**Plumas Bancorp
Proxy Statement
Annual Meeting of Shareholders
May 16, 2007**

Plumas Bancorp is providing this proxy statement to shareholders of Plumas Bancorp in connection with the annual meeting (the Meeting) of shareholders of Plumas Bancorp to be held at the Plumas Bank Credit Administration Building located at 32 Central Avenue, Quincy, California, on Wednesday, May 16, 2007 at 10:30 a.m. and at any and all adjournments thereof.

It is expected that Plumas Bancorp will mail this proxy statement and accompanying notice and form of proxy to shareholders on or about April 6, 2007.

Revocability of Proxies

A proxy for use at the meeting is enclosed. Any shareholder who executes and delivers such proxy has the right to revoke it at any time before it is exercised, by filing with the Secretary of Plumas Bancorp an instrument revoking it, or a duly executed proxy bearing a later date. The Secretary of Plumas Bancorp is Terrance J. Reeson, and any revocation should be filed with him at Plumas Bancorp, 35 S. Lindan Avenue, Quincy, California 95971. In addition, the powers of the proxy holders will be revoked if the person executing the proxy is present at the meeting and elects to vote in person. Subject to such revocation or suspension, the proxy holders will vote all shares represented by a properly executed proxy received in time for the meeting in accordance with the instructions on the proxy. **If no instruction is specified with regard to the matter to be acted upon, the proxy holders will vote the shares represented by the proxy FOR each of the nominees for directors. If any other matter is presented at the meeting, the proxy holders will vote in accordance with the recommendations of management.**

Persons Making the Solicitation

The Board of Directors of Plumas Bancorp is soliciting proxies. Plumas Bancorp (the Company) will bear the expense of preparing, assembling, printing and mailing this proxy statement and the material used in the solicitation of proxies for the meeting. The Company contemplates that proxies will be solicited principally through the use of the mail, but officers, directors and employees of Plumas Bancorp may solicit proxies personally or by telephone, without receiving special compensation for the solicitation. Although there is no formal agreement to do so, the Company will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses in forwarding these proxy materials to their principals. In addition, the Company may utilize the services of individuals or entities not regularly employed by Plumas Bancorp in connection with the solicitation of proxies, if management of the Company determines that this is advisable.

Voting Securities

Management of the Company has fixed March 26, 2007 as the record date for purposes of determining the shareholders entitled to notice of, and to vote at, the meeting. On March 26, 2007, there were 4,999,596 shares of Plumas Bancorp's common stock issued and outstanding. Each holder of Plumas Bancorp's common stock will be entitled to one vote for each share of the Company's common stock held of record on the books of Plumas Bancorp as of the record date. In connection with the election of directors, shares may be voted cumulatively if a shareholder present at the meeting gives notice at the meeting, prior to the voting for election of directors, of his or her intention to vote cumulatively. If any shareholder of Plumas Bancorp gives that notice, then all shareholders eligible to vote will be entitled to cumulate their shares in voting for election of directors. Cumulative voting allows a shareholder to cast a number of votes equal to the number of shares held in his or her name as of the record date, multiplied by the number of directors to be elected. These votes may be cast for any one nominee, or may be distributed among as many nominees as the shareholder sees fit. If cumulative voting is declared at the meeting, votes represented by proxies delivered pursuant to this proxy statement may be cumulated in the discretion of the proxy holders, in accordance with management's recommendation.

The effect of broker nonvotes is that such votes are not counted as being voted; however such votes are counted for purposes of determining a quorum. The effect of a vote of abstention on any matter is that such vote is not counted as a vote for or against the matter, but is counted as an abstention.

