Notes to Statement of Investments (unaudited)

1. ORGANIZATION

Franklin Universal Trust (Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end investment company.

2. FINANCIAL INSTRUMENT VALUATION

The Fund values its investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date.

Under procedures approved by the Fund's Board of Trustees, the Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity and other securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities may be valued utilizing a market-based approach in which the fundamental characteristics or relationships to similar securities are used to determine the fair value of the security held.

Additionally, for certain equity securities, the Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services utilize a market-based approach through which quotes from market makers are used to determine fair value. In other instances, the pricing services utilize proprietary valuation models to develop an income-based valuation which may consider characteristics such as credit risk, yield spreads, benchmark quotes and other unique security features in order to estimate the relevant cash flows which are then used to calculate the fair value.

Corporate debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services utilize a market-based approach through which quotes from market makers are used to determine fair value. In other instances, the pricing services utilize proprietary valuation models to develop an income-based valuation which may consider characteristics such as option-adjusted spreads, credit risk and spreads, benchmark yield curves, coupon rates, maturity and other unique security features in order to estimate the relevant cash flows which are then used to calculate the fair value.

Senior secured corporate loans with floating or variable interest rates generally trade in the over-the-counter market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services utilize a market-based approach

through which quotes from market makers, loan dealers, or financial institutions are used to determine fair value. In other instances, the pricing services utilize proprietary valuation models to develop an income-based valuation which may consider characteristics such as issuer type, coupon, maturity, weighted average maturity, interest rate spreads and yield curves, cash flow and credit risk/quality analysis in order to estimate the relevant cash flows which are then used to calculate the fair value.

The Fund has procedures to determine the fair value of investments for which market prices are not readily available or which may not be reliably priced. Under these procedures, the Fund primarily employs a market-based approach, which may use prices of recent transactions, various market multiples, book values, and other relevant information for the investment, related assets or liabilities or other comparable assets or liabilities to determine the fair value of the investment. In developing this fair value, the Fund may also give consideration to an income-based approach valuation, which considers anticipated future cash flows of the investment and converts those amounts into a net present value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had a ready market existed.

Trading in securities on foreign exchanges and over-the-counter markets may be completed before the daily close of business on the NYSE. Occasionally, events occur between the time at which trading in a foreign security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a foreign security held by the Fund. As a result, variances may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at the close of the NYSE. In order to minimize the potential for these discrepancies, the investment manager monitors price movements following the close of trading in foreign stock markets through a series of country specific market proxies (such as baskets of American Depository Receipts, futures contracts and exchange traded funds). These price movements are measured against established trigger thresholds for each specific market proxy to assist in determining if an event has occurred that may call into question the reliability of the values of the foreign securities held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services.

Investments in open-end mutual funds are valued at the closing net asset value.

3. INCOME TAXES

At May 31, 2010, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$ 192,392,141
Unrealized appreciation	\$ 17,289,120
Unrealized depreciation	(12,615,228)
Net unrealized appreciation (depreciation)	\$ 4,673,892

4. RESTRICTED SECURITIES

At May 31, 2010, the Fund held investments in restricted securities, excluding certain securities exempt from registration under the 1933 Act deemed to be liquid, as follows:

Shares	Issuer	Acquisition Date	Cost	Value
181,875	VS Holdings Inc.	12/06/01	\$ 181,875	\$
Total Restricted Securities (0.00% of Net Assets)				

5. OTHER CONSIDERATIONS

From time to time, officers, directors or employees of the Fund's Investment Manager may have discussions or enter into agreements with issuers, underwriters or creditors' committees which, pursuant to the Fund's policies and requirements of applicable securities laws, could prevent the Fund from trading in the securities of such company for limited or extended periods of time.

6. FAIR VALUE MEASUREMENTS

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speed, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of May 31, 2010, in valuing the Fund's assets carried at fair value:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments in Securities:				
Equity Investments: ^a				
Automobiles & Components	\$	\$	\$1,096	\$ 1,096
Commercial & Professional Services			^b	^b
Diversified Financials		454,359		454,359
Other Equity Investments ^c	54,297,254			54,297,254
Senior Floating Rate Interests		1,703,274		1,703,274
Corporate Bonds		139,460,144		139,460,144
Short Term Investments	1,149,906			1,149,906
Total Investments in Securities	\$55,447,160	\$141,617,777	\$1,096	\$197,066,033

^a Includes common and preferred stock.

^b Includes security determined to have no value at May 31, 2010.

^c For detailed industry descriptions, see the accompanying Statement of Investments.

At May 31, 2010, the reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value, is as follows:

	Net	Net Change in Unrealized	Net	Transfer	Balance (Depreciation) at End	Net Change in Unrealized Appreciation

	Balance at Beginning of Period	Realized Gain (Loss)	Appreciation (Depreciation)	Purchases (Sales)	In (Out) of Level 3	of Period	on Assets Held at Period End
Assets							
Equity Investments:							
Automobiles & Components	\$1,096	\$	\$	\$	\$	\$1,096	\$
Commercial & Professional Services	^a					^a	
Corporate Bonds	7,216	(718,255)	714,387	(3,348)			
Total	\$8,312	\$(718,255)	\$714,387	\$(3,348)	\$	\$1,096	\$

^a includes security determined to have no value at May 31, 2010.

7. NEW ACCOUNTING PRONOUNCEMENTS

In January 2010, the Financial Accounting Standards Board issued an Accounting Standards Update which enhances and clarifies existing fair value measurement disclosure requirements and is effective for interim and annual periods beginning after December 15, 2009. The Fund believes the adoption of this Accounting Standards Update will not have a material impact on its financial statements.

8. SUBSEQUENT EVENTS

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

For information on the Fund's policy regarding other significant accounting policies, please refer to the Fund's most recent semiannual or annual shareholder report.

Item 2. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Quarterly Schedule of Portfolio Holdings on Form N-Q, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) Changes in Internal Controls. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Quarterly Schedule of Portfolio Holdings on Form N-Q.

Item 3. Exhibits.

(a) Certification pursuant to Section 30a-2 under the Investment Company Act of 1940 of Laura F. Fergerson, Chief Executive Officer - Finance and Administration, and Gaston Gardey, Chief Financial Officer and Chief Accounting Officer.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
