LETTER TO SHAREHOLDERS

June 2006

Dennis H. Ferro
President and Chief
Executive Officer

Dear Shareholder,

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

We are pleased to provide the annual report for Evergreen Income Advantage Fund, covering the twelve-month period ended April 30, 2006.

Yield-oriented investors encountered a variety of opportunities and challenges over the past twelve months. In the domestic fixed-income market, the greatest rewards came to those who took on the greatest credit risks in high-yield bonds. Higher-quality securities were more affected by the continued flattening of the yield curve, with short-term rates climbing steadily as the Federal Reserve (the "Fed") continued to raise its target for the federal funds rate. Rapidly rising energy prices and the prospect of increased government spending helped renew inflation fears and encouraged the Fed to act. The resulting uncertainties were exacerbated by hurricanes and highly visible credit downgrades in the auto sector. Internationally, results were affected by surging global growth, which drove equity prices dramatically higher. At the same time, the strengthening of the U.S. dollar tended to erode results realized by U.S. investors in high-quality foreign fixed income securities.

Uncertainty persisted during the period in the domestic high-yield market, as investors closely followed reports of deterioration in the financial health of automotive giants

LETTER TO SHAREHOLDERS continued

General Motors and Ford and worried about the impacts of feared credit downgradings of both companies. While the downgrades to below-investment grade occurred, the high-yield market was able to absorb the bonds of both companies successfully, as investors saw value in the securities, especially against a backdrop of continued vitality in the overall economy. For the year, high-yield bonds outperformed the overall bond market, as the economy's persistent, if moderating, expansion, contributed to continued improvement in corporate profitability.

Internationally, the dynamism of the global economy, most visibly led by the explosive growth in China and India, drove equities to deliver positive returns, with emerging markets outperforming developed nations. However, rising short-term interest rates in the United States made domestic government securities more attractive than the sovereign debt of foreign nations, contributing to the dollar's strength against most major foreign currencies and eroding returns from investments in bonds of non-U.S. developed nations.

Throughout this period, the managers of Evergreen Income Advantage Fund maintained their strategy of focusing on higher quality issuers within the high-yield universe. While the fund performed well in absolute terms and delivered a strong dividend, the Fund did not fully participate in the high-yield rally because of its restricted allocation to lower-quality, CCC-rated issues, which produced the greatest returns. However, managers continued to believe that over a full credit cycle, a more conservative approach to high-yield investing can produce superior results on both an absolute and risk-adjusted basis.

As always, we continue to encourage investors to maintain well diversified

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION

Evergreen Income Advantage Fund (the "Fund") was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in other mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

b. When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

c. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any

16

NOTES TO FINANCIAL STATEMENTS continued

cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

d. Interest rate swaps

The Fund may enter into interest rate swap agreements to manage the Fund's exposure to interest rates. A swap agreement is an exchange of cash payments between the Fund and another party based on a notional principal amount. Cash payments or receipts are recorded as realized gains or losses. The value of the swap agreements is marked-to-market daily based upon quotations from market makers and any change in value is recorded as an unrealized gain or loss. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

e. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

f. Federal taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

g. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

Reclassifications have been made to the Fund's components of net assets to reflect income and gains available for distribution (or available capital loss carryovers, as applicable) under income tax regulations. The primary permanent differences causing such reclassifications are due to consent fees on tendered bonds, premium amortization and interest rate swap payments. During the year ended April 30, 2006, the following amounts were reclassified:

Overdistributed net investment income	\$10,146,815
Accumulated net realized losses on investments	(10,146,815)

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), an indirect, wholly-owned subsidiary of Wachovia Corporation (Wachovia), is the investment advisor to the Fund and is

NOTES TO FINANCIAL STATEMENTS continued

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

paid an annual fee of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets. For the year ended April 30, 2006, the advisory fee was equivalent to 0.90% of the Fund's average daily net assets applicable to common shareholders.

Evergreen Investment Services, Inc. ("EIS"), an indirect, wholly-owned subsidiary of Wachovia, is the administrator to the Fund. As administrator, EIS provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the years ended April 30, 2006 and April 30, 2005, the Fund issued 687,163 and 772,533 common shares, respectively.

5. SECURITIES TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$830,567,751 and \$703,381,043, respectively, for the year ended April 30, 2006.

During the year ended April 30, 2006, the Fund loaned securities to certain brokers. At April 30, 2006, the value of securities on loan and the value of collateral (including accrued interest) amounted to \$211,064,718 and \$215,111,997, respectively.

