ANNEX 1

CHIEF EXECUTIVE OFFICER REPORT

Consolidated

Final printing

Highlights

4th Quarter 2010

20 years of technological development.- At TELMEX, we are celebrating 20 years as a private-sector company. During this time, we have modernized, upgraded and transformed from a company that only offered telephony services to become the leading telecommunications services company in the country in a highly competitive market. For the past two decades our commitment has been to connect Mexico through the best technological platform, offering our customers the best services and conditions, and driving technological innovation through information technology and communications.

- As the leading telecommunications company in Mexico, TELMEX will continue to reduce the prices of our services and transfer to our customers the benefits derived from our significant investments, innovation, higher productivity and technological advances.
- Additionally, we continue promoting **infinitem** high-speed Internet access and, thanks to our customers' preference, at December 31, 2010, we served 7.4 million broadband accesses in which **infinitem** is appreciated as the best connection for its quality, service, price and consistently high speed.
- At year-end 2010, we had 15.6 million lines, 291,000 fewer compared with December 2009. Of these, 13.8 million lines are in 198 LSA (Local Service Areas) where competitors are present. The remaining 1.8 million lines are in 199 LSA (Local Service Areas) in communities where competitors are not present and which cover more than 900 thousand square kilometers, or 46% of the national territory. These lines generate revenues mainly from long distance and call termination. Extending service across the large expanse of our country requires significant investments for network growth and modernization and ongoing maintenance and operating expenses.
- Our Driving Technological Innovation Program has achieved a number of significant milestones:
 - Information Technologies: 1,242 IT professionals have been trained at no cost to the participants.
 - Education and Digital Culture: At year-end we had 3,500 Bibliotecas and Aulas Digitales TELMEX in operation (TELMEX Digital Libraries and Computer Class Rooms) nationwide, benefiting more than 2 million people.
 - Connectivity in the Country: We have more than 3,500 WiFi Móvil en **infinitem** sites installed.
- **Universidad Tecnológica Digital (Digital Technological University).**- During 2011 its operations will expand to offer higher-education courses through the Internet.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- During the fourth quarter of 2010, revenues totaled 27.958 billion pesos, a decrease of 6.0% compared with the same period of 2009. Revenues from local services, long distance and interconnection decreased 7.3%, 8.2% and 8.9%, respectively. For the twelve months, revenues decreased 4.6% compared with 2009.
- From October to December, EBITDA (1) totaled 11.087 billion pesos, producing a margin of 39.7%, because the initiatives to reduce operating costs were not able to offset the decrease in revenues. Operating income totaled 6.678 billion pesos, with a margin of 23.9%.
- Net income in the fourth quarter totaled 3.389 billion pesos. In the quarter, earnings per share were 19 Mexican cents, 29.6% lower than the same period of last year, and earnings per ADR (2) were 30 US cents, a decrease of 26.8% compared with the fourth quarter of 2009.
- At year-end, 2010, total debt was the equivalent of 6.031 billion dollars. Total net debt (3) was equivalent to 5.425 billion dollars, 1.352 billion dollars less than December 31, 2009.
- Capital expenditures (Capex) were the equivalent of 323.7 million dollars in the fourth quarter. Of this investment, 65.5% was used for growth and infrastructure projects in the data business, connectivity and transmission networks. For the twelve months, Capex totaled 839.6 million dollars.
- During the fourth quarter, the company used 328.779 million pesos to repurchase 32.885 million shares.

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to www.telmx.com in the Investor Relations section where you will find the conciliation of EBITDA to operating income.

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

Operating Results

Lines and local traffic

At year-end 2010, we had 15.6 million lines, 291,000 fewer compared with December 2009. Of these, 13.8 million lines are in 198 LSA (Local Service Areas) where competitors are present. The remaining 1.8 million lines are in 199 LSA (Local Service Areas) in communities where competitors are not present and which cover more than 900 thousand square kilometers, or 46% of the national territory. These lines generate revenues mainly from long distance and call termination. Extending service across the large

expanse of our country requires significant investments for network growth and modernization and ongoing maintenance and operating expenses.

