of US\$67 million which was drawn in February 15, 2006 and March 13, 2006 for US\$10 million and US\$57 million, respectively. The undrawn balance of US\$3 million was cancelled. The facility is a 5-year term loan payable in 10 equal semi-annual installments with final repayment on September 1, 2010. Interest is payable semi-annually at a fixed rate of 4.515% per annum. As at June 30, 2007, US\$51 million remained outstanding.

On July 31, 2006, Smart signed a U.S. Dollar Term Loan Facility for US\$44.2 million to partly finance the related Phase 9 GSM equipment and services contracts. The Lender is FEC with ABN AMRO Bank N.V., Standard Chartered Bank and Sumitomo Mitsui Banking Corporation and Mizuho Corporate Bank Ltd. as the Lead Arrangers. The facility is a 5-year term loan payable in 10 equal semi-annual installments commencing six months from the drawdown date at a CIRR Fixed rate of 4.05% per annum. The facility was drawn on November 10, 2006 for the full amount of US\$44.2 million. The first installment commences on January 16, 2007 with final repayment on July 15, 2011. As at June 30, 2007, the US\$40 million loan remains outstanding.

As at June 30, 2007, the aggregate outstanding balance of these loans amounted to US\$170 million (US\$169 million, net of unamortized discount of US\$1 million) or Php7,859 million (Php7,816 million, net of unamortized discount of Php43 million).

Other Term Loan

On December 1, 2001, CyMed availed of a 6-year non-interest-bearing advance from certain of its officers to fund its operating expenses, including salaries and other incidental expenses. The outstanding balance of this loan as at June 30, 2007 amounted to US\$0.7 million, which is payable quarterly until December 31, 2009.

Undrawn Facilities

On October 16, 2006, Smart signed a U.S. Dollar Term Loan Facility with Metropolitan Bank and Trust Company to finance the related Phase 9 GSM Facility for an amount of US\$50 million. The facility is a five-year loan payable in

18 equal and consecutive quarterly installments commencing on the third quarter from the date of the first drawdown. Interest rate is floating at three-month US\$ LIBOR plus 0.75% per annum margin.

Restructured Loans

-

On June 5, 2006, Piltel made a partial voluntary prepayment of principal under its Peso bank facility, US Dollar bank facility, various Trade Creditor facilities and Notes Indenture. The voluntary prepayment was made in lieu of depositing excess cash flow from the operations of Piltel's business into a Sinking Fund Account. The aggregate voluntary prepayment amount was Php9,325 million (Php6,393 million to Smart and Php2,932 million to third party creditors) or US\$176 million (US\$121 million to Smart and US\$55 million to third party creditors), which was applied proportionally to the various debt facilities as set out in the Intercreditor Agreement dated June 4, 2001 (the Intercreditor Agreement).

On December 4, 2006, Piltel prepaid the outstanding balance of its principal debt under its Peso bank facility, US Dollar bank facility, Peso Term Note facility, various Trade Creditor facilities and Notes Indenture in the aggregate amount of Php11,631 million (Php8,061 million to Smart and Php3,570 million to third party creditors) or US\$233 million (US\$161 million to Smart and US\$72 million to third party creditors). Piltel obtained approval from the Bangko Sentral ng Pilipinas to source dollar payment from authorized agent banks.

On March 30, 2007, Piltel paid the remaining convertible bonds with principal amount of US\$0.7 million.

-

Loan Security

-

Piltel's restructured obligations were secured by substantially all present and future assets of Piltel under the MTI dated June 4, 2001 between Piltel and JPMorgan Chase Bank, N.A. (Manila Branch) as Security Agent for the creditors, which established the security arrangements relating to the restructured debts. The participating creditors (other than the participating holders of the Peso Term Note facility) shared equally in first ranking security, while non-participating creditors and the participating holders of the Peso Term Note facility shared equally in second ranking security created under the MTI. Such mortgage was approved by at least two-thirds of Piltel's stockholders at its annual meeting on April 18, 2001 and by the NTC on May 18, 2001.

On July 7, 2006, Piltel, PLDT and JPMorgan Chase Bank, N.A. (Manila Branch), as Security Agent on behalf of the Finance Parties under the Intercreditor Agreement, agreed to the amendment of Clause 25 thereof to allow the amendment of any term of the MTI and the release and sale of certain properties or assets from the security interests created by the MTI upon the instructions of the creditor representatives. On the same date, and following the effectivity of the amendment of the Intercreditor Agreement, Piltel and the Security Agent, executed the Amendment to the MTI, pursuant to which Piltel is allowed to sell or dispose of certain categories of assets or properties with the

consent of the Majority Bank Creditors, the Majority Trade Creditors and the Trustee, provided, however that for as long as Avenue Asia holds majority of Piltel's Conversion Notes, the prior consent of Avenue Asia will be required for (i) any sale or disposition of any of the real properties of Piltel, and (ii) any sale or disposition of assets to Smart, PLDT or any of its affiliates.

On April 18, 2007, Piltel received a Notice of Termination of the MTI from JP Morgan Chase Bank, N.A. (Manila Branch).

Satellite Acquisition Loans

Mabuhay Satellite has an existing Credit Agreement with the Export-Import Bank of the United States, or Ex-Im Bank, to finance a portion of the cost of purchasing the Agila II Satellite. In 2004, Ex-Im Bank approved, in principle, the re-profiling of Mabuhay Satellite's US\$42 million debt with them by extending the maturity of the loan by 1½ years to July 15, 2007 and reducing the interest rate by 1% to 5.6%. The revised repayment terms have been approved by the majority of the local creditor banks. As at June 30, 2007, the remaining outstanding loan amounted to US\$5 million (Php241 million).

Mabuhay Satellite also has an existing Omnibus Agreement with a syndicate of local banks, or the Banks, which includes issuance of irrevocable standby Letters of Credit which as at June 30, 2007 had an aggregate stated value not exceeding US\$5 million (Php255 million) in favor of Ex-Im Bank, as security under the Credit Agreement and a term loan to Mabuhay Satellite in the aggregate amount of US\$30 million (Php1,380 million), which will mature on various dates from 2006 to 2009.

Mabuhay Satellite has constituted in favor of the Banks: (a) a first mortgage on its leasehold rights under a lease agreement entered into with the Subic Bay Metropolitan Authority and the components of the satellite system; (b) an assignment of its rights under its purchase contract for the satellite system; (c) an assignment of its rights under the transponder lease contracts to be entered into with its shareholders and other parties and the revenues therefrom; and (d) an assignment of the applicable proceeds of insurance to be taken on the satellite system.

In 2006, the Banks have approved Mabuhay's request to extend the maturity of the loan under the Omnibus Agreement by two years to October 20, 2009, with a 1% increase in the margin on the deferred amount.

Philippine Peso Debt:

Php2,770 Million Peso Fixed Rate Corporate Notes

In connection with PLDT's service improvement and expansion programs, PLDT has entered into two loan agreements, pursuant to each of which PLDT issued fixed rate corporate notes in three tranches.

Under the first loan agreement, PLDT borrowed an aggregate amount of Php1,500 million, of which Php230 million was repaid on November 11, 2002, Php500 million was repaid on November 9, 2004 and Php770 million was repaid on November 9, 2006.

Under the second loan agreement, PLDT borrowed an aggregate amount of Php1,270 million, of which Php360 million was repaid on June 9, 2003, Php100 million was repaid on June 9, 2005 and Php810 million was repaid on June 12, 2007.

Php5 Billion Peso Fixed Rate Corporate Notes

On February 15, 2007, Smart issued Php5 billion unsecured fixed rate corporate notes, made up of Series A notes amounting to Php3.8 billion and Series B notes amounting to Php1.2 billion with five and ten year terms, respectively. Series A notes were priced at 5.625%, while Series B notes were priced at 6.500%. Funds raised from the issuance of these notes will be used primarily for Smart's capital expenditures for network improvement and expansion.

Term Loans

Secured Term Loans

Php100 Million Term Loan Facility

On March 15, 2004, ePLDT entered into a three-year term loan facility with Asia United Bank amounting to Php100 million for the payment of its outstanding short-term bank loan facility and for other working capital requirements. The loan facility was fully drawn as at December 31, 2004. The loan is to be repaid in nine equal quarterly installments starting March 2005 with final repayment in March 2007. Interest on the loan is equivalent to 90-day PHIBOR plus 3% per annum payable quarterly in arrears. The loan is secured by a Mortgage Trust Indenture Agreement, or MTIA, dated March 15, 2004, with Asia United Bank Trust and Investments Group, on a parcel of land with a carrying value of Php279 million as at December 31, 2004. This loan was fully paid as at March 31, 2007.

Php149 Million Term Loan Facility

In January 2006, Vocativ, a wholly-owned call center subsidiary of ePLDT, partially prepaid Php89 million out of its outstanding five-year term loan facility of Php109 million with Asia United Bank for the payment of its additional capital expenditures and working capital requirements. Under the terms of the loan, principal payment is to be paid in 14 equal quarterly installments starting April 2006 with final repayment in July 2009. Interest on the loan is equivalent to 90-day PHIBOR plus 3% per annum payable quarterly in arrears. The loan is secured by a Mortgage Participation Certificate against the MTIA between ePLDT and Asia United Bank Corporation Trust and Investments Group dated March 15, 2004 on a parcel of land, which excludes the buildings and improvements. The remaining balance of Php20 million was pre-terminated in April 2006.

Unsecured Term Loans

Php2,500 Million Term Loan Facility

On August 14, 2006, Smart signed a Peso Term Loan Facility with Metropolitan Bank and Trust Company to finance the related Phase 9 GSM facility for an amount of Php2,500 million. The facility is a five-year loan payable in 18 equal consecutive quarterly installments commencing on the third quarter from the date of the first drawdown. Interest rate is floating at three-month MART plus 0.75% per annum margin. The facility was drawn on December 11, 2006 for the full amount of Php2,500 million at a floating interest of 6.0232% (5.2732% three-month MART1 plus 0.75% per annum margin). The first installment will commence on September 11, 2007 with final repayment on December 9, 2011. The full amount of Php2,500 million (Php2,490 million net of unamortized discount of Php10 million) was outstanding as at June 30, 2007.

Php400 Million and Php20 Million Refinancing Loans

On May 22, 2007, PLDT signed loan agreements with The Philippine American Life and General Insurance Company for Php400 million and The Philam Bond Fund, Inc. for Php20 million to refinance their respective participations in the Ten-Year Note under the Php1,270 million Peso Fixed Rate Corporate Notes which were repaid on June 12, 2007. Interest is payable quarterly. Both loans will mature on June 12, 2014.

