## LETTER TO SHAREHOLDERS

December 2003

We are pleased to provide the semiannual report for the Evergreen Income Advantage Fund, which covers the six-month period ended October 31, 2003.

Over the past six months, the U.S. fixed income markets have experienced seemingly a decade's worth of volatility. The investment period began as the U.S. financial markets were contending with the investment implications of the war in Iraq and potential changes in fiscal policy. The Federal Reserve was keeping its target interest rate low, and diversified bond investors were enjoying the fruits of strengthening balance sheets and improved credit quality in the corporate sector. U.S. monetary policy officials then warned of the possibility of an unwelcome, substantial fall in inflation.

**Dennis H. Ferro**  
President and Chief  
Executive Officer

Initially, this phrase wasn't threatening to the bond market as yields dropped down to 45-year lows in the U.S. Treasury market. Common market wisdom determined that since the Fed's primary concern was deflation, rates were likely headed lower. Yet when central bankers reduced their target for the federal funds rate by a less than expected 25 basis points in late June, many fixed income investors became alarmed. These worries were compounded by optimistic GDP forecasts from Fed Chairman Alan Greenspan during congressional banking committee hearings in July. As a result of these events, the yield on the 10-year Treasury rose from a low of 3.1% in June to 4.6% in late July. The deflation trade in bonds had changed from a significant overbought condition to an oversold one in a matter of just six weeks.

**LETTER TO SHAREHOLDERS** continued

The bond market began to stabilize in August as investors became more comfortable with the likelihood that monetary policy makers would keep rates low for the foreseeable future. Fed parlance indicated monetary policy would remain accommodative for a considerable period. While the majority of economic data improved in recent months, the wildcard for investors continued to be sustainable employment growth. The massive investment in technology over the past decade has resulted in efficiencies never before experienced by U.S. businesses. Productivity growth remains high and most companies continue to expand without increasing their workforce. Yet many businesses have substantially increased capital investment, taking advantage of newly enacted fiscal incentives, and we believe payrolls will continue to gradually increase in the coming months as existing workforces become too stretched in attempting to satisfy the improvements in demand.

Diversification within the fixed income markets was obviously necessary to weather last summer's storms in the bond market. Those investors properly allocated between government, corporates, municipals, high yield and international bonds likely benefited from these long-term strategies. Indeed, many corporate and high yield spreads contracted as investors sought companies with strong balance sheets and improved credit quality. Possibilities for a synchronized global recovery should also enable many international bonds to contribute to diversified portfolios.

**LETTER TO SHAREHOLDERS** continued

As always, fixed income investors should remain diversified in order to participate in the benefits of long-term asset allocation strategies within their portfolios.

144A Security that may be sold to qualified institutional buyers under Rule 144A of the Securities Act of 1933, as amended. This security has been determined to be liquid under guidelines established by the Board of Trustees.

Security initially issued in zero coupon form which converts to coupon form at a specified rate and date. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected interest to be earned over the life of the bond which consists of the aggregate coupon-interest payments and discount at acquisition. The rate shown is the stated rate at the current period end.

¤ Security issued in zero coupon form with no periodic interest payments but is acquired at a discount that results in a current yield to maturity. An effective interest rate is applied to recognize interest income daily for the bond. This rate is based on total expected income to be earned over the life of the bond from amortization of discount at acquisition.

\* Non-income producing security

Ð All or a portion of this security is on loan.

ÐÐ Represents investment of cash collateral received from securities on loan.

∅ Evergreen Investment Management Company, LLC is the investment advisor to both the Fund and the money market fund.

## NOTES TO FINANCIAL STATEMENTS (unaudited)

## 1. SIGNIFICANT ACCOUNTING POLICIES

Evergreen Income Advantage Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002 and is registered as a diversified closed-end management investment company under the Investment

## Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSRS

Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

### **a. Valuation of investments**

Portfolio debt securities acquired with more than 60 days to maturity are valued at prices obtained from an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in other mutual funds are valued at net asset value. Securities for which market quotations are not available are valued at fair value as determined in good faith, according to procedures approved by the Board of Trustees.

