PROSPECTUS SUPPLEMENT
(To Base Prospectus dated June 23, 2008)

Filed pursuant to Rule 424(b)(2)
Registration No. 333-151839

Rio Tinto Finance (USA) Limited
U.S.\$2,500,000,000 5.875% Notes due 2013
U.S.\$1,750,000,000 6.500% Notes due 2018
U.S.\$750,000,000 7.125% Notes due 2028
Fully and unconditionally guaranteed by
Rio Tinto plc
and
Rio Tinto Limited

The U.S.\$2,500,000,000 notes due 2013 (the 2013 notes) will bear interest at 5.875% per year. Interest on the 2013 notes will be payable semi-annually in arrear on January 15 and July 15 of each year, beginning on January 15, 2009. The 2013 notes will mature at 100% of their principal amount on July 15, 2013.

The U.S.\$1,750,000,000 notes due 2018 (the 2018 notes) will bear interest at 6.500% per year. Interest on the 2018 notes will be payable semi-annually in arrear on January 15 and July 15 of each year, beginning on January 15, 2009. The 2018 notes will mature at 100% of their principal amount on July 15, 2018.

The U.S.\$750,000,000 notes due 2028 (the 2028 notes and, together with the 2013 notes and the 2018 notes, the notes) will bear interest at 7.125% per year. Interest on the 2028 notes will be payable semi-annually in arrear on January 15 and July 15 of each year, beginning on January 15, 2009. The 2028 notes will mature at 100% of their principal amount on July 15, 2028.

The notes and the guarantees will be senior and unsecured obligations and will rank equally with all other present and future unsecured and unsubordinated indebtedness.

Each series of notes will be redeemable at our option or at the option of Rio Tinto plc or Rio Tinto Limited, in whole or in part, at any time at the redemption price determined in the manner described in this prospectus supplement. We may also redeem the notes at the principal amount of the notes being redeemed plus accrued interest to the date of redemption upon the occurrence of certain tax events described in this prospectus.

Upon the occurrence of a Change of Control Repurchase Event (as defined herein), unless the notes are otherwise subject to redemption in accordance with their terms and we have elected to exercise our right to redeem the notes, we will make an offer to each holder comprising that series to repurchase all or any part of that holder's notes at a repurchase price in cash equal to 101% of the aggregate principal amount of notes repurchased plus any accrued and unpaid interest on the notes repurchased to the date of repurchase.

Application will be made to list the notes on the New York Stock Exchange.

Investing in the notes involves risks. See Risk Factors beginning on page S-2 of this prospectus supplement.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	2013 Notes		2018 Notes		2028 Notes	
	Per Note	Total	Per Note	Total	Per Note	Total

ABOUT THIS DOCUMENT

This document is in two parts. The first part is the prospectus supplement, which describes the specific terms of the notes and also adds to and updates information contained in the base prospectus and the documents incorporated by reference in the prospectus supplement and the base prospectus. The second part, the base prospectus, provides more general information about debt securities we may offer from time to time. When we refer to the prospectus, we are referring to both parts of this document combined. If the description of the notes in the prospectus supplement differs from the description in the base prospectus, the description in the prospectus supplement supersedes the description in the base prospectus.

The base prospectus contains important information regarding this offering, which is not contained in the prospectus supplement. You are urged to read the base prospectus and the prospectus supplement in full.

In this prospectus supplement, the terms *we*, *our* and *us* refer to Rio Tinto Finance (USA) Limited (ABN 84 062 129 551). We refer to Rio Tinto plc and Rio Tinto Limited (ABN 96 004 458 404), taken together, as Rio Tinto. We refer to Rio Tinto plc, Rio Tinto Limited and their subsidiaries, taken together, as the Rio Tinto Group. Rio Tinto Finance (USA) Limited offers debt securities using this prospectus supplement. Both Rio Tinto plc and Rio Tinto Limited act as the guarantors for offerings by Rio Tinto Finance (USA) Limited using this prospectus supplement.

WHERE YOU CAN FIND MORE INFORMATION

We incorporate by reference the documents below filed with the Securities and Exchange Commission (the *SEC*) by Rio Tinto plc, Rio Tinto Limited and Alcan Inc. (*Alcan*) pursuant to the Exchange Act.

- (i) Annual Report on Form 20-F of Rio Tinto plc and Rio Tinto Limited for the year ended December 31, 2007 filed with the SEC on March 31, 2008;
- (ii) the report on Form 6-K of Rio Tinto plc and Rio Tinto Limited furnished to the SEC on June 24, 2008;
- (iii) Item 8 of the Annual Report on Form 10-K of Alcan for the year ended December 31, 2006 filed with the SEC on March 1, 2007;
- (iv) any reports on Form 6-K filed or furnished by Rio Tinto plc or Rio Tinto Limited pursuant to the Exchange Act that expressly state that we incorporate them by reference; and
- (v) any reports filed or furnished under Section 13(a), 13(c) or 15(d) of the Exchange Act.

You can obtain copies of any of the documents incorporated by reference through Rio Tinto or the SEC. Documents incorporated by reference are available without charge, excluding all exhibits unless an exhibit has been specifically incorporated by reference into this prospectus. You may obtain Rio Tinto documents incorporated by reference into this prospectus, at no cost, by requesting them in writing or by telephone at the following addresses and telephone numbers:

Table of Contents

RISK FACTORS

An investment in the notes involves risks. Prior to making a decision about investing, you should carefully consider, among other matters, the following risk factors, as well as those included in the base prospectus under Risk Factors and those incorporated by reference in other filings we may make from time to time with the SEC.

Risks relating to the notes

Since Rio Tinto plc and Rio Tinto Limited are holding companies and currently conduct their operations through subsidiaries, your right to receive payments on the guarantees is subordinated to the other liabilities of their subsidiaries

Rio Tinto plc and Rio Tinto Limited are organized as holding companies, and substantially all of their operations are carried on through subsidiaries. Their principal source of income is the dividends and distributions they receive from their subsidiaries. The ability of Rio Tinto plc and Rio Tinto Limited to meet their financial obligations is dependent upon the availability of cash flows from their domestic and foreign subsidiaries and affiliated companies through dividends, intercompany advances, management fees and other payments. These subsidiaries and affiliated companies are not required and may not be able to pay dividends or make distributions to Rio Tinto plc and Rio Tinto Limited. Claims of the creditors of the subsidiaries of Rio Tinto plc and Rio Tinto Limited have priority as to the assets of such subsidiaries over the claims of Rio Tinto plc or Rio Tinto Limited. Consequently, holders of notes guaranteed by Rio Tinto plc and Rio Tinto Limited are structurally subordinated to the prior claims of the creditors of subsidiaries of Rio Tinto plc and Rio Tinto Limited.

In addition, some of Rio Tinto's subsidiaries are subject to laws restricting the amount of dividends they may pay. For example, these laws may prohibit dividend payments when net assets would fall below subscribed share capital, when the subsidiary lacks available profits or when the subsidiary fails to meet certain capital and reserve requirements. English and Australian law prohibits those subsidiaries incorporated in the United Kingdom and Australia, respectively, from paying dividends unless these payments are made out of distributable profits. These profits consist of accumulated, realized profits, which have not been previously utilized by distribution or capitalization, less accumulated, realized losses, which have not been previously written off in a reduction or reorganization of capital duly made. Other statutory and general law obligations also affect the ability of directors of Rio Tinto's subsidiaries to declare dividends and the ability of Rio Tinto's subsidiaries to make payments to Rio Tinto on account of intercompany loans.

Since the notes are unsecured, your right to receive payments may be adversely affected

The notes that we are offering will be unsecured. If we default on the debt securities or Rio Tinto defaults on the guarantees, or after bankruptcy, liquidation or reorganization, then, to the extent that we or Rio Tinto have granted security over our or Rio Tinto's assets, the assets that secure our or Rio Tinto's debts will be used to satisfy the obligations under that secured debt before we or Rio Tinto could make payment on the notes or the guarantees. There may only be limited assets available to make payments on the notes or the guarantees in the event of an acceleration of the debt securities. If there is not enough collateral to satisfy the obligations of the secured debt, then the remaining amounts on the secured debt would share equally with all unsubordinated unsecured indebtedness.

We may be able to incur substantially more debt in the future

We may be able to incur substantial additional indebtedness in the future, including in connection with future acquisitions, some of which may be secured by our assets. The terms of the notes will not limit the amount of indebtedness we may incur. Any such incurrence of additional indebtedness could exacerbate the risks that holders of the notes now face.

S-2

Table of Contents

The notes lack a developed public market

There can be no assurance regarding the future development of a market for the notes or the ability of holders of the notes to sell their notes or the price at which such holders may be able to sell their notes. If such a market were to develop, the notes could trade at prices that may be higher or lower than the initial offering price depending on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar notes. The underwriters may make a market in the notes as permitted by applicable laws and regulations. However, the underwriters are not obligated to do so, and any such market-making activities with respect to the notes may be discontinued at any time without notice. Therefore, there can be no assurance as to the liquidity of any trading market for the notes or that an active public market for the notes will develop. See Underwriting .

Our credit ratings may not reflect all risks of an investment in the notes

The credit ratings ascribed to us and the notes are intended to reflect our ability to meet our payment obligations in respect of the notes, and may not reflect the potential impact of all risks related to structure and other factors on the value of the debt notes. In addition, actual or anticipated changes in our credit ratings may generally be expected to affect the market value of the notes.

If we default on the notes, or if Rio Tinto defaults on the guarantees, your right to receive payments on the guarantees may be adversely affected by English or Australian insolvency laws

Rio Tinto plc is incorporated under the laws of England and Wales. Accordingly, insolvency proceedings with respect to Rio Tinto plc would be likely to proceed under, and be governed by, English insolvency law. The procedural and substantive provisions of English insolvency laws generally are more favorable to secured creditors than comparable provisions of United States law. These provisions afford debtors and unsecured creditors only limited protection from the claims of secured creditors and it will generally not be possible for us, Rio Tinto or other unsecured creditors to prevent or delay the secured creditors from enforcing their security to repay the debts due to them.

Rio Tinto Finance (USA) Limited and Rio Tinto Limited are incorporated under the laws of Australia and, therefore, insolvency proceedings with respect to them would be likely to proceed under, and be governed by, Australian insolvency law. The procedural and substantive provisions of Australian insolvency laws are also generally more favorable to secured creditors than comparable provision of United States law. These provisions afford debtors and unsecured creditors only limited protection from the claims of secured creditors and it will generally not be possible for us, Rio Tinto or other unsecured creditors to prevent or delay the secured creditors from enforcing their security to repay the debts due to them.

Table of Contents**THE OFFERING**

The following summary highlights information contained elsewhere in this prospectus supplement and the base prospectus. It may not contain all information that you should consider before investing in the notes. You should read Description of Guaranteed Notes beginning on page S-15 of this prospectus supplement for more detailed information about the notes.

Issuer	Rio Tinto Finance (USA) Limited
Notes Offered	U.S.\$2,500,000,000 5.875% notes due 2013 U.S.\$1,750,000,000 6.500% notes due 2018 U.S.\$750,000,000 7.125% notes due 2028
Guarantees	Full and unconditional guarantees of the principal, interest, premium, if any, and any other additional amounts payable in respect of the notes are given by Rio Tinto plc and Rio Tinto Limited.
Stated Maturity	2013 notes: July 15, 2013 2018 notes: July 15, 2018 2028 notes: July 15, 2028
Principal Amount of Notes Being Issued	2013 notes: U.S.\$2,500,000,000 2018 notes: U.S.\$1,750,000,000 2028 notes: U.S.\$750,000,000
Issue Price	2013 notes: 99.625% 2018 notes: 99.131% 2028 notes: 99.319%
Ranking	The notes and guarantees are not secured by any of our or Rio Tinto's property or assets and will rank equally with all other unsecured and unsubordinated indebtedness. Since Rio Tinto plc and Rio Tinto Limited are holding companies and currently conduct their operations through subsidiaries, payments on the guarantees are effectively subordinated to the other liabilities of those subsidiaries.
Interest Rate	2013 notes: 5.875% per year 2018 notes: 6.500% per year 2028 notes: 7.125% per year
Date Interest Starts Accruing	June 27, 2008.
Interest Payment Dates	Semi-annually in arrear on January 15 and July 15 of each year, commencing January 15, 2009.
First Interest Payment Date	January 15, 2009.

Optional Make-Whole Redemption

Each series of the notes will be redeemable at our option or at the option of Rio Tinto plc and Rio Tinto Limited, in whole or in part, at any time. See Description of Guaranteed Notes Optional Make-Whole Redemption beginning on page S-15 of this prospectus supplement. Upon redemption, we will pay a redemption price equal to the greater of (i) 100% of the principal amount of the notes plus accrued interest to the date of redemption and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the relevant series of notes (excluding any interest accrued as of the date of redemption). The present value will be determined by discounting the remaining

S-4

Table of Contents

principal and interest payments to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using the Treasury Rate (as defined in this prospectus supplement) plus a spread of 40 basis points. The Comparable Treasury Issue for purposes of the definition contained in Description of Guaranteed Notes Optional Make-Whole Redemption will be the U.S. Treasury security selected by the quotation agents as having a maturity comparable to the remaining term of the relevant series of notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the relevant series of notes.

Tax Redemption

In the event of various tax law changes and other limited circumstances that require us to pay additional amounts as described in the base prospectus on page 25 under Description of Guaranteed Debt Securities Special Situations Payment of Additional Amounts, we, Rio Tinto plc or Rio Tinto Limited may call all, but not less than all, of the relevant series of notes for redemption at 100% of their principal amount plus accrued interest to the date of redemption.

Change of Control

If a Change of Control Repurchase Event (as defined in Description of the Guaranteed Notes Change of Control Repurchase Event) occurs, unless the notes are otherwise subject to redemption in accordance with their terms and we have elected to exercise our right to redeem the notes, we will make an offer to each holder comprising that series to repurchase all or any part (in integral multiples of U.S.\$1,000) of that holder's notes at a repurchase price in cash equal to 101% of the aggregate principal amount of notes repurchased plus any accrued and unpaid interest on the notes repurchased to the date of repurchase.

Form of Notes; Clearance and Settlement

We will issue the notes in fully registered form. The notes will be represented by one or more global securities registered in the name of a nominee of DTC and deposited with The Bank of New York, as depository. You will hold a beneficial interest in the notes through DTC in book-entry form. Indirect holders trading their beneficial interest in the notes through DTC must trade in DTC's same-day funds settlement system and pay in immediately available funds. Secondary market trading through Euroclear and Clearstream, Luxembourg will occur in the ordinary way following the applicable rules and operating procedures of Euroclear and Clearstream, Luxembourg.

Denomination

The notes will be issued in minimum denominations of U.S.\$2,000 and integral multiples of U.S.\$1,000 in excess thereof.

Further Issues

We may from time to time without your consent create and issue further notes having the same terms and conditions as any series of notes so that the further issue is consolidated and forms a single series with such series of notes, provided that such further issue constitutes a qualified reopening for U.S. federal income tax purposes or such further notes are issued with

not more than a de minimis amount of original discount for U.S. federal income tax purposes.

Listing

Application will be made to list the notes on the New York Stock Exchange.

S-5

Table of Contents

Governing Law	The notes will be governed by the laws of the State of New York.
Use of Proceeds	We will receive net proceeds from this offering of approximately U.S.\$4.95 billion. The net proceeds will be used to repay amounts outstanding under the U.S.\$40 billion credit facility which was drawn down in connection with the Alcan acquisition.
Risk Factors	You should carefully consider all the information in the prospectus supplement and in the base prospectus and, in particular, the risks described under Risk Factors beginning on page S-2 of the prospectus supplement before deciding to invest in the notes.

Table of Contents

RECENT DEVELOPMENTS

On November 8, 2007, BHP Billiton announced that it had written to the Boards of Rio Tinto plc and Rio Tinto Limited outlining a proposed acquisition of Rio Tinto. Under this proposal, each Rio Tinto share was proposed to be exchanged for three BHP Billiton shares. Following this announcement, on November 8, 2007, Rio Tinto responded by announcing that the Boards of Rio Tinto plc and Rio Tinto Limited had given the proposal careful consideration and concluded that the proposal from BHP Billiton significantly undervalued Rio Tinto and its prospects. Accordingly, the Boards unanimously rejected the proposal as not being in the interests of shareholders.

On February 1, 2008, The Aluminum Corporation of China and Alcoa bought a 12% stake in Rio Tinto plc for approximately U.S.\$14 billion.

On February 6, 2008, BHP Billiton announced its intention to make a new offer to acquire the entire issued share capital of Rio Tinto plc and Rio Tinto Limited at an exchange ratio of 3.4 BHP Billiton shares (BHP Billiton Limited shares in the case of the offer for Rio Tinto Limited, and a mixture of BHP Billiton plc and BHP Billiton Limited shares in the case of the offer for Rio Tinto plc) per Rio Tinto share. The posting of the documents relating to the offers is subject to the satisfaction or waiver of pre-conditions which relate to the obtaining of certain regulatory clearances in Europe, Australia, the United States, Canada and South Africa. BHP Billiton's announcement stated that it expected to obtain the necessary clearances during the second half of 2008. Following this announcement, on February 6, 2008, the Boards of Rio Tinto plc and Rio Tinto Limited responded by announcing that BHP Billiton's offers, while improved, still undervalued Rio Tinto. Accordingly, the Boards rejected the offers by BHP Billiton.

Table of Contents

USE OF PROCEEDS

We estimate that the net proceeds (after underwriting discounts and commissions and estimated offering expenses) from the sale of the notes will be approximately U.S.\$4.95 billion. The net proceeds will be used to repay amounts outstanding under the U.S.\$40 billion credit facility, which was drawn down in connection with the Alcan acquisition.

The U.S.\$40 billion credit facility is comprised of four facilities with final maturities ranging up to five years. As of May 31, 2008, U.S.\$36.3 billion of the U.S.\$40 billion credit facility was drawn at a weighted average interest rate of 2.87% per annum.

S-8

Table of Contents**SUMMARY HISTORICAL FINANCIAL DATA**

The following summary consolidated historical financial data are derived from the audited consolidated financial statements of Rio Tinto. The summary consolidated historical financial data should be read in conjunction with, and qualified in their entirety by reference to, the consolidated financial statements and notes thereto contained in the Form 20-F of Rio Tinto for the year ended December 31, 2007, which are incorporated by reference in this prospectus. The consolidated financial statements of Rio Tinto have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

Summary Condensed Consolidated Financial Information of Rio Tinto***Income Statement***

	2007	Year Ended December 31,		2004
		2006	2005	
		(U.S.\$ millions)		
Consolidated sales revenue	29,700	22,465	19,033	12,954
Operating profit	8,571	8,974	6,922	3,327
Profit for the year	7,746	7,867	5,498	3,244
Basic earnings per ordinary share (U.S. cents)	568.7	557.8	382.3	239.1
Diluted earnings per ordinary share (U.S. cents)	566.3	555.6	381.1	238.7

Balance Sheet

	2007	At December 31,		2004
		2006	2005	
		(U.S.\$ millions)		
Total assets	101,391	34,494	29,803	26,308
Share capital and share premium	3,323	3,190	3,079	3,127
Total equity/Net assets	26,324	19,385	15,739	12,591

Other Financial Data

	2007	Year Ended December 31,		2004
		2006	2005	
		(U.S.\$ millions)		
EBITDA ⁽¹⁾	13,611	12,566	9,743	6,123

Note:

- (1) EBITDA (including Rio Tinto's share of equity accounted units) represents profit before finance items and taxation, depreciation and amortization in subsidiaries, impairment charges/(reversals), depreciation and amortization in equity accounted units, taxation in equity accounted units and finance items in equity accounted units. Information regarding EBITDA is sometimes used by investors to evaluate the efficiency of a company's operations and its ability to employ its earnings towards repayment of debt, capital expenditures and working capital requirements. There are no generally accepted accounting principles governing the calculation of EBITDA and, as a non-GAAP measure, the criteria upon which EBITDA is based can vary from company to company. EBITDA, by itself, does not provide a sufficient basis to compare Rio Tinto's performance with that of other companies and should not be considered in isolation or as a substitute for operating profit or any other measure as an indicator of operating performance, or as an alternative to cash generated from operating activities as a measure of liquidity.

S-9

Table of Contents

The reconciliation of Rio Tinto's profit before finance items and taxation to EBITDA is as follows:

	2007	Year Ended December 31,		2004
		2006	2005	
		(U.S.\$ millions)		
Profit on ordinary activities before finance items and taxation	10,155	10,352	7,698	3,850

EBITDA	13,611	12,566	9,743	6,123

S-10

Table of Contents**SUMMARY UNAUDITED PRO FORMA FINANCIAL DATA**

The following unaudited pro forma financial information presents the Rio Tinto Group as if Alcan had been acquired on January 1, 2007.

The unaudited pro forma condensed financial information is based in part on the historical financial statements and notes thereto of Rio Tinto, which are incorporated by reference in this document. It should be read in conjunction with those historical financial statements and the notes thereto.

The unaudited pro forma condensed financial information is for information purposes only. Because of its nature, it addresses a hypothetical situation and it is not intended to represent or to be indicative of the combined results of operations that Rio Tinto would have reported had the acquisition of Alcan been completed as of the dates described. It should not be relied upon as representative of the historical consolidated results of operations that would have been achieved, or the future consolidated results of operations that can be expected.

See **Unaudited Pro Forma Financial Information** on pages 14 to 16 of the base prospectus for an explanation of the basis of preparation of these data, including the assumptions underlying them and the limitations thereof.