Shareholdings of Certain Beneficial Owners and Management

Management of Plumas Bancorp knows of no person who owns, beneficially or of record, either individually or together with associates, 5 percent or more of the outstanding shares of the Company's common stock, except as set forth in the table below. The following table sets forth, as of March 15, 2007, the number and percentage of shares of Plumas Bancorp's outstanding common stock beneficially owned, directly or indirectly, by each of the Company's directors, named executive officers and principal shareholders and by the directors and executive officers of the Company as a group. The shares beneficially owned are determined under the Securities and Exchange Commission Rules, and do not necessarily indicate ownership for any other purpose. In general, beneficial ownership includes shares over which the director, named executive officer or principal shareholder has sole or shared voting or investment power and shares which such person has the right to acquire within 60 days of March 15, 2007. Unless otherwise indicated, the persons listed below have sole voting and investment powers of the shares beneficially owned or acquirable by exercise of stock options. Audit Committee

Plumas Bancorp has an Audit Committee composed of Mr. Reeson, Chairman and Messrs. Flournoy, and Watson. The Board has determined that each member of the Audit Committee meets the independence and experience requirements of the listing standards of NASDAQ and the Securities and Exchange Commission. The Board has determined that the Audit Committee does not have an audit committee financial expert, as that term is defined in Item 401(h) of SEC Regulation S-K, because (i) none of the members of the Audit Committee possesses all the requisite qualifications to be considered an audit committee financial expert and (ii) thus far, the Board has not been able to successfully recruit an individual who qualifies as an audit committee financial expert and who would be willing to serve on the Audit Committee in that capacity. In the future as a Board vacancy occurs, the Board of Directors will attempt to recruit a member who will meet the SEC definition of audit committee financial expert.

The Audit Committee met seven times during 2006. The Audit Committee reviews all internal and external audits including the audit by Perry-Smith LLP, the Company's independent auditor, report any significant findings of audits to the Board of Directors, and ensures that the internal audit plans are met, programs are carried out, and deficiencies and weaknesses, if any, are addressed. The Audit Committee meets regularly to discuss and review the overall audit plan. The Audit Committee's policy is to pre-approve all recurring audit and non-audit services provided by the independent auditors through the use of engagement letters. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to particular service or category of services and is generally subject to a specific budget. The independent auditors and management are required to periodically report to the Audit Committee regarding all services provided by the independent auditors and fees associated with those services performed to date. Other than some ancillary audit and accounting services and some ancillary tax and accounting consulting services, the fees paid to the independent auditors in 2006 and 2005 were approved per the Audit Committee's pre-approval policies.

Audit Committee Report

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that Plumas Bancorp specifically incorporates this information by reference, and shall not otherwise be deemed filed under the Acts.

The Board of Directors and the Audit Committee has reviewed Plumas Bancorp's audited financial statements and discussed such statements with management. The Board of Directors and the Audit Committee has discussed with Perry-Smith LLP, the Company's independent auditors during the year 2006, the matters required to be discussed by Statement of Auditing Standards No. 61, as amended (Communication with Audit and Finance Committees, as amended).

The Audit Committee received written disclosures and a letter from Perry-Smith LLP, required by Independence Standards Board Standard No. 1 and has discussed with them their independence from management. The Audit Committee has also considered whether the independent auditors' provision of other non-audit services is compatible with the auditors' independence.

Based on the review and discussions noted above, the Audit Committee recommended to the Board of Directors that Plumas Bancorp's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, for filing with the Securities and Exchange Commission.

THE AUDIT COMMITTEE:

Terrance J. Reeson, Chairman

John Flournoy

Thomas Watson

Corporate Governance Committee

Plumas Bancorp has a Corporate Governance Committee which met six times during 2006. The Corporate Governance committee consists of Mr. Grohs, Chairman and Messrs. Kehr, West and Biddle and Ms. McArthur. The Board has determined that Messrs. Grohs, Kehr, West, and Ms. McArthur are independent within the meaning of the listing standards and rules of NASDAQ. The Corporate Governance committee provides assistance to the Board by identifying qualified individuals as prospective Board members, recommends to the Board the director nominees for election at the annual meeting of shareholders, oversees the annual review and evaluation of the performance of the Board and its committees and develops and recommends corporate governance guidelines to the Board of Directors.