During the fourth quarter, local calls decreased 6.5% compared with the same period of 2009, totaling 4.675 billion local calls. The decline reflected the lower number of billed lines due to the growth in cellular telephony services and competition from other operators, as well as the customers' changing consumption profile.

Long distance

From October to December, domestic long distance (DLD) traffic decreased 7.6% compared with the same quarter of 2009, totaling 4.446 billion minutes, mainly due to the decrease in termination traffic with cellular telephony operators and other long distance operators.

In the quarter, outgoing international long distance (ILD) traffic increased 20.0% compared with the fourth quarter of 2009, totaling 368.9 million minutes. Among factors contributing to this increase were the inclusion of this service in the **infinitum** packages and the increase of termination traffic from cellular operators. Incoming international long distance traffic increased 14.5% compared with the fourth quarter of 2009, totaling 2.015 billion minutes. The incoming-outgoing ratio was 5.5 times .

Interconnection

In the fourth quarter, interconnection traffic totaled 10.554 billion minutes, 1.2% lower than the same quarter of 2009, due to the 1.3% decrease in interconnection traffic with other local and long distance operators and the 1.5% decrease in traffic related to calling party pays services.

Internet access

At TELMEX, we remain committed to offering the best services to our customers and driving the nation's digital culture through advancing information technology and communications (ITC). We continue promoting **infinitum** high-speed Internet access. Thanks to our customers' preference, we served 7.359 million broadband accesses at December 31, 2010. **infinitum** is appreciated as the best connection for its quality, service, price and consistently high speed.

This growth has been supported by the sales of more than 2.8 million computers since 1999 and by the promotion of our telecommunications service packages, which offer broadband Internet access and several voice services at attractive prices.

Financial Results

The following financial information for 2010 and 2009 is presented in nominal pesos, according to Mexican Financial Reporting Standards.

Revenues: In the fourth quarter, revenues totaled 27.958 billion pesos, a decrease of 6.0% compared with the same period of the previous year. Revenues related to data services decreased 7.4% because revenues from a significant security and information technologies project were recognized in the fourth quarter of 2009, which affected the comparison with revenues of the fourth quarter of 2010. Local, long distance and interconnection revenues decreased 7.3%, 8.2% and 8.9%, respectively.

- **Local:** Local service revenues totaled 10.012 billion pesos in the quarter, a decrease of 7.3% compared with the fourth quarter of 2009, due to decreases of 8.4% in revenue per local billed call and 6.5% in local traffic volume.
- **DLD:** DLD revenues totaled 2.988 billion pesos, 9.4% lower than the fourth quarter of 2009, due to the 7.6% decrease in traffic and the 2.0% decline in average revenue per minute. The total also was affected by lower revenue per minute in termination traffic with long distance operators and higher penetration of service packages that include domestic long distance service.
- **ILD:** ILD revenues totaled 1.359 billion pesos in the fourth quarter, a decrease of 5.4% compared with the same quarter of the previous year. Contributing factors included the 32.5% decrease in the average revenue per minute in outgoing traffic and the 20.0% increase in outgoing traffic due to the integration of ILD minutes in packages with **infinitum**. Incoming international long distance traffic revenues totaled 628 million pesos, an increase of 17.7% compared with the fourth quarter of the previous year, due to the increase of 14.5% in incoming traffic and the increase of 2.8% in average revenue per minute.
- **Interconnection:** In the quarter, interconnection revenues decreased 8.9% to 3.622 billion pesos compared with the fourth quarter of 2009, due to the 1.5% decline in calling party pays services and the decrease of 7.1% in average revenue of these services.
- **Data:** Data revenues are comprised mainly of Internet access services, services related to private networks and value-added services for corporate customers. Revenues from data services in the fourth quarter were 8.164 billion pesos, 7.4% lower compared with the same quarter of 2009 because revenues from a significant security and information technologies project were recognized in the fourth quarter of 2009, which affected the comparison with 2010 fourth quarter revenues. This decrease was offset by the increase of 12% in revenues related to our expanding inventory of Internet access services and ongoing marketing of value-added services for the corporate market.

