Each share of Common Stock you own entitles you to one vote on each matter to be voted on at the Annual Meeting.

How You Can Vote

You may vote your shares in person by attending the Annual Meeting or you may vote by completing, signing, dating and mailing the enclosed proxy card in the envelope provided. Director Independence Determinations

The Board has evaluated the independence of the members of the Board under the independence standards promulgated in the Nasdaq listing standards. In conducting this evaluation, the Board considered transactions and relationships between each director nominee or his immediate family and the Company to determine whether any such transactions or relationships were material and, therefore, inconsistent with a determination that each such director nominee is independent. Based upon that evaluation, the Board determined that Dr. Yeats and Messrs. Oring and Silverman have no material relationship with the Company and, thus, are independent.

Board Meetings and Committees

During the fiscal year ended September 30, 2008, the Board held 31 meetings and acted by written consent two times. Each director participated in at least 89% of the aggregate total number of meetings held by the Board and all committees of which he was a member that were held during the period in which he served.

The Board has an Audit Committee, Nominating Committee, and Compensation Committee. All of the members of these committees are non-employee, independent directors in accordance with the Nasdaq listing standards.

The Company does not maintain a formal policy regarding the Board's attendance at annual stockholder meetings.

Audit Committee

The current members of the Audit Committee are Martin B. Oring (Chairman), Matthew R. Silverman and Dr. Anthony K. Yeats. The Board has determined that Mr. Oring is the audit committee financial expert, as defined by the Securities and Exchange Commission ("SEC") rules and has accounting or related financial management expertise under the Nasdaq rules. All of the members of the Audit Committee are independent under the SEC rules pertaining to audit committee members. The Audit Committee met 37 times during the fiscal year ended September 30, 2008. The Audit Committee adopted an Audit Committee Charter. The Audit Committee is responsible for (i) making recommendations to the Board concerning the engagement of the Company's independent public accountants, (ii) consulting with the independent public accountants with regard to the audit plan, (iii) consulting with the Company's principal financial and accounting officers on any matter the Audit Committee or the principal financial and accounting officers deem appropriate in connection with carrying out the audit, (iv) reviewing the results of audits of the Company by its independent public accountants, (v) reviewing all material related party transactions and all other potential conflict of interest situations, (vi) discussing audit recommendations with management and reporting the results of its reviews to the Board and (vii) performing such other functions as may be prescribed by the Board. The Audit Committee Charter may be found on our website, at www.PetroHunter.com.

Nominating Committee

The Nominating Committee was formed in December 2007. The current members of the Nominating Committee are Martin B. Oring (Chairman), Matthew R. Silverman and Dr. Anthony K. Yeats. The Nominating Committee is responsible for (i) making recommendations to the Board about appropriate composition of the Board and its committees, (ii) evaluating potential director nominees and making recommendations to the Board regarding those director nominees that may be considered for election to the Board at the Annual Meeting, (iii) advising the Board on corporate governance practices and policies,

(iv) overseeing the evaluation of the Board and management of the Company, (v) making recommendations to the Board regarding succession planning, and (vi) performing such other functions as may be prescribed by the Board. The Nominating Committee Charter may be found on our website, at www.PetroHunter.com.

The Board's current criteria for selecting new directors do not include specific minimum qualifications, but include criteria relating to a candidate's business experience and accomplishments, lack of conflicts of interest, ability to commit the time to serve effectively, personal characteristics, the Board's needs for diversity of backgrounds and skills, and other pertinent considerations. The Nominating Committee periodically reviews the appropriate skills, experience, perspectives and characteristics required of Board members or candidates in the context of the perceived needs of the Board at the time.

The Committee will consider suggestions for potential director nominees from many sources, including members of the Board, management, advisors and stockholders. All of the nominees for director recommended for election by the stockholders at the 2009 Annual Meeting are current members of the Board. The Committee will consider nominees recommended by stockholders in the same manner as other candidates. Nominations of candidates for election to the Board may be made by any stockholder entitled to vote at a meeting of stockholders called for the election of directors. Stockholder recommendations for director nominees must be submitted in writing to Chairman, Nominating Committee, PetroHunter Energy Corporation, 1600 Stout Street, Suite 2000, Denver, Colorado 80202 by the deadline for stockholder proposals referred to at the end of this proxy statement. Unsolicited recommendations must contain all of the information that would be required in a proxy statement soliciting proxies for the election of the candidate as a director, a description of all direct and indirect arrangements or understandings between the recommending stockholder and the candidate, all other companies to which the candidate is being recommended as a nominee for director, and a signed consent of the candidate to cooperate with reasonable background checks and personal interviews, and to serve as a director of the Company, if elected.