Unaudited Pro Forma Condensed Income Statement Data

	Year Ended December 31, 2007 (U.S.\$ millions)
Consolidated sales revenue	45,590
Operating profit	10,705
Interest payable and similar charges	(2,355)
Taxation	(2,104)
Minority interest	(437)
Profit attributable to Rio Tinto shareholders	7,584

Other Pro Forma Financial Data

	Year Ended December 31, 2007 (U.S.\$ millions)
EBITDA ⁽¹⁾	17,326

Note:

(1)

EBITDA (including Rio Tinto's share of equity accounted units) represents profit before finance items and taxation, depreciation and amortization in subsidiaries, impairment charges/(reversals), depreciation and amortization in equity accounted units, taxation in equity accounted units and finance items in equity accounted units. Information regarding EBITDA is sometimes used by investors to evaluate the efficiency of a company's operations and its ability to employ its earnings towards repayment of debt, capital expenditures and working capital requirements. There are no generally accepted accounting principles governing the calculation of EBITDA and, as a non-GAAP measure, the criteria upon which EBITDA is based can vary from company to company. EBITDA, by itself, does not provide a sufficient basis to compare Rio Tinto's performance with that of other companies and should not be considered in isolation or as a substitute for operating profit or any other measure as an indicator of operating performance, or as an alternative to cash generated from operating activities as a measure of liquidity.

S-11

Table of Contents

The reconciliation of Rio Tinto's profit before finance items and taxation to EBITDA for the year ended December 31, 2007 is as follows:

	Rio Tinto	Alcan Pre- Acquisition (U.S.\$ millions)	Pro Forma Adjustments	Pro Forma Combined
Profit on ordinary activities before finance items and taxation	10,155	2,095	54	12,304
Depreciation and amortization in subsidiaries	2,115	852	502	3,469
Impairment charges/(reversals)	58			58
Depreciation and amortization in equity accounted units	310	92	58	460
Taxation in equity accounted units	917	69	(18)	968
Finance items in equity accounted units	56	11		67
EBITDA	13,611	3,119	596	17,326

S-12

Table of Contents**CAPITALIZATION AND INDEBTEDNESS OF RIO TINTO**

The following table sets out cash and capitalization and indebtedness of Rio Tinto in accordance with IFRS (i) on an actual basis as of December 31, 2007; and (ii) as adjusted to give effect to the issuance of the notes offered hereby and the repayment of a portion of the debt outstanding under the U.S.\$40 billion credit facility, which was drawn down in connection with the Alcan acquisition.

	At December 31, 2007	
	Actual	As Adjusted⁽¹⁾
	(U.S.\$ millions)	
Total issued share capital of Rio Tinto plc	172	172
Total issued share capital of Rio Tinto Limited (excluding Rio Tinto plc interest)	1,219	1,219
Total issued share capital	1,391	1,391
Share premium account	1,932	1,932
Other reserves	2,416	2,416
Retained earnings	19,033	19,033
Total Rio Tinto shareholders' funds	24,772	24,772
Finance debt:		
Borrowings due within one year	8,213	3,213
Medium and long-term borrowings	38,614	43,614
Total capitalization and indebtedness ⁽¹⁾	71,599	71,599

Note:

- (1) Except for the issuance of the notes offered hereby and the repayment of a portion of the debt outstanding under the U.S.\$40 billion credit facility, there has been no material change to Rio Tinto's capitalization and indebtedness since December 31, 2007.

Cash and cash equivalents as of December 31, 2007, both on an actual basis and as adjusted for the expected issuance of the notes, was U.S.\$1,645 million.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

Set forth in the table below are the ratios of earnings to fixed charges of Rio Tinto in accordance with IFRS for the periods indicated.

	Year Ended December 31,			
	2007	2006	2005	2004
Ratio of earnings to fixed charges	14.40	39.88	30.82	19.86

The ratio of earnings to fixed charges of Rio Tinto is computed by dividing the amount of its pre-tax earnings by the amount of its fixed charges. For the purposes of calculating the ratio, earnings is defined as pre-tax income from continuing operations before adjustments for minority interests, less (i) minority interests in pre-tax income of subsidiaries that have not incurred fixed charges; and (ii) share of profit after tax of equity accounted units, plus (i) fixed charges; (ii) plus distributed income of equity investees; and (iii) amortization of capitalized interest. Fixed charges consist of interest costs, both expensed and capitalized, and a reasonable approximation of the rental expense representative of the interest factor.

Table of Contents

DESCRIPTION OF GUARANTEED NOTES

This section describes the specific financial and legal terms of the notes and supplements the more general description under "Description of Guaranteed Debt Securities" in the base prospectus. To the extent that the following description is inconsistent with the terms described under "Description of Guaranteed Debt Securities" in the base prospectus, the following description replaces that in the base prospectus.

General

We will offer U.S.\$2,500,000,000 initial aggregate principal amount of 5.875% notes due 2013, U.S.\$1,750,000,000 initial aggregate principal amount of 6.500% notes due 2018 and U.S.\$750,000,000 initial aggregate principal amount of 7.125% notes due 2028. Book-entry interests in the notes will be issued, as described in "Clearance and Settlement" in the base prospectus, in minimum denominations of U.S.\$2,000 and in integral multiples of U.S.\$1,000. The notes will bear interest at the applicable rate per annum shown on the cover page of this prospectus supplement, payable semi-annually in arrear on January 15 and July 15 of each year, commencing January 15, 2009. The regular record dates for payments of interest will be January 1 and July 1. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months. A "business day" means any day other than a day on which banks are permitted or required to be closed in London and New York City. The notes and guarantees will be governed by New York law.

The notes will be unsecured, unsubordinated indebtedness of Rio Tinto Finance (USA) Limited and will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding.

Rio Tinto plc and Rio Tinto Limited each will unconditionally guarantee on an unsubordinated basis the due and punctual payment of the principal of and any premium and interest on the notes, when and as any such payments become due and payable, whether at maturity, upon redemption or declaration of acceleration, or otherwise. The guarantees of the notes will be unsecured, unsubordinated obligations of Rio Tinto plc and Rio Tinto Limited. The guarantees will rank equally with all other unsecured and unsubordinated indebtedness of Rio Tinto plc and Rio Tinto Limited from time to time outstanding. Because Rio Tinto plc and Rio Tinto Limited are holding companies, the notes will effectively be subordinate to any indebtedness of each of their subsidiaries.

The trustee will be The Bank of New York (as successor to JP Morgan Chase Bank, formerly The Chase Manhattan Bank). See "Description of Guaranteed Debt Securities - Default and Related Matters" on page 31 in the base prospectus for a description of the trustee's procedures and remedies available in the event of default.

The principal corporate trust office of the trustee in the City of New York is currently designated as the principal paying agent. We may at any time designate additional paying agents or rescind the designation of paying agents or approve a change in the office through which any paying agent acts.

Payment of principal of and interest on the notes, so long as the notes are represented by global securities, as discussed below, will be made in immediately available funds. Beneficial interests in the global securities will trade in the same-day funds settlement system of The Depository Trust Company, referred to as DTC, and secondary market trading activity in such interests will therefore settle in same-day funds.

Optional Make-Whole Redemption

We or Rio Tinto may redeem any series of notes in whole or in part, at our option or at the option of Rio Tinto plc and Rio Tinto Limited at any time and from time to time at a redemption price equal to the greater of (i) 100% of the

principal amount of the notes to be redeemed and (ii) as certified to the trustee by us or Rio Tinto, the sum of the present values of the Remaining Scheduled Payments discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus a spread of 40 basis points, together with accrued interest on the principal amount of the notes to be redeemed to the date of redemption. In connection with such optional redemption the following defined terms apply:

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity (computed as of the third business day immediately preceding that redemption date) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury

S-15

Table of Contents

Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that redemption date.

Comparable Treasury Issue means the United States Treasury security selected by the Independent Investment Banker that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the relevant series of notes.

Independent Investment Banker means one of the Reference Treasury Dealers appointed by us to act as the Independent Investment Banker.

Comparable Treasury Price means, with respect to any redemption date, (i) the average of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) on the third business day preceding that redemption date, as set forth in the daily statistical release designated H.15 (519) (or any successor release) published by the Federal Reserve Bank of New York and designated Composite 3:30 p.m. Quotations for U.S. Government Securities or (ii) if such release (or any successor release) is not published or does not contain such prices on such business day, (A) the average of the Reference Treasury Dealer Quotations for that redemption date, after excluding the highest and lowest of such Reference Treasury Dealer Quotations, or (B) if the Independent Investment Banker for the notes obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such Quotations.

Reference Treasury Dealer means each of Deutsche Bank Securities Inc., J.P. Morgan Securities Inc., Morgan Stanley & Co. Incorporated, Credit Suisse Securities (USA) LLC and Greenwich Capital Markets, Inc. and their respective successors and one other nationally recognized investment banking firm that is a Primary Treasury Dealer specified from time to time by us, *provided, however*, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a Primary Treasury Dealer), we shall substitute therefor another nationally recognized investment banking firm that is a Primary Treasury Dealer.

Reference Treasury Dealer Quotation means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 3:30 p.m., New York City time, on the third business day preceding that redemption date.

Remaining Scheduled Payments means, with respect to each note to be redeemed, the remaining scheduled payments of the principal thereof and interest thereon that would be due after the related redemption date but for such redemption, *provided, however*, that, if that redemption date is not an interest payment date with respect to such notes, the amount of the next succeeding scheduled interest payment thereon will be reduced by the amount of interest accrued thereon to that redemption date.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of the notes to be redeemed. On and after any redemption date, interest will cease to accrue on the relevant series of notes or any portion thereof called for redemption. On or before any redemption date, we shall deposit with a paying agent (or the trustee) money sufficient to pay the redemption price of and accrued interest on the series of notes to be redeemed on such date. If less than all of a series of notes are to be redeemed, the notes to be redeemed shall be selected by the trustee by such method as the trustee shall deem fair and appropriate. The redemption price shall be calculated by the Independent Investment Banker and us, and the trustee and any paying agent for the notes shall be entitled to rely on such calculation.

Payment of Additional Amounts

All payments of principal and interest in respect of the notes or the guarantees will be made free and clear of, and without withholding or deduction for, any taxes, assessments, duties or governmental charges. If withholding or deduction is required by law, we, Rio Tinto plc or Rio Tinto Limited, as the case may be, must, subject to certain exceptions, pay to each holder of the notes additional amounts as may be necessary in order that every net payment of principal of and interest on the notes after deduction or other withholding for

S-16

Table of Contents

or on account of any present or future tax, assessment, duty or other governmental charge, will not be less than the amount that would have been payable on the notes in the absence of such deduction or withholding. The requirement to pay additional amounts is discussed in greater detail on page 25 of the base prospectus under Description of Guaranteed Debt Securities Special Situations Payment of Additional Amounts

Tax Redemption

In the event of various tax law changes after the date of this prospectus supplement and other limited circumstances that require us to pay additional amounts as described in the base prospectus on page 25 under Description of Guaranteed Debt Securities Special Situations Payment of Additional Amounts , we, Rio Tinto plc or Rio Tinto Limited may call all, but not less than all, of the relevant series of notes for redemption. This means we may repay that series of notes early. Our ability to redeem the notes is discussed in greater detail on page 25 of the base prospectus under Description of Guaranteed Debt Securities Special Situations Optional Tax Redemption. If we call a series of notes as a result of such tax law changes, we must pay 100% of their principal amount. We will also pay the holders accrued interest if we have not otherwise paid interest through the redemption date. Notes will stop bearing interest on the redemption date, even if the holders do not collect their money.

In either of the situations discussed above, we will give notice to DTC of any redemption we propose to make at least 30 days, but not more than 60 days, before the redemption date. Notice by DTC to participating institutions and by these participants to street name holders of indirect interests in the notes will be made according to arrangements among them and may be subject to statutory or regulatory requirements.

Change of Control Repurchase Event

If a Change of Control Repurchase Event (as defined below) occurs, unless the notes are otherwise subject to redemption in accordance with their terms and we have elected to exercise our right to redeem the notes, we will make an offer to each holder comprising that series to repurchase all or any part (in integral multiples of U.S.\$1,000) of that holder's notes at a repurchase price in cash equal to 101% of the aggregate principal amount of notes repurchased plus any accrued and unpaid interest on the notes repurchased to the date of repurchase. Within 30 days following any Change of Control Repurchase Event or, at our option, prior to any Change of Control (as defined below), but after the public announcement of an impending Change of Control, we will mail a notice to each holder, with a copy to the trustee, describing the transaction or transactions that constitute or may constitute the Change of Control Repurchase Event and offering to repurchase notes on the payment date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed. The notice shall, if mailed prior to the date of consummation of the Change of Control, state that the offer to repurchase is conditional on the Change of Control Repurchase Event occurring on or prior to the payment date specified in the notice.

We will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder, to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Repurchase Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control Repurchase Event provisions of the notes, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Repurchase Event provisions of the notes by virtue of such conflict. On the Change of Control Repurchase Event payment date, we will, to the extent lawful:

accept for payment all notes or portions of notes (in integral multiples of U.S.\$1,000) properly tendered pursuant to our offer;

deposit with the trustee an amount equal to the aggregate repurchase price in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the trustee the notes properly accepted, together with an officers certificate stating the aggregate principal amount of notes being purchased by us.

The trustee will promptly mail to each holder of notes properly tendered the repurchase price for such notes, provided that it has received such repurchase price from us, and the trustee will promptly at our direction authenticate and mail (or cause to be transferred by book-entry) to each holder a new note equal in

S-17

Table of Contents

principal amount to any unpurchased portion of any notes surrendered; provided that each new note will be in a principal amount of U.S.\$1,000 or an integral multiple of U.S.\$1,000 in excess thereof. We will not be required to make an offer to repurchase the notes upon a Change of Control Repurchase Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us, and such third party purchases all notes properly tendered and not withdrawn under its offer.

Below Investment Grade Rating Event means the notes are rated below Investment Grade by each of the Rating Agencies on any date from the date of the public notice of an arrangement that could result in a Change of Control until the end of the 60-day period following public notice of the occurrence of a Change of Control (which period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by any of the Rating Agencies); provided that a Below Investment Grade Rating Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control (and thus shall not be deemed a Below Investment Grade Rating Event for purposes of the definition of Change of Control Repurchase Event set out below) if each Rating Agency making the reduction in rating to which this definition would otherwise apply does not announce or publicly confirm or inform us or the trustee in writing at its request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Below Investment Grade Rating Event).

Change of Control means the occurrence of any of the following:

the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of Rio Tinto plc or Rio Tinto Limited to any person (as that term is used in Section 13(d)(3) of the Exchange Act), other than one or more members of the Rio Tinto Group;

the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (as that term is used in Section 13(d)(3) of the Exchange Act) at any time directly or indirectly own(s) or acquire(s) such proportion of the issued or allotted ordinary share capital of Rio Tinto plc or Rio Tinto Limited which shall, or, if such transaction involves the conversion or exchange of such share capital for cash, securities or other property, such proportion of share capital of, or other relevant economic interest in, the surviving entity as a result of such transaction as shall, in aggregate, be entitled to exercise or direct the exercise of more than 50% of the rights to vote to elect members of the board of directors of Rio Tinto plc and Rio Tinto Limited or such surviving entity, provided that:

for the avoidance of doubt, no Change of Control shall occur solely as a result of either of Rio Tinto plc or Rio Tinto Limited and/or any of its subsidiaries at any time owning or acquiring the relevant proportion of the issued or allotted ordinary share capital of Rio Tinto Limited or Rio Tinto plc, respectively, but in such circumstances whether or not a Change of Control shall occur whether in relation to such event or thereafter shall be determined by reference to:

the Collapsed DLC Test; or

the test set out in this sub-paragraph immediately preceding this proviso applied solely to whichever of Rio Tinto plc or Rio Tinto Limited owns (whether directly or through one or more of its subsidiaries) the relevant proportion of the issued or allotted ordinary share capital of Rio Tinto Limited or Rio Tinto plc, and

no Change of Control shall be deemed to occur if all or substantially all of the holders of the issued or allotted ordinary share capital or other relevant economic interests of the relevant person or, as the case may be, surviving entity immediately after the event which would otherwise have constituted a Change of Control were the holders of the issued or allotted ordinary share capital of each or either of Rio Tinto plc or Rio Tinto Limited with the same (or substantially the same) pro rata economic interests in the share capital or relevant economic interests of the relevant person or, as the case may be, surviving entity, as such shareholders had

S-18

Table of Contents

in the issued or allotted ordinary share capital of each or either of Rio Tinto plc or Rio Tinto Limited, respectively, immediately prior to such event; or

the first day on which a majority of the members of the board of directors of either Rio Tinto plc or Rio Tinto Limited are not Continuing Directors.

Change of Control Repurchase Event means the occurrence of both a Change of Control and a Below Investment Grade Rating Event.

the Collapsed DLC Test shall be deemed to be satisfied if any person (as that term is used in Section 13(d)(3) of the Exchange Act) at any time directly or indirectly own(s) or acquire(s) more than 50% of the issued or allotted ordinary share capital of whichever of Rio Tinto plc or Rio Tinto Limited owns (whether directly or through one or more of its subsidiaries) the relevant proportion of the issued or allotted ordinary share capital of Rio Tinto Limited or Rio Tinto plc, respectively.

Continuing Directors means, as of any date of determination, any member of the board of directors of either of Rio Tinto plc or Rio Tinto Limited who (1) was a member of such board on the date of the issuance of the guarantee by either entity; or (2) was nominated for election, appointed or elected to such board with the approval of a majority of the Continuing Directors who were members of such board at the time of such nomination, appointment or election.

Investment Grade means a rating of Baa3 or better by Moody's (or its equivalent under any successor rating categories of Moody's) and a rating of BBB- or better by S&P (or its equivalent under any successor rating categories of S&P); or the equivalent investment grade credit rating from any additional Rating Agency or Rating Agencies selected by us.

Moody's means Moody's Investors Service Inc. and its successors.

Rating Agency means (1) each of Moody's and S&P; and (2) if any of Moody's or S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act, selected by us as a replacement agency for Moody's or S&P, as the case may be.

Rio Tinto Group means Rio Tinto plc and Rio Tinto Limited and their respective subsidiaries taken as a whole.

S&P means Standard & Poor's Ratings Services, a division of McGraw-Hill, Inc. and its successors.

Defeasance and Discharge

We may release ourselves from any payment or other obligations on the notes as described under **Description of Guaranteed Debt Securities** **Defeasance and Covenant Defeasance** **Defeasance and Discharge** on page 30 of the base prospectus.

Table of Contents**UNDERWRITING**

Deutsche Bank Securities Inc., J.P. Morgan Securities Inc., Morgan Stanley & Co. Incorporated, Credit Suisse Securities (USA) LLC and Greenwich Capital Markets, Inc. are acting as joint bookrunners of the offering and are acting as representatives of the underwriters named below.

Subject to the terms and conditions stated in the underwriting agreement dated the date of the prospectus supplement, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the principal amount of notes set forth opposite the underwriter's name.

Underwriter	2013 Notes Principal Amount	2018 Notes Principal Amount	2028 Notes Principal Amount
Deutsche Bank Securities Inc.	\$ 437,500,000	\$ 306,250,000	\$ 131,250,000
J.P. Morgan Securities Inc.	\$ 437,500,000	\$ 306,250,000	\$ 131,250,000
Morgan Stanley & Co. Incorporated	\$ 437,500,000	\$ 306,250,000	\$ 131,250,000
Credit Suisse Securities (USA) LLC	\$ 312,500,000	\$ 218,750,000	\$ 93,750,000
Greenwich Capital Markets, Inc.	\$ 312,500,000	\$ 218,750,000	\$ 93,750,000
SG Americas Securities, LLC	\$ 312,500,000	\$ 218,750,000	\$ 93,750,000
ANZ Securities, Inc.	\$ 41,666,667	\$ 29,166,667	\$ 12,500,000
Banco Bilbao Vizcaya Argentaria, S.A.	\$ 41,666,667	\$ 29,166,667	\$ 12,500,000
Calyon Securities (USA) Inc.	\$ 41,666,667	\$ 29,166,667	\$ 12,500,000
Daiwa Securities America Inc.	\$ 41,666,667	\$ 29,166,667	\$ 12,500,000
Mitsubishi UFJ Securities International plc	\$ 41,666,666	\$ 29,166,666	\$ 12,500,000
Mizuho International plc	\$ 41,666,666	\$ 29,166,666	\$ 12,500,000
Total	\$ 2,500,000,000	\$ 1,750,000,000	\$ 750,000,000

Banco Bilbao Vizcaya Argentaria, S.A., Mitsubishi UFJ Securities International plc and Mizuho International plc are not U.S. registered broker-dealers and, therefore, to the extent that they intend to effect any sales of the notes in the United States, they will do so through one or more U.S. registered broker-dealers as permitted by FINRA regulations.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

The underwriters propose to offer some of the notes directly to the public at the public offering price set forth on the cover page of the prospectus supplement and some of the notes to dealers at the public offering price less a concession not to exceed 0.20%, 0.30% and 0.50% of the principal amount of the 2013 notes, 2018 notes and 2028 notes, respectively. The underwriters may allow, and dealers may reallow a concession not to exceed 0.13%, 0.17% and 0.33% of the principal amount of the 2013 notes, 2018 notes and 2028 notes, respectively, on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering price and concessions.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of notes described in this prospectus supplement may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to the notes that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus Directive, except

S-20

Table of Contents

that, with effect from and including the relevant implementation date, an offer of securities may be offered to the public in that relevant member state at any time:

to any legal entity that is authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts;

to fewer than 100 natural or legal persons (other than qualified investors as defined below) subject to obtaining the prior consent of the representatives for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of securities shall require us nor the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For purposes of this provision, the expression an offer to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe the securities, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each relevant member state.

