PROXY STATEMENT FOR 2004 ANNUAL MEETING OF SHAREHOLDERS

To be held on May 11, 2004

This Proxy Statement and the accompanying proxy card are being furnished to the shareholders of Global Industries, Ltd., a Louisiana corporation (the "Company" or "Global"), in connection with the solicitation by and on behalf of the Board of Directors of the Company of proxies for use at the 2004 Annual Meeting of Shareholders of the Company ("Annual Meeting") to be held on Tuesday, May 11, 2004, at 10:00 a.m., local time, at The Houstonian Hotel & Conference Center, 111 Post Oak Lane, Houston, Texas, and any adjournment thereof. This Proxy Statement and the accompanying proxy card are being first mailed to shareholders on or about April 5, 2004.

The execution and return of the enclosed proxy card will not affect a shareholder's right to attend the Annual Meeting. Furthermore, a shareholder may revoke his or her proxy at any time before it is exercised (a) by filing with the Secretary of the Company a written revocation or a duly executed proxy bearing a later date, or (b) by appearing and voting in person at the Annual Meeting. Unless otherwise marked, properly executed proxies in the form of the accompanying proxy card will be voted (i) **FOR** the election of the eight nominees to the Board of Directors of the Company listed below and (ii) in the discretion of the proxies on any other matter that properly comes before the shareholders at the Annual Meeting.

On April 1, 2004, the record date for determination of shareholders entitled to notice of and to vote at the Annual Meeting, the Company had outstanding 110,738,230 shares of common stock. The holders of common stock are entitled to one vote per share. The Company's common stock is the only class of voting securities outstanding. Pursuant to the Company's bylaws, the presence at the meeting in person or by proxy of the holders of a majority of the outstanding shares of common stock is necessary to constitute a quorum.

ELECTION OF DIRECTORS

Pursuant to the Company's bylaws, the Board of Directors currently consists of eight positions. Eight directors will be elected at the Annual Meeting to serve until the next annual meeting and until their successors are elected and qualified. A plurality of the votes cast in person or by proxy by the holders of common stock is required to elect each director. Accordingly, under Louisiana law, the Company's Amended and Restated Articles of Incorporation and bylaws, abstentions and broker non-votes (which occur if a broker or other nominee does not have discretionary authority and has not received instructions with respect to the particular item) are not counted and have no effect on the election of directors. Unless otherwise indicated on the proxy, the persons named as proxies in the enclosed proxy will vote **FOR** each of the nominees listed below. Each of the nominees is currently a director of the Company and was recommended by the Nominating and Governance Committee of the Board of Directors and nominated by the Board of Directors. There were no third party fees paid by the Company to assist in the process of identifying or evaluating candidates. Although the Company has no reason to believe that any of the nominees will be unable to serve if elected, should any of the nominees become unable to serve prior to the Annual Meeting, the proxies will be voted for the election of such other persons as may be nominated by the Board of Directors.

DIRECTORS AND COMMITTEES

Attendance and Fees

All of the directors of the Company, other than Mr. Dore' who is an executive officer of the Company, have been determined by the Board of Directors of the Company to be "independent" pursuant to the NASDAQ rules and the requirements of the Securities and Exchange Commission. The Company's Board of Directors held five meetings during 2003. Each director attended more than 75% of the combined number of meetings of the Board of Directors and of the committees on which he served that were held during the period in which he was a director. It is the Company's policy for directors to attend the annual meeting of shareholders and at our 2003 annual meeting, eight members of the Company's Board of Directors were in attendance. The Company anticipates that all director nominees will attend the 2004 Annual Meeting.

All non-employee directors of the Company are entitled to receive a cash retainer of \$35,000 for each election cycle, paid semiannually, and a \$35,000 restricted stock award with a one year forfeiture period issued under the Company's 1998 Equity Incentive Plan. Non-Employee directors are reimbursed for ordinary and necessary expenses incurred in attending Board or committee meetings. Each non-employee director also receives a \$1,500 meeting fee for each Board or committee meeting attended in person and a \$750 fee for each telephonic meeting attended. In addition, the chairman of each Board committee and the lead director, who holds the position for a full year, is entitled to receive a \$7,500 stipend.

