RADVISION Reports Second Quarter 2005 Results

Tuesday July 19, 8:16 am ET

FAIR LAWN, N.J.--(BUSINESS WIRE)--July 19, 2005--RADVISION (Nasdaq: RVSN - News) today announced that revenues for the second quarter of 2005 were \$17.5 million, versus a forecast of \$18.0 million, representing an 11% increase from the second quarter of 2004.

Operating income for the second quarter of 2005 increased to \$2.2 million, as forecasted, from \$688,000 in the 2004 second quarter.

Net income for the 2005 second quarter was \$2.9 million or \$0.13 per diluted share, versus a forecast of \$2.7 million or \$0.12 per diluted share, compared with \$1.1 million or \$0.05 per diluted share reported in the 2004 second quarter.

Business Unit revenues for the second quarter of 2005 consisted of \$11.9 million in Networking Business Unit (NBU) sales and \$5.6 million in Technology Business Unit (TBU) sales, representing increases of 5% and 27%, respectively, over the second quarter of 2004.

For the first six months of 2005, revenues were \$33.8 million, operating income was \$4.1 million and net income was \$5.4 million or \$0.24 per diluted share. For the first half of 2004, revenues were \$30.0 million, operating income was \$995,000 and net income was \$1.8 million or \$0.09 per share.

The Company ended the second quarter of 2005 with approximately \$112.4 million in cash and liquid investments, an increase of \$5.1 million over Q1 2005, and equivalent to \$5.35 per basic share. The increase reflects cash flow of \$3.7 million from operations and income of \$1.9 million from the exercise of options, offset by \$500,000 in capital expenditures.

Gadi Tamari, Chief Executive Officer, commented: "In the second quarter we stayed focused on all our markets- on desktop, 3G and in the traditional room conferencing market as well as in the developer market.

"In desktop, we achieved good initial sales in the U.S. federal market of Click to Meet(TM), which we acquired in March, as well as in the commercial markets in Asia Pacific and EMEA. Going forward, our primary goal is to integrate Click to Meet(TM) technology and sell it within Microsoft solutions. During the quarter, we demonstrated it in China and the U.S. In addition, we are integrating Click to Meet with our ViaIP platform for comprehensive room/desktop/3G solution."

"Our 3G hardware revenues were solid in the second quarter, still mainly from trials and pilots. We expect that market to develop more in the future, by which

time we expect our revenues to ramp up significantly. Our positive expectations are reaffirmed by both the growing number of Service Provider trials and deployments as well as the growing demand for our 3G developer products in the TBU.

"Our TBU also made additional inroads with our chipset and telecom equipment customers in the second quarter as our toolkits increasingly win against open source-based internal development.

"In the room conferencing market, our sales through Cisco exceeded our expectations in the second quarter. However, sales in our other traditional channels in the U.S., except for federal, were below the level expected. We have named a new VP of NBU Sales for the Americas to drive growth in our channel sales. We also intend to increase our share of the room conferencing market by working with major partners such as Aethra, with whom we announced an important new agreement today. Aethra is one of the largest videoconferencing suppliers in the world. We already announced a similar relationship with Sony, one of the top four suppliers in this market."

Mr. Tamari concluded: "We see increasing market validation that our vision of the personal multimedia communications market was right from the start. We will continue focusing on enabling that market and executing our plan."

Guidance

The following statements are forward-looking, and actual results may differ materially.

The Company expects third quarter 2005 revenues to be approximately \$18.5 million and net income to approximate \$3.4 million or \$0.15 per diluted share. This compares to third quarter 2004 revenues of \$16.7 million and net income of \$1.4 million or \$0.07 per diluted share.
