PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus supplement and the accompanying prospectus and should be read together with the information contained in other parts of this prospectus supplement, the accompanying prospectus and the documents we incorporate by reference, including the risk factors on page S-13 of this prospectus supplement and beginning on page 3 of our Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission (the "SEC") on February 29, 2012 (as amended on March 19, 2012, our Annual Report on Form 20-F).

Unless otherwise indicated, references in this prospectus to Costamare, the Company, we, our, us, or similar terms when used in a historical context refer to Costamare Inc., or any one or more of its subsidiaries or their predecessors, or to such entities collectively.

We use the term twenty foot equivalent unit, or TEU, the international standard measure of containers, in describing the capacity of our containerhips. Before making your investment decision, you should carefully read the prospectus and the documents referred to in Where You Can Find Additional Information and Incorporation by Reference for information about us, including our financial statements. Unless otherwise indicated, all references to currency amounts in this prospectus supplement and the accompanying prospectus are in U.S. dollars. Unless otherwise indicated, all data regarding our fleet and the terms of our charters is as of September 30, 2012 and references to our fleet at future dates assume there have been no acquisitions other than our ten contracted newbuilds and no dispositions.

Our Company

We are an international owner of containerhips, chartering our vessels to many of the world's largest liner companies. As of September 30, 2012, we had a fleet of 57 containerhips aggregating approximately 329,000 TEU, making us one of the largest public containerhip companies in the world, based on total TEU capacity. At that date, our fleet consisted of (i) 47 vessels in the water, aggregating approximately 240,000 TEU and (ii) ten newbuild vessels aggregating approximately 89,000 TEU that are scheduled to be delivered to us between February 2013 and February 2014, based on the current shipyard schedule.

Our strategy is to time-charter our containerhips to a geographically diverse, financially strong and loyal group of leading liner companies. Our containerhips operate primarily under multi-year time charters and therefore are not subject to the effect of seasonal variations in demand. Our containerhips have a record of low unscheduled off-hire days, with fleet utilization levels of 99.9%, 99.7%, 99.3% and 99.9% in 2009, 2010, 2011 and the first nine months of 2012, respectively. Over the last three years our largest customers by revenue were A.P. Moller-Maersk A/S (A.P. Moller-Maersk), Mediterranean Shipping Company, S.A. (MSC) and Cosco Container Lines Co., Ltd. (COSCO). As of September 30, 2012, the average (weighted by TEU capacity) remaining time-charter duration for our fleet of 57 containerhips was 5.5 years, based on the remaining fixed terms and assuming the exercise of any owner's options and the non-exercise of any charterer's options under our containerhips' charters. As of September 30, 2012, our fixed-term charters represented an aggregate of \$2.82 billion of contracted revenue, assuming the earliest redelivery dates possible and 365 revenue days per annum per containerhip. Five of these charters include an option exercisable by either party to extend the term for two one-year periods at the same charter rate, which represents an additional \$152.2 million of contracted revenue.

Our company and its founders have a long history of operating and investing in the shipping industry. Members of the Konstantakopoulos family hold an aggregate of 70.4% of our common stock and have agreed to purchase a total of 700,000 shares in the offering. Members of the Konstantakopoulos family will continue to own 64.8% of our common stock after the offering (assuming the underwriters' option to purchase additional shares is not exercised). Captain Vasileios Konstantakopoulos, the father of our chairman and chief executive officer, Konstantinos Konstantakopoulos, founded Costamare Shipping Company S.A. (Costamare Shipping) in 1975. We initially owned

and operated drybulk carrier vessels, but in 1984 we became the first Greek owned company to enter the containership market and, since 1992, we have focused exclusively on

S-1

containerships. After assuming management of our company in 1998, Konstantinos Konstantakopoulos has concentrated on building a large, modern and reliable containership fleet run and supported by highly-skilled, experienced and loyal personnel. He founded the management companies CIEL Shipmanagement S.A. (CIEL) and Shanghai Costamare Ship Management Co., Ltd. (Shanghai Costamare) in 2001 and 2005, respectively, and the manning agency C-Man Maritime, Inc. (C-Man Maritime) in 2006. Today, Konstantinos Konstantakopoulos remains focused on continuing to develop the scope and capabilities of our management companies and related manning agency. Under his leadership, we have continued to foster a company culture focusing on excellent customer service, industry leadership and innovation.

Consistent with our strategy, we have actively managed the size of our fleet through timely acquisitions and dispositions, and successfully navigated our company through strong and weak containership charter markets. Between 2006 and mid-2010, unlike other public competitors, we did not burden our balance sheet with secondhand acquisitions and newbuild commitments when vessel prices were relatively high and our growth is not currently constrained by significant restrictions on debt incurrence.

In November 2010, we became a public company in order to increase our liquidity, improve our access to capital and position our company to capture attractive growth opportunities through fleet expansion. Since September 2010, we have expanded the fleet by over 50% in terms of TEU, including (i) shipbuilding contracts to acquire 10 newbuild containerships aggregating approximately 89,000 TEU, which will be delivered between February 2013 and February 2014, based on the current shipyard schedule, and (ii) the acquisition of 17 secondhand containerships aggregating 51,286 TEU, all of which have been delivered. For the acquisition of the 27 containerships discussed above, we paid or committed to pay approximately \$1.2 billion, in the aggregate.

As an established owner of containerships with a focus on reliability, a flexible and strong balance sheet, and significant experience and relationships in the containership sector, we believe we will have access to additional vessel acquisition opportunities from shipyards, our liner company customers, other shipowners, financial institutions and shipbrokers. In addition, we believe we are well-positioned to continue to obtain attractive chartering opportunities with leading liner companies. We plan to use the net proceeds of this offering for capital expenditures, including vessel acquisitions, and for other general corporate purposes, which may include repayments of indebtedness.

Our Fleet and Newbuilds

The tables below provide additional information as of September 30, 2012, except where indicated otherwise, about our fleet of 57 containerships, including our contracted newbuild vessels. Each vessel is a cellular containership, meaning it is a dedicated container vessel.

(1) Charter terms and expiration dates are based on the earliest date charters could expire.

(2) This average rate is calculated based on contracted charter rates for the days remaining between September 30, 2012 and the earliest expiration of each charter. Certain of our charter rates change until their earliest expiration dates, as indicated in the footnotes below. For

those charter agreements entered into after September 30, 2012, this average rate is calculated based on contracted charter rates for the days between the commencement of the charter and the earliest expiration of each charter.

- (3) This charter rate changes on May 8, 2014 to \$26,100 per day until the earliest redelivery date.
- (4) This charter rate changes on June 30, 2014 to \$26,100 per day until the earliest redelivery date.
- (5) This charter rate changes on August 24, 2014 to \$26,100 per day until the earliest redelivery date.
- (6) This charter rate changes on October 20, 2014 to \$26,100 per day until the earliest redelivery date.
- (7) This charter rate changes on December 4, 2014 to \$26,100

per day until the earliest redelivery date.

