FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number: 0-20322

Starbucks Corporation

(Exact Name of Registrant as Specified in its Charter)

Washington 91-1325671

(State or Other Jurisdiction of (IRS Employer
Incorporation or Organization) Identification No.)

2401 Utah Avenue South, Seattle, Washington 98134

(Address of principal executive offices)

(206) 447-1575

(Registrant's Telephone Number, including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Title Shares Outstanding as of January 23, 2019

Common Stock, par value \$0.001 per share 1,243.6 million

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1: Summary of Significant Accounting Policies

Financial Statement Preparation

The unaudited condensed consolidated financial statements as of December 30, 2018, and for the quarters ended December 30, 2018 and December 31, 2017, have been prepared by Starbucks Corporation under the rules and regulations of the Securities and Exchange Commission (“SEC”). In the opinion of management, the financial information for the quarters ended December 30, 2018 and December 31, 2017 reflects all adjustments and accruals, which are of a normal recurring nature, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. In this Quarterly Report on Form 10-Q (“10-Q”), Starbucks Corporation is referred to as “Starbucks,” the “Company,” “we,” “us” or “our.”

The financial information as of September 30, 2018 is derived from our audited consolidated financial statements and notes for the fiscal year ended September 30, 2018 (“fiscal 2018”) included in Item 8 in the Fiscal 2018 Annual Report on Form 10-K (the “10-K”). The information included in this 10-Q should be read in conjunction with the footnotes and management’s discussion and analysis of the consolidated financial statements in the 10-K.

The results of operations for the quarter ended December 30, 2018 are not necessarily indicative of the results of operations that may be achieved for the entire fiscal year ending September 29, 2019 (“fiscal 2019”).

Recent Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In the first quarter of fiscal 2019, we adopted the Financial Accounting Standards Board (“FASB”) issued guidance on the accounting for income tax effects of intercompany sales or transfers of assets other than inventory. The guidance requires entities to recognize the income tax impact of an intra-entity sale or transfer of an asset other than inventory when the sale or transfer occurs, rather than when the asset has been sold to an outside party. The primary impact of the adoption was an increase to deferred income taxes, net of \$227.6 million and a corresponding cumulative adjustment to opening retained earnings at the beginning of our first quarter of fiscal 2019.

In the first quarter of fiscal 2019, we adopted the new guidance on revenue recognition utilizing the modified retrospective method, which primarily changed the accounting method and classification of revenue recognition related to unredeemed stored value cards, referred to as stored value card breakage. Under this new guidance, expected breakage amounts must be recognized proportionately in earnings as redemptions occur. Previously, stored value card breakage was recorded to interest income and other, net utilizing the remote method. Starting in the first quarter of 2019, stored value card breakage is recorded in the revenue lines where stored value cards may be redeemed—primarily company-operated and licensed store revenues. The cumulative impact to retained earnings as of October 1, 2018 was \$268.0 million.

Impact of adoption on our consolidated balance sheet at September 30, 2018:

(in millions)	As reported Sep 30, 2018	Revenue Recognition Adoption Impact	Adjusted Oct 1, 2018
Deferred income taxes, net	\$ 134.7	\$ (11.0)	\$ 123.7
Current liabilities:			
Stored value card liability and current portion of deferred revenue	1,642.9	(422.0)	1,220.9
Deferred revenue	6,775.7	64.0	6,839.7
Other long-term liabilities	1,430.5	79.0	1,509.5
Shareholders' equity:			
Retained earnings	1,457.4	268.0	1,725.4

Due to the adoption, we began classifying stored value card liabilities as current and long-term deferred revenue. See Note 2, Revenue Recognition, for further discussion of classification of impacts of the adoption.

Table of Contents

Recent Accounting Pronouncements Not Yet Adopted

In February 2018, the FASB issued guidance on the reclassification of certain tax effects from accumulated other comprehensive income (“AOCI”). The guidance permits entities to reclassify the stranded tax effects resulting from the Tax Cuts and Jobs Act (the “Tax Act”) from AOCI to retained earnings. The guidance will be effective at the beginning of our first quarter of fiscal 2020 but permits adoption in an earlier period. The guidance may be applied in the period of adoption or retrospectively to each period in which the effect of the change related to the Tax Act was recognized.

We do not expect a material impact upon adoption of this guidance.

In August 2017, the FASB amended its guidance on the accounting for hedging relationships. The new guidance eliminates the requirement to separately measure and report hedge ineffectiveness, expands permissible cash flow hedges on contractually specified components, and simplifies hedge documentation and effectiveness assessment. The guidance will be effective at the beginning of our first quarter of fiscal 2020 and will require a modified retrospective approach on existing cash flow and net investment hedges. The presentation and disclosure requirements will be applied prospectively. We are currently evaluating the impact this guidance will have on our consolidated financial statements and the timing of adoption.

In February 2016, the FASB issued guidance on the recognition and measurement of leases. Under the new guidance, lessees are required to recognize a lease liability, which represents the discounted obligation to make future minimum lease payments, and a corresponding right-of-use asset on the balance sheet for most leases. The guidance retains the current accounting for lessors and does not make significant changes to the recognition, measurement, and presentation of expenses and cash flows by a lessee. Enhanced disclosures will also be required to give financial statement users the ability to assess the amount, timing and uncertainty of cash flows arising from leases. In July 2018, the FASB issued an alternative method that permits application of the new guidance at the beginning of the year of adoption. This is in addition to the method of applying the new guidance retrospectively to each prior reporting period presented. The guidance will be effective at the beginning of our first quarter of fiscal 2020, with optional practical expedients. We are currently evaluating the impact this guidance will have on our consolidated financial statements and the method of adoption. We expect this adoption will result in a material increase in the assets and liabilities on our consolidated balance sheets but will likely have an insignificant impact on our consolidated statements of earnings. In preparation for the adoption of the guidance, we are in the process of implementing controls and key system changes to enable the preparation of financial information.

Revision of Previously Issued Financial Statements

We have revised our condensed consolidated statement of comprehensive income and the related footnotes for the quarter ended December 31, 2017 to reflect the correction of an immaterial error primarily related to translation adjustment reclassifications. Total other comprehensive income was not changed.

Note 2: Revenue Recognition

The following significant revenue recognition accounting policies from our most recent Annual Report on Form 10-K have been restated to reflect the adoption of the new guidance.

Consolidated revenues are presented net of intercompany eliminations for wholly-owned subsidiaries and investees controlled by us and for product sales to and royalty and other fees from licensees accounted for under the equity method. Additionally, consolidated revenues are recognized net of any discounts, returns, allowances and sales incentives, including coupon redemptions and rebates.

Company-operated Store Revenues

Company-operated store revenues are recognized when payment is tendered at the point of sale as the performance obligation has been satisfied. Company-operated store revenues are reported excluding sales, use or other transaction taxes that are collected from customers and remitted to taxing authorities.

Licensed Store Revenues

Licensed store revenues consist of product and equipment sales, royalties and other fees paid by licensees to use the Starbucks brand and for services such as training and design. Sales of coffee, tea, food and related products are generally recognized upon shipment to licensees, depending on contract terms. Shipping charges billed to licensees are also recognized as revenue, and the related shipping costs are included in cost of sales including occupancy costs

on our condensed consolidated statements of earnings.

Initial nonrefundable pre-opening service fees, including site selection and evaluation, store development and design and operational training, are recognized upon completion of services. Royalty revenues are recognized based upon a percentage of reported sales, and other continuing fees, such as marketing and service fees, are recognized as the performance obligations are met.

