The Nominating Committee, composed at the end of the last fiscal year of Messrs. Shareholders who wish to nominate persons for election to the Board of Directors must comply with the provisions of the Company's Bylaws described below under "Nominations and Proposals for Next Annual Meeting."

Compensation of Directors

Each director who is not an employee of the Company is reimbursed for expenses incurred in attending meetings of the Board of Directors or a committee thereof and receives an annual retainer (paid on a quarterly basis) of \$10,000, plus a fee of \$1,000 for each meeting of the Board attended and \$500 for each meeting of a committee attended.

In addition, each non-employee director of the Company receives an option for 5,000 shares of Common Stock on the date of his or her appointment and an option for 5,000 shares of Common Stock on the date of each Annual Meeting of Shareholders of the Company. If there are insufficient shares of Common Stock available to make the automatic director awards under the 2000 Stock Option Plan on the applicable date, then all directors who are entitled to a grant on that applicable date will share ratably the number of shares then available under the 2000 Stock Option Plan. Those directors will have no right to receive a grant in the future with respect to any deficiency of shares available on the grant date.

Director options become fully vested six months after the grant date. The option purchase price of Director options will be the fair market value of the stock on its effective grant date. Each director option automatically includes a stock appreciation right. Director options expire ten years from the grant date; however, they may be terminated earlier if the director ceases to be a director of the Company. Upon the director's resignation date, vested Director options may be exercised within three years.

Executive Compensation

During 2001, all of PetroCorp's principal officers were employees of Kaiser-Francis helping Kaiser-Francis fulfill its management obligations under a management agreement with PetroCorp. In this capacity, the principal officers of PetroCorp do not receive compensation from PetroCorp, but instead receive compensation from Kaiser-Francis. This compensation reflects efforts, not only on behalf of PetroCorp, but also for the other companies they may serve, including Kaiser-Francis. As of January 1, 2002, Gary R. Christopher and Richard L. Dunham became employees of PetroCorp.

Instead of paying compensation to its principal officers, rent and other overhead costs, PetroCorp pays Kaiser-Francis a management fee. For the year ended December 31, 2001, PetroCorp paid Kaiser-Francis \$1,990,000 in management fees under the management agreement. Of that \$1,990,000, \$744,000 (or 37.4%) is considered by PetroCorp to be reimbursement of officers' salaries and expenses. The remaining 62.6% of management fees are related to other non-employee related costs and expenses. The Kaiser-Francis management fee provided in the management agreement is based on a per well rate that varies as to each type of well, without reference to any compensation paid by Kaiser-Francis to PetroCorp officers.

The table below sets forth for the three fiscal years ended December 31, 2001, 2000 and 1999 all compensation paid to the chief executive officer by PetroCorp. All executive officers which might otherwise be named executive officers are employees of Kaiser-Francis and are compensated by Kaiser-Francis, which in turn has a management agreement with PetroCorp.

The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised, so there is no assurance the value realized by the named executive will be at or near the value estimated

by the Black-Scholes Model.

Compensation Committee Report on Executive Compensation

With the implementation of the Company's Management Agreement with Kaiser-Francis, as described below under "Certain Transactions," no executive officers, other than Gary Christopher and Richard Dunham, will receive direct compensation from the Company in future years except pursuant to the 2000 Stock Option Plan.

The 2000 Plan is administered by the Compensation Committee. Subject to the terms of the 2000 Plan, the Compensation Committee selects the employees to be granted awards, determine the terms and provisions of awards, construe the 2000 Plan, prescribe and rescind rules and regulations relating to the 2000 Plan and make any other determinations necessary or advisable for the administration of the 2000 Plan. With respect to the 2001 fiscal year, the awards granted during the 2001 fiscal year were based on the evaluation by the Compensation Committee of the performance of the Company and the performance of the individual officer. The responsibility of each executive officer for the various established corporate goals and the performance in meeting those goals were considered in awarding options.

14

All forms of compensation under the 2000 Plan relate to the Common Stock of the Company. The maximum aggregate number of shares of Common Stock with respect to which options, directors options and stock appreciation rights may be granted from time to time under the Plan is 600,000; provided, however, that no more than 225,000 shares will be subject to new grants in any one year. During fiscal year 2001, 163,000 options were granted under the 2000 Plan to employees and directors of PetroCorp. The 2000 Plan will terminate on the tenth anniversary of its approval by shareholders; however, no awards shall be made pursuant to the 2000 Plan after December 31, 2005.

Audit Committee Report

The role of the audit committee is to assist the board of directors in its oversight of the Company's financial reporting process, system of internal controls, audit processes and compliance with laws, regulations and Company policies. In this capacity, the Audit Committee operates under a Charter which sets forth the duties and responsibilities of the Audit Committee. The Audit Committee reviewed the Charter at its meeting on March 22, 2002, and made no changes to it.

Management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and its system of internal controls. The independent accountants are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles. The Audit Committee's responsibility is to monitor and review these processes. The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting. We have relied without independent verification on the information provided to us and the representations made by management and the independent accountants. Our oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or internal controls, or that the Company's financial statements are presented in conformance with generally accepted accounting principles.