This prospectus supplement has been prepared on the basis that all offers of the notes within the European Economic Area will be made pursuant to an exemption under Article 3(2) of the Prospectus Directive, as implemented in relevant member states of the European Economic Area, from the requirement to produce a prospectus for offers of the notes. Accordingly, any person making or intending to make any offer of the notes within the European Economic Area should only do so in circumstances in which no obligation arises for us, our affiliates or any of the underwriters to produce a prospectus for such offer. Neither we nor any of the underwriters have authorized, nor do we or they authorize, the making of any offer of the notes through any financial intermediary, other than offers made by the underwriters which constitute the final placement of the notes contemplated in this prospectus supplement.

Notice to Prospective Investors in the United Kingdom

An offer of notes described in this prospectus supplement may only be made:

through the communication of an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the FSMA)) in connection with the issue or sale of notes in circumstances in which Section 21(1) of the FSMA does not apply to us; and

in compliance with all applicable provisions of the FSMA with respect to anything done in relation to notes, from or otherwise involving the United Kingdom.

Australian Selling Restrictions

No prospectus or other disclosure document (as defined in the Corporations Act 2001 of Australia (the Corporations Act)) in relation to the notes has been or will be lodged with the Australian Securities and Investments Commission

(ASIC) or Australian Stock Exchange Limited and:

- (a) an invitation or offer of the notes for issue, sale or purchase in Australia (including an offer or invitation which is received by a person in Australia) may not be made; and
- (b) any draft or final form offering memorandum, advertisement or any other offering material relating to any notes may not be distributed or published in Australia,

S-21

Table of Contents

unless:

- (i) the aggregate consideration payable by each offeree is at least A\$500,000 (or its equivalent in other currencies but disregarding moneys lent by the offeror or its associates (as defined in the Corporations Act)) or the offer or invitation otherwise does not require disclosure to investors in accordance with Part 6D.2 of the Corporations Act;
- (ii) such action complies with all applicable laws and regulations; and
- (iii) such action does not require any document to be lodged with, or registered by, ASIC.

In addition, any note issued by the issuer may not be sold in circumstances where employees of an underwriter aware of, or involved in, the sale know, or have reasonable grounds to suspect, that the note or an interest in or right in respect of the note, was being or would later be, acquired either directly or indirectly by an Offshore Associate of the issuer acting other than in the capacity of a dealer, manager or underwriter in relation to the placement of the notes or a clearing house, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act.

Offshore Associate means an associate (as defined in section 128F of the Income Tax Assessment Act 1936 of Australia and any successor legislation) of the issuer that is either a non-resident of Australia which does not acquire the notes in carrying on a business at or through a permanent establishment in Australia or, alternatively, a resident of Australia that acquires the notes in carrying on business at or through a permanent establishment outside of Australia.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes):

	Paid by Rio Tinto
Per 2013 note	0.350%
Per 2018 note	0.450%
Per 2028 note	0.875%

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when they, in covering syndicate short positions or making stabilizing purchases, repurchase notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses (which consist of, among other fees, Securities and Exchange Commission registration fees, legal fees and expenses, accounting fees and expenses and printing expenses) for this offering, excluding underwriting discounts, will be approximately U.S.\$1.3 million.

Affiliates of Deutsche Bank Securities Inc., J.P. Morgan Securities Inc., Credit Suisse Securities (USA) LLC, Greenwich Capital Markets, Inc. and SG Americas Securities, LLC will receive a portion of the net proceeds of the offering. Affiliates of Deutsche Bank Securities Inc., J.P. Morgan Securities Inc., Credit Suisse Securities (USA) LLC, Greenwich Capital Markets, Inc. and SG Americas Securities, LLC are lenders to Rio Tinto under the U.S.\$40 billion credit facility which was drawn down in connection with the Alcan

S-22

Table of Contents

acquisition. This offering is made in accordance with NASD Rule 2710(h) and the net proceeds of this offering will be used to repay a portion of the U.S.\$40 billion credit facility.

The underwriters have also performed investment banking and advisory services for us from time to time for which they have received customary fees and reimbursement of expenses. The underwriters may in the future, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses.

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

LEGAL MATTERS

Certain legal matters relating to the notes and the guarantees will be passed upon by Linklaters LLP, our English and U.S. counsel and by Allens Arthur Robinson, our Australian counsel. Certain legal matters relating to the notes and the guarantees will be passed upon for the underwriters by Davis Polk & Wardwell, U.S. counsel to the underwriters.

EXPERTS

The consolidated financial statements of Rio Tinto plc and Rio Tinto Limited as of December 31, 2007 and 2006 and for each of the three years in the period ended December 31, 2007 and management's assessment of the effectiveness of internal control over financial reporting (which is included in management's report on internal control over financial reporting) incorporated in this document by reference to the Annual Report on Form 20-F for the year ended December 31, 2007 have been so incorporated in reliance on the audit reports of PricewaterhouseCoopers LLP and PricewaterhouseCoopers, independent registered public accounting firms, given on the authority of said firms as experts in auditing and accounting. PricewaterhouseCoopers LLP is a member of the Institute of Chartered Accountants in England and Wales. PricewaterhouseCoopers is a member of the Institute of Chartered Accountants in Australia.

The consolidated financial statements of Alcan Inc. as of December 31, 2006, 2005 and 2004 and for each of the three years in the period ended December 31, 2006 and management's assessment of the effectiveness of internal control over financial reporting (which is included in management's report on internal control over financial reporting) incorporated in this document by reference to the Annual Report on Form 10-K for the year ended December 31, 2006 have been so incorporated in reliance on the audit report of PricewaterhouseCoopers LLP, independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting. PROSPECTUS

RIO TINTO FINANCE (USA) LIMITED

DEBT SECURITIES

FULLY AND UNCONDITIONALLY GUARANTEED BY

RIO TINTO PLC

and

RIO TINTO LIMITED

We may offer and sell guaranteed debt securities from time to time. Each time we sell any of the guaranteed debt securities described in this prospectus, we will provide one or more supplements to this prospectus that will contain specific information about those guaranteed debt securities and their offering. You should read this prospectus and any applicable prospectus supplement(s) together with additional information described under the heading **Where You Can Find More Information** carefully before you invest.

We may sell these guaranteed debt securities to, or through, underwriters and also to other purchasers or through agents. The names of any underwriters or agents will be stated in an accompanying prospectus supplement. This prospectus may not be used to sell any guaranteed debt securities unless it is accompanied by a prospectus supplement.

Our principal executive offices and the principal executive offices of Rio Tinto Limited are located at Level 33, 120 Collins Street, Melbourne, Victoria 3000, Australia. Our and Rio Tinto Limited's telephone number is +61 3-9283-3333. The principal executive offices of Rio Tinto plc are located at 5 Aldermanbury Square, London EC2V 7HR, United Kingdom and its telephone number is +44 20-7781-2000.

You should carefully consider the risk factors included, or incorporated by reference, in this prospectus and any applicable prospectus supplement(s) before you invest in any of our securities.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Table of Contents

RISK FACTORS

An investment in the guaranteed debt securities involves risks. Accordingly, you should consider carefully all of the information included, or incorporated by reference, in this document before you decide to invest in the guaranteed debt securities.

Risks relating to Rio Tinto Finance (USA) Limited

Finance Vehicles

We are a finance vehicle and our primary business is the raising of money for the purpose of on-lending to other members of the Rio Tinto Group. Accordingly, substantially all of our assets are loans and advances made to other members of the Rio Tinto Group. Our ability to satisfy our obligations in respect of the guaranteed debt securities will depend on payments made to us by other members of the Rio Tinto Group in respect of loans and advances made by us.

Risks relating to Rio Tinto

Acquisitions

The Rio Tinto Group has grown partly through the acquisition of other businesses and most notably through the acquisition of Alcan Inc. (Alcan) for U.S.\$38.7 billion during 2007. Business combinations commonly entail a number of risks and Rio Tinto cannot be sure that management will be able to effectively integrate businesses acquired or generate the cost savings and synergies anticipated. Failure to do so could have a material and adverse impact on the Rio Tinto Group's costs, earnings and cash flows. Furthermore, the Rio Tinto Group may, under the terms of the acquisition, be liable for the past acts or omissions of the acquired businesses in circumstances where the price paid does not adequately reflect the eventual cost of these liabilities.

Divestments

Following the acquisition of Alcan, the Rio Tinto Group undertook a strategic review which has highlighted approximately U.S.\$30 billion of potential divestments and has announced a target of U.S.\$15 billion. The Rio Tinto Group intends to explore options for the sale of a shortlist of assets, but any sales would be value driven and dependent on price. The amount and timing of sale proceeds that might eventually be realized is subject to considerable uncertainty and the Rio Tinto Group cannot anticipate by when and by how much its borrowings might be reduced.

Economic conditions

Commodity prices, and demand for the Rio Tinto Group's products, are cyclical and influenced strongly by world economic growth, particularly that in the United States and Asia. The Rio Tinto Group's normal policy is to sell its products at prevailing market prices. Commodity prices can fluctuate widely and could have a material and adverse impact on the Rio Tinto Group's asset values, revenues, earnings and cash flows.

The strong underlying economic conditions and commodity prices have led to a rapid growth in demand for technical skills in mining, metallurgy and geological sciences, and for materials and supplies related to the mining industry, causing skills and materials shortages. The retention of skilled employees, the recruitment of new staff and the

purchasing of materials and supplies may lead to increased costs, interruptions to existing operations and to delays in new projects.

Exchange rates

The Rio Tinto Group's asset values, earnings and cash flows are influenced by a wide variety of currencies due to the geographic diversity of the Rio Tinto Group's sales and areas of operation. The majority of the Rio Tinto Group's sales are denominated in U.S. dollars. The Australian, Canadian and U.S. dollars and the Euro are the most important currencies influencing costs. The relative value of currencies can fluctuate

Table of Contents

widely and could have a material and adverse impact on the Rio Tinto Group's asset values, costs, earnings and cash flows.

Exploration and new projects

The Rio Tinto Group seeks to identify new mining properties through an active exploration program. The Rio Tinto Group has also undertaken the development or expansion of other major operations. There is no guarantee, however, that such expenditure will be recouped or that existing ore reserves will be replaced. Failure to do so could have a material and adverse impact on the Rio Tinto Group's financial results and prospects. In particular, Rio Tinto has commenced or recommenced exploration for, and development of, new projects in a number of new countries which may increase risks around land and resource tenure.

The Rio Tinto Group develops new mining properties and expands its existing operations as a means of generating shareholder value. Unanticipated delays and project execution complications along with increasing regulatory, environmental and social approvals can result in significant increases in construction costs and/or significant delays in construction. These increases could materially and adversely affect the economics of a project and, consequently, the Rio Tinto Group's asset values, costs, earnings and cash flows.

Energy cost and supply

The Rio Tinto Group's operations are energy intensive and, as a result, its costs and earnings could be adversely affected by rising energy costs or by energy supply interruptions. The following factors could materially adversely affect the Rio Tinto Group's energy position: the unavailability of energy or fuel due to a variety of reasons including fluctuations in climate, significant increases in costs of supplied electricity or fuel, interruptions in energy supply due to equipment failure or other causes and the inability to extend contracts for the supply of energy on economical terms.

Greenhouse gas emissions

Rio Tinto's smelting and mineral processing operations are energy intensive and depend heavily on coal, oil, diesel and gas. Increasing regulation of greenhouse gas emissions, including the progressive introduction of carbon emissions trading mechanisms, in numerous jurisdictions in which the Rio Tinto Group operates could adversely impact access to, and cost of, the Rio Tinto Group's energy supply. Regulation of greenhouse gas emissions in the jurisdictions of the Rio Tinto Group's major customers could also have an adverse effect on the demand for the Rio Tinto Group's products.

Interest rate fluctuations

Increases in benchmark interest rates will likely increase the interest cost associated with the Rio Tinto Group's debt and will increase the cost of future borrowings, which could harm the Rio Tinto Group's earnings and financial condition.

Ore reserve estimates

There are numerous uncertainties inherent in estimating ore reserves and assumptions that are valid at the time of estimation may change significantly when new information becomes available.

Changes in the forecast prices of commodities, exchange rates, production costs or recovery rates may change the economic status of reserves and may, ultimately, result in the reserves being restated. Such changes in reserves could

impact on depreciation and amortization rates, asset carrying values, deferred stripping calculations and provisions for close down, restoration and environmental clean up costs.

Political and community

The Rio Tinto Group has operations in jurisdictions having varying degrees of political and commercial instability. Political instability can result in civil unrest, expropriation, nationalization, renegotiation or nullification of existing agreements, mining leases and permits, changes in laws, taxation policies or currency

Table of Contents

restrictions. Commercial instability caused by bribery and corruption in their various guises can lead to similar consequences. Any of these can have a material adverse effect on the profitability or, in extreme cases, the viability of an operation.

Some of the Rio Tinto Group's current and potential operations are located in or near communities that may now, or in the future, regard such an operation as having a detrimental effect on their economic and social circumstances. Should this occur, it may have a material adverse impact on the profitability or, in extreme cases, the viability of an operation. In addition, such an event may adversely affect the Rio Tinto Group's ability to enter into new operations in the country.

Defined benefit pension plans

Certain of the Rio Tinto Group's businesses sponsor defined benefit pension plans. If the assets of these pension plans do not achieve expected investment returns for any fiscal year, such deficiency would result in one or more charges against the Rio Tinto Group's earnings. In addition, changing economic conditions, poor pension investment returns or other factors may require the Rio Tinto Group to make substantial cash contributions to these pension plans in the future, preventing the use of such cash for other purposes.

Unions and labor disputes

Some of the Rio Tinto Group's employees are represented by labor unions under various collective labor agreements. The Rio Tinto Group may not be able to satisfactorily renegotiate its collective labor agreements when they expire. In addition, existing labor agreements may not prevent a strike or work stoppage at its facilities in the future, and any such work stoppage could have a material adverse effect on the Rio Tinto Group's earnings and financial condition.

Technology

The Rio Tinto Group has invested in and implemented information system and operational initiatives. Several technical aspects of these initiatives are still unproven and the eventual operational outcome or viability cannot be assessed with certainty. Accordingly, the costs and benefits from these initiatives and the consequent effects on the Rio Tinto Group's future earnings and financial results may vary widely from present expectations.

Land and resource tenure

The Rio Tinto Group operates in several countries where title to land and rights in respect of land and resources (including indigenous title) may be unclear and may lead to disputes over resource development. Such disputes could disrupt relevant mining projects and/or impede the Rio Tinto Group's ability to develop new mining properties.

Health, safety and environment

Rio Tinto operates in an industry that is subject to numerous health, safety and environmental laws and regulations as well as community expectations. Evolving regulatory standards and expectations can result in increased litigation and/or increased costs all of which can have a material and adverse effect on earnings and cash flows.

Mining operations

Mining operations are vulnerable to a number of circumstances beyond the Rio Tinto Group's control, including natural disasters and unexpected geological variations. These can affect costs at particular mines for varying periods. Mining, smelting and refining processes also rely on mining inputs. Appropriate insurance can provide protection

from some, but not all, of the costs that may arise from unforeseen events. Disruption to the supply of key inputs, or changes in their pricing, may have a material and adverse impact on the Rio Tinto Group's asset values, costs, earnings and cash flows.

Table of Contents

Rehabilitation

Costs associated with rehabilitating land disturbed during the mining process and addressing environmental, health and community issues are estimated and provided for based on the most current information available. Estimates may, however, be insufficient and/or further issues may be identified. Any underestimated or unidentified rehabilitation costs will reduce earnings and could materially and adversely affect the Rio Tinto Group's asset values, earnings and cash flows.

Non managed projects and operations

Where projects and operations are controlled and managed by the Rio Tinto Group's partners, the Rio Tinto Group may provide expertise and advice, but it cannot guarantee compliance with its standards and objectives. Improper management or ineffective policies, procedures or controls could not only adversely affect the value of the related non managed projects and operations but could also, by association, harm the Rio Tinto Group's other operations and future access to new assets.

Regulation

The Rio Tinto Group is subject to extensive governmental regulations in all jurisdictions in which it operates. Operations are subject to general and specific regulations governing mining and processing, land tenure and use, environmental regulations (including site specific environmental licences, permits and statutory authorizations), workplace health and safety, trade and export, corporations, competition, access to infrastructure, foreign investment and taxation. Some operations are conducted under specific agreements with respective governments and associated acts of parliament. Changes to any regulation or agreement may have an adverse effect on the profitability and viability of an operation.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form F-3 that we filed on June 23, 2008 with the Securities and Exchange Commission, which we refer to as the SEC, using a shelf registration process. Under this shelf registration process, we may offer and sell the guaranteed debt securities described in this prospectus in one or more offerings. This prospectus provides you with a general description of the guaranteed debt securities we may offer. Each time we use this prospectus to offer guaranteed debt securities, we will provide one or more prospectus supplements that will contain specific information about the offering and the terms of those guaranteed debt securities and the extent to which such terms differ from the general terms described in Description of Guaranteed Debt Securities. The prospectus supplements may also add, update or change the information contained in this prospectus. You should read this prospectus and any applicable prospectus supplement(s), together with the additional information described under the heading Where You Can Find More Information, prior to purchasing any of the guaranteed debt securities offered by this prospectus.

When acquiring any guaranteed debt securities discussed in this prospectus, you should rely only on the information contained or incorporated by reference in this prospectus, any prospectus supplement and any free writing prospectus that we authorize to be delivered to you. Neither we, nor any underwriters or agents, have authorized anyone to provide you with different information. We are not offering the guaranteed debt securities in any jurisdiction in which an offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make an offer or solicitation.

You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is truthful or complete at any date other than the date mentioned on the cover page of those documents.

In this prospectus, the terms we, our and us refer to Rio Tinto Finance (USA) Limited. We refer to Rio Tinto plc and Rio Tinto Limited taken together as Rio Tinto. We refer to Rio Tinto plc, Rio Tinto Limited and their subsidiaries taken together as the Rio Tinto Group, or the Group. Rio Tinto Finance (USA) Limited offers debt securities using this prospectus. Both Rio Tinto plc and Rio Tinto Limited act as the guarantors for offerings by Rio Tinto Finance (USA) Limited using this prospectus.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

Rio Tinto Finance (USA) Limited is a corporation incorporated under the laws of the State of Victoria, Australia. Rio Tinto plc is a public limited company incorporated under the laws of England and Wales. Rio Tinto Limited is a corporation incorporated under the laws of the State of Victoria, Australia. Substantially all of our and Rio Tinto's directors and officers, and some of the experts named in this document, reside outside the United States, principally in the United Kingdom and Australia. A substantial portion of our and Rio Tinto's assets, and the assets of such persons, are located outside the United States. Therefore, you may not be able to effect service of process within the United States upon us, Rio Tinto or these persons so that you may enforce judgments of United States courts against us, Rio Tinto or these persons based on the civil liability provisions of the United States federal or state securities laws. Our English and Australian legal advisers have advised us and Rio Tinto that there are doubts as to the enforceability in England and Wales and Australia, in original actions or in actions for enforcement of judgments of United States courts, of civil liabilities based on the United States federal or state securities laws.

Limited file with the SEC on the SEC website at www.sec.gov. The address of the SEC's internet site is provided solely for the information of prospective investors and is not intended to be an active link. Please visit this website or call the SEC at 1-800-732-0330 for further information about its public reference room.

American depositary shares representing ordinary shares of Rio Tinto plc are listed on the New York Stock Exchange, and the ordinary shares are admitted to the Official List of the UK Listing Authority and to trading on the London Stock Exchange plc's main market for listed securities. The ordinary shares of Rio Tinto Limited are listed on the Australian Stock Exchange. You can consult reports and other information about Rio Tinto plc that it has filed pursuant to the rules of the New York Stock Exchange and the UK Listing Authority, and about Rio Tinto Limited that it has filed pursuant to the rules of the Australian Stock Exchange, at those exchanges or authorities.

The SEC allows us and Rio Tinto to incorporate by reference the information that we and Rio Tinto file with them, which means that:

incorporated documents are considered part of this prospectus;

we can disclose important information to you by referring to those documents; and

information that we and Rio Tinto file with the SEC in the future and incorporate by reference herein will automatically update and supersede information in this prospectus and information previously incorporated by reference herein.

The information that we incorporate by reference is an important part of this prospectus.

Each document incorporated by reference is current only as of the date of such document, and the incorporation by reference of such documents shall not create any implication that there has been no change in the affairs of the Rio Tinto Group since the date thereof or that the information contained therein is current as of any time subsequent to its date. Any statement contained in such incorporated documents shall be deemed to be modified or superseded for the purpose of this prospectus to the extent that a subsequent statement contained in another document we incorporate by reference at a later date modifies or supersedes that statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

We incorporate by reference the documents below filed with the SEC by Rio Tinto plc and Rio Tinto Limited pursuant to the Exchange Act. We also incorporate by reference any future filings that Rio Tinto plc and Rio Tinto Limited make with the SEC under Section 13(a), 13(c) or 15(d) of the Exchange Act until we sell all of the securities. Our reports on Form 6-K furnished to the SEC after the date of this prospectus (or portions thereof) are incorporated by reference in this prospectus only to the extent that the forms expressly state that we incorporate them (or such portions) by reference in this prospectus.

The documents incorporated by reference herein in the future and set forth below contain important information about us and our financial condition:

- (i) Annual Report on Form 20-F of Rio Tinto plc and Rio Tinto Limited for the year ended December 31, 2007 filed with the SEC on March 31, 2008;
- (ii) Item 8 of the Annual Report on Form 10-K of Alcan for the year ended December 31, 2006 filed with the SEC on March 1, 2007; and
- (iii)

Edgar Filing: RIO TINTO LTD - Form 424B2

any future report on Form 20-F that either of Rio Tinto plc or Rio Tinto Limited files with the SEC under the Exchange Act until we sell the guaranteed debt securities that may be offered through this prospectus.

