**Item 5. Other Events**

This Form 8-K is being filed to provide updated information with respect to certain long-term operating leases to which ADC Telecommunications, Inc. (the "Company" or "ADC") is a party. ADC has a total of four long-term operating leases which have purchase options and minimum residual value guarantees, which are commonly known as "synthetic leases." As previously reported in the Company's Form 10-K for the fiscal year ended October 31, 2001, and Form 10-Q for the quarter ended January 31, 2002, ADC is contractually obligated to provide additional security to the lessors under two of these operating leases in the form of a first priority security interest in a substantial portion of the Company's assets. In order to grant this security interest or to make certain amendments to the lease documents, the consent of the lessors under the other two operating leases is required.

ADC has renegotiated its commitment to grant this security interest with the lessors and, in lieu of granting a first priority security interest in its assets, on April 30, 2002 the Company has pledged or agreed to pledge cash collateral in the aggregate amount of \$224.9 million under these four leases, which is in addition to \$29.4 million of cash collateral that had previously been pledged under these leases. In exchange for this pledge of additional cash collateral, the lessors have agreed to amend and in certain circumstances delete various financial and operating covenants under such leases and to reduce the minimum lease payments under such leases.

The table below summarizes the purchase option price, the minimum residual value guarantee and the collateral pledged or to be pledged to support the lease obligations under all four of ADC's long-term operating leases having such features:

	<b>Purchase Option Price</b>	<b>Minimum Residual Value Guarantee</b>	<b>Collateral</b>
Office Space World Headquarters Facility	\$ 132.3 million	\$ 116.4 million	Cash collateral in the amount of \$134.3 million