Costs and expenses: In the fourth quarter of 2010, total costs and expenses were 21.280 billion pesos, 3.1% lower than the same period of the previous year, mainly due to lower expenses related to information technology and communications (ITC) projects, lower charges for uncollectables and lower interconnection costs.

- **Cost of sales and services:** In the fourth quarter, cost of sales and services decreased 8.5% compared with the same period of 2009, totaling 8.502 billion pesos, due to lower costs related to ITC projects, partly offset by higher costs of products and services for corporate customers and computer sales at Tiendas TELMEX (TELMEX Stores).
- **Commercial, administrative and general:** In the period from October to December 2010, commercial, administrative and general expenses totaled 5.778 billion pesos, 8.5% higher than the same period a year ago, mainly due to higher

maintenance expenses.

- **Interconnection:** Interconnection costs were 2.591 billion pesos, a decrease of 10.1% compared with the fourth quarter of 2009 due to the 8.3% decrease in the amount paid to cellular telephony operators for calling party pays services and the decrease of 1.5% in calling party pays traffic.
- **Depreciation and amortization:** In the quarter, depreciation and amortization decreased 1.3% compared with the same quarter of 2009, to 4.409 billion pesos, as a result of lower amounts of investments in recent years.

EBITDA (1) and operating income: EBITDA (1) totaled 11.087 billion pesos in the fourth quarter of 2010, a decrease of 9.4% compared with the same period of the prior year. The EBITDA margin was 39.7%. Operating income totaled 6.678 billion pesos in the fourth quarter and the operating margin was 23.9%.

Financing cost: In the fourth quarter, financing cost produced a charge of 847 million pesos. This was a result of: i) a net interest charge of 833 million pesos, 34.7% lower than the October-December period of 2009 which included debt reduction and recognition of the market value of interest rate swaps, and ii) a net exchange loss of 14 million pesos due to the fourth-quarter exchange rate appreciation of 0.144 pesos per dollar and the 3.527 billion dollars in dollar-peso hedges in effect at the end of December 2010.

Net income: In the fourth quarter, net income was 3.389 billion pesos, 32.1% lower than the same period of the previous year. Earnings per share were 19 Mexican cents, 29.6% lower than the fourth quarter of 2009, and earnings per ADR (2) were 30 US cents, a decrease of 26.8% compared with the same period of the previous year.

Investments: In the fourth quarter, capital expenditures (Capex) were the equivalent of 323.7 million dollars, of which 65.5% was used for growth and infrastructure projects in the data business, connectivity and transmission networks. For the twelve months, investments totaled 839.6 million dollars.

Repurchase of own shares: During the fourth quarter, the company used 328.779 million pesos to repurchase 32.885 million shares.

Debt: Total debt at December 31, 2010, was the equivalent of 6.031 billion dollars, of which 84.0% is long-term, 50.1% has fixed rates considering interest rate swaps, and 59.1% is in foreign currency, equivalent to 3.567 billion dollars. To minimize risks from variations in the exchange rate, at December 31, 2010, we had dollar-peso hedges for 3.527 billion dollars.

During the quarter, we amortized 1.0 billion dollars corresponding to the anticipated payment of tranche B of the syndicated loan which was issued in August 2006 and scheduled to mature in October 2011. TELMEX used 500 million dollars of its own resources and the rest was refinanced.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

Total net debt (3) decreased during the last 12 months the equivalent of 1.352 billion dollars, bringing the total to 5.425 billion dollars.

Mexico Local and Long Distance Accounting Separation

Based on Condition 7-5 of the Amendments of the Concession Title of Teléfonos de México, the commitment to present the accounting separation of the local and long distance services is presented below for the fourth quarter of 2010 and 2009.