Each director may elect to receive the cash portion of his or her retainer and any meeting fees or other compensation in the form of a restricted stock award. The number of shares awarded is based upon the closing price of the Company's common stock on the date immediately preceding the date the compensation is payable. The forfeiture restrictions on director restricted stock awards automatically renew on the earlier of the date of the annual shareholders' meeting or June 1 of each year, unless prior to December 31 of the preceding year, the director elects not to have his restrictions automatically renew. During the year ended December 31, 2003, an aggregate of 76,268 restricted shares were issued to directors under the compensation policy as follows: Mr. Day - 11,550 shares, Mr. Djerejian - 12,201, Mr. Hotard - 7,187, Mr. Pattarozzi - 7,187 shares, Mr. Payne - 12,201 shares, Mr. Pollock - 13,741

Moreover, in making its evaluation the Nominating and Governance Committee may consider, among other factors, whether prospective nominees have relevant business and financial experience or have industry or specialized expertise.

It is the policy of the Nominating and Governance Committee to consider director candidate suggestions made by shareholders in the same manner as other candidates. Report of the Audit Committee

The Audit Committee has also discussed with representatives of the Company's independent auditors the matters required to be discussed pursuant to Statement of Auditing Standards No. 61 (Communication with Audit Committees).

At meetings of the Audit Committee held prior to the filing of the Company's quarterly financial statements with the Securities and Exchange Commission, the Audit Committee reviewed and discussed the Company's quarterly statements with the Company's management and representatives of Deloitte & Touche LLP. At each of such meetings, the Audit Committee held private sessions with representatives of Deloitte & Touche LLP to discuss any and all matters relevant to such financial statements without any restrictions.

The Audit Committee has received and reviewed the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and has discussed with representatives of Deloitte & Touche LLP such independent auditors' independence. The Audit Committee has also considered whether the provision of non-audit services to the Company by Deloitte & Touche LLP in 2003 was compatible with maintaining their independence and determined that it was.

The Company's 1992 Stock Option Plan and the 1998 Equity Incentive Plan (the "Option Plans") provide that, upon a change of control, the Compensation Committee may accelerate the vesting of options, cancel options and make payments in respect thereof in cash in accordance with the Option Plans, adjust the outstanding options as appropriate to reflect such change of control, or provide that each option shall thereafter be exercisable for the number and class of securities or property that the optionee would have been entitled to had the option already been exercised. The Option Plans provide that a change of control occurs if any person, entity or group (other than William J. Dore' and his affiliates) acquires or gains ownership or control of more than 50% of the Company's outstanding common stock or, if after certain enumerated transactions, the persons who were directors before such transaction cease to constitute a majority of the Board of Directors.

The Company has entered into agreements with certain of the officers of the Company, including all of the Named Executives that provide certain severance benefits in the event their employment is terminated under certain circumstances within two years following a change in control of the Company. The agreements are for a term of one year and automatically renew each January 1 absent notice to the contrary from the Company; however, if a change of control occurs during the term of the agreement, the agreement cannot be terminated until two years after the change in control has occurred.

The agreements provide that if the Company terminates the Named Executive's employment other than due to death, disability, retirement or cause, or if the Named Executive terminates his employment with the Company for "good reason," in each case within two years following a change in control, then he shall be entitled to the following benefits and payments: (1) a payment equal to the Named Executive's full base salary through the date of termination plus a pro rata payment based on the highest bonus or incentive compensation received in any one of the three fiscal years immediately preceding the fiscal year in which the termination occurred, or the number of days elapsed in the fiscal year in which the termination occurs; (2) a payment in the case of the Named Executives equal to 2.99 times the higher of (i) the highest base salary plus any bonus paid to such executive in any one of the five fiscal years preceding the fiscal year in which the termination occurred or (ii) such executive's annualized includable compensation for the base period (as defined in Section 280G(d)(1) of the Internal Revenue Code); (3) all stock options held by such executive (whether or not then exercisable) shall be surrendered to the Company in exchange for a cash payment equal to the difference between the exercise price and the closing price of the Company's common stock on the date of notice of termination, and all restrictions on any restricted stock granted to such executive shall lapse; (4) a payment of the difference between what such executive is entitled to receive under the Company's retirement plans upon his termination and the amount he would have been entitled to had he been fully vested under such plans upon his termination; (5) continued welfare benefit coverage for two years following his termination, or retiree medical benefits for life, if such executive would have been entitled to such benefits had he voluntarily retired on such date; and (6) payment of certain other expenses or losses related to such executive's termination. In the case of the Named Executives, if any payments would be subject to any excise tax imposed by Section 4999 of the Internal Revenue Code then the aggregate compensation payable under the agreement will be increased in an amount necessary to pay such excise taxes and all taxes owed on such additional payments. In the case of other officers, the aggregate compensation payable under the change of control agreement and any other payments that constitute "parachute payments" (as defined in Section 280G of the Internal Revenue Code), will be reduced to an amount that is one dollar less than three times his or her annualized includable compensation. If the officer's employment is terminated for cause, then he will be entitled only to receive his current salary plus any incentive compensation through the date notice of termination is given. If the officer is unable to perform his duties due to incapacity after a change in control, he will continue to receive his full base salary and incentive compensation at the rate then in effect until the agreement is terminated.