### **b. Repurchase agreements**

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will only enter into repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees.

### **c. Reverse repurchase agreements**

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be creditworthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing qualified assets having a value not less than the

## **NOTES TO FINANCIAL STATEMENTS** (unaudited) continued

repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

### **d. Securities lending**

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a

market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

**e. Interest rate swaps**

The Fund may enter into interest rate swap agreements to manage the Fund's exposure to interest rates. A swap agreement is an exchange of cash payments between the Fund and another party based on a notional principal amount. Cash payments or receipts are recorded on the accrual basis as part of interest income. The value of the swap agreements is marked-to-market daily based upon quotations from market makers and any change in value is recorded as unrealized gain or loss. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

**f. Security transactions and investment income**

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date.

**g. Federal taxes**

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

**h. Distributions**

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

**2. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES**

Evergreen Investment Management Company, LLC ( EIMC ), an indirect, wholly-owned subsidiary of Wachovia Corporation ( Wachovia ), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily total assets.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. For any fee waivers and/or reimbursements made

**NOTES TO FINANCIAL STATEMENTS** (unaudited) continued

after January 1, 2003, EIMC may recoup any amounts waived and/or reimbursed up to a period of three years following the end of the fiscal year in which the fee waivers and/or reimbursements were made.

Evergreen Investment Services, Inc. ( EIS ), an indirect, wholly-owned subsidiary of Wachovia, is the administrator to the Fund. As administrator, EIS provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wachovia. During the six months ended October 31, 2003, the Fund paid brokerage commissions of \$13,155 to Wachovia Securities, LLC.

**3. CAPITAL SHARE TRANSACTIONS**

The Fund has authorized capital of 100,000,000 shares of common shares with no par value. For the six months ended October 31, 2003 and the period from February 28, 2003 (commencement of operations), to April 30, 2003, the Fund issued 439,256 and 65,657,000 common shares, respectively.

**4. SECURITIES TRANSACTIONS**

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$636,027,466 and \$349,680,638, respectively, for the six months ended October 31, 2003.

During the six months ended October 31, 2003, the Fund loaned securities to certain brokers. At October 31, 2003, the value of securities on loan and the value of collateral (including accrued interest) amounted to \$216,247,373 and \$220,571,228, respectively. During the six months ended October 31, 2003, the Fund earned \$91,076 in income from securities lending which is included in interest income on the Statement of Operations.

At October 31, 2003, the Fund had the following open interest rate swap agreements:

Expiration	Notional Amount	Counterparty	Cash Flows Paid by the Fund	Cash Flows Received by the Fund	Unrealized Gain
7/02/2006	\$ 150,000,000	Merrill Lynch & Co., Inc.	Fixed 1.95%	Floating 1.12%	\$ 2,327,993
7/02/2008	100,000,000	J.P.Morgan Chase & Co.	Fixed 2.737%	Floating 1.12%	2,853,574

On October 31, 2003, the aggregate cost of securities for federal income tax purposes was \$1,628,195,137. The gross unrealized appreciation and depreciation on securities based on tax cost was \$82,327,376 and \$6,054,462, respectively, with a net unrealized appreciation of \$76,272,914.

**NOTES TO FINANCIAL STATEMENTS** (unaudited) continued**5. AUCTION MARKET PREFERRED SHARES**

The Fund has issued 19,600 shares of Auction Market Preferred Shares ( Preferred Shares ) consisting of six series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate which is reset based on the result of an auction. The annualized dividend rate was 1.20% during the six months ended October 31, 2003. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the requirement relating to the asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting as a separate class, are entitled to elect two of the Fund's Trustees.

## 6. EXPENSE REDUCTIONS

Through expense offset arrangements with ESC and the Fund's custodian, a portion of fund expenses has been reduced.

