Chairman's

LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the most recent fiscal year your Fund continued to provide you with monthly tax-free income and an attractive total return. For more specific information about the performance of your Fund, please see the Portfolio Manager's Perspectives and Performance Overview sections of this report.

With longer-term interest rates still relatively low, many investors have begun to wonder whether these rates will soon begin to rise, and whether that makes this the time to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional can

"OUR MISSION CONTINUES TO BE TO ASSIST YOU AND YOUR FINANCIAL ADVISOR BY
OFFERING THE INVESTMENT SERVICES AND PRODUCTS THAT CAN HELP YOU TO SECURE YOUR
FINANCIAL OBJECTIVES."

be an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk, and we believe that a municipal bond investment like your Nuveen Fund can be an important building block in a portfolio designed to perform well through a variety of market conditions.

As in past reports, I'd also like to direct your attention to the inside front cover, which explains the quick and easy process to begin receiving these Fund reports via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Portfolio Manager's
PERSPECTIVE

Portfolio manager Dan Solender discusses the economic and market environment, key investment strategies, and the fiscal year performance of these six Nuveen Funds. With twelve years of investment experience, including eight at Nuveen, Dan has managed these Funds since May 2004.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE ANNUAL REPORTING PERIOD ENDED OCTOBER 31, 2004?

During this fiscal year, the U.S. economy demonstrated improvement in a number of key areas, although the pace of the recovery slowed over the last six months of the period. The gross domestic product (GDP) expanded at annualized rates of 4.2% in the fourth quarter of 2003 and 4.5% in the first quarter of 2004. However, sharply higher energy prices restrained consumer spending during the second and third quarters of 2004, which in turn impacted economic momentum. Over this period, GDP growth moderated to 3.3% annualized in the second quarter and 3.9% annualized in the third quarter.

Higher energy costs also continued to fuel lingering concerns about inflation. Although monthly gains in consumer prices were generally tame, by the end of October 2004 inflation was running well ahead of the 2003 pace. The Consumer Price Index (CPI) rose at a 3.9% annualized rate for the first 10 months of 2004, more than double the 1.9% rate for all of 2003. Excluding energy and food, the CPI increased at an annual rate of 2.4% for the first 10 months of 2004.

During the second quarter of 2004 in particular, inflation worries, the slowing pace of economic recovery and continued geopolitical uncertainty acted as catalysts for heightened volatility in the fixed-income markets. As one example, the yield on the Bond Buyer 25 Revenue Bond Index (BB25), a widely followed municipal bond index, began this reporting period at 5.24%. The BB25 yield then dropped steadily over the next five months to 4.73% by mid-March 2004. As a series of improved employment reports sparked increased anticipation of action by the Federal Reserve, the index yield began to climb again, rising more than 70 basis points over the next eight weeks to 5.45%, where it hovered through the end of June. However, more bond-friendly news--including indications of relatively slow growth of wages and employment--prompted a retreat to 4.97% by the end of October 2004.

While intermediate and long-term bond yields generally fell over most of the second half of the Funds' fiscal years, short-term rates slowly rose. The Federal Reserve instituted three different one-quarter-point increases in the fed funds rate between June and September 2004. (On both November 10 and December 14, following the end of this reporting period, the Fed added additional quarter-point increases, bringing the fed funds rate to 2.25%.)

Over the 12 month period, municipal new issue supply nationwide remained relatively strong, with \$363.4 billion in new bonds coming to market. This represented a decrease of about 5% from the preceding 12-month period, as the improving economy and higher tax revenues lessened the need for some issuers to borrow.

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THE 12 MONTHS ENDED OCTOBER 31, 2004?

