(the "Company"), for use at the Special Meeting of Shareholders (the "Special Meeting") to be held on Tuesday, March 10, 2009, at 4:00 p.m., at the Interlaken Inn, Lakeville, Connecticut 06039, and at any and all adjournments thereof. Any Proxy given may be revoked at any time before it is actually voted on any matter in accordance with the procedures set forth on the Notice of Special Meeting. This Proxy Statement and the enclosed form of Proxy are being mailed to shareholders (the "Shareholders") on or about February 9, 2009. The cost of preparing, assembling and mailing this Proxy Statement and the material enclosed herewith is being borne by the Company. In addition, proxies may be solicited by Directors, officers and employees of the Company and Salisbury Bank and Trust Company (the "Bank") personally by telephone or other means. The Company will reimburse banks, brokers, and other custodians, nominees, and fiduciaries for their reasonable and actual costs in sending the proxy materials to the beneficial owners of the Company's common stock (the "Common Stock"). The Company has engaged Morrow & Co., LLC to assist in the solicitation of proxies at a fee of \$7,500 plus expenses.

If your shares are in a brokerage or fiduciary account, your broker or bank will send you a voting instruction form instead of a Proxy. Please follow the instructions on such form to instruct your broker or bank how to vote your shares. If you wish to attend the Special Meeting and vote your shares in person, you must follow the instructions on the voting instructions form to obtain a legal proxy from your broker or bank.

OUTSTANDING STOCK AND VOTING RIGHTS

outstanding and entitled to vote and held of record by approximately 1,500 shareholders of Record. Each share of Common Stock is entitled to one vote on all matters to be presented at the Special Meeting. Votes withheld, abstentions and broker non-votes are counted only for purposes of determining whether a quorum is present at the Special Meeting but will have the effect of a vote against Proposal 1.

*** PRELIMINARY COPY ***

A Proxy card is enclosed for your use. YOU ARE SOLICITED ON BEHALF OF THE BOARD OF DIRECTORS TO COMPLETE, DATE, SIGN AND RETURN THE PROXY CARD IN THE ACCOMPANYING ENVELOPE, which is postage-prepaid if mailed in the United States.

Executed, but unmarked proxies will be voted "FOR" Proposal 1 discussed in this Proxy Statement.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This Proxy Statement may include forward-looking statements relating to such matters as:

- (a) assumptions concerning future economic and business conditions and their effect on the economy in general and on the markets in which the Company and Salisbury Bank and Trust Company (the "Bank") do business; and
- (b) expectations for revenues and earnings for the Company and Bank.

Such forward-looking statements are based on assumptions rather than historical or current facts and, therefore, are inherently uncertain and subject to risk. For those statements, the Company claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Act of 1995.

The Company notes that a variety of factors could cause the actual results or experience to differ materially from the anticipated results or other expectations described or implied by such forward-looking statements. The risks and uncertainties that may affect the operation, performance, development and results of the Company's and Bank's business include the following:

- (a) the risk of adverse changes in business conditions in the banking industry generally and in the specific markets in which the Bank operates;
- (b) changes in the legislative and regulatory environment that negatively impacts the Company and Bank through increased operating expenses;
- (c) increased competition from other financial and non-financial institutions;
- (d) the impact of technological advances; and
- (e) other risks detailed from time to time in the Company's filings with the Securities and Exchange Commission.