RECOGNITION OF THE EFFECTS OF INFLATION

From January 1, 2008, Mexican FRS B-10 "Effects of Inflation", replaced Mexican accounting Bulletin B-10 "Accounting Recognition of the Effects of Inflation on Financial Information". Based on Mexican FRS B-10, the economic environments in Mexico in 2010 and 2009 have been qualified as non-inflationary, due to inflation in the preceding three fiscal years was 14.48% and 15.01%, respectively. Therefore, during 2010 and 2009 the effects of inflation on financial information of this period were not recognized, keeping the effects of inflation recognized up to December 31, 2007.

BALANCE SHEET

S 23 AND S 28 BANK LOANS

In this item are included the bank credits related to purchase programs to suppliers that have been traditionally reported in the suppliers' credits item of the Balance Sheet because long-term caption to suppliers does not exist in EMISNET.

TELMEX entered into a syndicated loan agreement in 2004, which was restructured in 2005 and 2006 to improve the credit conditions and increase the total loan amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars with a three-year maturity, the second one for 1 billion dollars with a five-year maturity years and the third one for 700 million dollars with a seven- year maturity. In August 2009, TELMEX prepaid the total amount of the first tranche, which original maturity was scheduled for October 2009. In November 2010, Telmex prepaid the second tranche, whose original maturity was scheduled for October 2011.

On June 30, 2006 Telmex entered into a syndicated loan agreement in the amount of 500 million dollars divided into two tranches of 250 million dollars each, with a four-year and six-year maturity, respectively. In March 2010, TELMEX prepaid the total amount of the first tranche, whose original maturity was scheduled for June 2010.

S 24 AND S 29 SENIOR NOTES

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In the first quarter of 2005, TELMEX placed senior notes in the total amount of U.S.\$1.75 billions divided into two issuances of U.S.\$ 950 million and U.S.\$ 800 million, respectively, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interests are payable semiannually. In January 2010, TELMEX repaid U.S.\$950 million related to the maturity of the first issuance.

In January 2006, TELMEX placed abroad a senior note in the amount of Ps. 4,500,000 (nominal value), maturing in 2016 and bearing interest at 8.75% annual. Interests are payable semiannually.

In November, 2009, TELMEX issued a bond for U.S.\$500 million due 2019 with an annual interest of 5.5%, interests are payable semiannually.

In December 2007, TELMEX obtained approval for a long-term domestic senior notes program in the amount of Ps.10,000,000 (nominal value). In April 2008, domestic senior notes were placed in the amount of Ps.1,600,000. In July 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.8,000,000.

In September 2009, TELMEX obtained approval for a dual program to issue short and long-term domestic senior notes in the total amount of P. 15,000,000. In November 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.6,000,000.

S 29 SENIOR NOTES (LONG-TERM)

As of December 31, 2010 and 2009, this item rose to Ps. 41,944,459 and Ps. 47,355,416, respectively, and is comprised as follows:

	2010	2009
Domestic Senior Notes	Ps. 21,400,000	Ps. 25,900,000
Bonds	16,044,459	16,955,416
Global peso Senior Notes	Ps 4,500,000	4,500,000
S 42 RETAINED EARNINGS AND CAPITAL RESERVES		

On March 3, 2009 the Annual Ordinary Shareholders' Meeting approved to increase in Ps. 10,000,000, the funds authorized to repurchase its own shares, bringing the total maximum amount to Ps. \$ 10,340,868.

From January through December 2010, the Company acquired 33.9 million L shares for Ps. 339,746 and 6,906 A shares for Ps. 76.

From January through December 2009, the Company acquired 361.2 million L shares for Ps \$4,073,625 and 1.9 million A shares for Ps. \$21,695.

The Company's repurchased shares are applied to unappropriated retained earnings, in the amount exceeding the portion of the capital stock, corresponding to the repurchased shares.

S 104 EMPLOYEES BENEFITS

This item includes the projected net assets as of December 31, 2010 and 2009 pursuant to Mexican FRS D-3 "Employees Benefits".

S 87 OTHERS

In this item there are included the inventories for telephone plant operation, which are valued by the average cost method and up to December 31, 2007 were updated based on the specific index method which is similar to its replacement value, without exceeding their market value.

