**Table of Contents**

**4. Introduction**

This section includes the ING Group Condensed consolidated interim accounts, prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (IAS 34) and including the review report of Ernst & Young. These condensed consolidated interim accounts are prepared in accordance with International Financial Reporting Standards as adopted by the European Union ( IFRS-EU ). Other sections of this Group Statistical Supplement are presented on an underlying basis, i.e. excluding gains/losses on divestments, profit from divested units and certain special items. A reconciliation between Underlying net profit and Net profit (attributable to shareholders of parent) in accordance with IFRS-EU is provided in Section 1.1 ING Group: Income Statement of this Group Statistical Supplement.

The change in the composition of the group is mainly attributable to the deconsolidation of real estate funds following a reduction in ownership percentage

**4.5 Notes to the condensed consolidated interim accounts\***

**4.5.1 Basis of preparation**

These condensed consolidated interim accounts have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting . The accounting principles used to prepare these condensed consolidated interim accounts comply with International Financial Reporting Standards as adopted by the European Union and are consistent with those set out in the notes to the 2006 Consolidated Annual Accounts of ING Group except that as of 1 January 2007, the level at which the adequacy test of the provision for insurance contracts is evaluated has been aligned to the business lines, which is the level at which performance is evaluated and segments are reported.

Previously, if it was determined using a best estimate (50%) confidence level that a shortfall existed in a business unit, then this shortfall was immediately recorded in the profit and loss account. Under the new policy, if it is determined using a best estimate (50%) confidence level that a shortfall exists in a business unit, and there are no offsetting amounts within other business units in the Business Line, then this shortfall is immediately recorded in the profit and loss account. This change in accounting policy has no effect on the financial information presented in these condensed consolidated interim accounts.

IFRS 7 Financial Instruments: Disclosure became effective as of 1 January 2007. Also in the first quarter of the year, IFRIC 11 Group and treasury share transactions became effective. None of these recent standards and interpretations have had a material effect on equity or profit for the period. No other new standards became effective in the first nine months of 2007 and recently issued standards that become effective after 30 September 2007 are not expected to have a material effect on equity or profit for the period. ING Group has not early adopted any new International Financial Reporting Standards in this quarter.

International Financial Reporting Standards as adopted by the EU provide several options in accounting principles. ING Group s accounting principles under International Financial Reporting Standards as adopted by the EU and its decision on the options available are set out in the section Principles of valuation and determination of results in the 2006 Consolidated Annual Accounts of ING Group.

These condensed consolidated interim accounts should be read in conjunction with the 2006 Consolidated Annual Accounts of ING Group.

Certain amounts recorded in the condensed consolidated interim accounts reflect estimates and assumptions made by management. Actual results may differ from the estimates made. Interim results are not necessarily indicative of full-year results.

The presentation of, and certain terms used in, these condensed consolidated interim accounts have been changed from the 2006 Consolidated annual accounts of ING Group to provide more relevant information. Certain comparative amounts have been reclassified to conform with the current period presentation. None of the changes are significant in nature.

**4.5.6 Acquisitions and Disposals**

**In the three months ending 30 September 2007**

On 3 July 2007 ING announced that has completed the sale of its business unit ING Trust to management and Foreman Capital, an independent investment company based in the Netherlands. The disposal is part of ING's strategy to focus on its core banking, insurance and asset management businesses. As of the 2 July 2007, ING Trust will operate under a new brand, Orangefield Trust. The transaction has no material impact on the results of ING Group or the Tier-1 ratio of ING Bank.

On 27 July 2007 ING announced that it had reached agreement with Santander to acquire its Latin American pension businesses to further strengthen ING's position in this fast growing market. The mandatory pension fund management companies (AFPs), which are located in certain Latin American countries, will make ING the second largest pension fund manager in Latin America. The purchase is subject to various national regulatory approvals in certain countries and is expected to be completed by early 2008.

On 28 September ING announced that it had completed the sale to P&V Verzekeringen of its Belgian Broker and Employee Benefits insurance business for EUR 750 million, resulting in a capital gain of EUR 418 million. ING will continue to sell life and non-life insurance products in Belgium by focusing on the distribution through its retail banking channels (ING Belgium and Record Bank).