You can obtain copies of any of the documents incorporated by reference through Rio Tinto or the SEC. Documents incorporated by reference are available without charge, excluding all exhibits unless an exhibit has been specifically incorporated by reference into this prospectus. FORWARD-LOOKING STATEMENTS

This prospectus contains and incorporates by reference statements which constitute forward-looking statements about us and Rio Tinto as defined in the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this prospectus and include statements regarding our and Rio Tinto's intent, belief or current expectations with respect to the results of the operations and financial condition of the Rio Tinto Group. Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ from those in the forward-looking statements as a result of various factors.

Such statements include, but are not limited to, statements with regard to the outcome of the Alcan acquisition, any statements about cost synergies, revenue benefits or integration costs, capacity, future production and grades, projections for sales growth, estimated revenues and reserves, targets for cost savings, the construction cost of new projects, projected capital expenditures, the timing of new projects, future cash flow and debt levels, the outlook for minerals and metals prices, the outlook for economic recovery and trends in the trading environment and may be (but are not necessarily) identified by the use of phrases such as will, intend, estimate, expect, anticipate, plan, envisage. These forward-looking statements speak only as of the date of this prospectus. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future and may be outside the control of Rio Tinto. Actual results and developments may differ materially from those expressed or implied in such statements because of a number of factors, including revenue benefits and cost synergies being lower than expected, integration costs being higher than expected, levels of demand and market prices, the ability to produce and transport products profitably, the impact of foreign currency exchange rates on market prices and operating costs, operational problems, political uncertainty and economic conditions in relevant areas of the world, the actions of competitors and activities by governmental authorities such as changes in taxation or regulation. Forward-looking statements should, therefore, be construed in light of such risk factors and undue reliance should not be placed on forward-looking statements.

Nothing in this document should be interpreted to mean that the future earnings per share of Rio Tinto will necessarily match or exceed its historical published earnings per share.

Other than in accordance with its legal and regulatory obligations (including the Disclosure and Transparency Rules of the UK Listing Authority and the Listing Rules of the Australian Securities Exchange), Rio Tinto is under no obligation and Rio Tinto expressly disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

RIO TINTO PLC AND RIO TINTO LIMITED

The Rio Tinto Group

Rio Tinto is a leading international mining group whose business is finding, mining and processing the Earth's mineral resources. The Group's interests are diverse both in geography and product. Activities span the world but are strongly represented in Australia and North America with significant businesses in South America, Asia, Europe and southern Africa.

The Group's fundamental objective is to maximize the overall long-term value and return to its shareholders. It does this by operating responsibly and sustainably in areas of proven expertise such as exploration, project evaluation, mining, smelting and refining where Rio Tinto has a competitive advantage. Its strategy is to maximize net present value by investing in large, long life, cost competitive mines and processing plants. Investments are driven by the quality of each opportunity, not by the choice of commodity.

Rio Tinto's management structure is designed to facilitate a clear focus on the Group's objective. The structure is based on the following principal product and global support groups:

Aluminium: Alcan was acquired by Rio Tinto on October 23, 2007. The expanded aluminium product group, combining Alcan's assets with Rio Tinto's aluminium assets, was renamed Rio Tinto Alcan (RTA). RTA comprises closely integrated, high quality bauxite, alumina and aluminium businesses with a broad global reach. RTA owns a 100% interest in the bauxite mine at Weipa, Australia, which was joined by Alcan's four operating bauxite mines in Australia, Brazil, Ghana and Guinea. It owns the Gove and Yarwun alumina refineries and an 80% interest in Queensland Alumina (QAL) in northeastern Australia, as well as refineries in Quebec and France and a 10% interest in the São Luis (Alumar) refinery in Brazil. As of December 31, 2007, RTA had 25 aluminium smelters in 11 countries, of which the largest concentration were located in Canada.

Copper: The Copper group comprises Kennecott Utah Copper in the United States and interests in the producing copper mines of Escondida in Chile, Grasberg in Indonesia, Northparkes in Australia and Palabora in South Africa. The Copper group also has management responsibility for Kennecott Minerals Company in the United States and includes interests in undeveloped copper orebodies at La Granja in Peru, Oyu Tolgoi in Mongolia and Resolution in the United States. In 2007, the Copper group supplemented its focus on copper and molybdenum with nickel projects in Indonesia and the United States.

Iron Ore: The Rio Tinto Iron Ore group (RTIO) wholly owns Hamersley Iron, which operates nine mines in Western Australia, including three mines in joint ventures, approximately 700 kilometers of dedicated railway and port and infrastructure facilities located at Dampier. RTIO also includes a 53% interest in Robe River Iron Associates' two open pit mines in Western Australia; a 59% interest in the Iron Ore Company of Canada, a 100% interest in Mineração Corumbaense Reunida in Brazil and a 60% interest in the HIsmelt® plant in Australia. In addition, RTIO has interests in a major development project in Guinea at Simandou and a project in Orissa, India.

Diamonds and Industrial Minerals: The diamonds part of the group comprises Rio Tinto's 60% interest in the Diavik Diamonds mine located in the Northwest Territories of Canada, the wholly owned Argyle mine in Western Australia, Rio Tinto's 78% interest in the Murowa mine in Zimbabwe and diamond sales and representative offices in Antwerp, Belgium and Mumbai, India. The Industrial Minerals part of the group is made up of Rio Tinto Minerals (RTM), a global leader in borates, talc and salt supply and science, and Rio

Tinto Iron & Titanium (RTIT), a major producer of titanium dioxide feedstock.

Energy: The Energy group comprises thermal coal, coking coal and uranium operations. Coal interests located in Australia and the United States supply internationally traded and United States and

Table of Contents

Australian domestic markets. Rio Tinto Uranium supplies uranium oxide produced at its majority owned mines in Australia and Namibia to electric power utilities worldwide.

Exploration: Rio Tinto's exploration activities involve the identification, prioritization and testing of geological targets. Rio Tinto Exploration (RTX) is organized into regional multi-commodity teams. At the end of 2007, RTX was actively exploring in 30 countries and assessing opportunities in a further 20 countries for a broad range of commodities including bauxite, copper, coking coal, iron ore, industrial minerals, diamonds, nickel and uranium.

Technology and Innovation: The Rio Tinto Technology and Innovation group (T&I) develops leading practices and drives sustainable improvement in the areas of health, safety and environment (HSE), mining, processing, assets management, strategic production planning and project development and evaluation.

Business Resources: Business Resources comprises business services and communications and external relations.

The DLC Structure

Each of Rio Tinto plc and Rio Tinto Limited is the ultimate holding company of the companies within its respective group and its respective assets are substantially comprised of shares in such companies. Neither Rio Tinto plc nor Rio Tinto Limited conducts any other business and both are accordingly dependent on the other members of the Rio Tinto Group and revenues received from them.

In December 1995, the shareholders of each of Rio Tinto plc and Rio Tinto Limited approved the terms of a dual listed companies merger (the DLC merger) that was designed to place the shareholders of each of the companies in substantially the same position as if they held shares in a single enterprise. Following the approval of the DLC merger, each of Rio Tinto plc and Rio Tinto Limited entered into a DLC Merger Sharing Agreement (the Sharing Agreement). The Sharing Agreement ensured that the boards of directors of each of Rio Tinto plc and Rio Tinto Limited were identical and that their businesses are managed as a single enterprise. The Sharing Agreement provided for the ratio of dividend, voting and capital distribution rights attached to each Rio Tinto plc ordinary share and to each Rio Tinto Limited share to be fixed in an Equalization Ratio which has remained unchanged at 1:1. In principle, the Sharing Agreement provides for the public shareholders of Rio Tinto plc and Rio Tinto Limited to vote as a joint electorate on all matters which affect them in similar ways. However, the Sharing Agreement also provides for the protection of the public shareholders of each of the companies by treating the shares of each as if they were separate classes of shares issued by a single company.

Also in December 1995, each of Rio Tinto plc and Rio Tinto Limited entered into a Deed Poll Guarantee in favor of the creditors of the other. Pursuant to the Deed Poll Guarantees, each of Rio Tinto plc and Rio Tinto Limited guaranteed the contractual obligations of the other (and the obligations of other persons which are guaranteed by the other company), subject to certain limited exceptions. As a consequence of the Deed Poll Guarantees, holders of notes issued by Rio Tinto Finance (USA) Limited may make demand upon either Rio Tinto plc or Rio Tinto Limited.

The Alcan Acquisition

During 2007, the Rio Tinto Group acquired 100% of the issued share capital of Alcan Inc. The total cost of the acquisition amounted to U.S.\$38.7 billion, including fees. Alcan is the parent company of an international group of companies involved in bauxite mining, alumina refining, aluminium smelting, engineered products, flexible and specialty packaging, as well as related research and development. Rio Tinto intends to retain its focus on mining and metals activities through the divestment of Alcan's downstream Packaging and Engineered Products divisions.

Table of Contents

RIO TINTO FINANCE (USA) LIMITED

Rio Tinto Finance (USA) Limited (ABN 84 062 129 551), a corporation incorporated with limited liability in Australia, on October 19, 1993, under the Corporations Act 2001 is a wholly owned subsidiary of Rio Tinto Limited and is one of the finance companies through which the Rio Tinto Group conducts its treasury operations. We have access to surplus corporate funds which we invest in the money markets and raise finance from banks and third parties in the short, medium and long-term markets for on-lending to Rio Tinto Group companies. We also undertake foreign exchange and interest rate transactions as part of the Rio Tinto Group's long-term management of foreign currency and interest rate exposures. Our registered and principal executive office is located at 120 Collins Street, Melbourne, Victoria 3000, Australia.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

Set forth in the table below are the ratios of earnings to fixed charges of Rio Tinto in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS) for the periods indicated.

	Year Ended December 31,			
	2007	2006	2005	2004
Ratio of earnings to fixed charges	14.40	39.88	30.82	19.86

The ratio of earnings to fixed charges of Rio Tinto is computed by dividing the amount of its pre-tax earnings by the amount of its fixed charges. For the purposes of calculating the ratio, earnings is defined as pre-tax income from continuing operations before adjustments for minority interests, less (i) minority interests in pre-tax income of subsidiaries that have not incurred fixed charges; and (ii) share of profits after tax of equity accounted units, plus (i) fixed charges; (ii) distributed income of equity investees; and (iii) amortization of capitalized interest. Fixed charges consist of interest costs, both expensed and capitalized, and a reasonable approximation of the interest component of rental expense representative of the interest factor.

UNAUDITED PRO FORMA FINANCIAL INFORMATION

The following unaudited pro forma financial information presents the Rio Tinto Group as if Alcan had been acquired on January 1, 2007.

The unaudited pro forma financial information is based in part on the historical financial statements and notes thereto of Rio Tinto, which are incorporated by reference in this document. It should be read in conjunction with those historical financial statements and the notes thereto.

The unaudited pro forma financial information is for information purposes only. Because of its nature, it addresses a hypothetical situation and it is not intended to represent or to be indicative of the combined results of operations that Rio Tinto would have reported had the acquisition of Alcan been completed as of the dates described. It should not be relied upon as representative of the historical consolidated results of operations that would have been achieved, or the future consolidated results of operations that can be expected. The unaudited pro forma adjustments, described in the accompanying notes, are based on available information and certain assumptions that management believes are reasonable for the purposes of this document.

Alcan historical financial statements incorporated by reference in this prospectus are prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). Alcan's pre-acquisition income statement for the period from January 1, 2007 to October 23, 2007 included in the unaudited pro forma financial information has been prepared on a basis consistent in all material respects with the accounting policies of Rio Tinto in accordance with IFRS.

Table of Contents**Unaudited Pro Forma Income Statement**

	Rio Tinto	Year Ended December 31, 2007			Pro Forma Combined
		Alcan January 1- October 23, 2007)⁽²⁾	Pro Forma Adjustments	Note

Table of Contents

Notes to the Unaudited Pro Forma Income Statement

1 Pro forma adjustments to the income statement

(a) Net operating costs

The pro forma adjustment to net operating costs relates mainly to:

- (i) Additional depreciation and amortization charges on the fair value uplift to property, plant and equipment, and intangible assets as a result of the allocation of the purchase price of Alcan, assumed to be recorded as at January 1, 2007, which amounts to U.S.\$502 million pre-tax relating to depreciation and amortization in subsidiaries; and
- (ii) The non-recurring impact of U.S.\$590 million on pre-tax profit primarily relating to revaluing inventories on acquisition based on selling price, and directly attributable acquisition and integration costs, such as advisory and legal fees, and share-based compensation, incurred by both Rio Tinto and Alcan for the pre and post acquisition periods;

(b) Share of profit/(loss) after tax of equity accounted units

The pro forma adjustment to share of profit/(loss) after tax of equity accounted units relates to the Rio Tinto share of profit/(loss) after tax in its equity accounted units of the pro forma adjustments described in (a) above. Included in the pro forma adjustment of U.S.\$34 million is depreciation and amortization in Alcan's equity accounted units of U.S.\$40 million, comprising a pre-tax charge of U.S.\$58 million, partially offset by the tax effect of U.S.\$18 million.

(c) Interest payable

The pro forma adjustment to interest payable relates to:

- (i) Additional interest payable on the acquisition debt, based on the one-month LIBOR rate as at the acquisition date of October 23, 2007, of 4.8725%; and
- (ii) Additional interest payable on the portion of the U.S.\$40 billion credit facility that is being refinanced under this Offering.

The effect on net income of a 0.125% increase or decrease in interest rates would be to decrease or increase net income respectively by U.S.\$33.5 million per annum.

(d) Taxation

The pro forma adjustment to taxation relates to the tax effect applied to each of the pro forma adjustments described above, at the relevant statutory rates.

The adjustments described in paragraphs (a)(i), (c)(i) and (c)(ii) are expected to have a continuing impact on Rio Tinto, while the adjustment described in paragraph (a)(ii) is not expected to have any such continuing impact. Paragraph (b) describes the impact on equity accounted units of those adjustments described in paragraph (a). When applied to equity accounted units, the adjustment described in paragraph (a)(i) is expected to have a continuing impact, while the adjustment described in paragraph (a)(ii) is not expected to have any such continuing impact.

Paragraph (d) relates to the tax effect applied to the adjustments described in paragraphs (a) and (c), of which those adjustments set out in paragraph (a)(i) and (c) are expected to have a continuing impact.

2 Planned divestitures

Alcan's Packaging business group was classified as an asset held for sale at December 31, 2007. The results of operations for the Packaging business group are not reflected in the pro forma income statement. Options are being explored for the sale of Alcan's Engineered Products business group. However, Engineered Products did not qualify for presentation as an asset held for sale at December 31, 2007.

Table of Contents

USE OF PROCEEDS

The net proceeds from the sale of the guaranteed debt securities offered will be added to the general funds of Rio Tinto, unless we state otherwise in a prospectus supplement.

Table of Contents

DESCRIPTION OF GUARANTEED DEBT SECURITIES

This prospectus relates to guaranteed debt securities issued by Rio Tinto Finance (USA) Limited. As required by federal law of the United States for all bonds and notes of companies that are publicly offered, the debt securities are governed by a document called an indenture. The indenture relating to debt securities issued by Rio Tinto Finance (USA) Limited is a contract among Rio Tinto Finance (USA) Limited, Rio Tinto plc, Rio Tinto Limited and The Bank of New York (as successor to JPMorgan Chase Bank, formerly The Chase Manhattan Bank).

General

The Bank of New York (as successor to JPMorgan Chase Bank, formerly The Chase Manhattan Bank) acts as the trustee under the indenture. The trustee has two principal functions:

First, it can enforce the rights of holders of the debt securities against us or Rio Tinto if we or Rio Tinto default on debt securities issued under the indenture. There are some limitations on the extent to which the trustee acts on behalf of holders of the debt securities, described under [Default and Related Matters](#) [Events of Default](#) [Remedies If an Event of Default Occurs](#) below; and

Second, the trustee performs administrative duties for us, such as sending interest payments to holders, transferring debt securities to new buyers and sending notices to holders.

Both Rio Tinto plc and Rio Tinto Limited act as the guarantors of the debt securities issued under the indenture. The guarantees are described under [Guarantees](#) below.

The indenture and its associated documents contain the full legal text of the matters described in this section. The indenture, the debt securities and the guarantees are governed by New York law. A copy of the form of indenture is filed with the SEC as an exhibit to the registration statement. See [Where You Can Find More Information](#) for information on how to obtain a copy.

Rio Tinto Finance (USA) Limited may issue as many distinct series of debt securities under the indenture as it wishes. This section summarizes all material terms of the debt securities and the guarantees that are common to all series, unless otherwise indicated in the prospectus supplement relating to a particular series.

Because this section is a summary, it does not describe every aspect of the debt securities or the guarantees. This summary is subject to, and qualified in its entirety by reference to, all the provisions of the indenture, including some of the terms used in the indenture. We describe the meaning for only the more important terms. We also include references in parentheses to some sections of the indenture. Whenever we refer to particular sections or defined terms of the indenture in this prospectus or in the prospectus supplement, those sections or defined terms are incorporated by reference in this prospectus or in the prospectus supplement. This summary also is subject to and qualified by reference to the description of the particular terms of the series of debt securities described in the prospectus supplement.

In addition, the specific financial, legal and other terms particular to a series of debt securities are described in the prospectus supplement and the pricing agreement relating to the series. Those terms may vary from the terms described here. Accordingly, this summary also is subject to and qualified by reference to the description of the terms of the series of debt securities described in the prospectus supplement.

The prospectus supplement relating to a series of debt securities will describe the following terms of the series:

the title of the series of debt securities;

any limit on the aggregate principal amount of the series of debt securities;

any stock exchange on which we will list the series of debt securities;

the date or dates on which we will pay the principal of the series of debt securities;

Table of Contents

the rate or rates, which may be fixed or variable, per annum at which the series of debt securities will bear interest, if any, and the date or dates from which that interest, if any, will accrue;

the dates on which interest, if any, on the series of debt securities will be payable and the regular record dates for the interest payment dates;

any mandatory or optional sinking funds or analogous provisions or provisions for redemption at the option of the holder;

the date, if any, after which and the price or prices at which the series of debt securities may, in accordance with any optional or mandatory redemption provisions that are not described in this prospectus, be redeemed and the other detailed terms and provisions of those optional or mandatory redemption provisions, if any;

the denominations in which the series of debt securities will be issuable;

the currency of payment of principal, premium, if any, and interest on the series of debt securities if other than the currency of the United States of America and the manner of determining the equivalent amount in the currency of the United States of America;

any index used to determine the amount of payment of principal of, premium, if any, and interest on the series of debt securities;

the applicability of the provisions described later under Restrictive Covenants Defeasance and Discharge ;

if the series of debt securities will be issuable in whole or part in the form of a global security as described under Legal Ownership Global Securities , and the depositary or its nominee with respect to the series of debt securities, and any special circumstances under which the global security may be registered for transfer or exchange in the name of a person other than the depositary or its nominee; and

any other special features of the series of debt securities.

We may issue the debt securities as original issue discount securities, which are debt securities that are offered and sold at a material discount to their stated principal amount (*Section 101 of the Indenture*). The prospectus supplement relating to original issue discount securities will describe United States federal income tax consequences and other special considerations applicable to them. The debt securities may also be issued as indexed securities or securities denominated in foreign currencies or currency units, as described in more detail in the prospectus supplement relating to any such debt securities.

Guarantees

Both Rio Tinto plc and Rio Tinto Limited will fully and unconditionally guarantee the payment of the principal of, premium, if any, and interest on the debt securities, including any additional amounts which may be payable in respect of the debt securities, as described under Special Situations Payment of Additional Amounts . Rio Tinto plc and Rio Tinto Limited guarantee the payment of such amounts when such amounts become due and payable, whether at the stated maturity of the debt securities, by declaration or acceleration, call for redemption or otherwise. Each of Rio Tinto plc and Rio Tinto Limited is individually obligated to pay such amounts.

Legal Ownership

Street Name and Other Indirect Holders

Investors who hold debt securities in accounts at banks or brokers will generally not be recognized by us as legal holders of debt securities. This is called holding in street name. Instead, we would recognize only the bank or broker, or the financial institution the bank or broker uses to hold its debt securities. These intermediary banks, brokers and other financial institutions pass along principal, interest and other payments

Table of Contents

on the debt securities, either because they agree to do so in their customer agreements or because they are legally required to do so. Holders of debt securities who hold in street name should check with their institutions to find out:

how it handles payments in respect of the debt securities and notices;

whether it imposes fees or charges;

how it would handle voting if it were ever required;

whether and how holders can instruct it to send their debt securities, registered in their own names so they can be direct holders as described below; and

how it would pursue rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests.

Direct Holders

Our obligations, as well as the obligations of the trustee and those of any third parties employed by us or the trustee, run only to persons who are registered as holders of debt securities. As noted above, we do not have obligations to holders who hold in street name or other indirect means, either because such holders choose to hold debt securities in that manner or because the debt securities are issued in the form of global securities as described below. For example, once we make payment to the registered holder, we have no further responsibility for the payment even if that holder is legally required to pass the payment along to the street name customer but does not do so.

Global Securities

What is a Global Security? A global security is a special type of indirectly held security, as described above under *Street Name and Other Indirect Holders* . If we choose to issue debt securities in the form of global securities, the ultimate beneficial owners can only be indirect holders.

We require that the global security be registered in the name of a financial institution we select. In addition, we require that the debt securities included in the global security not be transferred to the name of any other direct holder unless the special circumstances described below occur. The financial institution that acts as the sole direct holder of the global security is called the depositary. Any person wishing to own a security must do so indirectly by virtue of an account with a broker, bank or other financial institution that in turn has an account with the depositary. The prospectus supplement indicates whether a particular series of debt securities will be issued only in the form of global securities.

Special Investor Considerations for Global Securities. As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depositary, as well as general laws relating to securities transfers. We do not recognize this type of investor as a holder of debt securities and instead deal only with the depositary that holds the global security.