The Corporate Governance Committee does not have any written specific minimum qualifications or skills that the committee believes must be met by either a committee-recommended or a security holder-recommended candidate in order to serve on the committee. The Corporate Governance Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. If any member of the Board does not wish to continue in service or if the Corporate Governance Committee or the Board decided not to re-nominate a member for re-election, the Corporate Governance Committee identifies the desired skills and experience of a new nominee in light of the following criteria. When identifying and evaluating new directors, the Corporate Governance Committee considers the diversity and mix of the existing Board of Directors, including, but not limited to, such factors as: the age of the current directors, their geographic location (being a community bank, there is a strong preference for local directors), background and employment experience. Among other things, when examining a specific candidate's qualifications, the Corporate Governance Committee considers: the ability to represent the best interest of the Company, existing relationships with the Company, interest in the affairs of the Company and its purpose, the ability to fulfill director responsibilities, leadership skill, reputation within the Company's community, community service, integrity, business judgment, ability to develop business for Plumas Bancorp and the ability to work as a member of a team. All nominees to be considered at the Meeting were recommended by the Corporate Governance Committee.

The Corporate Governance Committee will consider nominees to the Board proposed by shareholders, although the Board has no formal policy with regard to shareholder nominees as it considers all nominees on their merits as aforementioned. Any shareholder nominations proposed for consideration by the Board may only be made by complying with the nomination procedures which are included in the Notice of Annual Meeting of Shareholders accompanying this Proxy and should be addressed to:

Compensation Committee

Plumas Bancorp has a Compensation Committee that met three times in 2006. The Compensation Committee consists of Mr. Kehr, Chairman and Messrs. Blickenstaff, Grohs, and Ms. McArthur. The Board has determined that Messrs. Kehr, Grohs, Blickenstaff, and Ms. McArthur are independent within the meaning of the listing standards and rules of NASDAQ. The Compensation Committee reviews human resource policies, establishes the compensation for the Chief Executive Officer and other executive officers, reviews salary recommendations, grants stock options and approves other personnel matters, which are in excess of management's authority.

The Compensation Committee's responsibilities, discussed in detail in its charter include, among other duties, the responsibility to:

Provide advice and consent to the Board of Directors in appointment and evaluation of the job performance of the Chief Executive Officer;

Provide advice and consent to the Chief Executive Officer in the appointment of other executive officers, with approval by the Board of Directors;

Provide advice and consent to the Board of Directors in the evaluation and approval of Company directors and executive officers compensation plans, policies and programs;

Provide advice and consent to executive officers relating to company compensation (including benefits) strategy and policies to ensure that competitive compensation is offered to employees that also aligns the interests of employees with those of Company's stockholders; and

Provide advice and consent to the Chief Executive Officer in planning for executive officer management succession.

Executive Compensation

Compensation Discussion and Analysis

We strive for a total executive compensation program that will:

support our business strategy, improve our overall performance and be cost effective by paying for performance with incentive pay being a key part of executive compensation,

align the interests of our executives with the long-term interests of our shareholders by having a significant portion of the compensation of our executives as equity in the Company,

be internally equitable with the total compensation of our Chief Executive Officer being a low multiple of the total compensation of our other executive officers,

be externally equitable with the base salary of our executive officers being competitive with our peers.

As such, the Compensation Committee believes that executive officer compensation should be closely aligned with the performance of the Company on a short-term and long-term basis, and that such compensation should be structured to assist the Company in attracting and retaining key executives critical to its long-term success. The total compensation of executive officers consists of five components: (i) an annual base salary; (ii) annual incentive bonuses paid only upon achievement of pre-established objective performance targets for the Company and, in certain cases, individual performance targets as well; (iii) stock option awards and restricted stock awards granted to link the interests of our executive officers with those of the Company's shareholders by providing long-term incentives to executive officers of the Company through appreciation in the Company's stock price; (iv) post-employment benefits, specifically salary continuation agreements designed as a long-term incentive and retention benefit and (v) perquisites customary with those made available to executive officers in similar positions, including a 401(k) match.