Table of Contents

Stored Value Cards

Stored value cards can be activated through various channels, including at our company-operated and most licensed store locations, online at Starbucks.com or via mobile devices held by our customers, and at certain other third-party websites and locations, such as grocery stores, although they cannot be reloaded at these third-party websites or locations. Amounts loaded onto stored value cards are initially recorded as deferred revenue and recognized as revenue upon redemption. Historically, the majority of stored value cards are redeemed within one year.

In many of our company-owned markets, including the U.S., our stored value cards do not have an expiration date nor do they charge service fees that cause a decrement to customer balances. Based on historical redemption rates, a portion of stored value cards is not expected to be redeemed and will be recognized as breakage over time in proportion to stored value card redemptions. The redemption rates are based on historical redemption patterns for each market, including the timing and business channel in which the card was activated, and unclaimed property laws, if applicable.

Breakage is recognized as company-operated stores and licensed stores revenue within the condensed consolidated statement of earnings. During the quarter ended December 30, 2018 we recognized breakage revenue of \$34.9 million in company-operated store revenues and \$4.6 million in licensed store revenues. Prior to fiscal 2019, breakage was recorded using the remote method and recorded in interest income and other, net. Including the change in income statement presentation, there were no material impacts to the financial results of our first quarter of fiscal 2019.

Loyalty Program

Customers in the U.S., Canada, and certain other countries who register their Starbucks Card are automatically enrolled in the Starbucks Rewards™ program, primarily a spend-based loyalty program. They earn loyalty points (“Stars”) with each purchase at participating Starbucks stores and when making purchases with the Starbucks-branded credit and debit cards. After accumulating a certain number of Stars, the customer earns a reward that can be redeemed for free product that, regardless of where the related Stars were earned within that country, will be honored at company-operated stores and certain participating licensed store locations in that same country.

We defer revenue associated with the estimated selling price of Stars earned by Starbucks Rewards members towards free product as each Star is earned and a corresponding liability is established in deferred revenue. This deferral is based on the estimated value of the product for which the reward is expected to be redeemed, net of estimated unredeemed Stars. Stars generally expire after six months.

When a customer redeems an earned reward, we recognize revenue for the redeemed product and reduce the related deferred revenue. The new guidance does not impact the timing or total revenue recognized related to the loyalty program.

Other Revenues

Other revenues primarily include royalty revenues, sales of packaged coffee, tea and a variety of ready-to-drink beverages and single-serve coffee and tea products to customers outside of our company-operated and licensed stores. Sales of these products are generally recognized upon shipment to customers, depending on contract terms.

Beginning in late fiscal 2018, other revenues also include product sales to and licensing revenue from Nestlé related to our Global Coffee Alliance. Product sales to Nestlé are generally recognized when the product is shipped whereas royalty revenues are recognized based on a percentage of reported sales.

The timing and amount of revenue recognized related to other revenues were not impacted by the adoption of new guidance.

Deferred Revenues

In the fourth quarter of fiscal 2018, we licensed the rights to sell and market our products in authorized channels to Nestlé, or the "Global Coffee Alliance," and also received an upfront prepaid royalty. The upfront payment of approximately \$7 billion was recorded as deferred revenue as we have continuing performance obligations to support the Global Coffee Alliance, including providing Nestlé access to certain intellectual properties and products for future resale. The upfront payment will be recognized as other revenue on a straight-line basis over the estimated economic life of the arrangement of 40 years. At December 30, 2018, the current and long-term deferred revenue related to the Nestlé upfront payment was \$174.0 million and \$6.7 billion, respectively.

Additionally, deferred revenues include our unredeemed stored value card liability and unredeemed Stars associated with our loyalty program. The opening balance of current and long-term deferred revenue related to our stored value card and loyalty program was \$906.6 million and \$64.0 million, respectively for the quarter ended December 30, 2018. The balance of current and long-term deferred revenue related to our stored value card and loyalty program was \$1.3 billion and \$91.7 million, respectively, as of the quarter ended December 30, 2018.

Table of Contents

Disaggregation of Revenues

Revenues disaggregated by segment, product type and geographic area are disclosed in Note 15, Segment Reporting. Note 3: Acquisitions, Divestitures and Strategic Alliance

Fiscal 2018

We entered into an agreement on May 6, 2018 to establish the Global Coffee Alliance with Nestlé. On August 26, 2018, Nestlé licensed the rights to market, sell and distribute Starbucks consumer packaged goods and foodservice products in authorized channels. We received an upfront payment of approximately \$7 billion primarily of prepaid royalties which was recorded as a liability to current and long-term deferred revenue. See Note 2, Revenue Recognition, for the accounting treatment.

On March 23, 2018, we sold our company-operated retail store assets and operations in Brazil to SouthRock converting these operations to a fully licensed market, for a total of \$48.2 million. This transaction resulted in an insignificant pre-tax loss. This pre-tax loss was included in net gain resulting from divestiture of certain operations on our condensed consolidated statements of earnings.

On December 31, 2017, we acquired the remaining 50% interest of our East China joint venture (“East China”) from President Chain Store (Hong Kong) Holding Ltd. and Kai Yu (BVI) collectively, “Uni-President Group” or “UPG”, for approximately \$1.4 billion and resulted in a total gain of \$1.4 billion that is not subject to income tax, and was presented as gain resulting from acquisition of joint venture on our condensed consolidated statements of earnings in fiscal 2018.

Concurrently, with the purchase of our East China joint venture, we sold our 50% interest in President Starbucks Coffee Taiwan Limited, our joint venture operations in Taiwan, to UPG for approximately \$181.2 million. The transaction resulted in a pre-tax gain of \$156.6 million which was included in net gain resulting from divestiture of certain operations on our condensed consolidated statements of earnings.

The following table summarizes the final allocation of the total consideration to the fair values of the assets acquired and liabilities assumed as of December 31, 2017, which are reported within our China/Asia Pacific segment (in millions):

Consideration:

Cash paid for UPG 50% equity interest	\$1,440.8
Fair value of our pre-existing 50% equity interest	1,440.8
Settlement of pre-existing liabilities	90.5
Total consideration	\$2,972.1

Fair value of assets acquired and liabilities assumed:

Cash and cash equivalents	\$129.5
Accounts receivable	14.3
Inventories	16.1
Prepaid expenses and other current assets	20.6
Property, plant and equipment	254.1
Other long-term assets	44.6
Other intangible assets	818.0
Goodwill	2,164.1
Total assets acquired	3,461.3
Accounts payable	34.7
Accrued liabilities	187.7
Stored value card liability	21.7
Other long-term liabilities	245.1
Total liabilities assumed	489.2
Total consideration	\$2,972.1

Due to foreign currency translation, the balance of goodwill related to the acquisition decreased \$117.7 million since the date of acquisition to \$2.0 billion as of December 30, 2018. Accumulated amortization related to the acquired intangible assets was \$163.6 million as of December 30, 2018.

Table of Contents

We began consolidating East China's results of operations and cash flows into our condensed consolidated financial statements after December 31, 2017. For the quarter ended December 30, 2018, East China's revenue and net earnings included in our condensed consolidated statements of earnings was \$299.3 million and \$25.2 million, respectively. The following table provides the supplemental pro forma revenue and net earnings of the combined entity had the acquisition date of East China been October 3, 2016, the first day of our first quarter of fiscal 2017, rather than the end of our first quarter of fiscal 2018 (in millions):

	Pro Forma (unaudited) Quarter Ended Dec 31, 2017
Revenue	\$ 6,344.7
Net earnings attributable to Starbucks	1,122.8

The amounts in the supplemental pro forma earnings for the period presented above fully eliminate intercompany transactions, apply our accounting policies and reflect adjustments for additional occupancy costs as well as depreciation and amortization that would have been charged assuming the same fair value adjustments to leases, property, plant and equipment and acquired intangibles had been applied on October 3, 2016. These pro forma results are unaudited and are not necessarily indicative of results of operations that would have occurred had the acquisition actually closed in the prior year period or indicative of the results of operations for any future period.

