Narrative Disclosure to Summary Compensation Table

The Compensation Committee (the “Committee”) of our Board of Directors generally has the responsibility of administering our executive compensation program or making recommendations to the full Board with respect to such program. The Committee reviews and, as appropriate, makes recommendations to the full Board regarding the base salaries and annual cash bonuses for executive officers, and administers our stock incentive plans, including the grants of stock options.

Compensation Philosophy and Objectives

Our principal executive compensation policy is to provide a compensation program that will attract, motivate and retain persons of high quality and provide incentives that align the interests of our employees and directors with those of our stockholders. In administering the executive compensation program, the Committee is mindful of the following principles and guidelines, which are supported by the full Board:

- Base salaries for executive officers should be competitive.

- A sufficient portion of annual compensation should be at risk in order to align the interests of executives with those of our stockholders.

- The variable part of annual compensation should reflect both individual and corporate performance.

As a person’s level of responsibility increases, a greater portion of total compensation should be at risk and include more stock-based compensation to provide executives long-term incentives, and help to align further the interests of executives and stockholders in the enhancement of stockholder value.

Executive officer compensation has three primary components: base salary, bonuses granted under a bonus or cash incentive plan, and stock-based awards granted pursuant to our 2014 Equity Incentive Plan (“2014 Plan”). In addition, executive officers receive certain benefits that are generally available to all salaried employees. We do not have any defined benefit pension plans, non-qualified deferred compensation arrangements, or supplemental retirement plans for our executive officers.

During 2017, the Compensation Committee engaged Compensia, Inc. to assist with the review of the Company’s executive and Board compensation by providing data on market trends and, more specifically, with respect to a group of peer companies having similar size and other characteristics to the Company based on the Company’s performance and how the Company’s compensation levels compared with such peers.

For each Named Executive Officer’s compensation for 2018, the Committee reviewed the proposed level for each compensation component based on various factors, including the median level for the peer group and other competitive market factors, internal equity and consistency, and an emphasis on pay for performance. The Committee made recommendations to the Board of Directors, based on input from the then Chief Executive Officer other than with respect to his own compensation, which then approved the final compensation amounts for each executive officer. We have not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

Management Changes and Related Compensation Arrangements

Significant changes in the Company’s management team have occurred over the course of the past several years. As a result, all of our Named Executive Officers are no longer with the Company. Mr. Port ceased serving as Chief Financial Officer on May 29, 2018 when Jerry Turin was appointed to such position. On April 1, 2019, following the 10-K Filing, Dr. Tewksbury resigned from his position as Chairman, Chief Executive Officer and President and Mr. Turin resigned from his position as Chief Financial Officer, and James Tu was appointed to serve as the Company’s Chairman, Chief Executive Officer and President and interim Chief Financial Officer.

Dr. Tewksbury’s compensation as Chairman of the Board, Chief Executive Officer and President, and Mr. Turin’s and Mr. Port’s compensation as Chief Financial Officer, were each established taking into account the factors described above. The Committee has also considered the need to recruit and retain top level talent during a challenging time for the Company, and the responsibilities being managed by a smaller executive team, and their resulting compensation arrangements were as follows:

-

Dr. Tewksbury's salary was increased to \$459,000 for 2018, and he was eligible to receive an annual bonus with a target payout of 100% of his base salary, based on the Company's financial performance and his individual performance and continued employment and, on February 26, 2018, he received 165,300 RSUs.

Mr. Port's salary was increased to \$255,000 for 2018 and he was eligible to receive an annual bonus with a target payout of 50% of his base salary, based on the Company's financial performance and his individual performance and continued employment and, on February 26, 2018, he received 49,167 RSUs. Mr. Port departed from the Company in August 2018, and received twelve months of continued salary and benefits, twelve months of accelerated vesting of unvested stock options and RSUs, additional vesting of a portion of his 2018 RSU grant and all stock options that had vested remain exercisable until August 15, 2019. The amounts paid to Mr. Port for 2018 include his severance benefits received under his separation agreement entered into with the Company on May 22, 2018.

