## PART I

### EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2011 of Tanger Factory Outlet Centers, Inc. and Tanger Properties Limited Partnership. Unless the context indicates otherwise, the term, Company, refers to Tanger Factory Outlet Centers, Inc. and subsidiaries and the term, Operating Partnership, refers to Tanger Properties Limited Partnership and subsidiaries. The terms “we”, “our” and “us” refer to the Company or the Company and the Operating Partnership together, as the text requires.

Tanger Factory Outlet Centers, Inc. and subsidiaries is one of the largest owners and operators of outlet centers in the United States. The Company is a fully-integrated, self-administered and self-managed real estate investment trust, ("REIT"), which, through its controlling interest in the Operating Partnership, focuses exclusively on developing, acquiring, owning, operating and managing outlet shopping centers. The outlet centers and other assets are held by, and all of the operations are conducted by, the Operating Partnership and its subsidiaries. Accordingly, the descriptions of the business, employees and properties of the Company are also descriptions of the business, employees and properties of the Operating Partnership.

The Company owns the majority of the units of partnership interest issued by the Operating Partnership through its two wholly-owned subsidiaries, Tanger GP Trust and Tanger LP Trust. Tanger GP Trust controls the Operating Partnership as its sole general partner. Tanger LP Trust holds a limited partnership interest. Through May 31, 2011, the Tanger family, through its ownership of the Tanger Family Limited Partnership, held the remaining units as a limited partner. On June 1, 2011, the Tanger Family Limited Partnership was dissolved, and the units of the Operating Partnership owned by the Tanger Family Limited Partnership were distributed to the individual beneficial owners of the Tanger Family Limited Partnership. Each such individual beneficial owner is now an individual limited partner of the Operating Partnership (collectively the "Family Limited Partners").

As of December 31, 2011, the Company, through its ownership of Tanger GP Trust and Tanger LP Trust, owned 21,681,914 units of the Operating Partnership and the Family Limited Partners collectively owned 2,872,973 units. Each unit held by Family Limited Partners is exchangeable for four of the Company's common shares, subject to certain limitations to preserve the Company's REIT status. Prior to the two previous 2 for 1 splits of the Company's common shares on January 24, 2011 and December 28, 2004, respectively, the exchange ratio was one for one.

Management operates the Company and the Operating Partnership as one enterprise. The management of the Company consists of the same members as the management of the Operating Partnership. These individuals are officers of the Company and employees of the Operating Partnership. The individuals that comprise the Company's Board of Directors are also the same individuals that make up Tanger GP Trust's Board of Trustees.

We believe combining the annual reports on Form 10-K of the Company and the Operating Partnership into this single report results in the following benefits:

- enhancing investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

- eliminating duplicative disclosure and providing a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and

- creating time and cost efficiencies through the preparation of one combined report instead of two separate reports.

There are only a few differences between the Company and the Operating Partnership, which are reflected in the disclosure in this report. We believe it is important, however to understand these differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated consolidated company. As stated above, the Company is a REIT, whose only material asset is its ownership of partnership interests of the Operating Partnership through its wholly-owned subsidiaries, the Tanger GP Trust and Tanger LP Trust. As a result, the Company does not conduct business itself, other than issuing public equity from time to time and incurring expenses required to operate as a public company. However, all operating expenses incurred by the Company are reimbursed by the Operating Partnership, thus the only material item on the Company's income statement is its equity in the earnings of the Operating Partnership. Therefore, the assets and liabilities and the revenues and expenses of the Company and the Operating Partnership are the same on their respective financial statements, except for immaterial differences related to cash, other assets and accrued liabilities that arise from public company expenses paid by the Company. The Company itself does not hold any indebtedness but does guarantee certain debt of the Operating Partnership, as disclosed in this report. The Operating Partnership holds substantially all the assets of the Company and holds the ownership interests in the Company's consolidated and unconsolidated joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for net proceeds from public equity issuances by the Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required through its operations, by the Operating Partnership's incurrence of indebtedness or through the issuance of partnership units.

Noncontrolling interests, shareholder's equity and partners' capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The limited partnership interests in the Operating Partnership held by the Family Limited Partners are accounted for as partners' capital in the Operating Partnership's financial statements and as noncontrolling interests in the Company's financial statements.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- Consolidated financial statements;

- The following notes to the consolidated financial statements:

- Debt of the Company and the Operating Partnership;

- Shareholders' Equity of the Company and Partners' Equity of the Operating Partnership;

- Earnings Per Share and Earnings Per Unit;

- Share-based Compensation of the Company and Equity-based Compensation of the Operating Partnership;

- Other Comprehensive Income of the Company and Other Comprehensive Income of the Operating Partnership; and

- Liquidity and Capital Resources in the Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report also includes separate Item 9A. Controls and Procedures sections and separate Exhibit 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18

U.S.C. §1350.

In order to highlight the differences between the Company and the Operating Partnership, the separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the business is one enterprise and the Company operates the business through the Operating Partnership.

4

---

As the 100% owner of Tanger GP Trust, the general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

## Item 1. Business

### The Company and the Operating Partnership

Tanger Factory Outlet Centers, Inc. and subsidiaries is one of the largest owners and operators of outlet centers in the United States. We are a fully-integrated, self-administered and self-managed REIT, which focuses exclusively on developing, acquiring, owning, operating and managing outlet shopping centers. As of December 31, 2011, we owned and operated 36 outlet centers, with a total gross leasable area of approximately 10.7 million square feet. These outlet centers were 99% occupied and contained over 2,300 stores, representing approximately 400 store brands. We also had partial ownership interests in three outlet centers totaling approximately 1.1 million square feet, including one outlet center in Ontario, Canada.

Our centers and other assets are held by, and all of our operations are conducted by, Tanger Properties Limited Partnership and subsidiaries. The Company owns the majority of the units of partnership interest issued by the Operating Partnership, through its two wholly-owned subsidiaries, Tanger GP Trust and Tanger LP Trust. Tanger GP Trust controls the Operating Partnership as its sole general partner. Tanger LP Trust holds a limited partnership interest. Through May 31, 2011, the Tanger family, through its ownership of the Tanger Family Limited Partnership held the remaining units as a limited partner. On June 1, 2011, the Tanger Family Limited Partnership was dissolved, and the units of the Operating Partnership owned by the Tanger Family Limited Partnership were distributed to the individual Family Limited Partners. Each such Family Limited Partner is now an individual limited partner of the Operating Partnership.

As of December 31, 2011, the Company, through its ownership of the Tanger GP and Tanger LP Trusts, owned 21,681,914 units of the Operating Partnership and the Family Limited Partners owned the remaining 2,872,973 units. Each unit held by the Family Limited Partners is exchangeable for four of the Company's common shares, subject to certain limitations to preserve the Company's REIT status.