On December 11, 2017, we sold the assets associated with our Tazo brand including Tazo® signature recipes, intellectual property and inventory to Unilever for a total of \$383.8 million. The transaction resulted in a pre-tax gain of \$347.9 million, which was included in the net gain from divestiture of certain operations on our consolidated statements of earnings. Results from Tazo operations prior to the sale are reported primarily in Channel Development. Note 4: Derivative Financial Instruments

Interest Rates

We are subject to interest rate volatility relating to our debt issuances. From time to time, we enter into swap agreements to manage our exposure to interest rate fluctuations.

To hedge the variability in cash flows due to changes in benchmark interest rates, we enter into interest rate swap agreements related to anticipated debt issuances. These agreements are cash settled at the time of the pricing of the related debt. The effective portion of the derivative's gain or loss is recorded in accumulated other comprehensive income ("AOCI") and is subsequently reclassified to interest expense over the life of the related debt.

To hedge the exposure to changes in the fair value of our fixed-rate debt, we enter into interest rate swap agreements, which are designated as fair value hedges. The changes in fair values of these derivative instruments and the offsetting changes in fair values of the underlying hedged debt are recorded in interest expense and have an insignificant impact on our condensed consolidated statements of earnings. Refer to Note 9, Debt, for additional information on our long-term debt.

Foreign Currency

To reduce cash flow volatility from foreign currency fluctuations, we enter into forward and swap contracts to hedge portions of cash flows of anticipated intercompany royalty payments, inventory purchases, and intercompany borrowing and lending activities. The effective portion of the derivative's gain or loss is recorded in AOCI and is subsequently reclassified to revenue, cost of sales including occupancy costs, or interest income and other, net, respectively, when the hedged exposure affects net earnings.

From time to time, we enter into forward contracts or use foreign currency-denominated debt to hedge the currency exposure of our net investment in certain international operations. The effective portion of these instruments' gain or loss is recorded in AOCI and is subsequently reclassified to net earnings when the hedged net investment is either sold or substantially liquidated.

Foreign currency forward and swap contracts not designated as hedging instruments are used to mitigate the foreign exchange risk of certain other balance sheet items. Gains and losses from these derivatives are largely offset by the

financial impact of translating foreign currency denominated payables and receivables; these gains and losses are recorded in interest income and other, net.

Table of Contents

Commodities

Depending on market conditions, we may enter into coffee futures contracts and collars (the combination of a purchased call option and a sold put option) to hedge a portion of anticipated cash flows under our price-to-be-fixed green coffee contracts, which are described further in [Note 6](#), Inventories. The effective portion of each derivative's gain or loss is recorded in AOCI and is subsequently reclassified to cost of sales including occupancy costs when the hedged exposure affects net earnings.

To mitigate the price uncertainty of a portion of our future purchases, primarily of dairy products, diesel fuel and other commodities, we enter into swap contracts, futures and collars that are not designated as hedging instruments. Gains and losses from these derivatives are recorded in interest income and other, net to help offset price fluctuations on our beverage, food, packaging and transportation costs, which are included in cost of sales including occupancy costs on our consolidated statements of earnings.

Gains and losses on derivative contracts and foreign currency-denominated debt designated as hedging instruments included in AOCI and expected to be reclassified into earnings within 12 months, net of tax (in millions):

	Net Gains/(Losses) Included in AOCI		Net Gains/(Losses) Expected to be Reclassified from AOCI into Earnings within 12 Months		Outstanding Contract/Debt Remaining Maturity (Months)

There were no material transfers between levels, and there was no significant activity within Level 3 instruments during the periods presented. The fair values of any financial instruments presented above exclude the impact of netting assets and liabilities when a legally enforceable master netting agreement exists.

Gross unrealized holding gains and losses on investments were not material as of December 30, 2018 and September 30, 2018.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Assets and liabilities recognized or disclosed at fair value on the condensed consolidated financial statements on a nonrecurring basis include items such as property, plant and equipment, goodwill and other intangible assets, equity and cost method investments and other assets. These assets are measured at fair value if determined to be impaired. The estimated fair value of our long-term debt based on the quoted market price (Level 2) is included at [Note 9](#), Debt. There were no material fair value adjustments during the quarters ended December 30, 2018 and December 31, 2017.

Table of Contents

Note 6: Inventories (in millions)

	Dec 30, 2018	Sep 30, 2018	Dec 31, 2017
Coffee:			
Unroasted	\$591.3	\$588.6	\$559.9
Roasted	259.8	281.2	283.9
Other merchandise held for sale	267.5	273.1	260.6
Packaging and other supplies	236.0	257.6	208.8
Total	\$1,354.6	\$1,400.5	\$1,313.2

Other merchandise held for sale includes, among other items, serveware and tea. Inventory levels vary due to seasonality, commodity market supply and price fluctuations.

As of December 30, 2018, we had committed to purchasing green coffee totaling \$898 million under fixed-price contracts and an estimated \$210 million under price-to-be-fixed contracts. As of December 30, 2018, none of our price-to-be-fixed contracts were effectively fixed through the use of futures contracts. Price-to-be-fixed contracts are purchase commitments whereby the quality, quantity, delivery period, and other negotiated terms are agreed upon, but the date, and therefore the price, at which the base "C" coffee commodity price component will be fixed has not yet been established. For most contracts, either Starbucks or the seller has the option to "fix" the base "C" coffee commodity price prior to the delivery date. For other contracts, Starbucks and the seller may agree upon pricing parameters determined by the base "C" coffee commodity price. Until prices are fixed, we estimate the total cost of these purchase commitments. We believe, based on relationships established with our suppliers in the past, the risk of non-delivery on these purchase commitments is remote.

Note 7: Supplemental Balance Sheet Information (in millions)

Goodwill balance at December 30, 2018	\$ 496.0	\$ 3,006.8	\$ 11.3	\$ 34.7	\$ 11.5	\$3,560.3

“Other” primarily consists of changes in the goodwill balance resulting from foreign currency translation.

Note 9: Debt

Short-term Debt

Under our commercial paper program, we may issue unsecured commercial paper notes up to a maximum aggregate amount outstanding at any time of \$3 billion, with individual maturities that may vary but not exceed 397 days from the date of issue. Amounts outstanding under the commercial paper program are required to be backstopped by available commitments under our credit facility. The proceeds from borrowings under our commercial paper program may be used for working capital needs, capital expenditures and other corporate purposes, including, but not limited to, business expansion, payment of cash dividends on our common stock and share repurchases. As of December 30, 2018, we had no borrowings outstanding under the program.

In addition to 2.4 billion shares of authorized common stock with \$0.001 par value per share, the Company has authorized 7.5 million shares of preferred stock, none of which was outstanding as of December 30, 2018.

In September 2018, we entered into accelerated share repurchase agreements (“ASR agreements”) with third-party financial institutions totaling \$5.0 billion, effective October 1, 2018. We made a \$5.0 billion upfront payment to the financial institutions and received an initial delivery of 72.0 million shares of our common stock. Upon completion, the total shares repurchased will be based on the volume-weighted average share price during the term of the ASR agreements less an applicable discount. The financial institutions may be required to deliver additional shares or, under certain circumstances, we may elect to deliver shares or make a cash payment to the financial institutions. Final settlement is expected to be completed as early as February 2019 and no later than March 2019. During the quarter ended December 31, 2017, we repurchased 28.5 million shares at a total cost of \$1.6 billion. In the first quarter of fiscal 2019, we announced that our Board of Directors approved an increase of 120 million shares to our ongoing share repurchase program. As of December 30, 2018, 96.8 million shares remained available for repurchase under current authorizations.

