Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No... ..

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-

Highlights

2nd quarter 2010.

- TELMEX remains committed to offering our customers products and services with the highest quality standards and maintaining Infinitum as the best product in the market. Because of this firm commitment, we will continue to carry out investments that allow us to keep up our state-of-the-art technology and world-class network. Therefore, we have 6.954 million broadband

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

Infinitem customers attracted by the quality, continuity, speed and price of our services, with growth of 17.9% in the last twelve months.

- The OECD's most recent publication shows that during the last 10 years Mexico achieved the highest growth rate in the number of total accesses of telecommunications services, including fixed, mobile and broadband services. Mexico's growth rate of 22% was double the 11% average of OECD member countries (*Communications Outlook 2009*).

- At June 30, we had 15.7 million lines in service, 1.7 million fewer than June 2009. TELMEX's share of fixed lines has continued to decrease to 79.5% of fixed lines in Mexico, below the average of 85.6% for 35 of the most representative countries worldwide (Bank of America/ Merrill Lynch Global Wireline Matrix 2010). TELMEX has 14.9% of the market with cellular telephony services included.

- 2010- The Year of Technological Innovation: we continue promoting education and the digital culture in Mexico by actively contributing to the development of the country in the knowledge era and to the use of Information Technologies, with the following updates:

- Information Technologies: The Instituto Tecnológico de TELMEX en Tecnologías de la Información (Inttelmex IT) began operations. To date it has trained, at no cost, more than 450 IT professionals to innovate and produce solutions that support the competitiveness of companies and domestic institutions.

- Education and Digital Culture: To date, we have implemented 2,650 Bibliotecas and Aulas Digitales TELMEX (TELMEX Digital Libraries and Computer Class Rooms) nationwide.

- Connectivity in the Country: At the end of June, TELMEX provided more than 2,250 WiFi Móvil en Infinitem sites, in the major airports, shopping malls, public parks and educational facilities nationwide, such as the Universidad Nacional Autónoma de México (UNAM, Mexico's national university). It is important to highlight that that the Secretaría de Comunicaciones y Transportes (SCT) decided over a year ago to operate connectivity for education and health institutions in rural communities, canceling the services that operators previously offered.

- In the second quarter of 2010, total revenues were 28.4 billion pesos, a decrease of 4.6% compared with the same quarter of 2009, mainly due to the continuous price reduction of the prices of our services and to the unexplainable delay of technological convergence in spite of the fact that nearly four years ago TELMEX signed the "Acuerdo de Convergencia (Convergence Agreement)," with the SCT. This is why there is a lack of competition of integrated services. This is why there is a lack of competition of integrated services. Moreover, the "Comisión Federal de Competencia" (Federal Competition Commission) has made declarations and fined other operators for absolute monopolistic practices. Among these operators are some that have been offering telecommunications services for more than 10 years. The effect of the convergence situation restricts consumer access to more and better telecommunications services with lower prices and to the benefits of the information and knowledge society.

- In the quarter, EBITDA (1) totaled 11.3 billion pesos, producing a margin of 39.6%. Operating income totaled 6.9 billion pesos, with a margin of 24.1%.

- Net income in the second quarter totaled 3.6 billion pesos. In the quarter, earnings per share were 20 Mexican cents, 37.5% lower than the same period of last year, and earnings per ADR (2) were 31 US cents, a decrease of 34% compared with the second quarter of 2009.

- At June 30, 2010, total debt was the equivalent of 6.696 billion dollars. Total net debt (3) was equivalent to 5.830 billion dollars, 716 million dollars less than June 30, 2009.

- Capital expenditures (Capex) were the equivalent of 168 million dollars in the second quarter. Of this investment, 70.4% was used for growth and infrastructure projects in the data business. For the six months, capex totaled 327 million dollars.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to www.telmex.com in the Investor Relations section where you will find the conciliation of EBITDA to operating income.

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

Operating Results

Lines and local traffic

At June 30, we had 15.7 million lines in service, 1.7 million fewer than June 2009. TELMEX's share of fixed lines has continued to decrease, to 79.5% of fixed lines in Mexico, below the average of 85.6% for 35 of the most representative countries worldwide (Bank of America/ Merrill Lynch Global Wireline Matrix 2010). TELMEX has 14.9% of the market with cellular telephony services included.

During the second quarter, local calls decreased 7.3% compared with the same period of 2009, totaling 4.871 billion local calls. The decline reflected the lower number of billed lines, the increase in cellular telephony services and competition from other operators.

Long distance

In the second quarter, domestic long distance (DLD) traffic decreased 6.9% compared with the second quarter of 2009, totaling 4.708 billion minutes, due to the decrease in termination traffic with cellular telephony operators and other long distance operators.

In the quarter, outgoing international long distance (ILD) traffic decreased 1.6% compared with the second quarter of 2009, totaling 339 million minutes. The decline reflected a decrease in traffic from mobile operators. Incoming international long distance traffic increased 30.9% compared with the second quarter of 2009, totaling 1.808 billion minutes. The incoming-outgoing ratio was 5.3 times.

Interconnection

In the second quarter, interconnection traffic totaled 11.040 billion minutes, 1.4% higher than the same quarter of 2009, due to the combined effect of the 3.4% increase in interconnection traffic with local and long distance operators and the 0.7% decrease in traffic related to calling party pays services.

Internet access

TELMEX remains committed to offering our customers products and services with the highest quality standards and maintaining Infinitum as the best product in the market. Because of this firm commitment, we will continue to carry out investments that allow us to keep up our state-of-the-art technology and world-class network. Therefore, we have 6.954 million broadband Infinitum customers attracted by the quality, continuity, speed and price of our services, with growth of 17.9% in the last twelve months.