(8) This charter rate changes on January 13, 2016 to \$26,100 per day until the earliest redelivery date.

(9) This charter rate changes on April 28, 2016 to \$26,100 per day until the earliest redelivery date.

(10) This charter rate changes on June 11, 2016 to \$26,100 per day until the earliest redelivery date.

(11) Charterers have the option to terminate the charter by giving six months notice, in which case they will have to make a one-time payment which would be \$6.9 million reduced proportionately by the amount of time by which the original 3-year extension period is shortened.

(12) This charter rate changes on January 1, 2013

to \$22,150 per day until the earliest redelivery date. In addition, the charterer is required to pay approximately \$5.0 million no later than July 2016, representing accrued charter hire, the payment of which was deferred.

- (13) This charter rate will change on November 2012 to \$10,500 per day and will escalate to \$11,500 per day, starting from May 2013 until the earliest redelivery date.
- (14) This charter rate will change on November 2012 to \$10,500 per day and will escalate to \$11,500 per day, starting from June 2013 until the earliest redelivery date.
- (15) As from December 1, 2012 until redelivery, this charter rate will be a minimum of \$13,500 per day plus 50% of the difference

between the market rate and the charter rate of \$13,500. The market rate will be determined annually based on the Hamburg ConTex type 3500 TEU index published on October 1 of each year until redelivery.

S-4

- (16) This charter rate changes in November 2012 to \$8,000 per day until the earliest redelivery date.
- (17) The vessel is expected to be delivered to her charterers by October 29, 2012.
- (18) We entered into this agreement, subject to final documentation, as of October 15, 2012. The vessel is expected to be delivered to its charterers by October 24, 2012.
- (19) This charter rate changes on October 23, 2012 to \$6,200 per day until the earliest redelivery date. The charterer has a unilateral option to extend the charter for an additional six months after the initial period at a daily rate of \$8,500.
- (i) The charterer has a unilateral option to

extend the charter of the vessel for two periods of 30 months each +/-90 days on the final period performed, at a rate of \$41,700 per day.

- (ii) The charterer has a unilateral option to extend the charter of the vessel for a period of 12 months +/-60 days at a rate of \$27,500 per day.

Our Competitive Strengths

We believe that we possess a number of competitive strengths that will allow us to capitalize on growth opportunities in the containership sector, including:

Track Record of Navigating Through Strong and Weak Containership Markets. Consistent with our strategy of actively managing the size of our fleet through timely acquisitions and dispositions, we grew our fleet from 21 containerships with an aggregate capacity of 43,735 TEU in 2000 to a peak of 53 containerships of 227,778 TEU in 2008, followed by a proactive decrease in response to market conditions in 2009 and the first half of 2010 to a fleet of 42 containerships with a total capacity of 213,348 TEU as of June 30, 2010. Since the time of our initial public offering in November 2010, we have invested approximately \$1.2 billion in vessel acquisitions. As a result, we have grown our fleet to 57 containerships aggregating approximately 329,000 TEU, including 10 newbuilds on order, in line with the growth plans we outlined at that time. We believe that the financial flexibility resulting from our strategic growth policy, together with our experience, reputation, quality of services and long-standing relationships with container shipping industry participants and major financial institutions, position us to continue to renew and expand our fleet with further acquisitions of newbuild and high-quality secondhand vessels at attractive prices.

Base of Contracted Cash Flows Through Multi-Year Charter Coverage and Staggered Charter Expiration Dates. We believe that the multi-year fixed-rate nature of most of our charters, many of which were arranged at attractive points in the shipping cycle, will continue to provide us with a stable base of contracted future revenue. As of September 30, 2012, the average (weighted by TEU capacity) remaining time-charter duration for our fleet of 57 containerships was 5.5 years, based on the remaining fixed terms and assuming the exercise of any owner's options

and the non-exercise of any charterer's options under our containerships' charters. As of September 30, 2012, over 97% of the anticipated total available days for the remainder of 2012 are under fixed-rate time charters. The staggered maturities of the charters for vessels that expire in the next several years will mean that we will likely conduct our rechartering activity in varying rate environments and we will seek to tailor our charter terms accordingly. As of September 30, 2012, our fixed-term charters represented an aggregate of \$2.82 billion of contracted revenue, assuming the earliest redelivery dates possible and 365 revenue days per annum per containership. Five of these charters include an option exercisable by either party to extend the term for two one-year periods at the same charter rate, which represents an additional \$152.2 million of contracted revenue.

Large, Diversified High-Quality Fleet. Our fleet of 57 containerships, including 10 newbuilds on order, consists of containerships of various sizes and has been assembled to meet our customers' needs and is able to operate on East-West, North-South and Intra-regional trade routes, giving us increased flexibility in rechartering our containerships. We believe our containerships are built to high standards by reputable shipyards and have been carefully maintained by our three managers. We also believe that the reliability of our fleet has been a critical factor in retaining our active and long-standing relationships with the leading liner companies. We have also had success in chartering and operating our older vessels beyond their depreciable lives. We believe that owning a large, high-

quality and diverse fleet provides us with a competitive advantage in securing future employment for our containerships.

Experienced Management Team. Our company and founders have a long history of operating and investing in the container shipping industry beginning in 1984. Our managers' senior management teams have a combined average of approximately 37 years of experience in the shipping industry. We believe that we are able to secure attractive multi-year charters with leading liner companies because of, among other things, our operating track record and our high level of service and support.

Long-Standing Relationships with Leading, Financially Sound Charterers. Though our business is affected by changes in global and regional economic activity, we believe that by chartering our containerships to leading liner companies, including those we perceive to be most financially and operationally sound, we have reduced our potential charter counterparty risk. We currently charter containerships to A.P. Moller-Maersk, MSC, COSCO, Evergreen Marine (Hong Kong) Ltd. (Evergreen), Hapag Lloyd Aktiengesellschaft (Hapag Lloyd), Zim Integrated Shipping Services (ZIM), CMA CGM, Sea Consortium Pte Ltd (Sea Consortium) and Sinokor Merchant Marine Co., Ltd. (Sinokor).

Access to Capital to Pursue Our Growth Strategy. As at June 30, 2012, we had total cash liquidity of \$296.0 million, consisting of cash, cash equivalents and restricted cash. As of September 30, 2012, we had \$264.5 million of cash liquidity, consisting of cash, cash equivalents and restricted cash, and 4 unencumbered containerships, aggregating 16,774 TEU, with an average age (weighted by TEU capacity) of 12.0 years. In addition, the debt portion of our newbuild capital expenditures is fully committed. We have arranged debt financing for our newbuilding program by executing between January and October 2011 loan agreements for a total of \$725.3 million in commitments. As of September 30, 2012, we had approximately \$580.2 million of undrawn capacity under committed credit facilities for newbuilds on order. We believe that our available liquidity will allow us to make additional vessel acquisitions as they become available.

