ITEM 1. BUSINESS.

COMPANY OVERVIEW

Cotelligent is a national consulting firm, delivering end-to-end information technology ("IT") solutions that power forward-looking businesses. Since 1996, Cotelligent has positioned leading companies in major business sectors to continue their competitive presence in newer emerging markets. Cotelligent's expertise lies in creating scalable, strategic business solutions powered by technology, intelligent resource planning and execution. Our experience is evidenced by the 792 projects we completed for over 396 clients in calendar year 2000 alone.

Edgar Filing: COTELLIGENT INC - Form 10-K

We have expertise in a variety of industries, including financial services, telecommunications, manufacturing and technology. Within these industries, we have assembled a consulting staff with a broad range of skills, from business analysts to network architects. Our experts not only have industry experience but also are deeply connected to the world of technology.

We provide clients with IT solutions for complex business issues. We help companies manage data, moving it, molding it, and making it accessible to them in real-time, any time and through a variety of media or devices. As a result, we believe we help our clients to become strategically positioned to take their businesses, and their industries, to a higher standard. We are focusing on delivering end-to-end eBusiness and Enterprise solutions and emerging mobile data, or mBusiness, solutions.

COTELLIGENT CULTURE

In our five years as a public company, we have experienced and learned a great deal. Both our successes and our business challenges have a direct bearing on our relationships with colleagues and clients, our daily activities and our overall environment and have molded the basic tenets of our culture:

- . A cohesive company ethos and a fully integrated business model are essential to the success and vitality of our business.
- . Accountability equals integrity, reward equals retention, and education equals leadership.
- . Attending to and nurturing our client and business relationships helps us succeed.
- . Flexibility in approach and adaptability to change are paramount to survival. With these in mind, we have adopted a business culture we believe well suited to the variable nature of the industry in which we compete.

STRATEGY

Cotelligent's strategy is comprised of the following:

INFORMED ACTION.

Our underlying strategy is to help our clients employ information technology solutions that are best suited to their company, industry, competitive environment and culture. We attempt to do this by listening carefully to our clients and working to understand their challenges. We conduct in-depth market research to identify business requirements for current and future IT solutions. We formulate an appropriate course of action giving due consideration to the nature of our clients' businesses, time sensitivities, budget constraints and resources.

END-TO-END TECHNOLOGY SOLUTIONS.

Cotelligent's emphasis on delivering end-to-end technology solutions is another important element of our strategy. At Cotelligent, we believe our approach to IT solutions differentiates us from our competitors.

As a part of our end-to-end technology solutions strategy, we focus on our clients as an enterprise instead of merely evaluating one aspect of their business. We consider the variety of components that shape our clients' businesses including strategy, enterprise systems, customer relationships, network connections, knowledge management functions and mobility needs. By evaluating our clients as an enterprise, we believe we can provide solutions at

Edgar Filing: COTELLIGENT INC - Form 10-K

various stages of our clients' development, whether they are in the planning stages for far-reaching process and technology enhancements, or are seeking to extend into the eBusiness or mBusiness universe. We attempt to do this by understanding each enterprise for all of its critical and interconnected parts.

When providing services to our clients, we offer an integrated set of technology solutions. We combine the resources of our strategic alliances and partnerships with our own internal capabilities to meet our clients' business requirements. We believe we can take a project from start to finish with confidence and competence.

3

COLLABORATION.

- . With Our Clients: Our approach to providing consulting services and solutions focuses on strong, reciprocal relationships with our clients. We believe it is important to understand our clients' business requirements first then respond quickly based on their opportunity and priorities. We are reliable, credible and responsive when conducting business. We work hard to understand a client's needs so that our services can add significant value. We believe that we provide quality assistance, support and solutions by building productive, long-term relationships.
- . With Our Industry Colleagues: We believe that in the increasingly interconnected world, key alliances are important. We leverage the resources and depth that come from having strategic partnerships with the companies that are at the center of the new business paradigm. We believe that the benefits of these alliances permeate every service, arrangement, and project we undertake. In dealing with the technology and tools of our leading business partners, we have gained valuable experience at making our relationships work in tandem together, delivering custom solutions designed to meet our clients' business needs. Our business partners include: Aether Systems, Cisco, Citrix, Compaq, Competix, Dell, IBM, icomXpress, Microsoft, mySAP.com, PeopleSoft, Sprint, Vignette and White Horse Interactive.

THE COTELLIGENT SOLUTION

We help our clients to achieve the following:

- . launch new ventures or products;
- . enter new markets;
- . introduce new industries;
- . protect hard-won market share;
- . maintain competitive edge;
- . transition from a "bricks and mortar" model to an eCommerce model;
- . enhance or overhaul customer service and support;
- . improve the management of business data;
- . implement Enterprise Resource Planning solutions; and
- . drive business data to wired and wireless devices, any time, anywhere.

We help companies evaluate how new technologies fit within their business and

Edgar Filing: COTELLIGENT INC - Form 10-K

their industry, all in conjunction with their existing business model or in advance of the introduction of a new business model. We have the domain expertise, industry knowledge, technical capabilities and commitment to deliver successful end-to-end enterprise, e-solutions and mobility solutions. Our consultants employ a variety of hardware platforms/environments, operating systems, databases, and development tools to suit a business strategy. We believe our consultants can equip businesses with the means to make the right decisions for today and for the future.

COTELLIGENT'S VALUE PROPOSITION

- . Our track record is verifiable: We deliver results that work for our clients.
- . Our solutions are designed for our clients' industries: We focus on their needs and achieving their potentials.
- . Our business experts' combine technical backgrounds with vertical industry expertise: We provide our own teams of trained consultants and we believe subcontractors or inexperienced consultants cannot match their performance.
- . Our focus is on specific industries: We apply expertise in complex environments to deliver solutions on time and within budget.
- . Our partnerships are carefully managed: We choose and monitor these relationships to ensure each delivers application and industry solutions that best fit our clients' businesses.
- . Our approach is to help our clients achieve self-sufficiency: We are dedicated to knowledge transfer and remain accessible as our clients' businesses evolve.

4

We are confident in our approach to providing high-value services and solutions and are particularly proud of our 55% rate of repeat business.

COTELLIGENT SERVICES

The integrated set of IT services and solutions we provide to our clients includes:

- . Strategic and Technical Assessments: We conduct strategic and technical assessments across a variety of industries to help our clients understand strengths and weaknesses inherent in their current environments. Our goal is to make our clients more competitive in the markets in which they do business. Our business focuses on leading our clients through strategy, process, technology and personnel transformation.

We believe our many years of experience in a variety of industries make Cotelligent consultants qualified to support companies seeking improvements in operational efficiencies and marketplace performance. We believe our consultants have had many successes in helping companies facilitate change in their operating culture. Our experience provides insights for analyzing a company's operating environment and uncovering opportunities for improvement. Cotelligent works to strengthen our clients' competitive advantage.

- . eBusiness Solutions: Cotelligent's eBusiness practice builds from experience and expertise in all facets of eBusiness application design and creation. Cotelligent can facilitate the development and execution of a viable plan that integrates the Internet into new and/or existing business processes, systems, and cultures. We apply strategy, analysis, design, and development

Edgar Filing: COTELLIGENT INC - Form 10-K

expertise to build smart eBusiness applications and infrastructure for our clients, delivering solutions that leverage technology.

- . Enterprise Solutions: Our extensive experience in Enterprise Solutions distinguishes Cotelligent from its competitors, and we believe this aptitude provides our clients with a reliable and scalable framework for managing and moving business data across a variety of platforms. We help our clients integrate systems across their organization, build better customer relationships, improve back-office efficiencies, share knowledge, and generally ensure that software applications in use by our clients work together in form and function.
- . mBusiness and Mobility Solutions: We are continuing to build our knowledge and expertise in wireless data applications. We are enhancing our mBusiness consulting practice through development of in-house courseware and processes to train technical consultants on wireless applications. We have formed strategic alliances with wireless data and middleware providers and are pursuing additional relationships which we believe will strengthen our mBusiness solution offerings and capabilities.

Cotelligent now offers its own MOBILE MANAGEMENT SOLUTION to our clients, another service that distinguishes Cotelligent in the marketplace as a premier provider of wired and wireless technology solutions.

COTELLIGENT'S MOBILE MANAGEMENT SOLUTION

MARKET CONDITIONS

The exponential growth of wireless and mobile networks has brought vast changes in mobile devices, middleware development, standards and network implementation, and user acceptance. According to a study by Iconixx, Inc., over the next five years more than 80% of new corporate applications will be designed for non-PC devices such as wireless phones or Personal Digital Assistants (PDAs). By the end of that time, there will be more than 600 million users of mobile Internet services. Other analysts project that by 2005, there will be one billion wireless-data users globally. Robinson-Humphrey predicts that mCommerce will grow at a five-year compounded annual growth rate of 200% worldwide from \$0.5 billion in 2000 to \$120 billion in 2005. IBM projects that the total mobile Internet solutions and services market will exceed \$83 billion in revenue by 2003.

Mobile Commerce consists of:

- . Applications: Many new applications are becoming possible, and many existing eCommerce applications can be modified for a mobile environment.
- . User infrastructure: The design of new mobile commerce applications should consider the capabilities of the user infrastructure - the mobile devices.

5

- . Network infrastructure: In mobile commerce, service quality primarily depends on network resources and capacity. The framework also provides a developer-provider plane, which addresses the different needs and views of application developers, content providers and service providers.
- . Wireless middleware: With its ability to hide the underlying network's details from applications while providing a uniform and easy-to-use interface, middleware is extremely important for developing new mobile commerce applications.

Edgar Filing: COTELLIGENT INC - Form 10-K

Wireless and Mobile Middleware:

Middleware unites different applications, tools, networks and technologies, giving users a common interface. Mobile middleware is an enabling layer of software that connects eCommerce applications with different mobile networks and operating systems without introducing mobility awareness--the need to adjust to wide variations in bandwidth and resulting delays, and changes in user location--in the applications.

According to a March 2001 report from International Data Corp. (IDC), the market for mobile middleware should increase from \$137 million in 2000 to \$1.5 billion by 2005. Further, IDC predicts that by 2004, the number of mobile professionals will reach 27 million while the number of workers out in the field collecting information will reach 18 million.

OUR SOLUTION

Cotelligent believes the next phase of electronic business growth will be in the extension of office applications to mobile and wireless applications. With this in mind, we have introduced a new mobility solution that gives clients with transient sales, field or delivery personnel the connectivity and executive capabilities needed to gather, prepare, send and receive data anywhere, anytime via wired and wireless devices. Our new solution is designed to facilitate the collection and exchange of information to backend ERP (Enterprise Resource Planning) and corporate systems and create a wireless online extension of a company's enterprise-wide network.

Cotelligent's new product, JASware(C), is an integrated client server based, web-enabled mobile management software. Our solution enables centralized management of the mobile environment including software distribution, inventory control, data collection and data synchronization. Clients can also receive reports and real-time information to ensure the distributed environment is operating as efficiently and cost effectively as possible. Cotelligent can tailor this solution to fit a client's mobility requirements and position the client for growth, expansion, and emerging technologies.

