EARTHSHELL CORPORATION

**PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS
MAY 29, 2002**

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

This Proxy Statement is furnished to the stockholders of EarthShell Corporation, a Delaware corporation (the "Company"), in connection with the solicitation of proxies by the Board of Directors of the Company for use at the 2002 Annual Meeting of Stockholders (the "Annual Meeting") to be held at the Fess Parker's DoubleTree Resort Santa Barbara, 633 E. Cabrillo Boulevard, Santa Barbara, California 93103, at 10:00 a.m. Pacific Daylight Time, on May 29, 2002, and at any and all adjournments or postponements thereof. This Proxy Statement and the form of proxy were mailed on or about April 24, 2002 to all stockholders entitled to vote at the Annual Meeting.

The cost of the solicitation of proxies will be borne by the Company. In addition to solicitation by mail, directors and officers of the Company, without receiving any additional compensation, may solicit proxies personally or by telephone or telegraph. The Company will request brokerage houses, banks, and other custodians or nominees holding stock in their names for others to forward proxy materials to their customers or principals who are the beneficial owners of shares and will reimburse them for their expenses in doing so. The Company has retained the services of U.S. Stock Transfer Corporation to assist in the solicitation of proxies from brokerage houses, banks and other custodians or nominees holding stock in their names for others.

Record Date and Voting

On April 17, 2002, the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting, the Company had 131,031,891 shares of common stock, par value \$.01 per share (the "Common Stock"), outstanding. Each such share of Common Stock is entitled to one vote on all matters properly brought before the meeting. The vote of a plurality of the shares cast in person or by proxy is required to elect a nominee for director. With respect to the election of each director at the Annual Meeting, each holder of Common Stock is entitled to vote the number of shares owned by such stockholder. The nominees who receive the greatest number of votes, up to the number of directors then to be elected, shall be the persons then elected. Stockholders are not permitted to cumulate their shares of Common Stock for the purpose of electing directors or otherwise.

Presence at the Annual Meeting, in person or by proxy, of a majority of the outstanding shares of Common Stock will constitute a quorum for the transaction of business at the Annual Meeting or any adjournment thereof. Abstentions or broker non-votes are counted for purposes of determining the presence of a quorum for transaction of business. With regard to the election of directors, votes may be cast in favor or withheld; votes that are withheld will be excluded entirely from the vote and will have no effect. Broker non-votes are shares which are represented at the Annual Meeting which a broker or nominee has indicated it does not have discretionary authority to vote. A broker non-vote will generally have the effect of a negative vote.

Simon K. Hodson and D. Scott Houston, the persons named as proxyholders on the proxy card accompanying this Proxy Statement, were selected by the Board of Directors to serve in that capacity. Mr. Hodson is a director of the Company.

Unless contrary instructions are indicated on the proxy, all shares of Common Stock represented by valid proxies received pursuant to this solicitation (and not revoked in writing before they are voted) will be voted at the Annual Meeting FOR the nominees named below for election as directors. With respect to any other business, which may properly come before the Annual Meeting and

2

be submitted to a vote of stockholders, proxies received by the Board of Directors will be voted in accordance with the best judgment of the designated proxy holders. Under the Company's Bylaws, stockholder proposals may be made at the Annual Meeting only pursuant to a timely notice in writing delivered or mailed to the Secretary of the Company at the Company's offices at 800 Miramonte Drive, Santa Barbara, California 93109 not more than the tenth day following the first public announcement of the Annual Meeting. A stockholder may revoke his or her proxy at any time before exercise by delivering to the Secretary of the Company a written notice of such revocation, by filing with the Secretary of the Company a duly executed proxy bearing a later date, or by voting in person at the Annual Meeting, provided, however, that, in accordance with the Company's Bylaws, the stockholder has delivered to the Secretary a written notice of the stockholder's intention to revoke the proxy and vote in person prior to the voting of the proxy.

