### **Capital adequacy**

The Bank's capital adequacy at June 30, 2007 was 11.0% <sup>2</sup>, including Tier-1 capital adequacy of 7.1% . The impact of the equity capital raised in June 2007 will be reflected from the next quarter onwards.

### **Insurance and asset management subsidiaries**

ICICI Prudential Life Insurance Company (ICICI Life) continued to maintain its market leadership among private sector life insurance companies with a market share of 25% on the basis of weighted received new business premium in April-May 2007. Life insurance companies worldwide make losses in the initial years, in view of business gestation and customer acquisition costs as well as reserving for actuarial liability. While the growing operations of ICICI Life resulted in an accounting loss of Rs. 242 crore (US\$ 59 million) in Q1-2008 on account of the above reasons, the company's unaudited New Business Achieved Profit (NBAP) in Q1-2008 was Rs. 165 crore (US\$ 41 million). NBAP is a metric for the economic value of the new business written during a defined period. It is measured as the present value of all the future profits for the shareholders, on account of the new business based on standard assumptions of mortality, expenses and other parameters. Actual experience could differ based on variance from these assumptions especially in respect of expense overruns in the initial years.

ICICI Lombard General Insurance Company (ICICI General) maintained its leadership position with a market share of about 32% among private sector general insurance companies and an overall market share of about 12% during April-May 2007. ICICI General's profit after tax was Rs. 45 crore (US\$ 11 million) in Q1-2008.

At June 30, 2007, ICICI Prudential Asset Management Company (ICICI AMC) was among the top two-asset management companies in India with assets under management of about Rs. 43,650 crore (US\$ 10.7 billion). ICICI AMC's profit after tax was Rs. 28 crore (US\$ 7 million) in Q1-2008.

<sup>2</sup> USD 750 million of foreign currency bonds raised for Upper Tier II capital have been excluded from the above capital adequacy ratio (CAR) computation, pending clarification required by Reserve Bank of India regarding certain terms of these bonds. If these bonds were considered as Tier II capital, the CAR would be 12.1% .