On 30 September ING Group announced that it had reached final agreement with Piraeus Bank on a 10-year exclusive distribution partnership in Greece covering life, employee benefits and pension insurances. In addition, ING will acquire full ownership of ING Piraeus Life, the joint venture between ING and Piraeus Bank. The new distribution partnership fits into ING's growth strategy in Central Europe of which extending and broadening of distribution is one of the spearheads. The distribution partnership will give ING exclusive access to Piraeus Bank's network of 305 branch offices in Greece for the distribution of life insurance and pension products. Piraeus Bank is the 4th largest bank in Greece. Combined, ING Greece and ING Piraeus Life occupy the 3rd position in the Greek life insurance market.

**Reported in the six month period 1 January to 30 June 2007**

ING announced the completion of the acquisition of AZL, an independent Dutch provider of pension fund management services, for EUR 65 million. The acquisition has no material impact on the capital adequacy ratios of ING Group.

ING announced that it had reached a final agreement to sell Regio Bank to SNS REAAL for a purchase price of EUR 50.5 million. The profit on disposal is expected to be about EUR 25 million. On 2 July 2007 ING announced that the sale had been completed, with a profit on disposal of about EUR 25 million for ING Group and an increase of 3 basis points on the Tier-1 ratio of ING Bank.

ING announced that it completed the sale of Nationale Borg, a specialist provider of guarantee insurance. The disposal has no material impact on the capital adequacy ratios of ING Group.

ING announced that it had reached agreement to acquire full ownership of Landmark Investment Co Ltd, the twelfth largest asset manager in Korea. The purchase is subject to regulatory approval.

ING announced that it had reached an agreement to acquire Oyak Bank, a top-ten Turkish Bank, for an amount of EUR 2.0 billion. The acquisition is subject to approval of the relevant authorities and is expected to occur in the fourth quarter of 2007.

**4.5.7 Issuances, repurchases and repayment of debt and equity securities in issue**

**Share buy-back**

On 16 May 2007 ING announced a plan to adopt a buyback programme under which it plans to purchase ordinary shares (or depository receipts for such shares), with a total value of EUR 5 billion over a period of 12 months, beginning in June 2007. In the third quarter the number of (depository receipts for) ordinary shares repurchased under this program is 31,939,198 (and a total to date of 52,370,698) at an average price of EUR 30.90 (with an average price to date of EUR 31.66), and a consideration of EUR 987 million (Total consideration to date is EUR 1,658). Cumulatively this represents completion of approximately 33% of the repurchase programme.

**Delta hedge portfolio for employee options**

To rebalance the delta hedge portfolio for employee options ING sold 4,360,000 (depository receipt for) ordinary shares in the third quarter at an average price of EUR 28.98.

In the 9 months to 30 September 2007, ING Group sold 10,970,000 (depository receipt for) ordinary shares at an average price of EUR 31.64. Also in the first 9 months ING Group issued 5,215,790 (depository receipts for) ordinary ING shares, of which they bought back 4,075,830 at the opening price of EUR 30.48.

As at 30 September 2007 the hedge book holds 44.8 million (depository receipts for) ordinary ING shares representing 2.0% of the total 2,225 million shares outstanding.

**Buy-back of preferences**

**4.6 Review report**

To the shareholders, Supervisory Board and Executive Board

**Introduction**

We have reviewed the accompanying condensed consolidated balance sheet of ING Groep N.V. (the Company), Amsterdam, as at 30 September 2007, the related condensed consolidated profit and loss account for the three-month period and the nine-month period then ended, and the related condensed consolidated statement of cash flows and statement of changes in equity for the nine-month period then ended and explanatory notes. Management of the Company is responsible for the preparation and presentation of these condensed consolidated interim accounts in accordance with International Financial Reporting Standards as adopted by the European Union ( IAS 34 ). Our responsibility is to express a conclusion on these condensed consolidated interim accounts based on our review.

**Scope of Review**

We conducted our review in accordance with Dutch law, including Standard 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity . A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim accounts are not prepared, in all material respects, in accordance with IAS 34.
