outsourcing and privatization of various services. The service and support activities to be performed by Cyclone under the new contract are in line with other outsourcing services being performed by Elbit Systems for the IAF. Elbit Systems is currently operating the "Snunit" GROB 120I trainer aircraft for the IAF Flight School. The "Snunit" program is a Private Finance Initiative (PFI) contract, under which the trainer aircraft are owned and fully maintained by Elbit Systems. The "Snunit" trainers have already accumulated thousands of operational hours in the service of the IAF Flight School.

Joseph Ackerman, President and CEO of Elbit Systems, commented:

"The contract for the maintenance and support of the IAF Flight School helicopters is an additional important milestone in the realization of Elbit Systems' strategy to expand its activities in the area of maintenance, support and operation services, in Israel and worldwide."