Cotelligent offers integration and hosting services in conjunction with this innovative solution, providing clients with the data management infrastructure for a complete mobility solution from point of collection to result dissemination. Hosting services are designed to enable organizations to rapidly deploy and reduce the total cost of ownership of mobility application solutions. It is our belief that businesses utilizing a full service ASP to host their wireless gateways can realize significant cost savings over time when compared with implementing in-house. Most of the direct cost savings from the wireless ASP approach derive from maintenance, manpower and connection charges to the wireless carriers as well as middleware licenses. We believe our end-to-end mobility solution enables clients to reduce the cost of owning and managing mobile business systems while improving end-user productivity.

Businesses with mobile work forces not yet ready to employ wireless communications can also benefit from this technology. Cotelligent can help provide such businesses with a strategic vision and direction today for a future move to a wireless environment by creating greater efficiencies in their existing mobile communication systems and establishing a framework for a much easier transition to an entirely wireless platform when the time comes.

OUR COMPETITIVE ADVANTAGE

- . Central Management: Given estimated increases in the number of users and the reduced cost in wireless connectivity, it is conceivable that the cost/benefits will even be greater in the years to come. Many organizations implement mobile business solutions only to find that the cost of managing

Edgar Filing: COTELLIGENT INC - Form 10-K

hundreds of disconnected workers outweighs the benefit. This can be overcome by providing central management and an infrastructure that can add control, improve service levels and raise user productivity. With Cotelligent's mobility solution and services, organizations can control an entire chain of remote systems from a central source.

- . Targeting the Business Professional: Unfortunately, many middleware vendors today support small-device platforms with much the same technology used for the larger laptop and desktop market. To compound this, the technology used

6

for communications and the basic infrastructure is not designed specifically for the mobile/wireless user, but rather the connected online user. We believe it is important to consider the full system requirements when adopting a mobile infrastructure, an area in which we believe we have significant experience and expertise. Although there are vendors who support the mobile environment, these companies are targeting the consumer or casual user of PDAs and handhelds. Cotelligent believes that our focus on the business professional helps set us apart and will make us a strong contender in this market.

CLIENT BASE

The Company does business with a broad client base of over 300 clients. During the nine months ended December 31, 2000, our largest client accounted for approximately 9% of our revenues and our ten largest clients accounted for approximately 39% of our revenues. During the twelve months ended December 31, 2000, we recognized at least \$1.0 million in revenues from 19 of our clients.

MARKETING

We initiated extensive marketing initiatives during the year 2000. Among our accomplishments were the successful re-branding of Cotelligent as an IT solutions provider with an accompanying tagline, logo and literature; a redesigned and revamped Web site to support this new brand; and an ongoing public relations outreach program to build our brand awareness in the business and investment community.

Our new tagline, "Structure Without Boundaries," is meant to demonstrate that we provide the structure to excel in the information technology industry where we believe traditional boundaries no longer exist. This applies in the work we do every day for our clients, to the work we do internally to strengthen and build our company, to the way we adapt to a dynamic business environment and to the way we employ continuing advances in technology.

Cotelligent's new brand and corporate identity were developed through the collaborative efforts of corporate marketing and our Cotelligent colleagues. In support of our corporate identity, we produced an integrated communications system which we continue to enhance and expand.

We believe that strengthening our corporate identity and brand awareness helps us to:

- . Communicate clearly and consistently who we are and what we do
- . Differentiate Cotelligent from our competitors
- . Establish corporate reputation and marketplace momentum

Edgar Filing: COTELLIGENT INC - Form 10-K

- . Improve brand perception, prestige and credibility

We intend to continue building upon our brand and executing effective marketing campaigns that will keep us competitive in the IT consulting industry.

These marketing campaigns will also focus on the product management of our new mobile management solution. This includes overall coordination of the solution's definition and market positioning as well as ensuring delivery of all necessary components of this solution. Components encompass the software product itself, internal and external training, documentation and collateral production, and a complete sales strategy to bring the solution to market.

SALES

In 2000, we hired a new Vice President of Sales, who has led the ramp up and reorganization of our sales and business development organizations. We believe, by consistently educating, orienting and measuring our sales force utilizing consistent benchmarking procedures, we will be successful. This year we developed a number of sales kits, what we call client engagement guides, or "CEGs." These kits help our sales people to better understand the solutions and services we offer and articulate in various verticals.

The CEGs provide Cotelligent with market intelligence, enabling our sales teams to focus on specific market niches. Further, these valuable documents accelerate the knowledge of the new sales professionals joining our Company. Using these guides, we believe we can accelerate the effectiveness of our sales force in the following ways:

7

- . Establishing a working knowledge of Cotelligent, our core competencies, market focus and value proposition. Our Account Executives are now equipped to approach a sales call with a fuller understanding of the client's industry and issues, and articulate Cotelligent's value proposition.
- . Building valued relationships with clients by solving today's problems and providing them with a vision/strategy for the future.
- . Accelerating pipeline development by concentrating on our vertical segments and our core competencies.
- . Increasing revenue.

The Company sells its solutions and services to both end users and through channel partners.

CONSULTANTS AND RECRUITING

Recruiting skilled IT professionals is integral to Cotelligent's success. Our current staff of approximately ten full-time technical recruiters use a variety of methods to recruit qualified IT professionals including networking, attendance at user groups, Internet recruiting sites, World Wide Web page advertisements, and targeting local and regional colleges and universities. We also rely on internal employee referral programs, advertising in newspapers and technical periodicals, and occasionally on out-placement agencies.

Each applicant is interviewed by our recruiting personnel as well as our in-house technical staff, many of whom are certified developers and therefore competent at determining the skill sets of our candidates. Technical applicants are required to complete a questionnaire regarding skill level, past professional experience, education and availability, and are asked to provide

Edgar Filing: COTELLIGENT INC - Form 10-K

technical references. Once we determine an applicant is qualified, the candidate's profile, relevant skills and experience are scanned into our resource management database which can be searched based on a number of different criteria, including specific skills and qualifications. We constantly update our database to reflect changes in employee skills, experience or availability to ensure that our clients' projects are staffed with the most appropriate and competent technical consultants.

We intend to use similar methods to recruit professionals going forward.

COMPETITION

Cotelligent competes in the broad information technology consulting market, a very competitive and fluid market. Depending on the situation, geographic region or particular client need, we compete against both large business consulting firms and more local, niche Web design and consulting solutions firms. Our primary competitors include Internet solution providers, such as Proxicom, iXL and Viant; systems integrators, such as IBM, Sapient and Scient; strategic consulting firms, such as certain "Big Five" accounting firms; and general management consulting firms. Our competitors may have significantly greater financial, technical and marketing resources and generate greater revenues than Cotelligent.

We believe that to compete successfully we must be able to deliver leading-edge solutions with speed and competence, develop and market cost-effective offerings that meet changing client needs, and respond rapidly to evolving technology by continuously training our technical consultants. We believe we have the talent and resources to continue to compete effectively. Our focus on mBusiness and our new mobile management solution offerings further support our competitive advantage in the marketplace.

REGISTRANT INFORMATION

Cotelligent was incorporated in February 1993 under the laws of the State of California as TSX, a California corporation. In November 1995, we changed our jurisdiction of incorporation to Delaware and our name to Cotelligent Group, Inc. In September 1998, we changed our name to Cotelligent, Inc. Unless the context otherwise requires, references to "Cotelligent", "Company", "we", "us", and "our" refer to Cotelligent, Inc., a Delaware corporation.

Our headquarters are located at 101 California Street, Suite 2050, San Francisco, California 94111 and our telephone number is (415) 439-6400. In May 2001, we will move our headquarters to 44 Montgomery Street, Suite 4050, San Francisco, California 94104 and we will keep our phone number (415) 439-6400.

8

EMPLOYEES

At December 31, 2000, we had approximately 650 employees, including technical staff of approximately 450 IT professionals.

RISK FACTORS

THE FOLLOWING DISCUSSION CONTAINS CERTAIN CAUTIONARY STATEMENTS REGARDING COTELLIGENT, INC.'S BUSINESS AND RESULTS OF OPERATIONS, WHICH SHOULD BE CONSIDERED BY OUR STOCKHOLDERS OR ANY READER OF OUR BUSINESS AND RESULTS OF FINANCIAL INFORMATION DISCLOSURE. THIS INFORMATION IS PROVIDED TO ENABLE US TO AVAIL OURSELVES OF THE "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. THE FOLLOWING FACTORS SHOULD BE CONSIDERED IN CONJUNCTION WITH ANY DISCUSSION OF OUR OPERATIONS OR RESULTS, INCLUDING ANY

Edgar Filing: COTELLIGENT INC - Form 10-K

FORWARD-LOOKING STATEMENTS AS WELL AS COMMENTS CONTAINED IN PRESS RELEASES, PRESENTATIONS TO SECURITIES ANALYSTS OR INVESTORS AND ALL OTHER COMMUNICATIONS MADE BY US OR OUR REPRESENTATIVES. WE INTEND TO USE THE FOLLOWING WORDS OR VARIATIONS OF THE FOLLOWING WORDS TO IDENTIFY FORWARD-LOOKING STATEMENTS: ANTICIPATES, BELIEVES, EXPECTS, ESTIMATES, INTENDS, PLANS, PROJECTS AND SEEKS.

IN MAKING THESE STATEMENTS, WE DISCLAIM ANY INTENTION OR OBLIGATION TO ADDRESS OR UPDATE EACH FACTOR IN FUTURE FILINGS OR COMMUNICATIONS REGARDING OUR BUSINESS OR RESULTS, AND WE DO NOT UNDERTAKE TO ADDRESS HOW ANY OF THESE FACTORS MAY HAVE CAUSED CHANGES TO DISCUSSIONS OR INFORMATION CONTAINED IN PREVIOUS FILINGS OR COMMUNICATIONS. IN ADDITION, ANY OF THE MATTERS DISCUSSED BELOW MAY HAVE AFFECTED OUR PAST RESULTS AND MAY AFFECT FUTURE RESULTS, SO THAT OUR ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE EXPRESSED HERE AND IN PRIOR OR SUBSEQUENT COMMUNICATIONS.

IF WE CANNOT EFFECTIVELY STREAMLINE THE OPERATIONS WHICH REMAIN AFTER THE DIVESTITURE OF OUR IT STAFF AUGMENTATION BUSINESS, OUR FINANCIAL PERFORMANCE AND LIQUIDITY COULD SUFFER.

By selling our IT staff augmentation business, we shifted the strategic focus of our business from one that had both an IT staff augmentation and technology solutions services focus to one that focuses principally on technology solutions. We have and will continue to dedicate managerial, administrative and financial resources to coordinate our new business direction and reduce unnecessary expenditures that do not benefit our technology solutions services. If we fail to streamline our current expenditures and implement our future plans for our remaining operations, our on-going liquidity and financial performance could be materially and adversely affected.

IF WE ARE UNABLE TO GENERATE POSITIVE CASH FLOW AND RETURN TO PROFITABILITY IN THE NEAR TERM, OUR FINANCIAL PERFORMANCE COULD SUFFER.

