Franklin Universal Trust

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED)

1. ORGANIZATION

Franklin Universal Trust (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

2. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Corporate debt securities and government securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-Q

valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert to the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into

Franklin Universal Trust

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED) (CONTINUED)

2. SECURITY VALUATION (CONTINUED)

question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

3. INCOME TAXES

At May 31, 2009, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$197,134,589
	=====
Unrealized appreciation	\$ 11,770,977
Unrealized depreciation	(38,845,779)

Net unrealized appreciation (depreciation)	\$(27,074,802)
	=====

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-Q

4. RESTRICTED SECURITIES

At May 31, 2009, the Fund held investments in restricted securities, excluding 144A securities deemed to be liquid, valued in accordance with procedures approved by the Fund's Board of Trustees as reflecting fair value, as follows:

PRINCIPAL AMOUNT/ SHARES	ISSUER	ACQUISITION DATE	COST
721,603	Atherton Franchise Capital, 13.073%, 12/1/08	4/28/94	\$721,603
181,875	VS Holdings Inc.	12/06/01	181,875
TOTAL RESTRICTED SECURITIES (0.01% of Net Assets)			

5. OTHER CONSIDERATIONS

From time to time, officers, directors or employees of the Fund's Investment manager may have discussions or enter into agreements with issuers, underwriters or creditors' committees which, pursuant to the Fund's policies and requirements of applicable securities laws, could prevent the Fund from trading in the securities of such company for limited or extended periods of time.

6. FAIR VALUE MEASUREMENTS

The Fund adopted Financial Accounting Standards Board (FASB) Statement No. 157, "Fair Value Measurement" (SFAS 157), on September 1, 2008. SFAS 157 defines fair value, establishes a

Franklin Universal Trust

NOTES TO STATEMENT OF INVESTMENTS (UNAUDITED) (CONTINUED)

6. FAIR VALUE MEASUREMENTS (CONTINUED)

framework for measuring fair value, and expands disclosures about fair value measurements. The Fund has determined that the implementation of SFAS 157 did not have a material impact on the Fund's financial statements.

SFAS 157 establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

- Level 1 - quoted prices in active markets for identical securities
- Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speed, credit risk, etc.)
- Level 3 - significant unobservable inputs (including the Fund's own

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-Q

assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of May 31, 2009, in valuing the Fund's assets and liabilities carried at fair value:

	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
	-----	-----	-----	-----
ASSETS:				
Investments in Securities	\$45,837,309	\$124,214,166	\$8,312	\$170,059,787
LIABILITIES:				
Senior Fixed Rate Notes	--	42,000,000	--	42,000,000

At May 31, 2009, the reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value, is as follows:

	INVESTMENTS IN SECURITIES

Beginning Balance - September 1, 2008	\$ 7,611
Net realized gain (loss)	(3,384,733)
Net change in unrealized appreciation (depreciation)	3,388,384
Net purchases (sales)	(4,046)
Transfers in and/or out of Level 3	1,096

Ending Balance	\$ 8,312
	=====
Net change in unrealized appreciation (depreciation) attributable to assets still held at end of period	\$ --

7. NEW ACCOUNTING PRONOUNCEMENTS

In April 2009, FASB issued FASB Staff Position FSP FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (FSP FAS 157-4), which provides additional guidance when the volume and level of activity for the asset or liability measured at fair value have significantly decreased. Additionally, FSP FAS 157-4 amends SFAS 157, expanding disclosure requirements by reporting entities surrounding the major categories of assets and liabilities carried at fair value. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009. The Fund believes applying FSP FAS 157-4 will not have a material impact on its financial statements.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-Q

In May 2009, FASB issued Statement No. 165, "Subsequent Events", which is intended to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before the statements are issued or are available to be issued. FASB 165 is effective for interim or annual financial periods ending after June 15, 2009, the adoption of FASB 165 will not have a material impact on the financial statements.

Item 2. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.
