TRANSACTION OVERVIEW

[GRAPHIC OMITTED]

EXECUTIVE SUMMARY

Background and rationale

CAPITAL
POSITION

- * Strong capital position
- 10.3% CET1 ratio(1)
- * Significant capital generation
- Expect CET1 generation, including the effects of this transaction and prior to any dividends, to be c.2.5% over the next two years and 1.5-2% per annum thereafter

TRANSACTION
OVERVIEW

- * The Group is inviting holders of all 33 series of Enhanced Capital Notes (ECNs) to participate in exchange / tender offers (as applicable)
- * Targeted prioritised exchange offer of ECNs into new Additional Tier 1 (AT1) securities, capped at c.[pound]5bn of new AT1 securities
- * Retail cash tender offer for eligible holders of Sterling ECNs outside US
- * Pricing consistent with current trading levels as at launch
- * Estimated one-off accounting charge of c.[pound]1bn(2), based on current market prices, more than half comprising the accelerated amortisation of the ECN derivative; current year benefit to net interest margin of c.5bp(2)

RATIONALE

- * Aligns capital base to evolving CRD IV framework, delivering the Group's medium term AT1 requirement
- * Improves leverage ratios by c.0.5%(2)
- * Improves rating agency capital measures
- * Provides opportunity to mitigate ECN regulatory call uncertainty

(1) Stated on an estimated adjusted basis, as reported at FY 2013 results. (2) Assumes [pound]5bn of new notes issued.

CAPITAL STRATEGY

TRANSACTION OVERVIEW

[GRAPHIC OMITTED]

CAPITAL STRATEGY AND OUTLOOK

Strong sustainable returns and capital position

BUSINESS MODEL

- * Substantial strategic progress and improved performance
- * Lower risk with strong, sustainable returns
- * Strongly capital generative

STRONG CAPITAL POSITION

- * CET1 ratio of 10.3%(1); 3% above conversion trigger and materially above current Combined Buffer requirements (at which distribution restrictions apply)
- * Expect, including the effects of the transaction and prior to any dividends, to generate fully loaded CET1 capital of around 2.5 percentage points over the next two years, and thereafter 1.5-2 percentage points per annum
- * Expect medium term, steady state CET1 target around 11%, which provides a buffer of c.4% above the 7% trigger. This is equivalent to an increase in RWA of c.55% (c.[pound]155bn) or losses of c.[pound]11bn
- * Lower risk, strongly capital generative business model positions the Group well for future Combined Buffer requirements

DIVIDEND POLICY

- * Board expects to apply to the PRA in the second half of 2014 to restart dividend payments, commencing at a modest level
- * The Board currently intends to take into account the relative ranking of the
- * AT1 securities in the Group's capital structure, although the Board may at any time depart from this policy at its sole discretion

CAPITAL POSITION -- IMPACT OF TRANSACTION

Aligns capital base to evolving CRD IV capital framework

RESTATED CAPITAL COMPOSITION (%)

[GRAPHIC OMITTED]

YEAR END 2013 CAPITAL POSITION

* Strong CET1 ratio of 10.3% (1)

RESTATED POST EXCHANGE(2) (3)* Substantially improved quality of capital, with c.[pound]5bn of new AT1 * Delivers 1.8% of AT1 * Total Capital position unchanged * Improves rating agency capital measures

(1) Stated on an estimated adjusted basis, as reported at FY 2013 results

(2) Assumes c.[pound]5bn of AT1 issued with a one-off charge of c.[pound]1bn below underlying profit.

(3) Excludes retail cash offer.

'Steady State' CRD IV(3) Requirement

- * Medium term steady state CET1 target of around 11% to cover Individual Capital Guidance(2) and systemic buffers
- * Total capital target ratio to be in excess of 17%
- * Expect a c.4% buffer to 7% trigger (buffer currently 3%), equating to an increase in RWA of c.55% (c.[pound]155bn) or losses of c.[pound]11bn
- * Materially above current Combined Buffer requirements (at which distribution restrictions apply)
- * Lower risk capital generative business model positions the Group well for future Combined Buffer requirements

(1) Assumes c.[pound]5bn of AT1 issued with a one-off charge of c.[pound]1.0bn below underlying profit.