Compensation Committee

The current members of the Compensation Committee are Martin B. Oring (Chairman), Matthew R. Silverman and Dr. Anthony K. Yeats. The Compensation Committee met 9 times during the fiscal year ended September 30, 2008. Recommendation of the Board

THE BOARD RECOMMENDS A VOTE “FOR” THE NOMINEES LISTED ABOVE.

PROPOSAL TWO APPROVAL OF THE PETROHUNTER ENERGY CORPORATION 2009 PERFORMANCE INCENTIVE PLAN

At the Annual Meeting, stockholders will be asked to approve the PetroHunter Energy Corporation 2009 Performance Incentive Plan (the “2009 Plan”), which was adopted, subject to stockholder approval, by the board of directors on January 28, 2009.

We believe that incentives and stock-based awards focus employees on the objective of creating stockholder value and promoting the success of the company, and that incentive compensation plans like

the proposed 2009 Plan are an important attraction, retention and motivation tool for participants in the plan.

We currently maintain the PetroHunter Energy Corporation 2005 Stock Option Plan (the "2005 Plan"). As of January 27, 2009, a total of 34,170,000 shares of our common stock were then subject to outstanding awards granted under the 2005 Plan, and an additional 5,830,000 shares of our common stock were then available for new award grants under the 2005 Plan. (The 2005 Plan is referred to in this proposal as the "Existing Plan.")

The board of directors approved the 2009 Plan based, in part, on a belief that the number of our shares currently available under the 2005 Plan does not give the company sufficient authority and flexibility to adequately provide for future incentives. If stockholders approve the 2009 Plan, no new awards will be granted under the 2005 Plan after the Annual Meeting. In that case, the number of shares of our common stock that remain available for award grants under the 2005 Plan immediately prior to the Annual Meeting will become available for award grants under the 2009 Plan. An additional 15,000,000 shares of our common stock will also be made available for award grants under the 2009 Plan, so that if stockholders approve the 2009 Plan, a total of 20,830,000 shares will initially be available for award grants under that plan. In addition, if stockholders approve the 2009 Plan, any shares of common stock subject to stock option grants under the Existing Plan that expire, are cancelled or otherwise terminate after the Annual Meeting will also be available for award grant purposes under the 2009 Plan.

If stockholders do not approve the 2009 Plan, we will continue to have the authority to grant awards under the 2005 Plan. If stockholders approve the 2009 Plan, the termination of our grant authority under the 2005 Plan will not affect awards then outstanding under that plan.

Summary Description of the 2009 Performance Incentive Plan

The principal terms of the 2009 Plan are summarized below. The following summary is qualified in its entirety by the full text of the 2009 Plan, which appears as Appendix I to this Proxy Statement.

Purpose. The purpose of the 2009 Plan is to promote the success of the company and the interests of our stockholders by providing an additional means for us to attract, motivate, retain and reward directors, officers, employees and other eligible persons through the grant of awards and incentives for high levels of individual performance and improved financial performance of the company. Equity-based awards are also intended to further align the interests of award recipients and our stockholders.

Administration. Our board of directors or one or more committees appointed by our board of directors will administer the 2009 Plan. Our board of directors has delegated general administrative authority for the 2009 Plan to the compensation committee. A committee may delegate some or all of its authority with respect to the 2009 Plan to another committee of directors and certain limited award grant authority to grant awards to employees may be delegated to one or more officers of the company. (The appropriate acting body, be it the board of directors, a committee within its delegated authority, or an officer within his or her delegated authority, is referred to in this proposal as the "Administrator".)

