The Commerce Group, Inc.
Announces 2004 Third Quarter Results
and Comparison to 2003

WEBSTER, Mass., October 21, 2004 -- The Commerce Group, Inc. (NYSE:CGI) today reported 2004 third quarter results. Net earnings were \$54.3 million, or \$1.64 per diluted share, compared to net

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

earnings of \$22.9 million or \$0.71 per diluted share for 2003.

During the third quarter of 2004, the Company had net realized investment losses of \$2.2 million or \$0.04 per diluted share, compared to gains of \$2.6 million or \$0.05 per diluted share in the third quarter of 2003. A complete breakdown of this information is included in the attached tables.

Earned premiums were \$413.8 million for the third quarter of 2004, compared to \$372.7 million for 2003. A schedule of direct written premiums to earned premiums is included in the attached tables.

The third quarter GAAP consolidated operating combined ratio was 88.6%, compared to 99.6% for 2003. The decrease in the combined ratio was the result of a decrease in the loss ratio partially offset by an increase in the underwriting ratio. The Company's GAAP consolidated loss ratio for the third quarter of 2004 decreased to 57.5% from 75.1% during the same period last year. The improvement was the result of several factors, including: (1) an increase in average earned premium revenue per automobile; (2) a decrease in the current year personal automobile physical damage claim frequency; (3) more favorable loss reserve development compared to the third quarter of last year; and, (4) improved results from Commonwealth Automobile Reinsurers (C.A.R.) due to a decrease in our estimate of the overall C.A.R. deficit. The Company's GAAP consolidated underwriting ratio increased to 31.1%, as compared to 24.5% for last year's third quarter, primarily as a net result of significantly higher accrued agents' profit sharing partially offset by lower 2004 policy year mandated Massachusetts personal automobile commission rates. The higher agents' profit sharing is the result of substantially better underwriting results for the third quarter of 2004 versus last year's third quarter.

Cumulative September 30, 2004 Results

Net earnings for the first nine months of 2004 were \$142.7 million, or \$4.35 per diluted share, compared to net earnings of \$107.3 million or \$3.33 per diluted share for the 2003 period.

During the first nine months of 2004, the Company had net realized investment gains of \$9.6 million or \$0.19 per diluted share, compared to gains of \$62.7 million or \$1.39 per diluted share in the same period of 2003. A complete breakdown of this information is included in the attached tables.

Earned premiums were \$1,213.8 million for the first nine months of 2004, compared to \$1,061.0 million for 2003. A schedule of direct written premiums to earned premiums is included in the attached tables.

The 2004 nine-month GAAP consolidated operating combined ratio was 91.0%, compared to 100.1% for 2003. The decrease in the combined ratio was the result of a decrease in the loss ratio, partially offset by an increase in the underwriting ratio. The Company's GAAP consolidated loss ratio for the first nine months of 2004 decreased to 65.6% from 77.6% during the same period last year. The improvement

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

was the result of several factors, including: (1) an increase in average earned premium revenue per automobile; (2) a decrease in the current year personal automobile physical damage claim frequency; (3) more favorable loss reserve development compared to the third quarter of last year; and, (4) improved results from C.A.R. due to a decrease in our estimate of the overall C.A.R. deficit. The Company's GAAP consolidated underwriting ratio increased to 25.4%, as compared to 22.5% for last year's third quarter, primarily as a net result of significantly higher accrued agents' profit sharing, partially offset by lower 2004 policy year mandated Massachusetts personal automobile commission rates. The higher agents' profit sharing is the result of substantially better underwriting results for the nine months of 2004 versus last year's nine months.

A complete presentation of September 30, 2004 and 2003 financial statement information, including a breakdown of the components of the combined ratio and realized investment gains and losses, is included in the financial statements attached to this press release.

Additional supplemental financial information will be available on October 22nd on the Company's website at www.commerceinsurance.com, under the "Links" section of the "News and Investor Information" area.

At September 30, 2004, the Company had authority to purchase approximately 858,000 additional shares of common stock under the current Board of Directors' stock re-purchase authorization, which excludes treasury stock acquired as a result of officer stock option exercises. During the third quarter, the Company issued approximately 247,000 shares of common stock related to all option exercises.

All quarterly figures are unaudited and all results are reported in accordance with accounting principles generally accepted in the United States (GAAP).

Forward Looking Statements

This press release may contain statements that are not historical fact and constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act.

Statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "anticipates," "estimates," "plans," "projects," "continuing," "ongoing," "expects," "may," "should," "management believes," "we believe," "we intend," and similar words or phrases.

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

These statements may address, among other things, our strategy for growth, business development, regulatory approvals, market position, expenditures, financial results and reserves. Accordingly, these statements involve estimates, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them. All forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this press release and in our Forms 10-K and 10-Q, and other documents filed with the SEC. Among the key factors that could cause actual results to differ materially from forward-looking statements:

- * the possibility of severe weather and adverse catastrophe experiences;
- * adverse trends in claim severity or frequency;
- * adverse state and federal regulations and legislation;
- * adverse judicial decisions;
- * adverse changes to the laws, regulations and rules governing the residual market system in Massachusetts;
- * interest rate risk;
- * rate making decisions for private passenger automobile policies in Massachusetts;
- * potential rate filings;
- * heightened competition;
- * concentration of business within Massachusetts;
- * market disruption in Massachusetts, if competitors exited the market or become insolvent;
- * dependence on our executive officers; and,
- * the economic, market or regulatory conditions and risks associated with entry into new markets and diversification.

You should not place undue reliance on any forward-looking statement. The risk factors referred to above could cause actual results or outcomes to differ materially from those expressed in any forward-looking statement made by us or on our behalf. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

- (1) GAAP consolidated operating ratios are calculated as in (2) below using the combined insurance subsidiaries' loss and underwriting results, adding to them the expenses of the holding companies (corporate expenses) in order to equal the loss and underwriting expense amounts on the income statement. For purposes of the U/W ratio, underwriting expenses are grossed-up for the increase in deferred acquisition costs of \$1,179 and \$4,582 for the three months ended and \$21,948 and \$23,587 for the nine months ended September 30, 2004 and 2003, respectively.
- (2) GAAP operating ratios for combined insurance subsidiaries are calculated as follows:
 - (a) The loss ratio represents losses and LAE divided by earned premiums; and,
 - (b) The underwriting ratio represents underwriting expenses (excluding changes in deferred acquisition costs), divided by net premiums written. No corporate expenses are included in the calculations.