We believe that the higher the level of the executive, the higher the level of leadership required and risk associated with that executive position to achieve our corporate and financial objectives. Therefore, incentive compensation related to achieving our corporate performance targets and equity compensation related to stock price performance is emphasized in the positions of the Chief Executive Officer and in the Executive Vice President positions, with these elements of compensation providing a higher percentage of total compensation than in lower level positions within the Company.

(i) Annual Base Salary

In setting base salaries our goal is to provide competitive levels of cash compensation to the named executives based upon their duties, responsibilities, and experience. To establish an externally competitive base salary for our executives, the Compensation Committee in the fourth quarter of 2005 engaged John Parry & Alexander (JPA) a Human Resource and Administrative Services consulting firm to provide an executive compensation review and analysis of the positions of Chief Executive Officer, Chief Credit Officer and Chief Financial Officer, to review the current compensation of the Directors of the Company and to develop a four year stock option strategy for the Company.

The JPA review utilized several resources in its analysis including the 2005 California Bankers Association Compensation & Benefits Survey, the 2005-2006 Financial Institutions Benchmark Compensation Report, and the 2005-2006 Watson Wyatt Data Services CompQuest , Top Management Survey. Whenever possible the data from the surveys was compiled based on banks with assets under \$500 million. JPA compared the salaries, in the various surveys, with that of similar positions within the Company including the positions of Chief Executive Officer, Chief Financial Officer and Chief Credit Officer. Based primarily upon these surveys, JPA computed competitive level base salaries (Market Salaries) at the 25th percentile, 50th percentile and 75th percentile for the positions of Chief Executive Officer, Chief Credit Officer and Chief Financial Officer. JPA targeted salaries between the median base salary and the 75th percentile in recognition of the Company s current asset size which is at the high end of the banks included in the surveys.

With the information provided by JPA, The Board of Directors of the Company entered into an employment agreement with Mr. Biddle dated January 1, 2006. This agreement has a three year term. Under this agreement Mr. Biddle s initial base salary was set at \$235,000 per year with future base salary increases to be granted at the sole discretion of the Board. Mr. Biddle is entitled to participate in any and all other employee benefits and plans existing or developed by the Company. The agreement includes payments and benefits in the case of a Change in Control of the Company or the termination of Mr. Biddle without cause. These amounts are described under the caption "*Potential Payments upon Termination or Change of Control*," located on page 19 of this proxy statement.

The initial base salary of \$235,000 incorporated in Mr. Biddle s employment agreement was based on the results of the JPA analysis and the Compensation Committee s independent review of and evaluation of Mr. Biddle. The base salary of Mr. Biddle was between the median and 75th percentile of the Market Salaries. Mr. Biddle, with the concurrence of the Compensation Committee, sets the annual base salaries of the other 4 named executive officers. These salaries for 2006 were based on Mr. Biddle s review and evaluation of each officer and incorporated the JPA analysis. The salary of Mr. Ryback was between the median and 75th percentile of Market Salaries, while the salary for Mr. Herr is slightly above the 75th percentile.

(ii) Annual Incentive Bonuses

We provide annual incentive bonuses to pay our executives for performance. The annual incentive bonuses are designed to drive achievement of our annual financial performance goals, and to promote the attainment of individual performance goals. For the year ended December 31, 2006, the Compensation Committee established the annual corporate financial performance targets based on the following measures: net income of \$5.1 million, diluted earnings per share of \$1.02, return on assets of 1.03%, and return on equity of 15.2%.

Individual performance goals for the Company's senior officers are set by the Company's Chief Executive Officer and reviewed by the Compensation Committee. These performance goals were of two types during 2006: 1.) goals designed to support the Company's 2006 business plan, and 2.) goals designed to strengthen the Company's internal control and risk management. Additionally, each goal must be completed by a specified date.