During the first quarter of fiscal 2019, our Board of Directors declared a quarterly cash dividend to shareholders of \$0.36 per share to be paid on February 22, 2019 to shareholders of record as of the close of business on February 7, 2019.

Note 11: Employee Stock Plans

As of December 30, 2018, there were 49.7 million shares of common stock available for issuance pursuant to future equity-based compensation awards and 12.7 million shares available for issuance under our employee stock purchase plan.

Stock-based compensation expense recognized in the consolidated statements of earnings (in millions):

	Quarter Ended	
	Dec 30, 2018	Dec 31, 2017
Options	\$8.3	\$ 14.2
Restricted Stock Units (“RSUs”)	88.9	47.2
Total stock-based compensation expense	\$97.2	\$ 61.4

Table of Contents

Stock option and RSU transactions from September 30, 2018 through December 30, 2018 (in millions):

	Stock Options	RSUs
Options outstanding/Nonvested RSUs, September 30, 2018	27.3	11.2
Granted	0.5	4.3
Options exercised/RSUs vested	(4.2)	(2.6)
Forfeited/expired	(0.4)	(0.8)
Options outstanding/Nonvested RSUs, December 30, 2018	23.2	12.1
Total unrecognized stock-based compensation expense, net of estimated forfeitures, as of December 30, 2018	\$ 15.7	\$359.5

Note 12: Income Taxes

Our interim tax provision is determined using an estimated annual effective tax rate and adjusted for discrete taxable events that may occur during the quarter. We recognize the effects of tax legislation in the period in which the law is enacted. Our deferred tax assets and liabilities are remeasured using enacted tax rates expected to apply to taxable income in the years we estimate the related temporary differences to reverse.

On December 22, 2017, the President of the United States signed and enacted comprehensive tax legislation into law H.R. 1, commonly referred to as the Tax Act. Except for certain provisions, the Tax Act is effective for tax years beginning on or after January 1, 2018. The tax rate for fiscal 2019 and future years was reduced to 21% from our blended 24.5% in fiscal 2018. In the first quarter of fiscal 2019 the measurement period related to the Tax Act concluded, which resulted in immaterial adjustments to our provisional estimates.

The Company has revised its indefinite reinvestment assertions for prior years' earnings from certain foreign subsidiaries. This change did not have a material impact to our financial results. In foreign subsidiaries in which we are partially indefinitely reinvested, the gross taxable temporary difference between its accounting basis and tax basis is approximately \$1.3 billion as of the first quarter of fiscal 2019, for which there could be up to approximately \$300 million of unrecognized tax liability.

While the Tax Act provides for a modified territorial tax system, global intangible low-taxed income ("GILTI") provisions are applied providing an incremental tax on foreign income. We have made an accounting policy election to treat taxes due under the GILTI provision as a current period expense.

Note 13: Earnings per Share

Calculation of net earnings per common share ("EPS") — basic and diluted (in millions, except EPS):

	Quarter Ended	
	Dec 30, 2018	Dec 31, 2017
Net earnings attributable to Starbucks	\$760.6	\$2,250.2
Weighted average common shares outstanding (for basic calculation)	1,242.0	1,421.0
Dilutive effect of outstanding common stock options and RSUs	11.4	13.6
Weighted average common and common equivalent shares outstanding (for diluted calculation)	1,253.4	1,434.6
EPS — basic	\$0.61	\$1.58
EPS — diluted	\$0.61	\$1.57

Potential dilutive shares consist of the incremental common shares issuable upon the exercise of outstanding stock options (both vested and nonvested) and unvested RSUs, calculated using the treasury stock method. The calculation of dilutive shares outstanding excludes out-of-the-money stock options (i.e., such options' exercise prices were greater than the average market price of our common shares for the period) because their inclusion would have been antidilutive. Out-of-the-money stock options totaled approximately 0.2 million and 5.0 million as of December 30, 2018 and December 31, 2017, respectively.

Note 14: Commitments and Contingencies

Legal Proceedings

On April 13, 2010, an organization named Council for Education and Research on Toxics ("Plaintiff") filed a lawsuit in the Superior Court of the State of California, County of Los Angeles, against the Company and certain other

defendants who

23

Table of Contents

manufacture, package, distribute or sell brewed coffee. The lawsuit is Council for Education and Research on Toxics v. Starbucks Corporation, et al.. On May 9, 2011, the Plaintiff filed an additional lawsuit in the Superior Court of the State of California, County of Los Angeles, against the Company and additional defendants who manufacture, package, distribute or sell packaged coffee. The lawsuit is Council for Education and Research on Toxics v. Brad Barry LLC, et al.. Both cases have since been consolidated and now include nearly eighty defendants, which constitute the great majority of the coffee industry in California. Plaintiff alleges that the Company and the other defendants failed to provide warnings for their coffee products of exposure to the chemical acrylamide as required under California Health and Safety Code section 25249.5, the California Safe Drinking Water and Toxic Enforcement Act of 1986, better known as Proposition 65. Plaintiff seeks equitable relief, including providing warnings to consumers of coffee products, as well as civil penalties in the amount of the statutory maximum of two thousand five hundred dollars per day per violation of Proposition 65. The Plaintiff asserts that every consumed cup of coffee, absent a compliant warning, is equivalent to a violation under Proposition 65.

The Company, as part of a joint defense group organized to defend against the lawsuit, disputes the claims of the Plaintiff. Acrylamide is not added to coffee, but is present in all coffee in small amounts (parts per billion) as a byproduct of the coffee bean roasting process. The Company has asserted multiple affirmative defenses. Trial of the first phase of the case commenced on September 8, 2014, and was limited to three affirmative defenses shared by all defendants. On September 1, 2015, the trial court issued a final ruling adverse to defendants on all Phase 1 defenses. Trial of the second phase of the case commenced in the fall of 2017. On May 7, 2018, the trial court issued a ruling adverse to defendants on the Phase 2 defense, the Company's last remaining defense to liability. On June 22, 2018 the California Office of Environmental Health Hazard Assessment (OEHHA) proposed a new regulation clarifying that cancer warnings are not required for coffee under Proposition 65. Defendants anticipate that the proposed regulation will be final during the first half of calendar 2019. The case was set to proceed to a third phase trial on damages, remedies and attorneys' fees on October 15, 2018. However, on October 12, 2018, the California Court of Appeal granted the defendants request for a stay of the Phase 3 trial.

At this stage of the proceedings, Starbucks believes that the likelihood that the Company will ultimately incur a loss in connection with this litigation is reasonably possible rather than probable. Accordingly, no loss contingency was recorded for this matter. The outcome and the financial impact of the case to Starbucks, if any, cannot be predicted. Starbucks is party to various other legal proceedings arising in the ordinary course of business, including certain employment litigation cases that have been certified as class or collective actions, but, except as noted above, is not currently a party to any legal proceeding that management believes could have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Note 15: Segment Reporting

Segment information is prepared on the same basis that our ceo, who is our chief operating decision maker, manages the segments, evaluates financial results and makes key operating decisions.

Consolidated revenue mix by product type (in millions):

	Quarter Ended Dec 30, 2018		Dec 31, 2017 ⁽¹⁾	
Beverage	\$3,926.0	59 %	\$3,418.0	56 %

⁽¹⁾ Prior period amounts have not been restated and continue to be reported under the accounting standards in effect for that period.