ELECTION OF DIRECTORS

The Board of Directors of the Company is currently comprised of seven members. All directors are elected each year at the annual meeting of stockholders. In the absence of instructions to the contrary, the persons named as proxy holders in the accompanying proxy intend to vote in favor of the election of the nominees designated below to serve until the next annual meeting of stockholders and until their respective successors shall have been elected and qualified. The Board of Directors expects that each of the nominees will be available to serve as a director, except for Mr. Noling, who has notified the Company that he will not stand for re-election. If any other such nominee should become unavailable for election, the shares of Common Stock represented by the enclosed proxy may (unless such proxy contains instructions to the

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

contrary) be voted for such other person or persons as may be determined by the proxy holders. The Company is in the process of selecting another nominee to fill the vacancy that will be left by the departure of Mr. Noling.

The Audit Committee also received from the independent auditors the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with them their independence from the Company and its management. The Audit Committee has further considered whether the independent auditors' provision of non-audit services provided by the auditors to the Company is compatible with the firm's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 for filing with the Securities and Exchange Commission.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors and persons who own more than 10% of the Company's common stock to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the SEC. Executive officers, directors and 10% stockholders are required by the SEC to furnish the Company with copies of all Forms 3, 4 and 5 that they file.

Based solely on the Company's review of the copies of such forms it has received and representations from certain reporting persons that they were not required to file a Form 5 for specified fiscal years, the Company believes that all of its executive officers, directors and greater than 10% stockholders have complied with all of the filing requirements applicable to them with respect to transactions during the fiscal year ended December 31, 2001.

Compensation Committee Interlocks and Insider Participation

All decisions relating to executive compensation during 2001 were made by the Company's Compensation Committee, which was comprised of Messrs. Khashoggi, Marsh and Noling. Ms. Lynn Scarlett served on the Compensation Committee until she resigned from the Board of Directors effective July 21, 2001 and was replaced by Mr. Noling. None of the members were officers of the Company in 2001. Mr. Khashoggi is the controlling shareholder in EKI, the Company's principal stockholder with whom the Company has certain relationships and related transactions described below. Mr. Khashoggi owns a 48.10% beneficial ownership of the Company.

Pursuant to an Amended and Restated License Agreement between the Company and EKI (the "License Agreement"), the Company has been granted a world-wide, exclusive, royalty-free license to utilize and sublicense others to utilize EKI's propriety technology in manufacturing, selling, and otherwise commercially developing EarthShell foodservice disposables. The License Agreement grants the Company exclusive rights to issued patents, pending patents and trade secrets to the extent that they relate to foodservice disposables produced from inorganic-based materials. The Company also has certain business, reporting, indemnification and confidentiality obligations under the License Agreement.

The Company is currently in the process of finalizing an expansion to the exclusive licensing arrangement with EKI to exploit technology that is complementary to EarthShell's licensed technology but which is currently outside the scope of the License Agreement. The proposed expansion of the licensed technology will include food and sandwich wraps used as food service disposables, as well as certain food packaging applications not previously considered within the definition of food service disposables, including meat and deli trays, and noodle bowls used for packaging instant noodles. EKI has previously granted to the Company priority rights to license certain product applications from EKI's subsidiary. Effective January 1, 2001 the Company commenced paying \$100,000 a month to EKI for the exclusive negotiating rights to this technology. The Company has the right to terminate the exclusive licensing arrangement on thirty days notice, and during the period that the monthly licensing fees are paid, the EKI subsidiary will render technical services requested by the Company at the subsidiary's cost (including an allocable share of indirect costs).

On February 16, 1998, EKI entered into a patent purchase agreement with a third party for the purchase of certain technology that is applicable to starch-based disposable packaging. Pursuant to the terms of the License Agreement, EKI is licensing such technology to the Company. In connection with this purchase, the Company entered an agreement to pay to EKI (for payment to the seller of the technology) \$3.5 million on or about December 31, 2003. The Company's obligation will be reduced by

5% of the purchase price of any equipment purchased by EKI, the Company or its licensees or joint ventures from the seller of the technology. In addition, the Company is required to pay \$3 million over the five-year period commencing January 1, 2004 if EKI, the Company or the Company's licensees or joint ventures have not purchased, by December 31, 2003, at least \$35 million of equipment from the seller of the technology and if EKI, the Company or the Company's licensees or joint ventures actively use the purchased technology.