Investors in debt securities that are issued only in the form of global debt securities should be aware that:

They cannot get debt securities registered in their own names.

They cannot receive physical certificates for their interests in the debt securities.

They will be street name holders and must look to their own banks or brokers for payments on the debt securities and protection of their legal rights relating to the debt securities, as explained earlier under Legal Ownership Street Name and Other Indirect Holders .

They may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their debt securities in the form of physical certificates.

The depositary s policies will govern payments, transfers, exchange and other matters relating to holders interests in the global security. We and the trustee have no responsibility for any aspect of the

Table of Contents

depository's actions or for its records of ownership interests in the global security. We and the trustee also do not supervise the depository in any way.

The depository will require that interests in a global security be purchased or sold within its system using same-day funds.

Special Situations When Global Security Will Be Terminated. In a few special situations described later, the global security will terminate and interests in it will be exchanged for physical certificates representing debt securities. After that exchange, the choice of whether to hold debt securities directly or in street name will be up to the investor. Investors must consult their own bank or brokers to find out how to have their interests in debt securities transferred to their own name so that they will be direct holders. The rights of street name investors and direct holders in the debt securities have been previously described in the subsections entitled "Legal Ownership - Street Name and Other Indirect Holders" and "Direct Holders".

The special situations for termination of a global security are:

When the depository notifies us or Rio Tinto that it is unwilling, unable or no longer qualified to continue as depository.

When an event of default on the debt securities has occurred and has not been cured. Defaults are discussed below under "Default and Related Matters - Events of Default".

The prospectus supplement may also list additional situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. When a global security terminates, the depository (and not we or the trustee) is responsible for deciding the names of the institutions that will be the initial direct holders. (*Sections 305 and 206*)

Overview of Remainder of this Description

The remainder of this description summarizes:

Additional mechanics relevant to the debt securities under normal circumstances, such as how to transfer ownership and where we make payments.

Holders' rights under several ***special situations***, such as if we merge with another company, if we want to change a term of the debt securities or if we want to redeem the debt securities for tax reasons.

Holders' rights to receive ***payment of additional amounts*** due to changes in the withholding requirements of various jurisdictions.

Covenants contained in the indenture that restrict our and Rio Tinto's ability to incur liens. A particular series of debt securities may have additional covenants.

Holders' rights if we or Rio Tinto ***default*** in respect of our or Rio Tinto's obligations under the debt securities or experience other financial difficulties.

Our relationship with the ***trustee***.

Additional Mechanics

Exchange and Transfer

The debt securities will be issued:

only in fully registered form;

without interest coupons; and

unless indicated in the applicable prospectus supplement, in denominations that are even multiples of U.S.\$1,000.

Table of Contents

Holders may have their debt securities broken into more debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. *(Section 305)* This is called an exchange.

Holders may exchange or transfer their debt securities at the office of the trustee. The trustee acts as our agent for registering debt securities in the names of holders and transferring the securities. We may change this appointment to another entity or perform the service ourselves. The entity performing the role of maintaining the list of registered holders is called the security registrar. It will also register transfers of the debt securities. *(Section 305)*

Holders will not be required to pay a service charge to transfer or exchange debt securities, but may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange of a registered debt security will only be made if the security registrar is satisfied with a holder's proof of ownership.

If we have designated additional transfer agents, they are named in the prospectus supplement. We may cancel the designation of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts. *(Section 1002)*

If the debt securities are redeemable and we redeem less than all of the debt securities of a particular series, we may block the transfer or exchange of debt securities during a specified period of time in order to freeze the list of holders to prepare the mailing. The period begins 15 days before the day we mail the notice of redemption and ends on the day of that mailing. We may also refuse to register transfers or exchanges of debt securities selected for redemption. However, we will continue to permit transfers and exchanges of the unredeemed portion of any security being partially redeemed. *(Section 305)*

Payment and Paying Agents

We will pay interest to holders who are direct holders listed in the trustee's records at the close of business on a particular day in advance of each due date for interest, even if such holders no longer own the security on the interest due date. That particular day, usually about two weeks in advance of the interest due date, is called the regular record date and is stated in the prospectus supplement. *(Section 307)*

We will pay interest, principal and any other money due on your debt securities at the corporate trust office of the trustee in New York City. That office is currently located at 101 Barclay Street, New York, NY 10286. Holders must make arrangements to have payments picked up at or wired from that office. We may also choose to pay interest by mailing checks.

Interest on global securities will be paid to the holder thereof by wire transfer of same-day funds.

Holders buying and selling debt securities must work out between them how to compensate for the fact that we will pay all the interest for an interest period to, in the case of registered debt securities, the one who is the registered holder on the regular record date. The most common manner is to adjust the sales price of the debt securities to prorate interest fairly between buyer and seller. This prorated interest amount is called accrued interest.

Street name and other indirect holders should consult their banks or brokers for information on how they will receive payments.

We or Rio Tinto may also arrange for additional payment offices, and may cancel or change these offices, including our or Rio Tinto's use of the trustee's corporate trust office. These offices are called paying agents. We may also choose

to act as our own paying agent. We must notify holders of changes in the paying agents for any particular series of debt securities. (*Section 1002*)

Notices

We and the trustee will send notices only to direct holders, using their addresses as listed in the trustee's records. (*Sections 101 and 106*)

Table of Contents

Regardless of who acts as paying agent, all money that we pay to a paying agent that remains unclaimed at the end of two years after the amount is due to direct holders will be repaid to us. After that two-year period, holders may look only to us for payment and not to the trustee, any other paying agent or anyone else. (*Section 1003*)

Special Situations

Mergers and Similar Events

We, Rio Tinto plc and Rio Tinto Limited are generally permitted to consolidate or merge with another entity. We, Rio Tinto plc and Rio Tinto Limited are also permitted to sell or lease substantially all of our assets to another entity or to buy or lease substantially all of the assets of another entity. However, Rio Tinto Finance (USA) Limited may only take these actions if the successor entity is incorporated or organized under the laws of Australia, any state thereof, or the United States, any state thereof, or the District of Columbia. In addition, neither we, Rio Tinto plc nor Rio Tinto Limited may take any of these actions unless all the following conditions are met:

Where Rio Tinto Finance (USA) Limited, Rio Tinto plc or Rio Tinto Limited merges out of existence or sells or leases substantially all its assets, the successor entity must be duly organized and validly existing under the laws of the applicable jurisdiction.

If such successor entity is organized under the laws of a jurisdiction other than Australia, the United Kingdom, or the United States, any state thereof, or the District of Columbia, it must indemnify holders against any governmental charge or other cost resulting from the transaction.

Neither we, Rio Tinto plc nor Rio Tinto Limited may be in default on the debt securities or guarantees immediately prior to such action and such action must not cause a default. For purposes of this no-default test, a default would include an event of default that has occurred and not been cured, as described under [Default and Related Matters](#) [Events of Default](#) [What is An Event of Default?](#) A default for this purpose would also include any event that would be an event of default if the requirements for notice of default or existence of defaults for a specified period of time were disregarded.

If we, Rio Tinto plc or Rio Tinto Limited merges out of existence or sells or leases substantially all of our or their assets, the successor entity must execute a supplement to the indenture, known as a supplemental indenture. In the supplemental indenture, the entity must promise to be bound by every obligation in the indenture applicable to Rio Tinto Finance (USA) Limited, Rio Tinto plc or Rio Tinto Limited, as the case may be.

We, Rio Tinto plc or Rio Tinto Limited, as the case may be, must deliver a certificate and an opinion of counsel to the trustee, each stating that the consolidation, merger, conveyance, transfer or lease, and, if applicable, the supplemental indenture pursuant to which the successor entity assumes our obligations or the obligations of Rio Tinto plc or Rio Tinto Limited, are in compliance with the indenture.

Neither our nor Rio Tinto's assets or properties may become subject to any impermissible lien unless the debt securities issued under the indenture are secured equally and ratably with the indebtedness secured by the impermissible lien. Impermissible liens are described in further detail below under [Restrictive Covenants](#) [Restrictions on Liens](#) .

Under the indenture, Rio Tinto or any Rio Tinto subsidiary may assume our obligations under the debt securities. This would likely be a taxable event to United States holders. United States holders would likely be treated as having

exchanged their debt securities for other debt securities issued by Rio Tinto or such subsidiary and therefore may have to recognize gain or loss for United States federal income tax purposes upon such assumption.

Modification and Waiver

There are three types of changes we can make to the indenture and the debt securities.

Table of Contents

Changes Requiring the Approval of all Holders. First, there are changes that cannot be made to the debt securities without the specific approval of each holder of the debt securities of the applicable series. Following is a list of those types of changes:

Changes to the stated maturity of the principal or the interest payment dates on a debt security;

any reduction in amounts due on a debt security;

changes to any of our or Rio Tinto's obligations to pay additional amounts described later under Special Situations Payment of Additional Amounts ;

any reduction in the amount of principal payable upon acceleration of the maturity of a debt security following a default;

changes in the place or currency of payment on a debt security;

any impairment of holders' right to sue for payment;

any reduction in the percentage of holders of debt securities whose consent is needed to modify or amend the indenture;

any reduction in the percentage of holders of debt securities whose consent is needed to waive compliance with various provisions of the indenture or to waive various defaults; and

any modification, in any manner adverse to the holders of the debt securities, to the obligations of Rio Tinto plc or Rio Tinto Limited in respect of the payment of principal, premium, if any, and interest, if any. (*Section 901*)

Changes Requiring a Majority Vote. The second type of change to the indenture and the debt securities is the kind that requires a vote in favor by holders of debt securities owning a majority of the principal amount of the particular series affected. Most changes fall into this category, except for clarifying changes, amendments, supplements and other changes that would not adversely affect holders of the debt securities in any material respect. The same vote would be required for us to obtain a waiver of all or part of the covenants described below or a waiver of a past default. However, we cannot obtain a waiver of a payment default or any other aspect of the indenture or the debt securities listed in the first category described previously under Changes Requiring the Approval of all Holders unless we obtain the individual consent of each holder to the waiver. (*Section 513*)

Changes Not Requiring Approval. The third type of change does not require any vote by holders of debt securities. This type is limited to clarifications and other changes that would not adversely affect holders of the debt securities in any material respect. (*Section 901*)

Further Details Concerning Voting. When taking a vote, we will use the following rules to decide how much principal amount to attribute to a security:

For original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of the debt securities were accelerated to that date because of a default.

For debt securities whose principal amount is not known (for example, because it is based on an index), we will use a special rule for that security described in the prospectus supplement.

For debt securities denominated in one or more foreign currencies or currency units, we will use the United States dollar equivalent.

Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have deposited or set aside in trust money for their payment or redemption. Debt securities will also not be eligible to vote if they have been fully defeased as described later under Restrictive Covenants Defeasance and Discharge .
(Section 101)

Table of Contents

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding debt securities that are entitled to vote or take other action under the indenture. In limited circumstances, the trustee will be entitled to set a record date for action by holders. If we or the trustee set a record date for a vote or other action to be taken by holders of a particular series, that vote or action may be taken only by persons who are holders of outstanding debt securities of that series on the record date and must be taken within 180 days following the record date or another period that we may specify (or as the trustee may specify, if it set the record date). We may shorten or lengthen (but not beyond 180 days) this period from time to time. (*Section 104*)

Street name and other indirect holders should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or request a waiver.

Optional Tax Redemption

The debt securities of any series may be redeemed in whole but not in part, in the three situations described below. The redemption price for the debt securities will be equal to the principal amount of the debt securities being redeemed plus accrued interest and any additional amounts due on the date fixed for redemption. Holders must receive between 30 and 60 days' notice before their debt securities are redeemed.

The first situation is where, as a result of a change in or amendment to any laws, regulations or rulings or the official application or interpretation of such laws, regulations or rulings, any of us, Rio Tinto plc or Rio Tinto Limited determines that it would be required to pay additional amounts as described later under Payment of Additional Amounts .

The second situation is where, as a result of a change in or amendment to any laws, rulings or regulations or the official application or interpretation of such laws, rulings or regulations, Rio Tinto plc or Rio Tinto Limited or any subsidiary of either of them determines that it would have to deduct or withhold tax on any payment to Rio Tinto Finance (USA) Limited to enable it to make a payment of principal or interest on a debt security.

In the first and second situations, the option to redeem the debt securities applies only in the case of changes or amendments that occur on or after the date specified in the prospectus supplement for the applicable series of debt securities and in the jurisdiction where Rio Tinto plc and Rio Tinto Limited are incorporated. If we, Rio Tinto plc or Rio Tinto Limited, as the case may be, have been succeeded by another entity, the applicable jurisdiction will be the jurisdiction in which such successor entity is organized, and the applicable date will be the date the entity became a successor.

In addition, in the case of the first and second situations, we, Rio Tinto plc or Rio Tinto Limited will not have the option to redeem if we could have avoided the payment of additional amounts or the deduction or withholding by using reasonable measures available to us.

The third situation is where, following a merger or consolidation of Rio Tinto plc or Rio Tinto Limited or a transfer or lease of all of Rio Tinto plc's or Rio Tinto Limited's assets, the person formed by such merger, consolidation, transfer or lease is organized under the laws of a jurisdiction other than the United States, the United Kingdom or Australia, or any political subdivisions thereof, and is required to pay additional amounts as described under Payment of Additional Amounts .

We, Rio Tinto plc or Rio Tinto Limited shall deliver to the trustee an Officer's Certificate to the effect that the circumstances required for redemption exist. (*Sections 1104 and 1108*).

Payment of Additional Amounts

If the debt securities of any series provide for the payment of additional amounts, all payments of principal, premium (if any) and interest in respect of the debt securities or the guarantees will be made free and clear of, and without withholding or deduction for, any taxes, assessments, duties or governmental charges or whatever nature imposed, levied or collected by or within a Relevant Taxing Jurisdiction unless that withholding or deduction is required by law. A Relevant Taxing Jurisdiction is any jurisdiction under the laws

Table of Contents

of which we, Rio Tinto plc or Rio Tinto Limited, as the case may be, or any successor entity, are or is organized (or any political subdivision or taxing authority of or in that jurisdiction having power to tax).

The indenture provides that if withholding or deduction is required by law, then we, Rio Tinto plc or Rio Tinto Limited, as the case may be, will pay to the holder of any debt security additional amounts as may be necessary in order that every net payment of principal of (and premium, if any, on) and interest, if any, on that debt security after deduction or other withholding for or on account of any present or future tax, assessment, duty or other governmental charge of any nature whatsoever imposed, levied or collected by or on behalf of a Relevant Taxing Jurisdiction, will not be less than the amount that would have been payable on that debt security in the absence of such deduction or withholding. However, we, Rio Tinto plc or Rio Tinto Limited, as the case may be, will not be required to make any payment of additional amounts in respect of taxes imposed as a result of any of the following circumstances:

If the holder is a United States person and the United States government or any political subdivision of the United States government is the entity that is imposing the tax or governmental charge. For this purpose, a United States person is any person who, for United States federal income tax purposes, is a citizen or resident, a domestic corporation, an estate whose income is subject to taxation regardless of its source, or a trust if a United States court can exercise supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

The payment of additional amounts is for a tax or charge imposed only because the holder, or a fiduciary, settlor, beneficiary or member or shareholder of, or possessor of a power over, the holder, if the holder is an estate, trust, partnership or corporation, was or is connected to the Relevant Taxing Jurisdiction. These connections include where the holder or related party:

is or has been a citizen or resident of the jurisdiction;

is or has been engaged in trade or business in the jurisdiction; or

has or had a permanent establishment in the jurisdiction.

The payment of additional amounts is for a tax or charge imposed due to the presentation of a debt security, if presentation is required, for payment on a date more than 30 days after the security became due or after the payment was provided for.

The payment of additional amounts is on account of an estate, inheritance, gift, sale, transfer, personal property or similar tax or other governmental charge.

The payment of additional amounts is for a tax or governmental charge that is payable in a manner that does not involve withholdings.

The payment of additional amounts is for a tax imposed or withheld because the holder or beneficial owner failed to comply with any of our or Rio Tinto's requests for the following that the statutes, treaties, regulations or administrative practices of the Relevant Taxing Jurisdiction require as a precondition to exemption from all or part of such withholding:

to provide information about the nationality, residence or identity of the holder or beneficial owner; or

to make a declaration or satisfy any information requirements.

In the case of a payment made by Rio Tinto plc under its guarantees, the payment of additional amounts results from the security being presented for payment, where presentation is required, in the United Kingdom unless presentation could not have been made elsewhere.

The payment of additional amounts is for any withholding or deduction imposed on a payment to an individual which is required to be made pursuant to any law implementing European Directive 2003/48/EC on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such directive.

Table of Contents

The payment of additional amounts is for any withholding or deduction required to be made with respect to a debt security presented for payment, where presentation is required, by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant debt security to another paying agent in a member state of the European Union.

The holder of a debt security is our associate (as that term is defined in the Australian tax legislation (the Australian Tax Act)) and, as a result, the Australian Tax Act requires withholding tax to be paid on the interest or amounts in the nature of interest payable on the debt security.

A determination is made under the Australian Tax Act that withholding tax is payable because the holder has participated in a scheme to avoid withholding tax provided that neither we nor Rio Tinto participated in the scheme.

The holder is a fiduciary or partnership or an entity that is not the sole beneficial owner of the payment of the principal of, or any interest on, any security, and the laws of the Relevant Taxing Jurisdiction require the payment to be included in the income of a beneficiary or settlor for tax purposes with respect to such fiduciary or a member of such partnership or a beneficial owner who would not have been entitled to such additional amounts had it been the holder of such security.

These provisions will also apply to any taxes or governmental charges imposed by any jurisdiction in which a successor to us or Rio Tinto is incorporated. The prospectus supplement relating to the debt securities will describe whether additional amounts are payable with respect to that series of securities and if so, may describe additional circumstances in which we would not be required to pay additional amounts.

Additional amounts may also be payable in the event of certain consolidations, mergers, sales of assets or assumptions of obligations. For more information see *Optional Tax Redemption and Taxation*. References to principal, premium and interest in this prospectus shall be deemed to include additional amounts payable with respect thereto.

Restrictive Covenants

Restrictions on Liens

Some of our or Rio Tinto's property may be subject to a mortgage or other legal mechanism that gives our and Rio Tinto's lenders preferential rights in that property over other lenders, including the holders of the debt securities, or over our and Rio Tinto's general creditors if we fail to pay them back. These preferential rights are called liens. We promise that we will not become obligated on any new debt for borrowed money that is secured by a lien on any of our or Rio Tinto's properties, unless we or Rio Tinto grant an equivalent or higher-ranking lien on the same property to the holders of the debt securities.

Neither we nor Rio Tinto need to comply with this restriction if the amount of all debt that would be secured by liens on our or Rio Tinto's properties, excluding the debt secured by the liens that are listed below, is less than 10% of Rio Tinto's consolidated net worth plus minorities. Consolidated net worth plus minorities is defined in the indenture as a measure of the net worth of Rio Tinto that includes amounts attributable to the outside interests in the accounting subsidiaries of Rio Tinto. (*Sections 101 and 1007*) At the date of this prospectus, a substantial portion of the consolidated assets of Rio Tinto is held by their subsidiaries and thus would not be subject to this restriction on liens.