Ownership of the Company's common shares is restricted to preserve the Company's status as a REIT for federal income tax purposes. Subject to certain exceptions, a person may not actually or constructively own more than 4% of our common shares. We also operate in a manner intended to enable us to preserve our status as a REIT, including, among other things, making distributions with respect to our outstanding common shares equal to at least 90% of our taxable income each year.

The Company is a North Carolina corporation and the Operating Partnership is a North Carolina partnership, and both were formed in 1993. Our executive offices are currently located at 3200 Northline Avenue, Suite 360, Greensboro, North Carolina, 27408 and our telephone number is (336) 292-3010. Our website can be accessed at [www.tangeroutlet.com](http://www.tangeroutlet.com). A copy of our 10-Ks, 10-Qs, 8-Ks and any amendments thereto can be obtained, free of charge, on our website as soon as reasonably practicable after we file such material with, or furnish it to, the Securities and Exchange Commission (the "SEC"). The information found on, or otherwise accessible through, our website is not incorporated into, and does not form a part of, this annual report on Form 10-K or any other report or document we file with or furnish to the SEC.

### Recent Developments

Acquisitions

Jeffersonville, Ohio

On June 28, 2011, we purchased Prime Outlets at Jeffersonville, a 410,000 square foot outlet center for \$134.0 million in cash. The cash purchase price was funded with proceeds from a \$150.0 million senior, unsecured bridge loan.

5

---

#### Atlantic City, New Jersey and Ocean City, Maryland

During 2011, we closed on our admission as a member into four existing entities that resulted in our acquiring substantially all of the economic interests of Atlantic City Outlets The Walk (Atlantic City, NJ) and Ocean City Factory Outlets (Ocean City, MD). The combined purchase price, once all earn out provisions are settled, is expected to be approximately \$200.3 million, consisting of \$116.8 million in cash (of which \$3.0 million is currently contingent consideration) and the assumption of \$83.5 million in indebtedness.

Atlantic City Outlets The Walk is comprised of approximately 490,000 square feet Ocean City Factory Outlets is comprised of approximately 199,000 square feet. The cash portion of the purchase price for Atlantic City Outlets The Walk and Ocean City Outlets was funded by amounts available under our unsecured lines of credit.

#### Hershey, Pennsylvania

On September 30, 2011, we purchased substantially all of the economic interests in The Outlets at Hershey, a 247,000 square foot outlet center, for total consideration of \$56.0 million, consisting of \$24.6 million in cash and the assumption of \$31.4 million of indebtedness. The cash consideration included a \$6.2 million loan to the noncontrolling interest holder collateralized by their ownership interest in the property. The cash consideration for The Outlets at Hershey was funded by amounts available under our unsecured lines of credit.

#### Development Update

##### Redevelopment: Hilton Head, South Carolina

During the first quarter of 2011, we completed the redevelopment of our Hilton Head I outlet center and celebrated a grand re-opening on March 31, 2011. As of December 31, 2011, the 177,000 square foot center was 98% occupied. In addition, the property features four pad sites, three of which were leased as of December 31, 2011.

#### Joint Venture Activities

##### Deer Park, Long Island, New York

On December 22, 2011, Deer Park, an unconsolidated joint venture in which we have a 33.3% ownership interest, closed on the refinancing of its mortgage and mezzanine loans. At the closing, Deer Park made a payment of \$20.0 million towards the principal amount of the mortgage bringing the new balance outstanding to \$231.9 million. The principal balance on the mezzanine loan remained at \$15.0 million. The new interest rates for the mortgage and mezzanine loan are LIBOR plus 3.50% and LIBOR plus 5.00%, respectively. Each of the three partners made an equity contribution to Deer Park prior to closing of \$6.4 million. The \$20.0 million principal payment was made from a combination of these three equity contributions totaling \$19.2 million and cash available within Deer Park. The maturity date of both the mortgage and the mezzanine loan is May 17, 2014, however additional principal payments may be required prior to maturity if certain financial covenants are not met. Such principal payments, if necessary, may require additional capital contributions to Deer Park by the partners.

##### Deer Park Warehouse, Long Island, New York

In June 2008, we, along with our partners in Deer Park, entered into a joint venture to purchase a 29,000 square foot warehouse adjacent to the Deer Park project described above for a total purchase price of \$3.3 million. Deer Park Warehouse, in which we have a 33.3% ownership interest, is an unconsolidated joint venture. The interest-only mortgage loan for the warehouse matured on May 17, 2011 and the joint venture did not qualify for the one-year extension option. As a result, the joint venture has accrued interest at a default rate of 8.25% from May 17, 2011 to December 31, 2011, and is currently in negotiations with the lender. There can be no assurance as to the outcome of these negotiations. As of December 31, 2011, the outstanding principal balance under the warehouse mortgage was \$2.3 million. In December 2011, the joint venture recorded an impairment charge of approximately \$900,000 to lower

the basis of the warehouse to its estimated fair market value.

#### Galveston/Houston, Texas

In June 2011, we announced the formation of a 50/50 joint venture with Simon Property Group, Inc. for the development of a Tanger Outlet Center south of Houston in Texas City, TX. When completed we expect that the center will feature over 90 brand name and designer outlet stores in the first phase which will contain approximately 350,000 square feet, with room to expand to approximately 470,000 square feet. In July 2011, the joint venture acquired the land underlying the site for approximately \$5.6 million. Ground breaking ceremonies were held on August 30, 2011. As of December 31, 2011, we have contributed \$7.8 million in cash to the joint venture to fund development activities. We will provide property management and marketing services to the center and with our partners, will jointly provide development and leasing services.

#### RioCan Canadian Joint Venture

During 2011 we announced the formation of an exclusive joint venture (the "Canadian Joint Venture") with RioCan Real Estate Investment Trust ("RioCan") for the acquisition, development and leasing of sites across Canada that are suitable for development or redevelopment as outlet shopping centers similar in concept and design to those within our existing U.S. portfolio. Through December 31, 2011, we have contributed approximately \$1.0 million to fund pre-development and due diligence costs for various sites. Any projects developed will be co-owned by us and RioCan on a 50/50 basis and will be branded as Tanger Outlet Centers. We have agreed to provide leasing and marketing services to the venture and RioCan will provide development and property management services. It is the intention of the joint venture to develop as many as 10 to 12 outlet centers in larger urban markets and tourist areas across Canada, over a five to seven year period. The typical size of a Tanger Outlet Center is approximately 350,000 square feet depending on the individual market and tenant demand. Assuming these parameters are suitable and materialize in Canada, the overall investment of the joint venture is anticipated to be as high as \$1.0 billion, on a fully built out basis. There can be no assurance that the current plans of the joint venture to develop outlet centers in Canada as described above will be fully realized.

