Material Change Report

1. NAME AND ADDRESS OF COMPANY

Ivanhoe Mines Ltd. (the Company)
World Trade Centre
Suite 654 - 999 Canada Place
Vancouver, British Columbia
V6C 3E1

2. DATE OF MATERIAL CHANGE

February 4, 2005

3. NEWS RELEASE

The news release was issued on February 7, 2005 and disseminated through the facilities of recognized newswire services.

4. SUMMARY OF MATERIAL CHANGE

The Company has entered into a series of agreements dated February 4, 2005 (collectively, the Agreements) with Stemcor Holdings Limited and certain of its subsidiaries (collectively, Stemcor), pursuant to which Stemcor has agreed to purchase and the Company has agreed to sell 100% of its interest in the Savage River iron ore mine in Tasmania, Australia (the Savage River Project). The consideration payable to the Company will consist of U.S.\$21.5 million in cash and a series of contingent, escalating-scale annual payments based on iron ore pellet prices over the next five years.

5. FULL DESCRIPTION OF MATERIAL CHANGE

Pursuant to the Agreements, Stemcor will purchase and the Company will sell its 100% interest in the Savage River Project. The consideration payable to the Company will consist of U.S.\$21.5 million in cash (the Initial Cash Consideration) and a series of contingent, escalating-scale annual payments based on iron ore pellet prices over the next five years (the Deferred Cash Consideration).

The Initial Cash Consideration will be paid in two tranches. The first U.S.\$15 million tranche will be paid at closing. The second U.S.\$6.5 million tranche will be paid on July 31, 2005 or, at Stemcor's election, on January 31, 2006. If Stemcor elects to defer payment of the second tranche, Stemcor will pay an additional U.S.\$195,000 to the Company.

Table of Contents

The Deferred Cash Consideration will be payable in five annual instalments. Each annual instalment is to be paid no later than March 31 (the Instalment Payment Date) commencing on March 31, 2006. The amount of each annual instalment of the Deferred Cash Consideration will be determined based on the following formula:

$$\text{NPPM} \times \text{U.S.}\$1,800,000 \times \text{Cashflow Adjustment}$$

where

NPPM means Nibrasco Pellet Price multiplier in accordance with the table set out below;

Nibrasco Pellet Price means the price per metric tonne calculated with reference to the quoted Nibrasco/JSM pellet price; and

Cashflow Adjustment means a fraction of which (i) the numerator is the total number of tonnes of pellets sold during the relevant twelve month period ending on the Instalment Payment Date and (ii) the denominator is 1,800,000.

The NPPM in respect of each year in which an annual instalment is required to be paid is to be determined with reference to the following table:

<u>NPPM</u>	<u>Nibrasco Pellet Price as of each Instalment Payment Date</u>
Nil	less than U.S.\$30
1	Greater than or equal to U.S.\$30 but less than U.S.\$35
1.5	Greater than or equal to U.S.\$35 but less than U.S.\$40
2	Greater than or equal to U.S.\$40 but less than U.S.\$42.50
3	Greater than or equal to U.S.\$42.50 but less than U.S.\$43.75
3.5	Greater than or equal to U.S.\$43.75 but less than U.S.\$45
4	Greater than or equal to U.S.\$45 but less than U.S.\$47.50
5	Greater than or equal to U.S.\$47.50 but less than U.S.\$50
6	Greater than or equal to U.S.\$50 but less than U.S.\$55
7.75	Greater than or equal to U.S.\$55 but less than U.S.\$60
9.5	Greater than or equal to U.S.\$60 but less than U.S.\$65

16.5

The current Nibrasco Pellet Price is U.S.\$38.10 per tonne. Fuelled by strong demand for iron ore pellets from Chinese, Japanese, Korean and European steel mills, international pellet prices have risen sharply in recent years, increasing approximately 10% in 2003 and a further 19% in 2004. If the Nibrasco Pellet Price were to average U.S.\$40 per tonne over the next five years, the total Deferred Cash Consideration payable to the Company would be approximately US\$18 million, assuming average annual production from the Savage River Project of 1.8 million tonnes. Based on a five year average Nibrasco Pellet Price of U.S.\$60 per tonne, the total Deferred Cash Consideration payable to the Company would be approximately US\$85.5 million and at a five year average of U.S.\$70 per tonne the total Deferred Cash Consideration would be approximately U.S.\$117 million.

The Company's indirect, wholly-owned subsidiary, Goldamere Pty. Ltd (Goldamere) has been producing iron ore pellets and concentrate from the Savage River Project, which consists of mining, pelletizing and shipping facilities in the state of Tasmania, since 1997. The Company acquired Goldamere in 2000. The Savage River's pellet production in 2004 was approximately 2.1 million tonnes.

Stemcor is a global provider of specialist services to the steel industry, in areas such as raw-material supply, finished-product marketing, logistics and trade finance.

The closing of the transaction, which is subject to regulatory approval, is expected to occur on or before February 28, 2005.

The Company's decision to sell its interest in the Savage River Project is part of an ongoing plan to rationalize non-core assets as it focuses on the development of its Oyu Tolgoi copper and gold project in Mongolia.