This restriction on liens applies only to liens for borrowed money. In addition, this restriction on liens also does not apply to debt secured by a number of different types of liens. These types of liens include the following:

any lien existing on or before the date of the issuance of the applicable series of debt securities;

any lien arising by operation of law and not as a result of any act or omission on our or Rio Tinto's part;

liens arising from any judgment against us or Rio Tinto that does not give rise to an event of default;

Table of Contents

any lien created on property (or the title documents for that property) acquired after the date of the issuance of the applicable series of debt securities for the sole purpose of financing or refinancing or securing the cost of that property so long as the principal moneys secured by the property do not exceed the cost of that acquisition;

any lien over property (or the title documents for that property) that was in existence at the time we or Rio Tinto acquired the property;

any lien over assets and/or, where such assets comprise substantially the whole of the assets of their owner, shares or stock in the owner of those assets that secures project finance borrowing to finance the costs of developing, or acquiring and developing, those assets;

any lien over property, including improvements, which was developed, constructed or improved by us or Rio Tinto, acquired after the date of the issuance of the applicable series of debt securities,

to secure the payment of all or any part of the cost of development or construction of or improvement on the property, or

to secure indebtedness incurred by us or Rio Tinto for the purpose of financing all or any part of the cost of development or construction or of improvements on the property,

so long as the secured indebtedness does not exceed the higher of the cost or the fair market value of that development, construction or improvement;

any lien arising solely by operation of law over any credit balance or cash held in an account with a financial institution;

any lien arising in transactions entered into or established for our or Rio Tinto's benefit in connection with any of the following:

the operation of cash management programs;

other payment netting arrangements;

derivatives transactions (including swaps, caps, collars, options, futures transactions, forward rate agreements and foreign exchange transactions and any other similar transaction (including any option with respect to any of the foregoing) and any combination of any of the foregoing);

other normal banking transactions; or

in the ordinary course of letter of credit transactions;

any lien securing our or Rio Tinto's indebtedness for borrowed money incurred in connection with the financing of our or Rio Tinto's accounts receivable;

any lien arising in the ordinary course of dealings in base and precious metals, other minerals, petroleum or any other materials;

any lien incurred or deposits made in the ordinary course of business, including, but not limited to;

any mechanics , materialmen s, carriers , workmen s, vendors or similar lien;

any lien securing amounts in connection with workers compensation unemployment insurance and other types of social security; and

any easements, right-of-way, restrictions and other similar charges;

any lien securing all or part of our or Rio Tinto s interest in any mine or mineral deposit and/or facilities and/or any agreement or instrument relating to a mine or mineral deposit that is in favor of any operator or participant in that mine, mineral deposit or facility if

the lien serves as security for any sum which may become due to

an operator in its capacity as operator; or

Table of Contents

to a participant by virtue of any agreement or instrument relating to such mine or mineral deposit and/or facilities; and

the lien is limited to the relevant mine or mineral deposit and/or facilities;

any lien upon specific items of our or Rio Tinto's inventory or other goods, and proceeds inventory or other goods, securing our or Rio Tinto's obligations relating to bankers' acceptances, issued or created for our or Rio Tinto's account to facilitate the purchase, shipment or storage of the inventory or other goods;

any lien incurred or deposits made securing our or Rio Tinto's performance of tenders, bids, leases, statutory obligations, surety and appeal bonds, government contracts, performance and return-of-money bonds and other obligations of like nature incurred in the ordinary course of our or Rio Tinto's business;

any lien on any of our or Rio Tinto's property in favor of the Federal Government of the United States or the government of any state thereof, or the government of Australia or the government of any state or territory thereof, the United Kingdom, or the government of any member nation of the European Union, or any instrumentality of any of them, securing our or Rio Tinto's obligations under any contract or payments owed to such entity pursuant to applicable laws, rules, regulations or statutes;

any liens securing taxes or assessments or other applicable governmental charges or levies;

any liens securing industrial revenue, development or similar bonds issued by us or Rio Tinto, or for our or Rio Tinto's benefit, provided that the industrial revenue, development or similar bonds are non-recourse to us or Rio Tinto;

the sale or other transfer of

any minerals in place, or for the future production of minerals, for a specified period of time or in any amount such that, the purchaser will realize from such sale or transfer a specified amount of money or minerals; or

any other interest in property that is commonly referred to as a production payment ;

any liens in favor of any company in the Rio Tinto Group;

any liens securing indebtedness for which we or Rio Tinto have paid money or deposited securities in an arrangement to discharge in full any liability relating to that indebtedness; and

any extension, renewal or replacement (or successive extensions, renewals or replacements), as a whole or in part, of any lien referred to above, so long as

the amount does not exceed the principal amount of the borrowed money secured by the lien which is to be extended, renewed or replaced; and

the extension, renewal or replacement lien is limited to all or a part of the same property, including improvements, that secured the lien to be extended, renewed or replaced. (*Section 1007*)

Under the indenture, the following are not considered liens securing indebtedness and so are not prevented by the restrictions:

any acquisition of any property or assets by us or Rio Tinto that is subject to any reservation that creates or reserves for the seller an interest in any metals or minerals in place or the proceeds from their sale;

any conveyance or assignment in which we or Rio Tinto convey or assign an interest in any metals or minerals in place or the proceeds from their sale; or

any lien upon any of our or Rio Tinto's wholly or partially owned or leased property or assets, to secure the payment of our or Rio Tinto's proportionate part of the development or operating expenses in realizing the metal or mineral resources of such property.

Table of Contents

Restrictions on Sales and Leasebacks

Neither we, Rio Tinto nor Rio Tinto Limited will enter into any sale and leaseback transaction involving a property, other than as allowed by this covenant. A sale and leaseback transaction is an arrangement between us or Rio Tinto and a bank, insurance company or other lender or investor where we lease a property that we previously owned for more than 270 days and sold to a lender or investor or to any person to whom the lender or investor has advanced funds on the security of the principal property.

The restriction on sales and leasebacks does not apply to any sale and leaseback transaction between any companies of the Rio Tinto Group. It also does not apply to any lease with a term, including renewals, of three years or less. Further, the indenture does not restrict the ability of any subsidiary (other than Rio Tinto Finance (USA) Limited) to enter into sale and leaseback transactions. At the date of this prospectus, a substantial portion of our and Rio Tinto's consolidated assets is held directly by subsidiaries and so would not be subject to the covenant restricting sale and leaseback transactions.

The covenant allows us or Rio Tinto to enter into sale and leaseback transactions in two additional situations. First, we or Rio Tinto may enter sale and leaseback transactions if we could grant a lien on the property in an amount equal to the indebtedness attributable to the sale and leaseback transaction without being required to grant an equivalent or higher-ranking lien to the holders of the debt securities under the restriction on liens described above.

Second, we or Rio Tinto may enter sales and leaseback transactions if, within one year of the transaction, we or Rio Tinto, as the case may be, invest an amount equal to at least the net proceeds of the sale of the principal property that we or Rio Tinto, as the case may be, lease in the transaction or the fair value of that property, whichever is greater. This amount must be invested in any of our or Rio Tinto's property or used to retire indebtedness for money that we borrowed, incurred or assumed that either has a maturity of 12 months or more from the date of incurrence of the indebtedness or which may be extended beyond 12 months from that date at our and Rio Tinto's option. (*Section 1008*)

Defeasance and Covenant Defeasance

The following discussion of defeasance and discharge will be applicable to a series of debt securities only if the prospectus supplement applicable to the series so states. (Article 13).

Defeasance and Discharge

We, Rio Tinto plc and Rio Tinto Limited can legally release ourselves from any payment or other obligations on the debt securities, except for various obligations described below, if we, Rio Tinto plc or Rio Tinto Limited, in addition to other actions, put in place the following arrangements for you to be repaid:

We, Rio Tinto plc or Rio Tinto Limited must deposit in trust for the benefit of all other direct holders of the debt securities a combination of money and United States government or United States government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.

We, Rio Tinto plc or Rio Tinto Limited must deliver to the trustee a legal opinion of counsel of recognized standing with respect to such matters confirming that either (A) there has been a change in United States federal income tax law or (B) we have received from, or there has been published by, the United States Internal Revenue Service a ruling in each case to the effect that we may make the above deposit without causing holders to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the

debt securities ourselves.

However, even if we, Rio Tinto plc or Rio Tinto Limited take these actions, a number of our obligations relating to the debt securities will remain. These include the following obligations:

to register the transfer and exchange of debt securities;

to replace mutilated, destroyed, lost or stolen debt securities;

Table of Contents

to maintain paying agencies; and

to hold money for payment in trust.

Covenant Defeasance

We, Rio Tinto plc or Rio Tinto Limited can be legally released from compliance with certain covenants, including those described under **Restrictive Covenants** and any that may be described in the applicable prospectus supplement and including the related Events of Default if we, Rio Tinto plc or Rio Tinto Limited, as the case may be, take all the steps described above under **Defeasance and Discharge** except that the opinion of counsel does not have to refer to a change in United States Federal income tax laws or a ruling from the United States Internal Revenue Service.

Default and Related Matters

Ranking

The debt securities are not secured by any of our property or assets nor Rio Tinto's property or assets. Accordingly, holders of debt securities are unsecured creditors of Rio Tinto. The debt securities are not subordinated to any of our or Rio Tinto's other debt obligations and therefore they rank equally with all our and Rio Tinto's other unsecured and unsubordinated indebtedness.

Events of Default

Holders will have special rights if an event of default occurs and is not cured, as described later in this subsection.

What Is An Event of Default? The term event of default means any of the following:

Neither we, Rio Tinto plc nor Rio Tinto Limited pay the principal or any premium on a debt security and, in the case of technical or administrative difficulties, only if such failure to pay persists for more than three business days. As used here, a business day is a week day on which financial institutions in New York and the applicable place of payment are open for business.

Neither we, Rio Tinto plc nor Rio Tinto Limited pay interest or any additional amounts on a debt security within 30 days of its due date.

Neither we, Rio Tinto plc nor Rio Tinto Limited make a deposit of any applicable sinking fund payment within 30 days of its due date, or any applicable longer period of grace.

We, Rio Tinto plc or Rio Tinto Limited remain in breach of a covenant or any other term of the indenture or series of debt securities for 90 days after we, Rio Tinto plc or Rio Tinto Limited, as the case may be, receive a notice of default stating we, Rio Tinto plc or Rio Tinto Limited are in breach. The notice must be sent by either the trustee or holders of 25% of the principal amount of debt securities of the affected series.

We, Rio Tinto plc or Rio Tinto Limited file for bankruptcy or certain other events in bankruptcy, insolvency or reorganization occur, unless, in the case of Rio Tinto plc or Rio Tinto Limited, the reorganization is a voluntary winding up carried out in accordance with English or Australian statutory requirements as applicable and which results in a legal entity that is liable under the guarantees, and which owns the assets of Rio Tinto plc or Rio Tinto Limited, respectively.

Our or Rio Tinto's other borrowings in principal amount of at least U.S.\$50,000,000 are accelerated by reason of a default and steps are taken to obtain repayment of these borrowings.

We or Rio Tinto fail to make a payment of principal of at least U.S.\$50,000,000 or fail to honor any guarantee or indemnity with respect to borrowings of at least U.S.\$50,000,000 and steps are taken to enforce either of these obligations.

Table of Contents

Any mortgage, pledge or other charge granted by us or Rio Tinto in relation to any borrowing of at least U.S.\$50,000,000 becomes enforceable and steps are taken to enforce the mortgage, pledge or other charge, as the case may be.

Any other event of default described in the prospectus supplement occurs. *(Section 501)*

Remedies If an Event of Default Occurs. If an event of default has occurred and has not been cured, the trustee or the holders of 25% in principal amount of the debt securities of the affected series may declare the entire principal amount of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. A declaration of acceleration of maturity may be canceled by the holders of at least a majority in principal amount of the debt securities of the affected series if we, Rio Tinto plc or Rio Tinto Limited have paid the outstanding amounts, other than amounts due because of the acceleration of maturity, and we, Rio Tinto or Rio Tinto Limited have satisfied certain other conditions. *(Section 502)*

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability. This protection is called an indemnity. *(Section 603)* If reasonable indemnity is provided, the holders of a majority in principal amount of the outstanding debt securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. These majority holders may also direct the trustee in performing any other action under the indenture. *(Section 512)*

Before bypassing the trustee and bringing a lawsuit or other formal legal action or taking other steps to enforce rights or protect interests relating to the debt securities, the following must occur:

The trustee must be given written notice that an event of default has occurred and remains uncured.

The holders of 25% in principal amount of all outstanding debt securities of the relevant series must make a written request that the trustee take action because of the default, and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action.

The trustee must have not taken action for 60 days after receipt of the above notice and offer of indemnity and the trustee has not received an inconsistent direction from the holders of a majority in principal amount of all outstanding debt securities during that period. *(Section 507)*

However, such limitations do not apply to a suit instituted for the enforcement of payment of the principal of or interest on a debt security on or after the respective due dates. *(Section 508)*.

Street name and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and to make or cancel a declaration of acceleration.

We and Rio Tinto will furnish to the trustee every year a written statement of certain of our and Rio Tinto's officers certifying that, to their knowledge, we and Rio Tinto are in compliance with the indenture and the debt securities, or else specifying any default. *(Section 1005)*

Regarding The Trustee

If an event of default occurs, or an event occurs that would be an event of default if the requirements for giving default notice or the default having to exist for a specific period of time were disregarded, the trustee may be considered to

have a conflicting interest with respect to the debt securities for purposes of the Trust Indenture Act of 1939. In that case, the trustee may be required to resign as trustee under the applicable indenture and we or Rio Tinto would be required to appoint a successor trustee.

Table of Contents

CLEARANCE AND SETTLEMENT

General

Debt securities we issue may be held through one or more international and domestic clearing systems. The principal clearing systems we will use are the book-entry systems operated by The Depository Trust Company, or DTC, in the United States, Clearstream Banking, *société anonyme* in Luxembourg (Clearstream, Luxembourg) and Euroclear SA/NV (Euroclear) in Brussels, Belgium. These systems have established electronic securities and payment transfer, processing, depository and custodial links among themselves and others, either directly or through custodians and depositories. These links allow securities to be issued, held and transferred among the clearing systems without the physical transfer of certificates.

Special procedures to facilitate clearance and settlement have been established among these clearing systems to trade securities across borders in the secondary market. Where payments for registered securities in global form will be made in U.S. dollars, these procedures can be used for cross-market transfers and the securities will be cleared and settled on a delivery against payment basis.

Cross-market transfers of securities that are not in global form may be cleared and settled in accordance with other procedures that may be established among the clearing systems for these securities. Investors in securities that are issued outside of the United States, its territories and possessions must initially hold their interests through Euroclear, Clearstream, Luxembourg or the clearance system that is described in the applicable prospectus supplement.

The policies of DTC, Clearstream, Luxembourg, and Euroclear will govern payments, transfers, exchange and other matters relating to the investor's interest in securities held by them. This is also true for any other clearance system that may be named in a prospectus supplement.

We have no responsibility for any aspect of the actions of DTC, Clearstream, Luxembourg or Euroclear or any of their direct or indirect participants. We have no responsibility for any aspect of the records kept by DTC, Clearstream, Luxembourg or Euroclear or any of their direct or indirect participants. We also do not supervise these systems in any way. This is also true for any other clearing system indicated in a prospectus supplement.

DTC, Clearstream, Luxembourg, Euroclear and their participants perform these clearance and settlement functions under agreements they have made with one another or with their customers. You should be aware that they are not obligated to perform these procedures and may modify them or discontinue them at any time.

The description of the clearing systems in this section reflects our understanding of the rules and procedures of DTC, Clearstream, Luxembourg and Euroclear as they are currently in effect. These systems could change their rules and procedures at any time.

As used in this section, any reference to securities also refers to book-entry securities issued in respect of securities in bearer form.

The Clearing Systems

DTC

DTC has advised us as follows:

DTC is:

- a limited purpose trust company organized under the laws of the State of New York;
- a banking corporation within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a clearing corporation within the meaning of the Uniform Commercial Code; and
- a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act.

Table of Contents

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes to accounts of its participants. This eliminates the need for physical movement of certificates.

Participants in DTC include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. DTC is partially owned by some of these participants or their representatives.

Indirect access to the DTC system is also available to banks, brokers, dealers and trust companies that have relationships with participants.

The rules applicable to DTC and DTC participants are on file with the SEC.

Clearstream, Luxembourg

Clearstream, Luxembourg has advised us as follows:

Clearstream, Luxembourg is a duly licensed bank organized as a société anonyme incorporated under the laws of Luxembourg and is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (*Commission de Surveillance du Secteur Financier*).

Clearstream, Luxembourg holds securities for its customers and facilitates the clearance and settlement of securities transactions among them. It does so through electronic book-entry changes to the accounts of its customers. This eliminates the need for physical movement of certificates.

Clearstream, Luxembourg provides other services to its participants, including safekeeping, administration, clearance and settlement of internationally traded securities and lending and borrowing of securities. It interfaces with the domestic markets in over 30 countries through established depository and custodial relationships.

Clearstream, Luxembourg's customers include worldwide securities brokers and dealers, banks, trust companies and clearing corporations and may include professional financial intermediaries. Its U.S. customers are limited to securities brokers and dealers and banks.

Indirect access to the Clearstream, Luxembourg system is also available to others that clear through Clearstream, Luxembourg customers or that have custodial relationships with its customers, such as banks, brokers, dealers and trust companies.

Euroclear

Euroclear has advised us as follows:

Euroclear is incorporated under the laws of Belgium as a bank and is subject to regulation by the Belgian Banking, Finance and Insurance Commission (*Commission Bancaire et Financière et des Assurances*) and the National Bank of Belgium (*Banque Nationale de Belgique*).

Euroclear holds securities for its customers and facilitates the clearance and settlement of securities transactions among them. It does so through simultaneous electronic book-entry delivery against payment,

thereby eliminating the need for physical movement of certificates.

Euroclear provides other services to its customers, including credit custody, lending and borrowing of securities and tri-party collateral management. It interfaces with the domestic markets of several other countries.

Euroclear customers include banks, including central banks, securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other professional financial intermediaries

Indirect access to the Euroclear system is also available to others that clear through Euroclear customers or that have relationships with Euroclear customers.

Table of Contents

All securities in Euroclear are held on a fungible basis. This means that specific certificates are not matched to specific securities clearance accounts.

Other Clearing Systems

We may choose any other clearing system for a particular series of debt securities. The clearance and settlement procedures for the clearing system we choose will be described in the applicable prospectus supplement.

Primary Distribution

The distribution of debt securities will be cleared through one or more of the clearing systems that we have described above or any other clearing system that is specified in the applicable prospectus supplement. Payment for debt securities will be made on a delivery versus payment or free delivery basis. These payment procedures will be more fully described in the applicable prospectus supplement.

Clearance and settlement procedures may vary from one series of debt securities to another according to the currency that is chosen for the specific series of debt securities. Customary clearance and settlement procedures are described below.

We will submit applications to the relevant system or systems for the debt securities to be accepted for clearance. The clearance numbers that are applicable to each clearance system will be specified in the applicable prospectus supplement.

Clearance and Settlement Procedures DTC

DTC participants that hold securities through DTC on behalf of investors will follow the settlement practices applicable to U.S. corporate debt obligations in DTC's Same-Day Funds Settlement System.

Debt securities will be credited to the securities custody accounts of these DTC participants against payment in the same-day funds, for payments in U.S. dollars, on the settlement date. For payments in a currency other than U.S. dollars, securities will be credited free of payment on the settlement date.

Clearance and Settlement Procedures Euroclear and Clearstream, Luxembourg

We understand that investors that hold their securities through Euroclear or Clearstream, Luxembourg accounts will follow the settlement procedures that are applicable to conventional Eurobonds in registered form.

Debt securities will be credited to the securities custody accounts of Euroclear and Clearstream, Luxembourg participants on the business day following the settlement date, for value on the settlement date. They will be credited either free of payment or against payment for value on the settlement date.

Secondary Market Trading

Trading between DTC Participants

We understand that secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC's rules. Secondary market trading will be settled using procedures applicable to U.S. corporate debt obligations in DTC's Same-Day Funds Settlement System.

If payment is made in U.S. dollars, settlement will be in same-day funds. If payment is made in a currency other than U.S. dollars, settlement will be free of payment. If payment is made other than in U.S. dollars, separate payment arrangements outside of the DTC system must be made between the DTC participants involved.

Trading between Euroclear and/or Clearstream, Luxembourg Participants

We understand that secondary market trading between Euroclear and/or Clearstream, Luxembourg participants will occur in the ordinary way following the applicable rules and operating procedures of

Table of Contents

Euroclear and Clearstream, Luxembourg. Secondary market trading will be settled using procedures applicable to conventional Eurobonds in registered form.

Trading between a DTC Seller and a Euroclear or Clearstream, Luxembourg Purchaser

A purchaser of debt securities that are held in the account of a DTC participant must send instructions to Euroclear or Clearstream, Luxembourg at least one business day prior to settlement. The instructions will provide for the transfer of the securities from the selling DTC participant's account to the account of the purchasing Euroclear or Clearstream, Luxembourg participant. Euroclear or Clearstream, Luxembourg, as the case may be, will then instruct the common depository for Euroclear and Clearstream, Luxembourg to receive the debt securities either against payment or free of payment.

The beneficial interests in the debt securities will be credited to the respective clearing system. The clearing system will then credit the account of the participant, following its usual procedures. Credit for the debt securities will appear on the next day, European time. Cash debit will be back-valued to, and the interest on the debt securities will accrue from, the value date, which would be the preceding day, when settlement occurs in New York. If the trade fails and settlement is not completed on the intended date, the Euroclear or Clearstream, Luxembourg cash debit will be valued as of the actual settlement date instead.

Euroclear participants or Clearstream, Luxembourg participants will need the funds necessary to process same-day funds settlement. The most direct means of doing this is to preposition funds for settlement, either from cash or from existing lines of credit, as for any settlement occurring within Euroclear or Clearstream, Luxembourg. Under this approach, participants may take on credit exposure to Euroclear or Clearstream, Luxembourg until the securities are credited to their accounts one business day later.

As an alternative, if Euroclear or Clearstream, Luxembourg has extended a line of credit to them, participants can choose not to preposition funds and will allow that credit line to be drawn upon to finance settlement. Under this procedure, Euroclear participants or Clearstream, Luxembourg participants purchasing debt securities would incur overdraft charges for one business day, (assuming they cleared the overdraft as soon as the debt securities were credited to their accounts). However, interest on the debt securities would accrue from the value date. Therefore, in many cases, the investment income on debt securities that is earned during that one business day period may substantially reduce or offset the amount of the overdraft charges. This result will, however, depend on each participant's particular cost of funds.

Because the settlement will take place during New York business hours, DTC participants will use their usual procedures to deliver debt securities to the depository on behalf of Euroclear participants or Clearstream, Luxembourg participants. The sale proceeds will be available to the DTC seller on the settlement date. For the DTC participants, then, a cross-market transaction will settle no differently than a trade between two DTC participants.

Special Timing Considerations

You should be aware that investors will only be able to make and receive deliveries, payments and other communications involving debt securities through Clearstream, Luxembourg and Euroclear on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, there may be problems with completing transactions involving Clearstream, Luxembourg and Euroclear on the same business day as in the United States. U.S. investors who wish to transfer their interests in the debt securities, or to receive or make a payment or delivery of debt securities, on a

particular day, may find that the transactions will not be performed until the next business day in Luxembourg or Brussels, depending on whether Clearstream, Luxembourg or Euroclear is used.

Table of Contents

TAXATION

This section describes the material Australian, U.K. and U.S. federal income tax consequences of acquiring, owning and disposing of debt securities that we may issue.

Australian Taxation

The following is a summary of the principal Australian tax consequences generally applicable to a holder who is a resident of the United States and not a resident of Australia for tax purposes (a United States holder). This summary reflects the current provisions of the Australian Income Tax Assessment Act 1936 and the Australian Income Tax Assessment Act 1997 (together, Australian Tax Act).

The following summary is not exhaustive of all possible Australian income tax considerations that could apply to particular holders. These considerations may vary according to your individual circumstances.

Australia's income tax laws are currently subject to review by the Federal Government. The summary below is based upon our understanding of the current law (except as expressly stated) and of the implications of changes that have been announced by the Australian Government in only very general terms. This summary does not otherwise take into account or anticipate changes in the law, whether by way of judicial decision or legislative action.

