TEXAS PACIFIC LAND TRUST
Notes To Unaudited Financial Statements
March 31, 2006

- (1) In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of Texas Pacific Land Trust (the "Trust") as of March 31, 2006 and the results of its operations for the three month periods ended March 31, 2006 and 2005, respectively, and its cash flows for the three month periods ended March 31, 2006 and 2005, respectively. The financial statements and footnotes included herein should be read in conjunction with the Trust's annual financial statements as of December 31, 2005 and 2004 and for each of the years in the three year period ended December 31, 2005 included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2005.
- (2) No value has been assigned to the land held by the Trust other than parcels which have been acquired through foreclosure and a limited number of parcels which have been acquired because they were offered for sale and were contiguous to parcels already owned by the Trust. Consequently, no allowance for depletion is computed, and no charge to income is made, with respect thereto, and no cost is deducted from the proceeds of the land sales in computing gain or loss thereon.
- (3) The Sub-shares and the Certificates of Proprietary Interest are freely interchangeable in the ratio of one Certificate of Proprietary Interest for 600 Sub-shares or 600 Sub-shares for one Certificate of Proprietary Interest.
- (4) The Trust's effective Federal income tax rate is less than the 34% statutory rate because taxable income is reduced by statutory percentage depletion allowed on mineral royalty income.
- (5) The results of operations for the three month period ended March 31, 2006 are not necessarily indicative of the results to be expected for the full year.
- (6) The Trust invests cash in excess of daily requirements primarily in overnight investments in loan participation instruments and U.S. Treasury bills with maturities of ninety days or less. Such investments are deemed to be highly liquid debt instruments and classified as cash equivalents for purposes of the statements of cash flows.

Supplemental cash flow information for the three month periods ended March 31, 2006 and 2005 is summarized as follows:

	2006	2005
Federal income taxes paid	\$ --	\$ --

- (7) SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information* establishes standards for the way public business enterprises are to report information about operating segments. SFAS No. 131 utilizes the management approach as a basis for identifying reportable segments. The management approach is based on the way that management organizes the segments within the enterprise for making operating decisions and assessing performance. The Trust's management views its operations as one segment and

Edgar Filing: TEXAS PACIFIC LAND TRUST - Form 10-Q

believes the only significant activity is managing the land which was conveyed to the Trust in 1888. The Trust's management makes decisions about resource allocation and performance assessment based on the same financial information presented in these financial statements. Managing the land includes sales and leases of such land, and the retention of oil and gas royalties.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read together with (i) the factors discussed in Item 1A Risk Factors of Part I of our Annual Report to the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2005, (ii) the factors discussed in Part II, Item 1A Risk Factors, if any, of this Quarterly Report on Form 10-Q and (iii) the Financial Statements, including the Notes thereto, and the other financial information appearing elsewhere in this Report. Period-to-period comparisons of financial data are not necessarily indicative, and therefore should not be relied upon as indicators, of the Trust's future performance. Words or phrases such as does not believe and believes, or similar expressions, when used in this Form 10-Q or other filings with the Securities and Exchange Commission, are intended to identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Results of Operations for the Quarter Ended March 31, 2006 Compared to the Quarter Ended March 31, 2005

Earnings per sub-share certificate were \$.91 for the first quarter of 2006 compared to \$.62 for the first quarter of 2005. Total revenues were \$3,498,768 for the first quarter of 2006 compared to \$2,579,261 for the first quarter of 2005, an increase of 35.7%. This increase in revenue and earnings was due primarily to increases in oil and gas royalty income and easement and sundry income during the first quarter of 2006 compared to the first quarter of 2005.

The Trust did not sell any land during the first quarter of 2006 or the first quarter of 2005.

Rentals, royalties and sundry income were \$3,051,927 for the first quarter of 2006 compared to \$2,135,205 for the first quarter of 2005, an increase of 42.9%. This increase resulted primarily from increases in oil and gas royalty income and, to a lesser extent, an increase in easement and sundry income.

Oil and gas royalty revenue was \$2,512,260 for the first quarter of 2006, compared to \$1,831,534 for the first quarter of 2005, an increase of 37.2%. Oil royalty revenue was \$1,443,384 for the first quarter of 2006, an increase of 18.2% from the first quarter of 2005. Crude oil production subject to the Trust's royalty interest decreased 13.0% for the first quarter of 2006 compared to the first quarter of 2005, but this decrease in volume was more than offset by a 35.9% increase in the average price per royalty barrel of crude oil in the first quarter of 2006 compared to the 2005 period. Gas royalty revenue was \$1,068,876 for the first quarter of 2006, an increase of 75.1% from the first quarter of 2005, when gas royalty income was \$610,304. This increase in gas royalty income is attributable to a volume increase of 3.8% and price increases of 68.7%.

Easement and sundry income was \$449,247 for the first quarter of 2006, an increase of 143.0% from the first quarter of 2005. This category of income is unpredictable and may vary significantly from quarter to quarter.

Interest revenue was \$446,841 for the first quarter of 2006, an increase of 0.6% over the first quarter of 2005. Interest on notes receivable was \$341,837 for the first quarter of 2006, down 16.6% from the first quarter of 2005. As of March 31, 2006, notes receivable for land sales were \$18,486,578 compared to \$21,891,447 at March 31, 2005. This decrease in notes receivable for land sales is due to pay down of notes since March 31, 2005. Sundry interest was \$105,004 for the first quarter of 2006, up 208.5% from the first quarter of 2005. Sundry interest fluctuates based on cash on hand for investment and interest rates on short-term investments.

Taxes other than Federal income taxes increased 25.0% for the first quarter of 2006 compared to the first quarter of 2005. This increase is attributable to an increase in oil and gas production taxes. The increase in oil and gas production taxes, in turn, resulted primarily from the increased oil and gas royalty

6

income occasioned by the higher oil and gas prices which prevailed during the first quarter of 2006 compared to the first quarter of 2005.

General and administrative expenses for the first quarter of 2006 were down 0.3% compared to the first quarter of 2005.

Liquidity and Capital Resources

The Trust's principal sources of liquidity are revenues from oil and gas royalties, lease rentals and receipts of interest and principal payments on the notes receivable arising from land sales. In the past, those sources have generated more than adequate amounts of cash to meet the Trust's needs and, in the opinion of management, should continue to do so in the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the information related to market risk of the Trust since December 31, 2005.

Item 4. Controls and Procedures

Pursuant to Rule 13a-15, management of the Trust under the supervision and with the participation of Roy Thomas, the Trust's Chief Executive Officer and David M. Peterson, the Trust's Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of the end of the Trust's fiscal quarter covered by this Report on Form 10-Q. Based upon that evaluation, Mr. Thomas and Mr. Peterson concluded that the Trust's disclosure controls and procedures are effective in timely alerting them to material information relating to the Trust required to be included in the Trust's periodic SEC filings.

There have been no changes in the Trust's internal control over financial reporting during the Trust's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