We have experienced a general reduction in demand for our services. At the same time we have taken action to divest non-strategic operations, and have used the cash proceeds from these divestitures to pay off debt obligations and provide sufficient cash to fund working capital needs as we restructure the business. Nevertheless, we realize these cash resources are limited and that if our business does not begin to generate a positive cash flow and return to profitability in the near term, our on-going liquidity and financial performance could be materially and adversely affected.

IF THE EBUSINESS AND MBUSINESS MARKETS DO NOT CONTINUE TO DEVELOP, OR IF THEIR DEVELOPMENT IS DELAYED, OUR BUSINESS COULD BE HARMED.

Our future revenues will depend on the development of the eBusiness and mBusiness markets. The failure of these markets to develop, or a delay in the development of these markets, could seriously harm our business. The success of eBusiness depends substantially upon the widespread adoption of the Internet as a primary medium for commerce and business applications. Critical issues concerning the commercial use of the Internet, such as security, reliability, cost, accessibility and quality of service remain unresolved and may negatively affect the growth of Internet use or the attractiveness of commerce and business communications over the Internet. The success of mBusiness depends on acceptance of wireless data applications for commercial use and availability of devices supporting wireless applications. Critical issues in the wireless industry include security, cost, accessibility and reliability of service, and further development of wireless technology standards.

WE DO NOT HAVE A CREDIT FACILITY IN PLACE AS WE OPERATE FROM EXISTING CASH

Edgar Filing: COTELLIGENT INC - Form 10-K

RESOURCES.

When we paid off our bank loan on June 30, 2000, our credit facility was terminated. In the past we have relied on our credit facility to satisfy our liquidity needs. Since that date we have not secured additional financing as we have had sufficient cash resources from which to operate. We plan to continue operating over the next year using our existing cash resources and cash resources generated from the collection of our accounts receivable. Should we find ourselves in need of more cash, we would have to look for financing and we might, as a result, have a short-term liquidity problem. Nevertheless, we may not be successful in securing financing, or if successful, the terms may not be advantageous to us.

IF WE FAIL TO CONTINUE TO ATTRACT AND RETAIN QUALIFIED IT PROFESSIONALS, IT COULD HARM OUR BUSINESS.

Our success depends upon our ability to attract, hire and retain technical consultants and project managers who possess the necessary skills and experience to service our clients. We continually identify, screen and retain qualified IT professionals to keep pace with client demand for rapidly evolving technologies and varying client needs. We compete for these professionals with our clients, other providers of technical services, systems integrators, providers of outsourcing services, computer systems consultants and temporary staffing companies in a variety of industry segments. Competition for individuals with proven technical skills is intense. In the past, we have experienced difficulties in identifying and retaining qualified IT professionals and, in some instances, we were unable to meet requests for services. We cannot assure that qualified IT professionals will continue to be available to us in sufficient numbers.

OUR SUCCESS IS DEPENDENT ON OUR KEY PERSONNEL AND OUR ABILITY TO HIRE ADDITIONAL MANAGEMENT PERSONNEL AT REGIONAL AND CORPORATE LEVELS.

Our operations are dependent on the continued efforts of our executive officers and senior management. In addition, we will likely depend on the senior management of any businesses acquired in the future. If any of these people are unable or unwilling to continue in his or her present role, or if we are unable to hire, train and integrate new management personnel effectively, our business could be adversely affected. We do not currently maintain key person life insurance covering any of our executive officers or other members of senior management.

WE FACE INTENSE COMPETITION THAT COULD ADVERSELY AFFECT OUR REVENUES AND PROFITABILITY.

The IT consulting services industry is highly competitive, fragmented and subject to rapid change. Our competitors include local, regional and national consulting firms, system integration firms, professional service divisions of applications software firms and the professional service groups of computer equipment companies. We also compete with management information outsourcing companies, "Big Five" accounting firms and general management consulting firms. Many of our competitors have greater technical, financial or marketing resources than we have. In addition, we intend to enter new markets and expand our solution and service offerings through internal growth and acquisitions and we expect to encounter additional competition from established companies in these areas. Further, many large end user companies have recently consolidated their vendor lists to a smaller number of preferred service providers. If we are unable to service these companies adequately and become a preferred consulting service provider, our ability to acquire new clients and retain existing clients could be adversely affected. If we cannot compete effectively in our industry, our revenues and profitability could be adversely affected.

Edgar Filing: COTELLIGENT INC - Form 10-K

OUR FUTURE GROWTH AND ABILITY TO DIFFERENTIATE COTELLIGENT FROM ITS COMPETITION IS, IN PART, DEPENDENT UPON OUR SUCCESS IN DEVELOPING, MARKETING, AND SELLING OUR MOBILE MANAGEMENT SOLUTION SERVICES.

We intend to develop, market and sell mobile management solutions and services. Some of these efforts in the past year have not been successful. In addition, our resources in the mobile management solution area are limited. Nevertheless, we continue to focus on this business as it represents significant opportunity. If we are not able to stay ahead of technical advancements in the market or deliver these solutions and services, our operating results could suffer.

10

IF WE ARE UNABLE TO INCREASE OUR REVENUES THROUGH THE DEPLOYMENT OF OUR NEW SALES AND BUSINESS DEVELOPMENT ORGANIZATION, OUR FUTURE GROWTH COULD SUFFER.

We have recently re-organized our sales force which has resulted in significant turnover and the hiring of a large number of new sales people. Although we feel this new sales team is better suited than our prior sales force to develop the business we are targeting, we recognize there is an extensive ramp-up time associated with a new sales force and market conditions for our services are competitive. If this new team is not successful in growing the number of profitable client engagements in the near term, our revenues and profitability may not improve. Consequently, our financial performance could be materially and adversely affected.

OUR REVENUES AND FINANCIAL CONDITION MAY BE ADVERSELY AFFECTED BY THE LOSS OF BUSINESS FROM SIGNIFICANT CLIENTS.

Our revenues are primarily derived from services provided in response to client requests or on an assignment-by-assignment basis. Our engagements, generally billed on a time and materials basis, are terminable at any time by our clients, generally without penalty. In addition, for the nine months ended December 31, 2000, our largest client and our ten largest clients accounted for approximately 9% and 39%, respectively, of our revenues. Our clients may not continue to engage us for projects or use our services at historical levels, if at all. If we lose a major client or suffer a reduction in business, our revenues and financial condition may be adversely affected.

WE MAY MAKE ACQUISITIONS, WHICH IF PROVEN UNSUCCESSFUL, COULD NEGATIVELY AFFECT OUR FUTURE PROFITABILITY AND GROWTH.

Although our strategy is focused on internal growth, it is possible that we might make acquisitions. We may not be able to identify, acquire or profitably manage additional businesses without substantial costs, delays or other problems. In addition, acquisitions may involve a number of special risks, including: (1) diversion of management's attention; (2) failure to retain key acquired personnel; (3) risks associated with unanticipated events, circumstances or legal liabilities; and (4) amortization of acquired intangible assets. Some or all of these risks could adversely affect our operations and financial performance. For example, client satisfaction or performance problems at a single acquired business could adversely affect our reputation and financial results. Further, any businesses acquired in the future may not achieve anticipated revenues and earnings.

WE MAY HAVE DIFFICULTY FINANCING OUR FUTURE ACQUISITIONS, WHICH COULD LIMIT OUR GROWTH.

We expect to finance future acquisitions by using cash, notes and/or shares of our common stock for all or a portion of the consideration to be paid. To the extent that we issue shares of our common stock as payment for an acquisition, a

Edgar Filing: COTELLIGENT INC - Form 10-K

material decline in the market price of our common stock could make our stock less attractive consideration. We may not have sufficient cash resources to make acquisitions and we may need to obtain additional capital through debt or equity financing to sustain our growth. We may not be able to obtain additional financing when needed on satisfactory terms, if at all.

CAPACITY CONSTRAINTS MAY RESTRICT THE USE OF THE INTERNET AS A COMMERCIAL MARKETPLACE, RESULTING IN DECREASED DEMAND FOR OUR PRODUCTS.

The Internet infrastructure may not be able to support the demands placed on it by increased usage or by the transmission of large quantities of data. Other risks associated with commercial use of the Internet could slow its growth, including:

- . outages and other delays resulting from inadequate network infrastructure;
- . slow development of enabling technologies and complementary products; and
- . limited availability of cost-effective, high-speed access.

Delays in the development or adoption of new equipment standards or protocols required to handle increased levels of Internet activity, or increased governmental regulation, could cause the Internet to lose its viability as a means of communication among participants in the supply chain, resulting in decreased demand for our services and products.

11

WE ARE DEPENDENT ON CONTINUED EXPANSION OF THE INTERNET INFRASTRUCTURE.

The recent growth in Internet traffic has caused frequent periods of decreased performance, requiring Internet service providers and users of the Internet to upgrade their infrastructures. If Web usage continues to grow rapidly, the Internet infrastructure may not be able to support the demands placed on it by this growth and its performance and reliability may decline. If these outages or delays on the Internet occur frequently, overall Web usage could grow more slowly or decline. Our ability to increase the speed and scope of our services to customers is ultimately limited by and dependent upon the speed and reliability of both the Internet and the capacity of the computer equipment used by our customers. Consequently, the emergence and growth of the market for our services is dependent on improvements being made to the entire Internet and to computer equipment in general to alleviate overloading and congestion.

WE ARE SUBJECT TO GOVERNMENT REGULATION AND LEGAL UNCERTAINTIES.

The Internet is rapidly changing, and federal and state regulation relating to the Internet is evolving. Currently, there are few laws or regulations directly applicable to access to the Internet. Due to the increasing popularity of the Internet, it is possible that laws and regulations may be enacted covering issues such as user privacy, pricing, taxation, content and quality of products and services. The adoption of such laws or regulations could reduce the rate of growth of the Internet, which could materially and adversely affect our business.

OUR FINANCIAL RESULTS ARE SUBJECT TO QUARTERLY FLUCTUATIONS.

Our revenues, gross margins and operating margins for any particular quarter are generally affected by business mix and billing rates, resource requirements, marketing activities, retention rates, the timing and size of client projects and fluctuations in demand as a result of the technology market. Consequently,

Edgar Filing: COTELLIGENT INC - Form 10-K

our results for any quarter may not be indicative of future results.

WE FACE POTENTIAL LIABILITY DUE TO THE PROJECT NATURE OF OUR BUSINESS WHICH OFTEN REQUIRES OUR IT PROFESSIONALS TO WORK AT OUR CLIENTS' PLACE OF BUSINESS.

Our IT professionals are often deployed in the workplace of other businesses. As a result of this activity, we could be subject to possible claims of discrimination and harassment, employment of illegal aliens or other similar claims. These types of claims could result in negative publicity for us and money damages or fines. Although we have not had any significant problems in this area, we could encounter these problems in the future.

We are also exposed to liability for actions of our IT professionals while on assignment, including damages caused by employee errors, misuse of client-proprietary information or theft of client property. Because of the nature of our assignments and the related potential liability, we cannot assure that insurance we maintain, if continually available, will be sufficient in amount or scope to cover a loss.