In the opinion of Allens Arthur Robinson, our and Rio Tinto's Australian taxation legal counsel, the following are the material Australian tax consequences of an investment in debt securities generally applicable to a United States holder, on the basis of Australian law as in effect at the date of this prospectus, which (as indicated above) is subject to change, possibly with retroactive effect.

Payments of Principal, Premium and Interest

Under existing Australian income tax law, United States holders of debt securities, other than persons holding such securities or interests as part of a business carried on at or through a permanent establishment in Australia (an Australian Establishment), are not subject to Australian income tax on payments of principal and interest (or amounts in the nature of interest) made to that holder, other than interest withholding tax (currently 10%) on interest (or amounts in the nature of interest) paid on the debt securities (unless the Section 128F exemption described below applies). Subject to the following, where a United States holder makes a gain on redemption of a debt security (including any gain referable to movements in foreign currency exchange rates), the holder's gain would not be subject to Australian income tax provided the gain is not sourced in Australia, as described in Profits on Sale to Third Parties below, and the holder does not hold the security as part of an Australian Establishment. However, Australian tax may be payable to the extent that those conditions do not exist. Also, to the extent that any such gain is treated as interest, or in the nature of interest, Australian withholding tax would apply.

Pursuant to Section 128F of the Australian Tax Act, an exemption from Australian interest withholding tax (IWT) applies provided the following conditions are met:

We are a resident of Australia when we issue the debt securities and when interest, as defined in Section 128A(1AB), is paid. Interest is defined to include amounts in the nature of, or in substitution for, interest.

Edgar Filing: RIO TINTO LTD - Form 424B2

The debt securities are issued in a manner that satisfies the public offer test of Section 128F under the Australian Tax Act (described below).

We do not know, or have reasonable grounds to suspect, at the time of issue that the debt securities or an interest in them were being, or would later be, acquired, directly or indirectly, by one of our associates (as defined in Section 128F(9) of the Australian Tax Act), except as permitted by Section 128F(5) of the Australian Tax Act.

Table of Contents

At the time of the payment of interest on the debt securities, we do not know nor do we have reasonable grounds to suspect that the payee is our associate, except as permitted by Section 128F(6) of the Australian Tax Act.

An associate of ours for the purposes of Section 128F of the Australian Tax Act generally includes (i) a person or entity which holds 50% of the voting shares of, or otherwise controls, us, (ii) an entity which is a subsidiary of, or otherwise controlled by, us, (iii) a trustee of a trust where we are capable of benefiting (whether directly or indirectly) under that trust, and (iv) a person or entity who is an associate of another person or company which is an associate of ours under any of the foregoing.

However, for the purposes of Sections 128F(5) and (6) of the Australian Tax Act (see above), associate does not include:

- (A) onshore associates (i.e. Australian resident associates who do not hold the debt securities in the course of carrying on business at or through a permanent establishment outside Australia and non-resident associates who hold the debt securities in the course of carrying on business at or through an Australian Establishment); or
- (B) offshore associates (i.e. Australian resident associates that hold the debt securities in the course of carrying on business at or through a permanent establishment outside Australia and non-resident associates who do not hold the debt securities in the course of carrying on business through an Australian Establishment) who are acting in the capacity of:
 - (i) in the case of Section 128F(5) only, a dealer, manager or underwriter in relation to the placement of the relevant debt securities; or
 - (ii) a clearing house, custodian, funds manager, responsible entity of a registered scheme or, in the case of Section 128F(6) only, paying agent.

There are five principal methods of satisfying the public offer test. In summary, the five principal methods are:

offers of the relevant debt securities to 10 or more professional financiers, investors or dealers who are not associates of each other;

offers of the relevant debt securities to 100 or more potential investors;

offers of the relevant debt securities which are listed on a stock exchange;

offers of the relevant debt securities via a publicly available financial markets dealing platform; and

offers of the relevant debt securities to dealers, managers or underwriters who offer to sell the debt securities within 30 days by one of the preceding methods.

We intend to offer and sell debt securities in a manner that will satisfy the requirements of Section 128F of the Australian Tax Act.

As set out in more detail in the section entitled Description of Guaranteed Debt Securities Special Situations Payment of Additional Amounts, if we should at any time be compelled by law to deduct or withhold an amount in

respect of any withholding taxes, we are required, subject to the exceptions we describe, to pay such additional amounts as may be necessary in order to ensure that the net amounts you receive in respect of the debt securities after such deductions or withholding will equal the respective amounts that would have been receivable had no such deduction or withholding been required.

Payments under the Guarantee

IWT at the rate of 10% may be payable on payments of interest, or interest paid on an overdue amount, by Rio Tinto Limited to United States holders (other than those holding the debt securities in the course of carrying on a business at or through an Australian Establishment).

Table of Contents

Whether payments under the guarantee would be interest for withholding tax purposes is not clear. The Australian Taxation Office's ruling, as reflected in Taxation Determination TD 1999/26, is that such payments under a guarantee would be interest for withholding tax purposes. However that Determination also states that guarantee payments would be treated as exempt from withholding tax under Section 128F if the requirements of that section are satisfied. Therefore, if the requirements of Section 128F as described above are satisfied in relation to the debt securities, interest withholding tax should not be payable in relation to the guarantee payments.

Profits on Sale to Third Parties

Under existing Australian law, United States holders of debt securities will not be subject to Australian income tax on profits derived from the sale or disposal of the debt securities to a third party provided that the profits do not have an Australian source.

The source of any profit on the sale or disposal of debt securities will ordinarily depend on the factual circumstances of the actual sale or disposal. Where the debt securities are acquired and sold or disposed of pursuant to contractual arrangements entered into and concluded outside Australia, and the seller and the purchaser are non-residents of Australia and do not have Australian Establishments, the profit would not be regarded as having an Australian source.

There are specific rules (Section 128AA of the Australian Tax Act) that can apply to treat a portion of the sale price of debt securities as interest for withholding tax purposes. These rules apply when certain debt securities originally issued at a discount or with maturity premium, generally speaking, or which do not pay interest at least annually are sold to:

an Australian resident that does not acquire the debt securities in the course of carrying on a trade or business through a permanent establishment outside Australia; or

a non-resident of Australia who acquires the debt securities as part of an Australian Establishment.

However, if the issue of the debt securities satisfies the public offer test, such portions of deemed interest will be covered by the exemption from Australian interest withholding tax contained in Section 128F of the Australian Tax Act.

Other Taxes

No ad valorem stamp, issue, registration or similar taxes are payable in Australia in connection with the issue of the debt securities. Furthermore, a transfer of or agreement to transfer debt securities, executed outside of Australia, will not be subject to Australian stamp duty.

The Commissioner of Taxation of the Commonwealth of Australia may give a direction under Section 218 or Section 255 of the Australian Tax Act or Section 260-5 of the Taxation Administration Act 1953 (TAA) requiring us to deduct from any payment to any other party (including any holder of debt securities) any amount in respect of income tax payable by that other party in respect of the other party's other Australian sourced income or sales.

Section 12-140 of the TAA will impose a type of withholding tax at the rate of (currently) 46.5% on the payment of interest on certain securities unless the relevant investor has quoted a tax file number, in certain circumstances an Australian Business Number or proof of some other exception. Assuming that the debt securities will at all material times be in registered form and the requirements of Section 128F of the Australian Tax Act are satisfied with respect to the debt securities, these rules should not apply to payments to a holder of debt securities who is not a resident of

Australia for tax purposes and not holding the debt securities in the course of carrying on business at or through an Australian Establishment. Withholdings may be made from payments to holders of debt securities who are residents of Australia or non-residents who carry on business at or through an Australian Establishment but who do not quote a tax file number, Australian Business Number or provide proof of an appropriate exemption.

Table of Contents

Section 12-190 of the TAA imposes another type of withholding obligation such that if we make a payment to a holder of a debt security for a supply the holder of the debt security has made to us in the course or furtherance of an enterprise carried on in Australia by that holder, we must withhold amounts from that payment at the prescribed rate (currently 46.5%) unless that holder has quoted their ABN or another exception applies. There is some uncertainty as to the precise operation of these rules. However, these rules will not apply to payments of principal and interest by us to holders of debt securities where a tax file number, Australian Business Number, or proof that a relevant exemption is applicable has been provided (in accordance with the above paragraph), or a deduction has been made by us for a failure to provide such information. Although the position is not free from doubt, on the basis that all holders of debt securities will fall within Section 12-140 (discussed above), the withholding requirements in Section 12-190 of the TAA should have no residual operation.

No debt securities will be subject to death, estate or succession duties imposed by Australia, or by any political subdivision therein having the power to tax, if held at the time of death.

Neither the issue of the debt securities nor the payment of principal, premium (if any) and interest by us in respect of the debt securities would give rise to a liability to a goods and services tax in Australia.

Recent Developments

Legislative amendments are proposed in respect of the Australian taxation of financial arrangements (TOFA). Whilst not yet law, the TOFA rules are generally expected to have application in respect of financial arrangements (such as debt securities) which commence to be held in income years commencing on or after 1 July 2009, unless an election is made to apply the TOFA rules to securities already held at that date or an earlier date. In the absence of such elections, the existing law governing the taxation of financial arrangements will continue to apply to debt securities acquired before July 1, 2009. Investors will need to consider the potential application of these rules to their own circumstances upon the enactment of the TOFA law.

United Kingdom Taxation

The comments below are of a general nature, are based on current United Kingdom tax law and published practice of the United Kingdom HM Revenue & Customs (HMRC) and are not intended to be exhaustive. They do not necessarily apply where the income is deemed for tax purposes to be the income of any person other than the holder of the debt securities. They relate only to the position of persons who are resident outside of the United Kingdom for tax purposes (and not resident or, in the case of individuals, ordinarily resident in the United Kingdom for United Kingdom tax purposes) and who are the absolute beneficial owners of their debt securities and may not apply to certain classes of persons such as dealers or certain professional investors.

Please consult your own tax advisor concerning the consequences of owning the offered securities in your particular circumstances.

Interest Payments

References to interest in this section mean interest as understood in United Kingdom tax law. The statements do not take account of any different definitions of interest that may prevail under any other law or which may be created by the terms and conditions of the debt securities or any related documentation. If debt securities are issued with a redemption premium, then any such premium may constitute interest for United Kingdom tax purposes and so be treated in the manner described below.

Payments of interest on the debt securities will not be subject to withholding or deduction for or on account of United Kingdom taxation on the basis that, and so long as, such interest is not treated as arising in the United Kingdom for the purposes of section 874 of the United Kingdom Income Tax Act 2007. It is currently expected that the circumstances will be such that interest on the debt securities would not have a United Kingdom source.

Table of Contents

It is possible that payments by Rio Tinto plc under the guarantee in respect of interest on the debt securities may be subject to withholding or deduction for or on account of United Kingdom tax. Such payments of interest under the guarantee may not be subject to withholding or deduction for or on account of United Kingdom taxation if and so long as the debt securities are and continue to be listed on a recognised stock exchange within the meaning of Section 1005 of the United Kingdom Income Tax Act 2007 (the Quoted Eurobond Exemption). The London Stock Exchange is a recognised stock exchange for these purposes. Debt securities will be treated as listed on the London Stock Exchange if they are included in the Official List by the United Kingdom Listing Authority and are admitted to trading on the London Stock Exchange. The New York Stock Exchange will be a recognised stock exchange for these purposes provided that it is registered with the Securities and Exchange Commission of the United States as a national securities exchange. Debt securities will be treated as listed on the New York Stock Exchange if they are both admitted to trading on the New York Stock Exchange and are officially listed in the United States in accordance with provisions corresponding to those generally applicable in countries in the European Economic Area. However, it is possible that such payments under the guarantee in respect of interest on the debt securities are not eligible for the Quoted Eurobond Exemption. If such payments are not eligible for that exemption, they may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20%, which rate is subject to change if the Finance Bill 2008 is not enacted in its current form) subject to such relief as may be available under the provisions of any applicable double tax treaty or any other relief that may apply.

Certain holders of debt securities who are U.S. residents may be entitled to receive payments free of deductions for or on account of United Kingdom tax under the double taxation treaty between the United Kingdom and the United States and may therefore be able to obtain a direction to that effect from HMRC. Holders of debt securities who are resident in other jurisdictions may also be able to receive payment free of deductions or subject to a lower rate of deduction under an appropriate double taxation treaty and may be able to obtain a direction from HMRC to that effect.

However, such a direction will, in either case, only be issued on prior application to HMRC by the holder in question. If such a direction is not in place at the time a payment of interest is made, the person making the payment will be required to withhold tax, although a holder of debt securities resident in a jurisdiction outside of the United Kingdom who is entitled to relief may subsequently claim the amount withheld from HMRC.

Payments by Rio Tinto plc under the guarantee in respect of interest on the debt securities will have a United Kingdom source and accordingly may be chargeable to United Kingdom tax by direct assessment. Where the interest is paid without withholding or deduction, the interest will not be assessed to United Kingdom tax in the hands of holders of the debt securities who are not resident or, in the case of individuals, ordinarily resident in the United Kingdom, except where:

- (i) in the case of corporate holders, such persons carry on a trade in the United Kingdom through a United Kingdom permanent establishment; or
- (ii) in the case of other holders, such persons carry on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency,

in connection with which the interest is received or to which the debt securities are attributable, in which case (subject to exemptions for interest received by certain categories of agent) tax may be levied on the United Kingdom permanent establishment or branch or agency.

In the event that payments by Rio Tinto plc under the guarantee in respect of interest on debt securities are subject to withholding or deduction for or on account of United Kingdom taxation then the provisions referred to in Description of Guaranteed Debt Securities Payment of Additional Amounts may apply so that the net amount received by the

holders after such reduction will not be less than the amount the holders would have received in the absence of such withholding or deduction.

Holders of the debt securities should note that the provisions relating to additional amounts referred to in Description of Guaranteed Debt Securities Payment of Additional Amounts would not apply if HMRC sought to assess directly the person entitled to the relevant interest to United Kingdom tax. However

Table of Contents

exemption from, or reduction of, such United Kingdom tax liability might be available under an applicable double taxation treaty.

Provision of Information

Persons in the United Kingdom (i) paying interest to or receiving interest on behalf of another person who is an individual or (ii) paying amounts due on redemption of the debt securities which constitute deeply discounted securities as defined in Chapter 8 of Part 4 of the Income Tax (Trading and Other Income) Act 2005 to or receiving such amounts on behalf of another person who is an individual may be required to provide certain information to HMRC regarding the identity of the payee or person entitled to the interest and, in certain circumstances, such information may be exchanged with tax authorities in other countries. However, in relation to amounts payable on redemption of such debt securities HMRC published practice indicates HMRC will not exercise its power to obtain information where such amounts are paid or received on or before April 5, 2009.

Optional Tax Redemption

In the earlier section entitled *Description of Guaranteed Debt Securities - Optional Tax Redemption* we set out certain situations in which we may redeem debt securities.

Disposal (including Redemption)

Generally, a holder of debt securities who is neither resident nor, in the case of an individual, ordinarily resident in the United Kingdom for tax purposes will not be liable for United Kingdom taxation in respect of a disposal of a debt security, or in respect of any gain accrued in respect of a debt security or any change in the value of a debt security.

This may not, however, be the case if:

- (i) in the case of corporate holders, such persons carry on a trade in the United Kingdom through a United Kingdom permanent establishment; or
- (ii) in the case of other holders, such persons carry on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency

in connection with which the interest is received or to which the debt securities are attributable.

Inheritance Tax

A holder of debt securities who is an individual domiciled outside the United Kingdom will generally not be liable for United Kingdom inheritance tax in respect of his holding of debt securities. However, there may be a liability for United Kingdom inheritance tax if a register of debt securities which are registered securities is maintained in the United Kingdom or if debt securities which are bearer securities are held in the United Kingdom. In that case, exemption from any United Kingdom inheritance tax liability may be available for holders of debt securities who are domiciled in the United States under the U.S.-United Kingdom double tax convention relating to estate and gift taxes.

Stamp Duty and Stamp Duty Reserve Tax (SDRT)

No United Kingdom stamp duty or SDRT is payable on the issue of the debt securities into a clearing system.

No United Kingdom stamp duty or SDRT is payable on dealings in the debt securities within a clearing system where such dealings are effected in electronic book entry form and not by written instrument of transfer.

Table of Contents

European Union Directive on the Taxation of Savings Income

The Council of the European Union has adopted Council Directive 2003/48/EC (the Savings Directive) regarding the taxation of savings income. Pursuant to the Savings Directive, Member States of the European Union are required to provide to the tax authorities of another Member State details of payments of interest (or other similar income) paid by a person within its jurisdiction to or for the benefit of an individual or to certain other persons in that other Member State, except that Belgium, Luxembourg and Austria will (unless they elect otherwise) instead operate a withholding system for a transitional period in relation to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain EU Member States have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to an individual or certain other persons resident in an EU Member State. In addition, the EU Member States have entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to an individual or certain other persons resident in one of those territories.

United States Federal Income Taxation

The following is a summary of certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of debt securities by a U.S. Holder (as defined below). The following discussion, subject to the assumptions and limitations herein, represents the opinion of Linklaters LLP as to the material U.S. federal income tax consequences of the acquisition, ownership and disposition of debt securities by a U.S. Holder. This summary does not address the material U.S. federal income tax consequences of every type of debt security which may be issued under this prospectus, and the relevant prospectus supplement will contain additional or modified disclosure concerning the material U.S. federal income tax consequences relevant to a particular issue of debt securities as appropriate. This summary deals only with purchasers of debt securities that are U.S. Holders and that will hold the debt securities as capital assets. The discussion does not cover all aspects of U.S. federal income taxation that may be relevant to, or the actual tax effect that any of the matters described herein will have on, the acquisition, ownership or disposition of debt securities by particular investors, and does not address state, local, foreign or other tax laws. This summary also does not discuss all of the tax considerations that may be relevant to certain types of investors subject to special treatment under the U.S. federal income tax laws (such as financial institutions, insurance companies, investors liable for the alternative minimum tax, individual retirement accounts and other tax-deferred accounts, tax-exempt organizations, dealers in securities or currencies, investors that will hold the debt securities as part of straddles, hedging transactions or conversion transactions for U.S. federal income tax purposes or investors whose functional currency is not the U.S. dollar). Moreover, the summary deals only with debt securities with a term of 30 years or less. The U.S. federal income tax consequences of owning debt securities with a longer term will be discussed in the applicable prospectus supplement.

As used herein, the term U.S. Holder means a beneficial owner of debt securities that is, for U.S. federal income tax purposes, (i) an individual citizen or resident of the United States, (ii) a corporation created or organized under the laws of the United States or any State thereof, (iii) an estate the income of which is subject to U.S. federal income tax without regard to its source or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or the trust has elected to be treated as a domestic trust for U.S. federal income tax purposes.

The U.S. federal income tax treatment of a partner in an entity that is classified as a partnership for U.S. federal income tax purposes that holds debt securities will depend on the status of the partner and the activities of the partnership. Prospective purchasers that are partnerships should consult their tax advisor concerning the U.S. federal

income tax consequences to their partners of the acquisition, ownership and disposition of debt securities by the partnership.

Table of Contents

The summary is based on the tax laws of the United States including the Internal Revenue Code of 1986, its legislative history, existing and proposed regulations thereunder and published rulings and court decisions, all as of the date hereof and all subject to change at any time, possibly with retroactive effect.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET OUT BELOW IS FOR GENERAL INFORMATION ONLY. PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF OWNING THE DEBT SECURITIES, THE APPLICABILITY AND EFFECT OF STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND POSSIBLE CHANGES IN TAX LAW.

Payments of Interest

Interest on a debt security, whether payable in U.S. dollars or a currency, composite currency or basket of currencies other than U.S. dollars (a foreign currency), other than interest on a Discount Debt Security that is not qualified stated interest (each as defined below under Original Issue Discount General), will be taxable to a U.S. Holder as ordinary income at the time it is received or accrued, depending on the holder's method of accounting for tax purposes. For this purpose, interest includes any additional amounts payable under Description of Guaranteed Debt Securities Payment of Additional Amounts. Interest paid by us on the debt securities and OID, if any, accrued with respect to the debt securities (as described below under Original Issue Discount) generally will constitute income from sources outside the United States. Prospective purchasers should consult their tax advisors concerning the applicability of the foreign tax credit and source of income rules to income attributable to the debt securities.

*Original Issue Discount**General*

The following is a summary of the principal U.S. federal income tax consequences of the ownership of debt securities issued with original issue discount (OID). The following summary does not discuss debt securities that are characterized as contingent payment debt instruments for U.S. federal income tax purposes. In the event we issue contingent payment debt instruments the applicable prospectus supplement will describe the material U.S. federal income tax consequences thereof.

A debt security, other than a debt security with a term of one year or less (a Short-Term Debt Security), will be treated as issued with OID (a Discount Debt Security) if the excess of the debt security's stated redemption price at maturity over its issue price is equal to or more than a de minimis amount (0.25% of the debt security's stated redemption price at maturity multiplied by the number of complete years to its maturity). An obligation that provides for the payment of amounts other than qualified stated interest before maturity (an installment obligation) will be treated as a Discount Debt Security if the excess of the debt security's stated redemption price at maturity over its issue price is greater than 0.25% of the debt security's stated redemption price at maturity multiplied by the weighted average maturity of the debt security. A debt security's weighted average maturity is the sum of the following amounts determined for each payment on a debt security (other than a payment of qualified stated interest): (i) the number of complete years from the issue date until the payment is made multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the debt security's stated redemption price at maturity. Generally, the issue price of a debt security will be the first price at which a substantial amount of debt securities included in the issue of which the debt security is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers. The stated redemption price at maturity of a debt security is the total of all payments provided by the debt security that are not payments of qualified stated interest. A qualified stated interest payment is generally any one of a series of stated interest payments on a debt

security that are unconditionally payable at least annually at a single fixed rate (with certain exceptions for lower rates paid during some periods), or a variable rate (in the circumstances described below under Variable Interest Rate Debt Securities), applied to the outstanding principal amount of the debt security. Solely for the purposes of determining whether a debt security has OID, we will be deemed to exercise any call option that has the effect of decreasing the yield on the debt security, and the

Table of Contents

U.S. Holder will be deemed to exercise any put option that has the effect of increasing the yield on the debt security. If the option is not in fact exercised, the debt security would be treated solely for purposes of calculating OID as if it were redeemed and a new debt security were issued on the deemed exercise date for an amount equal to the adjusted issue price (as defined below) of the debt security.