Edgar Filing: SALISBURY BANCORP INC - Form PRE 14A

PROPOSAL 1

APPROVAL OF AMENDMENT TO CERTIFICATE OF INCORPORATION

DESCRIPTION OF THE PROPOSAL

The Board of Directors has adopted an amendment to the Company's Certificate of Incorporation to authorize a class of 25,000 shares of preferred stock, par value \$0.01 per share (the "Preferred Stock"). The full text of the proposed amendment to the Company's Certificate of Incorporation is set forth in Exhibit A to this proxy statement. The Company's Certificate of Incorporation currently authorizes only the issuance of Common Stock. The proposed amendment will vest in the Board of Directors the authority to determine by resolution the terms of one or more series of Preferred Stock, including the preferences, rights and limitations of each series. Provisions in a company's certificate of incorporation authorizing preferred stock in this manner are often referred to as "blank check" provisions, as they give a board of directors the flexibility, at any time or from time to time, without further shareholder approval (except as may be required by applicable laws, regulatory authorities or the rules of any stock exchange on which a company's securities are then listed), to create one or more series of preferred stock and to determine by resolution the terms of each such series. The Board of Directors believes that authorization of the Preferred Stock in the manner proposed will provide the Company with greater flexibility in meeting future capital requirements by creating series of Preferred Stock customized to meet the needs of particular transactions and then prevailing market conditions. Series of Preferred Stock would also be available for issuance from time to time for any other proper corporate purposes, including in connection with the redemption of the Preferred Stock described below, strategic alliances, joint ventures, or acquisitions.

The Board of Directors does not have any plans calling for the issuance of shares of Preferred Stock at the present time, other than the possible issuance of Preferred Stock to the U.S. Department of the Treasury (the "Treasury") in connection with the Treasury's recently announced Troubled Asset Relief Program ("TARP") Capital Purchase Program described below.

TERMS OF THE CAPITAL PURCHASE PROGRAM

On October 14, 2008, the Treasury announced the TARP Capital Purchase Program. This program encourages U.S. financial institutions to build capital to increase the flow of financing to U.S. businesses and consumers and to support the U.S. economy. Under the program, the Treasury will purchase senior preferred shares from banks, bank holding companies, and other financial institutions. The senior preferred shares will qualify as Tier 1 capital for regulatory purposes and will rank senior to common stock and at an equal level in the capital structure with any existing preferred shares other than preferred shares which by their terms rank junior to any other existing preferred shares. The senior preferred shares purchased by the Treasury will pay a cumulative dividend rate of 5 percent per annum for the first five years they are outstanding and thereafter at a rate of 9 percent per annum. The senior preferred shares will be non-voting, other than voting rights on matters that could adversely affect the shares. The shares will be callable at one hundred percent of their issue price plus any accrued and unpaid dividends after three years.

*** PRELIMINARY COPY ***

Prior to the end of three years, the senior preferred shares may be redeemed with the proceeds from a qualifying equity offering of any Tier 1 perpetual preferred or common stock.

If dividends on the senior preferred shares are not paid in full for six dividend periods, whether or not consecutive, the senior preferred shares will have the right to elect two directors. The right to elect directors will end when full dividends have been paid for four consecutive dividend periods.

The Treasury will receive warrants to purchase a number of shares of common stock having an aggregate market price equal to 15% of the senior preferred shares on the date of investment, subject to reduction as set forth below. The initial exercise price for the warrants, and the market price for determining the number of shares of common stock subject to the warrants, will be the market price for the common stock on the date of the preliminary approval of the application (calculated on a 20-trading day trailing average), subject to customary anti-dilution adjustments. The warrants will have a term of ten years. The warrants will be immediately exercisable, in whole or in part. The warrants will not be subject to any contractual restrictions on transfer, provided that the Treasury may only transfer or exercise an aggregate of one-half of the warrants prior to the earlier of (i) the date on which the issuer has received aggregate gross proceeds of not less than 100% of the issue price of the senior preferred shares from one or more Qualified Equity Offerings (the sale by the issuer after the date of the sale of the senior preferred shares of Tier 1 qualifying perpetual preferred stock or common stock for cash) and (ii) December 31, 2009. In the event that the issuer receives aggregate gross proceeds of not less than 100% of the issue price of the senior preferred shares from one or more Qualified Equity Offerings on or prior to December 31, 2009, the number of shares of common stock underlying the warrants then held by the Treasury will be reduced by a number of shares equal to the product of (i) the number of shares originally underlying the warrants (taking into account all adjustments) and (ii) 0.5.

An issuer participating in the Capital Purchase Program will be required to file a shelf registration statement with the Securities and Exchange Commission for the purpose of registering the senior preferred shares, the warrants and the common stock underlying the warrants as promptly as practicable after the date of the sale of the senior preferred shares and will take all action required to cause the shelf registration statement to be declared effective as soon as possible and maintain the effectiveness of the registration statement. The issuer will be required to apply for the listing on the national exchange on which the issuer's common stock is traded of the common stock underlying the warrants and will take such other steps as may be reasonably requested to facilitate the transfer of the warrants or the common stock.