S 58 OTHER CURRENT LIABILITIES

As of December 31, 2010 and 2009, this item rose to Ps. 10,648,153 and Ps. 8,382,952 respectively and is comprised as follows:

	2010	2009
--	------	------

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

Accounts payable	Ps. 8,235,970	Ps. 6,024,730
Other accrued liabilities	1,494,816	1,254,047
Deferred credits	917,377	1,104,175
S 91 EMPLOYEE BENEFITS		

This item includes liabilities for deferred employee profit sharing and actuarial obligations for labor termination as of December 31, 2010 and 2009, pursuant to Mexican FRS D-3 and Bulletin D-3, respectively.

RATIOS

P 08 INVENTORY TURNOVER RATE-COST

EMISNET automatically calculates the inventory turnover rate by dividing the cost of sales and services (Ref. R 02) by the inventories for sale (Ref. S 06), affecting the actual inventory turnover rate.

RECLASIFICATIONS

Certain 2009 financial statements have been reclassified to conform with the presentation used for the year 2010.

INIF 19 "Change derived from the adoption of International Financial Reporting Standards"

In August 2010, the Mexican Board for Research and Development of Financial Reporting Standards, A.C. (Consejo Mexicano para la Investigación y Desarrollo de Normas de Información Financiera, A.C. -CINIF) issued the interpretation 19 to the Financial Reporting Standards (INIF 19) "Change derived from the adoption of International Financial Reporting Standards" which requires disclosure of progress in the adoption of such standards in the financial statements to be issued after September 30, 2010.

TELMEX for being a public company listed on the Mexican Stock Market (Bolsa Mexicana de Valores), has the obligation to prepare and disclose its financial information under international standards as from 2012, and plans to early adopt them starting on January 1, 2011. To date, the items that we have identified that could have an impact on the financial statements are: intangible assets, labor liabilities, financial instruments, deferred taxes and equity. The Company is in the process of quantifying the impact on the financial statements.

A.- Interest rates:

The credits breakdown is presented with an integrated rate as follows:

- (1) 6 months USD Libor rate plus margin
- (2) 3 months USD Libor rate plus margin
- (3) Fixed Rate
- (4) 28 days TIIE rate plus margin
- (5) 91 days TIIE rate plus margin
- (6) 3 months JPY LIBOR plus margin

B.- The following rates were considered:

- Libor at 6 months in US dollars is equivalent to a 0.4559 at December 31, 2010
- Libor at 3 months in US dollars is equivalent to 0.3028 at December 31, 2010
- TIIE at 28 days is equivalent to 4.8750 at December 31, 2010
- TIIE at 91 days is equivalent to 4.9600 at December 31, 2010
- Libor at 3 months in JPY is equivalent to 0.1881 at December 31, 2010

C.- The suppliers' Credits are reclassified to Bank Loans because in this document, Emisnet, Long-Term opening to Suppliers' does not exist.

D.- Liabilities in foreign currency were exchanged at the prevailing exchange rate at the end of the reporting period, which at December 31, 2010 were as follows:

CURRENCY	AMOUNT	E.R.
DOLLAR (USD)	3,306,054	12.36
EURO (EUR)	11,242	16.57
JAPANESE YEN (JPY)	19,891,200	0.15

FINANCIAL LIMITED BASED IN ISSUED DEED AND/OR TITLE

Part of the long-term debt is subject to certain restrictive covenants with respect to maintaining certain financial ratios and the sale of assets, among others.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of change of control of the Company, as defined in the related instruments. The definition of change of control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom, S.A.B. de C.V. (TELMEX's controlling company) or its current stockholders continue to hold the majority of the Company's voting shares.

CURRENT SITUATION OF FINANCIAL LIMITED

At December 31, 2010, the Company has complied with such restrictive covenants.

Exchange differences

Transactions in foreign currency are recorded at the prevailing exchange rate on the day of the related transactions. Foreign currency denominated monetary assets and liabilities are valued at the prevailing exchange rate at the balance sheet date. Exchange differences from the transaction date to the time foreign currency denominated monetary assets and liabilities are settled, as well as those arising from the translation of foreign currency denominated balances at the balance sheet date are charged or credited to results of operations.