On December 9, 2011, the Canadian Joint Venture purchased the Cookstown Outlet Mall for \$47.4 million, plus an additional \$13.8 million for excess land upon the seller meeting certain conditions, for an aggregate purchase price of \$61.2 million. RioCan will provide development and property management services to this existing outlet center and we will provide leasing and marketing services. In connection with the purchase, the joint venture assumed the in place financing of \$29.6 million which carries an interest rate of 5.1% and matures in 2014.

Cookstown Outlet Mall is north of the Greater Toronto Area in Innisfil, Ontario, and contains approximately 159,000 square feet with the potential to expand to approximately 320,000 square feet. This outlet center features many national retailers such as, Coach Outlet, Adidas, Tommy Hilfiger Outlet, Puma and Rockport. The acquisition of this property will enable the Canadian Joint Venture to begin to implement its outlet center strategy immediately, as well as provide the flexibility to potentially expand the site into a full-scale Tanger Outlet Center.

#### National Harbor, Washington D.C. Metro Area

In May 2011, we announced the formation of a 50/50 joint venture agreement with The Peterson Companies for the development of Tanger Outlets at National Harbor in the Washington, D.C. area. National Harbor, includes fine restaurants, distinctive retail, office and residences, and a number of world-class hotels including the Gaylord National Resort and Convention Center. Developed by The Peterson Companies, National Harbor comprises 350 acres of prime real estate along the scenic Potomac River in Prince George's County, MD. It is anticipated that the joint venture will develop an approximately 40 acre parcel at National Harbor offering easy access to I-495, I-95, I-295 and the Woodrow Wilson Bridge. The resulting Tanger Outlet Center is expected to house approximately 80 outlet designer and name brand stores in a center measuring up to 350,000 square feet. In December 2011, both parties each made

initial equity contributions of \$850,000 to fund certain pre-development costs. We will provide property management, leasing and marketing services to the joint venture. We and The Peterson Companies will jointly provide site development and construction supervision services to the joint venture.

Glendale, Arizona

In February 2012, we announced plans to begin construction on Tanger Outlets Westgate, our previously announced site in Glendale, AZ. Currently, we expect the outlet center to contain approximately 328,000 square feet and to be open in time for the 2012 holiday shopping season.

### Other Potential Future Developments

As of the date of this filing, we are in the initial study period of other potential developments, including sites located in Scottsdale, AZ, as well as Halton Hills and Ottawa, Ontario. The Ontario sites, if developed, will be undertaken by our Canadian Joint Venture with our RioCan partner (see previous discussion under the caption "RioCan Canadian Joint Venture"). We may also use joint venture arrangements to develop other potential sites in the United States. There can be no assurance that any of these sites will be ultimately developed.

In the case of projects to be wholly-owned by us, we expect to fund these projects from amounts available under our unsecured lines of credit, but may also fund with capital from additional public debt and equity offerings. For projects to be developed through joint venture arrangements, we typically use collateralized construction loans to fund a portion of the project, with our share of the equity requirements funded from sources previously described.

### Financing Transactions

#### \$150.0 Million Senior Unsecured Bridge Loan

In June 2011, the Operating Partnership closed on a \$150.0 million senior unsecured bridge loan at an interest rate of LIBOR + 1.60% and used the proceeds from the loan to fund the acquisition of the Jeffersonville, OH outlet center. In November 2011, the Operating Partnership repaid this bridge loan in conjunction with the recast of its unsecured lines of credit, as discussed below.

#### 4.6 Million Common Share Offering

In July 2011, the Company completed a public offering of 4.6 million common shares at a price of \$25.662 per share. The net proceeds to the Company from the offering, after deducting estimated offering expenses, were approximately \$117.4 million. Net proceeds from the offering were contributed to the Operating Partnership in exchange for 13,000 general partnership common units and 1,137,000 limited partnership common units. The Operating Partnership used the net proceeds from the offering to repay borrowings under its unsecured lines of credit and for general corporate purposes.

#### Increase In Unsecured Lines of Credit to \$520.0 Million

On November 10, 2011, the Operating Partnership amended its \$400.0 million of unsecured lines of credit, increasing the total capacity to \$520.0 million (of which up to \$100.0 million may be borrowed in Canadian dollars) and extending the maturity through November 10, 2015.

The unsecured lines of credit include a \$20.0 million liquidity line as well as a \$500.0 million syndicated line. The syndicated line may be increased to \$750.0 million through an accordion feature in certain circumstances. We have the option to extend the lines for an additional year to November 10, 2016. As of the date of this filing, based on the Operating Partnership's long-term debt rating, the lines bear interest at a credit spread over LIBOR of 1.25% and require the payment of an annual facility fee of 0.25% on the total committed amount. Previously, the credit spread over LIBOR was 1.90% and the annual facility fee was 0.40%. The Company guarantees the Operating Partnership's obligations under these lines.

#### \$250.0 Million Unsecured Term Loan

In February 2012, the Operating Partnership closed on a seven-year \$250.0 million unsecured term loan. The term loan will be interest only, matures in the first quarter of 2019 and is pre-payable without penalty beginning in the first

quarter of 2015. Based on our current credit ratings, the new loan has an initial interest rate of LIBOR + 1.80%. We used the net proceeds of the term loan to reduce the outstanding balances on our \$520.0 million unsecured lines of credit.

## Board of Directors and Management Changes

In March 2011, Donald G. Drapkin was added as a member of the Company's Board of Directors and the Operating Partnership's Board of Trustees. Mr. Drapkin brings over 30 years of highly sophisticated securities transaction experience to the Board.

In August 2011, Thomas E. McDonough was promoted to Executive Vice President - Chief Operating Officer. Mr. McDonough joined our management team as Executive Vice-President of Operations in August 2010. Mr. McDonough brought nearly 30 years of REIT management, leasing, acquisition and development experience to the Company.

In December 2011, Chad D. Perry joined our management team as Executive Vice President - General Counsel. Mr. Perry brings nearly 15 years of experience to the Company. His responsibilities include corporate governance, compliance, and other legal matters, as well as management of outside counsel relationships and the Company's in-house legal department.

## The Outlet Concept

Outlets are stores operated by manufacturers and brand name retailers that sell primarily first quality, branded products to consumers at significant discounts from regular retail prices charged by department stores and specialty stores. Outlet centers offer numerous advantages to manufacturers and brand name retailers as they are often able to charge customers lower prices for brand name and designer products by eliminating the third party retailer. Outlet centers also typically have lower operating costs than other retailing formats, which enhance their profit potential. Outlet centers enable them to optimize the size of production runs while continuing to maintain control of their distribution channels. In addition, outlet centers benefit manufacturers and brand name retailers by permitting them to sell out-of-season, overstocked or discontinued merchandise without alienating department stores or hampering the manufacturer's brand name, as is often the case when merchandise is distributed via discount chains.