During the second quarter, broadband Infinitum (ADSL) had a gain of 183,000 services. This growth has been supported by the sales of more than 2.6 million computers since 1999 and by the promotion of our telecommunications service packages, which offer discounts of up to 44%, broadband Internet access and several voice services.

Financial Results

The following financial information for 2010 and 2009 is presented in nominal pesos, according to Mexican Financial Reporting Standards.

Revenues: In the second quarter, revenues totaled 28.4 billion pesos, a decrease of 4.6% compared with the same period of the previous year. Revenues related to data services increased 12.2%, and local, long distance and interconnection revenues decreased 10.0%, 13.9% and 9.9%, respectively.

- **Local:** Local service revenues totaled 10.290 billion pesos in the quarter, a decrease of 10.0% compared with the second quarter of 2009, due to decreases of 10.6% in revenue per local billed call and 7.3% in local traffic volume and to the decrease in billed lines.
- **DLD:** DLD revenues totaled 3.099 billion pesos, 12.9% lower than the second quarter of 2009, due to the 6.9% decrease in traffic and the 6.5% decline in average revenue per minute. The total also was affected by lower revenue per minute in termination traffic with cellular and other long distance operators and higher penetration of service packages that include domestic long distance service.
- **ILD:** ILD revenues totaled 1.394 billion pesos in the second quarter, a decrease of 16.1% compared with the same quarter of the previous year. Contributing factors included the 1.6% decrease in outgoing traffic and the 21.8% decrease in average revenue per minute due to the integration of ILD minutes in packages with Infinitum, among other factors. Incoming international long distance traffic revenues totaled 577 million pesos, a decrease of 3.7% compared with the second quarter of the previous year, due to the decrease of 26.4% in average revenue per minute and to the increase of 30.9% in incoming traffic.
- **Interconnection:** In the quarter, interconnection revenues decreased 9.9% to 3.815 billion pesos compared with the second quarter of 2009, due to the 0.7% decline in calling party pays services and the decrease of 7.3% in average revenue of these services.
- **Data:** Data revenues are comprised mainly of Internet access services and services related to corporate customers' Virtual Private Networks. Revenues from data services in the second quarter were 8.267 billion pesos, 12.2% higher compared with the same quarter of 2009 due to the increase of 16.5% in Internet access services and the integration of value-added services in our portfolio of products and services for the corporate market.

Costs and expenses: In the second quarter of 2010, total costs and expenses were 21.574 billion pesos, 1.3% higher than the same period of the previous year, mainly due to higher costs of equipment and services for customer sales and lower interconnection costs resulting from the decrease of 8.3% in the amount paid to cellular telephony operators for calling party pays services, as well as to initiatives to optimize resource use.

- **Cost of sales and services:** In the second quarter, cost of sales and services increased 2.9% compared with the same period of 2009, totaling 8.785 billion pesos, due to higher costs related to products and services for corporate customers and computer sales at Tiendas TELMEX (TELMEX Stores).
- **Commercial, administrative and general:** In the period from April to June 2010, commercial, administrative and general expenses totaled 5.706 billion pesos, 8.9% higher than the same period a year ago, mainly due to expenses related to third-party services and advertising.
- **Interconnection:** Interconnection costs were 2.671 billion pesos, a decrease of 10.7% compared with the second quarter of 2009 due to the 8.3% decrease in the amount paid to cellular telephony operators for calling party pays services and the decrease of 0.7% in calling party pays traffic.
- **Depreciation and amortization:** In the quarter, depreciation and amortization decreased 2.5% compared with the same second quarter of 2009, to 4.412 billion pesos, as a result of lower amounts of investments in recent years.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

EBITDA (1) and operating income: EBITDA (1) totaled 11.274 billion pesos in the second quarter of 2010, a decrease of 13.4% compared with the same period of the prior year. The EBITDA margin was 39.6%. Operating income totaled 6.862 billion pesos in the second quarter and the operating margin was 24.1%.

Financing cost: In the second quarter of the year, financing cost produced a charge of 1.252 billion pesos. This was a result of: i) a net interest charge of 1.342 billion pesos, 24.5% higher than the April-June period of 2009 which includes the recognition of the market value of interest rate swaps and in part offset by debt reduction, and ii) a net exchange gain of 90.0 million pesos due to 3.791 billion dollars in dollar-peso hedges in effect at the end of June 2010, offset by the second-quarter exchange rate depreciation of 0.1927 pesos per dollar.

Net income: In the second quarter, net income was 3.573 billion pesos, 39.7% lower than the same period of the previous year. Earnings per share were 20 Mexican cents, 37.5% lower than the second quarter of 2009, and earnings per ADR (2) were 31 US cents, a decrease of 34.0% compared with the same period of the previous year.

Investments and other uses of cash: In the second quarter, capital expenditures (Capex) were the equivalent of 168 million dollars, of which 70.4% was used for growth and infrastructure projects in the data business. For the six months, investments totaled 327 million dollars.

Debt: Total debt at June 30, 2010, was the equivalent of 6.696 billion dollars, of which 95.5% is long-term, 44.7% has fixed rates considering interest rate swaps, and 61.1% is in foreign currency, equivalent to 4.094 billion dollars. To minimize risks from variations in the exchange rate, at June 30, 2010, we had dollar-peso hedges for 3.791 billion dollars.

Total net debt (3) decreased during the last 12 months the equivalent of 716 million dollars, bringing the total to 5.830 billion dollars.