Generally, a change in control occurs if a person or group acquires 50% or more of the voting stock of the Company, or a merger or sale or transfer of substantially all of the Company's assets occurs or after a contested election, persons who were directors before such election cease to constitute a majority of the Board of Directors.

The Compensation Committee of the Board of Directors administers the Company's executive compensation. The Compensation Committee's responsibility is to set the compensation philosophy for the Company's executive officers, to approve and administer the Company's incentive and benefit plans, to monitor the performance and compensation of executive officers and other key employees and to set compensation and make awards under the Company's incentive plans that are consistent with the Company's compensation philosophy and the performance of the Company and its executive officers. The Compensation Committee believes that shareholders are best served when the compensation structure for executive officers focuses them on building long-term shareholder value while not neglecting current earnings. Total compensation for the Company's Chief Executive Officer is based upon the same factors and determined in the same way, as the Company's other executive officers.

The Company's executive compensation program consists of three principal elements: (1) base salary, (2) potential for annual incentive compensation awards, which provide for cash bonuses based on overall Company performance as well as individual performance, and (3) opportunities to earn long-term stock-based awards which provide long-term incentives that are intended to encourage the achievement of superior results over time and to align the interests of executive officers with those of shareholders. The annual incentive compensation awards and long-term stock-based awards constitute the performance-based portion of total compensation.

The compensation program is structured to provide senior management with a total compensation package that, at expected levels of performance, is competitive with those provided to executives who hold comparable positions or have similar qualifications in other similarly situated organizations. Peer companies are specifically utilized by the Compensation Committee in evaluating compensation levels of all executives; however, the Compensation Committee also receives advice from time to time regarding compensation levels from Towers Perrin, an independent compensation consulting firm, which utilizes a number of other sources, including information from other companies.

In 2001, the Compensation Committee of the Board of Directors implemented share ownership guidelines for all executives. These ownership guidelines require that all executives hold a minimum number of shares of the Company's common stock equal to five, three, or one times their base salary in market value (i.e., number of shares multiplied by share price) for the Chief Executive Officer; President; Chief Operating Officer; and Chief Financial Officer; and all other executives, respectively. Each executive will be required to meet the guidelines of ownership stated above by 2006.

Base Salary Program. The Compensation Committee establishes base salary levels of the Chief Executive Officer and other executive officers after review of salary survey data of other companies in the oil field service industry having annual sales or revenues generally similar in size to the Company, with particular emphasis given to those other companies in the same geographic area as the Company. By reviewing the salary data of such other companies from time to time, the Compensation Committee intends to try to ensure that the base salaries established by the Compensation Committee are generally within the range of base salaries paid by the other companies. The base salary established for each executive officer also takes into account the executive's particular experience and level of responsibility.

Base salaries of the executive officers are reviewed annually, with adjustments made based on any updated salary data, increases in the cost of living, job performance of the executive officer over time, the expansion of duties and responsibilities, if any, of the executive officer and general market salary levels. No specific weight or emphasis is placed on any one of these factors. In 2003, the Compensation Committee did not increase the base salary of the Chief Executive Officer, Mr. William Dore', but increased the other Named Executives base salaries by 5% to 14%. The base salaries were increased after the Compensation Committee completed its annual salary review in 2003 and determined that base salaries of the Company's executive officers had fallen below the targeted ranges of base salaries paid by comparative companies.