As the market continued to anticipate increased interest rates, our focus during this reporting period remained on finding bonds with the potential to add value and perform well under a variety of market scenarios. This included purchasing attractive bonds that we believed would enhance the Funds' yield curve positioning and help to mitigate interest rate risk. Interest rate risk is the risk that the value of a Fund's portfolio will decline if market interest rates rise (since bond prices move in the opposite direction of interest rates). In general, our purchase activity for each of these Funds centered on trying to find attractive securities in the long-intermediate part of the yield curve, that is, bonds that mature in 15 to 22 years. In many cases, bonds in this long-intermediate part of the yield curve offered yields similar to those of longer-term bonds with less inherent interest rate risk and, we believed, greater total return potential.

One of our longer-term goals was to work to position all of these Funds so that they produce less volatile, roughly equivalent returns over time. As one strategy to reach this goal for some of the newer Funds, we have attempted to reduce some of the interest rate risk inherent in the portfolios of NVG and NEA by hedging in the derivatives markets. (Interest rate risk is the risk that the value of a Fund's portfolio will decline if market interest rates rise, since bond prices move in the opposite direction of interest rates.) Our only objective with these hedges is to reduce the Fund's interest rate risk, and not to potentially enhance its return by making a prediction about future interest rates. These hedges do not affect income stream or dividend-paying capabilities of NVG or NEA over

the short-term. Instead, the costs of the hedges are reflected as additions or subtractions to the Funds' net asset values as the market value of the hedges fluctuate. Although the hedges had negative market values as of October 31, 2004, they succeeded in reducing the volatility of NVG's and NEA's net asset value over the course of the reporting period.

Demand for municipal securities remained firm through most of this fiscal year. However, since insured bonds accounted for about 50% of new municipal bond issuance during this period, we generally were able to find bonds with attractive prices, yields and structures.

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

Each of the Funds continued to be well diversified geographically, and we sought to take advantage of price and yield differences between similar bonds issued in different states. In particular, we looked in higher-issue, higher-tax states like California and New York for securities that we believed offered attractive yields and strong performance potential. As the markets fluctuate, we believe these bonds may have more support for their prices.

We also sought to enhance the Funds' call protection, particularly in NQI, by selling several bonds with short call dates and reinvesting the proceeds in longer-term securities with better call protection.

HOW DID THE FUNDS PERFORM?

Individual results for the Nuveen Funds, as well as for relevant comparative indexes, are presented in the accompanying table.

- 1 The Lehman Brothers Insured Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of insured municipal bonds. Results for the Lehman index do not reflect any expenses.
- 2 The Lipper Insured Leveraged Municipal Debt Funds category average is calculated using the returns of all closed-end exchange-traded funds in this category for each period as follows: 1 year, 27 funds; 5 years, 21 funds; and 10 years, 18 funds. Fund and Lipper returns assume reinvestment of dividends.

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

For the 12 months ended October 31, 2004, the total returns on net asset value (NAV) for all six Funds in this report outperformed the return on the Lehman Brothers Index. All of the Funds also outperformed the average return for their Lipper peer group for this period.

One of the primary factors benefiting the 12-month performances of these Funds relative to that of the unleveraged Lehman Brothers Index was their use of financial leverage. While leverage can add volatility to the Funds' NAVs and share prices, especially when substantial shifts in interest rates occur, this strategy also can provide opportunities for additional income and total returns for common shareholders when short-term interest rates remain low, as they did during this period.

As discussed earlier, one of our key strategies over this 12-month period was to enhance the Funds' yield curve positioning. The relative steepness of the yield curve provided us with a number of opportunities to implement this strategy, which helped the Funds' performance over the entire period. NVG, in particular, was heavily weighted in the 15-year to 20-year part of the yield curve, which performed well over the past 12 months, and had very little of its assets invested in bonds with maturities less than five years, which generally did not perform as well. We continued to work on enhancing the positioning of all of the Funds, especially NQI, NIO and NPX, which did not have as much weighting in the 15-year to 20-year part of the curve as NVG over this period.

All six of these Funds benefited from their holdings in the healthcare sector. This group ranked second among the Lehman Brothers Index revenue sectors for the year.