Our Business Strategies

Our primary objectives are to profitably grow our business, increase earnings and distributable cash flow per share and maximize value to our stockholders by pursuing the following strategies:

Invest in Vessels at an Attractive Point in the Container Shipping Cycle. Given our broad and established customer relationships and financial flexibility, we believe we are well-positioned to take advantage of the significant opportunities created by the recent economic downturn and developments in the container shipping industry to acquire vessels at attractively low prices. As an established owner of containerships with significant experience and relationships in the containership sector, we believe we will have ready access to vessel acquisition opportunities from shipyards, our liner company customers, other shipowners, financial institutions and shipbrokers; chartering opportunities with leading liner companies; and available financing alternatives that will facilitate the further renewal and expansion of our fleet. Since September 2010, we have contracted to acquire 10 newbuilds, aggregating approximately 89,000 TEU in total capacity, and arranged for 10-year time charters for five of these newbuilds and five-year time charters (plus two one-year extension options exercisable by either us or the charterer) for the other five newbuilds. By securing long-term fixed rate charters at the time of purchase we believe we are well-positioned to realize attractive returns on these newbuild investments. We intend to continue expanding our fleet by acquiring additional containerships at favorable prices using our available cash, the net proceeds of this offering along with borrowings under new credit facilities.

Actively Manage Portfolio of Charters Through the Shipping Cycle. We believe that a focus on high-quality charterers and a carefully-managed charter expiry profile are critical to our business strategy. Our largest customers in 2011 were A.P. Moller-Maersk, MSC and COSCO, which we perceive to be among the more creditworthy liner companies. As the global economy improves, we will continue to charter our containerships to high-quality charterers

and further expand the number of leading liner companies chartering our vessels in order to diversify further our portfolio of time

S-6

charters from customer, geographic and maturity perspectives. While we believe that diversifying our customer base is important in order to reduce our revenue concentration and moderate our exposure to any one customer, we will also continue to focus our chartering on high quality, financially strong counterparties. We expect that our strategy will also allow us to recharter our containerships during various points in the charter market cycle.

Continue to Manage Our Balance Sheet and Access to Capital. We believe that management of our balance sheet, including management of cash and capital commitments, will continue to give us financial flexibility. Unlike many of our public competitors, we are not burdened with acquisition and newbuild commitments that were incurred when vessel prices were relatively high, and we believe that we have taken advantage of opportunities at attractive points of the container shipping cycle and that we are well-positioned to continue to do so. As of September 30, 2012, we had \$264.5 million of cash liquidity, consisting of cash, cash equivalents and restricted cash and four unencumbered vessels. As of September 30, 2012, we also had approximately \$580.2 million of undrawn capacity under committed credit facilities for newbuilds on order with remaining installment payments totaling \$705.7 million.

Provide High-Quality Customer Service. We seek to provide high-quality customer service that allows our customers to implement integrated logistics solutions in the marketplace. Our managers' ship management approach is to tailor their services by vessel type and age, which we believe has helped to differentiate us with our charterers and extend our charters and the useful lives of our containerships. We believe that having three management companies allows us to have a deep pool of operational management in multiple locations with market-specific experience and relationships, as well as the geographic flexibility needed to manage and crew our large and diverse fleet so as to provide a high level of service, while remaining cost-effective. We also believe that our focus on customer service and reliability enhances our relationships with our charterers. In the past decade, we have had successful chartering relationships with the majority of the top 20 liner companies by TEU capacity.

Dividend Policy

Commencing with a dividend of \$0.25 per share for the fourth quarter ended December 31, 2010, we have paid a cash dividend to our stockholders for seven consecutive quarters since our initial public offering in November 2010. In October 2011, our Board of Directors determined to raise our quarterly dividend from \$0.25 per share to \$0.27 per share, an increase of eight percent (8%), beginning with the dividend paid for the third quarter ended September 30, 2011. On October 5, 2012, we declared a dividend of \$0.27 per share payable on November 6, 2012, to holders of record on October 22, 2012. We intend to continue to pay our stockholders quarterly dividends of \$0.27 per share, or \$1.08 per share per year. However, there can be no assurance that we will pay regular quarterly dividends in the future.

Our board of directors may review and amend our dividend policy from time to time in light of our plans for future growth and other factors. We cannot assure you that we will be able to pay regular quarterly dividends in the amounts stated above or elsewhere in this prospectus, and our ability to pay dividends will be subject to the restrictions in our credit facilities and the provisions of the laws of the Republic of the Marshall Islands (the "Marshall Islands") as well as the other limitations set forth in the sections of this prospectus entitled "Dividend Policy" and "Risk Factors".

Recent Developments

Since June 30, 2012, we entered into new chartering arrangements for certain vessels in our fleet, we purchased two vessels, which we subsequently agreed to charter, and we sold one vessel for demolition as follows:

We purchased the 1997-built, 2,458 TEU container vessel *Messini* (ex. *Pembroke*) for \$6.8 million. The vessel was delivered on August 2, 2012. The acquisition was entirely financed with cash on hand. The Company also entered into a charter agreement with Evergreen for the vessel for a period of approximately 18 months at a daily rate of \$8,100. The vessel was delivered to her charterers on September 24, 2012.

We have agreed to charter the 1992-built, 3,351 TEU container vessel *Konstantina* to Evergreen for a period of approximately one year at a daily rate of \$7,550. The vessel is expected to be

delivered to her charterers in October 2012.

On August 8, 2012, we took delivery of the 2001-built, 1,078 TEU containership *Stadt Luebeck*. The vessel was purchased from an insolvency administrator for a purchase price of \$11.3 million. The acquisition was funded entirely out of bank financing provided by an existing lender to the Company. The vessel is currently chartered to CMA CGM until the end of October 2012, at a daily rate of \$5,800. We have entered into an agreement, subject to final documentation, to extend the time charter agreement with CMA CGM from October 23, 2012 for a further period of a minimum of six months and a maximum of 10 months at a daily rate of

\$6,200. The charterer has a unilateral option to extend the charter for a period of an additional six months after the initial period at a daily rate of \$8,500.

We have entered into an agreement, subject to final documentation, to extend the time charter agreement with Sea Consortium for the 1991-built, 3,351 TEU containership *Karmen*, from October 1, 2012 for a minimum of four months and a maximum of nine months, at a daily rate of \$7,000.

We sold the 1991-built, 1,068 TEU containership *Horizon* for demolition for a sale price of approximately \$3.7 million. The vessel was delivered to its buyers on September 21, 2012. The sale of the *Horizon* resulted in a loss of

approximately
\$7.1 million
that will be
reflected in our
financial
statements for
the third quarter
ended
September 30,
2012.