The Administrator has broad authority under the 2009 Plan with respect to award grants including, without limitation, the authority:

- to select participants and determine the type(s) of award(s) that they are to receive;
- to determine the number of shares that are to be subject to awards and the terms and conditions of awards, including the price (if any) to be paid for the shares or the award;

- to cancel, modify, or waive our rights with respect to, or modify, discontinue, suspend, or terminate any or all outstanding awards, subject to any required consents;
- to accelerate or extend the vesting or exercisability or extend the term of any or all outstanding awards;
- subject to the other provisions of the 2009 Plan, to make certain adjustments to an outstanding award and to authorize the conversion, succession or substitution of an award;
- to allow the purchase price of an award or shares of our common stock to be paid in the form of cash, check, or electronic funds transfer, by the delivery of already-owned shares of our common stock or by a reduction of the number of shares deliverable pursuant to the award, by services rendered by the recipient of the award, by notice in third party payment or cashless exercise on such terms as the Administrator may authorize, or any other form permitted by law.

Eligibility. Persons eligible to receive awards under the 2009 Plan include officers or employees of the company or any of our subsidiaries, directors of the company, and certain consultants and advisors to the company or any of our subsidiaries. Currently, approximately 20 officers and employees of the company and our subsidiaries (including all of our named executive officers), and each of our three non-employee directors, are considered eligible under the 2009 Plan at the present time.

Authorized Shares; Limits on Awards. The maximum number of shares of our common stock that may be issued or transferred pursuant to awards under the 2009 Plan equals the sum of: (1) 15,000,000 shares, plus (2) the number of shares available for additional award grant purposes under the 2005 Plan as of the date of the Annual Meeting and determined immediately prior to the termination of the authority to grant new awards under the 2005 Plan as of the date of the Annual Meeting, plus (3) the number of any shares subject to stock options granted under the Existing Plans and outstanding as of the date of the Annual Meeting which expire, or for any reason are cancelled or terminated, after the date of the Annual Meeting without being exercised. As of January 27, 2009, 5,830,000 shares were available for additional award grant purposes under the 2005 Plan, and 34,170,000 shares were subject to awards then outstanding under the Existing Plan. As noted above, no new awards will be granted under the 2005 Plan after the annual meeting if stockholders approve the 2009 Plan.

To the extent that an award is settled in cash or a form other than shares, the shares that would have been delivered had there been no such cash or other settlement will not be counted against the shares available for issuance under the 2009 Plan. In the event that shares are delivered in respect of a dividend equivalent, stock appreciation right, or other award, only the actual number of shares delivered with respect to the award will be counted against the share limits of the 2009 Plan. Shares that are subject to or underlie awards which expire or for any reason are cancelled or terminated, are forfeited, fail to vest, or for any other reason are not paid or delivered under the 2009 Plan will again be available for subsequent awards under the 2009 Plan. Shares that are exchanged by a participant or withheld by the company as full or partial payment in connection with any award under the 2009 Plan or the Existing Plan, as well as any shares exchanged by a participant or withheld by the company to satisfy the tax withholding obligations related to any award under the 2009 Plan or the Existing Plan, will be available for subsequent awards under the 2009 Plan. In addition, the 2009 Plan generally provides that shares issued in connection with awards that are granted by or become obligations of the company through the assumption of awards (or in substitution for awards) in connection with an acquisition of another company will not count against the shares available for issuance under the 2009 Plan.

Types of Awards. The 2009 Plan authorizes stock options, stock appreciation rights, restricted stock, stock bonuses and other forms of awards granted or denominated in our common stock or units of our common stock, as well as cash bonus awards pursuant to Section 5.2 of the 2009 Plan. The 2009 Plan retains flexibility to offer competitive incentives and to tailor benefits to specific needs and circumstances. Any award may be paid or settled in cash.

A stock option is the right to purchase shares of our common stock at a future date at a specified price per share (the “exercise price”). The per share exercise price of an option generally may not be less than the fair market value of a share of our common stock on the date of grant. The maximum term of an option is ten years from the date of grant. An option may either be an incentive stock option or a nonqualified stock option. Incentive stock option benefits are taxed differently from nonqualified stock options, as described under “Federal Income Tax Consequences of Awards Under the 2009 Plan” below. Incentive stock options are also subject to more restrictive terms and are limited in amount by the U.S. Internal Revenue Code and the 2009 Plan. Incentive stock options may only be granted to employees of the company or a subsidiary.