In the performance of its oversight function, the Audit Committee addressed the following specific matters:

- . We reviewed the quarterly Forms 10-Q and the year-end financial statements included in the Form 10-K for the year 2001 and discussed them with management and the independent accountants,
- . We discussed with the independent accountants the matters required to be discussed by Statement on Auditing Standards No. 61,

15

- . We received the written disclosures from the independent accountants required by Independence Standards Board Standard No. 1,
- . We discussed with the independent accountants matters relevant to the planning and implementation of their audit of the Company's financial statements,
- . We reviewed the fees paid to the independent accountants, PricewaterhouseCoopers LLP ("PwC"), for (1) performing the audit of the Company's financial statements, (2) designing and implementing any financial information systems, and (3) any non-audit services performed during the year. These fees are set out below.

1. Audit Fees: Fees for the 2001 audit and reviews of the quarterly Forms 10-Q are \$141,525, of which \$63,300 had been billed through December 31, 2001.
2. Financial Systems Design and Implementation: PwC did not render any services related to financial information systems design and

Edgar Filing: PETROCORP INC - Form DEF 14A

implementation for the year ended December 31, 2001.

3. Non-Audit Fees: The aggregate fees for all other services rendered by PwC for the year ended December 31, 2001 were \$186,935, which included \$35,959 for registration statements, \$70,250 for tax compliance and consulting services, \$41,725 for special audit reports for third party net profits interest arrangements (costs reimbursed by third parties) and other services of \$39,001.

The Audit Committee has considered whether the provision of PwC of non-audit services included in the fees set forth above under "Non-Audit Fees" is compatible with maintaining the independence of PwC.

Based on these reviews and discussions, the Committee recommended to the Board of Directors that the financial statements be included in the Company's Annual Report on Form 10-K, for filing with the Securities and Exchange Commission.

Certain Transactions

In connection with the purchase by Kaiser-Francis of PetroCorp Common Stock from two significant shareholders during 1996, Kaiser-Francis succeeded to rights under a registration rights agreement previously entered into between PetroCorp and those shareholders, which agreement is substantially similar to another registration rights agreement previously entered into between PetroCorp and two subsidiaries of St. Paul.

16

As part of a restructuring plan, on August 3, 1999, PetroCorp's board entered into the Kaiser-Francis management agreement, under which Kaiser-Francis provides management, technical, and administrative support services for all of PetroCorp's operations in the United States and Canada. The shareholders of PetroCorp approved the management agreement in October 1999 and it took effect on November 1, 1999. A new slate of corporate officers was approved at that time.

The management agreement provides that Kaiser-Francis will perform oil and gas operations and administrative support functions with respect to PetroCorp's properties in both the United States and Canada.

Oil and gas operations to be performed by Kaiser-Francis include, for example:

- . geological and geophysical functions, including prospect generation and evaluation;
- . identification and evaluation of potential property acquisitions and divestitures;
- . engineering;
- . lease operations;

Edgar Filing: PETROCORP INC - Form DEF 14A

- . marketing;
- . contract negotiation and administration;
- . regulatory compliance; and
- . land functions.

In addition, Kaiser-Francis performs administrative functions on behalf of PetroCorp, including, for example:

- . land functions;
- . accounting, tax and audit functions;
- . insurance;
- . investor relations; and
- . retaining third party consultants, such as attorneys and accountants, on behalf of PetroCorp.

Under the management agreement, Kaiser-Francis may not make material decisions without the approval of PetroCorp's Board of Directors. Material decisions include:

- . expenditures in excess of \$250,000;
- . sales of PetroCorp assets valued in excess of \$500,000;
- . long term production sales agreements;

17

- . placement of certain liens on the Company's assets; and
- . initiation or settlement of material litigation.

PetroCorp's principal officers, who will be approved by PetroCorp's Board of Directors, will be responsible for executing all contracts and other instruments on behalf of the Company.

For properties not operated by PetroCorp, the services fee payable to Kaiser-Francis is, in most cases, equal to \$50.00 per month per well. As to properties operated by PetroCorp, Kaiser-Francis receives as its services fee the administrative and overhead fees charged under applicable operating agreements. During the year ended December 31, 2001, Kaiser-Francis received an additional service fee of \$12,500.

Effective January 1, 2002, Gary Christopher and Richard Dunham left Kaiser-Francis and became employees of PetroCorp. At that time, the monthly service fees paid to Kaiser-Francis are reduced by a net, monthly amount of \$8,333.

For services of a non-routine nature that are performed in-house by Kaiser-Francis, Kaiser-Francis shall receive compensation at a mutually agreed rate that is competitive with the generally available rate charged for such services. PetroCorp also reimburses Kaiser-Francis for certain direct out-of-pocket expenses identified in the management agreement that are incurred by Kaiser-Francis in performing its obligations thereunder. For the year ended December 31, 2001, Kaiser-Francis received \$1,990,000 from PetroCorp for management fees

Edgar Filing: PETROCORP INC - Form DEF 14A

under the management agreement.