We have
entered into an
agreement,

containership
Prosper with
Sinokor for a

a maximum of
four months, at
a daily rate of
\$5,750. The
vessel is
expected to be
delivered to its
charterers on

During the three month period after June 30, 2012, we drew \$11.3 million under the credit facility we entered into on October 6, 2011, as amended by a supplemental agreement we entered into on June 29, 2012, with Unicredit Bank AG, secured by eleven of our previously unencumbered existing containerships, in order to finance the purchase of the vessel *Stadt Luebeck*, which we took delivery of on August 8, 2012. Additionally we drew a total of \$30.6 million under two credit facilities we entered into on August 16, 2011 and October 12, 2011, in order to finance pre-delivery installments with regards to four of our contracted newbuildings.

Aggregate dry-docking costs for the third quarter ended September 30, 2012 are estimated to be \$5.4 million, which includes dry-docking costs, off-hire expenses and related voyage expenses, for 80 days required for dry-docking of four of our vessels.

On October 5, 2012, we declared a dividend of \$0.27 per share payable on November 6, 2012, to holders of record on October 22, 2012.

- (1) EBITDA and Adjusted EBITDA are non-GAAP measures. The Company reports its financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, management believes that certain non-GAAP financial measures used in managing the business may provide users of these financial measures additional meaningful

comparisons between current results and results in prior operating periods. Management believes that these non-GAAP financial measures can provide additional meaningful reflection of underlying trends of the business because they provide a comparison of historical information that excludes certain items that impact the overall comparability. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating the Company's performance. The table below sets out supplemental financial data and corresponding reconciliations to GAAP financial

EBITDA represents net income before interest and finance costs, interest income, depreciation and amortization of deferred dry-docking and special survey costs. Adjusted EBITDA represents net income before interest and finance costs, interest income, depreciation, amortization of deferred dry-docking & special survey costs, gain/(loss) on sale of vessels, non-cash changes in fair value of derivatives, non-cash changes in Accrued charter revenue deriving from escalating charter rates under which certain of our vessels operate and the cash of partial purchases of consumable stores for newly acquired vessels. Accrued charter revenue is attributed to the time difference between the revenue recognition and the cash collection. However, EBITDA and Adjusted EBITDA are not recognized measurements under U.S. generally accepted accounting principles, or GAAP. We believe that the presentation of EBITDA and Adjusted EBITDA are useful to investors because they are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. We also believe that EBITDA and Adjusted EBITDA are useful in evaluating our ability to service additional debt and make capital expenditures. In addition, we believe that EBITDA and Adjusted EBITDA are useful in evaluating our operating performance and liquidity position compared to that of other companies in our industry because the calculation of EBITDA and Adjusted EBITDA generally eliminates the effects of financings, income taxes and the accounting effects of capital expenditures and acquisitions, items which may vary for different companies for reasons unrelated to overall operating performance and liquidity. In evaluating EBITDA and Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of EBITDA and Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

For further details, see the sections entitled Where You Can Find Additional Information and Incorporation by Reference.

Any of the risk factors referred to above could significantly and negatively affect our business, results of operations or financial condition, which may reduce our ability to pay dividends and lower the trading price of our common stock. The risks referred to above are not the only ones that may exist. Additional risks not currently known by us or that we deem immaterial may also impair our business operations. We caution that the forward-looking statements included in this prospectus (and in the documents and statements incorporated by reference herein) represent our estimates and assumptions only as of the date of this prospectus (and in the documents and statements incorporated by reference herein) and are not intended to give any assurance as to future results. Assumptions, expectations, projections, intentions and beliefs about future events may, and often do, vary from actual results and these differences can be material. The reasons for this include the risks, uncertainties and factors described under Risk Factors (and in the Risk Factors described in our Annual Report on Form 20-F). As a result, the forward-looking events discussed in this prospectus might not occur and our actual results may differ materially from those anticipated in the forward-looking statements. Accordingly, you should not unduly rely on any forward-looking statements.

We undertake no obligation to update or revise any forward-looking statements contained in this prospectus, whether as a result of new information, future events, a change in our views or expectations or otherwise. New factors emerge from time to time, and it is not possible for us to predict all of these factors. Further, we cannot assess the impact of each such factor on our business or the extent to which any factor, or combination of factors, may cause actual results to be materially different from those contained in any forward-looking statement.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting the underwriting discount and estimated expenses relating to this offering payable by us, will be approximately \$93.5 million. This amount is based on the public offering price of \$14.00 per share and assumes no exercise of the underwriters' option to purchase additional shares. We plan to use the net proceeds of this offering for capital expenditures, including vessel acquisitions, and for other general corporate purposes, which may include repayments of indebtedness.

DIVIDEND POLICY

Commencing with a dividend of \$0.25 per share for the fourth quarter ended December 31, 2010, we have paid a cash dividend to our stockholders for seven consecutive quarters since our initial public offering in November 2010. In October 2011, our Board of Directors determined to raise our quarterly dividend from \$0.25 per share to \$0.27 per share, an increase of eight percent (8%), beginning with the dividend paid for the third quarter ended September 30, 2011. On October 5, 2012, we declared a dividend of \$0.27 per share payable on November 6, 2012, to holders of record on October 22, 2012. We intend to continue to pay our stockholders quarterly dividends of \$0.27 per share, or \$1.08 per share per year. However, there can be no assurance that we will pay regular quarterly dividends in the future.

We currently intend to pay dividends in amounts that will allow us to retain a portion of our cash flows to fund vessel, fleet or company acquisitions that we expect to be accretive to earnings and cash flows and for debt repayment and dry-docking costs, as determined by management and our board of directors. Our board of directors may review and amend our dividend policy from time to time in light of our plans for future growth and other factors, and our ability to pay dividends will be subject to the restrictions in our credit facilities and the provisions of the Marshall Islands law. The timing and amount of dividend payments will be dependent upon our earnings, financial condition, cash requirements and availability, fleet renewal and expansion and other factors. We cannot assure you that we will be able to pay regular quarterly dividends in the amounts stated above or elsewhere in this prospectus, and dividends may be discontinued at any time at the discretion of our board of directors. Our ability to pay dividends may be limited by the amount of cash we can generate from operations following the payment of fees and expenses and the establishment of any reserves, as well as additional factors unrelated to our profitability. We are a holding company, and we depend on the ability of our subsidiaries to distribute funds to us in order to satisfy our financial obligations and to make dividend payments. See Item 3. Key Information D. Risk Factors Risks Inherent in Our Business beginning on page 3 of our Annual Report on Form 20-F for a discussion of the risks related to our ability to pay dividends.

Set out below is a table showing the dividends and distributions paid in 2007, 2008, 2009, 2010, 2011 and the first nine months of 2012.

UNDERWRITING

Under the terms and subject to the conditions in an underwriting agreement dated the date of this prospectus supplement, the underwriters named below have severally agreed to purchase, and we have agreed to sell to them, the number of shares of our common stock indicated below:

Name	Number of Shares
Morgan Stanley & Co. LLC	4,550,000
Goldman, Sachs & Co.	2,450,000
Total	7,000,000

The underwriters are collectively referred to as the underwriters. The underwriters are offering the shares of common stock subject to their acceptance of the shares from us. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of our common stock offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of our common stock offered by this prospectus if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the underwriters' option to purchase additional shares described below.