Debt Covenants

Our debt instruments contain restrictive covenants, including covenants that could prohibit us from paying dividends on common stock under certain circumstances, and require us to comply with specified financial ratios and other

financial tests, calculated in conformity with PFRS, at relevant measurement dates, principally at the end of each quarterly period. We have complied with all of our maintenance financial ratios as required under our loan covenants and other debt instruments.

The principal factors that can negatively affect our ability to comply with these financial ratios and other financial tests are depreciation of the Philippine peso relative to the U.S. dollar, poor operating performance of PLDT and its consolidated subsidiaries, impairment or similar charges in respect of investments or other long-lived assets that may be recognized by PLDT and its consolidated subsidiaries and increases in our interest expenses. Interest expense may increase as a result of various factors including issuance of new debt, the refinancing of lower cost indebtedness by higher cost indebtedness, depreciation of the Philippine peso, the lowering of PLDT's credit ratings or the credit ratings of the Philippines, increase in reference interest rates, and general market conditions. Since approximately 89% of PLDT's total consolidated debts are denominated in foreign currencies, principally in U.S. dollars, many of these financial ratios and other tests are negatively affected by any weakening of the peso.

PLDT's debt instruments contain a number of other negative covenants that, subject to certain exceptions and qualifications, restrict PLDT's ability to take certain actions without lenders' approval, including: (a) incurring additional indebtedness; (b) prepaying other debt; (c) making investments; (d) extending loans; (e) extending guarantees or assuming the obligations of other persons; (f) paying dividends or other distributions or redeeming, repurchasing or otherwise acquiring shares of PLDT's capital stock; (g) disposing of all or substantially all of its assets or of assets in excess of specified thresholds of its tangible net worth; (h) creating any lien or security interest; (i) permitting set-off against amounts owed to PLDT; (j) merging or consolidating with any other company; (k) entering into transactions with stockholders and affiliates; and (l) entering into sale and leaseback transactions.

Further, certain of PLDT's debt instruments contain provisions wherein PLDT may be required to repurchase or prepay certain indebtedness in case of change in control of PLDT.

PLDT's debt instruments also contain customary and other default provisions that permit the lender to accelerate amounts due or terminate their commitments to extend additional funds under the debt instruments. These default provisions include: (a) cross-defaults and cross-accelerations that permit a lender to declare a default if PLDT is in default under another debt instrument; in some cases, the cross-default provision is triggered upon a payment or other default permitting the acceleration of PLDT's debt, whether or not the defaulted debt is accelerated. In other cases, the cross-default provision requires the defaulted loan to be accelerated. In some debt instruments, the cross-default provision will be triggered only if the principal amount of the defaulted indebtedness exceeds a threshold amount specified in these debt instruments; (b) failure by PLDT to meet certain financial ratio covenants referred to above; (c) the occurrence of any material adverse change in circumstances that a lender reasonably believes materially impairs PLDT's ability to perform its obligations under its debt instrument with the lender; (d) the revocation, termination or amendment of any of the permits or franchises of PLDT in any manner unacceptable to the lender; (e) the abandonment, termination or amendment of the project financed by a loan in a manner unacceptable to the lender; (f) the nationalization or sustained discontinuance of all or a substantial portion of PLDT's business; and (g) other typical events of default, including the commencement of bankruptcy, insolvency, liquidation or winding up proceedings by PLDT.

Smart's debt instruments contain certain restrictive covenants, including covenants that prohibit Smart from paying dividends, redeeming preferred shares, making contributions to PLDT or otherwise providing funds that require Smart to comply with specified financial ratios and other financial tests at semi-annual measurement dates. The loan facilities that contain restrictions in dividend payments and redemption of preferred stocks have been paid in April 2006. The financial tests under Smart's loan agreements include compliance with a debt to equity ratio of not more than 1.5:1.0, a debt to EBITDA ratio of not more than 3:1 and a debt service coverage ratio of not less than 1.5:1.0. As at June 30, 2007, Smart has maintained compliance with all of its financial covenants. The agreements also contain customary and other default provisions that permit the lender to accelerate amounts due under the loans or terminate their commitments to extend additional funds under the loans. These default provisions include: (a) cross-defaults and cross-accelerations that permit a lender to declare a default if Smart is in default under another loan agreement. These cross-default provisions are triggered upon a payment or other default permitting the acceleration of Smart debt, whether or not the defaulted debt is accelerated; (b) failure by Smart to comply with certain financial ratio covenants; (c) any reduction in PLDT's ownership of Smart's capital stock below 51% of the total of each class of issued shares; (d) any reduction in First Pacific's and Metro Pacific Corporation's collective direct and/or indirect ownership of PLDT's common stock below 17.5% of the total common stock outstanding or 17.5% of the voting power of PLDT's total common stock outstanding; and (e) the occurrence of any material adverse change in circumstances that the lender reasonably believes materially impairs Smart's ability to perform its obligations or impair guarantors' ability to perform their obligations under its loan agreements.

The Credit and Omnibus Agreements of Mabuhay Satellite impose several negative covenants which, among other things, restrict material changes in Mabuhay Satellite's nature of business and ownership structure, any lien upon or with respect to any of its assets or to any right to receive income, acquisition of capital stock, declaration and payment of dividends, merger, consolidation and sale with another entity and incurring or guaranteeing additional long-term debt beyond prescribed amounts.

ePLDT's loan agreement imposes negative covenants which, among other things, restrict ePLDT in regard to payment of cash dividends or any other income or any capital distribution to PLDT, voluntary suspension of its entire business operations for a period of 60 consecutive days, dissolution of its legal existence, and creation of any encumbrances on the shares pledged. One of ePLDT's loan agreements also requires ePLDT to comply with specified financial ratios and other financial tests at quarterly measurement dates. The agreement also contains customary and other default provisions that permit the lender to accelerate amounts due under the loan or terminate their commitments to extend additional funds under the loan. As at December 31, 2006, ePLDT was in compliance with all of its financial covenants.

Obligations Under Capital Lease

The future minimum payments for capitalized leases as at June 30, 2007 are as follows:

Year

(in million pesos)

2007	1,419
2008	50
2009	12
2010	1
Total minimum lease payments	1,482
Less amount representing interest	514
Present value of net minimum lease payments	968
Less obligations under capital lease maturing within one year (Notes 8 and 24)	929
Long-term portion of obligations under capital lease (Notes 8 and 24)	39

Municipal Telephone Projects

In 1993, PLDT entered into two lease agreements with the Philippine Department of Transportation and Communications, or DOTC, covering telecommunications facilities in the province of Bohol and Batangas established under the Municipal Telephone Act. Under these agreements, PLDT was granted the exclusive right to provide telecommunications management services, to expand services, and to promote the use of the DOTC-contracted facilities in certain covered areas for a period of 15 years. Title to the properties shall be transferred to PLDT upon expiration of the lease term. As at June 30, 2007, PLDT's aggregate remaining obligation under this agreement was approximately Php858 million. In case of cancellation, PLDT is liable to pay Php100 million under each of the two contracts as liquidated damages.

On June 1, 2004, PLDT served the DOTC a notice of termination of the lease agreement in respect of the telecommunications system in Bohol which state of deterioration, obsolescence and disrepair has made it impossible for PLDT to continue managing, operating, and maintaining the system. Since 2002, PLDT has been advising the DOTC of the need to review the viability of the system as PLDT has infused more than Php200 million for upgrades and maintenance to keep the system operable. Further, the enactment of Public Telecommunications Policy Act, or R.A. No. 7925, which negated the DOTC's warranty to grant PLDT the exclusive right to provide telecommunication services in the areas stipulated, prevented PLDT from achieving the originally projected profitability, thereby rendering it impossible for PLDT to continue fulfilling its obligation under the lease agreement. Although several discussions have been held since then, no mutually acceptable agreement has been reached. On June 30, 2004, the DOTC advised PLDT that the request for termination of the lease agreement in Bohol has been referred to the Department of Justice, or DOJ, as government agencies are required to refer all interpretation of contracts and agreements to the DOJ secretary as attorney-general of the national government. On May 5, 2005, PLDT received a letter from the DOTC stating that PLDT is in default for failure to remit to the DOTC the quarterly installments under the lease agreement. Due to the failure of the parties to amicably settle their dispute, on September 28, 2005, PLDT demanded that the dispute be referred to arbitration and that the parties agree on the composition of the arbitration committee. In response, the DOTC, in a letter dated October 17, 2005, informed PLDT that pursuant to Executive Order No. 269, Series of 2004, dated January 12, 2004, the existing communications programs and projects implemented by DOTC were transferred to the Commission on Information and Communications Technology, or CICT, and that the DOTC had forwarded to CICT PLDT's letter dated September 28, 2005. In a letter dated March 24, 2006, the CICT informed PLDT that the CICT poses no objection on PLDT's stated intentions and preference to refer the unresolved and outstanding issues to the Philippine Dispute Resolution Center, Inc., or PDRCI, per the arbitration clause of the lease agreement. On June 27, 2006, a Request for Arbitration dated June 1, 2006 was filed by PLDT with the PDRCI. On November 15, 2006, DOTC has filed its Answer to the said Request for Arbitration. After PDRCI took cognizance of the case, PLDT and DOTC filed their amended pleadings. DOTC filed a Supplemental Answer

with Prayer for Interim Relief, which prayed for, among others, the remittance to DOTC of the amount PLDT allegedly deposited in a separate account for the benefit of the former.

On June 1, 2007, the PDRCI issued a Final Partial Award (On the Request for Interim Relief), granting DOTC's prayer. PLDT was ordered to release to DOTC the amount of Php149 million subject to the posting by DOTC of a surety bond. PLDT has taken issue with the Final Partial Award and filed before the Court of Appeals a Petition for Review under Rule 43 of the Rules of Court to review the Award

In the meantime, DOTC filed an Application/Motion for Confirmation of Final Partial Award before the Regional Trial Court of Mandaluyong, which is currently pending.

As at June 30, 2007, the net book value of the telecommunications system in Bohol, including PLDT's additional capital expenditure relating to the telecommunications system, and corresponding capital lease obligation amounted to Php7 million and Php735 million, respectively.

Piltel also entered into an agreement for the financial lease of the Palawan Telecommunications System of the Municipal Telephone Public Office with the DOTC on June 3, 1994. The Municipal Telephone Public Office Contract is a 30-year contract for Piltel to lease facilities for public call office stations in the Palawan area, with revenues going to Piltel. In consideration, Piltel pays the DOTC an escalating annual lease fee. The total lease payment for thirty years is Php483 million. As at June 30, 2007, Piltel's aggregate remaining obligation under this agreement was approximately Php43 million.