ITEM 2. PROPERTIES.

Our principal executive offices and our continuing operating subsidiaries are located in 12 facilities with an aggregate of approximately 234,000 square feet and are leased at aggregate current monthly rents of approximately \$0.3 million with no lease commitment extending past the year 2006. We believe that our properties are adequate for our needs. Furthermore, we believe that suitable additional or replacement space will be available when required on terms we believe will be acceptable.

ITEM 3. LEGAL PROCEEDINGS.

We are, from time to time, a party to litigation arising in the normal course of our business. We are not presently subject to any material litigation.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were submitted to a vote of security holders.

12

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON STOCK AND RELATED STOCKHOLDER MATTERS.

PRICE RANGE OF COMMON STOCK

The following table sets forth, for the periods indicated, the high and low sales prices for the Common Stock as reported on the NYSE under the symbol "CGZ".

HIGH	LOW
-----	-----

FISCAL YEAR ENDED MARCH 31, 1999

Edgar Filing: COTELLIGENT INC - Form 10-K

April 1, 1998 through June 30, 1998.....	\$29.63	\$17.6
July 1, 1998 through September 30, 1998.....	\$23.13	\$10.7
October 1, 1998 through December 31, 1998.....	\$21.31	\$12.5
January 1, 1999 through March 31, 1999.....	\$21.50	\$ 8.8
 FISCAL YEAR ENDED MARCH 31, 2000		
April 1, 1999 through June 30, 1999.....	\$15.31	\$ 5.6
July 1, 1999 through September 30, 1999.....	\$ 7.81	\$ 3.5
October 1, 1999 through December 31, 1999.....	\$ 6.94	\$ 2.8
January 3, 2000 through March 31, 2000	\$ 6.69	\$ 4.2
 NINE MONTHS ENDED DECEMBER 31, 2000		
April 1, 2000 through June 30, 2000.....	\$ 7.25	\$ 3.7
July 1, 2000 through September 30, 2000.....	\$ 5.56	\$ 3.0
October 1, 2000 through December 31, 2000.....	\$ 3.44	\$ 0.6
 FISCAL YEAR ENDED DECEMBER 31, 2001		
January 1, 2001 through March 29, 2001.....	\$ 1.19	\$ 0.5

On March 29, 2001, the last reported sales price of the Common Stock, as reported on the NYSE, was \$0.66 per share. On March 29, 2001, there were 230 stockholders of record of the Common Stock.

ITEM 6. SELECTED FINANCIAL DATA.

In July 2000, the Company announced a change in its fiscal year end to December 31 from March 31. Consequently, the Company's most recently completed fiscal period is a nine-month transition period ended December 31, 2000.

The selected financial data with respect to Cotelligent's consolidated statements of operations for the nine months ended December 31, 2000 and years ended March 31, 1997, 1998, 1999 and 2000 and with respect to the consolidated balance sheets as of December 31, 2000 and March 31, 1997, 1998, 1999 and 2000 have been derived from Cotelligent's financial statements which have been audited by Arthur Andersen LLP.

The following selected financial data should be read in conjunction with the financial statements, related notes and other financial information of the Company included elsewhere herein. See - "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations".

(1) During fiscal 1997 and 1998, the Company acquired ten businesses accounted for under the pooling-of-interests method (the "Pooled Companies") and has restated its financial statements for all periods to present financial data as if Cotelligent and the Pooled Companies had always been members of the same operating group. In addition, during the fiscal years ended March 31, 1997, 1998, 1999 and 2000, the Company acquired twelve businesses accounted for under the purchase method (the "Purchased Companies"). The consolidated financial statements include the operating results of the

Edgar Filing: COTELLIGENT INC - Form 10-K

Purchased Companies subsequent to their respective acquisition dates. Prior to March 31, 2000, the Company entered into a plan to divest its IT staff augmentation business. Accordingly, the accompanying financial data have been prepared to present as discontinued operations the Company's IT staff augmentation business for all periods presented.

- (2) On August 8, 2000, the Company contributed cash and its Philadelphia-based operation to a joint venture, bSmart.to LLC for 50% ownership and joint control. On December 6, 2000, the Company exercised its right to terminate the relationship under the joint venture agreement, and consequently, the net assets of the Philadelphia-based operation, including cash and another subsidiary of the joint venture, JAS Concepts, reverted back to the Company. Accordingly, during the period of August 8 through December 6, 2000, the Company's investment in the joint venture was accounted for on the equity method of accounting. Prior to August 8, 2000 and after December 6, 2000, the results of the Philadelphia-based operation were consolidated with the accounts of the Company.

14

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Cotelligent was formed in February 1993 to acquire, own and operate IT consulting services businesses. Cotelligent was a non-operating entity until 1996 when it first began to acquire businesses. The Company historically operated on an April 1 to March 31 fiscal year. In July 2000, the Company changed its fiscal year to December 31. Consequently, the Company's most recently completed fiscal period is a nine-month transition period ended December 31, 2000.

Prior to March 31, 2000, the Company entered into a plan to divest its IT staff augmentation business. Accordingly, the Selected Financial Data of Cotelligent has been restated to present as discontinued operations the Company's IT staff augmentation business for all periods presented.

On August 8, 2000, the Company contributed cash and its Philadelphia-based operation to a joint venture, bSmart.to LLC, for 50% ownership and joint control. On December 6, 2000, the Company exercised its right to terminate the relationship under the joint venture agreement, and consequently, the net assets of the Philadelphia-based operation, including cash and another subsidiary of the joint venture, JAS Concepts, reverted back to the Company. Accordingly, during the period of August 8 through December 6, 2000, the Company's investment in the joint venture was accounted for on the equity method of accounting. Prior to August 8, 2000 and after December 6, 2000, the results of the Philadelphia-based operation were consolidated with the accounts of the Company.

The Company derives substantially all of its revenues from IT consulting and outsourcing service activities. The majority of these activities are provided under time and materials billing arrangements, and revenues are recorded as work is performed. Revenues are directly related to the total number of hours billed to clients and the associated hourly billing rates. Hourly billing rates are established for each service provided and are a function of the type of work performed and the related skill level of the consultant. In addition, the Company is designing and marketing client server-based, web-enabled mobile management software for industries that have medium to large transient sales, field or delivery personnel. Revenues are directly related to the total number of users of the software and is recognized over the period in which the software is licensed to the client.

The Company's principal costs are professional compensation directly related to the performance of services and related expenses. Gross profits (revenues after

Edgar Filing: COTELLIGENT INC - Form 10-K

professional compensation and related expenses) are primarily a function of hours billed to clients per professional employee or consultant, hourly billing rates of those employees or consultants and employee or consultant compensation relative to those billing rates. Gross profits can be adversely impacted if services provided cannot be billed, if the Company is not effective in managing its service activities, if fixed-fee engagements (which historically have not constituted a significant portion of total revenues) are not properly priced, if consultant cost increases exceed bill rate increases or if there are high levels of un-utilized time (work activities not chargeable to clients or unrelated to client services) of full-time salaried service professional employees.

Operating income (gross profit less selling, general and administrative expenses) can be adversely impacted by increased administrative staff compensation and expenses related to streamlining or expanding the Company's business, which may be incurred before revenues or economies of scale are generated from such investment. Historically, a majority of the Company's revenues were generated from IT staff augmentation activities. Following the disposition of the IT staff augmentation business, the significant majority of the Company's revenues has been generated by solutions activities which require a higher level of selling, general and administrative infrastructure to generate revenues including research and development related to mobility solutions.

As a service organization, the Company responds to service demands from its clients. Accordingly, the Company has limited control over the timing and circumstances under which its services are provided. Therefore, the Company can experience volatility in its operating results from quarter to quarter. The operating results for any quarter are not necessarily indicative of the results for any future period.

15

RESULTS OF OPERATIONS

NINE MONTHS ENDED DECEMBER 31, 2000 COMPARED TO NINE MONTHS ENDED DECEMBER 31, 1999

Revenues. Revenues decreased in the nine months ended December 31, 2000 by \$12.0 million, or 15%, to \$66.3 million from \$78.3 million in the nine months ended December 31, 1999. The decrease was primarily due to three factors (1) a general reduction in demand for the Company's services, (2) a reorganization of the Company's sales force resulting in significant turnover of sales personnel and therefore, associated ramp-up time with the new evolving sales force, (3) discontinuation of revenues from the Company's Philadelphia-based operations from August 8, 2000 through December 6, 2000 while contributed to the bSmart.to joint venture and accounted for on the equity method of accounting. Partially offsetting the decrease in revenues was a 21% increase in the average billing rate to \$110.02 from \$91.17 in the comparable period.

Gross Profit. Gross profit decreased in the nine months ended December 31, 2000 by \$5.6 million, or 21%, to \$21.4 million from \$27.0 million in the nine months ended December 31, 1999. The decrease was primarily due to a general reduction in demand for the Company's services, a reorganization of the Company's sales force resulting in significant turnover of sales personnel, and the contribution of the Company's Philadelphia-based operations to the joint venture from August 8, 2000 through December 6, 2000. Gross profit as a percentage of revenues decreased due to lower utilization of salaried billable staff caused by a downturn in demand for services and the exclusion of the Philadelphia -based operations while contributed to the bSmart.to joint venture, which had inherently higher gross profit as a percentage of revenue. The decrease was partially offset by an increase in the average billing rate.

Edgar Filing: COTELLIGENT INC - Form 10-K

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased in the nine months ended December 31, 2000 by \$6.4 million, or 21%, to \$36.7 million from \$30.4 million in the nine months ended December 31, 1999. The increase was primarily due to increases in employee wages and benefits incurred in the Company's effort to move towards a centralized business model which required a more robust infrastructure and was put into place prior to management's decision to divest the majority of its IT staff augmentation business. In addition, the Company increased the provision for doubtful accounts receivable (primarily related to dot.com customers where venture capital funding has not materialized), paid termination benefits to employees at locations closed, and increased marketing efforts associated with the re-branding of the Company. Selling, general and administrative expenses as a percent of revenues were 55.4% for the nine months ended December 31, 2000 compared to 38.8% for the same period of the prior year. Although the Company was in the process of divesting of its discontinued operations during the nine months ended December 31, 2000, selling, general and administrative expenses did not decrease as the Company continued to provide the infrastructure and support for the divested operations.

Depreciation and Amortization of Goodwill. Depreciation and amortization increased in the nine months ended December 31, 2000 by \$0.6 million, or 26%, to \$3.0 million from \$2.4 million in the nine months ended December 31, 1999. The increase was primarily due to the spending on new state-of-the art technology equipment and related depreciation.

Impairment of long-lived assets. During the nine months ended December 31, 2000, the Company recognized an impairment of long-lived assets charge for \$41.5 million representing a \$37.4 million goodwill impairment charge and a \$4.1 million write-off of investment costs associated with the bSmart.to joint venture.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 121, the Company considers, among other factors, deterioration of operating performance or a general reduction in demand for services for a sustainable period to be indicators of potential impairment of long-lived assets. The Company has experienced a reduction in demand for its services. As a result of this reduction in demand for its services, the Company recognized a \$37.4 million impairment of goodwill during the nine months ended December 31, 2000 as the future undiscounted cash flows of certain of its long-lived assets were estimated to be less than the asset's related carrying value.