The underwriters initially propose to offer part of the shares of our common stock directly to the public at the offering price listed on the cover page of this prospectus and part to certain dealers. After the initial offering of the shares of our common stock, the offering price and other selling terms may from time to time be varied by the underwriters.

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to 1,050,000 additional shares of our common stock at the public offering price listed on the cover page of this prospectus, less underwriting discounts. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional shares of our common stock as the number listed next to the underwriter's name in the preceding table bears to the total number of shares of our common stock listed next to the names of all underwriters in the preceding table.

The following table shows the per share and total public offering price, underwriting discounts and proceeds before expenses to us. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to an additional 1,050,000 shares of our common stock.

Our common stock is listed on the New York Stock Exchange under the trading symbol CMRE.

In order to facilitate the offering of the shares of our common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of our common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under their option to purchase additional shares. The underwriters can close out a covered short sale by exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under their option to purchase additional shares. The underwriters may also sell shares in excess of their option to purchase additional shares, creating a naked short position. The underwriters must close out any

naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of our common stock in the open market to stabilize the price of our common stock. These activities may raise or maintain the market price of our common stock above independent market levels or prevent or retard a decline in the market price of our common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The underwriters may agree to allocate a number of shares of our common stock for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters for Internet distributions on the same basis as other allocations.

The underwriters and their respective affiliates are full-service financial institutions and have, from time to time, performed, and may in the future perform, various financial advisory, commercial banking and investment banking services for us, for which they received or will receive customary fees and expenses. Charlotte Stratos, who is a member of our board of directors, is a consulting Senior Advisor to the Investment Banking Division of Morgan Stanley & Co. LLC, one of the underwriters of this offering.

THE COMPANY

Costamare Inc. is an international owner of containerships, chartering our vessels to many of the world's largest liner companies. As of December 31, 2011, we had a fleet of 57 containerships aggregating approximately 327,000 TEU, including 10 newbuilds on order and one secondhand vessel to be delivered, making us one of the largest containership charter owners in the world, based on total TEU capacity.

Our strategy is to time-charter our containerships to a geographically diverse, financially strong and loyal group of leading liner companies. As of December 31, 2011, the average (weighted by TEU capacity) remaining time charter duration for our fleet of 57 containerships, including 10 newbuilds on order and one secondhand vessel to be delivered, was 5.8 years, based on the remaining fixed terms and assuming the earliest redelivery dates possible under our containerships' time charters.

The tables below provide additional information, as of December 31, 2011, about our fleet of 57 containerships. Each vessel is a cellular containership, meaning it is a dedicated container vessel.

RISK FACTORS

Investing in the securities to be offered pursuant to this prospectus may involve a high degree of risk. You should carefully consider the important factors set forth under the heading *Risk Factors* in our most recent Annual Report on Form 20-F filed with the SEC and incorporated herein by reference and in the accompanying prospectus supplement for such issuance before investing in any securities that may be offered. For further details, see the section entitled *Where You Can Find Additional Information*.

In addition to the matters described under the heading *Our vessels may call on ports located in countries that are subject to restrictions imposed by the United States government, which could negatively affect the trading price of our shares of common stock* in our most recent Annual Report on Form 20-F, the U.S. Congress is currently considering the enactment of the Iran, North Korea, and Syria Nonproliferation Reform and Modernization Act of 2011, which would, among other things, provide for the imposition of sanctions, including a prohibition on investments by U.S. persons and a 180-day prohibition on calling at any U.S. port, on companies or persons that provide certain shipping services to or from Iran, North Korea or Syria with respect to certain prohibited goods.

Any of the risk factors referred to above could significantly and negatively affect our business, results of operations or financial condition, which may reduce our ability to pay dividends and lower the trading price of our common stock. The risks referred to above are not the only ones that may exist. Additional risks not currently known by us or that we deem immaterial may also impair our business operations. You may lose all or a part of your investment.

SERVICE OF PROCESS AND ENFORCEMENT OF LIABILITIES

We are a Marshall Islands corporation and our principal executive offices are located outside of the United States in Athens, Greece. All of our directors and officers and some of the experts in this prospectus reside outside the United States. In addition, a substantial portion of our assets and the assets of our directors, officers and experts are located outside of the United States. As a result, you may have difficulty serving legal process within the United States upon us or any of these persons. You may also have difficulty enforcing, both in and outside of the United States, judgments you may obtain in U.S. courts against us or these persons in any action, including actions based upon the civil liability provisions of U.S. Federal or state securities laws.

Furthermore, there is substantial doubt that the courts of the Marshall Islands or Greece would enter judgments in original actions brought in those courts predicated on U.S. Federal or state securities laws.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the SEC using a shelf registration process. Under this shelf registration process, we may, from time to time, sell up to an aggregate public offering price of \$300,000,000 of any combination of the securities described in this prospectus in one or more offerings. This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide you with this prospectus, as well as a prospectus supplement that will contain specific information about the terms of that offering. That prospectus supplement may include additional risk factors or other special considerations applicable to those particular securities. Any prospectus supplement may also add, update or change information contained in this prospectus. If there is any inconsistency between the information contained in this prospectus and any prospectus supplement, you should rely on the information contained in that particular prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under the heading *Where You Can Find Additional Information*.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form F-3 under the Securities Act with respect to the offer and sale of securities pursuant to this prospectus. This prospectus, filed as a part of the registration statement, does not contain all of the information set forth in the registration statement or the exhibits and schedules thereto in accordance with the rules and regulations of the SEC and no reference is hereby made to such omitted information. Statements made in this prospectus concerning the contents of any contract, agreement or other document filed as an exhibit to the registration statement are summaries of all of the material terms of such contracts, agreements or documents, but do not repeat all of their terms. Reference is made to each such exhibit for a more complete description of the matters involved and such statements shall be deemed qualified in their entirety by such reference. The registration statement and the exhibits and schedules thereto filed with the SEC may be inspected, without charge, and copies may be obtained at prescribed rates, at the public reference facility maintained by the SEC at its principal office at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the public reference facility by calling 1-800-SEC-0330. The SEC also maintains a website at <http://www.sec.gov> that contains reports, proxy and information statements and other information regarding registrants that file electronically with the SEC. Attention: Konstantinos Zacharatos

You should assume that the information appearing in this prospectus and any accompanying prospectus supplement, as well as the information we previously filed with the SEC and incorporated by reference, is accurate as of the dates on the front cover of those documents only. Our business, financial condition and results of operations and prospects may have changed since those dates.

RATIO OF EARNINGS TO FIXED CHARGES

The following table shows our ratios of earnings to fixed charges for the periods indicated, computed using amounts derived from our financial statements prepared in accordance with U.S. GAAP.

