Tanker Market

The tanker market improved during the fourth quarter of 2002 due to an increase in tanker demand combined with continued tight tanker supply following the sinking of the tanker Prestige in November 2002. Global oil demand, an underlying driver of tanker demand, rose by 2.0 million barrels per day (mb/d) to 78.7 mb/d in the fourth quarter of 2002, compared to third quarter levels, primarily due to seasonal factors and the shutdown of nuclear power plants in Japan. Global oil production increased by 1.3 mb/d to 77.9 mb/d in the fourth quarter of 2002, compared to third quarter levels. The general strike in Venezuela disrupted oil exports and reduced Venezuela's output from 3.4 mb/d in November 2002 to 0.9 mb/d in December 2002. This resulted in the replacement of short-haul crude supplies with long-haul supplies to meet the production shortfall, increasing tanker tonne-mile demand in the fourth quarter. The sinking of the Prestige, a 26-year-old vessel, contributed to increased charterer discrimination against older vessels, resulting in an increased demand for more modern vessels.

The International Energy Agency (IEA) reported annual global oil demand growth of 0.5% during 2002 and, as of February 12, 2003, was forecasting oil demand of 78.0 mb/d for 2003, a 1.5% increase over 2002.

The size of the world tanker fleet increased to 307.5 million deadweight tonnes (mdwt) as of December 31, 2002, up 1.1% from the end of the previous quarter. A total of 3.2 mdwt was sold for demolition in the fourth quarter, compared to 4.0 mdwt in the previous quarter, while deliveries of tanker newbuildings during the fourth quarter totalled 6.9 mdwt, up from 5.6 mdwt in the previous quarter. Overall for 2002, the world tanker fleet grew by 2.8 mdwt, or 0.9%, compared to the end of 2001.

As of December 31, 2002, the world tanker orderbook was 60.5 mdwt, representing 19.7% of the of the total world tanker fleet, compared to 60.4 mdwt, or 19.8%, at the end of the previous quarter and down from 63.1 mdwt, or 20.7%, as of December 31, 2001. The Aframax tanker orderbook as of December 31, 2002 remained unchanged from the previous quarter, consisting of 131 ships, or 20.4% of the world Aframax fleet, compared to 121 ships, or 19.2%, as of December 31, 2001.

Teekay Fleet

As of December 31, 2002, the Teekay fleet (excluding vessels managed for third parties) consisted of 102 vessels, including five time-chartered-in Aframax tankers and twelve newbuilding tankers on order. On November 19, 2002, Teekay took delivery of an Aframax shuttle tanker newbuilding, which commenced a long-term charter for eight years. In addition, during the fourth quarter, Teekay entered into a long-term bareboat in-charter for an Aframax newbuilding expected to deliver in the fourth quarter of 2003.

The following is a summary of the Teekay fleet as of December 31, 2002:

Edgar Filing: TEEKAY SHIPPING CORP - Form 6-K

(3) Includes six shuttle tankers of which Teekay's ownership interest ranges from 50% to 89%.

Other Highlights

On December 16, 2002, Teekay and Statoil ASA announced a definitive agreement under which Teekay will acquire Statoil's wholly-owned shipping company, Navion ASA, on a debt free basis, for approximately US \$800 million in cash. As previously announced, this transaction is expected to close in the second quarter of 2003.

On February 18, 2003, Teekay announced that it had completed the sale of its 7.25% Premium Equity Participating Security Units (PEPS Units) pursuant to its currently effective universal shelf registration statement. The sale consisted of 5,750,000 PEPS Units, including 750,000 PEPS Units issued in connection with the exercise by the underwriters' of their over-allotment option. Teekay received gross proceeds of \$143.75 million from the sale. Proceeds from the offering may be used to finance potential acquisitions and for general corporate purposes, including capital expenditures, working capital, and the repayment of debt.

Teekay Shipping Corporation is a leading provider of international crude oil and petroleum product transportation services through the world's largest fleet of medium-sized oil tankers. Headquartered in Nassau, Bahamas, with offices in 11 other countries, Teekay employs more than 4,100 seagoing and shore-based staff around the world. The Company's fleet has earned a reputation for safety and excellence in providing transportation services to major oil companies, oil traders and government agencies worldwide.

Teekay's common stock is listed on the New York Stock Exchange where it trades under the symbol "TK".

The Company plans to host a conference call at 11:00 a.m. EDT (8:00 a.m. PDT) on February 20, 2003, to discuss the results for the quarter. All shareholders and interested parties are invited to listen to the live conference call through www.teekay.com. A recording of the call will be available until February 27, 2003 by dialing (719) 457-0825, access code 463361, or via the Company's Web site until March 20, 2003.

FORWARD LOOKING STATEMENTS

This release contains forward-looking statements (as defined in Section 21E of the Securities Exchange Act of 1934, as amended) which reflect management's current views with respect to certain future events and performance, including statements regarding tanker charter rates, the balance of supply and demand in the crude tanker market, and the expected closing of Teekay's acquisition of Navion ASA. The following factors are among those that could cause actual results to differ materially from the forward-looking statements, which involve risks and uncertainties, and that should be considered in evaluating any such statement: changes in production of or demand for oil and petroleum products, either generally or in particular regions; greater or less than anticipated levels of tanker newbuilding orders or greater or less than anticipated rates of tanker scrapping; changes in trading patterns significantly impacting overall tanker tonnage requirements; changes in applicable industry regulations; changes in the typical seasonal variations in tanker charter rates; the potential inability to close the Navion transaction; and other factors discussed in Teekay's Report on Form 20-F for the fiscal year ended December 31, 2001 and subsequent SEC filings, including the Rule 424(B) prospectus supplement filed with the SEC on February 14, 2003.