Lease exit costs associated with our restructuring efforts, primarily related to the closure of Teavana retail stores and certain Starbucks company-operated stores, are recognized concurrently with actual store closures. These expenses are primarily recorded within Corporate and other, and Americas. Total lease exit costs are expected to be approximately \$196.6 million of which \$8.5 million and \$16.6 million were recorded within restructuring and impairments on the consolidated statement of earnings in the first quarter of 2019 and 2018, respectively. Previous lease exit costs recorded within restructuring expenses in fiscal 2018 and 2017 totaled \$135.0 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

CAUTIONARY STATEMENT PURSUANT TO THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain statements herein are “forward-looking” statements within the meaning of the within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, these statements can be identified by the use of words such as “anticipate,” “expect,” “believe,” “could,” “estimate,” “feel,” “forecast,” “intend,” “may,” “plan,” “potential,” “project,” “shou similar expressions intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These statements include statements relating to trends in or expectations relating to the expected effects of our initiatives and plans, as well as trends in or expectations regarding financial results, tax rates, business opportunities and expansion, strategic acquisitions, expenses, dividends, share repurchases, commodity costs and our mitigation strategies, liquidity, cash flow from operations, use of cash and cash requirements, borrowing capacity and use of proceeds, repatriation of cash to the U.S., the potential issuance of debt and applicable interest rate, the expected effects of new accounting pronouncements and the estimated impact of changes in U.S. tax law, including on tax rates, investments funded by these changes, and potential outcomes and effects of legal proceedings. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties. Actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, fluctuations in U.S. and international economies and currencies, our ability to preserve, grow and leverage our brands, potential negative effects of incidents involving food or beverage-borne illnesses, tampering, adulteration, contamination or mislabeling, potential negative effects of material breaches of our information technology systems to the extent we experience a material breach, material failures of our information technology systems, costs associated with, and the successful execution of, the company's initiatives and plans, including the integration of Starbucks Japan and the East China business and the successful execution of our Global Coffee Alliance with Nestlé, our ability to obtain financing on acceptable terms, the acceptance of the company's products by our customers, the impact of competition, the prices and availability of coffee, dairy and other raw materials, the effect of legal proceedings, the effects of the Tax Cuts and Jobs Act and related guidance and regulations that may be promulgated, and other risks detailed in our filings with the SEC, including in Part I Item IA “Risk Factors” in the 10-K.

A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. You should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. We are under no obligation to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.

This information should be read in conjunction with the condensed consolidated financial statements and the notes included in Item 1 of Part I of this 10-Q and the audited consolidated financial statements and notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations, contained in the 10-K. General

Our fiscal year ends on the Sunday closest to September 30. All references to store counts, including data for new store openings, are reported net of store closures, unless otherwise noted.

Overview

Starbucks net revenue grew 9% to \$6.6 billion in the first quarter of fiscal 2019. This was primarily driven by 7% growth in net new Starbucks® stores, or 1,889 net new openings over the last 12 months, incremental revenues from the ownership change in East China and global comparable store sales growth of 4%. These increases were partially offset by licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand. Consolidated operating income decreased \$100.4 million, or 9.0%, to \$1.0 billion. Operating margin declined 310 basis points to 15.3%. This was primarily due to licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand as well as food and beverage-related mix shifts, partially offset by sales leverage, driven by price increases.

Starbucks results for the first quarter of fiscal 2019 reflect the impact of certain restructuring and streamlining efforts, initiated during the fourth quarter of fiscal 2017, to focus on accelerating growth in high-returning businesses and removing non-core, slow growth activities. These efforts primarily include the acquisition of our East China joint venture, the conversion of our Taiwan and Brazil operations to licensed models, the closure of Teavana™/MC retail

stores and the sale of the Tazo brand.

Americas revenue grew by 8% to \$4.6 billion, primarily driven by 807 net new store openings, or 5% growth, over the past 12 months, comparable store sales growth of 4% and the impact of the adoption of new revenue recognition guidance on stored value card (“SVC”) breakage, partially offset by the absence of revenue related to the conversion of our Brazil retail business to fully licensed operations in the second quarter of fiscal 2018. Operating income increased \$34 million to \$1.0 billion and operating margin of 22.0% declined 100 basis points. This is primarily due to higher investments in our store partners,

Table of Contents

including higher wages and benefits and those funded by tax reform, product mix shift and higher restructuring and asset impairments, partially offset by sales leverage.

In our China/Asia Pacific segment, revenues grew by 45% to \$1.2 billion, primarily driven by incremental revenues from the impact of our ownership change in East China, 758 net new store openings, or a 13% increase over the past 12 months, and a 3% increase in comparable store sales. Operating income grew 13% to \$222 million, while operating margin declined 530 basis points to 18.0%, primarily due to the impact of our ownership change in East China.

In our EMEA segment, revenues decreased \$2 million, or 1%, primarily driven by unfavorable foreign currency translation, offset by 324 net new store openings, or 10% store growth, over the past 12 months. Operating margin of 10.1% declined 200 basis points from a year ago primarily driven by restructuring costs, including severance and asset impairment costs.

Channel Development segment revenues decreased 20% to \$505 million, primarily driven by licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand. Operating income declined 35% from the prior year to \$176 million, while operating margin declined 810 basis points to 34.8%, primarily driven by licensing our CPG and Foodservice businesses to Nestlé, selling our Tazo brand and Nestlé Alliance headcount-related costs, including retention costs.

In December 2017, the U.S. government enacted comprehensive tax legislation into law H.R. 1, commonly referred to as the Tax Cuts and Jobs Act (the “Tax Act”), which significantly changed existing U.S. tax law and included numerous provisions that affect our business. Our U.S. corporate income tax rate for fiscal 2019 and future years is 21%, while a blended rate of 24.5% was applied in fiscal 2018.

Comparable Store Sales

Starbucks comparable store sales for the first quarter of fiscal 2019:

	Quarter Ended Dec 30, 2018		
	Sales Growth	Change in Transactions	Change in Ticket
Consolidated	4%	—%	3%
Americas	4%	—%	4%
China/Asia Pacific	3%	1%	2%
EMEA ⁽¹⁾	(1)%	(1)%	—%

⁽¹⁾ Company-operated stores represent 14% of the EMEA segment store portfolio as of December 30, 2018.

Our comparable store sales represent the growth in revenues from Starbucks® company-operated stores open 13 months or longer. Comparable store sales exclude the effect of foreign currency translation. Refer to our Quarterly Store Data also included in Item 2 of Part I of this 10-Q, for additional information on our company-operated and licensed store portfolio.

Results of Operations (in millions)**Revenues**

	Quarter Ended		
	Dec 30, 2018	Dec 31, 2017	% Change
Company-operated stores	\$5,370.3	\$4,741.8	13.3 %
Licensed stores	737.1	682.4	8.0
Other	525.3	649.5	(19.1)
Total net revenues	\$6,632.7	\$6,073.7	9.2 %

Quarter ended December 30, 2018 compared with quarter ended December 31, 2017

Total net revenues for the first quarter of fiscal 2019 increased \$559 million compared to a year ago, primarily due to increased revenues from company-operated stores (\$629 million). The growth in company-operated store revenues was driven by incremental revenues from the impact of our ownership change in East China (\$299 million) and 784 net new Starbucks® company-operated store openings, or a 6% increase, over the past 12 months (\$226 million). Also contributing was a 4% increase in comparable store sales (\$167 million), attributable to a 3% increase in average

ticket, partially offset by the absence of revenue from the closure of our Teavana retail stores (\$53 million) and unfavorable foreign currency translation (\$32 million).

Table of Contents

Licensed store revenue growth also contributed to the increase in total net revenues (\$55 million), primarily due to increased product and equipment sales to and royalty revenues from our licensees (\$68 million), largely due to the opening of 1,105 net new Starbucks® licensed stores, or a 9% increase, over the past 12 months and the conversion of our Taiwan market to fully licensed at the end of the first quarter of fiscal 2018 (\$6 million). These increases were partially offset by the impact of our ownership change in East China (\$19 million), which closed also at the end of the first quarter of fiscal 2018.