(2) Individual Capital Guidance (ICG) is a PRA requirement under Pillar 2a.

SUMMARY OF TRANSACTION

Overview

- * Holders of ECNs have the opportunity to exchange their ECNs for new AT1 securities
 - * The AT1 securities offered in the exchange offers will be capped at c. [pound]5bn
 - * The offers are priced consistent with current trading levels
 - * There is a waterfall mechanism which will determine the acceptance of notes in the exchange offer
 - * The USD exchange offer will be open for 20 business days, unless otherwise extended
-

[GRAPHIC OMITTED]

SUMMARY OF TRANSACTION

ECNs and regulatory call feature

PURPOSE OF
ECNs

- * ECNs were originally issued in 2009 for the purpose of qualifying as core capital for stress test purposes
- * They contain a 5% core capital equity conversion trigger(1), above the then prevailing regulatory capital minimum
- * This trigger is well below(2) the minimum 4% fully loaded CET1 ratio specified under CRD IV applicable from 1 January 2014 (4.5% from 2015)
- * The Group would be in breach of current minimum capital regulations before the ECNs contractually convert

CURRENT
RISKS

- * ECN Conditions include a Regulatory Call Right which would be triggered if, amongst other things, the ECNs cease to be taken into account for the purposes of any 'stress test' applied by the PRA (successor to the Financial Services Authority) in respect of core capital
- * Whilst still uncertain, management believes recent developments resulting in higher capital requirements for banks, including a changed definition of core capital, make it likely that the ECNs will not provide going concern benefit under future stress tests
- * For most Series of ECNs, the relevant Regulatory Call Price is substantially lower than the Exchange Price
- * The offers provide holders with a means to mitigate the uncertainty around the Regulatory Call Right in the ECNs, whilst aligning the Group's capital base to the evolving CRD IV framework
- * If the Regulatory Call Right were to be used by the Issuer, the Group currently intends that it would prioritise redemption of the Series accepted or which ranks higher than an accepted Series in the various waterfalls of this transaction, over those Series which were not able to be accepted or were prorated

(1) Based on the definition of Core Tier 1 (CT1) as communicated by the FSA in a letter to the British Banking Association, dated 1 May 2009.

(2) Using 31 Dec 2013 published ratios, the Group's fully loaded CET1 ratio was 4.0% lower than its CT1 ratio. This difference applied to a 5% CT1 ratio gives a CET1 ratio of 1.0% .

KEY METRICS AND ACCOUNTING

The anticipated impact of the exchange on key metrics

IMPACT ON
KEY METRICS

- * CET1 Ratio
- * Tier 1 Ratio
- * Basel III and CRD IV Leverage Ratio
- * SandP RAC Ratio
- * Underlying Profit
- * Tangible Net Asset Value (TNAV)
- * Net Interest Margin
- * Coupons on AT1s

[GRAPHIC OMITTED]

- * Impact of one-off charge (included in current capital guidance)
- * AT1 notes contribute to all of these ratios
- * Removal of interest expense of exchanged ECNs
- * Impact of one-off charge, net of tax
- * In 2014
- * AT1 coupons will be accounted for as dividends, net of tax

ACCOUNTING

- * The AT1 instruments will be equity accounted
- AT1 coupons will be shown as dividends in the statement of changes in equity
- not part of the P and L
- Positive effect on the Group's net interest margin of c.5bp in 2014
- There will be no new embedded derivative option on the balance sheet
- Coupon payments will be tax deductible for UK corporate income tax purposes
- * On completion of the offers there will be a one-off charge of c.[pound]1bn,

Edgar Filing: Lloyds Banking Group plc - Form 425

below underlying profit

- The amortisation of the ECN embedded derivative option will be accelerated (>50% of the one-off charge)
- The exchange price is at a premium to the book value of the ECN liability
- The embedded derivative option on residual ECNs remains outstanding

Note: impact on key metrics assumes [pound]5bn of new notes.