Agreement for Allocation of Patent Costs

In prior years, under an Amended and Restated Agreement for the Allocation of Patent Costs (the "Patent Agreement"), the Company reimbursed EKI for the costs and expenses incurred in filing, prosecuting, acquiring and maintaining certain patents and patent applications relating to the technology licensed to the Company under an License Agreement. Effective January 1, 2001, EarthShell assumed direct responsibility to manage and maintain the patent portfolio underlying the License Agreement with EKI and to pay directly all related costs.

Termination of Prior Technical Services Agreement

As of January 1, 2001, the Company terminated the prior Technical Services Agreement (pursuant to which EKI rendered technical services to the Company at scheduled hourly billing rates) and hired directly from EKI the scientific, technical and administrative personnel it required for its business operations. The Company did not assume any accrued compensation obligations in connection with the transfer of the employees, and EKI remained obligated to pay all accrued vacation, severance and sick pay liabilities. Effective also on January 1, 2001, the Company assumed direct responsibility for the lease obligations related to the Company's office and laboratory space in Santa Barbara and entered into a new lease for such space (cancelable on six-months' notice) beginning April 1, 2001. The Company also purchased from EKI certain operating equipment and machinery, furniture, supplies, tools and leasehold improvements to facilitate the transfer of the EKI employees to the Company. The Company paid \$900,000 for the assets. The Company verified with third party sources that the purchase price of the assets purchased did not exceed the fair market value.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors of EarthShell Corporation is pleased to present its annual report on executive compensation. This report describes the function of the Compensation Committee, the objectives of the Company's executive compensation program, the various components of compensation, and explains the basis upon which 2001 compensation determinations were made by the Compensation Committee with respect to the executive officers of the Company, including the officers that are named in the compensation tables.

Compensation Committee Charter

The Compensation Committee is charged with the following responsibilities:

reviewing and recommending to the Board of Directors the annual base salary, bonus and other benefits for the senior executive officers of the Company;

reviewing and commenting on new executive compensation programs that the Company proposes to adopt;

periodically reviewing the results of the Company's executive compensation and perquisite programs to ensure that they are properly coordinated to yield payments and benefits that are reasonably related to executive performance;

ensuring that a significant portion of executive compensation is reasonably related to the long-term interests of the stockholders;

participating in the preparation of certain portions of the Company's annual proxy statement;

if necessary, hiring a compensation expert to provide independent advice on compensation levels; and

ensuring that the Company undertakes appropriate planning for management succession and advancement.

Compensation Philosophy

The primary objective of the Company's executive compensation program is to help the Company achieve its strategic business objectives and to create value for the Company's stockholders by attracting, motivating and retaining highly qualified employees with outstanding ability. In addition, the compensation program is designed to promote teamwork, initiative and resourcefulness on the part of key employees whose performance and responsibilities directly affect Company profits. The compensation program strives to align compensation methods with stockholder interests to achieve desired results and, above all, to pay for performance.

Compensation Components

The Company's executive compensation program consists of a mixture of base salary, cash bonuses and stock options. In determining the mix and total amount of compensation for each executive officer, the Compensation Committee subjectively considers the executive's overall value to the Company including past and expected contributions by the officer to the Company's goals. In addition, the Compensation Committee strives to balance short-term and long-term incentive compensation to achieve desired results.

Shortly following the Company's initial public offering in March 1998, anticipating that it would be hiring several new executives as part of its next stage of development, the Company commissioned SCA Consulting LLC ("SCA"), a Los Angeles based executive compensation consulting firm, to update its executive compensation strategy and total pay structure. As part of its assignment, SCA developed a study of the compensation practices of newly public, development stage companies. The Compensation Committee references this study as it administers each of the three components of its executive compensation program to ensure that its compensation practices are competitive and that the overall compensation package appropriately attracts, motivates, rewards, and retains key employees with outstanding abilities.

Base Salary. The Company has historically determined base salary for its executives based on qualifications, job requirements and competitive market salaries that such qualifications and job requirements command. As the Company grows, it will continue to rely on peer group competitive compensation practices to remain consistent and competitive in its compensation practices.

Pursuant to an employment agreement effective October 15, 1993, Mr. D. Scott Houston, Chief Financial Officer and Secretary received base compensation during 2001 of \$320,000, reflecting the effects of various adjustments since 1993. The Company paid base compensation to Mr. Vincent Truant, Senior Vice President and Chief Marketing Officer, in the amount of \$275,000 for his services to the Company during 2001. The Company paid base compensation to Mr. Richard DiPasquale, Chief Technology Officer, in the amount of \$250,000 for his services to the Company during 2001. In addition, the Company paid a base salary to Mr. Per J. Andersen, Chief Science Officer in the amount of \$280,000 for his services to the Company during 2001.