The Treasury will agree not to exercise voting power with respect to any shares of common stock of the issuer issued to it upon exercise of the warrants.

The Treasury's consent also will be required for any increase in common stock dividends per share or certain repurchases of common stock until the third anniversary of the date of the investment unless prior to the third anniversary that the senior preferred shares are issued are redeemed in whole or the Treasury has transferred all of the senior preferred shares to third parties.

*** PRELIMINARY COPY ***

Banks and bank holding companies participating in the Capital Purchase Program also must modify or terminate all benefit plans, arrangements and agreements (including golden parachute agreements) to the extent necessary to be in compliance with the executive compensation and corporate governance requirements of Section 111 of the Emergency Economic Stabilization Act of 2008 and any guidance or regulations issued by the Secretary of the Treasury for the period during which the Treasury holds equity issued under the Capital Purchase Program. These standards include: (i) ensuring that incentive compensation for specified senior executive officers does not encourage unnecessary and excessive risks that threaten the value of the Company; (ii) requiring a clawback of any bonus or incentive compensation paid to a specified senior executive officer based on statements of earnings, gains or other criteria that are later proven to be materially inaccurate; (iii) prohibiting the Company from making any golden parachute payment to a specified senior executive officer based on applicable Internal Revenue Code provisions; and (iv) agreeing not to deduct for tax purposes executive compensation in excess of \$500,000 for each specified senior officer executive.

The Company has reviewed its executive compensation arrangements and does not anticipate that it will be necessary to modify any existing employee plans or contracts to comply with the applicable limits on executive compensation described above.

See Exhibit B for the Summary of Senior Preferred Terms and Summary of Warrant Terms as published by the Treasury.

COMPANY PARTICIPATION IN THE CAPITAL PURCHASE PROGRAM

The Company received preliminary approval on January 7, 2009 from the Treasury to issue and sell up to 8,816 shares of the Preferred Stock and a warrant to purchase approximately 57,671 shares of Common Stock (the "Warrant") at an estimated exercise price of \$22.93 per share for aggregate consideration of \$8,816,000. Each share of Preferred Stock issued to the Treasury will have a liquidation preference of \$1,000. If the Company sells the maximum amount of Preferred Stock authorized under the Capital Purchase Program, the Company estimates that the ownership percentage of the current shareholders would be diluted by approximately 3.3% if the Warrant were fully exercised.

At September 30, 2008, the Company had capital ratios in excess of those required to be considered well-capitalized under banking regulations. The Board of Directors believes it is prudent for the Company to apply for capital available under the Capital Purchase Program because (i) the Company believes that the cost of capital under the Capital Purchase Program may be significantly lower than the cost of capital otherwise available to the Company at this time, and (ii) despite being well-capitalized, additional capital obtained under the capital Purchase Program would provide the Company additional flexibility to meet future capital needs that may arise.

The Board of Directors believes that the flexibility to issue shares of Preferred Stock other than under the Capital Purchase Program can enhance the Board of Director's arm's-length bargaining capability on behalf of the Company's shareholders in a takeover situation. However, under some circumstances, the ability to designate the rights of, and issue, Preferred Stock could be used by the Board of Directors to make a change in control of the Company more difficult.

*** PRELIMINARY COPY ***

The rights of the holders of the Company's Common Stock will be subject to, and may be adversely affected by, the rights of the holders of any Preferred Stock that may be issued in the future, including that issued under the Capital Purchase Program. To the extent that dividends will be payable on any issued shares of Preferred Stock, the result would be to reduce the amount otherwise available for payment of dividends on outstanding shares of the Company's Common Stock and there might be restrictions placed on the Company's ability to declare dividends on the Common Stock or to repurchase shares of Common Stock. The issuance of Preferred Stock having voting rights would dilute the voting power of the holders of Common Stock. To the extent that Preferred Stock is made convertible into shares of Common Stock, the effect, upon such conversion, would also be to dilute the voting power and ownership percentage of the holders of Common Stock. In addition, holders of Preferred Stock would normally receive superior rights in the event of any dissolution, liquidation, or winding up of the Company, thereby diminishing the rights of the holders of Common Stock to distribution of the Company's assets. Shares of Preferred Stock of any series would not entitle the holder to any pre-emptive right to purchase or subscribe for any shares of that or any other class.