Other Long-term Capital Lease Obligations

The PLDT Group has various long-term lease contracts for a period of three years covering various office equipment. In particular, PLDT, Smart and ePLDT have capital lease obligations in the aggregate amount of Php67 million as at June 30, 2007 in respect of office equipment.

Under the terms of certain loan agreements and other debt instruments, PLDT may not create, incur, assume or permit or suffer to exist any mortgage, pledge, lien or other encumbrance or security interest over the whole or any part of its assets or revenues or suffer to exist any obligation as lessee for the rental or hire of real or personal property in connection with any sale and leaseback transaction.

Preferred Stock Subject to Mandatory Redemption

The movements of PLDT's preferred stock subject to mandatory redemption as at June 30, 2007 and December 31, 2006 are as follows:

	June 30, 2007			December 31, 2006 (Audited)			
	(Unaudited)			Series V	Series VI	Series VII	Total
	Series V	Series VI	Total	(in million pesos)			
Balance at beginning of period	61	1,308	1,369	272	6,321	5,381	11,974
Accretion	6	72	78	13	481	282	776
Conversion	(8)	(198)	(206)	(224)	(5,253)	(5,543)	(11,020)
Revaluation		(67)	(67)		(241)	(120)	(361)
Balance at end of period	59	1,115	1,174	61	1,308		1,369

As at June 30, 2007, PLDT had issued 3 million shares of Series V Convertible Preferred Stock, 5 million shares of Series VI Convertible Preferred Stock and 4 million shares of Series VII Convertible Preferred Stock in exchange for a total of 58 million shares of Series K Class I Convertible Preferred Stock of Piltel, pursuant to the debt restructuring plan of Piltel adopted in June 2001. As discussed below, as at December 31, 2006, all Series VII Convertible Preferred Stock had been converted. Shares of Series V and VI Convertible Preferred Stock are entitled to receive annual dividends of Php18.70 per share and US\$0.397 per share, respectively. Each share of Series V and VI Convertible Preferred Stock is convertible at any time at the option of the holder into one PLDT common share. On the date immediately following the seventh anniversary of the issue date of the Series V and Series VI Convertible Preferred Stock, the remaining outstanding shares under these series will be mandatorily converted into PLDT common shares. Under a put option exercisable for 30 days, holders of common shares received, on mandatory conversion of the Series V and VI Convertible Preferred Stock, will be able to require PLDT to purchase such PLDT common shares for Php1,700 per share and US\$36.132 per share, respectively.

The Series V Convertible Preferred Stock was designated as a compound instrument consisting of liability and equity components. The fair value of the Convertible Preferred Stock was determined on the issue date, of which the fair value of the liability component as at date of issuance is recorded as Preferred Stock Subject to Mandatory Redemption and is included under the Interest-bearing Financial Liabilities account in the consolidated balance sheets. The residual amount was assigned as the equity component.

The cost of each foreign currency component of the Convertible Preferred Stock Series VI and VII, was designated as a debt instrument with embedded call options. The fair value of the Convertible Preferred Stock was determined on the issue date, of which the fair value of embedded call options was bifurcated and accounted for separately, see *Note 2 Summary of Significant Accounting Policies and Practices* and *Note 24 Financial Assets and Liabilities*. The residual amount was assigned as liability components and recorded as Preferred Stock Subject to Mandatory Redemption and is included under the Interest-bearing Financial Liabilities account in the consolidated balance sheets.

The difference between the amount designated as liability components of the Series V, VI and VII Convertible Preferred Stock at issue date and the aggregate redemption value is accreted over the period up to the put option date using the effective interest rate method. Accretions added to Preferred Stock Subject to Mandatory Redemption and charged to interest as at June 30, 2007 and 2006 amounted to Php78 million and Php596 million, respectively.

Preferred Stock Subject to Mandatory Redemption amounted to Php1,174 million and Php1,369 million as at June 30, 2007 and December 31, 2006, respectively, after revaluation of Series VI and VII Convertible Preferred Stock to the exchange rates at balance sheet dates and after giving effect to the above accretions, conversions and additional issuances. As at June 30, 2007 and December 31, 2006, 11,074,756 shares and 10,937,309 shares, respectively, of the Convertible Preferred Stock have been voluntarily converted into PLDT common shares. On August 18, 2006, all 3,842,000 shares of Series VII Convertible Preferred Stock have been voluntarily converted into PLDT common shares. The outstanding shares of Series V and VI Convertible Preferred Stock as at June 30, 2007 were 40,570 shares and 743,218 shares, respectively. The aggregate redemption value of the outstanding Series V and VI Convertible Preferred Stock amounted to Php1,311 million and Php1,629 million as at June 30, 2007 and December 31, 2006, respectively.

The corresponding dividends on these shares charged as interest expense amounted to Php9 million and Php93 million for the six months ended June 30, 2007 and 2006, respectively.

Notes Payable

In 2006, SPi obtained unsecured dollar-denominated short-term notes payable from various local commercial banks amounting to US\$5.6 million. Interest on the notes range from 6.9% to 7.2% of the outstanding balance per annum and the notes are payable within an average of 150 days from the availment date. The outstanding balance of Php258 million as at June 30, 2007 will mature in various months in 2007.

18. Other Noncurrent Liabilities

This account consists of:

June 30,	
2007	December 31, 2006

Others	664	1,026
	15,129	19,102

20. Related Party Transactions

a. Air Time Purchase Agreement between PLDT and AIL and Related Agreements

PLDT is a party to a Founder NSP Air Time Purchase Agreement, or ATPA, entered into with AIL in March 1997, which was amended in December 1998 (as amended, the Original ATPA), under which PLDT was granted the exclusive right to sell AIL services as national service provider, or NSP, in the Philippines. In exchange, the Original ATPA required PLDT to purchase from AIL a minimum of US\$5 million worth of air time (the Minimum Air Time

Purchase Obligation) annually over ten years commencing on January 1, 2002 (the Minimum Purchase Period), the purported date of commercial operations of the Garuda I Satellite. In the event that AIL's aggregate billed revenue was less than US\$45 million in any given year, the Original ATPA also required PLDT to make supplemental air time purchase payments not to exceed US\$15 million per year during the Minimum Purchase Period (the Supplemental Air Time Purchase Obligation).

Under the Original ATPA, the Minimum Air Time Purchase Obligation and the Supplemental Air Time Purchase Obligation terminated upon the earlier of (i) the expiration of the Minimum Purchase Period and (ii) the date on which all indebtedness incurred by AIL to finance the AIL System has been repaid. AIL indebtedness consists of: (1) loans with several financial institutions (the Banks) under the Credit Agreement dated March 12, 1997, as amended from time to time, including the amendment through the rescheduling agreement, dated September 30, 2002, which extended the principal repayment dates to agreed periods with the final maturity date on January 31, 2012 (collectively, the Amended Credit Agreement); and (2) amounts owing to MMOC under the Spacecraft Contract dated August 28, 1995, as amended on December 30, 1998.

AIL has incurred recurring significant operating losses, negative operating cash flows, and significant levels of debt. The financial condition of AIL was partly due to the NSPs, inability to generate the amount of revenues originally expected as the growth in subscriber numbers has been significantly lower than budgeted.

On September 1, 2006, AIL, PT Asia Cellular Satellite, a 95% owned subsidiary of AIL, and Inmarsat Global Limited, or Inmarsat, reached an agreement to pool their resources to develop powerful and novel product and service offerings in the Asian region, founded on their respective mobile satellite communications networks, with (a) Inmarsat performing the role of satellite and network operator and wholesale product and services developer and (b) AIL performing the role of wholesale and retail distributor of products and services.

Inmarsat operates a constellation of geostationary satellites that extend mobile phone, fax and data communications to nearly every part of the world through the services it offers to end users through its established chain of distribution partners and satellite communications service providers.

On September 1, 2006, PLDT entered into a gateway services agreement with Inmarsat, under which PLDT committed to provide gateway infrastructure in Subic Bay up to a maximum amount of US\$5 million. In exchange, PLDT will earn US\$0.015 per minute for interconnection services to be provided to Inmarsat distribution partners for traffic going through the gateway facility in Subic Bay.

On September 1, 2006, AIL and PT Asia Cellular Satellite entered into a term sheet, as amended on October 20, 2006 and further amended on November 20, 2006 (the Bank Term Sheet), with a majority of the banks to be used as the basis for further good faith negotiations between the parties thereto with a view to entering into an agreement further amending the Amended Credit Agreement with AIL's bank creditors. Under the Banks Term Sheet, a majority of the banks agreed, subject to satisfaction of certain conditions, among other things, to amend the Original ATPA as set

forth in an attachment to the Banks Terms Sheet and to restructure AIL's indebtedness. Pursuant to the business collaboration arrangements between AIL and Inmarsat, on September 1, 2006, Inmarsat made the first payment of US\$4 million to AIL which was used to pay principal and interest payable to the banks in accordance with the Banks Term Sheet.

On February 1, 2007, the parties to the Original ATPA entered into an amendment to the Original ATPA on substantially the terms attached to the Bank Terms Sheet (the Amended ATPA). Under the Amended ATPA, the Minimum Air Time Purchase Obligation was amended and replaced in its entirety with an obligation of PLDT (the Amended Minimum Air Time Purchase Obligation) to purchase from AIL a minimum of US\$500,000 worth of air time annually over a period ending upon the earlier of (i) the expiration of the Minimum Purchase Period and (ii) the date on which all indebtedness incurred by AIL to finance the AIL System is repaid. Furthermore, the Amended ATPA unconditionally released PLDT from any obligations arising out of or in connection with the Original ATPA prior to the date of the Amended ATPA, except for obligations to pay for billable units used prior to such date. Moreover, pursuant to a letter of confirmation, dated February 1, 2007, the banks released and discharged PLDT and ACeS Philippines and their respective subsidiaries from any and all obligations and liabilities under the Original ATPA and related agreements.