In the case of the Company's Chief Executive Officer the annual incentive bonus is based exclusively on corporate financial performance measures because his performance has a substantial impact on the achievement of those goals. In the case of Messrs. Herr, Irvine and Ryback, incentive bonuses are based 80% on the achievement of corporate financial performance measures and 20% on individual performance goals. In the case of Ms. Dembosz her incentive bonuses was based 70% on the achievement of corporate financial performance measures and 30% on individual performance goals. The Company establishes an annual target for each financial performance measure based on its confidential business plan and budget for the coming year. Performance below 95% of target on a corporate financial performance measure results in absence of an incentive payment based on that measure. Assuming all corporate financial performance goals are at the target performance level, Mr. Biddle would receive an incentive payment of 30% of his base salary. As each financial performance measure exceeds target by 1% Mr. Biddle would receive an additional 1% of base salary. Therefore, assuming the four financial performance measures exceed target by 5%, Mr. Biddle would receive an incentive payment of 50% of his base salary. At the threshold amount of 95% of target, Mr. Biddle would receive an incentive bonus of 20% of his base salary. Messrs. Herr, Irvine and Ryback would receive a payment of 19.2% of base salary based on corporate financial performance goals at target and 32% of base salary assuming these goals exceed target by 5%. In addition, they can earn up to 8% of their annual base salary based on the achievement of individual performance goals. Ms. Dembosz would receive a payment of 12.6% of base salary based on corporate financial performance goals at target and 21% of base salary assuming these goals exceed target by 5%. In addition she would earn up to 9% of her annual base salary based on the achievement of individual performance goals. Based on the Company's performance and achievement of the annual corporate financial performance and personal performance targets, as applicable for 2006, Mr. Biddle earned an incentive bonus in the amount of \$96,350, or 41.0% of his total base salary of \$235,000. Incentive bonuses earned by the other named executive officers in 2006 were as follows: Mr. Herr: \$49,648 (34.2% of base salary); Mr. Irvine: \$44,444 (34.2% of base salary); Mr. Ryback: \$40,612 (31.2% of base salary); and Ms. Dembosz: \$27,762 (24.5% of base salary).

(iii) Stock Option Awards

We consider equity compensation in the form of annual stock option awards an important component of our total compensation package because it helps align the interests of our executives to those of our shareholders and provides a significant retention benefit. During 2006 the Company's shareholders approved an amendment and restatement of the Plumas Bank 2001 Stock Option Plan allowing restricted stock awards to employees. Additionally, during the fourth quarter of 2005 JPA, at the direction of the Compensation Committee, prepared a proposal for a four year stock option strategy. During 2006 we chose not to issue stock options to our employees, but to wait until the first quarter of 2007 to incorporate the work of JPA and our own analysis and review of equity compensation strategies into an annual stock option and restricted stock granting process. The Board approves all stock option and restricted stock grants.

Beginning on March 1, 2007 we began an annual process of granting stock options to all corporate officers of the Company. The granting of options and or restricted stock is contingent on the Company meeting certain threshold performance measures which are identical to the threshold of the corporate financial performance measures under the annual incentive plan for executive officers. We chose at this time not to incorporate restricted stock into our equity-based compensation program, but may consider issuing restricted stock in the future. We chose to make the annual grants during the first quarter of each year after financial results for the completed fiscal year have been publicly announced and after bonus incentive payments have been calculated. It is anticipated that future annual grants also will be made during the first quarter of the Company's fiscal year. The Company makes grants of equity-based compensation only at fair market value of our stock at the time of grant. The exercise price of stock options is set at the closing stock price on the date of grant. All option grants have a maximum vesting period of five (5) years and expire no more than ten (10) years from the date of grant.

The Company, based primarily on the recommendations provided by JPA, has developed a formula for the granting of equity-based compensation. This formula incorporates the officer's level and the average salary for all officers at each level in the determination of the total value of the equity-based compensation to be included in the officer's total compensation. The higher the officer level the more options/restricted stock that may be granted to the officer. Additional options may be granted to an individual based on outstanding achievement. This is consistent with the Company's philosophy of rewarding those officers who have the most impact on our performance.