	Year Ended December 31,					9 Months Ended September 30,
	2006	2007	2008	2009	2010	2011
Ratio of Earnings to Fixed Charges	3.29	2.85	2.54	2.41	2.18	2.11

We have not issued any preferred stock as of the date of this prospectus. Accordingly, the ratio of earnings to combined fixed charges and preference dividends is equivalent to the ratio of earnings to fixed charges.

For the purpose of computing the consolidated ratio of earnings to fixed charges, earnings consist of net income plus fixed charges less interest capitalized. Fixed charges consist of interest expensed and capitalized, amortization and write-off of capitalized expenses relating to indebtedness.

USE OF PROCEEDS

Unless otherwise set forth in the applicable prospectus supplement, we intend to use the net proceeds received from the sale of the securities we offer by this prospectus for general corporate purposes, which may include, among other things:

potential
future vessel
acquisitions;

additions to
working
capital; and

the repayment
of
indebtedness.

We may raise additional funds from time to time through equity or debt financings not involving the issuance of securities described in this prospectus, including borrowings under credit facilities, to finance our business and operations and new vessel acquisitions.

CAPITALIZATION AND INDEBTEDNESS

Our capitalization and indebtedness will be set forth in a prospectus supplement to this prospectus or in a report on Form 6-K subsequently furnished to the SEC and specifically incorporated herein by reference.

DESCRIPTION OF CAPITAL STOCK

A description of our common stock can be found in our registration statement on Form 8-A (File No. 001-34934), filed with the SEC on October 27, 2010 which incorporates by reference the description of our common stock contained in our Registration Statement on Form F-1 (File No. 333- 170033), as amended, filed with the SEC on October 20, 2010, and any amendments or reports filed updating that description.

DESCRIPTION OF PREFERRED STOCK

Our articles of incorporation authorize our board of directors to establish one or more series of preferred shares and to determine, with respect to any series of preferred shares, the terms and rights of that series. The issuance of shares of preferred stock may have the effect of discouraging, delaying or preventing a change of control of us or the removal of our management. The issuance of shares of preferred stock with voting and conversion rights may adversely affect the voting power of the holders of shares of our common stock.

The applicable prospectus supplement will describe the following terms of any series of preferred shares in respect of which this prospectus is being delivered:

the designation
of the series;

the number of
shares in the
series, which
our board of
directors may,
except where
otherwise
provided in the
preferred shares
designation,
increase or
decrease, but
not below the
number of
shares then
outstanding;

whether
dividends, if
any, will be
cumulative or
non-cumulative
and the
dividend rate of

the series;

the dates at which dividends, if any, will be payable;

the redemption rights and price or prices, if any, for shares of the series;

the terms and amounts of any sinking fund provided for the purchase or redemption of shares of the series;

the amounts payable on shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding-up of the affairs of our company;

whether the shares of the series will be convertible into shares of any other class or series, or any other security, of our company or any other corporation, and, if so, the specification of the other class or series or

other security,
the conversion
price or prices
or rate or rates,
any rate
adjustments, the
date or dates as
of which the
shares will be
convertible and
all other terms
and conditions
upon which the
conversion may
be made;

restrictions on
the issuance of
shares of the
same series or
of any other
class or series;
and

the voting
rights, if any, of
the holders of
the series.

The description in the applicable prospectus supplement of any preferred stock we offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable certificate of designations or specimen stock certificate, which will be filed with the SEC if we offer preferred stock. For more information on how you can obtain copies of any certificate of designations or specimen stock certificate if we offer preferred stock, see [Where You Can Find Additional Information](#) beginning on page 7 of this prospectus. We urge you to read the applicable certificate of designations, the applicable specimen stock certificate and any applicable prospectus supplement in their entirety.

DESCRIPTION OF DEBT SECURITIES

We may elect to offer debt securities. The following description of debt securities sets forth the material terms and provisions of the debt securities to which any prospectus supplement may relate. Our debt securities would be issued under an indenture between us and a trustee. The debt securities we may offer may be convertible into common stock or other securities. The indenture, a form of which is included as an exhibit to the registration statement of which this prospectus is a part, will be executed at the time we issue any debt securities. Any supplemental indentures will be filed with the SEC on a Form 6-K or by a post-effective amendment to the registration statement of which this prospectus is a part.

The particular terms of the debt securities offered by any prospectus supplement, and the extent to which the general provisions described below may apply to the offered debt securities, will be described in the applicable prospectus supplement. The indenture will be qualified under the Trust Indenture Act of 1939, as amended. The terms of the debt securities will include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act.

Because the following summaries of the material terms and provisions of the indenture and the related debt securities are not complete, you should refer to the form of the indenture and the debt securities for complete information on some of the terms and provisions of the indenture, including definitions of some of the terms used below, and the debt securities.

General

The provisions of the indenture do not limit the aggregate principal amount of debt securities which may be issued thereunder. Unless otherwise provided in a prospectus supplement, the debt securities will be our direct, unsecured and unsubordinated general obligations and will have the same rank in liquidation as all of our other unsecured and unsubordinated debt. The debt securities may be convertible into common stock or other securities if specified in the applicable prospectus supplement.

Payments

We may issue debt securities from time to time in one or more series. The provisions of the indenture allow us to reopen a previous issue of a series of debt securities and issue additional debt securities of that series. The debt securities may be denominated and payable in U.S. dollars or other currencies. We may also issue debt securities from time to time with the principal amount or interest payable on any relevant payment date to be determined by reference to one or more currency exchange rates, securities or baskets of securities, commodity prices or indices. Holders of these types of debt securities will receive payments of principal or interest that depend upon the value of the applicable currency, security or basket of securities, commodity or index on the relevant payment dates.

Debt securities may bear interest at a fixed rate, which may be zero, a floating rate, or a rate which varies during the lifetime of the debt security. Debt securities bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate may be sold at a discount below their stated principal amount.

Some of the debt securities may be issued as original issue discount securities. Original issue discount securities bear no interest or bear interest at below-market rates and may be sold at a discount below their stated principal amount. The applicable prospectus supplement will contain information relating to income tax, accounting, and other special considerations applicable to original issue discount securities.

Registration and Transfer of Debt Securities

Holders may present debt securities for exchange, and holders of registered debt securities may present these securities for transfer, in the manner, at the places and subject to the restrictions

stated in the debt securities and described in the applicable prospectus supplement. We will provide these services without charge except for any tax or other governmental charge payable in connection with these services and subject to any limitations or requirements provided in the indenture or the supplemental indenture or issuer order under which that series of debt securities is issued. Holders may transfer debt securities in bearer form and/or the related coupons, if any, by delivery to the transferee. If any of the securities are held in global form, the procedures for transfer of interests in those securities will depend upon the procedures of the depositary for those global securities.