A stock appreciation right is the right to receive payment of an amount equal to the excess of the fair market value of shares of our common stock on the date of exercise of the stock appreciation right over the base price of the stock appreciation right. The base price will be established by the Administrator at the time of grant of the stock appreciation right and generally cannot be less than the fair market value of a share of our common stock on the date of grant. Stock appreciation rights may be granted in connection with other awards or independently. The maximum term of a stock appreciation right is ten years from the date of grant.

The per share exercise price of an option or the per share base price of a stock appreciation right may, however, be less than the fair market value of a share of our common stock on the date of grant in the case of awards granted retroactively in tandem with or as a substitution for another award.

The other types of awards that may be granted under the 2009 Plan include, without limitation, stock bonuses, restricted stock, performance stock, stock units, dividend equivalents, or similar rights to purchase or acquire shares, and cash awards granted consistent with Section 5.2 of the 2009 Plan as described below.

Performance-Based Awards. The Administrator may grant awards that are intended to be performance-based awards within the meaning of Section 162(m) of the U.S. Internal Revenue Code (“Performance-Based Awards”). Performance-Based Awards are in addition to any of the other types of awards that may be granted under the 2009 Plan (including options and stock appreciation rights which may also qualify as performance-based awards for Section 162(m) purposes). Performance-Based Awards may be in the form of restricted stock, performance stock, stock units, other rights, or cash bonus opportunities.

The vesting or payment of Performance-Based Awards (other than options or stock appreciation rights) will depend on the absolute or relative performance of the company on a consolidated, subsidiary, segment, division, or business unit basis. The Administrator will establish the criterion or criteria and target(s) on which performance will be measured. The Administrator must establish criteria and targets in advance of applicable deadlines under the U.S. Internal Revenue Code and while the attainment of the performance targets remains substantially uncertain. The criteria that the Administrator may use for this purpose will include one or more of the following: earnings per share, cash flow (which means cash and cash equivalents derived from either net cash flow from operations or net cash flow from operations, financing and investing activities), total stockholder return, gross revenue, revenue growth, operating income (before or after taxes), net earnings (before or after interest, taxes, depreciation and/or amortization), return on equity or on assets or on net investment, cost containment or reduction, operating

margin or any combination thereof. The performance measurement period with respect to an award may range from three months to ten years. Performance targets will be adjusted to mitigate the unbudgeted impact of material, unusual or nonrecurring gains and losses, accounting changes or other extraordinary events not foreseen at the time the targets were set unless the Administrator provides otherwise at the time of establishing the targets.

Performance-Based Awards may be paid in stock or in cash (in either case, subject to the limits described under the heading “Authorized Shares; Limits on Awards” above). Before any Performance-Based Award (other than an option or stock appreciation right) is paid, the Administrator must certify that the performance target or targets have been satisfied. The Administrator has discretion to determine the performance target or targets and any other restrictions or other limitations of Performance-Based Awards and may reserve discretion to reduce payments below maximum award limits.

Deferrals. The Administrator may provide for the deferred payment of awards, and may determine the other terms applicable to deferrals. The Administrator may provide that deferred settlements include the payment or crediting of interest or other earnings on the deferred amounts, or the payment or crediting of dividend equivalents where the deferred amounts are denominated in shares.

Acceleration of Awards; Possible Early Termination of Awards. Generally, and subject to limited exceptions set forth in the 2009 Plan, if any person acquires more than 30% of the outstanding common stock or combined voting power of the company, if certain changes in a majority of our board of directors occur over a period of not longer than two years, if stockholders prior to a transaction do not continue to own more than 50% of the voting securities of the company (or a successor or a parent) following a reorganization, merger, statutory share exchange or consolidation or similar corporate transaction involving the company or any of our subsidiaries, a sale or other disposition of all or substantially all of the company’s assets or the acquisition of assets or stock of another entity by us or any of our subsidiaries, or if the company is dissolved or liquidated, then awards then-outstanding under the 2009 Plan may become fully vested or paid, as applicable, and may terminate or be terminated in such circumstances. Unless otherwise provided by the Administrator, a change in control in and of itself generally will not trigger the accelerated vesting of awards granted under the 2009 Plan unless the awards will not be assumed by a successor or will otherwise not continue following the change in control event. The Administrator also has the discretion to establish other change in control provisions with respect to awards granted under the 2009 Plan. For example, the Administrator could provide for the acceleration of vesting or payment of an award in connection with a change in control event that is not described above and provide that any such acceleration shall be automatic upon the occurrence of any such event.