Other revenues decreased \$124 million, primarily driven by the licensing of our CPG and Foodservice business to Nestlé and selling our Tazo brand (\$126 million).

Operating Expenses

	Quarter Ended			
	Dec 30, 2018	Dec 31, 2017	Dec 30, 2018	Dec 31, 2017
	As a % of Total Net Revenues			
Cost of sales including occupancy costs	\$2,758.7	\$2,501.7	41.6%	41.2 %
Store operating expenses	1,993.0	1,737.0	30.0	28.6
Other operating expenses	93.2	129.5	1.4	2.1
Depreciation and amortization expenses	333.4	258.8	5.0	4.3
General and administrative expenses	463.3	392.4	7.0	6.5
Restructuring and impairments	43.2	27.6	0.7	0.5
Total operating expenses	5,684.8	5,047.0	85.7	83.1
Income from equity investees	67.8	89.4	1.0	1.5
Operating income	\$1,015.7	\$1,116.1	15.3%	18.4 %
Store operating expenses as a % of company-operated store revenues			37.1%	36.6 %
Other operating expenses as a % of non-company-operated store revenues			7.4 %	9.7 %

Quarter ended December 30, 2018 compared with quarter ended December 31, 2017

Cost of sales including occupancy costs as a percentage of total net revenues increased 40 basis points for the first quarter of fiscal 2019, primarily due to licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand (approximately 90 basis points) and food and beverage-related mix shifts (approximately 70 basis points), partially offset by sales leverage, driven by price increases (approximately 60 basis points).

Store operating expenses as a percentage of total net revenues increased 140 basis points for the first quarter of fiscal 2019. Store operating expenses as a percentage of company-operated store revenues increased 50 basis points, primarily due to increased partner investments that are funded by savings from the Tax Act and growth in wages and benefits (approximately 120 basis points), largely in the Americas segment. This is partially offset by the impact of our ownership change in East China (approximately 60 basis points).

Other operating expenses as a percentage of total revenues decreased 70 basis points for the first quarter of fiscal 2019. Other operating expenses as a percentage of non-retail revenues decreased 230 basis points, primarily driven by cost savings related to licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand (approximately 300 basis points), partially offset by Nestlé Alliance headcount-related costs, including employee retention costs (approximately 40 basis points).

Depreciation and amortization expenses as a percentage of total net revenues increased 70 basis points, primarily due to the ownership change in East China (approximately 60 basis points).

General and administrative expenses as a percentage of total net revenues increased 50 basis points, primarily driven by increased stock-based compensation, largely the 2018 U.S. stock award (approximately 50 basis points), which is offset by tax expense savings from the Tax Act.

Restructuring and impairment expenses increased \$16 million, primarily due to severance costs (\$24 million), asset impairments in the U.S. (\$10 million) and higher costs associated with the closure of certain company-operated stores

(\$8 million). These increases were partially offset by lapping prior year restructuring and impairment costs related to our strategy to close Teavana retail stores (\$26 million).

Table of Contents

Income from equity investees decreased \$22 million, primarily due to the impact of our ownership change in East China.

The combination of these changes resulted in an overall decrease in operating margin of 310 basis points for the first quarter of fiscal 2019.

Other Income and Expenses

	Quarter Ended			
	Dec 30, 2018	Dec 31, 2017	Dec 30, 2018	Dec 31, 2017
	As a % of Total Net Revenues			
Operating income	\$1,015.7	\$1,116.1	15.3 %	18.4 %
Gain resulting from acquisition of joint venture	—	1,326.3	—	21.8
Net gain resulting from divestiture of certain operations	—	501.2	—	8.3
Interest income and other, net	24.8	88.2	0.4	1.5
Interest expense	(75.0)	(25.9)	(1.1)	(0.4)
Earnings before income taxes	965.5	3,005.9	14.6	49.5
Income tax expense	205.1	755.8	3.1	12.4
Net earnings including noncontrolling interests	760.4	2,250.1	11.5	37.0
Net loss attributable to noncontrolling interests	(0.2)	(0.1)	—	—
Net earnings attributable to Starbucks	\$760.6	\$2,250.2	11.5 %	37.0 %
Effective tax rate including noncontrolling interests			21.2 %	25.1 %

Quarter ended December 30, 2018 compared with quarter ended December 31, 2017

Interest income and other, net decreased \$63 million primarily due to the adoption of the new revenue recognition guidance on a prospective basis, which requires estimated breakage on unredeemed stored value cards to be recorded as revenue. We recorded breakage in interest income and other, net in the prior year.

Interest expense increased \$49 million primarily related to additional interest incurred on long-term debt issued in November 2017 and March and August 2018.

The effective tax rate for the quarter ended December 30, 2018 was 21.2% compared to 25.1% for the same quarter in fiscal 2018. The decrease was primarily due to lapping the transition tax on our accumulated undistributed foreign earnings and remeasurement of our deferred tax liabilities (approximately 460 basis points), the release of income tax reserves related to the settlement of a U.S. tax examination (approximately 360 basis points), lower corporate tax rate as a result of the Tax Act (approximately 350 basis points), stock-based compensation excess tax benefit (approximately 320 basis points) and the impact of foreign derived intangible income primarily related to our Nestlé transaction (approximately 180 basis points). These favorable impacts were partially offset by the impact of changes in indefinite reinvestment assertions for certain foreign subsidiaries in the first quarter of fiscal 2019 (approximately 810 basis points) and lapping the gain on the purchase of our East China joint venture that was not subject to income tax (approximately 500 basis points). See Note 12, Income Taxes, for further discussion.

Revenues

Americas total net revenues for the first quarter of fiscal 2019 increased \$348 million, or 8%, primarily due to higher revenues from company-operated stores (\$299 million) and licensed stores (\$48 million).

The increase in company-operated store revenues was driven by 355 net new Starbucks® company-operated store openings, or a 4% increase, over the past 12 months (\$157 million) and a 4% increase in comparable store sales (\$145 million), primarily attributable to a 4% increase in average ticket, and the impact of the adoption of revenue recognition guidance on SVC breakage (\$30 million), partially offset by the conversion of our Brazil retail business to fully licensed operations in the second quarter of fiscal 2018 (\$20 million).

The increase in licensed store revenues was driven by higher product sales to and royalty revenues from our licensees (\$43 million), primarily resulting from the opening of 452 net new licensed stores, or a 6% increase, over the past 12 months.

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues decreased 30 basis points for the first quarter of fiscal 2019, primarily due to leverage on costs of sales driven by price increases (approximately 60 basis points) and the impact of the adoption of new revenue recognition guidance on SVC breakage (approximately 30 basis points), partially offset by product mix shift (approximately 50 basis points).

Store operating expenses as a percentage of total net revenues increased 80 basis points for the first quarter of fiscal 2019. Store operating expenses as a percentage of company-operated store revenues increased 100 basis points, primarily driven by increased investments in our store partners that are funded by savings from the Tax Act and growth in wages and benefits (approximately 170 basis points) and increased marketing spend (approximately 30 basis points). These were partially offset by sales leverage (approximately 70 basis points) and the impact of the adoption of new revenue recognition guidance on SVC breakage (approximately 30 basis points).

Other operating expenses as a percentage of total revenues increased 10 basis points for the first quarter of fiscal 2019. Other operating expenses as a percentage of non-retail revenues increased 30 basis points, primarily due to lapping a prior year favorable settlement related to Target Canada store closures (approximately 90 basis points), partially offset

by sales leverage (approximately 40 basis points).

30

Table of Contents

Restructuring and impairment expenses increased \$21 million, primarily due to asset impairments in the U.S., higher costs associated with the closure of certain company-operated stores in the U.S. and Canada and headcount-related restructuring costs.