On May 29, 2018, following Mr. Port's departure, the Board of Directors appointed Jerry Turin to the position of Chief Financial Officer and Secretary. Mr. Turin's salary as Chief Financial Officer was set at \$300,000. Mr. Turin was also eligible to receive an annual bonus with a target payout of 50% of his base salary, based on the Company's financial performance and his individual performance. Mr. Turin's 2018 bonus was guaranteed to be a minimum of \$75,000, provided that he remained employed with the Company through the date the bonus was paid. In addition, on July 2, 2018, Mr. Turin was granted stock options and RSUs having a total value of approximately \$225,000, with 50% of the awards in RSUs (based on a 30-day average stock price) and stock options equal to 1.5 times the number of RSUs.

Base Salary
The Committee seeks to establish executive officer base salary levels that are competitive with the median amounts paid to executives performing similar functions within the Company's peer group. The Committee also takes into account a number of largely subjective factors, including changes in the individual's duties and responsibilities, the personal performance of such executive officer, the performance of the Company, cost-of-living increases, and such other factors as the Committee deems appropriate, including the individual's overall mix between fixed and variable compensation and between cash and stock-based compensation.

Cash Incentive Plan

Effective January 1, 2018, an Executive Bonus Plan (the "Plan") was established, based on the Compensation Committee's recommendation to the Board of Directors, for executive management under which the executive officers are each eligible for a cash incentive payment. The Board of Directors set the potential payments at up to the following percentages of such executive's 2018 salary, with the final amounts payable to be determined by the Board of Directors based upon the 2018 financial results with respect to the metrics and percentages described below:

Incentive Payment as a %
of Base Salary (1)
Minimum Target Maximum

Chief Executive Officer	50%	100%	150%
Chief Financial Officer	25%	50%	100%

(1) Based on the annual salary rate for the year.

Subject to the terms of the Plan, distribution of the 2018 bonus was based 80% on Company Performance and 20% on Individual Performance. In the event that the Company did not reach the "Minimum" performance for any of the applicable Company Performance metrics, no bonuses would be payable with respect to the Individual Performance component, irrespective of the objectives achieved. In addition, the Board or the Compensation Committee could, in its sole discretion, adjust amounts payable to any participant downward or upward to reflect such considerations as it may in its sole discretion deem to be appropriate.

Company Performance was based on two components - Total Company Net Revenue ("Net Revenue") with respect to 70% of the amount payable, and Total Adjusted EBITDA (Adjusted Earnings before Interest, Taxes, Depreciation and Amortization and adjusted to exclude non-cash items, such as stock-based compensation) ("Adjusted EBITDA") with respect to 30% of the amount payable, as reported in or, in the case of Adjusted EBITDA, calculated from the 10-K Filing.

The incentive payment levels listed above were payable based on the achievement of the following financial performance metrics for 2018: (a) Net Revenue - \$26 million (Minimum), \$30 million (Target) and \$34 million (Maximum), and (b) Adjusted EBITDA - \$(5.0) million (Minimum), \$(4.0) million (Target) and \$(2.5) million

(Maximum).

8

The Company did not achieve the Minimum Net Revenue or the Minimum Adjusted EBITDA, therefore, no bonuses were paid for 2018, other than the guaranteed bonus amount for Mr. Turin of \$75,000.

Discretionary Bonuses

The Committee may from time to time award a discretionary annual cash bonus to executive officers, in the amounts and based on the factors determined by the Committee. The bonus awards may be based on an executive officer's individual performance or on the overall success of the Company, or both.

No discretionary bonuses were awarded to the Named Executive Officers in 2018.

Stock Awards and Other Stock-Based Awards

The Committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for the Company's stockholders and, therefore, periodically grants time-based stock options and RSUs under the Company's 2014 Stock Incentive Plan, as amended (the "Plan") at the then current market price.

