NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. *Significant Accounting Policies* Central Securities Corporation (the Corporation) is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles.

Security Valuation Marketable common and preferred stocks are valued at the last or closing sale price or, if unavailable, at the closing bid price. Written options are valued at the last quoted asked price. Investments in money market funds are valued at net asset value per share. Securities for which no ready market exists are valued at estimated fair value by the Board of Directors.

Federal Income Taxes It is the Corporation's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net capital gains to its stockholders. In addition, management has analyzed positions taken on the Corporation's tax returns and has determined that no provision for income taxes is required in the accompanying financial statements.

Use of Estimates The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results may differ from those estimates.

Other Security transactions are accounted for as of the trade date, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

2. *Fair Value Measurements* The Corporation's investments are categorized below in three broad hierarchical levels based on market price observability as follows:

- *Level 1* Quoted prices in active markets for identical investments;
- *Level 2* Other significant observable inputs obtained from independent sources, for example, quoted prices for similar investments or the use of models or other valuation methodologies;
- *Level 3* Significant unobservable inputs including the Corporation's own assumptions based upon the best information available. Investments categorized as Level 3 include securities in which there is little, if any, market activity. The Corporation's Level 3 investments consist of The Plymouth Rock Company, Inc. and Aerogroup International, Inc.

The designated Level for a security is not necessarily an indication of the risk associated with investing in that security.

NOTES TO FINANCIAL STATEMENTS continued (unaudited)

The Corporation's investments as of June 30, 2011 are classified as follows:

	Level 1	Level 2	Level 3	Total Value
Common Stocks	\$ 464,293,494		\$ 175,165,200	\$ 639,458,694
Preferred Stocks		\$ 2,515,478		2,515,478
Short-term Investments	222,736			222,736
Total	\$ 464,516,230	\$ 2,515,478	\$ 175,165,200	\$ 642,196,908

There were no significant transfers of investments between Levels 1, 2 or 3 during the six months ended June 30, 2011. The following is a reconciliation of the change in the value of Level 3 investments:

Balance as of December 31, 2010	\$	168,455,000
Net realized gains and change in unrealized appreciation of investments included in net increase in net assets resulting from operations		7,008,200
Sales		(298,000)
Balance as of June 30, 2011	\$	175,165,200

The change in unrealized appreciation of Level 3 investments held at June 30, 2011 included in the above table was \$6,950,200. In valuing Level 3 investments, the Corporation considers the results of various valuation methods, which may include comparable company valuation analyses, discounted cash flow models and recent private transactions. Consideration is also given to corporate governance, marketability, independent appraisals obtained from portfolio companies, company and industry results and outlooks, and general market conditions. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update No. 2011-04 (the ASU), which clarifies the application of existing fair value measurement and disclosure requirements and changes certain accounting principles or requirements for measuring fair value or for disclosing information about fair value measurements. The amendments in the ASU are effective at the beginning of the Corporation's 2012 fiscal year. Management is assessing the effect of the ASU on the Corporation's financial statements but currently believes the impact principally will result in increased disclosures about the Corporation's Level 3 securities.

3. Common Stock The Corporation did not purchase any shares of its Common Stock in the first six months of 2011. It may from time to time purchase its Common Stock in such amounts and at such prices as the Board of Directors deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock available for stock distributions, or may be retired.

4. Investment Transactions The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2011, excluding option transactions and other short-term investments, were \$32,805,662 and \$33,893,035, respectively.

NOTES TO FINANCIAL STATEMENTS continued (unaudited)

As of June 30, 2011, based on cost for Federal income tax purposes, the aggregate gross unrealized appreciation and depreciation for all securities were \$351,943,013 and \$34,048,978, respectively.

5. Affiliates The Plymouth Rock Company, Inc. and GeoMet, Inc., are affiliates as defined in the Investment Company Act of 1940 due to the Corporation owning 5% or more of these companies' outstanding voting securities. During the six months ended June 30, 2011, the Corporation received dividends of \$3,899,000 from Plymouth Rock and sold 100 shares of Plymouth Rock at a gain of \$291,000. The Corporation also received as dividends 13,345 additional shares of GeoMet Preferred Series A stock. Net unrealized appreciation related to affiliates increased by \$7,156,359 for the six months ended June 30, 2011 to \$161,746,340. The President of the Corporation is a director of Plymouth Rock.