Salaries for executives are reviewed by the Compensation Committee on an annual basis and may be adjusted based upon their assessment of the individual's contribution to and financial growth of the Company as well as competitive pay levels. The Compensation Committee of the Board of Directors made no executive salary adjustments in 2001.

Bonus. Bonuses may be granted for a fiscal year after the financial results for that fiscal year become available. The Compensation Committee meets to consider annual bonuses for each executive based on individual performance as well as overall financial results of the Company for the year. There is no plan requiring that bonuses be paid. However, pursuant to their employment agreements, certain executive officers may be entitled to receive an annual bonus, the actual amount of which shall be determined in the sole discretion of the Compensation Committee.

The Compensation Committee also may consider bonus compensation in light of the accomplishment of specific milestones developed by management in support of the annual strategic plan.

Edgar Filing: EARTHSHELL CORP - Form DEF 14A

On May 9, 2001, the Compensation Committee met to review and consider the performance of senior management following the acceptance by McDonalds Corporation® of the design of the EarthShell Packaging Container for the Big Mac® sandwich and its approval of the product for use in portions the McDonalds system. The Committee granted to individual members of management a bonus consisting of a combination of stock grants and fully vested stock options issued under the 1995 Stock Incentive Plan as follows;

	Stock Grants	Stock Options
Per J. Andersen	25,000	100,000
Richard M. DiPasquale	25,000	100,000
D. Scott Houston	25,000	100,000
Vincent Truant	50,000	100,000

The Company also paid the withholding taxes on the stock grants.

The value of the stock grants and associated withholding taxes are reflected in the executive compensation schedule under bonuses. The stock options granted are reflected in the Stock Options Grant table.

Stock Options. The Compensation Committee believes that significant equity interests in the Company in the form of stock options held by the Company's management serve to align the interests of the executive management team with stockholder interests. The Stock Option Committee, comprised of members of the Board of Directors, may grant stock options and restricted stock to executives and other key employees of the Company pursuant to the 1995 Stock Incentive Plan. As noted above, in 2001, options to acquire 100,000 shares of the Company's Common Stock at a purchase price of \$3.67 per share were granted to each of Messrs. Andersen, DiPasquale, Houston and Truant. The option price per share is equal to the closing price of the Company's Common Stock on the date of grant.

The Stock Option Committee will continue to consider various methods to provide additional incentives to management and employees of the Company, including granting additional stock options and/or restricted stock. In determining the grants of stock options and restricted stock, the Stock Option Committee will take into account, among other things, the respective scope of responsibility and the anticipated performance requirements and contributions to the Company of each proposed award recipient as well as the amount of prior grants.

Compensation to Chief Executive Officer in 2001

Mr. Simon Hodson, the Company's Chief Executive Officer, received base compensation of \$500,000 during 2001. The Board of Directors initially established Mr. Hodson's base salary prior to the formation of the Compensation Committee. It was based on the Board's assessment that Mr. Hodson was uniquely qualified to lead the Company through its early development stages. The Board determined that his vision for the Company, both from a technical and business viewpoint, would be pivotal to bringing the Company to the verge of commercializing its first product lines.

A founder of the Company and co-innovator of the technology, Mr. Hodson has been a driving force in making the Company as a corporation and as a new packaging concept a reality. His concern for the environment, coupled with his visionary leadership and commitment, has helped the Company achieve its current state of development. The Compensation Committee, therefore, concluded that the \$500,000 base salary compensation was appropriate for 2001.

Mr. Hodson owns a minority interest in EKI, the Company's majority stockholder.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), limits the deductibility of compensation over \$1 million to certain executive officers unless, in general, the compensation is paid pursuant to a plan which is performance related, non-discretionary and has been approved by the Company's stockholders. The Company did not pay any compensation in 2001 that would be subject to Code Section 162(m). The Compensation Committee intends to establish policies regarding qualification of compensation under Section 162(m) of the Code to the extent it considers such policies appropriate.