(iv) Post-Employment Benefits

We consider providing significant post-employment benefits in the form of providing salary continuation benefits to our executives as an important part of their total executive compensation to reward them for their service and loyalty to the Company. The Company has entered into salary continuation agreements with Messrs. Biddle, Irvine, Herr and Ryback. The purpose of the salary continuation agreements is to provide special incentive to the experienced executive officer to continue employment with the Company on a long-term basis. The agreements provide the executive with salary continuation benefits of up to \$62,000 per year for 15 years after retirement at age 65. In the event of death prior to retirement, the executive's beneficiary will receive salary continuation benefits at a reduced amount depending on the length of service with the Company or the executive's beneficiary is entitled to a portion of the death benefits pursuant to a split dollar agreement. In the event of disability wherein the executive does not continue employment with the Company, the executive is entitled to salary continuation benefits, at a reduced amount depending on the length of service with the Company, beginning at age 65 or on the date on which he is no longer entitled to disability benefits under the Company's group disability insurance, whichever is earlier. If the executive terminates employment with the Company for a reason other than death or disability prior to the retirement age of age 65, such person will be entitled to salary continuation benefits at a reduced amount depending on the length of service with the Company. The vesting of salary continuation benefits occurs at a rate that provides for a 90% vesting at age 60 and 2% per year for the next five years of service, for a total vesting of 100%. In the event of a change of control of the Company and the executive terminates employment with the Company or its successor within a period of 5 years after such change in control, then the executive may elect full vesting of his salary continuation payments and the payment of the salary continuation benefits beginning with the month after his termination, subject to the reduction of benefits if the benefits result in a limitation of deductibility of such benefits for the Company under Section 280G of the Internal Revenue Code. The salary continuation benefits are informally funded by single premium life insurance policies with the executive as the insured parties and the Company as the beneficiary of the policies.

The Company has entered into split dollar agreements with Messrs Biddle, Irvine, Herr and Ryback. The purpose of the split dollar agreements is to provide special incentive for the executives to continue

employment with the Company on a long-term basis. To accomplish this, the Company agrees to divide the net death proceeds of life insurance policies on the Executive's life with the Executive's beneficiary. The Company pays the taxes on the imputed income on the life insurance benefit provided to the Executive under the split dollar agreement.

(v) **Perquisites**

We offer a qualified 401(k) plan in which the named executive officers participate on the same terms as all other employees. Under the terms of the 401(k) plan, we match the first 3% on a dollar-for-dollar basis. In addition we offer medical, dental and vision plans under the same terms to all employees. Other perquisites and benefits, which do not represent a significant portion of the named executives total compensation, include for some of the executives a company provided automobile, company provided gasoline and maintenance, tax gross ups related to split dollar life insurance premiums, the payment of the executives' portion of the split dollar insurance. These plans, and the contributions we make to them, provide an additional benefit to attract and retain employees.

The Role of Executive Officers in Determining Executive Compensation: The Compensation Committee, working with the Chief Executive Officer, set the Chief Executive Officers goals not later than the end of the first quarter of each fiscal year. The Compensation Committee is responsible for obtaining information from management and the Board with respect to the performance of the Chief Executive Officer in connection with these goals at the end of each fiscal year and evaluates the performance of the Chief Executive Officer. The Compensation Committee, at least annually, reviews, adjusts, and approves the Chief Executive Officer's compensation, including annual base salary, incentive bonuses, equity compensation, employment agreements, severance agreements, change in control agreements/provisions, and any other benefits, compensation or arrangements. The Chief Executive Officer reviews and adjusts the other named executive officers' compensation subject to final approval by the Board of Directors. The Compensation Committee provides advice and consent to the Chief Executive Officer in his review and adjustment of other named executive officers' compensation.

Tax Considerations: It is our intent that all compensation be deductible by the Company. At this time, essentially all compensation we paid to the named executive officers is deductible under the provisions of the Internal Revenue Code.

Compensation Committee Report

We have reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, we have recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Annual Report on Form 10-K for the year ended December 31, 2006.

Potential Payments Upon Termination Or Change of Control

The following is a discussion of the payments that may come due to a named executive officer following a change of control or the termination of the named executive officer. The amounts assume that such termination was effective as of December 31, 2006, and thus include amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their termination. Regardless of the manner in which a named executive officer's employment terminates, he is entitled to receive amounts earned during his term of employment including all unused vacation pay and amounts vested through the Bank's 401(k) Plan. Upon termination of employment, a named executive officer also has the right to exercise all vested stock options, unless their termination is for cause.