Translation of financial statements of foreign subsidiary and affiliate

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

The financial statements of the foreign subsidiary and affiliate are either consolidated or accounted for based on the equity method, as the case may be, once the financial statements have been adjusted to conform to Mexican Financial Reporting Standards in the corresponding local currency, and are then translated to the reporting currency. All the assets and liabilities of our foreign subsidiary and affiliate are translated to Mexican pesos at the prevailing exchange rate at the end of the period. Stockholders' equity accounts are translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. Revenues, costs and expenses are translated at the historical exchange rate. Translation differences are recorded in stockholders' equity in the line item "Effect of translation of foreign entities" under "Accumulated other comprehensive income items."

COMPLIANCE WITH THE REQUIREMENT ISSUED BY THE COMISION BANCARIA Y DE VALORES (BANKING AND SECURITIES COMMISSION OF MEXICO)

Consolidated

Final printing

As of December 31, 2010, Teléfonos de México, S.A.B. de C.V. (the "Company") had cross currency swap agreements in the equivalent of U.S.\$ 3,487 million, which have hedged the exchange rate and interest rate risks related to the bonds with maturity in 2015 and 2019 for a total amount of U.S.\$1,310 million and loans with maturities from 2011 to 2018 for a total amount of U.S.\$ 2,177 million. These hedges allowed us to fix the exchange rate of our debt on a weighted average exchange rate of \$10.7645 Mexican pesos per US dollar and an average interest rate of 28-day TIE less a specified margin, as well as to set a fixed rate of 8.57% for the bond maturing in 2015.

At the end of the fourth quarter, the Company had forward contracts for U.S.\$40 million at a exchange rate of \$12.9114 Mexican pesos per US dollar.

At December 31, 2010, the Company had interest rate swaps in Mexican pesos for Ps.\$16,649 million to hedge the floating rate risk in local currency fixing it at an average of 8.48%.

These transactions have been carried out based on the Company's policies, strategies and guidelines that are explained below.

I. Qualitative and quantitative Information

i. Policies for using derivative instruments

Objective to enter into derivative transactions and selected instruments

With the purpose of reducing the risks related to the variations of exchange rate and interest rate, the Company uses derivative instruments associating the hedges with the debt. The derivative instruments that have been selected are, mainly:

1. instruments for purchasing US dollars at a specified future time (forwards);
2. instruments that involve the exchange of principal and interest from one currency to another (cross currency swaps); and
3. instruments to fix the floating interest rates of the debt (interest rate swaps).

Hedge strategies

When the market conditions are favorable, the Company's Management determines the amounts and goal parameters under which the hedge agreements are contracted. This strategy seeks to reduce the risk exposure of abnormal market fluctuations in the main variables that affect our debt, including exchange rate and interest rate, to maintain a solid and healthy financial structure.

These strategies of hedging financial risks are included in the Corporate Governance Guidelines adopted by the Company, and its application is authorized by the Audit Committee.

Trading markets and eligible counterparties

The financial institutions and counterparties with which the Company enters into such derivative instruments are considered to have a proven reputation and solvency in the market, which allows us to balance our risk positions with such counterparties. Also, the Company only uses derivative instruments that are of common use in the markets, and therefore, can be quoted by two or more financial institutions to assure the best conditions in the negotiation.

Policies for the appointment of calculation and valuation agents

Given that the Company uses derivative instruments of common use in the market, it appoints a third party that is responsible to provide the market price of such instruments. These prices are compared by the Company with the prices provided by the financial intermediaries; and, in certain transactions, the counterparty is able to act as valuation agent under the applicable documentation if it is a financial institution with a proven reputation.

Main terms and conditions of the agreements

It is a policy of the Company that the amount, date and interest rate conditions of the debt to be hedged, if possible, have to coincide with the terms of the hedges, that is usual for this type of transactions in the different markets where it operates. All the transactions with derivative instruments are made under the ISDA Master Agreement (International Swap Dealers Association) standardized and duly executed by the legal representatives of the Company and the financial institutions, and in the case of counterparties in México, pursuant to the uses and practices of the market in our country.