We believe that outlet centers will continue to present attractive opportunities for capital investment in the long-term. We further believe, based upon our contacts with present and prospective tenants that many companies will continue to utilize the outlet concept as a profitable distribution vehicle. However, due to present economic conditions and the potential for increased competition from other developers announcing plans to develop outlet centers, new developments or expansions may not provide as high of an initial return on investment as has been historically achieved.

## Our Outlet Centers

Each of our outlet centers carries the Tanger brand name. We believe that our tenants and consumers recognize the Tanger brand as one that provides outlet shopping centers where consumers can trust the brand, quality and price of the merchandise they purchase directly from the manufacturers and brand name retailers.

As one of the original participants in this industry, we have developed long-standing relationships with many of our tenants. Because of our established relationships, we believe we are well positioned for the long-term.

Our outlet centers range in size from 24,619 to 729,736 square feet and are typically located at least 10 miles from major department stores and manufacturer-owned, full-price retail stores. Manufacturers prefer these locations so that they do not compete directly with their major customers and their own stores. Many of our outlet centers are located near tourist destinations to attract tourists who consider shopping to be a recreational activity. Additionally, our centers are often situated in close proximity to interstate highways that provide accessibility and visibility to potential

customers.

9

---

We have a diverse tenant base comprised of approximately 400 different well-known, upscale, national designer or brand name concepts, such as Ann Taylor, Banana Republic, Brooks Brothers, Calvin Klein, Coach Leatherware, Eddie Bauer, GAP, J. Crew, Juicy, Kate Spade, Lucky Brand Jeans, Michael Kors, Nike, Old Navy, Polo Ralph Lauren, Saks Fifth Avenue - Off Fifth, Tommy Hilfiger, Under Armour and others.

No single tenant, including all of its store concepts, accounted for 10% or more of our combined base and percentage rental revenues during 2011, 2010 or 2009. As of December 31 2011, no single tenant accounted for more than 8.0% of our leasable square feet or 6.5% of our combined base and percentage rental revenues. Because our typical tenant is a large, national manufacturer, we generally do not experience any material losses with respect to rent collections or lease defaults.

Only small portions of our revenues are dependent on contingent revenue sources. Revenues from fixed rents and operating expense reimbursements accounted for approximately 91% of our total revenues in 2011. Revenues from contingent sources, such as percentage rents, vending income and miscellaneous income, accounted for approximately 9% of our total revenues in 2011.

### Business History

Stanley K. Tanger, the Company's founder, entered the outlet center business in 1981. Prior to founding our company, Stanley K. Tanger and his son, Steven B. Tanger, our President and Chief Executive Officer, built and managed a successful family owned apparel manufacturing business, Tanger/Creighton, Inc., which included the operation of five outlet stores. Based on their knowledge of the apparel and retail industries, as well as their experience operating Tanger/Creighton, Inc.'s outlet stores, they recognized that there would be a demand for outlet centers where a number of manufacturers could operate in a single location and attract a large number of shoppers.

Steven B. Tanger joined the Company in 1986, and by June 1993, the Tangers had developed 17 centers totaling approximately 1.5 million square feet. In June 1993, we completed our initial public offering, making Tanger Factory Outlet Centers, Inc. the first publicly traded outlet center company. Since our initial public offering, we have grown our portfolio through the strategic development, expansion and acquisition of outlet centers and are now one of the largest owner operators of outlet centers in the country.

### Business Strategy

Our company has been built on a firm foundation of strong and enduring business relationships coupled with conservative business practices. We partner with many of the world's best known and most respected retailers and manufacturers. By fostering and maintaining strong tenant relationships with these successful, high volume companies, we have been able to solidify our position as a leader in the outlet industry for well over a quarter century. The confidence and trust that we have developed with our retail partners from the very beginning has allowed us to forge the impressive retail alliances that we enjoy today with approximately 400 brand name manufacturers.

We have had a solid track record of success in the outlet industry for the past 31 years. In 1993, Tanger led the way by becoming the industry's first outlet center company to be publicly traded. Our seasoned team of real estate professionals utilize the knowledge and experience that we have gained to give us a competitive advantage in the outlet business.

As of December 31, 2011, our consolidated outlet centers were 99% occupied with average tenant sales of \$366 per square foot. Our portfolio of properties has had an average occupancy rate of 95% or greater on December 31st of each year since 1981. We believe our ability to achieve this level of performance is a testament to our long-standing tenant relationships, industry experience and our expertise in the development and operation of manufacturers' outlet

centers.

#### Growth Strategy

Our goal is to build shareholder value through a comprehensive, conservative plan for sustained, long-term growth. We focus our efforts on increasing rents in our existing centers, renovating and expanding our mature centers and reaching new markets through ground-up developments or acquisitions of new outlet centers. We expect new development to continue to be important to the growth of our portfolio in the long-term. Future centers may be wholly-owned by us or developed through joint venture arrangements.

### Increasing Rents at Existing Centers

Our leasing team focuses on the marketing of available space to maintain our standard for high occupancy levels. Leases are negotiated to provide for inflation-based contractual rent increases or periodic fixed contractual rent increases and percentage rents. Due to the overall high performance of our shopping centers, we have historically been able to renew leases at higher base rents per square-foot and attract stronger, more popular brands to replace underperforming tenants.

### Developing New Centers

We believe that there continue to be opportunities to introduce the Tanger brand in untapped or under-served markets across the United States and Canada in the long-term. We believe our 31 years of outlet industry experience, extensive development expertise and strong retail relationships give us a distinct competitive advantage.

In order to identify new markets across North America, we follow a general set of guidelines when evaluating opportunities for the development of new centers. This typically includes seeking locations within markets that have at least 1 million people residing within a 30 to 40 mile radius with an average household income of at least \$65,000 per year, frontage on a major interstate or roadway that has excellent visibility and a traffic count of at least 55,000 cars per day. Leading tourist, vacation and resort markets that receive at least 5 million visitors annually are also closely evaluated. Although our current goal is to target sites that are large enough to support centers with approximately 90 stores totaling at least 350,000 square feet, we maintain the flexibility to vary our minimum requirements based on the unique characteristics of a site, tenant demand and our prospects for future growth and success.

