Section 2 - Financial Information

Item 2.02 Results of Operations and Financial Condition.

On September 8, 2011, the Registrant issued a press release announcing its results for the first quarter of fiscal 2012, which ended July 31, 2011. The information contained in the press release, which is attached as Exhibit 99.1 to this report, is incorporated herein by reference.

The press release contains certain non-GAAP financial information about the Registrant. The Registrant has reconciled the non-GAAP financial measure to the GAAP financial measure, which is contained within the press release.

The non-GAAP financial measure in the press release uses a financial measure computed in accordance with GAAP as a starting point. The GAAP measure is adjusted by the impact of certain significant items to arrive at the non-GAAP financial measure. Management believes that this non-GAAP financial measure reflects an additional way of viewing aspects of our business that, when viewed together with our financial results computed in accordance with GAAP, provide a more complete understanding of factors and trends affecting our historical financial performance and projected future operating results. This combined view of GAAP and non-GAAP measures also provides greater transparency of underlying profit trends and better comparability of results across periods. Additionally, investors frequently request information from management regarding significant items and management believes, based on feedback it has received during earnings calls and discussions with investors, that these non-GAAP measures enhance investors' ability to assess our historical performance and to project future financial performance. This non-GAAP financial measure is not intended to be a substitute for the comparable GAAP measure and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Management also uses certain non-GAAP financial measures, in conjunction with the GAAP financial measures, to understand, manage and evaluate our businesses and in planning for and forecasting financial results for future periods.