Transfer Restrictions. Subject to certain exceptions contained in Section 5.7 of the 2009 Plan, awards under the 2009 Plan generally are not transferable by the recipient other than by will or the laws of descent and distribution and are generally exercisable, during the recipient’s lifetime, only by the recipient. Any amounts payable or shares issuable pursuant to an award generally will be paid only to the recipient or the recipient’s beneficiary or representative. The Administrator has discretion, however, to establish written conditions and procedures for the transfer of awards to other persons or entities, provided that such transfers comply with applicable federal and state securities laws.

Adjustments. As is customary in incentive plans of this nature, each share limit and the number and kind of shares available under the 2009 Plan and any outstanding awards, as well as the exercise or purchase prices of awards, and performance targets under certain types of performance-based awards, are subject to adjustment in the event of certain reorganizations, mergers, combinations, recapitalizations, stock splits, stock dividends, or other similar events that change the number or kind of shares outstanding, and extraordinary dividends or distributions of property to the stockholders.

No Limit on Other Authority. Except as expressly provided with respect to the termination of the authority to grant new awards under the 2005 Plan if stockholders approve the 2009 Plan, the 2009 Plan does not limit the authority of the board of directors or any committee to grant awards or authorize any other compensation, with or without reference to our common stock, under any other plan or authority.

Termination of or Changes to the 2009 Plan. The board of directors may amend or terminate the 2009 Plan at any time and in any manner. Stockholder approval for an amendment will be required only to the extent then required by applicable law or any applicable listing agency or required under Sections 162, 422 or 424 of the U.S. Internal Revenue Code to preserve the intended tax consequences of the plan. For example, stockholder approval will be required for any amendment that proposes to increase the maximum number of shares that may be delivered with respect to awards granted under the 2009 Plan. (Adjustments as a result of stock splits or similar events will not, however, be considered an amendment requiring stockholder approval.) Unless terminated earlier by the board of directors, the authority to grant new awards under the 2009 Plan will terminate on January 27, 2019. Outstanding awards, as well as the Administrator's authority with respect thereto, generally will continue following the expiration or termination of the plan. Generally speaking, outstanding awards may be amended by the Administrator (except for a repricing), but the consent of the award holder is required if the amendment (or any plan amendment) materially and adversely affects the holder.

Federal Income Tax Consequences of Awards under the 2009 Plan

The U.S. federal income tax consequences of the 2009 Plan under current federal law, which is subject to change, are summarized in the following discussion of the general tax principles applicable to the 2009 Plan. This summary is not intended to be exhaustive and, among other considerations, does not describe state, local, or international tax consequences.

With respect to nonqualified stock options, the company is generally entitled to deduct, and the participant recognizes, taxable income in an amount equal to the difference between the option exercise price and the fair market value of the shares at the time of exercise. With respect to incentive stock options, the company is generally not entitled to a deduction nor does the participant recognize income at the time of exercise, although the participant may be subject to the U.S. federal alternative minimum tax.

The current federal income tax consequences of other awards authorized under the 2009 Plan generally follow certain basic patterns: stock appreciation rights are taxed and deductible in substantially the same manner as nonqualified stock options; nontransferable restricted stock subject to a substantial risk of forfeiture results in income recognition equal to the excess of the fair market value over the price paid (if any) only at the time the restrictions lapse (unless the recipient elects to accelerate recognition as of the date of grant); bonuses, cash and stock-based performance awards, dividend equivalents, stock units, and other types of awards are generally subject to tax at the time of payment; and compensation otherwise effectively deferred is taxed when paid. In each of the foregoing cases, the company will generally have a corresponding deduction at the time the participant recognizes income.

If an award is accelerated under the 2009 Plan in connection with a "change in control" (as this term is used under the U.S. Internal Revenue Code), the company may not be permitted to deduct the portion of the compensation attributable to the acceleration ("parachute payments") if it exceeds certain threshold limits under the U.S. Internal Revenue Code (and certain related excise taxes may be triggered). Furthermore, the aggregate compensation in excess of \$1,000,000 attributable to awards that are not "performance-based" within the meaning of Section 162(m) of the U.S. Internal Revenue Code may not be permitted to be deducted by the company in certain circumstances.