In order to help ensure the viability of proceeding with a project, we gauge the interest of our retail partners first. We typically prefer that at least 50% of the space in each center is pre-leased prior to acquiring the site and beginning construction; however, we may occasionally proceed with construction with less than 50% of the space pre-leased under certain circumstances. This pre-leasing policy is consistent with our conservative financing perspective and the discipline we impose upon ourselves. Construction of a new outlet center has typically taken us nine to twelve months from groundbreaking to the opening of the first tenant stores.

### Expanding and Renovating Existing Centers

Keeping our shopping centers vibrant and growing is a key part of our formula for success. In order to maintain our reputation as the premiere outlet shopping destination in the markets that we serve, we have an ongoing program of renovations and expansions taking place at our outlet centers. Construction for expansion and renovation to existing properties typically takes less time, usually between six to nine months depending on the scope of the project.

### Acquiring Centers

As a means of creating a presence in key markets and to create shareholder value, we may selectively choose to acquire individual properties or portfolios of properties that meet our strategic investment criteria. We believe that our extensive experience in the outlet center business, access to capital markets, familiarity with real estate markets and our management experience will allow us to evaluate and execute our acquisition strategy successfully over time. Through our tenant relationships, our leasing professionals have the ability to implement a remerchandising strategy when needed to increase occupancy rates and value. We believe that our managerial skills, marketing expertise and overall outlet industry experience will also allow us to add long-term value and viability to these centers.

### Operating Strategy

Increasing cash flow to enhance the value of our properties and operations remains a primary business objective. Through targeted marketing and operational efficiencies, we strive to improve sales and profitability of our tenants and our outlet centers as a whole. Achieving higher base and percentage rents and generating additional income from temporary leasing, vending and other sources also remains an important focus and goal.

## Leasing

The long-standing retailer relationships that we enjoy allow us the ability to provide our shoppers with a collection of the world's most popular outlet stores. Tanger customers shop and save on their favorite brand name merchandise including men's, women's and children's ready-to-wear, lifestyle apparel, footwear, jewelry and accessories, tableware, housewares, luggage and domestic goods. In order for our centers to perform at a high level, our leasing professionals continually monitor and evaluate tenant mix, store size, store location and sales performance. They also work to assist our tenants through re-sizing and re-location of retail space within each of our centers for maximum sales of each retail unit across our portfolio.

## Marketing

Our marketing plans deliver compelling, well-crafted messages and enticing promotions and events to targeted audiences for tangible, meaningful and measurable results. Our plans are based on a basic measure of success - increase sales and traffic for our retail partners and we will create successful centers. Utilizing a strategic mix of print, radio, television, direct mail, website, internet advertising, social networks, smart phone applications and public relations, we consistently reinforce the Tanger brand. Our marketing efforts are also designed to build loyalty with current Tanger shoppers and create awareness with potential customers. The majority of consumer-marketing expenses incurred by us are reimbursable by our tenants.

## Capital Strategy

We believe we achieve a strong and flexible financial position by attempting to: (1) maintain a conservative leverage position relative to our portfolio when pursuing new development, expansion and acquisition opportunities, (2) extend and sequence debt maturities, (3) manage our interest rate risk through a proper mix of fixed and variable rate debt, (4) maintain access to liquidity by using our lines of credit in a conservative manner and (5) preserve internally generated sources of capital by strategically divesting of our underperforming assets and maintaining a conservative distribution payout ratio. We manage our capital structure to reflect a long-term investment approach and utilize multiple sources of capital to meet our requirements.

We intend to retain the ability to raise additional capital, including public debt or equity, to pursue attractive investment opportunities that may arise and to otherwise act in a manner that we believe to be in the best interests of our shareholders and unit holders. The Company is a well-known seasoned issuer with a shelf registration that allows us to register unspecified amounts of different classes of securities on Form S-3. To generate capital to reinvest into other attractive investment opportunities, we may also consider the use of additional operational and developmental joint ventures, the sale or lease of outparcels on our existing properties and the sale of certain properties that do not meet our long-term investment criteria. Based on cash provided by operations, existing lines of credit, ongoing relationships with certain financial institutions and our ability to sell debt or issue equity subject to market conditions, we believe that we have access to the necessary financing to fund the planned capital expenditures during 2012.

We anticipate that adequate cash will be available to fund our operating and administrative expenses, regular debt service obligations, and the payment of dividends in accordance with REIT requirements in both the short and long-term. Although we receive most of our rental payments on a monthly basis, distributions to shareholders and unitholders are made quarterly and interest payments on the senior, unsecured notes are made semi-annually. Amounts accumulated for such payments will be used in the interim to reduce the outstanding borrowings under our existing lines of credit or invested in short-term money market or other suitable instruments adhering to our investment policies.

We believe our current balance sheet position is financially sound; however, due to the uncertainty and unpredictability of the capital and credit markets, we can give no assurance that affordable access to capital will exist between now and 2015 when our next significant debt maturities occur. As a result, our current primary focus is to continually strengthen our capital and liquidity position by controlling and reducing construction and overhead costs, generating positive cash flows from operations to cover our distributions and reducing outstanding debt.

## Competition

We carefully consider the degree of existing and planned competition in a proposed area before deciding to develop, acquire or expand a new center. Our centers compete for customers primarily with outlet centers built and operated by different developers, traditional shopping malls and full- and off-price retailers. However, we believe that the majority of our customers visit outlet centers because they are intent on buying name-brand products at discounted prices. Traditional full- and off-price retailers are often unable to provide such a variety of name-brand products at attractive prices.

Tenants of outlet centers typically avoid direct competition with major retailers and their own specialty stores, and, therefore, generally insist that the outlet centers be located not less than 10 miles from the nearest major department store or the tenants' own specialty stores. For this reason, our centers compete only to a very limited extent with traditional malls in or near metropolitan areas.

We compete directly with one large national owner of outlet centers and numerous small owners, however, there is the potential for increased competition from other developers who have announced plans to enter the outlet industry. We believe the high barriers to entry in the outlet industry, including the need for extensive relationships with premier manufacturers and brand name retailers, will continue to minimize the number of new outlet centers developed each year.

## Corporate and Regional Headquarters

We rent space in an office building in Greensboro, North Carolina in which our corporate headquarters is located. In addition, we rent a regional office in New York City, New York to better service our principal fashion-related tenants, many of whom are based in and around that area.

We maintain offices and employ on-site managers at 36 centers. The managers closely monitor the operation, marketing and local relationships at each of their centers.