Moreover, in accordance with the above contractual arrangements, ACeS Philippines acquired (i) from LMGT Holdings (ACeS), Inc., or LMGT, 50% of its equity interest in AIL for a consideration of US\$0.75 million pursuant to a sale and purchase agreement entered into on February 1, 2007 and (ii) from Tera Global Investment Ltd., or TGIL, for a nominal consideration 50% of TGIL's interest in a promissory note issued by AIL, which 50% interest represents an aggregate amount of US\$44,743,752, or the Transferred AIL Note, together with related security interests pursuant to sale agreement entered into on February 1, 2007. Immediately thereafter, a portion of the Transferred AIL Note was converted into shares of AIL and the balance was converted into non-interest bearing convertible bonds of AIL. As a result of these transactions, ACeS Philippines owned 36.99% of AIL as at the date of this report.

b. Transactions with Major Stockholders, Directors and Officers

Transactions to which PLDT or any of its subsidiaries is a party, in which a director, key officer or owner of more than 10% of the outstanding common stock of PLDT, or any member of the immediate family of a director, key officer or owner of more than 10% of the outstanding common stock of PLDT had a direct or indirect material interest, as at June 30, 2007 (unaudited) and December 31, 2006 (audited) and for the six months ended June 30, 2007 and 2006 (unaudited) are as follows:

1. Cooperation Agreement with First Pacific and certain affiliates, or the FP Parties, NTT Communications and DoCoMo

In connection with the transfer by NTT Communications of approximately 12.6 million shares of PLDT's common stock to DoCoMo pursuant to a Stock Sale and Purchase Agreement dated January 31, 2006 between NTT

Communications and DoCoMo, the FP Parties, NTT Communications and DoCoMo entered into a Cooperation Agreement, dated January 31, 2006. Under the Cooperation Agreement, the relevant parties extended certain rights of NTT Communications under the Stock Purchase and Strategic Investment Agreement dated September 28, 1999, as amended, and the Shareholders Agreement dated March 24, 2000, to DoCoMo, including:

- certain contractual veto rights over a number of major decisions or transactions; and
- rights relating to the representation on the board of directors of PLDT and Smart, respectively, and any committees thereof.

Moreover, key provisions of the Cooperation Agreement pertain to, among other things:

- *Restriction on Ownership of Shares of PLDT by NTT Communications and DoCoMo.* Each of NTT Communications and DoCoMo has agreed not to beneficially own, directly or indirectly, in the aggregate with their respective subsidiaries and affiliates, more than 21% of then issued and outstanding shares of PLDT's common stock. If such event does occur, the FP Parties, as long as they own in the aggregate not less than 21% of then issued and outstanding shares of PLDT's common stock, have the right to terminate their respective rights and obligations under the Cooperation Agreement, the Shareholders Agreement and the Stock Purchase and Strategic Investment Agreement.
- *Limitation on Competition.* NTT Communications, DoCoMo and their respective subsidiaries are prohibited from investing in excess of certain thresholds in businesses competing with PLDT in respect of customers principally located in the Philippines and from using their assets in the Philippines in such businesses. Moreover, if PLDT, Smart or any of Smart's subsidiaries intends to enter into any contractual arrangement relating to certain competing businesses, PLDT is required to provide, or to use reasonable efforts to procure that Smart or any of Smart's subsidiaries provide, NTT Communications and DoCoMo with the same opportunity to enter into such agreement with PLDT or Smart or Smart's subsidiaries, as the case may be.
- *Business Cooperation.* PLDT and DoCoMo agreed in principle to collaborate with each other on the business development, roll-out and use of a wireless-code division multiple access mobile communication network. In addition, PLDT agreed, to the extent of the power conferred by its direct or indirect shareholding in Smart, to procure that Smart will (i) become a member of a strategic alliance group for international roaming and corporate sales and services and (ii) enter into a business relationship concerning preferred roaming and inter-operator tariff discounts with DoCoMo.
- *Additional Rights of DoCoMo.* Upon NTT Communications, DoCoMo and their subsidiaries owning in the aggregate 20% or more of the shares of PLDT's common stock and for as long as NTT Communications, DoCoMo

and their subsidiaries continue to own in the aggregate 17.5% of the shares of PLDT's common stock then outstanding, DoCoMo will be entitled to certain additional rights under the Cooperation Agreement.

- *Change in Control.* Each of NTT Communications, DoCoMo and the FP Parties agreed that to the extent permissible under applicable laws and regulations of the Philippines and other jurisdictions, subject to certain conditions, to cast its vote as a shareholder in support of any resolution proposed by the Board of Directors of PLDT for the purpose of safeguarding PLDT from any Hostile Transferee. A *Hostile Transferee* is defined under the Cooperation Agreement to mean any person (other than NTT Communications, DoCoMo, First Pacific or any of their respective affiliates) determined to be so by the PLDT Board of Directors and includes, without limitation, a person who announces an intention to acquire, seeking to acquire or acquires 30% or more of PLDT common shares then issued and outstanding from time-to-time or having (by itself or together with itself) acquired 30% or more of the PLDT common shares announces an intention to acquire, seeking to acquire or acquires a further 2% of such PLDT common shares: (a) at a price per share which is less than the fair market value as determined by the board of directors of PLDT as advised by a professional financial advisor; (b) which is subject to conditions which are subjective or which could not reasonably be satisfied; (c) without making an offer for all PLDT common shares not held by it and/or its affiliates and/or persons who, pursuant to an agreement or understanding (whether formal or informal), actively cooperate to obtain or consolidate control over PLDT; (d) whose offer for the PLDT common shares is unlikely to succeed or (e) whose intention is otherwise not *bona fide*; provided that, no person will be deemed a Hostile Transferee unless prior to making such determination, the board of directors of PLDT has used reasonable efforts to discuss with NTT Communications and DoCoMo in good faith whether such person should be considered a Hostile Transferee.
- *Termination.* If NTT Communications, DoCoMo or their respective subsidiaries cease to own, in the aggregate, full legal and beneficial title to at least 10% of the shares of PLDT's common stock then issued and outstanding, their respective rights and obligations under the Cooperation Agreement and the Shareholders Agreement will terminate and the Strategic Arrangements (as defined in the Stock Purchase and Strategic Investment Agreement) will terminate. If the FP Parties and their respective subsidiaries cease to have, directly or indirectly, effective voting power in respect of shares of PLDT's common stock representing at least 18.5% of the shares of PLDT's common stock then issued and outstanding, their respective rights and obligations under the Cooperation Agreement, the Stock Purchase and Strategic Investment Agreement, and the Shareholders Agreement will terminate.

2. *Integrated i-mode Services Package Agreement between DoCoMo and Smart*

An Integrated i-mode Services Package Agreement was entered into by Smart and DoCoMo on February 15, 2006, under which DoCoMo agreed to grant Smart, on an exclusive basis within the territory of the Philippines for a period of five years, an integrated i-mode services package including a non-transferable license to use the licensed materials and the i-mode brand, as well as implementation support and assistance and post-commercial launch support from DoCoMo. Pursuant to this agreement, Smart is required to pay an initial license fee and running royalty fees based on the revenue arising from i-mode subscription fees and data traffic. Outstanding obligation under this agreement amounted to Php46 million and Php53 million as at June 30, 2007 and December 31, 2006, respectively.

3. Advisory Services Agreement between DoCoMo and PLDT

An Advisory Services Agreement was entered into by DoCoMo and PLDT on June 5, 2006, in accordance with the Cooperation Agreement dated January 31, 2006. Pursuant to the Advisory Services Agreement, DoCoMo will provide the services of certain key personnel in connection with certain aspects of the business of PLDT and Smart. Also, said agreement governs the terms and conditions of the appointments of such key personnel and the corresponding fees related thereto. Total fees under this agreement for the six months ended June 30, 2007 amounted to Php38 million. Outstanding liability under this agreement amounted to Php6 million and Php32 million as at June 30, 2007 and December 31, 2006, respectively.

4. Other Agreements with NTT Communications and/or its Affiliates

PLDT is a party to the following agreements with NTT Communications and/or its affiliates:

- *Advisory Services Agreement.* On March 24, 2000, PLDT entered into an agreement with NTT Communications, as amended on March 31, 2003, March 31, 2005 and June 16, 2006, under which NTT Communications provides PLDT with technical, marketing and other consulting services for various business areas of PLDT starting April 1, 2000;
- *Arcstar Licensing Agreement and Arcstar Service Provider Agreement.* On March 24, 2000, PLDT entered into an agreement with NTT Worldwide Telecommunications Corporation under which PLDT markets managed data and other services under NTT Communications Arcstar brand to its corporate customers in the Philippines. PLDT also entered into a Trade Name and Trademark Agreement with NTT Communications under which PLDT has been given the right to use the tradename Arcstar and its related trademark, logo and symbols, solely for the purpose of PLDT's marketing, promotional and sales activities for the Arcstar services within the Philippines; and
- *Conventional International Telecommunications Services Agreement.* On March 24, 2000, PLDT entered into an agreement with NTT Communications under which PLDT and NTT Communications agreed to cooperative arrangements for conventional international telecommunications services to enhance their respective international businesses.

Total fees under these agreements amounted to Php47 million and Php100 million for the six months ended June 30, 2007 and 2006, respectively. As at June 30, 2007 and December 31, 2006, outstanding obligations of PLDT amounted to Php6 million and Php18 million, respectively.

5. *Agreement between Smart and Asia Link B.V., or ALBV.* Smart has an existing Technical Assistance Agreement with ALBV, a subsidiary of the First Pacific Group, for the latter's provision of technical support services and assistance in the operations and maintenance of cellular business for a period of five years, subject to renewal upon mutual agreement between the parties. The agreement provides for quarterly payments of technical service fees equivalent to 2% of the net revenues of Smart. In January 2004, the agreement was amended, reducing the technical service fees to be paid by Smart to ALBV to 1% of net revenues effective January 1, 2004. On February 18, 2004, Smart and ALBV entered into a renewal of the Technical Assistance Agreement extending the effectivity of the terms thereof to February 23, 2008. Furthermore, in view of the acquisition by Smart of ownership of 92.1% of the outstanding common stock of Piltel held by PLDT, the parties agreed to make the consolidated net revenues of Smart the basis for the computation of the 1% technical service fees payable by Smart to ALBV, effective January 1, 2005. Total service fees charged to operations under this agreement amounted to Php300 million and Php274 million for the six months ended June 30, 2007 and 2006, respectively. Outstanding payable of Smart to ALBV under this agreement as at June 30, 2007 and December 31, 2006 amounted to Php7 million and Php128 million, respectively.

Smart also has an existing Services Agreement with ALBV for a period of 25 years starting January 1, 1999, which will automatically expire unless renewed by mutual agreement of both parties. Under the agreement, ALBV provides advice and assistance to Smart in sourcing capital equipment and negotiating with international suppliers, arranging international financing and other services therein consistent with and for the furtherance of the objectives of the services. Service agreement fees were paid for the whole 25-year period. Outstanding prepaid management fees as at June 30, 2007 and December 31, 2006 amounted to Php843 million and Php869 million, respectively. Financing service fee charged to operations amounted to Php26 million each for the six months ended June 30, 2007 and 2006.