## 7. DEFERRED TRUSTEES' FEES

Each independent Trustee of the Fund may defer any or all compensation related to performance of their duties as Trustees. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts are based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

## 8. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry or sector and, therefore, may be more affected by changes in that industry or sector than would be a comparable mutual fund that is not heavily weighted in any industry or sector.

**AUTOMATIC DIVIDEND REINVESTMENT PLAN** (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ( the Plan ). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by EquiServe Trust Company, N.A., as agent for shareholders in administering the Plan ( Plan Agent ), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends ) payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ( newly issued common shares ) or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ( market premium ), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium ( market discount ), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010.

## Proxy Voting Policy and Procedures

Evergreen Investment Management Company, LLC June 16, 2003

### Statement of Principles

Evergreen Investment Management Company, LLC (EIMCO) recognizes it has a fiduciary duty to vote proxies on behalf of clients who have delegated such responsibility to EIMCO, and that in all cases proxies should be voted in a manner reasonably believed to be in the clients' best interest.

### Corporate Governance Committee

EIMCO has established a corporate governance committee (Committee), which is a sub-committee of EIMCO's Investment Policy Committee. The Committee is responsible for approving EIMCO's proxy voting policies and procedures, for overseeing the proxy voting process, and for reviewing proxy voting on a regular basis. The Committee will meet quarterly to review reports of all proxies voted for the prior period and to conduct other business as required.

### Conflicts of Interest

## Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSRS

EIMCO recognizes that under certain circumstances it may have a conflict of interest in voting proxies on behalf of its clients. Such circumstances may include, but are not limited to, situations where EIMCO or one or more of its affiliates has a client or customer relationship with the issuer of the security that is the subject of the proxy vote.

In most cases, structural and informational barriers within EIMCO and Wachovia Corporation will prevent EIMCO from becoming aware of the relationship giving rise to the potential conflict of interest. In such circumstances, EIMCO will vote the proxy according to its standard guidelines and procedures described above.

If persons involved in proxy voting on behalf of EIMCO becomes aware of a potential conflict of interest, the Committee shall consult with EIMCO's Legal Department and consider whether to implement special procedures with respect to the voting of that proxy, including whether an independent third party should be retained to vote the proxy.

### Share Blocking

EIMCO does not vote global proxies, with share blocking restrictions, requiring shares to be prohibited from sale.

### Proxy Voting Guideline Summary

I. The Board of Directors

II. Proxy Contests

III. Auditors

IV. Proxy Contest Defenses

V. Tender Offer Defenses

VI. Miscellaneous Governance Provisions

VII. Capital Structure

VIII. Executive and Director Compensation

IX. State of Incorporation

X. Mergers and Corporate Restructurings

XI. Mutual Fund Proxies

XII. Social and Environmental Issues

### I. The Board of Directors

#### Voting on Director Nominees in Uncontested Elections

Votes on director nominees should be made on a **case-by-case** basis, examining the following factors: composition of the board and key board committees, attendance at board meetings, corporate governance provisions and takeover activity, long-term company performance relative to a market index, directors' investment in the company, whether the chairman is also serving as CEO, and whether a retired CEO sits on the board. However, there are some actions by directors that should result in votes being **withheld**. These instances include directors who:

- Attend less than 75 percent of the board and committee meetings without a valid excuse
- Implement or renew a dead-hand or modified dead-hand poison pill
- Ignore a shareholder proposal that is approved by a majority of the shares outstanding
- Ignore a shareholder proposal that is approved by a majority of the votes cast for two consecutive years
- Have failed to act on takeover offers where the majority of the shareholders have tendered their shares
- Are inside directors and sit on the audit, compensation, or nominating committees

## Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSRS

- Are inside directors and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees

In addition, directors who enacted egregious corporate governance policies or failed to replace management as appropriate would be subject to recommendations to **withhold** votes.