## Insurance

We believe that as a whole our properties are covered by adequate comprehensive liability, fire, flood, earthquake and extended loss insurance provided by reputable companies with commercially reasonable and customary deductibles and limits. Northline Indemnity, LLC, ("Northline"), a wholly-owned captive insurance subsidiary of the Operating Partnership, is responsible for losses up to certain levels for property damage (including wind damage from hurricanes) prior to third-party insurance coverage. Specified types and amounts of insurance are required to be carried by each tenant under their lease agreement with us. There are however, types of losses, like those resulting from wars or nuclear radiation, which may either be uninsurable or not economically insurable in some or all of our locations. An uninsured loss could result in a loss to us of both our capital investment and anticipated profits from the affected property.

## Employees

As of February 1, 2012, we had 224 full-time employees, located at our corporate headquarters in North Carolina, our regional office in New York and 36 business offices. At that date, we also employed 252 part-time employees at various locations.

## Item 1A. Risk Factors

### Risks Related to Real Estate Investments

We may be unable to develop new outlet centers or expand existing outlet centers successfully.

We continue to develop new outlet centers and expand existing outlet centers as opportunities arise. However, there are significant risks associated with our development activities in addition to those generally associated with the ownership and operation of established retail properties. While we have policies in place designed to limit the risks associated with development, these policies do not mitigate all development risks associated with a project. These risks include the following:

- significant expenditure of money and time on projects that may be delayed or never be completed;
- higher than projected construction costs;
- shortage of construction materials and supplies;
- failure to obtain zoning, occupancy or other governmental approvals or to the extent required, tenant approvals; and
- late completion because of construction delays, delays in the receipt of zoning, occupancy and other approvals or other factors outside of our control.

Any or all of these factors may impede our development strategy and adversely affect our overall business.

The economic performance and the market value of our outlet centers are dependent on risks associated with real property investments.

Real property investments are subject to varying degrees of risk. The economic performance and values of real estate may be affected by many factors, including changes in the national, regional and local economic climate, inflation, unemployment rates, consumer confidence, local conditions such as an oversupply of space or a reduction in demand for real estate in the area, the attractiveness of the properties to tenants, competition from other available space, our ability to provide adequate maintenance and insurance and increased operating costs.

Real property investments are relatively illiquid.

Our outlet centers represent a substantial portion of our total consolidated assets. These assets are relatively illiquid. As a result, our ability to sell one or more of our outlet centers in response to any changes in economic or other conditions is limited. If we want to sell an outlet center, there can be no assurance that we will be able to dispose of it in the desired time period or that the sales price will exceed the cost of our investment.

Properties may be subject to impairment charges which can adversely affect our financial results.

We periodically evaluate long-lived assets to determine if there has been any impairment in their carrying values and record impairment losses if the undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts or if there are other indicators of impairment. If it is determined that an impairment has occurred, we would be required to record an impairment charge equal to the excess of the asset's carrying value over its estimated fair value, which could have a material adverse effect on our financial results in the accounting period in which the adjustment is made. Our estimates of undiscounted cash flows expected to be generated by each property

are based on a number of assumptions that are subject to economic and market uncertainties including, but not limited to, demand for space, competition for tenants, changes in market rental rates and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the future cash flows estimated in our impairment analysis may not be achieved.

We face competition for the acquisition and development of outlet centers, and we may not be able to complete acquisitions or developments that we have identified.

We intend to grow our business through acquisitions and developments. We compete with institutional pension funds, private equity investors, other REITs, small owners of outlet centers, specialty stores and others who are engaged in the acquisition, development or ownership of outlet centers and stores. These competitors may succeed in acquiring or developing outlet centers themselves. Also, our potential acquisition targets may find our competitors to be more attractive acquirers because they may have greater marketing and financial resources, may be willing to pay more, or may have a more compatible operating philosophy. In addition, the number of entities competing to acquire or develop outlet centers has increased and may continue to increase in the future, which could increase demand for these outlet centers and the prices we must pay to acquire or develop them. If we pay higher prices for outlet centers, our profitability may be reduced. Also, once we have identified potential acquisitions, such acquisitions are subject to the successful completion of due diligence, the negotiation of definitive agreements and the satisfaction of customary closing conditions. We cannot assure you that we will be able to reach acceptable terms with the sellers or that these conditions will be satisfied.

We may be subject to environmental regulation.

Under various federal, state and local laws, ordinances and regulations, we may be considered an owner or operator of real property and may be responsible for paying for the disposal or treatment of hazardous or toxic substances released on or in our property or disposed of by us, as well as certain other potential costs which could relate to hazardous or toxic substances (including governmental fines and injuries to persons and property). This liability may be imposed whether or not we knew about, or were responsible for, the presence of hazardous or toxic substances.

#### Risks Related to our Business

Our earnings and therefore our profitability are entirely dependent on rental income from real property.

Substantially all of our income is derived from rental income from real property. Our income and funds for distribution would be adversely affected if a significant number of our tenants were unable to meet their obligations to us or if we were unable to lease a significant amount of space in our centers on economically favorable lease terms. In addition, the terms of outlet store tenant leases traditionally have been significantly shorter than in other retail segments. There can be no assurance that any tenant whose lease expires in the future will renew such lease or that we will be able to re-lease space on economically favorable terms.

We are substantially dependent on the results of operations of our retailers.

Our operations are subject to the results of operations of our retail tenants. A portion of our rental revenues are derived from percentage rents that directly depend on the sales volume of certain tenants. Accordingly, declines in these tenants' results of operations would reduce the income produced by our properties. If the sales of our retail tenants decline sufficiently, such tenants may be unable to pay their existing rents as such rents would represent a higher percentage of their sales. Any resulting leasing delays, failures to make payments or tenant bankruptcies could result in the termination of such tenants' leases.

A number of companies in the retail industry, including some of our tenants, have declared bankruptcy or have voluntarily closed certain of their stores in recent years. The bankruptcy of a major tenant or number of tenants may result in the closing of certain affected stores, and we may not be able to re-lease the resulting vacant space for some time or for equal or greater rent. Such bankruptcy could have a material adverse effect on our results of operations and could result in a lower level of funds for distribution.

Certain of our properties are subject to ownership interests held by third parties, whose interests may conflict with ours and thereby constrain us from taking actions concerning these properties which otherwise would be in our best interests and our shareholders interests.

We own partial interests in three outlet centers with various joint venture partners. The approval or consent of the other members of these joint ventures is required before we may sell, finance, expand or make other significant changes in the operations of these properties. We also may not have control over certain major decisions, including approval of the annual operating budgets, leasing and the timing and amount of distributions, which could result in decisions by the managing member that do not fully reflect our interests. To the extent such approvals or consents are required, we may experience difficulty in, or may be prevented from, implementing our plans and strategies with respect to expansion, development, ongoing operations, financing or other similar transactions with respect to such properties.

An uninsured loss or a loss that exceeds our insurance policies on our outlet centers or the insurance policies of our tenants could subject us to lost capital and revenue on those centers.