In December 2000, the Company exercised its right to terminate the bSmart.to joint venture when the Company believed that the wireless venture would require a substantial additional investment to remain viable and that making such an investment would not be in the best interest of the Company. As a result of termination of the joint venture, the Company recognized a \$4.1 million impairment of long-lived assets charge related to investment costs associated with the formation of and the investment in the bSmart.to joint venture.

16

Restructuring Charge. During the nine months ended December 31, 2000, the Company recognized a \$4.2 million restructuring charge resulting from a thorough review of its cost structure in order to streamline its operations commensurate with its revenue base. The charge includes provisions for severance of approximately 90 management and operating staff (\$1.1 million) as well as closure costs associated with a plan to consolidate or discontinue certain operating locations (\$3.1 million).

Other Income (Expense). Other income (expense) primarily consists of interest expense, net of interest income. Interest expense, net of interest income, was

Edgar Filing: COTELLIGENT INC - Form 10-K

\$0.4 million for the nine months ended December 31, 2000 as compared to interest expense, net of interest income of \$2.4 million for fiscal 1999. The decrease in net interest expense was due to the elimination of all obligations due under the Company's Credit Agreement and an earn-out agreement resulting from the Company's sale of the majority of the IT staff augmentation business on June 30, 2000 which reduced interest expense. The Company also earned additional interest income on the cash proceeds received from the sale on June 30, 2000 during the nine months ended December 31, 2000.

Provision (Benefit) for Income Taxes. The Company realized a benefit of \$9.3 million, or an effective tax rate of 15% of pre-tax income loss for the nine months ended December 31, 2000, compared to an income tax benefit of \$2.9 million, or an effective tax rate of 35% for the nine months ended December 31, 1999. The decrease in the effective tax rate reflects recognition of a valuation allowance against the current year benefit.

Income (Loss) from Discontinued Operations. Discontinued operations is comprised of operations associated with the IT staff augmentation segment of the Company's business and the gain on the sale of the discontinued operations.

The net income from discontinued operations of \$2.9 million for the nine months ended December 31, 2000 compares to a net loss of \$12.2 million for the nine months ended December 31, 1999. The increase in profitability was the result of one-time non-recurring charges in the nine months ended December 31, 1999 of \$20.0 million related to goodwill impairment and \$4.9 million for restructuring. These charges were offset by lower revenues in the nine months ended December 31, 2000 resulting from the sale of the majority of the discontinued operations on June 30, 2000.

The gain on sale of the discontinued operations of \$10.0 million for the nine months ended December 31, 2000 consists of three separate transactions including 1) the sale of the majority of the IT staff augmentation business on June 30, 2000 for proceeds of \$116.5 million and the assumption of approximately \$10.0 million in liabilities, 2) the sale of the IT staff augmentation operations in Orlando on July 14, 2000 for \$0.7 million and the assumption of \$0.4 million of assumed liabilities and 3) the sale of the international IT staff augmentation operation, Global Resources, for \$4.5 million, consisting of a secured promissory note bearing interest at 9.5% payable over five years.

YEAR ENDED MARCH 31, 2000 COMPARED TO YEAR ENDED MARCH 31, 1999

Revenues. Revenues increased during the year ended March 31, 2000 by \$16.8 million, or 19%, to \$105.6 million from \$88.7 million for during the year ended March 31, 1999. This increase was primarily due to a 13.6% increase in the average billing rate to \$91.17 from \$80.59 in the during the year ended March 31, 1999 and the full year effect of the inclusion of revenues of the companies acquired under the purchase method of accounting during fiscal during the year ended March 31, 1999 ("Fiscal Year 1999 Purchases").

Gross Profit. Gross profit increased during the year ended March 31, 2000 by \$2.6 million, or 8%, to \$35.6 million from \$33.0 million in the year ended March 31, 1999 primarily as a result of the 13.6% increase in the average billing rate and the full year effect of the inclusion of the Fiscal Year 1999 Purchases. Gross profit as a percentage of revenues decreased to 34% from 37% primarily due to lower utilization of salaried billable staff caused by a downturn in demand for services.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased during the year ended March 31, 2000 by \$16.3 million, or 63%, to \$41.9 million from \$25.6 million in the year ended March 31, 1999. The increase was primarily due to staff added to support company-wide growth anticipated at the beginning of the fiscal year, the development of the

Edgar Filing: COTELLIGENT INC - Form 10-K

eBusiness practice, the development and launch of a new marketing campaign and the full year effect of the inclusion of the Fiscal Year 1999 Purchases. Selling, general and administrative expenses increased as a percentage of revenues to 39.7% of revenues in during the year ended March 31, 2000 from 28.9% in the year ended March 31, 1999.

17

Depreciation and Amortization of Goodwill. Depreciation and amortization increased during the year ended March 31, 2000 by \$1.4 million, or 78%, to \$3.3 million from \$1.8 million in the year ended March 31, 1999 primarily due to the full year effect of amortization of the inclusion of the Fiscal Year 1999 Purchases together with an increase in amortization of goodwill related to the purchase of a business during the year ended March 31, 2000.

Other Income (Expense). Other income (expense) primarily consists of interest expense, net of interest income. Interest expense, net of interest income, was \$3.6 million for the year ended March 31, 2000 as compared to interest income, net of interest expense, of \$0.1 million for during the year ended March 31, 1999.

Provision (Benefit) for Income Taxes. The Company realized a benefit of \$4.7 million, or an effective tax rate of 35.0% of pre-tax income loss for the year ended March 31, 2000, compared to income tax expense of \$2.3 million, or an effective tax rate of 40.1% for the year ended March 31, 1999. The decrease in the effective tax rate, as compared to the prior year, reflects a reduced federal statutory rate and reduced state income taxes.

Income (Loss) from Discontinued Operations. Discontinued operations is comprised of operations associated with the IT staff augmentation segment of the Company's business. The net loss from discontinued operations of \$10.0 million during the year ended March 31, 2000 compares to net income of \$11.9 million for the year ended March 31, 1999. The decrease in profitability was the result of recognizing charges of \$20.0 million related to goodwill impairment, \$4.9 million for restructuring as well as an increase in selling, general and administrative expenses due to the full year effect of the inclusion of the Fiscal Year 1999 Purchases. These costs were partially offset by an income tax benefit of \$5.4 million to reflect the future tax benefits of net operating losses generated in the year ended March 31, 2000.

LIQUIDITY AND CAPITAL RESOURCES

The Company has historically financed its growth principally through cash flows from operations, borrowing under its credit facilities and the use the net proceeds from its public offerings.

Most recently, the Company maintained a credit facility ("Credit Line") with a consortium of banks (the "Lenders") under which it borrowed to fund working capital needs. The Credit Line included covenants under which the Company was in violation beginning in December 1999, yet the Lenders agreed to waive the covenant violations until the sale of the majority of the Company's IT staff augmentation business was completed. Accordingly, amounts due under the Credit Line were classified as current liabilities at March 31, 2000. On June 30, 2000, the Company completed the sale of the majority of the IT staff augmentation business for \$116.5 million and the assumption of certain liabilities. On June 30, 2000 the Company used a portion of the cash proceeds from the sale to pay off all obligations under the Credit Line and to pay an earn-out obligation due sellers of an acquired business. Upon settlement of all obligations under the Credit Line, the Credit Line was terminated. During the remainder of the nine months ended December 31, 2000, the Company maintained no credit facility.

Edgar Filing: COTELLIGENT INC - Form 10-K

Cash used in operating activities was \$9.8 million for the nine months ended December 31, 2000. The primary sources of liquidity for the Company going forward are the collection of its accounts receivable and the cash balances resulting from the sale of the discontinued operations. Total receivables were 82 and 78 days of quarterly revenue at December 31, 2000 and March 31, 2000, respectively (after reflecting a reclassification between accounts receivable and net assets of discontinued operations from amounts previously reported on the March 31, 2000 balance sheet). The Company looks to improve collections in the near term. Shortly after December 31, 2000, the Company completed a detailed forecast of the Company's operations that includes a plan to achieve a positive cash flow and return to profitability prior to December 31, 2001. Based on this forecast and the Company's operations through March 2001, management believes that the remaining cash on hand will provide adequate cash to fund its anticipated cash working capital needs at least through next year.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

During the year ended March 31, 2000 and through the quarter ended June 30, 2000, the Company was exposed to market risk related to changes in interest rates on its Credit Line. The interest rate for the Credit Line was tied to the Agent's prime rate and LIBOR. The Credit Line was terminated on June 30, 2000 upon the complete payment of all of the Company's obligations under the Credit Agreement.

18

RECENT ACCOUNTING PRONOUNCEMENTS

In 1998, the Financial Accounting Standards Board ("FASB") issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133 modified the method of accounting for derivative instruments. This statement is effective for periods beginning after June 15, 2000. The Company does not believe that adoption of SFAS No. 133 will have a material impact on its financial position, results of operations or disclosures.

In March 2000, the FASB released Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB No. 25," which provides clarification of Opinion No. 25 for certain issues, such as the determination of who is an employee, the criteria for determining whether a plan qualifies as a non-compensatory plan, the accounting consequence of various modifications to the terms of a previously fixed stock option or award, and the accounting for an exchange of stock compensation awards in a business combination. The Company believes that its practices are in conformity with this guidance, and therefore Interpretation No. 44 will not have a material impact on its financial statements.

SUBSEQUENT EVENTS

On March 9, 2001 the Company notified all option holders under the Long-Term Incentive Plan of a stock option exchange program. The exchange program was developed as a way to bring the option exercise prices back in line with the market price for the Company's Common Stock. Completely voluntary on the part of the option holder, the program allows the option holder to exchange existing stock option grants for a new option grant. Election to participate in the program had to be made by March 16, 2001. New option grants will be issued, with the exercise price of the new grant based on the closing price of the Company's Common Stock, on September 21, 2001.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To Cotelligent, Inc.:

We have audited the accompanying consolidated balance sheets of Cotelligent, Inc. and subsidiaries as of December 31, 2000 and March 31, 2000, and the related consolidated statements of operations, stockholders' equity and cash flows for the nine months ended December 31, 2000, and for each of the two years in the period ended March 31, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Cotelligent, Inc. and subsidiaries as of December 31, 2000 and March 31, 2000, and the results of their operations and their cash flows for the nine months ended December 31, 2000, and for each of the two years in the period ended March 31, 2000, in conformity with accounting principles generally accepted in the United States.

COTELLIGENT, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (In thousands, except share data)

NOTE 1 - BUSINESS ORGANIZATION

Cotelligent, Inc. ("Cotelligent" or the "Company"), a Delaware corporation, was formed to acquire, own and operate software consulting businesses specializing in providing information technology ("IT") consultants on a contract basis and consulting and outsourcing services to businesses with complex IT operations. The Company has acquired 22 IT consulting businesses. These financial statements include the accounts of Cotelligent, Inc. and its subsidiaries.