Margin policies, collaterals and lines of credit

In some cases, the Company has entered into an annex agreement to the ISDA Master Agreement with the financial institutions, the Credit Support Annex, which sets forth an obligation to grant collaterals for margin calls in case the mark to market value exceeds certain credit limits (threshold amount). The Company has the policy to keep a close watch of the volume of the transactions entered into with each financial institution in order to avoid, if possible, any margin call.

Processes of levels of authorization required by type of negotiation

The strategy for hedging financial risks is discussed and approved by the Audit Committee. Subsequently, the Board of Directors is informed for its knowledge and ratification. The treasury is in charge of its implementation and is supervised by the Company's Chief Financial Officer.

Existence of an independent third party that reviews such processes

Both, the fulfillment of the Corporate Governance Guidelines and the measurement of effectiveness of the derivative instruments, to comply with the financial reporting standards, are discussed with the external auditors that validate the reasonable accounting application of the effect of such instruments in the income statement and the balance sheet.

ii. Generic description of the valuation techniques

As previously stated, derivative instruments are carried out by the Company only for hedging purposes. The measurement of the effectiveness of the hedges is made in a prospective and retrospective manner. For the prospective valuation, we use statistic techniques that allow us to measure in what proportion the change in the value of the hedged debt (primary position) is compensated by the change in the value of the derivative instrument. The retrospective valuation is made by comparing the historic results of the debt flows with the flows of the respective hedges.

iii. Internal and external liquidity sources to meet the requirements related to derivative instruments

It is estimated that the Company's cash generation has been enough to service debt and the established derivative instruments to hedge the risks associated with such debt.

iv. Changes in the exposure to the main identified risks and its management

The identified risks are those related to the variations of the exchange rate and interest rate. Given the direct relationship between the hedged debt and the derivative instruments and that they do not have any variables that could affect or terminate the hedge in advance, the Company does not foresee any risk that such hedges could differ from the original purpose for which the hedges were contracted.

At December 31, 2010, it was recognized in the statement of income an accrued net charge of Ps.\$2,206 million for exchange rate hedges. In addition, it was recognized in the statement of income an accrued net charge of Ps.\$2,194 million for interest rate hedges.

During the fourth quarter, there have not been any margin calls.

To date, there has not been any breach in the terms and conditions of the respective agreements.

v. Quantitative information

See TABLE 1 attached.

II. SENSITIVITY ANALYSIS

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In the case of the Company, the sensitivity analysis does not apply, since the derivative instruments are only carried out for hedging purposes and therefore any change in variables (i.e. exchange rates and interest rate) that affect the cash flows of the hedged debt (primary position) would be compensated by the changes in the cash flows of the derivative instruments.

Swap				12.3571	12.5011				
Interest Rate Hedges									
(floating rate to fixed rate)									
		MXN	MXN	TIE	TIE	MXN	MXN		
Interest Rate Swap	Hedging	16,649,250	16,649,250	4.8750	4.8733	(1,540,599)	(2,110,919)	(5)	
TOTAL						5,395,724	7,117,454		

(*) Of our hedge agreements, 64% of the total hedge amount include margin calls, when the market value exceeds the amounts of the lines of credit that we have for the amount of USD\$425 million.

(1) These swaps hedge the debt position in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIE less a specified margin and with an average life of 3 years.

(2) This forward position mainly hedges debt service flows in US dollars with maturity in 2011.

(3) These swaps hedge debt position in Yens with the obligation of paying \$2,000 million in Mexican pesos (equivalent to USD\$246 million) at a floating rate and with maturity in February 2014.

(4) These swaps hedged the interest payment of debt in US dollars which became due on November 2010, with the obligation of paying floating rate in Mexican pesos at an average of TIE less a margin.

(5) These agreements hedge debt position in Mexican pesos at a floating rate, fixing it at an average of 8.48% and with an average life of 6 years.