Payments Made Upon a Change in Control

Salary Continuation Agreements: The Company has entered into salary continuation agreements with Messrs. Biddle, Irvine, Herr and Ryback. The agreements provide the executive with salary continuation benefits of up to \$62,000 per year (based on a vesting schedule as described previously in the Compensation Discussion and Analysis section of this proxy statement) for 15 years after retirement. In the event of a change of control of the Company and the executive terminates employment with the Company or its successor within a period of 5 years after such change in control, then the executive may elect full vesting of his salary continuation payments and the payment of the salary continuation benefits beginning with the month after his termination, subject to the reduction of benefits if the benefits result in a limitation of deductibility of such benefits for the Company under Section 280G of the Internal Revenue Code.

Under the terms of these agreements a change in control includes the following:

A. A Change In Ownership of the Company:

A change in ownership of the Company occurs on the date that any person (or group of persons) acquires ownership of stock of the Company that, together with stock held by such person or group, constitutes more than fifty percent (50%) of the total fair market value or total voting power of the stock of the Company.

B. A Change in Effective Control of the Company:

A change in effective control of the Company occurs on the date that:

1. Any person (or group of persons) acquires (or has acquired during the twelve (12) month period ending on the date of the most recent acquisition by such person or persons) ownership of stock of the Company possessing thirty-five percent (35%) or more of the total voting power of the stock of the Company; or
2. A majority of members of the Company's Board is replaced during any twelve (12) month period by directors whose appointment or election is not endorsed by a majority of the members of the Company's Board prior to the date of the appointment or election.

C. A Change in Ownership of a Substantial Portion of the Company's Assets:

A change in the ownership of a substantial portion of the Company's assets occurs on the date that any person (or group of persons) acquires (or has acquired during the twelve (12) month period ending on the date of the most recent acquisition by such person or persons) assets from the Company that have a total gross fair market value equal to, or more than, forty percent (40%) of the total gross fair market value of all of the assets of the Company immediately prior to such acquisition or acquisitions.

Douglas N. Biddle Employment Agreement: Mr. Biddle entered into an employment agreement with the Company effective January 1, 2006. This agreement is more fully described in the Compensation Discussion and Analysis section of this proxy statement. Under this agreement if a Change in Control (as defined above) occurs and if either (i) Mr. Biddle is not retained by the resulting corporation for a period of 24 months in a position comparable to that of an executive vice president of the resulting corporation or a position with the resulting corporation that is acceptable to Mr. Biddle, or (ii) the resulting company reduces Mr. Biddle's base salary from Mr. Biddle's base salary immediately prior to the Change in Control at any time during the 24 month period immediately following the consummation of the Change in Control Mr. Biddle is entitled to the following:

(1) Represents the difference between the market price of the Company's stock at December 31, 2006 and the weighted average exercise price of the options that would vest on a change in control multiplied by the number of options that would become fully vested on a change in control. Includes only in-the-money options.

(2) Represents the present value of the fully vested salary continuation benefit, using interest rate assumptions consistent with those used in the Company's financial statements, less the present value of the accumulated benefit that was recorded on the Company's financial statements as of December 31, 2006.

Compensation of Directors

Director Compensation: During 2006, non-employee Directors, except the Chairman, each received \$2,100 per month for serving on the Plumas Bancorp's and Plumas Bank's Board of Directors and committees. The Chairman received \$2,650 per month. Mr. Biddle does not receive any separate compensation for serving as a director.

Deferred Fee Agreements: The Company has entered into Deferred Fee Agreements with board members Kehr and Watson. Board member Watson did not defer fees earned in 2006. The purpose of the Deferred Fee Agreements is to provide a board member an opportunity to defer his or her director fees as an incentive to continue service with the Company. The agreement provides for deferral of director fees to the earlier of an agreed upon distribution date or the termination of director services for any reason. The Company will accrue interest on all deferred director fees at an annual floating percentage rate of the current Plumas Bank Prime Rate minus 1%. In the event of death prior to retirement, the beneficiary will receive full-deferred fee benefits. In the event of disability wherein the director does not continue service with the Company, the director is entitled to the full-deferred fee benefit accrued up to the point of director's termination of service.