During the fiscal year ended March 31, 2000, the Company was organized in two practice groups, Technology Solutions and Professional Services (also known as its IT staff augmentation business), and operated across the United States along with international consultant recruiting offices in Brazil and the Philippines.

Edgar Filing: COTELLIGENT INC - Form 10-K

Prior to March 31, 2000, the Company entered into a plan to divest its IT staff augmentation business. Accordingly, the accompanying consolidated financial statements and related footnotes have been prepared to present as discontinued operations the Company's IT staff augmentation business for all periods presented.

In July 2000, the Company changed its fiscal year end to December 31 from March 31. Consequently, the Company's most recently completed fiscal period is a nine-month transition period ended December 31, 2000.

The Company has suffered significant operating losses as well as negative operating cash flows in the last two fiscal periods and continues to be subject to certain risks common to companies in this industry. These uncertainties include the availability of financing, the retention of and dependence on key individuals, the affects of intense competition, the ability to develop and successfully market new product and service offerings, and the ability to streamline operations and increase revenues. There can be no assurance the Company will be profitable in the future.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements and related notes to the consolidated financial statements include the accounts and results of Cotelligent, Inc. and its subsidiaries. In addition, the consolidated financial statements and related notes include those companies acquired utilizing the purchase method of accounting from their respective acquisition dates and give retroactive effect to the results of companies acquired utilizing the pooling-of-interests method of accounting for all periods presented. All significant intercompany transactions and accounts have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of trade accounts receivable. Receivables arising from services provided to clients are not collateralized and accordingly, the Company performs ongoing credit evaluations of its clients to reduce the risk of loss and provides a reserve for potentially uncollectible accounts.

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

Edgar Filing: COTELLIGENT INC - Form 10-K

Property and Equipment

Property and equipment are stated at cost. Depreciation, including amounts recorded for property and equipment acquired under capitalized leases, is provided over the estimated useful lives of the respective assets (generally ranging from three to ten years) on a straight-line basis. Leasehold improvements are amortized over the shorter of the lease term or the estimated useful life of the respective assets.

Goodwill

Goodwill represents the excess of cost over fair value of net tangible assets acquired through acquisitions and is being amortized on a straight-line basis over the period of 30 years. On a periodic basis, management reviews goodwill to assess potential impairment. Impairment is measured by comparing the undiscounted cash flows expected to be generated by the underlying asset to the asset's carrying value. If the undiscounted cash flow is less than the carrying value, an impairment charge is recognized and the asset is reduced to its fair value.

Investments

Investments in other businesses where ownership is less than 20% are accounted for on the cost basis of accounting. Investments where ownership is between 20% and 50%, and where the Company has the ability to exercise significant influence, are accounted for on the equity method of accounting.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash, short-term accounts receivable and accounts payable for which current carrying amounts are equal to or approximate fair market value. Additionally, interest rates on outstanding debt are at market rates for debt with similar terms and average maturities; therefore, the carrying value of debt approximates its fair value.

Revenue Recognition

Revenues pursuant to time and materials contracts are generally recognized as services are performed and collectibility is determined. Revenues pursuant to fixed-fee contracts are generally recognized as services are rendered on the percentage-of-completion method of accounting based on labor hours incurred to total estimated labor hours to complete. Revenues exclude reimbursable expenses charged to and collected from clients.

Cost of Services

Cost of services expenses consist primarily of compensation and benefits of Cotelligent's employees engaged in the delivery of consulting services.

Income Taxes

The Company accounts for income taxes using an asset and liability approach requiring the recognition of deferred tax assets and liabilities for the tax consequences of temporary differences by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities.

Certain businesses acquired by the Company elected to be treated as S corporations for federal and state income tax purposes prior to acquisition by the Company. Accordingly, any tax liabilities of these businesses were the

Edgar Filing: COTELLIGENT INC - Form 10-K

responsibility of the respective stockholders. These S corporation elections terminated upon merger with Cotelligent.

Return of Common Stock

The return of Common Stock previously issued to acquire purchased companies is recorded at the market price of the Common Stock on the day the shares were returned and resulted in a decrease to both goodwill and stockholders' equity.

27

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (In thousands, except share data)

Earnings Per Share

Basic earnings per share was calculated by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share includes the impact of common stock options outstanding, when dilutive.

Discontinued Operations

Discontinued operations consist of the Company's IT staff augmentation business. The Company entered into a plan to divest of these operations prior to March 31, 2000. The operating results and the net assets of these operations are reflected in the accompanying consolidated financial statements as discontinued operations and net assets of discontinued operations, respectively.

Recent Accounting Pronouncements

In 1998, the Financial Accounting Standards Board ("FASB") issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133 modified the method of accounting for derivative instruments. This statement is effective for financial statements for periods beginning after June 15, 2000. The Company does not believe that adoption of SFAS No. 133 will have a material impact on its financial position, results of operations or disclosures.

In March 2000, the FASB released Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB No. 25," which provides clarification of Opinion No. 25 for certain issues, such as the determination of who is an employee, the criteria for determining whether a plan qualifies as a non-compensatory plan, the accounting consequence of various modifications to the terms of a previously fixed stock option or award, and the accounting for an exchange of stock compensation awards in a business combination. The Company believes that its practices are in conformity with this guidance, and therefore Interpretation No. 44 will not have a material impact on its financial statements.

Reclassifications

Certain reclassifications have been made in the prior years' financial statements to conform to the presentation in the current period.

NOTE 3 - BUSINESS COMBINATIONS

The Company has acquired 22 IT consulting businesses over the four fiscal years ended March 31, 2000. The accompanying financial statements include the

Edgar Filing: COTELLIGENT INC - Form 10-K

operating results of five purchase acquisitions and three pooling-of-interests acquisitions made since 1997. The remainder of the 22 acquisitions have been discontinued, pursuant to the Company's divestiture of the IT staff augmentation business.

During the year ended March 31, 2000, Cotelligent acquired one company accounted for under the purchase method for aggregate consideration of \$2,800 (100,758 shares issued at fair market value of \$500 and \$2,300 of cash). Total assets acquired related to this acquisition were \$1,481 which resulted in the recognition of goodwill of \$2,085. During the year ended March 31, 1999, Cotelligent acquired three companies accounted for under the purchase method for aggregate consideration of \$25,323 (324,657 shares issued at fair market value of \$5,627 and \$19,696 of cash). Total assets acquired related to these acquisitions were \$5,796 and resulted in the recognition of \$27,192 of goodwill. The results of these acquisitions have been included in the Company's results from their respective acquisition dates.

Prior to December 31, 2000, the goodwill was amortized over a 30-year period. On December 31, 2000, the Company recognized an impairment charge which reduced the remaining goodwill to zero (see Note 8).

	13,633
Less: Accumulated depreciation.....	(6,872)

Total property and equipment.....	\$ 6,761
	=====

Edgar Filing: COTELLIGENT INC - Form 10-K

Depreciation expense of property and equipment for the nine months ended December 31, 2000 and the year ended March 31, 2000 was \$1,839 and \$1,590, respectively.

Note 6 - Investments

During the nine months ended December 31, 2000, the Company made two investments as follows:

Investment in White Horse Interactive. On July 18, 2000, the Company paid \$2,000 to acquire a 35% ownership interest in White Horse Interactive, an integrated media agency. The Company uses the equity method of accounting for this investment and recorded equity income of \$20 for the nine months ended December 31, 2000.

Investment in bSmart.to LLC. On August 8, 2000, the Company executed a definitive joint venture agreement with bSmart.to Technologies, Inc. The Company contributed: (1) cash of \$5,000, of which \$2,500 was paid directly to the joint venture and \$2,500 was distributed to the developer of certain technology, and (2) its Philadelphia-based IT solutions staff and ASP data center and, accordingly, reclassified \$1,200 of working capital and property and equipment as well as \$10,073 of goodwill, in exchange for a 50% interest in the joint venture. In addition, the Company incurred approximately \$1,500 in transaction costs that were capitalized as a part of its investment in the joint venture. In connection with the investment in the joint venture with bSmart.to Technologies, Inc., the Company issued to and received from bSmart.to Technologies, Inc. warrants for the purchase of common shares. Accordingly, the Company recognized an investment of \$900 for the warrants in bSmart.to Technologies, Inc. stock received, and a corresponding amount in additional paid-in capital for the warrants issued on the Company's stock.

On December 6, 2000, the Company exercised its right under the joint venture agreement to terminate the relationship after determining the joint venture was not proceeding along the lines initially envisioned and believing the venture would require substantial additional investment. As a result, the Company regained complete ownership of the Philadelphia-based operation, including \$1,400 in cash and more working capital than originally contributed, and consequently recognized a charge of \$4,107 to reduce the investment in the joint venture to its realizable value. The charge is included in Impairment of long-lived assets in the Statement of Operations for the nine months ended December 31, 2000. In addition, the warrants exchanged between the venturers in connection with the formation of the joint venture were cancelled.

During the period August 8, 2000 through December 6, 2000 the Company used the equity method of accounting for this investment and recorded an equity loss of \$33 for the nine months ended December 31, 2000. The Company commenced consolidating the results from the Philadelphia-based operation upon regaining complete ownership on December 6, 2000.

30

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

NOTE 7 - CREDIT FACILITIES

Edgar Filing: COTELLIGENT INC - Form 10-K

The Company maintained a credit facility ("Credit Line") with a consortium of banks (the "Lenders") up through June 30, 2000. The Credit Line included covenants under which the Company was in violation beginning December 1999, yet the Lenders agreed to waive the covenant violations until the sale of the majority of the Company's IT staff augmentation business was completed. Accordingly, amounts due under the Credit Line were classified as current liabilities at March 31, 2000. On June 30, 2000, the Company completed the sale of the majority of the IT staff augmentation business for \$116,495 and the assumption of certain liabilities. On June 30, 2000 the Company used a portion of the cash proceeds from the sale to pay off all obligations under the Credit Line and to pay an earn-out obligation related to an acquired business. Upon settlement of all obligations under the Credit Line, the Credit Line was terminated. During the remainder of the nine months ended December 31, 2000, the Company maintained no credit facility.

	DECEMBER 31, 2000

Total long-term debt.....	\$1,0

Note 8 - Impairment of Long-Lived Assets

During the nine months ended December 31, 2000, the Company recognized an impairment of long-lived assets charge for \$41,478, representing a \$37,371 goodwill impairment charge and a \$4,107 write-off of investment costs associated with the bSmart.to joint venture (see Note 6).

In accordance with Statement of Financial Accounting Standards (SFAS) No. 121, the Company considers, among other factors, deterioration of operating performance or a general reduction in demand for services for a sustainable period to be indicators of potential impairment of long-lived assets. The Company has experienced a reduction in demand for its services. As a result of this reduction in demand for its services, the Company recognized a \$37,371 impairment of goodwill during the nine months ended December 31, 2000 as the future undiscounted cash flows of certain of its long-lived assets were estimated to be less than the asset's related carrying value.