6. Restricted Securities The Corporation from time to time invests in securities the resale of which is restricted. The Corporation does not have the right to demand registration of the restricted securities. On June 30, 2011, such investments had an aggregate value of \$175,165,200, which was equal to 27.3% of the Corporation's net assets. Investments in restricted securities at June 30, 2011, including acquisition dates and cost, were:

Company	Shares	Security	Date Acquired	Cost
Aerogroup International, Inc.	20,000	Common Stock	6/14/05	\$ 11,719
The Plymouth Rock Company, Inc.	60,000	Class A Stock	12/15/82	1,500,000
The Plymouth Rock Company, Inc.	9,900	Class A Stock	6/9/84	692,986

7. Options Written From time to time, the Corporation writes option contracts to generate additional return. When the Corporation writes an option, a liability is recorded in an amount equal to the premium received and is subsequently marked to market in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Upon the exercise of written call option contracts, premiums received are added to the proceeds from the sale of the underlying securities in determining whether there is a realized gain or loss. Upon the exercise of written put options, premiums received are subtracted from the cost of the purchase of the underlying securities. On the expiration date, premiums received from unexercised options are treated as realized gains.

When writing a covered call option, the Corporation forgoes, during the option's life, the opportunity to profit from increases in the market value of the security underlying the call option above the sum of the option premium received and the exercise price of the call, but has retained the risk of loss should the price of the underlying security decline below the exercise price minus the option premium received.

When writing a put option, the Corporation has the obligation during the option's life to purchase the securities underlying the option at an agreed-upon exercise price. The Corporation's obligation is secured by segregating with its custodian liquid investments with a value at least equal to the amount the Corporation would be required to pay if the option were exercised. The Corporation will lose money if the securities purchased decrease in value below the exercise price by more than the premium received by the Corporation for writing the option.

NOTES TO FINANCIAL STATEMENTS continued (unaudited)

The Corporation's activity in written options during the six months ended June 30, 2011 is summarized as follows:

	Number of Shares		Premiums Received
	_____		_____
Options outstanding at December 31, 2010			
Options written	55,000	\$	58,099
Options terminated in closing transactions	(25,000)		(15,500)
Options exercised	(10,000)		(10,400)
Options expired	(20,000)		(32,199)

8. *Bank Line of Credit* The Corporation has entered into a \$25 million uncommitted, secured revolving line of credit with UMB Bank, n.a. (UMB), the Corporation's custodian. All borrowings are payable on demand of UMB. Interest on any borrowings is payable monthly at a rate based on the federal funds rate, subject to a minimum annual rate of 2.50% (2.75% prior to March 18, 2011). At June 30, 2011, outstanding borrowings under the line were \$2,000,000 at an annual interest rate of 2.50%. These borrowings were secured by portfolio holdings that had an aggregate value of \$10,638,000 as of June 30, 2011. During the six months ended June 30, 2011, average borrowings outstanding (based on the days when there were borrowings outstanding) were approximately \$2,949,000, and total interest expense was \$22,324. The average interest rate paid on these borrowings was 2.67% per annum.

9. *Operating Expenses* The aggregate remuneration paid during the six months ended June 30, 2011 to officers and directors amounted to \$713,000, of which \$75,500 was paid as fees to directors who were not officers. Employees also participate in a profit sharing retirement plan. Contributions to the plan are made at the discretion of the Board of Directors, and each participant's benefits vest after three years of employment. No contributions were made to the plan for the six months ended June 30, 2011.

10. *Operating Lease Commitment* The Corporation has entered into an operating lease for office space which expires in 2014 and provides for future minimum rental payments in the aggregate amount of approximately \$1.0 million as of June 30, 2011. The lease agreement contains escalation clauses relating to operating costs and real property taxes. Future minimum rental commitments under the lease are \$170,903 remaining for 2011, \$341,806 annually in 2012-2013 and \$170,903 in 2014.

FINANCIAL HIGHLIGHTS

The following table shows per share operating performance data, total returns, ratios and supplemental data for the six months ended June 30, 2011 and each year in the five-year period ended December 31, 2010. This information has been derived from information contained in the financial statements and market price data for the Corporation's shares.

The Corporation's total returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of all distributions. Distributions that are payable only in cash are assumed to be reinvested at the market price or net asset value, as applicable, on the payable date of the distribution. Distributions that may be taken in shares are assumed to be reinvested at the price designated by the Corporation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF DIRECTORS AND STOCKHOLDERS OF CENTRAL SECURITIES CORPORATION

We have reviewed the accompanying statement of assets and liabilities, including the statement of investments, of Central Securities Corporation as of June 30, 2011, and the related statements of operations, changes in net assets, cash flows and financial highlights for the six-month period ended June 30, 2011. These interim financial statements and financial highlights are the responsibility of Central Securities Corporation's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements and financial highlights referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended December 31, 2010 and financial highlights for each of the years in the five-year period ended December 31, 2010, and in our report dated February 4, 2011 we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.