Specific Benefits under the 2009 Performance Incentive Plan

The company has not approved any awards that are contingent upon stockholder approval of the 2009 Plan. The company is not currently considering any other specific award grants under the 2009 Plan. If the 2009 Plan had been in existence in fiscal 2008, the Company expects that its award grants for fiscal 2008 would not have been substantially different from those actually made in that year under the 2005 Plan. For information regarding stock-based awards granted to our named executive officers during fiscal 2008, see the material under the heading “Executive Compensation” in this proxy statement.

COMPENSATION DISCUSSION AND ANALYSIS

We believe that the skill and dedication of our executive officers and other management personnel are critical factors affecting our long-term success in meeting our objectives and fostering growth and profitability. In support of this, compensation programs have been designed to attract and retain a high level of talented leadership, to reward performance in accordance with results, to provide an incentive for future performance and to align PetroHunter executives' long-term interests with those of the shareholders.

Our executive and key management compensation is comprised of three major components: (i) base salary adjusted annually by the Compensation Committee, (ii) cash incentive bonuses awarded based on individual performance and the performance of PetroHunter, and (iii) stock option grants awarded based on individual performance and the performance of PetroHunter. The compensation mix of cash and stock options grants for the CEO is similar to that of other executive officers of PetroHunter.

The Compensation Committee was established by the Board of Directors of PetroHunter for the following purposes:

PetroHunter Energy Corporation Proxy Statement - Page 16

- to assist the Board in its responsibility relating to fair and competitive compensation of key employees of PetroHunter;
- to assure that key employees, which includes all officers, are compensated in a manner consistent with the compensation philosophy and strategy of the Board and in compliance with the requirements of appropriated regulatory bodies and any exchange rules to which we may be subject;
 - to review and approve our compensation philosophy and our compensation programs, plans and awards;
 - to administer our long and short term incentive plans and stock option plans;
- to review the compensation of our Chief Executive Officer and recommendations of the Chief Executive Officer as to appropriate compensation for the other executive officers and key personnel; and
 - to review and approve our general employee benefit plans as needed.

The Compensation Committee was formed in February 2007, when two independent directors were added to the Board of Directors. The Compensation Committee is composed of three members, Mr. Oring, Mr. Silverman and Dr. Yeats, all of whom are “independent” under the rules and regulations of Nasdaq. To be “independent” under the rules and regulations of Nasdaq, a director may not, other than in his or her capacity as a member of the audit committee, board of directors, or other board committee: (i) accept directly or indirectly, any consulting, advisory, or other compensatory fee from PetroHunter or any of its subsidiaries, provided that compensatory fees do not include the receipt of fixed amounts of compensation under a retirement plan (including deferred compensation) for prior service with PetroHunter (provided that such compensation is not contingent in any way on continued service), or (ii) be an affiliated person of PetroHunter or any of its subsidiaries.

The Compensation Committee compares all compensation components for executive officers, at least annually, with data on similar positions at other organizations that are similar in number of employees, level of operations, gross revenue and total assets with which we compete for talent. When evaluating external competitiveness, third party survey data, as well as information from other resources and industry contacts, are considered. We use this data to ensure that we are maintaining a level of compensation that is both commensurate with our size and sufficient to retain personnel we consider essential. In reviewing comparative data, we do not engage in benchmarking for the purpose of establishing compensation levels relative to any predetermined point. In the Committee’s view, third party survey data provides insight into external competitiveness, but is not an appropriate single basis for establishing compensation levels. This is primarily due to differences in the size of comparable companies, and the lack of sufficient appropriate matches to provide statistical relevance. Our preference is that performance, rather than third party survey data, drive executive compensation. The Compensation Committee seeks the input of our Chief Executive Officer in evaluating the performance of all of our executive officers, excluding himself.

In the processes used by the Compensation Committee to establish and adjust executive compensation levels, third party survey data is considered, along with performance, experience, potential and internal equity. The Compensation Committee can exercise both positive and negative discretion in relation to the compensation awards and its allocation between cash and non-cash awards. The Committee has the authority to approve, deny or suggest alternative compensation packages.