Note 9 - Restructuring Programs

In June 1999, as part of the Company's reorganization into practice groups, the Company identified opportunities to align its operating structure by closing certain of its redundant facilities and rationalizing headcount to conform to the Company's new operating structure. Accordingly, the Company adopted a restructuring plan, which resulted in a pre-tax restructuring charge of \$4,920. The charge included provisions for severance of approximately 60 management and

Edgar Filing: COTELLIGENT INC - Form 10-K

operating staff (\$3,510) as well as closure costs related to a plan of consolidating certain operating locations (\$1,410). The change was originally recorded as an operating expense in June 1999. Upon the Company's decision to discontinue its IT staff augmentation segment the amount was reclassified to discontinued operations, as all charges related to severance or other activities of the discontinued operations (see Note 11).

31

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

In December 2000, as part of the Company's efforts to streamline its operations commensurate with its revenue base, the Company identified opportunities to reduce its cost structure by reducing headcount and closing certain operating facilities to conform to the Company's new operating structure. Accordingly, the Company adopted a restructuring plan in accordance with Staff Accounting Bulletin No. 100, "Restructuring and Impairment Charges", which resulted in a pre-tax restructuring charge of \$4,200 during the nine months ended December 31, 2000. The charge includes provisions for severance of approximately 90 management and operating staff (\$1,100) as well as closure costs associated with a plan to consolidate or dispose of certain locations including the write-down of associated property and equipment (\$3,100).

The following summarizes the activity and balances in each restructuring program from inception through December 31, 2000:

	June 1999 Restructuring Program		December 2000 Restructuring Program	
	Severance	Facilities Closure	Severance	Facilities Closure
Restructuring charge, June 1999...	\$ 3,510	\$1,410	\$ -	\$ -
Spending and write-downs.....	(2,636)	(409)	-	-
Balance, March 31, 2000.....	874	1,001	-	-
Restructuring charge, December 2000.....	-	-	1,100	3,100
Spending and write-downs.....	(351)	(498)	(200)	(2,000)
Release of excess restructuring liability.....	(466)	(324)	-	-

	-----	-----
Total provision (benefit) for income taxes	\$ (9,334)	\$ (4,660)
	=====	=====

The tax benefits associated with nonqualified stock options reduce taxes currently payable as shown above to zero for the nine months ended December 31, 2000, \$38 for the year ended March 31, 2000, and \$140 for the year ended March 31, 1999. Such tax benefits are credited to capital when realized. In addition to the above benefit recorded on continuing operations,

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

the Company recorded a tax provision associated with discontinued operations and the gain on the sale of its discontinued operations of \$16,020 for the nine months ended December 31, 2000.

Significant components of deferred tax assets and liabilities of the Company are as follows:

	December 31, 2000	March 31, 2000

Cash to accrual.....	(8)	
Capital Lease.....	(921)	
Goodwill.....	-	
Other.....	(506)	
	-----	-----
Total Deferred Tax Liabilities.....	(1,435)	
	-----	-----
Net Deferred Tax Assets.....	\$ -	\$
	=====	=====

During the year ended March 31, 2000, the Company decided to dispose of its IT staff augmentation business and recorded a deferred tax asset for \$7,190 on the books of its discontinued operations (see Note 11). Upon the ultimate sale of the majority of these operations during the nine months ended December 31, 2000, the Company reclassified this deferred tax asset to continuing operations. The Company also had approximately \$3,500 of net operating loss carryforwards for U.S. federal and state income tax purposes that will begin expiring in the 2020 tax year.

At December 31, 2000, the Company has fully reserved for the tax benefit of the \$7,190 timing difference, as well as all net operating losses and other net deferred tax assets generated from continuing operations due to management's uncertainty of their realizability. The Company will continue to assess the adequacy of and need for the valuation allowance and to the extent it is determined that such allowance is no longer required, the tax benefit of the remaining net deferred tax assets will be recognized in the future.

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

The Company's effective income tax rate for its continuing operations varied from the U.S. federal statutory tax rate as follows:

	Nine Months Ended	
	December 31,	
	2000	
	-----	-----
U.S. federal statutory rate.....	(34.0%)	(3
State income taxes, net of federal benefit.....	(2.0)	(

Edgar Filing: COTELLIGENT INC - Form 10-K

Non-deductible acquisition costs.....	15.0	
Tax exempt income.....	-	
Change in valuation allowance.....	4.9	
Other,.....	1.6	
	-----	-----
Effective tax rate.....	(14.5%)	(3)
	=====	=====

The Company's effective tax rate for its continuing operations for the nine months ended December 31, 2000 was significantly impacted by the write-down of non-deductible goodwill during the fiscal period, as well as additional valuation allowances established on its deferred tax assets.

The Company's effective tax rate for its combined continuing and discontinued operations of 18.8% represents the Company's full provision for taxes on the activities of its discontinued operations, without fully benefiting the operating losses generated by its continuing operations through December 31, 2000.

NOTE 11 - DISCONTINUED OPERATIONS

Prior to March 31, 2000, the Company entered into a plan to divest its IT staff augmentation business. The following financial data reflects the net assets at December 31, 2000 and March 31, 2000 and the summary of operating results for the nine months ended December 31, 2000 and for the years ended March 31, 2000 and 1999 for these discontinued operations.

	=====	=====

On June 30, 2000, the Company sold the majority of its IT staff augmentation business for \$116,495 and the assumption of certain liabilities totaling approximately \$10,000. The Company agreed to assist the acquiring company for up to one year following the close of the sale, which includes maintaining certain computer systems. The Company also took responsibility and has reserves for certain aged receivables greater than 90 days. In addition, Cotelligent is still the lessee under certain leases on property.

On July 14, 2000, the Company sold its staff augmentation operations in Orlando for a cash payment of \$650 and approximately \$385 of assumed liabilities. The Company has written down the remaining net assets related to this sale, including goodwill, to zero during the quarter ended June 30, 2000.

On October 31, 2000, the Company sold its international IT staff augmentation business, Global Resources, for a secured promissory note of \$4,459 bearing interest at 9.5% and payable over five years. Management has written down the net assets related to this operation, including goodwill, to zero during the quarter ended June 30, 2000 based on the preliminary estimate of the entity's net realizable value prior to the sale.

The Company anticipates that it will dispose of the remaining IT staff augmentation business in discontinued operations prior to December 31, 2001. The Company has written down the remaining value of the net assets, including goodwill, of this discontinued business to zero based on management's estimate of the entity's on-going net realizable value during the quarter ended June 30, 2000.

The net gain on the disposal of the IT staff augmentation businesses was \$9,963

Edgar Filing: COTELLIGENT INC - Form 10-K

for the nine months ended December 31, 2000.

35

Thereafter.....	33

Total minimum lease payments.....	11,461
Less: Sublease payment due Cotelligent.....	(2,377)

Net minimum lease payments.....	\$ 9,084
	=====

Rental expense under these leases for the nine months ended December 31, 2000 and the years ended March 31, 2000 and 1999 was \$3,061, \$3,126 and \$2,418, and respectively.

NOTE 13 - EMPLOYEE BENEFIT PLANS

Edgar Filing: COTELLIGENT INC - Form 10-K

Long-Term Incentive Plan

The Company maintains the 1998 Long-Term Incentive Plan (the "1998 Plan") and the 2000 Long-Term Incentive Plan (the "2000 Plan"). The 1998 Plan was adopted as a replacement to the Company's 1995 Long-Term Incentive Plan (the "1995 Plan"). No further awards may be granted under the 1995 Plan, although awards granted prior to the adoption of the 1998 Plan remain outstanding under the 1995 Plan in accordance with their terms. The 2000 Plan is similar to the 1998 Plan, except that (i) awards under the 2000 Plan are to be made primarily to employees who are not officers or directors, (ii) the 2000 Plan does not contain a limit as to the number of shares that may be subject to outstanding awards granted either individually or in the aggregate (whereas the 1998 Plan contains 750,000 per individual annual limit, and aggregate limit of 18% of total outstanding shares), and (iii) incentive stock options (ISOs) cannot be granted under the 2000 Plan. Of the non-qualified options granted to date, a majority are generally exercisable beginning one year from the date of the grant in cumulative

36

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except share data)

yearly amounts of 25% to 33% of the shares under option and generally expire ten years from the date of the grant. Under the provisions of the plans, stock-based awards are granted at terms and prices determined by the Long-Term Incentive Plan Committee as defined in each plan.

A summary of option transactions is described in the table below. All options described below are non-qualified and were granted with exercise prices no less than the fair market value of the underlying stock on the date of the grant, except for options issued and exchanged on January 4, 1999 in connection with one of the Company's acquisitions. The difference between the grant price and the market value of these options was recorded as purchase price.

Exercisable options at December 31, 2000, March 31, 2000 and 1999 were 1,004,512, 943,571 and 1,061,258 at exercise prices between \$1.54 and \$29.00, and weighted average exercise prices of \$13.72, \$15.79 and \$15.43, respectively.

The Company has adopted the disclosure only provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation," and the Company continues to apply the provisions of APB Opinion 25 and

37

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (In thousands, except share data)

FASB interpreted No. 44 in accounting for its employee stock option plans. The fair value of these options was estimated at the date of grant using a Black-Scholes option pricing ("Black-Scholes") model with the following weighted average assumptions for the nine months ended December 31, 2000 and the years ended March 31, 2000 and 1999, respectively: (1) risk-free interest rates of 4.77%, 6.04% and 4.65%, (2) a dividend yield of 0%, (3) volatility factors of the expected market price of the Company's common stock of 106%, 89% and 58% and (4) a weighted average expected life of 4.61 years, 4.8 years and 4.8 years. The weighted average fair values of options granted during the nine months ended December 31, 2000 and the years ended March 31, 2000 and 1999 were \$2.74, \$3.62 and \$10.37 per share, respectively.

The Black-Scholes model was developed for use in estimating the fair value of traded options that have no vesting restriction and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions, including the expected volatility of the Company's Common Stock. In management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its employee stock options because the Company's employee stock options have characteristics significantly different from those of traded options and because changes in the subjective

Edgar Filing: COTELLIGENT INC - Form 10-K

input assumptions can materially affect the fair value estimated.

For purposes of pro forma disclosure, the estimated fair value of options is amortized to expense over the options' vesting period. If the Company had elected to recognize compensation expense for options granted during the nine months ended December 31, 2000 and the years ended March 31, 2000 and 1999 based on the fair value as described in SFAS No. 123, net income (loss) and earnings per share would have been changed to the pro forma amounts indicated below.

	NINE MONTHS ENDED DECEMBER 31, 2000		YEAR ENDED MARCH 31, 2000		REVENUE
	As Reported	Pro Forma	As Reported	Pro Forma	
Income (loss) from continuing operations	\$ (55,036)	\$ (61,166)	\$ (8,653)	\$ (12,771)	\$

Net income (loss)	(2.77)	(3.17)	(1.30)	(1.59)	
Diluted --					
Income (loss) from continuing operations	(3.61)	(4.02)	(0.60)	(0.89)	
Net income (loss)	(2.77)	(3.17)	(1.30)	(1.59)	

Employee Stock Purchase Plan

The Company's Employee Stock Purchase Plan (the "ESPP") allows eligible employees to purchase shares of the Company's Common Stock at a price equal to 85% of the lower of the closing market price on the first or last trading day of the ESPP's quarter. A total of 950,000 shares of Common Stock have been reserved for issuance under the ESPP. During nine months ended December 31, 2000 and the years ended March 31, 2000 and 1999 employees purchased 101,719, 318,802 and 71,689 shares for aggregate proceeds to the Company of \$395, \$1,251 and \$1,080, respectively.