Some of the risks to which our outlet centers are subject, including risks of war and earthquakes, hurricanes and other natural disasters, are not insurable or may not be insurable in the future. Should a loss occur that is uninsured or in an amount exceeding the combined aggregate limits for the insurance policies noted above or in the event of a loss that is subject to a substantial deductible under an insurance policy, we could lose all or part of our capital invested in and anticipated revenue from one or more of our outlet centers, which could adversely affect our results of operations and financial condition, as well as our ability to make distributions to our shareholders.

Under the terms and conditions of our leases, tenants generally are required to indemnify and hold us harmless from liabilities resulting from injury to persons and contamination of air, water, land or property, on or off the premises, due to activities conducted in the leased space, except for claims arising from negligence or intentional misconduct by us or our agents. Additionally, tenants generally are required, at the tenant's expense, to obtain and keep in full force during the term of the lease, liability and property damage insurance policies issued by companies acceptable to us. These policies include liability coverage for bodily injury and property damage arising out of the ownership, use, occupancy or maintenance of the leased space. All of these policies may involve substantial deductibles and certain exclusions. Therefore, an uninsured loss or loss that exceeds the insurance policies of our tenants could also subject us to lost capital and revenue.

Historically high fuel prices may impact consumer travel and spending habits.

Most shoppers use private automobile transportation to travel to our outlet centers and many of our centers are not easily accessible by public transportation. Increasing fuel costs may reduce the number of trips to our centers thus reducing the amount spent at our centers. Many of our outlet center locations near tourist destinations may experience an even more acute reduction of shoppers if there were a reduction of people opting to drive to vacation destinations. Such reductions in traffic could adversely impact our percentage rents and ability to renew and release space at current rental rates.

Increasing fuel costs may also reduce disposable income and decrease demand for retail products. Such a decrease could adversely affect the results of operations of our retail tenants and adversely impact our percentage rents and ability to renew and release space at current rental rates.

#### Risks Related to our Indebtedness and Financial Markets

We are subject to the risks associated with debt financing.

We are subject to the risks associated with debt financing, including the risk that the cash provided by our operating activities will be insufficient to meet required payments of principal and interest. Disruptions in the capital and credit markets may adversely affect our operations, including the ability to fund the planned capital expenditures and potential new developments or acquisitions. Further, there is the risk that we will not be able to repay or refinance existing indebtedness or that the terms of any refinancing will not be as favorable as the terms of existing indebtedness. If we are unable to access capital markets to refinance our indebtedness on acceptable terms, we might be forced to dispose of properties on disadvantageous terms, which might result in losses.

### Risks Related to Federal Income Tax Laws

The Company's failure to qualify as a REIT could subject our earnings to corporate level taxation.

We believe that we have operated and intend to operate in a manner that permits the Company to qualify as a REIT under the Internal Revenue Code of 1986, as amended. However, we cannot assure you that the Company has qualified or will remain qualified as a REIT. If in any taxable year the Company were to fail to qualify as a REIT and certain statutory relief provisions were not applicable, the Company would not be allowed a deduction for distributions to shareholders in computing taxable income and would be subject to U.S. federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. The Company's failure to qualify for taxation as a REIT would have an adverse effect on the market price and marketability of our securities.

The Company is required by law to make distributions to our shareholders.

To obtain the favorable tax treatment associated with the Company's qualification as a REIT, generally, the Company is required to distribute to its shareholders at least 90% of its net taxable income (excluding capital gains) each year. The Company depends upon distributions or other payments from the Operating Partnership to make distributions to the Company's common shareholders. A recent IRS revenue procedure allows the Company to satisfy the REIT income distribution requirement by distributing up to 90% of the dividends on its common shares in the form of additional common shares in lieu of paying dividends entirely in cash. Although we reserve the right to utilize this procedure in the future, we currently have no intent to do so. In the event that the Company pays a portion of a dividend in shares, taxable U.S. shareholders would be required to pay income tax on the entire amount of the dividend, including the portion paid in shares, in which case such shareholders might have to pay the income tax using cash from other sources. If a U.S. shareholder sells the shares it receives as a dividend in order to pay this income tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our shares at the time of the sale.

### Risks Related to our Organizational Structure

The Company depends on distributions from the Operating Partnership to meet its financial obligations, including dividends.

The Company's operations are conducted by the Operating Partnership, and the Company's only significant asset is its interest in the Operating Partnership. As a result, the Company depends upon distributions or other payments from the Operating Partnership in order to meet its financial obligations, including its obligations under any guarantees or to pay dividends or liquidation payments to its common shareholders. As a result, these obligations are effectively subordinated to existing and future liabilities of the Operating Partnership. The Operating Partnership is a party to loan agreements with various bank lenders that require the Operating Partnership to comply with various financial and other covenants before it may make distributions to the Company. Although the Operating Partnership presently is in compliance with these covenants, there is no assurance that the Operating Partnership will continue to be in compliance and that it will be able to make distributions to the Company.

## Item 1B. Unresolved Staff Comments

There are no unresolved staff comments from the Commission for either the Company or the Operating Partnership.

## Item 2. Properties

As of February 1, 2012, our consolidated portfolio consisted of 36 outlet centers totaling 10.7 million square feet located in 24 states. We own interests in three other outlet centers totaling approximately 1.1 million square feet through unconsolidated joint ventures, including one outlet center in Ontario, Canada. Our centers range in size from 24,619 to 729,736 square feet. The centers are generally located near tourist destinations or along major interstate highways to provide visibility and accessibility to potential customers.

We believe that the centers are well diversified geographically and by tenant and that we are not dependent upon any single property or tenant. Our Riverhead, New York center is the only property that represented 10% or more of our consolidated total revenues for the year ended December 31, 2011. Our Atlantic City, NJ center is the only property that represents 10% or more of our consolidated total assets as of December 31, 2011. See “Properties - Significant Property” for further details.

We have an ongoing strategy of acquiring centers, developing new centers and expanding existing centers. See “Management's Discussion and Analysis of Financial Condition and Results of Operations--Liquidity and Capital Resources” for a discussion of the cost of such programs and the sources of financing thereof.

Of the 36 outlet centers in our consolidated portfolio, we own the land underlying 30 and have ground leases on six. The following table sets forth information about the land leases on which all or a portion of the six centers are located:

Outlet Center	Acres	Expiration	Expiration including renewal terms
Myrtle Beach Hwy 17, SC	40.0	2027	2096
Atlantic City, NJ	21.3	2101	2101
Ocean City, MD	18.5	2084	2084
Sevierville, TN	41.6	2046	2046
Riverhead, NY	47.0	2014	2039
Rehoboth Beach, DE	2.7	2044	(1)

(1) Lease may be renewed at our option for additional terms of twenty years each.