The Committee grants, or recommends to the Board to grant, options and/or RSUs to executive officers, typically after consideration of recommendations from the Chief Executive Officer. Recommendations for equity awards are based upon the relative position, responsibilities, and previous and expected contributions of each officer, previous equity award grants to such officers and customary levels of equity award grants for the respective position in other comparable companies. The exercise price for stock options is equal to the fair market value of our Common Stock on the grant date. Stock options generally vest over a three-year period with 33% vesting one year from the date of grant and the remaining 67% vesting equally on a monthly basis over the remaining 24 months. Options expire 10 years from the date of grant. RSUs generally vest over a three-year period with 33% vesting one year from the grant date, 33% vesting two years from the grant date, and the remaining 34% vesting three years from the grant date.

Under the 2014 Plan, upon a Change of Control (as defined in such plan) all outstanding unvested stock options become fully vested and exercisable if not assumed, or substituted with a new award, by the successor to the Company and, if such awards are assumed or substituted by the successor to the Company, they become fully exercisable and vested if the option holder's employment is terminated (other than a termination for cause) within two years following a Change of Control. If an option holder's employment is terminated within two years after a Change of Control for any reason other than death, retirement, disability or termination for cause, each outstanding stock option that is vested following such termination will remain exercisable until the earlier of the third anniversary of termination or the expiration of the term of the stock option. In addition, executive officers who are designated for participation under the Change in Control Benefit Plan described below, are eligible for vesting of all outstanding equity awards upon a qualifying termination following a Change in Control.

In February 2018, Dr. Tewksbury was awarded 165,300 RSUs and Mr. Port was awarded 49,167 RSUs. Mr. Turin was awarded 50,474 RSUs and 75,711 stock options in connection with joining the Company in May 2018, which were granted on July 2, 2018.

Change in Control Benefit Plan

On February 19, 2017, we established a Change in Control Benefit Plan to provide for the payment of certain benefits to selected eligible employees and directors of the Company. A Change in Control is defined in the same manner as under the 2014 Plan and includes any one or more of the following events summarized below:

any "person" becomes the beneficial owner, directly or indirectly, of 50% or more of the total voting power of the voting securities of the Company then outstanding and entitled to vote generally in the election of directors of the Company;

individuals who, as of the beginning of any 24 month period, constitute the Board cease for any reason during such 24 month period to constitute at least a majority of the Board or

consummation of (A) a merger, consolidation or reorganization of the Company, in each case, following such merger, consolidation or reorganization, beneficially own, directly or indirectly, at least 35% of the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors of the entity or entities resulting from such merger, consolidation or reorganization, (B) a complete liquidation or dissolution of the

Company, or (C) a sale or other disposition of all or substantially all of the assets of the Company.

9

The Company entered into Change in Control participation agreements with Dr. Tewksbury on February 19, 2017, with Mr. Port on March 21, 2017 and with Mr. Turin on May 18, 2018 (which terminated upon their departure). The Change in Control participation agreement provides for a lump sum payment equal to one times annual base salary and target bonus, accelerated vesting of stock awards, and continuation of group health plan benefits for 12 months if the participant's employment is involuntarily terminated within 24 months of a Change in Control.

Section 162(m)

Section 162(m) of the Internal Revenue Code ("IRC Sec. 162(m)") generally disallows a tax deduction to public corporations for compensation in excess of \$1 million paid to a company's Chief Executive Officer, or to any of the company's other three most highly compensated executive officers (other than the Chief Financial Officer), for any fiscal year. Generally, for compensation prior to 2018, IRC Sec. 162(m) exempted qualifying performance-based compensation from the deduction limit if certain conditions were met. In determining base salary, benefits, perquisites and other compensation, the Committee considers tax deductibility. However, a more important goal of the Committee is to offer compensation that is competitive within our peer group.

Employment Agreements with Named Executive Officers

We did not have employment agreements with any of our Named Executive Officers.

Compensation of Directors

We use a combination of cash and stock-based awards to attract and retain qualified candidates to serve on our Board.