Events of Default

The indenture provides holders of debt securities with remedies if we fail to perform specific obligations, such as making payments on the debt securities, or if we become bankrupt. Holders should review these provisions and understand which actions trigger an event of default and which actions do not. The indenture permits the issuance of debt securities in one or more series, and, in many cases, whether an event of default has occurred is determined on a series-by-series basis.

An event of default is defined under the indenture, with respect to any series of debt securities issued under the indenture, as any one or more of the following events, subject to modification in a supplemental indenture, each of which we refer to in this prospectus as an event of default, having occurred and be continuing:

default is made for more than 30 days in the payment of interest, premium or principal in respect of the securities;

we fail to perform or observe any of our other obligations under the securities and this failure has continued for the period of 60 days next following the service on us of notice requiring the same to be remedied;

our bankruptcy, insolvency or

reorganization
under any
applicable
bankruptcy,
insolvency or
insolvency
related
reorganization
law;

an order is
made or an
effective
resolution is
passed for the
winding up or
liquidation of
us; or

any other
event of
default
provided in the
supplemental
indenture or
issuer order, if
any, under
which that
series of debt
securities is
issued.

Acceleration of Debt Securities Upon an Event of Default

The indenture provides that, unless otherwise set forth in a supplemental indenture:

if an event of
default occurs
due to the
default in
payment of
principal of, or
any premium
or interest on,
any series of
debt securities
issued under
the indenture,
or due to the
default in the
performance or

breach of any other covenant or warranty of us applicable to that series of debt securities but not applicable to all outstanding debt securities issued under the indenture occurs and is continuing, either the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of each affected series, voting as one class, by notice in writing to us may declare the principal of and accrued interest on the debt securities of such affected series (but not any other debt securities issued under the indenture) to be due and payable immediately;

if an event of default occurs due to specified events of bankruptcy, insolvency or

reorganization
of us, the
principal of all
debt securities
and interest
accrued on the
debt securities
to be due and
payable
immediately;
and

if an event of
default due to a
default in the
performance of
any other of
the covenants
or agreements
in the
indenture
applicable to
all outstanding
debt securities
issued under
the indenture
occurs and is
continuing,
either the
trustee or the
holders of not
less than 25%
in aggregate
principal
amount of all
outstanding
debt securities
issued under
the indenture
for which any
applicable
supplemental
indenture does
not prevent
acceleration
under the
relevant
circumstances,
voting as one
class, by notice
in writing to us

may declare
the principal of
all debt
securities and
interest
accrued on the
debt securities
to be due and
payable
immediately.

Annulment of Acceleration and Waiver of Defaults

In some circumstances, if any and all events of default under the indenture, other than the non-payment of the principal of the securities that has become due as a result of an acceleration, have been cured, waived or otherwise remedied, then the holders of a majority in aggregate principal amount of all series of outstanding debt securities affected, voting as one class, may annul past declarations of acceleration or waive past defaults of the debt securities.

Indemnification of Trustee for Actions Taken on Your Behalf

The indenture provides that the trustee shall not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with the direction of the holders of debt securities issued under the indenture relating to the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred upon the trustee. In addition, the indenture contains a provision entitling the trustee, subject to the duty of the trustee to act with the required standard of care during a default, to be indemnified to its satisfaction by the holders of debt securities issued under the indenture before proceeding to exercise any right or power at the request of holders. Subject to these provisions and specified other limitations, the holders of a majority in aggregate principal amount of each series of outstanding debt securities of each affected series, voting as one class, may direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee.

Limitation on Actions by You as an Individual Holder

The indenture provides that no individual holder of debt securities may institute any action against us under the indenture, except actions for payment of overdue principal and interest, unless the following actions have occurred:

the holder
must have
previously
given
written
notice to the
trustee of
the
continuing
default;

the holders
of not less
than 25% in
aggregate
principal
amount of
the
outstanding
debt
securities of
each
affected
series,
treated as

one class,
must have:

requested
the trustee
to institute
that action;
and

offered the
trustee
indemnity
satisfactory
to it;

the trustee
must have
failed to
institute that
action
within 60
days after
receipt of
the request
referred to
above; and

the holders
of a
majority in
principal
amount of
the
outstanding
debt
securities of
each
affected
series,
voting as
one class,
must not
have given
directions to
the trustee
inconsistent
with those
of the
holders
referred to
above.

The indenture contains a covenant that we will file annually with the trustee a certificate of no default or a certificate specifying any default that exists.

Discharge, Defeasance and Covenant Defeasance

We have the ability to eliminate most or all of our obligations on any series of debt securities prior to maturity if we comply with the following provisions:

Discharge of Indenture. We may discharge all of our obligations, other than as to transfers and exchanges, under the indenture after we have:

paid or
caused to be
paid the
principal of
and interest
on all of the
outstanding
debt
securities in
accordance
with their
terms;

delivered to
the trustee
for
cancellation
all of the
outstanding
debt
securities; or

irrevocably
deposited
with the
trustee cash
or, in the
case of a
series of
debt
securities
payable only
in U.S.
dollars, U.S.
government
obligations
in trust for
the benefit
of the

holders of
any series of
debt
securities
issued under
the
indenture
that have
either
become

due and payable, or are by their terms due and payable, or are scheduled for redemption, within one year, in an amount certified to be sufficient to pay on each date that they become due and payable, the principal of and interest on, and any mandatory sinking fund payments for, those debt securities. However, the deposit of cash or U.S. government obligations for the benefit of holders of a series of debt securities that are due and payable, or are scheduled for redemption, within one year will discharge obligations

under the
indenture
relating only
to that series
of debt
securities.

Defeasance of a Series of Securities at Any Time. We may also discharge all of our obligations, other than as to transfers and exchanges, under any series of debt securities at any time, which we refer to as defeasance in this prospectus. We may be released with respect to any outstanding series of debt securities from the obligations imposed by any covenants and elect not to comply with those covenants without creating an event of default. Discharge under those procedures is called covenant defeasance.

Defeasance or covenant defeasance may be effected only if, among other things:

we
irrevocably
deposit with
the trustee
cash or, in
the case of
debt
securities
payable
only in U.S.
dollars, U.S.
government
obligations,
as trust
funds in an
amount
certified to
be sufficient
to pay on
each date
that they
become due
and payable,
the principal
of and
interest on,
and any
mandatory
sinking fund
payments
for, all
outstanding
debt
securities of
the series
being

defeased;
and

we deliver
to the
trustee an
opinion of
counsel to
the effect
that:

the holders
of the series
of debt
securities
being
defeased
will not
recognize
income,
gain or loss
for United
States
federal
income tax
purposes as
a result of
the
defeasance
or covenant
defeasance;

the
defeasance
or covenant
defeasance
will not
otherwise
alter those
holders
United
States
federal
income tax
treatment of
principal
and interest
payments
on the series
of debt
securities

being
defeased;
and

in the case
of a
defeasance,
this opinion
must be
based on a
ruling of the
Internal
Revenue
Service or a
change in
United
States
federal
income tax
law
occurring
after the
date of this
prospectus,
since that
result would
not occur
under
current tax
law.