The combination of these changes resulted in an overall decrease in operating margin of 100 basis points for the first quarter of fiscal 2019.

Discussion of our China/Asia Pacific segment results below reflects the impact of fully consolidating our East China business from an equity method joint venture to a company-operated market since the acquisition date of December 31, 2017. Under the joint venture model, we recognized royalties and product sales within revenue and related product cost of sales as well as our proportionate share of East China's net earnings, which resulted in a higher margin business. Under the company-operated ownership model, East China's operating results are reflected in most income statement lines of this segment. The impact will no longer be significant after the first quarter of fiscal 2019 since we lap the conversion to fully consolidated operations for East China at the beginning of the second quarter of fiscal 2019.

Quarter ended December 30, 2018 compared with quarter ended December 31, 2017

Revenues

China/Asia Pacific total net revenues for the first quarter of fiscal 2019 increased \$384 million, or 45%, primarily due to higher revenues from company-operated stores (\$382 million) and licensed stores (\$2 million).

The increase in company-operated store revenues was driven by the impact of the ownership change in East China (\$299 million), 443 net new company-operated store openings, or a 14% increase, over the past 12 months (\$69 million) and a 3% increase in comparable store sales (\$24 million), partially offset by unfavorable foreign currency translation (\$16 million).

The increase in licensed store revenues was driven by increased product sales to and royalty revenues from licensees (\$12 million), primarily resulting from the opening of 315 net new licensed stores, or a 12% increase over the past 12 months and the conversion of our Taiwan joint venture to fully licensed operations in the first quarter of fiscal 2018 (\$6 million), partially offset by the impact of our ownership change in East China (\$19 million).

Table of Contents

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues decreased 130 basis points for the first quarter of fiscal 2019, primarily driven by a mix shift within beverage in Japan (approximately 60 basis points) and the ownership change in East China (approximately 20 basis points).

Store operating expenses as a percentage of total net revenues increased 70 basis points for the first quarter of fiscal 2019. As a percentage of company-operated store revenues, store operating expenses decreased 30 basis points, primarily due to the impact of the ownership change in East China (approximately 70 basis points).

Other operating expenses as a percentage of total net revenues decreased 40 basis points for the first quarter of fiscal 2019. Excluding the impact of company-operated store revenues, other operating expenses decreased 110 basis points in the first quarter, primarily due to lower performance-based compensation (approximately 250 basis points), partially offset by increased investments to support our licensees (approximately 120 basis points) and higher expenses resulting from digital platforms (approximately 60 basis points).

Depreciation and amortization expenses as a percentage of total net revenues increased 310 basis points, primarily due to the ownership change in East China (approximately 330 basis points).

General and administrative expenses as a percentage of total net revenues decreased 70 basis points for the first quarter of fiscal 2019, primarily due to the impact of the ownership change in East China (approximately 130 basis points).

Income from equity investees decreased \$24 million primarily due to the impact of our ownership change in East China.

The combination of these changes resulted in an overall decrease in operating margin of 530 basis points for the first quarter of fiscal 2019.

Quarter ended December 30, 2018 compared with quarter ended December 31, 2017

Revenues

EMEA total net revenues decreased \$2 million, or 1%, for the first quarter of fiscal 2019.

Company-operated stores decreased \$8 million, or 5%, primarily due to unfavorable foreign currency translation (\$4 million), the absence of revenues from certain store closures (\$2 million) and a 1% decrease in comparable store sales (\$1 million).

Licensed store revenues increased \$6 million, or 5%, due to higher product sales to and royalty revenues from our licensees (\$13 million), primarily resulting from the opening of 338 net new licensed stores, or a 13% increase, over the past 12 months, partially offset by unfavorable foreign currency translation (\$8 million).

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues decreased 260 basis points for the first quarter of fiscal 2019, primarily due to leverage on cost of sales (approximately 140 basis points).

Store operating expenses as a percentage of total net revenues increased 70 basis points for the first quarter of fiscal 2019. As a percentage of company-operated store revenues, store operating expenses increased 310 basis points, primarily due to lapping prior year gains on sales of certain store assets (approximately 300 basis points).

Other operating expenses as a percentage of total net revenues increased 190 basis points for the first quarter of fiscal 2019. Excluding the impact of company-operated store revenues, other operating expenses increased 340 basis points, primarily due to the impact of certain business taxes (approximately 270 basis points), partially offset by the lapping of business process optimization expenses (approximately 80 basis points).

Restructuring and impairments expenses increased \$6 million, primarily due to severance and asset impairments.

The combination of these changes resulted in an overall decrease in operating margin of 200 basis points for the first quarter of fiscal 2019.

Quarter ended December 30, 2018 compared with quarter ended December 31, 2017

Revenues

Channel Development total net revenues for the first quarter of fiscal 2019 decreased \$123 million, or 20%, when compared to the prior year period primarily driven by licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand (\$126 million).

Operating Expenses

Cost of sales as a percentage of total net revenues increased 1,630 basis points for the first quarter, primarily driven by licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand (approximately 1,680 basis points).

Other operating expenses as a percentage of total net revenues decreased 620 basis points, primarily driven by cost savings related to licensing our CPG and Foodservice businesses to Nestlé and selling our Tazo brand (approximately 740 basis points), partially offset by Nestlé Alliance headcount-related costs, including retention costs (approximately 100 basis points).

General and administrative expenses as a percentage of total net revenues increased 10 basis points, primarily due to licensing our CPG and Foodservice business to Nestlé.

Income from equity investees increased \$3 million due to higher income from our North American Coffee Partnership joint venture, primarily driven by increased sales of Frappuccino® and Starbucks Doubleshot® beverages.

The combination of these changes resulted in an overall decrease in operating margin of 810 basis points for the first quarter of fiscal 2019.

Financial Condition, Liquidity and Capital Resources

Investment Overview

Our cash and investments totaled \$5.3 billion as of December 30, 2018 and \$9.2 billion as of September 30, 2018. We actively manage our cash and investments in order to internally fund operating needs, make scheduled interest and principal payments on our borrowings, make acquisitions, and return cash to shareholders through common stock cash dividend payments and share repurchases. Our investment portfolio primarily includes highly liquid available-for-sale securities, including corporate debt securities, government treasury securities (foreign and domestic), mortgage and asset-backed securities and agency obligations. As of December 30, 2018, approximately \$1.5 billion of cash was held in foreign subsidiaries.

Borrowing Capacity

Our \$2.0 billion unsecured 5-year revolving credit facility (the “2018 credit facility”) and our \$1.0 billion unsecured 364-Day credit facility (the “364-day credit facility”) are available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases.

The 2018 credit facility, of which \$150 million may be used for issuances of letters of credit, is currently set to mature on October 25, 2022. We have the option, subject to negotiation and agreement with the related banks, to increase the maximum commitment amount by an additional \$500 million. Borrowings under the credit facility will bear interest at a variable rate based on LIBOR, and, for U.S. dollar-denominated loans under certain circumstances, a Base Rate (as defined in the credit facility), in each case plus an applicable margin. The applicable margin is based on the better of (i) the Company's long-term credit ratings assigned by Moody's and Standard & Poor's rating agencies and (ii) the Company's fixed charge coverage ratio, pursuant to a pricing grid set forth in the five-year credit agreement. The current applicable margin is 0.910% for Eurocurrency Rate Loans and 0.00% (nil) for Base Rate Loans.