Non-Qualified Stock Options: Non-qualified stock options representing 2,500 shares of stock were granted to new board member Flournoy at an exercise price of \$18.79 per share in February 2006.

As of December 31, 2006, the Company had 98,596 non-qualified stock options outstanding to directors of the Company, of which 67,976 were exercisable. All stock options were granted at an exercise price of not less than one hundred percent (100%) of the fair market value of the stock on the date of the grant. The amount of options outstanding at December 31, 2006 (as well as the original option grant information presented above) has been adjusted to reflect the 3-for-2 stock split effective June 15, 1999, the 3-for-2 stock split effective November 26, 2002 and the 3-for-2 stock split effective September 16, 2005.

Each option granted expires no later than ten (10) years from the date the option was granted. The vesting of stock options typically occurs at a rate that provides for a 20% vesting for each completed year of service from the anniversary of the option grant date, for a total vesting of 100% after the completion of five years of service. All of the non-qualified stock options outstanding to directors of the Company, vest over a five-year period as described above, with the exception of 22,500 non-qualified stock options granted in December 2002 to four directors of the Company that are nearing retirement. In December 2002, Messrs. Blickenstaff, Kehr, Grohs and Sphar (currently retired), each were granted 5,625 non-qualified stock options at an exercise price of \$10.75 per share. These options vest at a rate that provides for a 33% vesting for each completed year of service from the anniversary of the option grant date, for a total vesting of 100% after the completion of three years of service. Upon a change in control all stock options held by directors may vest and become exercisable.

Director Emeritus Plans

Director Retirement Agreement: The Company has entered into Director Retirement (fee continuation) Agreements with its non-employee Directors excluding Mr. Elliott. Mr. Elliott retired as President and Chief Executive Officer of the Company during 2005 and is currently receiving benefits under his executive salary continuation agreement. The purpose of the fee continuation agreements is to provide a retirement benefit to the board members as an incentive to continue informal service with the Company. The agreement provides for fee continuation benefits of up to \$10,000 per year with a term of 12 years after retirement with the exception of board member Flournoy whose agreement has a term of 15 years. In the event of death prior to retirement, the beneficiary will receive full fee continuation benefits. In the event of disability wherein the director does not continue service with the Company, the director is entitled to fee continuation benefits, at a reduced amount depending on the length of service with the Company, beginning the month following termination of service. If the director terminates service with the Company for a reason other than death or disability prior to the retirement age of 75, he/she will be entitled to fee continuation benefits at a reduced amount depending on the length of service with the Company. The vesting of fee continuation benefits occurs at a rate that provides for a 6.67% vesting for each completed year of service, for a total vesting of 100% after the completion of fifteen years of service. The fee continuation benefits are informally funded by single premium life insurance policies. The directors are the insured parties and the Company is the beneficiary of the respective policies.

Post-Retirement Consulting Agreement: The Company has entered into Post-Retirement Consulting Agreements with its non-employee Directors with the exception of Messrs. Flournoy and Elliott. The purpose of the Agreements is to provide consideration to the board members in exchange for consulting services after their retirement from the Board. The agreements provide for consulting fees of \$10,000 per year for 3 years after retirement. In the event of death prior to completion of the consulting services, the beneficiary will receive death benefits equal to the remaining unpaid consulting fee benefits. In the event of disability wherein the retired director is unable to continue consulting services with the Company, the Company may terminate the director's post-retirement consulting services. If the retired director voluntarily terminates his or her consulting services for other than good reason or if the Company terminates the director's post-retirement consulting services for cause, the Post-Retirement Consulting Agreement shall terminate.

The table below summarizes the compensation paid by the Company to non-employee Directors for the fiscal year ended December 31, 2006.