Modification of the Indenture

Modification without Consent of Holders. We and the trustee may enter into supplemental indentures without the consent of the holders of debt securities issued under the indenture to:

secure any
debt securities;

evidence the
assumption by
a successor
corporation of
our
obligations;

add covenants
for the
protection of
the holders of
debt securities;

cure any
ambiguity or
correct any
inconsistency;

establish the
forms or terms
of debt
securities of
any series; or

evidence the
acceptance of
appointment
by a successor
trustee.

Modification with Consent of Holders. We and the trustee, with the consent of the holders of not less than a majority in aggregate principal amount of each affected series of outstanding debt securities, voting as one class, may add any provisions to, or change in any manner or eliminate any of the provisions of, the indenture or modify in any manner the rights of the holders of those debt securities. However, we and the trustee may not make any of the following changes to any outstanding debt security without the consent of each holder that would be affected by the change:

extend
the final
maturity
of the
security;

reduce
the
principal
amount;

reduce
the rate
or extend
the time

Form of Debt Security

Each debt security will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. Both certificated securities in definitive form and global securities may be issued either:

in
registered
form,

where our
obligation
runs to the
holder of
the
security
named on
the face of
the
security;
or

in bearer
form,
where our
obligation
runs to the
bearer of
the
security.

Definitive securities name you or your nominee as the owner of the security, other than definitive bearer securities, which name the bearer as owner, and in order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the trustee, registrar, paying agent or other agent, as applicable.

Global securities name a depositary or its nominee as the owner of the debt securities represented by these global securities, other than global bearer securities, which name the bearer as owner. The depositary maintains a computerized system that will reflect each investor's beneficial ownership of the securities through an account maintained by the investor with its broker/dealer, bank, trust company or other representative, as we explain more fully below.

Global Securities

Registered Global Securities. We may issue the debt securities in the form of one or more fully registered global securities that will be deposited with a depositary or its nominee identified in the applicable prospectus supplement and registered in the name of that depositary or nominee. In those cases, one or more registered global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal or face amount of the securities to be represented by registered global securities. Unless and until it is exchanged in whole for securities in definitive registered form, a registered global security may not be transferred except as a whole by and among the depositary for the registered global security, the nominees of the depositary or any successors of the depositary or those nominees. If not described below, any specific terms of the depositary arrangement with respect to any securities to be represented by a registered global security will be described in the prospectus supplement relating to those securities. We anticipate that the following provisions will apply to all depositary arrangements:

Ownership of beneficial interests in a registered global security will be limited to persons, called participants, that have accounts with the depositary or persons that may hold interests through participants. Upon the issuance of a registered global security, the depositary will credit, on its book-entry registration and transfer system, the participants accounts with the respective principal or face amounts of the securities beneficially owned by the participants. Any dealers, underwriters or selling

agents participating in the distribution of the securities will designate the accounts to be credited. Ownership of beneficial interests in a registered global security will be shown on, and the transfer of ownership interests will be effected only through, records maintained by the depository, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants. The laws of some jurisdictions may require that some purchasers of securities take physical delivery of these securities in definitive form. These laws may impair your ability to own, transfer or pledge beneficial interests in registered global securities. So long as the depository, or its nominee, is the registered owner of a registered global security, that depository or its nominee, as the case may be, will be considered the sole owner or holder of the securities represented by the registered global security for all purposes under the indenture.

Except as described below, owners of beneficial interests in a registered global security will not be entitled to have the securities represented by the registered global security registered in their names, will not receive or be entitled to receive physical delivery of the securities in definitive form and will not be considered the owners or holders of the securities under the indenture. Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depository for that registered global security and, if that person is not a participant, on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the indenture. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the indenture, the depository for the registered global security would authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through them to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Principal, premium, if any, and interest payments on debt securities represented by a registered global security registered in the name of a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner of the registered global security. None of us, the trustee or any other agent of us or agent of the trustee will have any responsibility or liability for any aspect of the records relating to payments made on account of beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests. We expect that the depository for any of the securities represented by a registered global security, upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or other property to holders on that registered global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in that registered global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in a registered global security held through participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of those participants.

If the depository for any of these securities represented by a registered global security is at any time unwilling or unable to continue as depository or ceases to be a clearing agency registered under the Exchange Act, and a successor depository registered as a clearing agency under the Exchange Act is not appointed by us within 90 days, we will issue securities in definitive form in exchange for the registered global security that had been held by the depository. In addition, we may, at any time and in our sole discretion, decide not to have any of the securities represented by one or more registered global securities. If we make that decision, we will issue securities in definitive form in exchange for all of the registered global security or securities representing those securities. Any securities issued in definitive form in exchange for a registered global security will be registered in the name or names that the depository gives to the relevant trustee or other relevant agent of ours or theirs. It is expected that the depository's instructions will be based upon directions received by the depository from participants with respect to ownership of beneficial interests in the registered global security that had been held by the depository.

Bearer Global Securities. The securities may also be issued in the form of one or more bearer global securities that will be deposited with a common depository for the Euroclear System and Clearstream Banking, societe anonyme or with a nominee for the depository identified in the prospectus supplement relating to those securities. The specific terms and procedures, including the specific terms of the depository arrangement, with respect to any securities to be represented by a bearer global security will be described in the prospectus supplement relating to those securities.

New York Law to Govern

The indenture and the debt securities will be governed by the laws of the State of New York.

as agents or to whom they sell as principals or both. Compensation as to a particular broker-dealer may be in excess of customary commissions or in amounts to be negotiated. We may also from time to time pledge securities pursuant to the margin provisions of any customer agreements with brokers. Upon default, the broker may offer and sell such pledged securities from time to time pursuant to this prospectus, as supplemented or amended to reflect such transaction.

Such prospectus supplement, and, if necessary, a post-effective amendment to the registration statement of which this prospectus is a part, will be filed with the SEC to reflect the disclosure of additional information with respect to the distribution of the securities covered by this prospectus. In order to comply with the securities laws of certain states, if applicable, the securities sold under this prospectus may only be sold through registered or licensed broker-dealers. In addition, in some states the securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from registration or qualification requirements is available and is complied with.

In connection with an underwritten offering, we would execute an underwriting agreement with an underwriter or underwriters. Unless otherwise indicated in the revised prospectus or applicable prospectus supplement, such underwriting agreement would provide that the obligations of the underwriter or underwriters are subject to certain conditions precedent and that the underwriter or underwriters with respect to a sale of the covered securities will be obligated to purchase all of the covered securities if any such securities are purchased. We may grant to the underwriter or underwriters an option to purchase additional securities at the public offering price, as may be set forth in the revised prospectus or applicable prospectus supplement. If we grant any such option, the terms of the option will be set forth in the revised prospectus or applicable prospectus supplement.