6. *Agreements Relating to Insurance Companies.* Gotuaco del Rosario and Associates, or Gotuaco, acts as the broker for certain insurance companies to cover certain insurable properties of the PLDT Group. Insurance premiums are remitted to Gotuaco and the broker's fees are settled between Gotuaco and the insurance companies. In addition, PLDT has an insurance policy with Malayan Insurance Co., Inc., or Malayan, wherein premiums are directly paid to Malayan. Total insurance expenses under these agreements amounted to Php198 million and Php189 million for the six months ended June 30, 2007 and 2006, respectively. Two directors of PLDT have direct/indirect interests in or serve as a director/officer of Gotuaco and Malayan.

Compensation of Key Management Personnel of the PLDT Group

PLDT Group's compensation of key management personnel by benefit type follows:

**Six Months
Ended
June 30,
2007 2006
(Unaudited)
(in million
pesos)**

Short-term employee benefits	364	374
Share-based payments (Note 21)	115	282
Post-employment benefits	29	17
	508	673

Each of the directors, including the members of the advisory board of PLDT, is entitled to a director's fee in the amount of Php125,000 for each meeting of the board attended. Each of the members or advisors of the audit, executive compensation, governance and nomination and finance committees is entitled to a fee in the amount of Php50,000 for each committee meeting attended.

There are no agreements between PLDT Group and any of its key management personnel providing for benefits upon termination of employment, except for such benefits to which they may be entitled under PLDT Group's retirement and incentive plans.

21. Employee Benefits

Executive Stock Option Plan, or ESOP

On April 27, 1999 and December 10, 1999, the Board of Directors and stockholders, respectively, approved the establishment of an ESOP and the amendment of the Seventh Article of the Articles of Incorporation of PLDT denying the pre-emptive right of holders of common stock to subscribe for any issue of up to 1,289,745 common stock pursuant to the ESOP. The ESOP covers management executives, which include officers with rank of Vice President up to the President, executives with the rank of Manager up to Assistant Vice President, and advisors/consultants engaged by PLDT. The ESOP seeks to motivate option holders to achieve PLDT's goals, reward option holders for the creation of shareholder value, align the option holders' interests with those of the stockholders of PLDT, and retain the option holders to serve the long-term interests of PLDT. The ESOP is administered by the Executive Compensation Committee of the Board of Directors. About 1.3 million shares of common stock of PLDT had been reserved as underlying option shares under the ESOP in 1999.

Movements in the number of stock options outstanding under the ESOP are as follows:

June 30,	December 31, 2006
2007	(Audited)

	(Unaudited)	
Balance at beginning of period	119,034	197,500
Exercised shares*	(63,752)	(78,466)
Balance at end of period	55,282	119,034

* *Based on date of payment of exercised shares.*

As at June 30, 2007, there are 814,568 shares exercised by certain officers and executives at an exercise price of Php814 per share.

The fair value of the ESOP was estimated at the date of grant using an option pricing model, which considered annual stock volatility, risk-free interest rate, expected life of the option, exercise price of Php814 per share, and a weighted average price of Php870 and Php315 per share for the 1999 and 2002 Grants, respectively, as at valuation date. Total fair value of shares granted amounted to Php359 million as at June 30, 2007 and December 31, 2006. No fair value of options were recognized as an expense for the six months ended June 30, 2007 and 2006.

LTIP

On August 3, 2004, PLDT's Board of Directors approved the establishment of a Long-term Incentive Plan, or Original LTIP, for eligible key executive officers and advisors of PLDT and its subsidiaries, which is administered by the Executive Compensation Committee. The Original LTIP was a four-year cash-settled share based plan covering the period from January 1, 2004 to December 31, 2007, or the Performance Cycle. The payment was intended to be made at the end of the Performance Cycle (without interim payments) and contingent upon the achievement of an approved target increase in PLDT's common share price by the end of the Performance Cycle and a cumulative consolidated net income target for the Performance Cycle.

On August 28, 2006, PLDT's Board of Directors approved, in principle, the broad outline of the PLDT Group's strategic plans for 2007 to 2009 focusing on the development of new revenue streams to drive future growth while protecting the existing core communications business. To ensure the proper execution of the three-year plan, particularly with respect to the manpower resources being committed to such plans, a new LTIP, or New LTIP, upon endorsement of the Executive Compensation Committee, was approved by the Board of Directors to cover the period from January 1, 2007 to December 31, 2009, or New Performance Cycle. As a result of the establishment of the New LTIP, the Board also approved the early vesting of the Original LTIP by the end of 2006 for those of its participants who were invited to join the New LTIP and chose to join. Participants in the Original LTIP who were not invited to join the New LTIP, or who were invited but chose not to join, remained subject to the Original LTIP and its original vesting schedule.

Total number of shares appreciation rights remained outstanding under the existing 2004 to 2006 LTIP as at June 30, 2007 was 34,112 which is expected to be paid in May 2008. Total number of share appreciation rights awarded under the new 2007 to 2009 LTIP as at June 30, 2007 was 4,171,668, which will be paid in 2010.

The fair value of the LTIP was estimated using an option pricing model, which considered annual stock volatility, risk-free interest rates, the remaining life of options and the share price capped at Php2,300.00 as at December 31, 2006 for 2004 to 2006 LTIP and share price of Php2,650 as at June 30, 2007 for 2007 to 2009 LTIP. Incentive cost per share as at June 30, 2007 for the existing 2004 to 2006 LTIP and for the new 2007 to 2009 LTIP amounted to Php1,350.00 and Php884.04, respectively. The fair value of the LTIP recognized as an expense for the six months ended June 30, 2007 (under the 2007 to 2009 LTIP) and 2006 (under the 2004 to 2006 LTIP) amounted to Php583 million and Php933 million, respectively. As at June 30, 2007 and December 31, 2006, total LTIP liability amounted to Php672 million and Php5,030 million, respectively, see *Note 3 Management's Use of Estimates and Judgments*.

Pension

Defined Benefit Pension Plans

We have defined benefit pension plans, covering substantially our permanent and regular employees, excluding those of Smart and its subsidiary, I-Contacts, which require contributions to be made to separate administrative funds.

Our actuarial valuation is done on an annual basis. Based on the latest actuarial valuation, the actual present value of accrued liabilities, net of pension cost and average assumptions used in developing the valuation are as follows:

	(in million pesos)
Benefit obligation as at December 31, 2006	13,314
Fair value of plan assets as at December 31, 2006	5,768
Funded status	7,546
Unrealized net transition obligation	(1)
Unrecognized net actuarial loss	(4,657)
Accrued benefit cost as at December 31, 2006 (Audited)	2,888
Accrual of pension cost during the period	715
Contributions	(544)
Accrued benefit cost as at June 30, 2007 (Unaudited)	3,059

Net pension cost was computed as follows:

	Six Months Ended June 30, 2007 2006	
	(Unaudited)	
	(in million pesos)	
Components of net periodic benefit cost:		
Current service cost	423	245
Interest cost	532	447
Expected return on plan assets	(302)	(270)
Amortizations of unrecognized net actuarial loss	62	23
Net periodic benefit cost	715	445

The weighted average assumptions used to determine pension benefits as at June 30, 2007 are as follows:

Discount rate	8%
Rate of increase in compensation	9%
Expected rate of return on plan assets	10%

As at June 30, 2007 and December 31, 2006, the assets of the beneficial trust fund established for the PLDT's pension plan include investments in shares of stocks of PLDT and Piltel with fair values aggregating Php2,285 million and Php2,185 million, which represent about 31% and 35%, respectively, of such beneficial trust fund's net assets available for plan benefits.

The Board of Trustees of the beneficial trust fund uses an investment approach of mixed equity and fixed income investments to maximize the long-term expected return of plan assets. The investment portfolio has been structured to achieve the objective of regular income with capital growth and out-performance of benchmarks. A majority of the investment portfolio consists of fixed income debt securities and various equity securities, while the remaining portion consists of multi-currency investments.

The allocation of the fair value of the beneficial trust fund's assets for the PLDT pension plan follows:

	June 30, 2007	December 31, 2006
	(Unaudited)	(Audited)
Investments in equity securities	52%	52%
Investments in debt and fixed income securities	23%	23%
Investments in real estate	9%	10%

Edgar Filing: PHILIPPINE LONG DISTANCE TELEPHONE CO - Form 6-K

Investments in mutual funds	9%	8%
Investments in temporary placements	7%	7%
	100%	100%

PLDT currently expects to make approximately Php509 million of cash contributions to its pension plan in 2007.

Defined Contribution Plan

Contributions to the plan are made based on the employee's years of tenure and range from 5% to 10% of the employee's monthly salary. Additionally, employee has an option to make a personal contribution to the fund, at an amount not exceeding 10% of his monthly salary. The employer then provides an additional contribution to the fund ranging from 10% to 50% of the employee's contribution based on the latter's years of tenure.

The Plan's investment portfolio seeks to achieve regular income and long-term capital growth and consistent performance over its own portfolio benchmark. In order to attain this objective, the trustee's mandate is to invest in a diversified portfolio of bonds and equities, both domestic and international. The portfolio mix is kept at 60% to 90% for fixed income securities while 10% to 40% is allotted to equity securities.

The allocation of the fair value of plan assets for Smart as at June 30, 2007 (unaudited) and as at December 31, 2006 (audited) follows:

Investments in debt securities	68%
Investments in equity securities	29%
Others	3%
	100%

Smart currently expects to make approximately Php109 million of cash contributions to its pension plan in 2007.

Pension Benefit Cost

Total pension benefit cost follows:

	Six Months Ended June 30, 2007 2006	
	(Unaudited)	
	(in million pesos)	
Expense recognized for defined benefit plans	715	445
Expense recognized for defined contribution plans	63	54
Total	778	499

22. Contractual Obligations and Commercial Commitments

Contractual Obligations

The following table discloses our unaudited consolidated contractual obligations outstanding as at June 30, 2007:

	Payments Due by Period				
	Total	2-3		4-5	
		Within 1 year	years	Years	After 5 years
	(in million pesos)				
Long-term debt(1)	73,144	7,987	18,686	18,069	28,402
Long-term lease obligations:					
Capital lease	1,482	1,445	36		1
Operating lease	3,534	646	1,246	823	819
Unconditional purchase obligations(2)	763	12	46	220	485
Other long-term obligations	1,311		1,311		
Total contractual obligations	80,234	10,090	21,325	19,113	29,706

(1) Before deducting unamortized debt discount and debt issuance costs.

(2) Based on the Amended ATPA with AIL.

Long-term Debt

For a discussion of our long-term debt, see *Note 17 Interest-bearing Financial Liabilities*.

Long-term Capital Lease Obligations

For the discussion of our long-term capital lease obligations, see *Note 17 Interest-bearing Financial Liabilities*.