The 364-day credit facility, of which no amount may be used for issuances of letters of credit, is currently set to mature on October 23, 2019. We have the option, subject to negotiation and agreement with the related banks, to increase the maximum commitment amount by an additional \$500 million. Borrowings under the credit facility will bear interest at a variable rate based on LIBOR, and, for U.S. dollar-denominated loans under certain circumstances, a Base Rate (as defined in

Table of Contents

the credit facility), in each case plus an applicable margin. The applicable margin is 0.92% for Eurocurrency Rate Loans and 0.00% (nil) for Base Rate Loans.

Both credit facilities contain provisions requiring us to maintain compliance with certain covenants, including a minimum fixed charge coverage ratio, which measures our ability to cover financing expenses. As of December 30, 2018, we were in compliance with all applicable credit facility covenants.

Under our commercial paper program, we may issue unsecured commercial paper notes up to a maximum aggregate amount outstanding at any time of \$3 billion, with individual maturities that may vary but not exceed 397 days from the date of issue. Amounts outstanding under the commercial paper program are required to be backstopped by available commitments under our credit facility discussed above. The proceeds from borrowings under our commercial paper program may be used for working capital needs, capital expenditures and other corporate purposes, including, but not limited to, business expansion, payment of cash dividends on our common stock and share repurchases. As of December 30, 2018, we had no borrowings under our commercial paper program.

See Note 9, Debt, to the condensed consolidated financial statements included in Item 1 of Part I of this 10-Q for details of the components of our long-term debt.

The indentures under which all of our Senior Notes were issued require us to maintain compliance with certain covenants, including limits on future liens and sale and leaseback transactions on certain material properties. As of December 30, 2018, we were in compliance with all applicable covenants.

Use of Cash

We expect to use our available cash and investments, including, but not limited to, additional potential future borrowings under the credit facilities, commercial paper program and the issuance of debt, to invest in our core businesses, including capital expenditures, new product innovations, related marketing support and partner and digital investments, return cash to shareholders through common stock cash dividend payments and share repurchases, as well as other new business opportunities related to our core and developing businesses. Further, we may use our available cash resources to make proportionate capital contributions to our investees. We may also seek strategic acquisitions to leverage existing capabilities and further build our business in support of our growth-at-scale agenda. Acquisitions may include increasing our ownership interests in our investees. Any decisions to increase such ownership interests will be driven by valuation and fit with our ownership strategy.

We believe that future cash flows generated from operations and existing cash and investments both domestically and internationally combined with our ability to leverage our balance sheet through the issuance of debt will be sufficient to finance capital requirements for our core businesses as well as shareholder distributions for the foreseeable future. Significant new joint ventures, acquisitions and/or other new business opportunities may require additional outside funding. We have borrowed funds and continue to believe we have the ability to do so at reasonable interest rates; however, additional borrowings would result in increased interest expense in the future. In this regard, we may incur additional debt, within targeted levels, as part of our plans to fund our capital programs, including cash returns to shareholders through dividends and share repurchases.

We regularly review our cash positions and our determination of indefinite reinvestment of foreign earnings. In the event we determine that all or a portion of such foreign earnings are no longer indefinitely reinvested, we may be subject to additional foreign withholding taxes and U.S. state income taxes, which could be material. The Company revised its indefinite reinvestment assertions for prior years' cumulative earnings from certain foreign subsidiaries. This change did not have a material impact to our financial results. We have not, nor do we anticipate the need of, repatriated funds to the U.S. to satisfy domestic liquidity needs. See Note 12, Income Taxes, for further discussion. During the first quarter of fiscal 2019, our Board of Directors declared a quarterly cash dividend to shareholders of \$0.36 per share to be paid on February 22, 2019 to shareholders of record as of the close of business on February 7, 2019.

We entered into accelerated share repurchase agreements (“ASR agreements”) with third-party financial institutions totaling \$5.0 billion, effective October 1, 2018. We made a \$5.0 billion upfront payment to the financial institutions and received an initial delivery of 72.0 million shares of our common stock. Upon completion, the total shares repurchased will be based on the volume-weighted average share price during the term of the ASR agreements, less an applicable discount. The financial institutions may be required to deliver additional shares or, under certain

circumstances, we may elect to deliver shares or make a cash payment to the financial institutions. Final settlement is expected to be completed as early as February 2019 and no later than March 2019. On November 1, 2018, the Company announced an additional 120 million shares being authorized for repurchase. The number of remaining shares authorized for repurchase as of December 30, 2018 totaled 96.8 million.

Other than normal operating expenses, cash requirements for the remainder of fiscal 2019 are expected to consist primarily of capital expenditures for investments in our new and existing stores, our developing Siren Retail business and our supply chain and corporate facilities. Total capital expenditures for fiscal 2019 are expected to be approximately \$2.0 billion.

Table of Contents

Cash Flows

Cash provided by operating activities was \$2.4 billion for the first quarter of fiscal 2019, compared to \$1.8 billion for the same period in fiscal 2018. The change was primarily due to the timing of tax payments and refunds.

Cash used by investing activities for the first quarter of fiscal 2019 totaled \$510.4 million, compared to cash provided by investing activities of \$395.0 million for the same period in fiscal 2018. The change was primarily driven by lapping the prior year proceeds from the sale of our Tazo brand and decrease in sales of investments.

Cash used by financing activities for the first quarter of fiscal 2019 and fiscal 2018 totaled \$5.9 billion and \$1.0 billion, respectively. The change was primarily due to the repurchase of our common stock under accelerated share repurchase agreements.

Contractual Obligations

In Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 10-K, we disclosed that we had \$24.3 billion in total contractual obligations as of September 30, 2018. There have been no material changes to our total obligations during the period covered by this 10-Q outside of the normal course of our business.

Off-Balance Sheet Arrangements

There has been no material change in our off-balance sheet arrangements discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 10-K.

Commodity Prices, Availability and General Risk Conditions

Commodity price risk represents our primary market risk, generated by our purchases of green coffee and dairy products, among other items. We purchase, roast and sell high-quality arabica coffee and related products and risk arises from the price volatility of green coffee. In addition to coffee, we also purchase significant amounts of dairy products to support the needs of our company-operated stores. The price and availability of these commodities directly impact our results of operations, and we expect commodity prices, particularly coffee, to impact future results of operations. For additional details, see Product Supply in Item 1 of the 10-K, as well as Risk Factors in Item 1A of the 10-K.

Seasonality and Quarterly Results

Our business is subject to moderate seasonal fluctuations, of which our fiscal second quarter typically experiences lower revenues and operating income. Additionally, as Starbucks Cards are issued to and loaded by customers during the holiday season, we tend to have higher cash flows from operations during the first quarter of the fiscal year. However, since revenues from Starbucks Cards are recognized upon redemption and not when cash is loaded onto the Card, the impact of seasonal fluctuations on the consolidated statements of earnings is much less pronounced. As a result of moderate seasonal fluctuations, results for any quarter are not necessarily indicative of the results that may be achieved for the full fiscal year.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 1, Summary of Significant Accounting Policies, to the condensed consolidated financial statements included in Item 1 of Part I of this 10-Q, for a detailed description of recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in the commodity price risk, foreign currency exchange risk, equity security price risk or interest rate risk discussed in Item 7A of the 10-K.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that material information required to be disclosed in our periodic reports filed or submitted under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.

During the first quarter of fiscal 2019, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of the

design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report (December 30, 2018).

Table of Contents

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that materially affected or are reasonably likely to materially affect internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits 31.1 and 31.2 to this 10-Q.

Table of Contents

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

See Note 14, Commitments and Contingencies, to the condensed consolidated financial statements included in Item 1 of Part I of this 10-Q for information regarding certain legal proceedings in which we are involved.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed in the 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Information regarding repurchases of our common stock during the quarter ended December 30, 2018:

Period ⁽¹⁾	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽³⁾
October 1, 2018 - October 28, 2018	71,968,334	\$ 55.58	71,968,334	96,839,790
