The actual call premium and payment per security upon an automatic call that is applicable to each call date will be determined on the pricing date and will be within the range specified in the foregoing table. The last call date is the final calculation day, and payment upon an automatic call on the final calculation day, if applicable, will be made on the stated maturity date.

How the payment at stated maturity is calculated

If the closing level of the Index is less than the starting level on each of the four call dates, the securities will not be automatically called, and on the stated maturity date, you will receive a payment at stated maturity per security determined as follows:

- If the ending level is less than the starting level, but greater than or equal to the threshold level, the payment at stated maturity will be equal to \$1,000
- If the ending level is less than the threshold level, the payment at stated maturity will be equal to \$1,000 *minus*

$$\$1,000 \times \frac{\text{threshold level} - \text{ending level}}{\text{starting level}}$$

Any positive return on the securities will be limited to the applicable call premium, even if the closing level of the Index significantly exceeds the starting level on the applicable call date. You will not participate in any appreciation of the Index beyond the applicable call premium. If the securities are not automatically called prior to the final calculation day and the ending level is less than the threshold level, you will receive less, and possibly 90% less, than the principal amount of your securities at stated maturity.

* The graph above sets forth daily closing levels of the Index for the period from January 1, 2014 to January 25, 2019. The closing level on January 25, 2019 was 2,664.76. The historical performance of the Index is not an indication of the future performance of the Index during the term of the securities.

Selected risk considerations

The risks set forth below are discussed in detail in the Risk Factors section in the accompanying preliminary pricing supplement, the prospectus supplement and prospectus. Please review those risk disclosures carefully.