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

401(k) Plan

The Company sponsors the Cotelligent, Inc. 401(k) Retirement Saving Plan (the "401(k) Plan") for the benefit of all employees upon date of hire. The 401(k) Plan is funded by employee payroll deductions. The Company has the option to

Edgar Filing: COTELLIGENT INC - Form 10-K

contribute to the 401(k) Plan on the employee's behalf, and on October 1, 1999, it commenced a matching program whereby the Company contributes 25% of an employee's first 4% of salary deferral to the 401(k) Plan. Matching contributions vest over a four-year period. The Company contributed \$152 and \$503, respectively, in connection with the matching program during the nine months ended December 31, 2000 and the year ended March 31, 2000. The Company did not make contributions to the 401(k) Plan for the fiscal year ended March 31, 1999.

Leveraged Stock Purchase Plan

In 1999, the stockholders approved the Cotelligent, Inc. 1999 Leveraged Stock Purchase Plan (the "LSPP") which authorizes the purchase of shares of Common Stock by eligible employees who are selected by the Compensation Committee of the Board of Directors (the "Committee") to participate in the LSPP on terms and conditions determined by the Committee.

Subsequent to the LSPP's inception through December 31, 2000, 1,741,842 shares were issued under the LSPP resulting in notes receivable from stockholders for \$6,368, which is included as a component of stockholders' equity. The notes receivable (1) include varying rates of interest; (2) are secured by the pledge of Cotelligent stock issued; (3) are full recourse as to the employee, except that in the case of death, disability, termination by the Company without cause or a change of control of the Company, where recourse against the employees is limited to the pledged stock; and (4) have a term of five years from date of issuance, provided that if the stock is sold, the loan shall be prepaid, and if the stock is not sold, the loan may not be prepaid. The stock issued under the LSPP is restricted from sale in the open market for a period of two years from the date of issuance, provided, however, that in the case of death, disability, termination by the Company without cause or change of control of the Company, the stock may be sold and the proceeds used to repay the loan.

NOTE 14 - STOCKHOLDERS' EQUITY

Preferred Stock

The Company has authorized 500,000 shares of one class of \$0.01 par value Preferred Stock. The Board of Directors has authority, without further vote or action by stockholders, to issue the shares, fix the number of shares and change the number of shares constituting any series, and to provide for or change the voting powers, designations, preferences and relative, participating, optional or other special rights, qualifications, limitations or restrictions thereof, including dividend rights (and whether dividends are cumulative), dividend rates, terms of redemption (including sinking fund provisions), a redemption price or prices, conversion rights and liquidation preferences of the shares constituting any class or series of the Preferred Stock. No Preferred Stock was outstanding at December 31, 2000 or March 31, 2000. The Company has no current plans to issue any shares of Preferred Stock.

Common Stock

The Company has authorized 100,000,000 shares of one class of \$0.01 par value Common Stock. The holders of Common Stock are entitled to one vote for each share on all matters voted upon by stockholders, including the election of the directors. At December 31, 2000 and March 31, 2000, there were respectively 15,349,630 and 15,065,400 shares of Common Stock outstanding. In May 1998, the Company registered 4 million shares of its Common Stock to be used in connection with merger and acquisition activities. The Company repurchased 238,400 and 1,761,600 shares of its Common Stock during the fiscal years ended March 31, 2000 and 1999, respectively. In addition, the Company negotiated the return of 469,209 shares of Common Stock from the original seller of its Orlando operations pursuant to terms in the original purchase agreement.

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

Anti-takeover Provisions

The Company has a stockholder rights plan in effect (the "Rights Plan"). Under the terms of the Rights Plan, the holders of the Common Stock received one preferred share purchase right, (each, a "Right") as a dividend for each share of Common Stock held as of the close of business on September 24, 1997. Each Right entitles the holder to buy 1/10,000 of a share of Series A Junior Preferred Stock of the Company at an exercise price of \$90.00. Further, each Right gives the holder the right to buy Common Stock of the Company having twice the value of the exercise price of the Rights if a person or group acquires beneficial ownership of 20% or more of the Common Stock or commences a tender or exchange offer that would result in such a person or group owning 20% or more of the Common Stock. In addition, the Board of Directors of the Company is empowered to issue up to 500,000 shares of preferred stock, and to determine the price, rights, preferences and privileges of such shares, without any further stockholder action. The existence of the Rights Plan and this "blank check" preferred stock may have the effect of delaying, discouraging, inhibiting, preventing or rendering more difficult an attempt to obtain control of the Company by means of a tender offer, merger, proxy contest or otherwise. In addition, this "blank check" preferred stock, or any issuance thereof, may have an adverse effect on the market price of the Common Stock. The Company's Certificate of Incorporation provides for a "staggered" Board of Directors, which may also have the effect of inhibiting a change of control of the Company and may have an adverse effect on the market price of the Common Stock.

NOTE 15 - EARNINGS PER SHARE

Earnings per share is as follows:

	FOR THE NINE MONTHS ENDED DECEMBER 31, 2000	
	INCOME	SHARES
BASIC/DILUTED EARNINGS (LOSS) PER SHARE-		
Loss from continuing operations	\$ (55,036)	15,230,969
Income from discontinued operations	12,852	15,230,969
Net loss applicable to common stockholders	\$ (42,184)	15,230,969

The effect of options issued to directors and employees has not been considered in the diluted earnings per share calculation due to the loss position of the Company's continuing operations for the nine months ended December 31, 2000. As such, there is no difference between the basic and diluted loss per share calculations.

Edgar Filing: COTELLIGENT INC - Form 10-K

FOR THE YEAR ENDED MARCH 31, 2000

	INCOME	SHARES
BASIC/DILUTED EARNINGS (LOSS) PER SHARE-		
Loss from continuing operations	\$ (8,653)	14,298,693
Loss from discontinued operations	(9,990)	14,298,693

Net loss applicable to common stockholders	\$ (18,643)	14,298,693

The effect of options issued to directors and employees has not been considered in the diluted earnings per share calculation due to the loss position of the Company's continuing operations for the year ended March 31, 2000. As such, there is no difference between the basic and diluted loss per share calculations.

40

COTELLIGENT, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands, except share data)

FOR THE YEAR ENDED MARCH 31, 2000

	INCOME	SHARES
BASIC EARNINGS (LOSS) PER SHARE-		
Income from continuing operations	\$ 3,390	14,078,068
Income from discontinued operations	11,926	14,078,068

Net income available to common stockholders	\$15,316	14,078,068
DILUTED EARNINGS (LOSS) PER SHARE-		
Income from continuing operations	\$ 3,390	14,236,786
Income from discontinued operations	11,926	14,236,786

Net income available to common stockholders	\$15,316	14,236,786
Plus assumed conversions		
	\$15,316	14,236,786

Share amounts used in the diluted earnings per share calculation reflect the effect of options issued to directors and employees.

Options to purchase common shares of 2,198,716, 1,544,843 and 1,255,057 were excluded from the computation of diluted earnings per share for the nine months ended December 31, 2000 and for the fiscal years ended March 31, 2000 and 1999, respectively, as the options' exercise price was greater than the market price of the common shares for the respective periods.

NOTE 16 - COMMITMENTS AND CONTINGENCIES

Edgar Filing: COTELLIGENT INC - Form 10-K

Employment Agreements

Certain executive officers and certain principals of the Company's subsidiaries have entered into employment agreements with the Company which contain provisions for compensation upon termination without cause or changes in control. Pursuant to such employment agreements, each such officer is eligible to earn bonus compensation payable out of a bonus pool determined by the Board of Directors or its Compensation Committee. Bonuses will be determined by measuring, among other objective and subjective measures, such officer's performance, the performance of the local operation for which such officer has primary responsibility and the Company's performance against targets.

Legal Matters

The Company is involved in various legal matters in the normal course of business. In the opinion of management, these matters are not anticipated to have a material adverse effect on the financial position or results of operations or cash flows of the Company.

NOTE 17 - SEGMENT INFORMATION

During the year ended March 31, 2000, the Company streamlined its operations into two operating segments, Professional Services, also known as the IT staff augmentation business, and Technology Solutions. The Company subsequently discontinued the IT staff augmentation business. Accordingly, assets, liabilities, results of operations and cash flows have been segregated and reported as discontinued operations for all periods presented and previously reported results have been restated (see Note 11). Within the Technology Solutions segment, the Company continues to provide consulting services including custom application software development and outsourcing solutions, solutions in conjunction with national partnerships with leading enterprise application software companies, network design, intranet and internet application design

NOTE 19 - RELATED PARTY TRANSACTIONS

Notes Receivable. The Company has notes receivable from certain Officers of the Company, primarily to accommodate relocation assistance and to cover margin calls made on brokerage accounts that are secured by shares in the Company. The notes include varying rates of interest and terms of repayment. The notes are due on demand and the notes covering the margin calls are subject to a repayment schedule indexed to the market price of the Company's Common Stock.

NOTE 20 - EVENT SUBSEQUENT TO DATE OF AUDITORS' REPORT

On March 9, 2001 the Company notified all option holders under the Long-Term Incentive Plan of a stock option exchange program. The exchange program was developed as a way to bring the option exercise prices back in line with the market price for the Company's Common Stock. Completely voluntary on the part of the option holder, the program allows the option holder to exchange existing stock option grants for a new option grant. Election to participate in the program must be made by March 16, 2001. New option grants will be issued, based on the closing price of the Company's Common Stock on September 21, 2001.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

43

PART III

Item 10 - Directors and Executive Officers of the Registrant.

The information called for by Item 10 with respect to identification of directors and executive officers of the Company is incorporated herein by reference to the material under the captions "Election of Directors" and "Other Executive Officers of the Company" in the Company's Proxy Statement for its 2001 Annual Meeting of Stockholders which will be filed with the Securities and Exchange Commission within 120 days after the end of the Company's fiscal year (the "Proxy Statement").

ITEM 11. EXECUTIVE COMPENSATION.

The information called for by Item 11 with respect to executive compensation is incorporated herein by reference to the material under the caption "Executive Compensation" in the Proxy Statement.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

The information called for by Item 12 with respect to security ownership of certain beneficial owners and management is incorporated herein by reference to the material under the caption "Security Ownership of Certain Beneficial Owners and Management" in the Proxy Statement.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The information called for by Item 13 with respect to certain relationships and related transactions is incorporated herein by reference to the material under

Edgar Filing: COTELLIGENT INC - Form 10-K

the caption "Certain Transactions" in the Proxy Statement.

44

PART IV

Item 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K.

(a) The following documents are filed as a part of the Annual Report on Form 10-K:

1. Financial Statements -----	Form 10-K Page No. -----
Report of Independent Public Accountants	20
Consolidated Balance Sheets at December 31, 2000 and March 31, 2000	21