Long-term Operating Lease Obligations

Digital Passage Service Contracts. PLDT has existing Digital Passage Service Contracts with foreign telecommunication administrations for several dedicated circuits to various destinations for 10 to 25 years expiring at various dates. As at June 30, 2007, PLDT's aggregate remaining obligation under these contracts amounted to approximately Php4 million.

License Agreement with Mobius Management Systems (Australia) Pty Ltd., or Mobius. PLDT entered into a license agreement with Mobius pursuant to which Mobius has granted PLDT a non-exclusive, non-assignable and non-transferable license for the use of computer software components. Under this agreement, Mobius is also required to provide maintenance services for a period of one year at no additional maintenance charge. PLDT may purchase maintenance services upon expiration of the first year for a fee of 15% of the current published license fee. As at June 30, 2007, PLDT's aggregate remaining obligation under this agreement was approximately Php20 million.

Other Long-term Operating Lease Obligations. The PLDT Group has various long-term lease contracts for periods ranging from two to ten years covering certain offices, warehouses, cell sites telecommunication equipment locations and various office equipment. In particular, Smart has lease obligations amounting to Php3,091 million as at June 30, 2007 in respect of office and cell site rentals with over 3,000 lessors nationwide, PLDT has lease obligations amounting to Php85 million as at June 30, 2007 in respect of office and lot rentals with over 172 lessors nationwide, ePLDT has lease obligations amounting to Php186 million as at June 30, 2007 in respect of certain office space rentals and PLDT Global has lease obligations amounting to Php148 million as at June 30, 2007 in respect of certain office space rentals.

Unconditional Purchase Obligations

See *Note 20 Related Party Transactions*, for a discussion of PLDT's obligation under the amended ATPA.

As at June 30, 2007, PLDT's aggregate remaining minimum obligation under the amended ATPA was approximately Php763 million.

Other Long-term Obligations

Mandatory Conversion and Purchase of Shares. As discussed in *Note 17 Interest-bearing Financial Liabilities*, as at June 30, 2007, PLDT had issued a total of 3 million shares of Series V Convertible Preferred Stock, 5 million shares of Series VI Convertible Preferred Stock and 4 million shares of Series VII Convertible Preferred Stock in exchange for a total of 58 million shares of Series K Class I Convertible Preferred Stock of Piltel, pursuant to the debt restructuring plan of Piltel adopted in June 2001. As at June 30, 2007, 2,680,870 shares of Series V Convertible Preferred Stock and 4,551,886 shares of Series VI Convertible Preferred Stock and 3,842,000 shares of Series VII Convertible Preferred Stock had been voluntarily converted to PLDT common shares. As at June 30, 2007, 40,570 shares of Series V and 743,218 shares of Series VI Convertible Preferred Stocks remained outstanding.

Each share of Series V and VI Convertible Preferred Stock is convertible at any time at the option of the holder into one PLDT common share. On the date immediately following the seventh anniversary of the issue date of the Series V and Series VI Convertible Preferred Stocks, the remaining outstanding shares under these series will be mandatorily converted to PLDT common shares. Under a put option exercisable for 30 days, holders of common shares received on mandatory conversion of the Series V and VI Convertible Preferred Stocks will be able to require PLDT to purchase such PLDT common shares for Php1,700 per share and US\$36.132 per share, respectively.

The aggregate value of the put option based on outstanding shares as at June 30, 2007 was Php1,311 million which is puttable on June 4, 2008, if all of the outstanding shares of Series V and VI Convertible Preferred Stocks were mandatorily converted and all the common shares were put to PLDT at that time. The market value of the underlying shares of common stock was Php2,077 million, based on the market price of PLDT common shares of Php2,650 per share as at June 30, 2007.

Commercial Commitments

As at June 30, 2007, our outstanding commercial commitments, in the form of letters of credit, amounted to Php1,767 million. These commitments will expire within one year.

23. Provisions and Contingencies

As discussed below, we currently expect that going forward, we will pay local franchise taxes on an annual basis and based on the gross receipts received or collected for services rendered within the jurisdiction of the respective taxing authority. For this reason, we have made the appropriate provisions in our unaudited consolidated financial statements as at June 30, 2007.

NTC Supervision and Regulation Fees, or SRF

Since 1976, PLDT has received assessments from NTC for permit, SRF and other charges pursuant to Section 40 of Commonwealth Act 146, otherwise known as the Public Service Act. As at December 31, 2006, PLDT had paid, since 1994, a total amount of Php2,219 million in SRF, of which Php1,956 million was paid under protest.

PLDT is contesting the manner by which these assessments were calculated and the basis for such calculations. The case is now with the Supreme Court and upon the rules and practice of court, stands submitted for decision.

Local Business and Franchise Tax Assessments

PLDT is presently a party to several cases involving the issue of exemption of PLDT from local franchise and business taxes. PLDT believes, based on the opinion of its legal counsel, that it is exempt from payment of local franchise and business taxes.

The Local Government Code of 1991, or Republic Act (R.A.) 7160, which took effect on January 1, 1992, extended to local government units, or LGUs, the power to tax businesses within their territorial jurisdiction granted under Batas Pambansa 337, and withdrew tax exemptions previously granted to franchise grantees under Section 12 of R.A. 7082.

PLDT believes, based on the opinion of its legal counsel, that R.A. 7925 which took effect on March 16, 1995, and the grant of local franchise and business taxes exemption privileges to other franchise holders subsequent to the effectivity of R.A. 7160, implicitly restored its local franchise and business taxes exemption privilege under Section 12 of R.A. 7082, or the PLDT Franchise pursuant to Section 23 thereof or the quality of treatment clause.

To confirm this position, PLDT sought and obtained on June 2, 1998 a ruling from the Bureau of Local Government Finance, or BLGF, of the Philippine Department of Finance, which ruled that PLDT is exempt from the payment of local franchise and business taxes imposable by LGUs under R.A. 7160.

By virtue of the BLGF Ruling, PLDT stopped paying local franchise and business taxes starting with the fourth quarter of 1998 and has filed with certain LGUs claims for tax refund covering the period from the second quarter of 1995 to the third quarter of 1998. PLDT has received assessments for local franchise and business taxes from several cities and provinces following PLDT's decision to stop payment of local franchise and business taxes.

Following a decision of the Supreme Court on March 25, 2003, a judgment in the amount of Php4 million against PLDT involving the City of Davao became final and executory on April 9, 2003, pursuant to which PLDT was declared not exempt from the local franchise tax. Pursuant to the said decision, PLDT has voluntarily paid the total amount of Php15 million for the period from the fourth quarter of 1998 until December 31, 2003, which includes the Php4 million subject of the case. The said amount constitutes only the basic franchise tax due for the said period, excluding surcharges and interest which PLDT is asking the City of Davao, through the local council, to waive. PLDT believes, based on the opinion of its legal counsel, that PLDT is not liable for surcharges and interest considering that the legal issue involved was a difficult one and PLDT's non-payment of the said taxes was made in good faith. On August 2, 2005, the local Sanggunian passed a resolution denying PLDT's request for abatement of surcharges and penalties and directing the City Treasurer to update PLDT's liability and immediately collect the same. Accordingly, on August 26, 2005, the city treasurer issued an assessment to PLDT in the amount of Php12 million. In order to maintain and preserve its good standing and relationship with the City of Davao, PLDT has paid the surcharges and penalties as at December 31, 2005.

Although PLDT believes that it is not liable to pay local franchise and business taxes, PLDT has entered into compromise settlements with several LGUs, including the City of Makati, in order to maintain and preserve its good standing and relationship with these LGUs. Under these compromise settlements, which have mostly been approved by the relevant courts, PLDT has paid a total amount of Php665 million for local franchise tax covering prior periods up to the end of 2006 as at June 30, 2007.

PLDT no longer had contested assessments from LGUs for franchise taxes as at December 31, 2006.

PLDT likewise continues to contest the imposition of local business taxes in addition to local franchise tax by the Cities of Tuguegarao, Balanga and Caloocan in the amounts of Php1.9 million, Php0.2 million and Php6.2 million, respectively, for the years 1998 to 2003 for the City of Tuguegarao, and for the years 2005 to 2007 for the Cities of Balanga and Caloocan. PLDT is likewise contesting the imposition of a business tax on the transmission of messages by the Municipality of San Pedro in the amount of Php0.3 million for the years 2005 to 2007.

PLDT currently expects that going forward it will pay local franchise and business taxes on an annual basis and based on the gross receipts received or collected for services rendered within the jurisdiction of the respective taxing

authority.

Smart has paid local business and franchise tax to certain cities and provinces in the aggregate amount of Php313 million under protest. The Smart's legal position is that it is not liable to pay the local franchise tax by virtue of its legislative franchise under R.A. 7294 which took effect after the effective date of the Local Government Code of 1991 or R.A. 7160.

The Regional Trial Court, or RTC, of Makati has declared Smart exempt from payment of local franchise tax to the City of Makati in a decision entitled *Smart Communications, Inc. vs. City of Makati* (Civil Cases No. 02-249 and 02-725, August 3, 2004) dated August 3, 2004. The City of Makati filed a Motion for Extension to file a Petition for Review with the Court of Appeals. However, on June 9, 2005, the Court of Appeals dismissed the appeal filed by the City of Makati.

The RTC of Iloilo has likewise ruled in a decision dated January 19, 2005 that Smart is exempt from payment of local franchise tax to the City of Iloilo. The City of Iloilo filed an appeal directly with the Supreme Court which remains pending.

Piltel's Bureau of Internal Revenue, or BIR, Assessment

Piltel received the following assessment notices from the BIR:

Year Tax Assessment Type	Basic Interest Total		
	(in million pesos)		
1998 VAT	85.8	68.7	154.5
Overseas Communications Tax, or OCT	31.8	25.5	57.3
Income Tax	12.4	9.4	21.8
Administrative Penalties	0.1		0.1
1999 VAT	94.5	67.8	162.3
Income Tax	22.7	13.8	36.5
2001 VAT	56.2	35.1	91.3
Income Tax	13.4	8.9	22.3

On December 12, 2005, Piltel filed a collective application for a compromise settlement with the BIR for the deficiency tax assessments arising from taxable years 1998, 1999 and 2001, citing reasonable doubt as to the validity of the tax assessments as a basis. The prescribed minimum percentage of the compromise settlement for such basis is

40% of the basic assessed tax.

On January 27, 2006, Piltel received the favorable recommendation and approval from the BIR on the said application for a compromise settlement. On January 31, 2006, Piltel settled the total amount of Php114 million, which is equivalent to 40% of the basic taxes per final assessment notices received, to effect the immediate cancellation of the tax assessments. On February 24, 2006, the BIR accepted Piltel's application for compromise settlement of income tax and VAT for the years 1998 and 1999, and income taxes and VAT for the year 2001, and issued the Certificate of Availment on the said date.