The Compensation Committee used the analysis set forth below in its determination of the level of compensation for each of the following components of our 2008 compensation program.

Base Salary – The base salaries of the named executive officers are reviewed annually by the Committee and future salary adjustments are reviewed by the Committee on an annual basis and recommended to the

Board for final approval. The Committee and the Board consider various factors, including, the position of the named executive officer, the compensation of executive officers of comparable companies within the oil and natural gas industry, the performance of each executive officer, increases in responsibilities of each executive officer and recommendations of the Chief Executive Officer with respect to base salaries of other named executive officers. Salaries for the named executive officers in fiscal 2008 are set forth in the "Summary Annual Compensation Table" below and were determined by the Board based on the considerations described above.

During the fiscal year ended September 30, 2008, the Board considered and approved salary adjustments for all named executive officers. In considering the adjustments, the Board considered various factors, including the length of time each officer had been with the company without increase, the compensation of executive officers of comparable companies within the oil and natural gas industry, the individual performance of each executive officer as well as increases in the responsibilities of each executive officer. The Chief Executive Officer provided a recommendation for the Board's consideration for each executive officer except himself.

Annual Cash Bonus Awards – We intend to establish a bonus plan for executive officers in the near future. The plan will be designed to compensate, and thus incentivize, individuals for exceptional effort and job performance, facilitating our continued growth and success by providing rewards that are commensurate with individual achievement. It is anticipated that the proposed bonus plan will allow the Compensation Committee to give consideration to the following: the achievements of PetroHunter, and the employee's relationship thereto, in order to determine the level of the cash bonus, if any, to be awarded; the earnings of PetroHunter; the return on stockholders' equity; the growth in proved oil and gas reserves; and the successful completion of specific projects of PetroHunter to determine the level of bonus awards, if any.

During the fiscal year ended September 30, 2008, bonuses were awarded to Lori Rappucci, our former Chief Financial Officer, for the timely completion of the 2007 fiscal year-end audit and filing of the Form 10-K. No other bonuses were awarded to any other executive officer during the year.

Stock Option Awards - Stock option awards are utilized for aligning the executives' interests with those of the stockholders by giving each individual employee direct ownership in PetroHunter. We also believe that these awards serve as a retention incentive since unvested stock grants and options may be forfeited if the executive leaves us. In some cases, the Company has elected to allow the options to continue to vest even though the employment relationship has ended. The Compensation Committee focuses on the earnings of PetroHunter, the return on stockholders' equity, the growth in proved oil and gas reserves and the successful completion of specific projects of PetroHunter to determine the level of stock option awards, if any. Decisions to grant stock options are normally made when industry conditions cause concern that personnel may be lost.

During the fiscal year ended September 30, 2008, stock options were granted in the following circumstances: (i) on October 15, 2007, December 17, 2007, January 1, 2008, April 7, 2008, May 20, 2008, July 7, 2008 and September 29, 2008 to newly hired employees; and (ii) on October 17, 2007 and August 25, 2008 to reward and retain current employees and directors. The Committee considered the grants made to the directors and the new and existing employees to be appropriate in order to attract and retain key employees, especially in light of the current financial condition of the Company.

Equity Compensation Plan Information

The following table sets forth information as of the end of the most recently completed fiscal year, September 30, 2008:

Equity compensation plans not approved by security holders	7,595,000	\$0.50	(b)
Total	41,765,000		5,830,000

(a) Typically, options vest 20% on grant date and 20% each year on the anniversary of the grant date but each vesting schedule is also determined by the Compensation Committee. Most initial grants to directors vest 50% on grant date and 50% on the one-year anniversary of the initial grant date. Subsequent grants (subsequent to the initial grant) to directors typically vest 100% at the grant date. In special circumstances, the board may elect to modify vesting schedules upon the termination of selected employees and contractors.

(b) The equity compensation plan not approved by stockholders is comprised of non-qualified stock options granted to employees and non-employee consultants on May 21, 2007. The options were granted at an exercise price of \$0.50 per share and vest 60% at grant date and 20% per year at the one- and two-year anniversaries of the grant date. The options expire on May 21, 2012.
