Item 2.02 Results of Operation and Financial Condition

On July 25, 2018 the registrant provided an overview of the Company's unaudited financial results for the second quarter ended June 30, 2018. The Company's unaudited financial statements, Management's Discussion and Analysis together with other important disclosures can be found in the Company's Quarterly Report on Form 10-Q, filed on July 25, 2018 with the U.S. Securities and Exchange Commission and the Canadian securities regulatory authorities.

Summary of Q2 2018 Financial Results

We reported a net loss of \$1.9 million or \$0.02 per share for the three-month period ended June 30, 2018. The loss is substantially all comprised of operating expenses.

Our working capital at June 30, 2018 totaled approximately \$16.9 million, including cash and short-term investments (comprised of government securities) of approximately \$11.6 million. The Company currently has no debt.

Corporate Update

We continue to seek opportunities to improve the value of the Mt Todd gold project. Ongoing fine-grinding tests suggest that we will be able to achieve a finer grind size with the same or slightly lower power requirements. We expect to be able to announce the leach results associated with these grind-size tests in the near future.

Frederick H. Earnest, President and Chief Executive Officer, commented, "While we believe that the Mt Todd project demonstrates significant value at today's gold price, we are committed to achieving greater shareholder value that will accrue from our ongoing optimization work and improved market conditions."