The initial term of our typical tenant lease averages approximately five years. Generally, leases provide for the payment of fixed monthly rent in advance. There are often contractual base rent increases during the initial term of the lease. In addition, the rental payments are customarily subject to upward adjustments based upon tenant sales volume. Most leases provide for payment by the tenant of real estate taxes, insurance, common area maintenance, advertising and promotion expenses incurred by the applicable center. As a result, the majority of our operating expenses for the centers are borne by the tenants.

The following table summarizes certain information with respect to our consolidated outlet centers as of February 1, 2012.

Excludes leases that have been entered into but which tenant has not yet taken possession, vacant suites, space (1) under construction, temporary leases and month-to-month leases totaling in the aggregate approximately 669,000 square feet.

(2) Annualized base rent is defined as the minimum monthly payments due as of February 1, 2012 annualized, excluding periodic contractual fixed increases and rents calculated based on a percentage of tenants' sales. The annualized base rent disclosed in the table above includes all concessions, abatements and reimbursements of rent to tenants.

## Rental and Occupancy Rates

The following table sets forth information regarding the expiring leases for our consolidated outlet centers during each of the last five calendar years.

Year	Total Expiring		Renewed by Existing Tenants	
	Square Feet	% of Total Center Square Feet	Square Feet	% of Expiring Square Feet
2011	1,771,000	18	1,459,000	82

2007	1,572,000	19	1,246,000	79

The following table sets forth the weighted average base rental rate increases per square foot on a straight-line basis (includes periodic, contractual fixed rent increases) for our consolidated outlet centers upon re-leasing stores that were turned over or renewed during each of the last five calendar years.

Year	Renewals of Existing Leases				Stores Re-leased to New Tenants <sup>(1)</sup>			
	Square Feet	Average Annualized Base Rents (\$ per sq. ft.)			Square Feet	Average Annualized Base Rents (\$ per sq. ft.)		
		Expiring	New	% Increase		Expiring	New	% Increase
2011	1,459,000	\$18.16	\$20.54	13	548,000	\$18.82	\$28.24	50
2010	1,217,000	\$18.00	\$19.65	9	432,000	\$19.21	\$24.18	26

2008	1,103,000	\$17.29	\$20.31	17	492,000	\$18.03	\$25.97	44
2007	1,246,000	\$15.94	\$18.15	14	610,000	\$16.75	\$23.41	40

The square footage released to new tenants for 2011, 2010, 2009, 2008 and 2007 contains 172,000, 91,000, 73,000, (1) 139,000 and 164,000 square feet, respectively, that was released to new tenants upon expiration of an existing lease during the current year.

#### Occupancy Costs

We believe that our ratio of average tenant occupancy cost (which includes base rent, common area maintenance, real estate taxes, insurance, advertising and promotions) to average sales per square foot is low relative to other forms of retail distribution. The following table sets forth for tenants that report sales, for each of the last five years, tenant occupancy costs per square foot as a percentage of reported tenant sales per square foot for our consolidated outlet centers.

Year	Occupancy Costs as a % of Tenant Sales
2011	8.4
2010	8.3
2009	8.5
2008	8.2
2007	7.7

## Significant Properties

The Riverhead, NY outlet center is the only property that comprises 10% or more of our consolidated gross revenues. The Riverhead center, originally constructed in 1994, represented 11% of our consolidated total revenues for the year ended December 31, 2011. The Atlantic City, NJ outlet center is the only property that comprises 10% or more of our consolidated total assets. The Atlantic City outlet center, acquired during 2011, represented 10% of our consolidated total assets as of December 31, 2011.

Tenants at the Riverhead and Atlantic City centers principally conduct retail sales operations. The following table shows occupancy and certain base rental information related to these properties as of December 31, 2011, 2010 and 2009:

Center Occupancy	Square Feet	2011	2010	2009	
Riverhead, NY	729,736	99	% 100	% 99	%
Atlantic City, NJ	489,762	99	% N/A	N/A	
Average base rental rates per weighted average square foot		2011	2010	2009	
Riverhead, NY		\$28.63	\$27.89	\$26.21	
Atlantic City, NJ <sup>(1)</sup>		*	N/A	N/A	

(1) Note that center was acquired during 2011 so annualized data not available.

Depreciation on the outlet centers is computed on the straight-line basis over the estimated useful lives of the assets. We generally use estimated lives ranging from 33 years for buildings, 15 years for land improvements and 7 years for equipment. Expenditures for ordinary repairs and maintenance are charged to operations as incurred while significant renovations and improvements, including tenant finishing allowances, which improve and/or extend the useful life of the asset are capitalized and depreciated over their estimated useful life. At December 31, 2011, the net federal tax basis of the Riverhead and Atlantic City outlet centers was approximately \$230.4 million. Real estate taxes assessed on these centers during 2011 amounted to \$4.9 million. Real estate taxes for 2012 are estimated to be approximately \$5.0 million.

The following table sets forth, as of February 1, 2012, combined, scheduled lease expirations at the Riverhead and Atlantic City outlet centers assuming that none of the tenants exercise renewal options:

## Dividends

The Company operates in a manner intended to enable it to qualify as a REIT under the Internal Revenue Code, or the Code. A REIT is required to distribute at least 90% of its taxable income to its shareholders each year. We intend to continue to qualify as a REIT and to distribute substantially all of our taxable income to our shareholders through the payment of regular quarterly dividends. Certain of our debt agreements limit the payment of dividends such that dividends shall not exceed funds from operations ("FFO"), as defined in the agreements, for the prior fiscal year on an annual basis or 95% of FFO on a cumulative basis.

## Securities Authorized for Issuance under Equity Compensation Plans

The information required by this Item is set forth in Part III Item 12 of this document.

## Performance Graph

The following Performance Graph and related information shall not be deemed “soliciting material” or to be “filed” with the Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Act, or the Securities Exchange Act of 1934, as amended, or the Exchange Act, except to the extent that the Company specifically incorporates it by reference into such filing.

The following share price performance chart compares our performance to the index of equity REITs prepared by the National Association of Real Estate Investment Trusts (“NAREIT”), and the SNL Shopping Center REIT index prepared by SNL Financial. Equity REITs are defined as those that derive more than 75% of their income from equity investments in real estate assets. The NAREIT equity index includes all tax qualified real estate investment trusts listed on the New York Stock Exchange, American Stock Exchange or the NASDAQ National Market System.

All share price performance assumes an initial investment of \$100 at the beginning of the period and assumes the reinvestment of dividends. Share price performance, presented for the five years ended December 31, 2011, is not necessarily indicative of future results.