One sector that did not perform well during this period was housing, both multifamily and single family. The housing sector as a whole ranking at the bottom of the Lehman Brothers Index revenue sectors for the 12-month period. The sector's below-market performance stemmed largely from the increase in mortgage prepayments as interest rates remained low, which resulted in a number of bond calls. In general, the Funds' housing exposure had a negative impact on their performance, with NQI having the heaviest weighting in housing bonds over this fiscal year, and NVG and NEA the least.

In addition, the performances of NQI, NIO and NPX were restrained by their relatively larger exposures to bonds with short call dates. As of October 31, 2004, NIO also held 14% of its portfolio in pre-refunded bonds, which significantly underperformed the market as a whole as measured by the Lehman Brothers Index, due to their shorter effective maturities. In contrast, the two newer funds, NVG and NEA, had virtually no short-term call exposure as of October 31, 2004, and pre-refunded bonds accounted for just 4% and 2% of their portfolios, respectively.

HOW ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at relatively low levels throughout this reporting period, the leveraged structures of these Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay relatively lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. This strategy helped to maintain the dividends of NQI, NIO, NIF, NPX and NVG throughout the reporting

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

period. However, given the relatively low interest rate environment prevalent since the introduction of NEA in late 2002, this Fund has had less of an opportunity to build its income stream. When the Fed began to raise short-term rates in June 2004, this also increased NEA's leveraging costs, necessitating a dividend cut in September 2004.

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of October 31, 2004, NQI, NIO, NIF, NPX, and NVG had positive UNII balances for both financial statement and tax purposes. NEA had a negative UNII balance for financial statement purposes, but a positive UNII balance for tax purposes.

As of October 31, 2004, NQI was trading at a premium to its NAV that was in line with its average premium over the entire fiscal year. NEA also was trading at a premium as of that date, despite trading at an average discount for the entire period. NIO was trading at a share price that was virtually identical with its NAV after trading at an average discount for the entire period. NIF, NPX and NVG were trading at discounts similar to their average discounts for the entire fiscal year.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF OCTOBER 31, 2004?

Given the current geopolitical and economic climate, we continued to believe that maintaining strong credit quality was an important requirement for the Funds. As of October 31, 2004, NQI, NIO, NIF and NPX continued to be 100% invested in insured and/or U.S. guaranteed securities. NVG and NEA, which can invest up to 20% of their assets in uninsured investment-grade quality bonds, had allocated 92% and 89% of their portfolios, respectively, to insured bonds.

As of October 31, 2004, potential call exposure for these Funds during 2004-2006 ranged from zero in NVG to 1% in NEA, 7% in NIF, 17% in NPX and NIO, and 22% in NQI. The number of actual bond calls in all of these Funds will depend largely on market interest rates in the future.

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Insured Quality Municipal Fund, Inc., Nuveen Insured Municipal Opportunity Fund, Inc., Nuveen Premier Insured Municipal Income Fund, Inc., Nuveen Insured Premium Income Municipal Fund 2, Nuveen Insured Dividend Advantage Municipal Fund and Nuveen Insured Tax-Free Advantage Municipal Fund as of October 31, 2004, and the related statements of operations for the year then ended, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of investments owned as of October 31, 2004, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Insured Quality Municipal Fund, Inc., Nuveen Insured Municipal Opportunity Fund, Inc., Nuveen Premier Insured Municipal Income Fund, Inc., Nuveen Insured Premium Income Municipal Fund 2, Nuveen Insured Dividend Advantage Municipal Fund and Nuveen Insured Tax-Free Advantage Municipal Fund at October 31, 2004, the results of their operations for the year then ended, the changes in their net assets and the financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

At least 80% of the Fund's net assets are invested in municipal securities that are either covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance which ensures the timely payment of principal and interest. Up to 20% of the Fund's net assets may be invested in municipal securities that are (i) either backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities (also ensuring the timely payment of principal and interest), or (ii) municipal bonds that are rated, at the time of investment, within the four highest grades (Baa or BBB or better by Moody's S&P or Fitch) or unrated but judged to be of comparable quality by the Adviser.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each forward swap contract.
- * Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- ** Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's or Moody's rating.
- (PLG1) Portion of security, with an aggregate market value of \$740,082, has been pledged to collateralize the net payment obligations under forward swap contracts.
- (PLG2) Portion of security, with an aggregate market value of \$1,977,360, has been pledged to collateralize the net payment obligations under forward swap contracts.