Enhanced Voluntary Assessment Program, or EVAP, Availment

In 2005, the BIR launched the EVAP which grants taxpayers, who availed themselves of the program and are qualified, the privilege of the last priority in BIR audit and investigation. The EVAP apply to all internal revenue taxes covering the taxable year ending December 31, 2004 and all prior years, including one-time transactions such as estate tax, donor's tax, capital gains tax, expanded withholding tax and documentary stamp tax on the transfer, sale, exchange, or disposition of assets, and shall likewise cover taxpayers enjoying preferential tax treatment. A taxpayer who has availed of the EVAP and is qualified to avail shall not be audited except upon prior authorization and approval of the Commissioner of Internal Revenue when there is strong evidence or finding of understatement in the payment of a taxpayer's correct tax liability by more than 30% as supported by a written report of the appropriate office stating in detail the facts and the law on which such finding is based: Provided, however, that any EVAP payment should be allowed as tax credit against the deficiency tax due, if any, in case the concerned taxpayer has been subjected to tax audit.

PLDT availed itself of the program and paid a total of Php6 million for VAT and income tax for taxable year 2004, and VAT and withholding tax for taxable year 2002.

Maratel availed itself of the EVAP for income tax for the taxable year 2004, SubicTel availed the program for its income tax, withholding tax and percentage tax for taxable year 2002 and ClarkTel availed of the program for its income tax for both taxable years 2003 and 2004. The total payment of Maratel, SubicTel and ClarkTel amounted to Php800,000. Smart's EVAP availment for which Php53 million was paid, covered the income tax for the taxable years 2003 and 2004, the VAT for the taxable year 2002, the OCT for the year 2002, and the withholding taxes for the taxable years 2002, 2003 and 2004. Meanwhile, Piltel's EVAP availment, which involved payment of Php3 million, covered the income tax for the taxable year 2003 and the expanded withholding tax for the taxable years 2003 and 2004. On August 2, 2006, Smart received its Certificate of Qualification, or CQ, for the EVAP availment for income tax, VAT, OCT and withholding taxes for taxable year 2002.

PLDT received its EVAP CQ on January 22, 2007 for income tax and VAT for taxable year 2004 and on March 28, 2007 for VAT for taxable year 2002 while it received a Notice of Disqualification for EVAP on March 30, 2007 for withholding tax for taxable year 2002. SubicTel and ClarkTel received their respective EVAP CQ on September 13,

2006 and December 10, 2006, respectively, while Maratel was advised by BIR Revenue District Office No. 101, Iligan City in December 2006, that its EVAP application has been disqualified, however, Notice of Disqualification has not been issued by the BIR.

Improved Voluntary Assessment Program, or IVAP, Availment

In 2006, the BIR launched the IVAP which similarly grants taxpayers who availed themselves of the program and are qualified, the privilege of the last priority in BIR audit and investigation. The IVAP applies to all internal revenue taxes covering the taxable year ending December 31, 2005 and fiscal year ending on any day not later than June 30 2006 and all prior years, including one-time transactions such as estate tax, donor's tax, capital gains tax, expanded withholding tax and documentary stamp tax on the transfer, sale, exchange, or disposition of assets, and shall likewise cover taxpayers enjoying preferential tax treatment. Unlike the EVAP, however, where the taxpayers only enjoy the privilege of last priority in audit, with the IVAP, taxpayers who availed themselves of the same will no longer be subject to tax audit except only in the case of fraud manifested through understatement of the correct tax liability by more than 30%.

Smart availed itself of the IVAP for the income tax and VAT for the taxable year 2005 and paid a total amount of Php40 million to the BIR.

Maratel availed itself of the IVAP for the taxable years 2004 and 2005 for its income, VAT, percentage and withholding taxes, while SubicTel availed itself of the program for the taxable year 2004 for its income and value added taxes only and for the taxable year 2005, for its income, VAT and withholding taxes. ClarkTel availed itself of the IVAP for the taxable years 2003, 2004, 2005 for income and withholding taxes except for income taxes for taxable years 2003 and 2004 where an EVAP CQ covering these taxable periods was already issued. The total collective IVAP payments for Maratel, SubicTel and ClarkTel amounted to Php12 million. The IVAP CQ has been issued for the IVAP availments made by Maratel last April 12, 2007 and May 9, 2007 for 2004 and 2005 respectively. The IVAP CQ for Clarktel and SubicTel are being process by their respective Revenue District Office.

24. Financial Assets and Liabilities

Our financial assets and liabilities are recognized initially at fair value. Transaction costs (debt issuance costs) are included in the initial measurement of all financial assets and liabilities except those classified as financial instruments measured at fair value through profit and loss. Subsequent to initial recognition, assets and liabilities are either valued at amortized cost using the effective interest rate method or at fair value depending on the classification.

The following table sets forth the carrying values and estimated fair values of our financial assets and liabilities recognized as at June 30, 2007 and December 31, 2006. There are no material unrecognized financial assets and liabilities as at June 30, 2007 and December 31, 2006.

	Carrying Value		Fair Value

Obligations under capital lease*	929	924	929	924
Total current financial liabilities	20,013	26,051	20,644	27,379
Total Financial Liabilities	88,108	98,167	94,050	106,301

* Included under *Interest-bearing Financial Liabilities* in the consolidated balance sheets.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Interest-bearing Financial Liabilities:

Long-term debt: Fair value is based on the following:

Debt Type	Fair Value Assumptions
Fixed Rate Loans: U.S. dollar notes/convertible debt Other loans in all other currencies	Quoted market price. Estimated fair value is based on the discounted value of future cash flows using the applicable LIBOR and MART1 rates for similar types of loans.
Variable Rate Loans	The carrying value approximates fair value because of recent and regular repricing based on market conditions.

Preferred stock subject to mandatory redemption: The fair values were determined using a discounted cash flow model.

Derivative financial instruments:

Forward foreign exchange contracts and bifurcated foreign currency forwards: The fair values were determined using forward exchange market rates at the balance sheet date.

Foreign currency options: The fair values were computed using an option pricing model.

Foreign currency and interest rate swaps: The fair values were computed as the present value of estimated future cash flows.

Bifurcated equity call options: The fair values were computed using an option pricing model.

Due to the short-term nature of the transactions, the fair value of cash and cash equivalents, short-term investments, trade and other receivables, notes payable and accounts payable approximate the carrying amounts as of the balance

sheet date.

Financial assets and liabilities carried at amortized cost

Unamortized debt discount, representing debt issuance cost and any difference between the fair value of consideration given or received on initial recognition, included in following financial liabilities amounted to Php5,931 million and Php6,753 million as at June 30, 2007 and December 31, 2006, respectively, see *Note 17 Interest-bearing Financial Liabilities*.

Financial assets and liabilities carried at fair value

The following financial assets and liabilities were carried at fair value as at June 30, 2007 and December 31, 2006.

Derivative Financial Instruments

Our derivative financial instruments are accounted for as either cash flow hedges or transactions not designated as hedges. Cash flow hedges refer to those transactions that hedge our exposure to variability in cash flows attributable to a particular risk associated with a recognized asset or liability. Changes in the fair value of these instruments representing effective hedges are recognized as cumulative translation adjustments in equity until the hedged item is recognized in earnings. For transactions that are not designated as hedges, any gains or losses arising from the changes in fair value are recognized directly to income for the period.

The table below sets out the information about our derivative financial instruments as at June 30, 2007 and December 31, 2006:

PLDT

Cash Flow Hedges

Long-term Currency Swaps

PLDT entered into long-term principal only currency swap agreements with various foreign counterparties to hedge the currency risk on its fixed rate notes maturing in 2009, 2012 and 2017. As at June 30, 2007 and December 31, 2006, these long-term currency swaps have an aggregate notional amount of US\$550 million. Under the swaps, PLDT effectively exchanges the principal of its U.S. dollar-denominated fixed rate notes into Philippine peso-denominated loan exposures at agreed swap exchange rates. The agreed swap exchange rates are reset to the lowest U.S. dollar/Philippine peso spot exchange rate during the term of the swaps, subject to a minimum exchange rate. In March and April 2004, PLDT entered into amendments to keep the lowest reset exchange rate and unwind the downward resettable feature of US\$550 million of its long-term principal only currency swap agreements in order to lower the running hedging cost of the swaps. As at June 30, 2007 and December 31, 2006, the outstanding swap contracts have an agreed average swap exchange rate of Php50.76.

In order to manage hedge costs, these swaps included a credit-linkage feature with PLDT as the reference entity. The specified credit events include bankruptcy, failure to pay, obligation acceleration, moratorium/repudiation, and restructuring of PLDT bonds or all or substantially all of PLDT's obligations. Upon the occurrence of any of these credit events, subject to agreed threshold amounts where applicable, the obligations to both PLDT and its counterparty under the swap contracts terminate without further settlements to either party, including any mark-to-market value of the swaps. As at June 30, 2007 and December 31, 2006, US\$686 million and US\$717 million, respectively, of PLDT's long-term currency swaps/options have been structured to include credit-linkage with PLDT as the reference entity. The semi-annual fixed or floating swap cost payments that PLDT is required to make to its counterparties averaged about 4.10% and 5.18% per annum as at June 30, 2007 and December 31, 2006, respectively. As cash flow hedges, any movements in the fair value of these instruments will be taken as a cumulative translation adjustment under equity in our consolidated balance sheets.

Long-term Foreign Currency Options

To manage hedging costs, the currency swap agreement relating to the 2009 fixed rate notes with a notional amount of US\$175 million has been structured to include currency option contracts. If the Philippine peso to U.S. dollar spot exchange rate on maturity date settles beyond Php90.00 to US\$1.00, PLDT will have to purchase U.S. dollar at an exchange rate of Php52.50 to US\$1.00 plus the excess above the agreed threshold rate. On the other hand, if on maturity, the Philippine peso to U.S. dollar spot exchange rate is lower than the exchange rate of Php52.50 to US\$1.00, PLDT will have the option to purchase at the prevailing Philippine peso to U.S. dollar spot exchange rate. In July 2004, PLDT and its counterparty, agreed to re-document and re-classify the transaction into long-term currency option contracts. The net semi-annual floating hedge cost payments that PLDT is required to pay under these transactions was approximately 6.27% and 6.17% per annum as at June 30, 2007 and December 31, 2006, respectively.

