The press release furnished as Exhibit 99.1 contains non-GAAP financial measures within the meaning of Regulation G promulgated by the Securities and Exchange Commission. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. To supplement our consolidated financial statements presented in accordance with GAAP, we are presenting non-GAAP measures of net income and earnings per share, which are adjusted from results based on GAAP to exclude the effect of certain special charges that were recorded during the periods covered. These non-GAAP measures have been included in the press release to provide a more meaningful understanding of our current financial performance.