At least 80% of the Fund's net assets are invested in municipal securities that are either covered by Original Issue Insurance, Secondary Market Insurance or Portfolio

Insurance which ensures the timely payment of principal and interest. Up to 20% of the Fund's net assets may be invested in municipal securities that are (i) either backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities (also ensuring the timely payment of principal and interest), or (ii) municipal bonds that are rated, at the time of investment, within the four highest grades (Baa or BBB or better by Moody's, S&P or Fitch) or unrated but judged to be of comparable quality by the Adviser.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each forward swap contract.
- * Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- ** Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's or Moody's rating.
- + Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.
- (PLG) Portion of security, with an aggregate market value of \$7,743,937, has been pledged to collateralize the net payment obligations under forward swap contracts.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen Insured Quality Municipal Fund, Inc. (NQI), Nuveen Insured Municipal Opportunity Fund, Inc. (NIO), Nuveen Premier Insured Municipal Income Fund, Inc. (NIF), Nuveen Insured Premium Income Municipal Fund 2 (NPX), Nuveen Insured Dividend Advantage Municipal Fund (NVG) and Nuveen Insured Tax-Free Advantage Municipal Fund (NEA). Common shares of Insured Quality (NQI), Insured Opportunity (NIO), Premier Insured Income (NIF) and Insured Premium Income 2 (NPX) are traded on the New York Stock Exchange while Common shares of Insured Dividend Advantage (NVG) and Insured Tax-Free Advantage (NEA) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Prior to the commencement of operations of Insured Tax-Free Advantage (NEA), the Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. and the recording of the organization expenses (\$11,500) and their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide current income exempt from regular federal income tax, and in the case of Insured Tax-Free Advantage (NEA) the alternative minimum tax applicable to individuals, by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate,

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At October 31, 2004, Insured Quality (NQI), Insured Opportunity (NIO) and Insured Premium Income 2 (NPX) had outstanding when-issued purchase commitments of \$3,491,779, \$9,056,334, and \$14,698,220, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, and in the case of Insured Tax-Free Advantage (NEA) the alternative minimum tax applicable to individuals, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended October 31, 2004, have been designated Exempt Interest Dividends. Net realized capital gains and ordinary income distributions made by the Funds are subject to federal taxation.

64

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in more than one Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	INSURED QUALITY (NQI)	INSURED OPPORTUNITY (NIO)	PREMIER INSURED INCOME (NIF)	INSURED PREMIUM INCOME 2 (NPX)	INSURED DIVIDEND ADVANTAGE (NVG)	A
Number of shares:

Total	12,720	27,200	6,440	10,756	9,320	

Insured Tax-Free Advantage (NEA) issued the Preferred shares listed above on January 17, 2003.

Insurance

Insured Quality (NQI), Insured Opportunity (NIO), Premier Insured Income (NIF) and Insured Premium Income 2 (NPX) invest in municipal securities which are either covered by insurance or are backed by an escrow or trust account containing sufficient U.S. Government or U.S. Government agency securities, both of which ensure the timely payment of principal and interest.

Insured Dividend Advantage (NVG) and Insured Tax-Free Advantage (NEA) invest at least 80% of their net assets (including net assets applicable to Preferred shares) in municipal securities that are covered by insurance. Each Fund may also invest up to 20% of its net assets (including net assets applicable to Preferred shares) in municipal securities which are either (i) backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, or (ii) municipal bonds that are rated, at the time of investment, within the four highest grades (Baa or BBB or better by Moody's, S&P or Fitch) or unrated but judged to be of comparable quality by the Adviser.