The option currency contract relating to PLDT's option to purchase U.S. dollar at Php52.50 to US\$1.00 or prevailing spot exchange rate at maturity, whichever is lower, qualifies as a cash flow hedge. The option currency contract relating to the counterparty's option to purchase foreign currency from PLDT at Php90.00 to US\$1.00 is not designated as a hedge. Please refer to discussion below (under transactions not designated as hedges).

In December 2006, the currency option agreement was partially terminated, which effectively lowered the outstanding currency options notional amount to US\$167 million. Total amounts settled for the unwinding is Php40 million.

In January 2007, the currency option agreement was again partially terminated where the outstanding currency options notional amount was lowered to US\$136 million. Total amounts settled for the unwinding is Php177 million.

Transactions Not Designated as Hedges

Due to the amounts of PLDT's foreign currency hedging requirements and the large interest differential between the Philippine peso and the U.S. dollar, the costs to book long-term hedges can be significant. In order to manage such hedging costs, PLDT utilizes structures that include currency option contracts, and fixed-to-floating coupon-only swaps that may not qualify for hedge accounting.

Long-term Foreign Currency Options

With reference to the above-mentioned hedge on PLDT's 2009 fixed rate notes, PLDT simultaneously sold a currency option contract with the same notional amount of US\$175 million with the same maturity that gives the counterparty a right to purchase foreign currency at Php90.00 to US\$1.00. Together with the long-term currency option contract classified under cash flow hedges, PLDT has the obligation to purchase U.S. dollars at an exchange rate of Php52.50 to US\$1.00 plus the excess above the agreed threshold rate. In exchange for this condition, the overall net hedging cost for the transaction is reduced. In December 2006, the currency option agreement was partially terminated, which lowered the notional amount to US\$167 million. Since charges in fair value have already been recognized as profit and loss in prior periods, the corresponding proceeds from the partial termination of the currency option contract amounted to Php7 million.

In January 2007, the currency option agreement was again partially terminated where outstanding notional amount was lowered to US\$136 million. Proceeds from the transaction amounted to Php33 million.

Short-term Foreign Currency Options

PLDT entered into short-term U.S. dollar currency option contracts to hedge our other short-term foreign currency obligations. There were no outstanding currency option contracts as at June 30, 2007. As at December 31, 2006, outstanding U.S. dollar currency option contracts amounted to US\$7 million with an average rating of US\$50.40.

Interest Rate Swap

A portion of PLDT's currency swap agreements to hedge its 2017 fixed rate notes carry fixed rate swap cost payments. To effectively lower the running cost of such swap agreements, PLDT, in April 2003, entered into an agreement to swap the coupon on US\$125 million of its 2012 fixed rate notes into a floating rate Japanese yen amount. Under this agreement, PLDT is entitled to receive a fixed coupon rate of 11.375%, provided the Japanese yen to U.S. dollar exchange rate stays above JPY99.90 to US\$1.00. Below this level, a reduced fixed coupon rate of 3% will be due to PLDT. In order to mitigate the risk of the Japanese yen strengthening below the agreed threshold, PLDT, in December 2003, entered into an overlay swap transaction to effectively lower the portion of the coupon indexed to the U.S. dollar to Japanese yen rate to 3% such that the fixed coupon rate due to PLDT when the Japanese yen strengthens below the agreed threshold will be 8.375%. Both swap agreements include a credit-linkage feature with PLDT as the reference entity.

In March 2006, the interest rate and overlay swap agreements were partially terminated to effectively lower the outstanding interest rate swap notional amount to US\$62.5 million. Since changes in fair values have already been recognized as profit and loss in prior periods, the corresponding liability settled by PLDT amounted to Php804 million.

In April 2007, the interest and overlay swap agreements were again partially terminated where outstanding notional amount was lowered to US\$31 million. Total amounts settled for the unwinding is Php276 million.

Forward Foreign Exchange Contracts

PLDT entered into short-term U.S. dollar forward foreign exchange contracts to hedge short-term foreign currency obligations. There were no outstanding forward foreign exchange contracts as at June 30, 2007. As at December 31, 2006, outstanding forward foreign exchange contracts amounted to US\$202 million with an average exchange rate of Php49.50.

Bifurcated Equity Call Options

Pursuant to Piltel's debt restructuring plan, PLDT issued its Series VI and VII Convertible Preferred Stock, see *Note 17 Interest-bearing Financial Liabilities*. Each share of Series VI and VII Convertible Preferred Stock is convertible at any time at the option of the holder into one share of PLDT's common stock. On the date immediately following the seventh anniversary of the issue date of the Series VI Convertible Preferred Stock and on the eighth anniversary of the issue date of the Series VII Convertible Preferred Stock, the remaining outstanding shares under these series will be mandatorily converted into shares of PLDT common stock. For 30 days thereafter, the holders of these mandatorily converted shares of common stock have the option to sell such shares of common stock back to PLDT for US\$36.132 per share and JPY4,071.89 per share for Series VI and VII, respectively. On August 18, 2006, all 3,842,000 shares of Series VII shares were converted to PLDT common stock. As at June 30, 2007 and December 31, 2006, the negative fair market value of these embedded call options amounted to Php199 million and Php224 million, respectively.

Smart

Smart entered into short-term offshore non-deliverable forward contracts in January and February 2007 to hedge a portion of loan principal payments that will fall due in May 2007 for a total of US\$18 million or on 50% of the total expected loan obligations in May and only 3.3% of the total loans outstanding with an average exchange rate of Php48.37. There were no outstanding forward foreign exchange contracts as at June 30, 2007.

Smart's other embedded derivatives were bifurcated from service and purchase contracts. As at June 30, 2007 and December 31, 2006, outstanding contracts included service contract with foreign equipment suppliers and various suppliers covering handset importations denominated in U.S. dollars, which is not the functional currency of a substantial party to the contract or the routine currency of the transaction.

Financial Risk Management Objectives and Policies

The main purpose of our financial instruments is to fund our operations. We also enter into derivative transactions, the purpose of which is to manage the currency risks and interest rate risks arising from our operations and our sources of financing. It is, and has been throughout the year under review, our policy that no trading in financial instruments shall be undertaken.

The main risks arising from our financial instruments are liquidity risk, foreign exchange risk, interest rate risk and credit risk. Our Board reviews and approves policies for managing each of these risks. These risks are summarized below. We also monitor the market price risk arising from all financial instruments. Our accounting policies in relation to derivatives are set out in *Note 2 Summary of Significant Accounting Policies and Practices*.

Liquidity Risk

We seek to manage our liquidity profile to be able to finance our capital expenditures and service our maturing debts. To cover our financing requirements, we currently intend to use internally generated funds and proceeds from debt and equity issues and sales of certain assets.

As part of our liquidity risk management program, we regularly evaluate our projected and actual cash flow information and continuously assess conditions in the financial markets for opportunities to pursue fund-raising initiatives. These initiatives may include bank loans, export credit agency-guaranteed facilities, and debt capital and equity market issues.

Foreign Exchange Risk

The following table shows our consolidated foreign currency-denominated monetary assets and liabilities and their peso equivalents as at June 30, 2007 and December 31, 2006:

	June 30, 2007 (Unaudited)		December 31, 2006 (Audited)

Total Financial Liabilities	US\$1,876	Php86,790	US\$2,051	Php100,560
------------------------------------	------------------	------------------	-----------	------------

(1) The exchange rate used was Php46.246 to US\$1.00.

(2) The exchange rate used was Php49.045 to US\$1.00.

In translating the foreign currency-denominated monetary assets and liabilities into peso amounts, the exchange rates used were Php46.246 to US\$1.00 and Php49.045 to US\$1.00, the Philippine peso-U.S. dollar exchange rates as at June 30, 2007 and December 31, 2006, respectively.

As at August 6, 2007, the peso-dollar exchange rate was Php45.559 to US\$1.00. Using this exchange rate, our consolidated net foreign currency-denominated liabilities as at June 30, 2007 would have decreased by Php926 million.

While a certain percentage of our revenues are either linked to or denominated in U.S. dollars, most of our indebtedness and related interest expense, a substantial portion of our capital expenditures and a portion of our operating expenses are denominated in foreign currencies, mostly in U.S. dollars.

As at June 30, 2007, approximately 89% of our total consolidated debts were denominated in foreign currencies, principally in U.S. dollars. Thus, a strengthening or weakening of the Philippine peso against the U.S. dollar will decrease or increase both the principal amount of our unhedged foreign currency-denominated debts (representing 46% of our consolidated debts, or 34% net of our U.S. dollar cash balances as at June 30, 2007), and interest expense on our debt in Philippine peso terms. In addition, many of our financial ratios and other financial tests are affected by the movements in the Philippine peso to U.S. dollar exchange rate.

To manage our foreign exchange risks, stabilize cash flows, and improve investment and cash flow planning, we enter into forward foreign exchange contracts, foreign currency swap contracts, currency option contracts and other hedging products aimed at reducing and/or managing the adverse impact of changes in foreign exchange rates on our operating results and cash flows. However, these hedges do not cover all of our exposure to foreign exchange risks.

Specifically, we use forward foreign exchange contracts, foreign currency swap contracts and currency option contracts to manage the foreign exchange risks associated with our foreign currency-denominated loans. In order to manage hedge costs of these contracts, we utilize structures that include credit-linkage with PLDT as the reference entity, a combination of currency option contracts, and fixed to floating coupon only swap agreements. Accounted for as either cash flow hedges or transactions not designated as hedges, changes in the fair value of these financial instruments are recognized as cumulative translation adjustments in equity until the hedged item is recognized directly as income or expense for the period.

Interest Rate Risk

On a limited basis, we enter into interest rate swap agreements in order to manage our exposure to interest rate fluctuations. We make use of hedging instruments and structures solely for reducing or managing financial risks associated with our liabilities and not for trading or speculative purposes.

The following tables set out the carrying amount, by maturity, of our financial instruments that are exposed to interest rate risk:

Fixed rate financial instruments are subject to fair value interest rate risk while floating rate financial instruments are subject to cash flow interest rate risk.

Repricing of floating rate financial instruments is mostly done on intervals of three months or six months. Interest on fixed rate financial instruments is fixed until maturity of instrument. Financial instruments that are not subject to interest rate risk were not included in the above tables.

Credit Risk

We trade only with recognized and creditworthy third parties. It is our policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an on-going basis to reduce our exposure to bad debts.

With respect to credit risk arising from our financial assets, which comprise cash and cash equivalents, trade and other receivables, notes receivable and certain derivative financial instruments, our exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these financial instruments.

We have no significant concentrations of credit risk.

25. Reclassification of Accounts

Certain accounts in December 31, 2006 audited consolidated financial statements were reclassified to conform with the June 30, 2007 unaudited consolidated financial statements presentation.