PRO FORMA EFFECT ON THE CORPORATION'S FINANCIAL STATEMENTS

The following discusses the pro forma effect of participation in the Capital Purchase Program on the Company's financial statements. As indicated above, the Company was notified on January 7, 2009 that the Treasury had preliminarily approved the Company's application to participate in the Capital Purchase Program in the amount of \$8,816,000.

Pro Forma Effects - Balance Sheet

If the Company participates in the Capital Purchase Program, shareholders' equity would increase by the amount of the capital proceeds received from the Treasury, net of transaction issuance costs. Costs associated with the transaction are not expected to be material. Upon initial receipt of the capital, the Company intends to support prudent lending, strengthen the balance sheet and pursue strategic growth opportunities. If \$8,816,000 in proceeds had been received from the Treasury on September 30, 2008, shareholders' equity would have increased from the reported amount of \$38,720,000 to \$47,536,000 and total assets would have increased from the reported amount of \$485,650,000 to \$494,466,000 on a pro forma basis.

*** PRELIMINARY COPY ***

The following table shows the pro forma impact of the Company's receipt of \$8,816,000 proceeds from the Treasury on the Bank's capital ratios as of September 30, 2008:

	As Reported 9/30/08	Pro Forma 9/30/08	Regulatory Standard for Well-Capitalized
	-----	-----	-----
Leverage Ratio	7.54%	9.25%	5.00%
Tier 1 Risk Based	12.08%	14.65%	6.00%
	-----	-----	-----

Edgar Filing: SALISBURY BANCORP INC - Form PRE 14A

Total Risk Based	13.15%	15.69%	10.00%
	-----	-----	-----

Pro Forma Effects - Income Statement

If the Company participates in the Capital Purchase Program, the Company intends to use the capital to support prudent loan growth, strengthen the balance sheet and pursue strategic growth opportunities. The capital received, over time, is expected to generate income to service required dividend payments on the Preferred Stock and generate additional income for common shareholders. Until the time it fully deploys this capital over a larger asset base, the Company anticipates that earnings on the original capital received will not fully cover required dividend payments and other costs relating to the Preferred Stock, which would reduce the amount of earnings available to common shareholders.

The following pro forma income statement effects assume the capital proceeds received are invested in earning assets at a blended rate of 5.92%. An assumed tax rate of 34% was used for all periods. The pro forma income statement impacts do not include the benefit of leveraging the capital received into a larger asset base, but simply include the additional income earned on investment of the original capital proceeds.

If proceeds of \$8,816,000 had been received under the Capital Purchase Program on January 1, 2007, net income for the year ended December 31, 2007 would have increased from the reported amount of \$3,800,000 to \$4,145,000 on a pro forma basis and the net interest margin for the year ended December 31, 2007 would have increased from the reported amount of 3.54% to 3.62% on a pro forma basis. However, because \$440,800 of the Company's net earnings would be required for the payment of dividends to the holder(s) of the Preferred Stock and amortization/accretion associated with the Preferred Stock, and therefore would not be available to the Company's common shareholders, net income per share available to common shareholders would have decreased from the reported amount of \$2.26 per share to \$2.20 per share on a pro forma basis.

If proceeds of \$8,816,000 had been received under the Capital Purchase Program on January 1, 2008, the net income reported for the nine months ended September 30, 2008 (which includes a one-time other-than-temporary impairment charge of \$2,856,000 incurred in the third quarter of 2008) would have increased from the reported net income of \$152,000 to a net income of \$411,000 on a pro forma basis.

7

*** PRELIMINARY COPY ***

However, because \$330,600 of the Company's net earnings would be required for the payment of dividends to the holder(s) of the Preferred Stock and amortization/accretion associated with the Preferred Stock, and therefore would not be available to the Company's common shareholders, the net income per share attributable to common shareholders would have decreased from the reported amount of \$0.09 per share to a \$0.05 per share on a pro forma basis. Excluding the one-time other-than-temporary impairment charge of \$2,856,000 incurred in the third quarter of 2008, adjusted net income for the nine months ended September 30, 2008 was \$3,008,000 and basic and adjusted earnings per share was \$1.78 per share. Receiving \$8,816,000 in proceeds under the Capital Purchase Program on January 1, 2008 as described above would have increased the Company's adjusted net income to \$3,267,000 on a pro forma basis and decreased adjusted earnings per share to \$1.74 on a pro forma basis.