REGULATORY CALL RISK FACTORS

Regulatory Call of the ECNs

The ECNs were issued for the purpose of counting as both lower tier 2 capital and 'stress test' core capital of the Group. Pursuant to the terms of the ECNs, should any series of ECNs cease to qualify for inclusion in the lower tier 2 capital of the Group or, as a result of changes to the

Regulatory Capital Requirements (as defined in the ECNs) or the interpretation or application thereof by the PRA (successor to the FSA), cease to be taken into account for the purposes of any 'stress test' applied by the PRA, in each case as more fully described in Condition 8(e) of the relevant ECNs, the relevant Offeror has the Regulatory Call Right.

In 2009, the Group was required by the FSA to raise going concern capital sufficient to remain a viable banking group in the event of various stress scenarios by reinforcing the Group's capital ratios in stress conditions; the ECNs formed part of that capital raising. As described above, if the ECNs cease to fulfil this purpose, the Group has the Regulatory Call Right.

There can be no assurance that the ECNs will continue to count for the purposes of 'stress tests' to be applied by the PRA to the Group. Whilst still uncertain, management of LBG believes recent developments resulting in higher capital requirements for banks, including a changed definition of core capital, make it likely that the ECNs will not provide going concern benefit under future stress tests.

Holders should be aware that, in the event an Offeror exercises the Regulatory Call Right, pursuant to the terms of the relevant series of ECNs, such call will be exercised at par, together with accrued but unpaid interest (the 'Regulatory Call Price'). For most series of ECNs, the relevant Regulatory Call Price is substantially lower than the Exchange Consideration pursuant to the Exchange Offer.

The Regulatory Call Right applies to each separate series of ECNs and, where available, the relevant Offeror may choose which individual series to call

The Regulatory Call Right applies to each separate series of ECNs. Notice of redemption pursuant to the Regulatory Call Right would be required to be given on a per-series basis. Such notice may be given in relation to any one or more series of ECNs without triggering the redemption of any remaining series of ECNs. If the Regulatory Call Right were, by its terms, ever to become exercisable and the relevant Offeror wished to make use of it, LBG and the Offerors currently intend that they would prioritize the redemption of those series of ECNs, some part of which series is accepted for exchange in the Exchange Offer, or which rank in the relevant Exchange Priority ahead of those series of ECNs which have been so accepted for exchange, except if the relevant series of ECNs is pro-rated by the relevant Offeror pursuant to the Exchange Offer.

CONVERSION MECHANISM

* Upon occurrence of Trigger Event, the AT1 Securities will fully convert on the Conversion Date into ordinary shares of the Issuer at the

Conversion Price

* The relevant ordinary shares will be delivered to the Settlement Shares Depository. The Issuer may elect that, some or all of the Ordinary Shares

issued on the Conversion Date will be offered for sale to all or some of the Issuer's shareholders at not less than the Conversion Price (Sterling equivalent) ('Settlement Shares Offer')

* Upon the completion of the Settlement Shares Offer the Holders of the AT1 Securities will receive (in currency of issue), net of any costs, either

-- If all of the Ordinary Shares are sold, a pro rata share of the cash proceeds from the sale of the Ordinary Shares, or

-- If some but not all of the Ordinary Shares are sold, a pro rata share of the cash proceeds from the sale of the Ordinary Shares and a pro rata share of the Ordinary Shares not sold, or

-- If no Ordinary Shares are sold, the relevant number of Ordinary Shares that would have been received had the Issuer not elected to carry out a Settlement Shares Offer;

* The Issuer's obligations under the AT1 Securities shall be irrevocably discharged and satisfied by the issuance and delivery of the relevant