### Separating Chairman and CEO

Vote on a **case-by-case** basis on shareholder proposals requiring that the positions of chairman and CEO be held separately.

### Proposals Seeking a Majority of Independent Directors

Shareholder proposals asking that a majority of directors be independent should be evaluated on a case-by-case basis. Vote for shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors.

### Stock Ownership Requirements

Vote **against** shareholder proposals requiring directors to own a minimum amount of company stock in order to qualify as a director or to remain on the board.

### Term of Office

Vote against shareholder proposals to limit the tenure of outside directors.

### Age Limits

Vote **against** shareholder proposals to impose a mandatory retirement age for outside directors.

### Director and Officer Indemnification and Liability Protection

Proposals on director and officer indemnification and liability protection should be evaluated on a **case-by-case** basis, using Delaware law as the standard. Vote **against** proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care. Vote **against** indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness. Vote **for** only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if: (1) the director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, *and* (2) only if the director's legal expenses would be covered.

### Charitable Contributions

Vote against proposals regarding charitable contributions.

## II. Proxy Contests

### Voting for Director Nominees in Contested Elections

Votes in a contested election of directors must be evaluated on a **case-by-case** basis, considering the following factors: long-term financial performance of the target company relative to its industry; management's track record; background to the proxy contest; qualifications of director nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions.

### Reimburse Proxy Solicitation Expenses

Voting to reimburse proxy solicitation expenses should be analyzed on a **case-by-case** basis. In cases where Evergreen recommends in favor of the dissidents, we also recommend voting **for** reimbursing proxy solicitation expenses.

## III. Auditors

## **Ratifying Auditors**

Vote **for** proposals to ratify auditors, unless: an auditor has a financial interest in or association with the company, and is therefore not independent; or there is reason to believe that the independent auditor has rendered an opinion, which is neither accurate nor indicative of the company's financial position.

## **IV. Proxy Contest Defenses**

### **Board Structure: Staggered vs. Annual Elections**

Vote **against** proposals to classify the board.

Vote **for** proposals to repeal classified boards and to elect all directors annually.

### **Shareholder Ability to Remove Directors**

Vote **against** proposals that provide that directors may be removed only for cause.

Vote **for** proposals to restore shareholder ability to remove directors with or without cause.

Vote **against** proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote **for** proposals that permit shareholders to elect directors to fill board vacancies.

### **Cumulative Voting**

Vote **against** proposals to eliminate cumulative voting.

Vote proposals to restore or permit cumulative voting on a **case-by-case** basis relative to the company's other governance provisions.

### **Shareholder Ability to Call Special Meetings**

Vote **against** proposals to restrict or prohibit shareholder ability to call special meetings.

Vote **for** proposals that remove restrictions on the right of shareholders to act independently of management.

### **Shareholder Ability to Act by Written Consent**

Vote **against** proposals to restrict or prohibit shareholder ability to take action by written consent.

Vote **for** proposals to allow or make easier shareholder action by written consent.

### **Shareholder Ability to Alter the Size of the Board**

Vote **for** proposals that seek to fix the size of the board.

Vote **against** proposals that give management the ability to alter the size of the board without shareholder approval.

## **V. Tender Offer Defenses**

### **Poison Pills**

Vote for shareholder proposals that ask a company to submit its poison pill for shareholder ratification.

Review on a **case-by-case** basis shareholder proposals to redeem a company's poison pill.

## Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSRS

Review on a **case-by-case** basis management proposals to ratify a poison pill.

### **Fair Price Provisions**

Vote proposals to adopt fair price provisions on a **case-by-case** basis, evaluating factors such as the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.

Generally, vote **against** fair price provisions with shareholder vote requirements greater than a majority of disinterested shares.

### **Greenmail**

Vote **for** proposals to adopt antigreenmail charter of bylaw amendments or otherwise restrict a company's ability to make greenmail payments.