Dividend: The Senior Preferred will pay cumulative dividends at a rate of 5% per annum until the fifth anniversary of the date of this investment and thereafter at a rate of 9% per annum. For Senior Preferred issued by banks which are not subsidiaries of holding companies, the Senior Preferred will pay non-cumulative dividends at a rate of 5% per annum until the fifth anniversary of the date of this investment and thereafter at a rate of 9% per annum. Dividends will be payable quarterly in arrears on February 15, May 15, August 15 and November 15 of each year.

Redemption: Senior Preferred may not be redeemed for a period of three years from the date of this investment, except with the proceeds from a Qualified Equity Offering (as defined below) which results in aggregate gross proceeds to the QFI of not less than 25% of the issue price of the Senior Preferred. After the third anniversary of the date of this investment, the Senior Preferred may be redeemed, in whole or in part, at any time and from time to time, at the option of the QFI. All redemptions of the Senior Preferred shall be at 100% of its issue price, plus (i) in the case of cumulative Senior Preferred, any accrued and unpaid dividends and (ii) in the case of noncumulative Senior Preferred, accrued and unpaid dividends for the then current dividend period (regardless of whether any dividends are actually declared for such dividend

period), and shall be subject to the approval of the QFI's primary federal bank regulator.

"Qualified Equity Offering" shall mean the sale by the QFI after the date of this investment of Tier 1 qualifying perpetual preferred stock or common stock for cash.

Following the redemption in whole of the Senior Preferred held by the UST, the QFI shall have the right to repurchase any other equity security of the QFI held by the UST at fair market value.

Restrictions on Dividends: For as long as any Senior Preferred is outstanding, no dividends may be declared or paid on junior preferred shares, preferred shares ranking pari passu with the Senior Preferred, or common shares (other than in the case of pari passu preferred shares, dividends on a pro rata basis with the Senior Preferred), nor may the QFI repurchase or redeem any junior preferred shares, preferred shares ranking pari passu with the Senior Preferred or common shares, unless (i) in the case of cumulative Senior Preferred all accrued and unpaid dividends for all past dividend periods on the Senior Preferred are fully paid or (ii) in the case of non-cumulative Senior Preferred the full dividend for the latest completed dividend period has been declared and paid in full.

Common dividends: The UST's consent shall be required for any increase in common dividends per share until the third anniversary of the date of this investment unless prior to such third anniversary the Senior Preferred is redeemed in whole or the UST has transferred all of the Senior Preferred to third parties.

Repurchases: The UST's consent shall be required for any share repurchases (other than (i) repurchases of the Senior Preferred and (ii) repurchases of junior preferred shares or common shares in connection with any benefit plan in the ordinary course of business consistent with past practice) until the third anniversary of the date of this investment unless prior to such third anniversary the Senior Preferred is redeemed in whole or the UST has transferred all of the Senior Preferred to third parties.

In addition, there shall be no share repurchases of junior preferred shares, preferred shares ranking pari passu with the Senior Preferred, or common shares if prohibited as described above under "Restrictions on Dividends".

Voting rights: The Senior Preferred shall be non-voting, other than class voting rights on (i) any authorization or issuance of shares ranking senior to the Senior Preferred, (ii) any amendment to the rights of Senior Preferred, or (iii) any merger, exchange or similar transaction which would adversely affect the rights of the Senior Preferred. If dividends on the Senior Preferred are not paid in full for six dividend periods, whether or not consecutive, the Senior Preferred will have the right to elect 2 directors. The right to elect directors will end when full dividends have been paid for four consecutive dividend periods.

Transferability: The Senior Preferred will not be subject to any contractual restrictions on transfer. The QFI will file a shelf registration statement covering the Senior Preferred as promptly as practicable after the date of this investment and, if necessary, shall take all action required to cause such shelf registration statement to be declared effective as soon as possible. The QFI will also grant to the UST piggyback registration rights for the Senior

Preferred and will take such other steps as may be reasonably requested to facilitate the transfer of the Senior Preferred including, if requested by the UST, using reasonable efforts to list the Senior Preferred on a national securities exchange. If requested by the UST, the QFI will appoint a depository to hold the Senior Preferred and issue depository receipts.

