Citigroup Global Markets Holdings Inc.

Guaranteed by Citigroup Inc.

Autocallable Contingent Coupon Equity Linked Securities Linked to Amazon.com, Inc. Due August 28, 2019

Preliminary Terms

Issuer:	Citigroup Global Markets Holdings Inc.
Guarantor:	Citigroup Inc.
Underlying:	Amazon.com, Inc
Pricing date:	August 23, 2018
Valuation dates:	November 23, 2018, February 25, 2019, May 23, 2019 and August 23, 2019 (the “final valuation date”), each subject to postponement if such date is not a scheduled trading day or certain market disruption events occur
Maturity date:	August 28, 2019
Contingent coupon:	2% to 2.25% per quarter (8% to 9% per annum)*, only if the closing value of the underlying on the immediately preceding valuation date is greater than or equal to the coupon barrier value. You are not assured of receiving any contingent coupon payments on the securities.
Contingent coupon payment dates:	The fifth business day after each valuation date, except that the contingent coupon payment date following the final valuation date will be the maturity date.
Automatic early redemption:	If, on any potential autocall date, the closing value of the underlying is greater than or equal to the initial underlying value, the securities will be automatically redeemed on the immediately following contingent coupon payment date for an amount equal to the stated principal amount <i>plus</i> the related contingent coupon payment.
Potential autocall dates:	Each valuation date beginning in November 2018 and ending in May 2019
Coupon barrier:	77% of its initial underlying value
Final barrier value:	77% of its initial underlying value
Payment at maturity (if the securities are not earlier automatically redeemed):	For each \$1,000 stated principal amount security you hold at maturity: If the final underlying value is greater than or equal to the final barrier value: \$1,000 <i>plus</i> the contingent coupon payment due at maturity If the final underlying value is less than the final barrier value: a fixed number of underlying shares of the underlying equal to the equity ratio (or, if we elect, the cash value of those shares based on the final underlying value)

If the securities are not automatically redeemed prior to maturity and the final underlying value is less than the final barrier value, you will receive underlying

shares (or, in our sole discretion, cash) expected to be worth significantly less than the stated principal amount of your securities, and possibly nothing, at maturity, and you will not receive any contingent coupon payment at maturity.

CUSIP / ISIN: 17324XMN7 / US17324XMN74

* The actual contingent coupon rate will be determined on the pricing date

Key Definitions

Initial underlying value: The closing value of the underlying on the pricing date

Selected Risk Considerations

- You may lose a significant portion or all of your investment. Unlike conventional debt securities, the securities do not provide for the repayment of the stated principal amount at maturity in all circumstances. If the securities are not automatically redeemed prior to maturity and the final underlying value is less than the final barrier value, you will not receive the stated principal amount of your securities at maturity and, instead, will receive underlying shares (or, in our sole discretion, cash based on the value thereof) expected to be worth significantly less than the stated principal amount and may be worth nothing. There is no minimum payment at maturity on the securities, and you may lose up to all of your investment
- You will not receive any contingent coupon on the contingent coupon payment date following any valuation date on which the closing value of the underlying is less than the coupon barrier value.
- The securities may be automatically redeemed prior to maturity, limiting your opportunity to receive contingent coupon payments.
- The securities offer downside exposure, but no upside exposure, to the underlying.
- The securities are particularly sensitive to the volatility of the closing value of the underlying. Whether the contingent coupon will be paid, whether the securities will be automatically redeemed and whether you are repaid your principal at maturity will depend on the closing value of the underlying solely on the applicable valuation dates.
- The securities are subject to the credit risk of Citigroup Global Markets Holdings Inc. and Citigroup Inc. If Citigroup Global Markets Holdings Inc. defaults on its obligations under the securities and Citigroup Inc. defaults on its guarantee obligations, you may not receive anything owed to you under the securities.
- The securities will not be listed on any securities exchange and you may not be able to sell them prior to maturity.
- The estimated value of the securities on the pricing date will be less than the issue price. For more information about the estimated value of the securities, see the accompanying preliminary pricing supplement.
- The value of the securities prior to maturity will fluctuate based on many unpredictable factors.
- The issuer and its affiliates may have economic interests that are adverse to yours as a result of its and their affiliates' business activities.
- The U.S. federal tax consequences of an investment in the securities are unclear.

The above summary of selected risks does not describe all of the risks associated with an investment in the securities. You should read the accompanying preliminary pricing supplement and product supplement for a more complete description of risks relating to the securities.