At April 30, 2006, the Fund had the following open interest rate swap agreements

Expiration	Notional Amount	Counterparty	Cash Flows Paid by the Fund	Cash Flows Received by the Fund	Unrealized Gain
7/2/2006	\$150,000,000	Merill Lynch & Co., Inc.	Fixed □ 1.95%	Floating □ 4.826%	\$1,152,706

11/26/2008	65,000,000	Merill Lynch & Co., Inc.	Fixed □ 3.585%	Floating □ 4.97%	2,589,806

On April 30, 2006, the aggregate cost of securities for federal income tax purposes was \$1,612,651,327. The gross unrealized appreciation and depreciation on securities based on tax cost was \$459,893,529 and \$450,036,464, respectively, with a net unrealized appreciation of \$9,857,065.

As of April 30, 2006, the Fund had \$7,717,772 in capital loss carryovers for federal income tax purposes expiring in 2014.

For income tax purposes, capital losses incurred after October 31 within the Fund's fiscal year are deemed to arise on the first business day of the following fiscal year. As of April 30, 2006, the Fund incurred and will elect to defer post-October losses of \$19,900,420.

18

NOTES TO FINANCIAL STATEMENTS continued

6. AUCTION MARKET PREFERRED SHARES

The Fund has issued 19,600 shares of Auction Market Preferred Shares (["Preferred Shares"]) consisting of six series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. The annualized dividend rate was 3.85% during the year ended April 30, 2006. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the requirement relating to the asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting as a separate class, are entitled to elect two of the Fund's Trustees.

7. DISTRIBUTIONS TO SHAREHOLDERS

As of April 30, 2006, the components of distributable earnings on a tax basis were as follows:

Overdistributed Ordinary Income	Unrealized Appreciation	Capital Loss Carryovers and Post-October Losses
\$4,399,339	\$19,819,583	\$27,618,192

The differences between the components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to wash sales, premium amortization and interest rate swap payments.

The tax character of distributions paid was as follows:

	Year Ended April 30,	
	2006	2005
Ordinary Income	\$121,071,927	\$122,739,422
Long-term Capital Gain	11,537,011	18,676,422

8. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

NOTES TO FINANCIAL STATEMENTS continued

9. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of their duties as Trustees. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

10. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry or sector and, therefore, may be more affected by changes in that industry or sector than would be a comparable mutual fund that is not heavily weighted in any industry or sector.

11. REGULATORY MATTERS AND LEGAL PROCEEDINGS

Since September 2003, governmental and self-regulatory authorities have instituted numerous ongoing investigations of various practices in the mutual fund industry, including investigations relating to revenue sharing, market-timing, late trading and record retention, among other things. The investigations cover investment advisors, distributors and transfer agents to mutual funds, as well as other firms. EIMC, EIS and Evergreen Services Company, LLC (collectively, "Evergreen") have received subpoenas and other requests for documents and testimony relating to these investigations, are endeavoring to comply with those requests, and are cooperating with the investigations. Evergreen is continuing its own internal review of policies, practices, procedures and personnel, and is taking remedial action where appropriate.

In connection with one of these investigations, on July 28, 2004, the staff of the Securities and Exchange Commission ("SEC") informed Evergreen that the staff intends to recommend to the SEC that it institute an enforcement action against Evergreen. The SEC staff's proposed allegations relate to (i) an arrangement pursuant to which a broker at one of EIMC's affiliated broker-dealers had been authorized, apparently by an EIMC officer (who is no longer with EIMC), to engage in short-term trading, on behalf of a client, in Evergreen Mid Cap Growth Fund (formerly Evergreen Emerging Growth Fund and prior to that, known as Evergreen Small Company Growth Fund) during the period from December 2000 through April 2003, in excess of the limitations set forth in the fund's prospectus, (ii) short-term trading from September 2001 through January 2003, by a former Evergreen portfolio manager of Evergreen Precious Metals Fund, a fund he managed at the time, (iii) the sufficiency of systems for monitoring exchanges and enforcing exchange limitations as stated in the funds' prospectuses, and (iv) the adequacy of e-mail retention practices. In connection with the activity in Evergreen Mid Cap Growth Fund, EIMC reimbursed the fund \$378,905, plus an additional \$25,242, representing what EIMC calculated at that time to be the client's net gain and the fees earned by EIMC and the expenses incurred by this fund on the client's account. In connection with the activity in Evergreen Precious Metals Fund, EIMC reimbursed the fund \$70,878, plus an additional \$3,075, representing what EIMC calculated at that time to be the portfolio manager's net gain and the fees

20

NOTES TO FINANCIAL STATEMENTS continued

earned by EIMC and expenses incurred by the fund on the portfolio manager's account. Evergreen is currently engaged in discussions with the staff of the SEC concerning its recommendation.