Each insured municipal security is covered by Original Issue Insurance, Secondary Market Insurance or Portfolio Insurance. Such insurance does not guarantee the market value of the municipal securities or the value of the Funds' Common shares. Original Issue Insurance and Secondary Market Insurance remain in effect as long as the municipal securities covered thereby remain outstanding and the insurer remains in business, regardless of whether the Funds ultimately dispose of such municipal securities. Consequently, the market value of the municipal securities covered by Original Issue Insurance or Secondary Market Insurance may reflect value attributable to the insurance. Portfolio Insurance, in contrast, is effective only while the municipal securities are held by the Funds. Accordingly, neither the prices used in determining the

market value of the underlying municipal securities nor the Common share net asset value of the Funds include value, if any, attributable to the Portfolio Insurance. Each policy of the Portfolio Insurance does, however, give the Funds the right to obtain permanent insurance with respect to the municipal security covered by the Portfolio Insurance policy at the time of its sale.

Forward Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net earnings. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment. The amount of the payment obligation is based on the notional or nominal amount of the forward swap contract. The Funds may close out a contract prior to the effective date. When a forward swap is terminated, it does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash. Each Fund intends to, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment. To minimize such credit risk, all counterparties are required to segregate collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to segregate assets of the Funds

65

Notes to

FINANCIAL STATEMENTS (continued)

as collateral with a value approximately equal to the amount of the unrealized loss. The Funds help reduce the credit risks associated with forward swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the swap counterparties.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments, LLC has agreed to pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share for Insured Tax-Free Advantage (NEA). Insured Tax-Free Advantage's (NEA) share of Common share offering costs (\$440,201) was recorded as a reduction of the proceeds from the sale of Common shares.

Costs incurred by Insured Tax-Free Advantage (NEA) in connection with the offering of Preferred shares (\$3,084,842) were recorded as a reduction to paid-in surplus.

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses on investments, timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At October 31, 2004, the cost of investments was as follows:

	INSURED QUALITY (NQI)	INSURED OPPORTUNITY (NIO)	PREMIER INSURED INCOME (NIF)	INSURED PREMIUM INCOME 2 (NPX)	INS DIVI ADVAN (

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Directors/Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by the Adviser and its affiliates. This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .006% as of November 30, 2004.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

Effective August 1, 2004, the annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600

For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first ten years of Insured Dividend Advantage's (NVG) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Preferred shares), for fees and expenses in the amounts and for the time periods set forth below:

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board Members of the Funds. The number of board members of the Funds is currently set at seven. None of the board members who are not "interested" persons of the Funds has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on the dividends or distributions awaiting reinvestment. Because the market price may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

LEVERAGE-ADJUSTED DURATION: Duration is a measure of the sensitivity of a bond or bond fund's value to changes when interest rates change. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is "independent" for purposes of Item 3 of Form N-CSR. Mr. Evans has served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on October 31, 2004.

Prior to July 26, 2004, William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR, served as the audit committee financial expert. Although Mr. Bennett served as the audit committee financial expert during the reporting period, he unexpectedly resigned from the Board effective April 30, 2004. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from May 1, 2004 to July 26, 2004.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr.

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND, INC.

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

The above "Tax Fees" were billed for professional services for tax advice, tax compliance and tax planning.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Advisory Corp. ("NAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed

during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Lawrence H. Brown, Jack B. Evans and William J. Schneider.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Schedule I in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the

Edgar Filing: NUVEEN INSURED MUNICIPAL OPPORTUNITY FUND INC - Form N-CSR

instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors or trustees and reserves the right to interview all candidates and to make the final selection of any new directors or trustees.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
