FOOTNOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The accompanying statements, which should be read in conjunction with the Consolidated Financial Statements included in the November 30, 2001 fiscal year end Annual Report filed on Form 10-KSB, are unaudited but have been prepared in the ordinary course of business for the purpose of providing information with respect to the interim periods, and are subject to audit at the close of the year. However, it is the opinion of the management of the Company that all adjustments (none of which were other than normal recurring accruals) necessary for a fair presentation of such periods have been included.

The Consolidated Financial Statements prepared for fiscal years 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993, 1992 and 1991 were unaudited because the Company elected to not incur the expense of an audit and to conserve its cash for other corporate requirements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

First quarter ended February 28, 2002 compared to the first quarter ended February 28, 2001

For the first quarter ended February 28, 2002, the Registrant had revenues of \$240,266, which resulted in a net loss of \$419,338 or \$0.15 per share. For the first quarter ended February 28, 2001, the Registrant had revenues of \$461,484, which resulted in a net loss of \$455,009 or \$0.16 per share.

The revenues in the first quarter of 2002 decreased from 2001 as a result of a decrease in sales from \$509,411 to \$410,919, a decrease in gain on sale of equipment of \$19,555 and an increase in equity losses from \$79,505 to \$223,201. These decreases were offset by an increase in royalty income of \$39,466. The sales at the Registrant's silica sand operation decreased as a result a decrease in demand for the Registrant's low iron glass sand and bunker sand. The Registrant's equity income from its affiliated venture Rossborough-Remacor LLC (R-R) remained in a loss position, as sales have not recovered due to the loss of several steel customers to bankruptcy and the slowness in the economy. R-R expects to complete the consolidation of last summer's merger during the next quarter.

The costs and expenses were \$659,604 and \$916,493 in the first quarter of 2002 and 2001, respectively. The cost of sales decreased by \$258,710 from 2001 to 2002 due primarily to the completion of the plant improvements and partially due to the reduction in sales. The G&A increased slightly from 2001 to 2002. Some of the expenses contained in the general and administrative costs pertaining to salaries of the officers and deferred

Edgar Filing: RESERVE INDUSTRIES CORP /NM/ - Form 10QSB/A

compensation have been accrued but not paid, as the Company is conserving its cash.

Liquidity and Capital Resources

Period from December 1, 2001 to February 28, 2002

The Company's net cash provided (used) by operating activities was \$(15,404) and \$63,460 for the first quarter ended February 28, 2002 and 2001, respectively. The net cash used by investing activities was \$0 and \$24,053 for the same three months in 2002 and 2001, respectively. For 2001, the cash provided by investing activities was from the sale of surplus equipment, and the capital expenditures were for capital improvements to the sand project. The Company decreased its long-term debt by \$121 and \$33,170 for the three months ended February 28, 2002 and 2001, respectively. The Company's cash and cash equivalents increased (decreased) by \$(15,525) and \$6,237 for the three months ended February 28, 2002 and 2001, respectively.

The Company had working capital deficits of approximately \$5.38 million and \$5.25 million for the three months ended February 28, 2002 and the year ended November 30, 2001, respectively. The working capital deficit increased as a result of the operating losses. As part of the Company's program to conserve cash in order to operate the company, part of the salaries due to the officers of the Company, all of the deferred compensation due to the deceased chairman's spouse, and part of the interest due on certain loans were accrued but not paid for the three months ended February 28, 2002 and 2001, respectively. As of February 28, 2002, these accruals (salaries, deferred compensation and deferred interest) exceeded \$4.9 million.

For the current year, the Company plans to continue to accrue part of the obligations described in the preceding paragraph and expects to continue to generate sufficient cash flow to operate.