Review on a **case-by-case** basis antigreenmail proposals when they are bundled with other charter or bylaw amendments.

### **Pale Greenmail**

Review on a **case-by-case** basis restructuring plans that involve the payment of pale greenmail.

### **Unequal Voting Rights**

Vote **against** dual-class exchange offers.

Vote **against** dual-class recapitalizations.

### **Supermajority Shareholder Vote Requirement to Amend the Charter or Bylaws**

Vote **against** management proposals to require a supermajority shareholder vote to approve charter and bylaw amendments.

If the dissidents agree, the policy remains in place. If the dissidents do not agree, the confidential voting policy is waived.

Vote **for** management proposals to adopt confidential voting.

### **Equal Access**

## Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSRS

Vote for shareholder proposals that would allow significant company shareholders equal access to management's proxy material in order to evaluate and propose voting recommendations on proxy proposals and director nominees, and in order to nominate their own candidates to the board.

### **Bundled Proposals**

Review on a case-by-case basis bundled or "conditioned" proxy proposals. In the case of items that are conditioned upon each other, examine the benefits and costs of the packaged items. In instances when the joint effect of the conditioned items is not in shareholders' best interests, vote against the proposals. If the combined effect is positive, support such proposals.

### **Shareholder Advisory Committees**

Review on a case-by-case basis proposals to establish a shareholder advisory committee.

## **VII. Capital Structure**

### **Common Stock Authorization**

Review proposals to increase the number of shares of common stock authorized for issue on a case-by-case basis.

Vote against proposals to increase the number of authorized shares of the class of stock that has superior voting rights in companies that have dual-class capitalization structures.

### **Stock Distributions: Splits and Dividends**

Vote for management proposals to increase common share authorization for a stock split, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance given a company's industry and performance in terms of shareholder returns.

### **Reverse Stock Splits**

Vote for management proposals to implement a reverse stock split when the number of shares will be proportionately reduced to avoid delisting.

Review on a case-by-case basis on proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for Issue.

### **Preferred Stock**

Vote against proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights ("blank check" preferred stock).

Vote for proposals to create blank check preferred stock in cases when the company expressly states that the stock will not be used as a takeover defense.

Vote for proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable.

Vote case-by-case on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for Issue given a company's industry and performance in terms of shareholder returns.

### **Shareholder Proposals Regarding Blank Check Preferred Stock**

Vote for shareholder proposals to have blank check preferred stock placements, other than those shares issued for the purpose of raising capital or making acquisitions in the normal course of business, submitted for shareholder ratification.

- Excessive increases in authorized capital stock
- Unfair method of distribution
- Diminution of voting rights
- Adverse conversion features
- Negative impact on stock option plans
- Other alternatives such as spinoff

## **VIII. Executive and Director Compensation**

Votes with respect to compensation plans should be determined on a case-by-case basis. Our new methodology for reviewing compensation plans primarily focuses on the transfer of shareholder wealth (the dollar cost of pay plans to shareholders instead of simply focusing on voting power dilution). Using the expanded compensation data disclosed under the SEC's new rules, Evergreen will value every award type. Evergreen will include in its analyses an estimated dollar cost for the proposed plan and all continuing plans. This cost, dilution to shareholders' equity, will also be expressed as a percentage figure for the transfer of shareholder wealth, and will be considered along with dilution to voting power. Once Evergreen determines the estimated cost of the plan, we compare it to a company-specific dilution cap.

Our model determines a company-specific allowable pool of shareholder wealth that may be transferred from the company to executives, adjusted for (1) long-term corporate performance (on an absolute basis and relative to a standard industry peer group and an appropriate market index), (2) cash compensation, and (3) categorization of the company as emerging, growth, or mature. These adjustments are pegged to market capitalization. Evergreen will continue to examine other features of proposed pay plans such as administration, payment terms, plan duration, and whether the administering committee is permitted to reprice underwater stock options without shareholder approval.