Executive Compensation: As a condition to the closing of this investment, the QFI and its senior executive officers covered by the EESA shall modify or terminate all benefit plans, arrangements and agreements (including golden parachute agreements) to the extent necessary to be in compliance with, and following the closing and for so long as UST holds any equity or debt securities of the QFI, the QFI shall agree to be bound by, the executive compensation and corporate governance requirements of Section 111 of the EESA and any guidance or regulations issued by the Secretary of the Treasury on or prior to the date of this investment to carry out the provisions of such subsection. As an additional condition to closing, the QFI and its senior executive officers covered by the EESA shall grant to the UST a waiver releasing the UST from any claims that the QFI and such senior executive officers may otherwise have as a result of the issuance of any regulations which modify the terms of benefits plans, arrangements and agreements to eliminate any provisions that would not be in compliance with the executive compensation and corporate governance requirements of Section 111 of the EESA and any guidance or regulations issued by the Secretary of the Treasury on or prior to the date of this investment to carry out the provisions of such subsection.

SUMMARY OF WARRANT TERMS

Warrant: The UST will receive warrants to purchase a number of shares of common stock of the QFI having an aggregate market price equal to 15% of the Senior Preferred amount on the date of investment, subject to reduction as set forth below under "Reduction". The initial exercise price for the warrants, and the market price for determining the number of shares of common stock subject to the warrants, shall be the market price for the common stock on the date of the Senior Preferred investment (calculated on a 20-trading day trailing average), subject to customary anti-dilution adjustments.

The exercise price shall be reduced by 15% of the original price on each six-month anniversary of the issue date of the warrants if the consent of the QFI stockholders described below has not been received, subject to a maximum reduction of 45% of the original exercise price.

Term: 10 years.

Exercisability: Immediately exercisable, in whole or in part.

Transferability: The warrants will not be subject to any contractual restrictions on transfer; provided that the UST may only transfer or exercise an aggregate of one-half of the warrants prior to the earlier of (i) the date on which the QFI has received aggregate gross proceeds of not less than 100% of the issue price of the Senior Preferred from one or more Qualified Equity Offerings and (ii) December 31, 2009. The QFI will file a shelf registration statement covering the warrants and the common stock underlying the warrants as promptly as practicable after the date of this investment and, if necessary, shall take all action required to cause such shelf registration statement to be declared effective as soon as possible. The QFI will also grant to the UST piggyback registration rights for the warrants and the common stock underlying the

warrants and will take such other steps as may be reasonably requested to facilitate the transfer of the warrants and the common stock underlying the warrants. The QFI will apply for the listing on the national exchange on which the QFI's common stock is traded of the common stock underlying the warrants and will take such other steps as may be reasonably requested to facilitate the transfer of the warrants or the common stock.

Voting: The UST will agree not to exercise voting power with respect to any shares of common stock of the QFI issued to it upon exercise of the warrants.

Reduction: In the event that the QFI has received aggregate gross proceeds of not less than 100% of the issue price of the Senior Preferred from one or more Qualified Equity Offerings on or prior to December 31, 2009, the number of shares of common stock underlying the warrants then held by the UST shall be reduced by a number of shares equal to the product of (i) the number of shares originally underlying the warrants (taking into account all adjustments) and (ii) 0.5.

Consent: In the event that the QFI does not have sufficient available authorized shares of common stock to reserve for issuance upon exercise of the warrants and/or stockholder approval is required for such issuance under applicable stock exchange rules, the QFI will call a meeting of its stockholders as soon as practicable after the date of this investment to increase the number of authorized shares of common stock and/or comply with such exchange rules, and to take any other measures deemed by the UST to be necessary to allow the exercise of warrants into common stock.

Substitution: In the event the QFI is no longer listed or traded on a national securities exchange or securities association, or the consent of the QFI stockholders described above has not been received within 18 months after the issuance date of the warrants, the warrants will be exchangeable, at the option of the UST, for senior term debt or another economic instrument or security of the QFI such that the UST is appropriately compensated for the value of the warrant, as determined by the UST.