Short-Term Incentive Compensation. Annual incentive compensation awards enable the executives and other key employees of the Company to earn annual cash bonuses, based upon the Company's financial results meeting or

exceeding goals as well as individual performance. The Company's short-term incentive plan is designed to provide a total cash compensation package that at expected levels of performance targets a specified percentile for peer group companies. Considering the Company's performance relative to goals, the Compensation Committee recommends incentive compensation awards and contributions to the Company's defined contribution profit sharing retirement plan. Based on the Company's performance, during 2003, 2002 and 2001, the Chief Executive Officer and other Named Executives did not receive an incentive award. During 2003, the Chief Executive Officer received a profit sharing and retirement plan contribution of \$378, and the other Named Executives received contributions totaling \$985. In 1998, the Company adopted a Performance Bonus Plan to provide for awards to key employees, including executive officers. The performance bonus awards are paid in three equal installments, with the first installment paid at the time of the award. No performance bonus awards have been made since 1998.

Long-Term Incentive Compensation. The long-term incentive portion of the Company's executive compensation plan is administered through the Company's Option Plans, each established by the Board of Directors of the Company to provide a means by which certain employees of the Company, including executive officers, could not only be paid competitively, but also develop an economic interest, through ownership in the Company's common stock, in the financial success of the Company. After reviewing the stock option and restricted stock award position of each executive officer and reviewing competitive compensation data, the Compensation Committee makes awards to executive officers and other key employees, in order to enhance the recipients' desire to remain with the Company and devote their best efforts to its business by more closely aligning executives' and shareholders' long-term interests. During 2003, the Company granted no stock options and no restricted stock awards to the Chief Executive Officer, and no options and no restricted stock to the other Named Executives.

Section 162(m). Section 162(m) of the Internal Revenue Code ("Section 162(m)"), enacted in 1993, imposes a limit of \$1 million, with certain exceptions, on the amount that a publicly held corporation may deduct in any year for the compensation paid or accrued with respect to each of its chief executive officer and four other most highly compensated executive officers. None of the Company's executive officers currently receives compensation exceeding the limits imposed by Section 162(m). While the Compensation Committee cannot predict with certainty how the Company's executive compensation might be affected in the future by the Section 162(m) or applicable tax regulations issued thereunder, the Compensation Committee intends to try to preserve the tax deductibility of all executive compensation while maintaining the Company's executive compensation program as described in this report.

Notwithstanding anything to the contrary set forth in any of the Company's previous or future filings under the Securities Act of 1933 or the Securities Exchange Act of 1934 that might incorporate this Proxy Statement or future filings with the Securities and Exchange Commission, in whole or in part, the preceding performance information shall not be deemed to be "soliciting material" or to be "filed" with the Securities and Exchange Commission or incorporated by reference into any filing except to the extent this report is specifically incorporated by reference therein.

The Peer Group investment is weighted at the beginning of each period based on the market capitalization of each individual company within the group. RELATIONSHIP WITH INDEPENDENT PUBLIC ACCOUNTANTS

Deloitte & Touche LLP, independent public accountants, have been the principal independent auditors for the Company since October 1991. The Company expects that they will continue as the Company's principal independent auditors for 2004. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting, with the opportunity to make a statement if they desire to do so and to respond to appropriate questions from shareholders.

The Audit Committee pre-approves all auditing services and permitted non-audit services (including the fees and terms thereof) to be performed for the Company by its independent auditor, subject to the de minimus exceptions for non-audit services described in Section 10A(i)(1)(B) of the Securities Exchange Act of 1934 that are approved by the Audit Committee prior to the completion of the audit. The Audit Committee has currently delegated authority for pre-approval of fees up to \$20,000 to the Chairman of the Audit Committee.

For 2003 and 2002, professional services were performed by Deloitte & Touche, LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates (collectively, "Deloitte & Touche"). All of the fees described below were pre-approved by the Audit Committee or its Chairman pursuant to delegated authority and none were approved under the *de minimis* exception to the pre-approved requirement.