The staff of the National Association of Securities Dealers ("NASD") had notified EIS that it has made a preliminary determination to recommend that disciplinary action be brought against EIS for certain violations of the NASD's rules. The recommendation relates principally to allegations that EIS (i) arranged for fund portfolio trades to be directed to broker-dealers (including Wachovia Securities, LLC, an affiliate of EIS) that sold Evergreen fund

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

shares during the period of January 2001 to December 2003 and (ii) provided non-cash compensation by sponsoring offsite meetings attended by Wachovia Securities, LLC brokers during that period. EIS is cooperating with the NASD staff in its review of these matters.

Any resolution of these matters with regulatory authorities may include, but not be limited to, sanctions, penalties or injunctions regarding Evergreen, restitution to mutual fund shareholders and/or other financial penalties and structural changes in the governance or management of Evergreen's mutual fund business. Any penalties or restitution will be paid by Evergreen and not by the Evergreen funds.

From time to time, EIMC is involved in various legal actions in the normal course of business. In EIMC's opinion, it is not involved in any legal actions that will have a material effect on its ability to provide services to the Fund.

Although Evergreen believes that neither the foregoing investigations described above nor any pending or threatened legal actions will have a material adverse impact on the Evergreen funds, there can be no assurance that these matters and any publicity surrounding or resulting from them will not result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses, or that they will not have other adverse consequences on the Evergreen funds.

12. SUBSEQUENT DISTRIBUTIONS

On April 21, 2006, the Fund declared distributions from net investment income of \$0.125 per common share payable on June 1, 2006 to shareholders of record on May 15, 2006.

On May 19, 2006, the Fund declared distributions from net investment income of \$0.125 per common share payable on July 3, 2006 to shareholders of record on June 14, 2006.

On June 15, 2006, the Fund declared distributions from net investment income of \$0.1156 per common share payable on August 1, 2006 to shareholders of record on July 17, 2006.

These distributions are not reflected in the accompanying financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Trustees and Shareholders
Evergreen Income Advantage Fund

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of the Evergreen Income Advantage Fund, as of April 30, 2006, and the related statement of operations for the year then ended, statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years or periods in the four-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2006 by correspondence with the custodian and brokers, or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Evergreen Income Advantage Fund, as of April 30, 2006, the results of its operations, changes in its net assets and financial highlights for each of the years or periods described above in

conformity with U.S. generally accepted accounting principles.

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ("the Plan"). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan ("Plan Agent"), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("newly issued common shares") or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ("market premium"), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium ("market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010.

Item 2 - Code of Ethics

(a) The Registrant has adopted a code of ethics that applies to the Registrant's principal executive officer and principal financial officer.

(b) During the period covered by this report, there were no amendments to the provisions of the code of ethics adopted in 2.(a) above.

(c) During the period covered by this report, there were no implicit or explicit waivers to the provisions of the code of ethics adopted in 2.(a) above.

Item 3 - Audit Committee Financial Expert

Charles A. Austin III and K. Dun Gifford have been determined by the Registrant's Board of Trustees to be audit committee financial experts within the meaning of Section 407 of the Sarbanes-Oxley Act. These financial experts are independent of management.

Items 4 □ Principal Accountant Fees and Services

The following table represents fees for professional audit services rendered by KPMG LLP, for the audit of the Registrant's annual financial statements for the fiscal years ended April 30, 2006 and April 30, 2005, and fees billed for other services rendered by KPMG LLP.

	<u>2006</u>	<u>2005</u>

Total fees	<u>\$70,575</u>	<u>\$41,375</u>

(1) Tax fees consists of fees for tax consultation, tax compliance and tax review for fund mergers.

(2) Non-audit fees consists of the aggregate fees for non-audit services rendered to the Fund, EIMC (not including any sub-advisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment advisor) and EIS.

Evergreen Funds**Evergreen Income Advantage Fund****Evergreen Managed Income Fund****Evergreen Utilities and High Income Fund****Evergreen International Balanced Income Fund****Audit and Non-Audit Services Pre-Approval Policy****I. Statement of Principles**

Under the Sarbanes-Oxley Act of 2002 (the "Act"), the Audit Committee of the Board of Trustees/Directors is responsible for the appointment, compensation and oversight of the work of the independent auditor. As part of this responsibility, the Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor in order to assure that they do not impair the auditor's independence from the Funds. To implement these provisions of the Act, the Securities and Exchange Commission (the "SEC") has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. Accordingly, the Audit Committee has adopted, and the Board of Trustees/Directors has ratified, the Audit and Non-Audit Services Pre-Approval Policy (the "Policy") which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent auditor may be pre-approved.