Ordinary Shares to the Settlement Shares Depository on the Conversion Date

* Upon occurrence of a Trigger Event, AT1 Security holders will be required to deliver a Conversion Notice before the Notice Cut-off Date specified in the Conversion Notice

FORWARD LOOKING STATEMENTS

This presentation contains certain forward looking statements with respect to the business, strategy and plans of Lloyds Banking Group and its current goals and expectations relating to its future financial condition and performance. Statements that are not historical facts, including statements about Lloyds Banking Group's or its directors' and/or management's beliefs and expectations, are forward looking statements. Words such as 'believes', 'anticipates', 'estimates', 'expects', 'intends', 'aims', 'potential', 'will', 'would', 'could', 'considered', 'likely', 'estimate' and variations of these words and similar future or conditional expressions are intended to identify forward looking statements but are not the exclusive means of identifying such statements. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend upon circumstances that will or may occur in the future.

Examples of such forward looking statements include, but are not limited to: projections or expectations of the Group's future financial position including profit attributable to shareholders, provisions, economic profit, dividends, capital structure, expenditures or any other financial items or ratios; statements of plans, objectives or goals of Lloyds Banking Group or its management including in respect of certain synergy targets; statements about the future business and economic environments in the United Kingdom (UK) and elsewhere including, but not limited to, future trends in interest rates, foreign exchange rates, credit and equity market levels and demographic developments; statements about competition, regulation, disposals and consolidation or technological developments in the financial services industry; and statements of assumptions underlying such statements.

Factors that could cause actual business, strategy, plans and/or results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward looking statements made by the Group or on its behalf include, but are not limited to: general economic and business conditions in the UK and internationally; inflation, deflation, interest rates and policies of the Bank of England, the European Central Bank and other G8 central banks; fluctuations in exchange rates, stock markets and currencies; the ability to access sufficient funding to meet the Group's liquidity needs; changes to the Group's credit ratings; the ability to derive cost savings and other benefits including, without limitation, as a result of the Group's Simplification Programme; changing demographic developments including mortality and changing customer behaviour including consumer spending, saving and borrowing habits; changes in customer preferences, changes to borrower or counterparty credit quality; instability in the global financial markets, including Eurozone instability and the impact of any sovereign credit rating downgrade or other sovereign financial issues; technological changes; natural and other disasters, adverse weather and similar contingencies outside the Group's control; inadequate or failed internal or external processes, people and systems; terrorist acts and other acts of war or hostility and responses to those acts, geopolitical, pandemic or other such events; changes in laws, regulations, taxation, accounting standards or practices; regulatory capital or liquidity requirements and similar contingencies outside the Group's control; the policies and actions of governmental or regulatory authorities in the UK, the European Union (EU), the US or elsewhere; the implementation of the draft EU crisis management framework directive and banking reform, following the recommendations made by Independent Commission on Banking; the ability to

attract and retain senior management and other employees; requirements or limitations imposed on the Group as a result of HM Treasury's investment in the Group; the ability to complete satisfactorily the disposal of certain assets as part of the Group's EU State Aid obligations; the extent of any future impairment charges or write-downs caused by depressed asset valuations, market disruptions and illiquid markets; market related trends and developments; exposure to regulatory scrutiny, legal proceedings, regulatory investigations or complaints; changes in competition and pricing environments; the inability to hedge certain risks economically; the adequacy of loss reserves; the actions of competitors, including non-bank financial services and lending companies; and the success of the Group in managing the risks of the foregoing.

Lloyds Banking Group may also make or disclose written and/or oral forward looking statements in reports filed with or furnished to the US Securities and Exchange Commission, Lloyds Banking Group annual reviews, half-year announcements, proxy statements, offering circulars, prospectuses, press releases and other written materials and in oral statements made by the directors, officers or employees of Lloyds Banking Group to third parties, including financial analysts. Except as required by any applicable law or regulation, the forward looking statements contained in this presentation are made as of the date hereof, and Lloyds Banking Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward looking statements contained in this presentation to reflect any change in Lloyds Banking Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.
