(Buenos Aires Stock Exchange)

Re: Information under Article 23, Chapter VII of  
the Buenos Aires Stock Exchange  
Regulations – Loma la Lata Blockage

Dear Sirs:

The purpose of this letter is to comply with the requirements of Article 23 of Chapter VII of the Buenos Aires Stock Exchange Regulations.

In that connection, please be informed that due to a blockade of the entrance to Loma La Lata the oil and gas production from that field, Rincón del Mangrullo and Loma Campana is temporarily paralyzed.

According to the initial estimates, the impact of this blockage on the operated production is of 16,000,000 m<sup>3</sup> of gas per day and 32,000 oil barrels per day. With regards to the impact for YPF, in accordance with preliminary estimates, the net production loss is approximately 13,800,000 m<sup>3</sup> of gas per day and 21,000 barrels of oil, amounting to approximately 30% and 8% of YPF's daily total production of gas and oil, respectively.

It is also hereby informed that the blockade has ceased and, in order to normalize operations, the evaluation of the facilities has begun. It is estimated that the resumption process of the affected fields will take between 24 and 48 hours, if no additional inconveniences arise.

The actions undertaken by individuals belonging to the Paynemil community, which has been identified as responsible for the obstruction, have no foundation and lack rationality because, based on the information available to the Company, the territorial claims that could have been the motivation for their actions were being addressed by Neuquén's provincial authorities.

YPF has filed corresponding criminal claims based on the consequences that impact the company's production and informs that it will vigorously defend its interests as well as those of the shareholders.

Yours faithfully,

Diego Celaá  
Market Relations Officer  
YPF S.A.