The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Audit Committee ("general pre-approval"); or require the specific pre-approval of the Audit Committee ("specified pre-approval"). The Audit Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to pre-approve services performed by the independent auditor. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee if it is to be provided by the independent auditor. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval

by the Audit Committee.

For both types of pre-approval, the Audit Committee will consider whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Funds' business people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Funds' ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

The Audit Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine, for each fiscal year, the ratio between the total amount of fees for Audit, Audit-related and Tax services and the total amount of fees for certain permissible non-audit services classified as All Other services.

The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee considers a different period and states otherwise. The Audit Committee will annually review and pre-approve the services that may be provided by the independent auditor without obtaining specific pre-approval from the Audit Committee. The Audit Committee will add or subtract to the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the independent auditor to management.

The independent auditor has reviewed this Policy and believes that implementation of the policy will not adversely affect the auditor's independence.

II. Delegation

As provided in the Act and the SEC's rules, the Audit Committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions of the Audit Committee at its next scheduled meeting.

III. Audit Services

The annual Audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the independent auditor to be able to form an opinion on the Funds' financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. Audit services also include the attestation engagement for the independent auditor's report on management's report on internal controls for financial reporting. The Audit Committee will monitor the Audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund service providers or other items.

In addition to the annual Audit services engagement approved by the Audit Committee, the Audit Committee may grant general pre-approval to other Audit services, which are those services that only the independent auditor reasonably can provide. Other Audit services may include services associated with SEC registration statements, periodic reports and other documents filed with the SEC or other documents issued in connection with mergers or acquisitions.

IV. Audit-related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Funds' financial statements or that are traditionally performed by the independent auditor. Because the Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with SEC's rules on auditor independence, the Audit Committee may grant general pre-approval to Audit-related services. Audit-related services include, among others, due

diligence services pertaining to potential business acquisitions/dispositions; accounting consultations related to accounting, financial reporting or disclosure matters not classified as [Audit services]; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements.

V. Tax Services

The Audit Committee believes that the independent auditor can provide Tax services to the Funds such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the independent auditor may provide such services. Hence, the Audit Committee believes it may grant general pre-approval to those Tax services that have historically been provided by the auditor, that the Audit Committee has reviewed and believes would not impair the independence of the auditor, and that are consistent with the SEC's rules on auditor independence. The Audit Committee will not permit the retention of the independent auditor in connection with a transaction initially recommended by the independent auditor, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit Committee will consult with the Director of Fund Administration, the Vice President of Tax Services or outside counsel to determine that the tax planning and reporting positions are consistent with this policy.

All Tax services involving large and complex transactions must be specifically pre-approved by the Audit Committee, including: tax services proposed to be provide by the independent auditor to any executive officer or director of the Funds, in his or her individual capacity, where such services are paid for by the Funds or the investment advisor.

VI. All Other Services

The Audit Committee believes, based on the SEC's rules prohibiting the independent auditor from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The SEC's rules and relevant guidance should be consulted to determine the precise definitions of the SEC's prohibited non-audit services and the applicability of exceptions to certain of the prohibitions.

VII. Pre-Approval Fee Levels or Budgeted Amounts

Pre-approval fee levels or budgeted amounts for all services to be provided by the independent auditor will be established annually by the Audit Committee. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine to ratio between the total amount of fees for Audit, Audit-related and Tax services, and the total amount of fees for services classified as All Other services.

VIII. Procedures

All requests or applications for services to be provided by the independent auditor that do not require specific approval by the Audit Committee will be submitted to the Director of Fund Administration or Assistant Director of Fund Administration and must include a detailed description of the services to be rendered. The Director/Assistant Director of Fund Administration will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a quarterly basis (or more frequent if requested by the audit committee) of any such services rendered by the independent auditor.

Request or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditor and the Director/Assistant Director of Fund

Edgar Filing: EVERGREEN INCOME ADVANTAGE FUND - Form N-CSR

Administration, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the Chief Compliance Officer to monitor the performance of all services provided by the independent auditor and to determine whether such services are in compliance with this policy. The Chief Compliance Officer will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the Chief Compliance Officer and management will immediately report to the chairman of the Audit Committee any breach of this policy that comes to the attention of the Chief Compliance Officer or any member of management.

The Audit Committee will also review the internal auditor's annual internal audit plan to determine that the plan provides for the monitoring of the independent auditor's services.

IX. Additional Requirements

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the independent auditor and to assure the auditor's independence from the Funds, such as reviewing a formal written statement from the independent auditor delineating all relationships between the independent auditor and the Funds, the Funds' investment advisor and related parties of the investment advisor, consistent with Independence Standards Board Standard No. 1, and discussing with the independent auditor its methods and procedures for ensuring independence.

Items 5 – Audit Committee of Listed Registrants

The Fund has a separately designated standing audit committee established in accordance with

Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee of the Fund is comprised of Shirley L. Fulton, K. Dun Gifford, Gerald M. McDonnell, William W. Pettit and the Chairman of the Committee, Charles A. Austin III, each of whom is an Independent Trustee.

Assets of those subject to performance fee	N/A

¹ Mr. Erikson is not fully responsible for the management of the entire portfolios of Evergreen Managed Income Fund, Evergreen Strategic Income Fund, Evergreen VA Strategic Income Fund and Sentinel Capital Markets Income Fund. As of April 30, 2006, he was responsible only for approximately \$766.2 million of the \$1,669.5 million in assets in these funds.

Conflicts of Interest. Portfolio managers may experience certain conflicts of interest in managing the Fund's investments, on the one hand, and the investments of other accounts, including other Evergreen funds, on the other. For example, if a portfolio manager identifies a limited investment opportunity, such as an initial public offering, that may be suitable for more than one fund or other account, a fund may not be able to take full advantage of that opportunity due to an allocation of that investment across all eligible funds and accounts. EIMC has policies and procedures to address potential conflicts of interest relating to the allocation of investment opportunities. EIMC's policies and procedures relating to the allocation of investment opportunities address these potential conflicts by limiting portfolio manager discretion and are intended to result in fair and equitable allocations among all products managed by that portfolio manager or team that might be eligible for a particular investment. However, there is no guarantee that such procedures will detect each and every situation where a conflict arises.

The management of multiple funds and other accounts may give rise to potential conflicts of interest, particularly if the funds and accounts have different objectives, benchmarks and time horizons, as the portfolio manager must allocate his or her time and investment ideas across multiple funds and accounts. For example, in certain instances, a portfolio manager may take conflicting positions in a particular security for different accounts, by selling a security for one account and continuing to hold it for another account. In addition, the management of other accounts may require the portfolio manager to devote less than all of his or her time to a fund, which may constitute a conflict with the interest of the fund. EIMC seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio managers focus on a particular investment discipline, such as investing in large capitalization equity securities. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar portfolios, which may minimize the potential for conflicts of interest.

EIMC does not receive a performance fee for its management of the funds. EIMC and/or a portfolio manager may have an incentive to allocate favorable or limited opportunity investments or structure the timing of investments to favor accounts other than the funds'—for instance, those that pay a higher advisory fee and/or have a

performance fee. The policies of EIMC, however, require that portfolio managers treat all accounts they manage equitably and fairly.

EIMC has a policy allowing it to aggregate sale and purchase orders of securities for all accounts with similar orders if, in EIMC's reasonable judgment, such aggregation is reasonably likely to result generally in lower per-share brokerage commission costs. In such event, each client may be charged or credited, as the case may be, the average transaction price of all securities purchased or sold in such transaction. As a result, however, the price may be less favorable to a client than it would be if similar transactions were not being executed concurrently for other accounts. In addition, in many instances, the purchase or sale of securities for accounts will be effected simultaneously with the purchase or sale of like securities for other accounts. Such transactions may be made at slightly different prices, due to the volume of securities purchased or sold. EIMC has also adopted policies and procedures in accordance with Rule 17a-7 under the 1940 Act relating to transfers effected without a broker-dealer between registered investment companies or a registered investment company client and another advisory client, to ensure compliance with the rule and fair and equitable treatment of both clients involved in such transactions.

Portfolio managers may also experience certain conflicts between their own personal interests and the interests of the accounts they manage, including the funds. One potential conflict arises from the weighting methodology used in determining bonuses, as described below, which may give a portfolio manager an incentive to allocate a particular investment opportunity to a product that has a greater weighting in determining his or her bonus. Another potential conflict may arise if a portfolio manager were to have a larger personal investment in one fund than he or she does in another, giving the portfolio manager an incentive to allocate a particular investment opportunity to the fund in which he or she holds a larger stake. EIMC's Code of Ethics addresses potential conflicts of interest that may arise in connection with a portfolio manager's activities outside EIMC by prohibiting, without prior written approval from the Code of Ethics Compliance Officer, portfolio managers from participating in investment clubs and from providing investment advice to, or managing, any account or portfolio in which the portfolio manager does not have a beneficial interest and that is not a client of EIMC.

Compensation. For EIMC, portfolio managers' compensation consists primarily of a base salary and an annual bonus. Each portfolio manager's base salary is reviewed annually and adjusted based on consideration of various factors specific to the individual portfolio manager, including, among others, experience, quality of performance record and breadth of management responsibility, and based on a comparison to competitive market data provided by external compensation consultants. The annual bonus pool for portfolio managers and other employees that are eligible to receive bonuses is determined based on the overall profitability of the firm during the relevant year.

The annual bonus has an investment performance component, which accounts for a majority of the annual bonus, and a subjective evaluation component. The amount of the investment performance component is based on the pre-tax investment performance of the funds and accounts managed by the individual (or one or more appropriate composites of such funds and accounts) over the prior five years compared to the performance over the same time period of an appropriate benchmark (typically a broad-based index or universe of external funds or managers with similar characteristics). See the information below relating to other funds and accounts managed by the portfolio managers for the specific benchmarks used in evaluating performance. In calculating the amount of the investment performance component, performance for the most recent year is weighted 25%, performance for the most recent three-year period is weighted 50% and performance for the most recent five-year period is weighted 25%. In general, the investment performance component is determined using a weighted average of investment performance of each product managed by the portfolio manager, with the weighting done based on the amount of assets the portfolio manager is responsible for in each such product. For example, if a portfolio manager was to manage a mutual fund with \$400 million in assets and separate accounts totaling \$100 million in assets, performance with respect to the mutual fund would be weighted 80% and performance with respect to the separate accounts would be weighted 20%. In certain cases, portfolio weights within the composite may differ from the actual weights as determined by assets. For example, a very small fund's weight within a composite may be increased to create a meaningful contribution.

To be eligible for an investment performance related bonus, the time-weighted average percentile rank must be above the 50th percentile. A portfolio manager has the opportunity to maximize the investment component of

the incentive payout by generating performance at or above the 25th percentile level.

In determining the subjective evaluation component of the bonus, each manager is measured against predetermined objectives and evaluated in light of other discretionary considerations. Objectives are set in several categories, including teamwork, participation in various assignments, leadership, and development of staff.

For calendar year 2005, the investment performance component of the portfolio manager's bonus was determined based on comparisons to the benchmarks (either to the individual benchmark or one or more composites of all or some of such benchmarks) indicated below. The benchmarks may change for purposes of calculating bonus compensation for calendar year 2006.

Portfolio managers may also receive equity incentive awards (non-qualified stock options and/or restricted stock) in Wachovia Corporation, EIMC's publicly traded parent company, based on their performance and/or positions held. Equity incentive awards are made based on subjective review of the factors that are considered in determining base salary and the annual bonus.

In addition, portfolio managers may participate, at their election, in various benefits programs, including the following:

- medical, dental, vision and prescription benefits,
- life, disability and long-term care insurance,
- before-tax spending accounts relating to dependent care, health care, transportation and parking, and
- various other services, such as family counseling and employee assistance programs, prepaid or discounted legal services, health care advisory programs and access to discount retail services.

These benefits are broadly available to EIMC employees. Senior level employees, including many portfolio managers but also including many other senior level executives, may pay more or less than employees that are not senior level for certain benefits, or be eligible for, or required to participate in, certain benefits programs not available to employees who are not senior level. For example, only senior level employees above a certain compensation level are eligible to participate in the Wachovia Corporation deferred compensation plan, and certain senior level employees are required to participate in the deferred compensation plan.

Fund Holdings. The tables below presents the dollar range of investment the Portfolio Manager holds in each Fund he or she manages as well as the dollar range of total exposure to the Evergreen family of funds (including both open-end and closed-end funds) as of the Fund's fiscal year ended April 30, 2006. Total exposure equals the sum of (i) the portfolio manager's beneficial ownership in direct Evergreen fund holdings, plus (ii) the portfolio manager's Evergreen fund holdings through the Wachovia Corporation 401(k) plan, plus (iii) the portfolio manager's Wachovia Corporation deferred compensation plan exposure to Evergreen funds.