U.S. Holders of Discount Debt Securities must include OID in income calculated on a constant-yield method before the receipt of cash attributable to the income, and generally will have to include in income increasingly greater amounts of OID over the life of the Discount Debt Securities. The amount of OID includible in income by a U.S. Holder of a Discount Debt Security is the sum of the daily portions of OID with respect to the Discount Debt Security for each day during the taxable year or portion of the taxable year on which the U.S. Holder holds the Discount Debt Security (accrued OID). The daily portion is determined by allocating to each day in any accrual period a pro rata portion of the OID allocable to that accrual period. Accrual periods with respect to a debt security may be of any length selected by the U.S. Holder and may vary in length over the term of the debt security as long as (i) no accrual period is longer than one year and (ii) each scheduled payment of interest or principal on the debt security occurs on either the final or first day of an accrual period. The amount of OID allocable to an accrual period equals the excess of (a) the product of the Discount Debt Security's adjusted issue price at the beginning of the accrual period and the Discount Debt Security's yield to maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) over (b) the sum of the payments of qualified stated interest on the debt security allocable to the accrual period. The adjusted issue price of a Discount Debt Security at the beginning of any accrual period is the issue price of the debt security increased by (x) the amount of accrued OID for each prior accrual period and decreased by (y) the amount of any payments previously made on the debt security that were not qualified stated interest payments. The yield to maturity of a security is the discount rate that causes the present value of all payments on the security as of its original issue date to equal the issue price of such security.

Acquisition Premium

A U.S. Holder that purchases a Discount Debt Security for an amount less than or equal to the sum of all amounts payable on the debt security after the purchase date, other than payments of qualified stated interest, but in excess of its adjusted issue price (any such excess being acquisition premium) and that does not make the election described below under Election to Treat All Interest as Original Issue Discount, is permitted to reduce the daily portions of OID by a fraction, the numerator of which is the excess of the U.S. Holder's adjusted basis in the debt security immediately after its purchase over the debt security's adjusted issue price, and the denominator of which is the excess of the sum of all amounts payable on the debt security after the purchase date, other than payments of qualified stated interest, over the debt security's adjusted issue price.

Election to Treat All Interest as Original Issue Discount

A U.S. Holder may elect to include in gross income all interest that accrues on a debt security using the constant-yield method described above under Original Issue Discount General, with certain modifications. For purposes of this election, interest includes stated interest, OID, de minimis OID, market discount, de minimis market discount and unstated interest, as adjusted by any amortizable bond premium (described below under Debt Securities Purchased at a Premium) or acquisition premium. This election will generally apply only to the debt security with respect to which it is made and may not be revoked without the consent of the IRS. If the election to apply the constant-yield method to all interest on a debt security is made with respect to a Market Discount Debt Security, the electing U.S. Holder will be treated as having made the election discussed below under Market Discount to include market discount in income currently over the life of all debt instruments with market discount held or thereafter acquired by the U.S. Holder. U.S. Holders should consult their tax advisors concerning the propriety and consequences of this election.

Short-Term Debt Securities

In general, an individual or other cash basis U.S. Holder of a Short-Term Debt Security is not required to accrue OID (as specially defined below for the purposes of this paragraph) for U.S. federal income tax

Table of Contents

purposes unless it elects to do so (but will be required to include any stated interest in income as the interest is received). Accrual basis U.S. Holders and certain other U.S. Holders are required to accrue OID on Short-Term Debt Securities on a straight-line basis or, if the U.S. Holder so elects, under the constant-yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realized on the sale or retirement of the Short-Term Debt Security will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant-yield method) through the date of sale or retirement. U.S. Holders who are not required and do not elect to accrue OID on Short-Term Debt Securities will be required to defer deductions for interest on borrowings allocable to Short-Term Debt Securities in an amount not exceeding the deferred income until the deferred income is realized.

For purposes of determining the amount of OID subject to these rules, all interest payments on a Short-Term Debt Security are included in the Short-Term Debt Security's stated redemption price at maturity. A U.S. Holder may elect to determine OID on a Short-Term Debt Security as if the Short-Term Debt Security had been originally issued to the U.S. Holder at the U.S. Holder's purchase price for the Short-Term Debt Security. This election shall apply to all obligations with a maturity of one year or less acquired by the U.S. Holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

Fungible Issue

We may, without the consent of the Holders of outstanding debt securities, issue additional debt securities with identical terms. These additional debt securities, even if they are treated for non-tax purposes as part of the same series as the original debt securities, in some cases may be treated as a separate series for U.S. federal income tax purposes. In such a case, the additional debt securities may be considered to have been issued with OID even if the original debt securities had no OID, or the additional debt securities may have a greater amount of OID than the original debt securities. These differences may affect the market value of the original debt securities if the additional debt securities are not otherwise distinguishable from the original debt securities.

Market Discount

A debt security, other than a Short-Term Debt Security, generally will be treated as purchased at a market discount (a Market Discount Debt Security) if the debt security's stated redemption price at maturity or, in the case of a Discount Debt Security, the debt security's revised issue price, exceeds the amount for which the U.S. Holder purchased the debt security by at least 0.25% of the debt security's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the debt security's maturity (or, in the case of a debt security that is an installment obligation, the debt security's weighted average maturity). If this excess is not sufficient to cause the debt security to be a Market Discount Debt Security, then the excess constitutes de minimis market discount. For this purpose, the revised issue price of a debt security generally equals its issue price, increased by the amount of any OID that has accrued on the debt security and decreased by the amount of any payments previously made on the debt security that were not qualified stated interest payments.

Under current law, any gain recognized on the maturity or disposition of a Market Discount Debt Security (including any payment on a debt security that is not qualified stated interest) will be treated as ordinary income to the extent that the gain does not exceed the accrued market discount on the debt security. Alternatively, a U.S. Holder of a Market Discount Debt Security may elect to include market discount in income currently over the life of the debt security. This election will apply to all debt instruments with market discount acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies. This election may not be revoked without the consent of the Internal Revenue Service (the IRS). A U.S. Holder of a Market Discount Debt Security that does not elect to include market discount in income currently will generally be required to defer deductions for interest on borrowings incurred to purchase or carry a Market Discount Debt Security that are in excess of the interest and OID

on the debt security includible in the U.S. Holder's income, to the extent that this excess interest expense does not exceed the

Table of Contents

portion of the market discount allocable to the days on which the Market Discount Debt Security was held by the U.S. Holder.

Under current law, market discount will accrue on a straight-line basis unless the U.S. Holder elects to accrue the market discount on a constant-yield method. This election applies only to the Market Discount Debt Security with respect to which it is made and is irrevocable.

Variable Interest Rate Debt Securities

Debt securities that provide for interest at variable rates (Variable Interest Rate Debt Securities) generally will either bear interest at a qualified floating rate , and thus will be treated as variable rate debt instruments under Treasury regulations governing accrual of OID, or they will bear interest at an objective rate . A Variable Interest Rate Debt Security will qualify as a variable rate debt instrument if (a) its issue price does not exceed the total noncontingent principal payments due under the Variable Interest Rate Debt Security by more than a specified de minimis amount, (b) it provides for stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate , or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate , and (c) it does not provide for any principal payments that are contingent (other than as described in (a) above).

A qualified floating rate is any variable rate where variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Variable Interest Rate Debt Security is denominated. A fixed multiple of a qualified floating rate will constitute a qualified floating rate only if the multiple is greater than 0.65 but not more than 1.35. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Variable Interest Rate Debt Security (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Variable Interest Rate Debt Security s issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to one or more restrictions such as a maximum numerical limitation (i.e., a cap) or a minimum numerical limitation (i.e., a floor) may, under certain circumstances, fail to be treated as a qualified floating rate unless the cap or floor is either fixed throughout the term of the debt security or is not reasonably expected as of the issue date to cause the yield on the debt security to significantly deviate from the expected yield determined without the cap or floor.

An objective rate is a rate that is not itself a qualified floating rate but which is determined using a single fixed formula and which is based on objective financial or economic information (e.g., one or more qualified floating rates or the yield of actively traded personal property). A rate will not qualify as an objective rate if it is based on information that is within our control (or a related party) or that is unique to our circumstances (or a related party), such as dividends, profits or the value of Rio Tinto (although a rate does not fail to be an objective rate merely because it is based on the credit quality of Rio Tinto). Other variable interest rates may be treated as objective rates if so designated by the IRS in the future. Despite the foregoing, a variable rate of interest on a Variable Interest Rate Debt Security will not constitute an objective rate if it is reasonably expected that the average value of the rate during the first half of the Variable Interest Rate Debt Security s term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Variable Interest Rate Debt Security s term. A qualified inverse floating rate is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate. If a Variable Interest Rate Debt Security provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period and if the variable rate on the Variable Interest Rate Debt Security s issue date is intended to

approximate the fixed rate (e.g., the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points), then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be.

Table of Contents

A qualified floating rate or objective rate in effect at any time during the term of the instrument must be set at a current value of that rate. A current value of a rate is the value of the rate on any day that is no earlier than 3 months prior to the first day on which that value is in effect and no later than 1 year following that first day.

If a Variable Interest Rate Debt Security that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof qualifies as a variable rate debt instrument, then any stated interest on the debt security which is unconditionally payable in cash or property (other than our debt instruments) at least annually will constitute qualified stated interest and will be taxed accordingly. Thus, a Variable Interest Rate Debt Security that provides for stated interest at either a single qualified floating rate or a single objective rate throughout the term thereof and that qualifies as a variable rate debt instrument will generally not be treated as having been issued with OID unless the Variable Interest Rate Debt Security is issued at a true discount (i.e., at a price below the debt security's stated principal amount) in excess of a specified de minimis amount. OID on a Variable Interest Rate Debt Security arising from true discount is allocated to an accrual period using the constant yield method described above by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate, or (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Debt Security.

In general, any other Variable Interest Rate Debt Security that qualifies as a variable rate debt instrument will be converted into an equivalent fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Variable Interest Rate Debt Security. Such a Variable Interest Rate Debt Security must be converted into an equivalent fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Variable Interest Rate Debt Security with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Variable Interest Rate Debt Security's issue date. Any objective rate (other than a qualified inverse floating rate) provided for under the terms of the Variable Interest Rate Debt Security is converted into a fixed rate that reflects the yield that is reasonably expected for the Variable Interest Rate Debt Security. In the case of a Variable Interest Rate Debt Security that qualifies as a variable rate debt instrument and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate (or a qualified inverse floating rate, if the Variable Interest Rate debt security provides for a qualified inverse floating rate). Under these circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Variable Interest Rate Debt Security as of the Variable Interest Rate Debt Security's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. Subsequent to converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Variable Interest Rate Debt Security is converted into an equivalent fixed rate debt instrument in the manner described above.

Once the Variable Interest Rate Debt Security is converted into an equivalent fixed rate debt instrument pursuant to the foregoing rules, the amount of OID and qualified stated interest, if any, are determined for the equivalent fixed rate debt instrument by applying the general OID rules to the equivalent fixed rate debt instrument and a U.S. Holder of the Variable Interest Rate Debt Security will account for the OID and qualified stated interest as if the U.S. Holder held the equivalent fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the equivalent fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Variable Interest Rate Debt Security during the accrual period.

If a Variable Interest Rate Debt Security does not qualify as a variable rate debt instrument , then the Variable Interest Rate Debt Security will be treated as a contingent payment debt obligation. The proper U.S. federal income tax treatment of Variable Interest Rate Debt Securities that are treated as contingent payment debt obligations will be more fully described in the applicable prospectus supplement.

Table of Contents***Debt Securities Purchased at a Premium***

A U.S. Holder that purchases a debt security for an amount in excess of its principal amount, or for a Discount Debt Security, its stated redemption price at maturity, may elect to treat the excess as amortizable bond premium, in which case the amount required to be included in the U.S. Holder's income each year with respect to interest on the debt security will be reduced by the amount of amortizable bond premium allocable (based on the debt security's yield to maturity) to that year. Any election to amortize bond premium will apply to all bonds (other than bonds the interest on which is excludable from gross income for U.S. federal income tax purposes) held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and is irrevocable without the consent of the IRS. See also Original Issue Discount Election to Treat All Interest as Original Issue Discount.

Purchase, Sale and Retirement of Debt Securities

A U.S. Holder's tax basis in a debt security will generally be its cost, increased by the amount of any OID and market discount included in the U.S. Holder's income with respect to the debt security and the amount, if any, of income attributable to de minimis OID and de minimis market discount included in the U.S. Holder's income with respect to the debt security, and reduced by (i) the amount of any payments that are not qualified stated interest payments, and (ii) the amount of any amortizable bond premium applied to reduce interest on the debt security.

A U.S. Holder will generally recognize gain or loss on the sale or retirement of a debt security equal to the difference between the amount realized on the sale or retirement and the tax basis of the debt security. The amount realized does not include the amount attributable to accrued but unpaid interest, which will be taxable as interest income to the extent not previously included in income. Except to the extent described above under Original Issue Discount Market Discount or Original Issue Discount Short Term Debt Securities or attributable to changes in exchange rates (as discussed below), gain or loss recognized on the sale or retirement of a debt security will be capital gain or loss and will be long-term capital gain or loss if the U.S. Holder's holding period in the debt securities exceeds one year. Gain or loss realized by a U.S. Holder on the sale or retirement of a debt security generally will be U.S. source.

Foreign Currency Debt Securities***Interest***

If an interest payment is denominated in, or determined by reference to, a foreign currency, the amount of income recognized by a cash basis U.S. Holder will be the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars.

An accrual basis U.S. Holder may determine the amount of income recognized with respect to an interest payment denominated in, or determined by reference to, a foreign currency in accordance with either of two methods. Under the first method, the amount of income accrued will be based on the average exchange rate in effect during the interest accrual period (or, in the case of an accrual period that spans two taxable years of a U.S. Holder, the part of the period within the taxable year).

Under the second method, the U.S. Holder may elect to determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period (or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year). Additionally, if a payment of interest is actually received within five business days of the last day of the accrual period, an electing accrual basis U.S. Holder may instead translate the accrued interest into U.S. dollars at the exchange rate in effect on

the day of actual receipt. Any such election will apply to all debt instruments held by the U.S. Holder at the beginning of the first taxable year to which the election applies or thereafter acquired by the U.S. Holder, and will be irrevocable without the consent of the IRS.

Upon receipt of an interest payment (including a payment attributable to accrued but unpaid interest upon the sale or retirement of a debt security) denominated in, or determined by reference to, a foreign currency,

Table of Contents

the U.S. Holder may recognize U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

OID

OID for each accrual period on a Discount Debt Security that is denominated in, or determined by reference to, a foreign currency, will be determined in the foreign currency and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder, as described above. Upon receipt of an amount attributable to OID (whether in connection with a payment on the debt security or a sale or disposition of the debt security), a U.S. Holder may recognize U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the difference between the amount received (translated into U.S. dollars at the spot rate on the date of receipt) and the amount previously accrued, regardless of whether the payment is in fact converted into U.S. dollars.

Market Discount

Market discount on a debt security that is denominated in, or determined by reference to, a foreign currency, will be accrued in the foreign currency. If the U.S. Holder elects to include market discount in income currently, the accrued market discount will be translated into U.S. dollars at the average exchange rate for the accrual period (or portion thereof within the U.S. Holder's taxable year). Upon the receipt of an amount attributable to accrued market discount, the U.S. Holder may recognize U.S. source exchange gain or loss (which will be taxable as ordinary income or loss) determined in the same manner as for accrued interest or OID. A U.S. Holder that does not elect to include market discount in income currently will recognize, upon the disposition or maturity of the debt security, the U.S. dollar value of the amount accrued, calculated at the spot rate on that date, and no part of this accrued market discount will be treated as exchange gain or loss.

Bond Premium

Bond premium (including acquisition premium) on a debt security that is denominated in, or determined by reference to, a foreign currency, will be computed in units of the foreign currency, and any such bond premium that is taken into account currently will reduce interest income in units of the foreign currency. On the date bond premium offsets interest income, a U.S. Holder may recognize U.S. source exchange gain or loss (taxable as ordinary income or loss) equal to the amount offset multiplied by the difference between the spot rate in effect on the date of the offset and the spot rate in effect on the date the debt securities were acquired by the U.S. Holder. A U.S. Holder that does not elect to take bond premium (other than acquisition premium) into account currently will recognize a market loss when the debt security matures.

Sale or Retirement

As discussed above under *Purchase, Sale and Retirement of Debt Securities*, a U.S. Holder will generally recognize gain or loss on the sale or retirement of a debt security equal to the difference between the amount realized on the sale or retirement and its tax basis in the debt security. A U.S. Holder's tax basis in a debt security that is denominated in a foreign currency will be determined by reference to the U.S. dollar cost of the debt security. The U.S. dollar cost of a debt security purchased with foreign currency will generally be the U.S. dollar value of the purchase price on the date of purchase, or the settlement date for the purchase, in the case of debt securities traded on an established securities market, as defined in the applicable Treasury Regulations, that are purchased by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects).

The amount realized on a sale or retirement of a debt security for an amount in foreign currency will be the U.S. dollar value of this amount on the date of sale or retirement, or the settlement date for the sale, in the case of debt securities traded on an established securities market, as defined in the applicable Treasury Regulations, sold by a cash basis U.S. Holder (or an accrual basis U.S. Holder that so elects). Such an election by an accrual basis U.S. Holder must be applied consistently from year to year and cannot be revoked without the consent of the IRS.

Table of Contents

A U.S. Holder will recognize U.S. source exchange rate gain or loss (taxable as ordinary income or loss) on the sale or retirement of a debt security equal to the difference, if any, between the U.S. dollar values of the U.S. Holder's purchase price for the debt security (or, if less, the principal amount of the debt security) (i) on the date of sale or retirement and (ii) on the date on which the U.S. Holder acquired the debt security. Any such exchange rate gain or loss will be realized only to the extent of total gain or loss realized on the sale or retirement (including any exchange gain or loss with respect to the receipt of accrued but unpaid interest).

Disposition of Foreign Currency

Foreign currency received as interest on a debt security or on the sale or retirement of a debt security will have a tax basis equal to its U.S. dollar value at the time the foreign currency is received. Foreign currency that is purchased will generally have a tax basis equal to the U.S. dollar value of the foreign currency on the date of purchase. Any gain or loss recognized on a sale or other disposition of a foreign currency (including its use to purchase debt securities or upon exchange for U.S. dollars) will be U.S. source ordinary income or loss.

Backup Withholding and Information Reporting

In general, payments of interest and accrued OID on, and the proceeds of a sale, redemption or other disposition of, the debt securities, payable to a U.S. Holder by a U.S. paying agent or other U.S. intermediary will be reported to the IRS and to the U.S. Holder as may be required under applicable regulations. Backup withholding will apply to these payments and to accruals of OID if the U.S. Holder fails to provide an accurate taxpayer identification number or certification of exempt status or fails to report all interest and dividends required to be shown on its U.S. federal income tax returns. Certain U.S. Holders (including, among others, corporations) are not subject to backup withholding. U.S. Holders should consult their tax advisors as to their qualification for exemption from backup withholding and the procedure for obtaining an exemption.

Table of Contents

PLAN OF DISTRIBUTION

We may sell the securities offered by this prospectus through agents, underwriters or dealers, or directly to one or more purchasers. In addition, third parties may sell securities under the registration statement for their own account.

The prospectus supplement relating to any offering will identify or describe:

- any underwriter, dealers or agents;
- their compensation;
- the net proceeds to us;
- the purchase price of the securities;
- the initial public offering price of the securities; and
- any exchange on which the securities will be listed.

Agents

We may designate agents who agree to use their reasonable efforts to solicit purchases of securities during the term of their appointment to sell securities on a continuing basis.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement so indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment).

Underwriters

If we use underwriters for the sale of securities, they will acquire securities for their own account. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Unless we otherwise state in the applicable prospectus supplement, various conditions will apply to the underwriters' obligation to purchase securities, and the underwriters will be obligated to purchase all of the securities contemplated in an offering if they purchase any of such securities. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Dealers

If we use dealers in the sale, unless we otherwise indicate in the applicable prospectus supplement, we will sell securities to the dealers as principals. The dealers may then resell the securities to the public at varying prices that the

dealers may determine at the time of resale.

Direct Sales

We may also sell securities directly without using agents, underwriters or dealers.

Securities Act of 1933; Indemnification

Underwriters, dealers and agents that participate in the distribution of the securities may be underwriters as defined in the Securities Act, and any discounts or commissions they receive from us and any profit on their resale of securities may be treated as underwriting discounts and commissions under the Securities Act. Agreements that we will enter into with underwriters, dealers or agents may entitle them to indemnification by

Table of Contents

us against various civil liabilities. These include liabilities under the Securities Act. The agreements may also entitle them to contribution for payments which they may be required to make as a result of these liabilities. Underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for, us in the ordinary course of business.

Stabilization

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the price of the securities. These may include over-allotment, stabilization, syndicate short covering transactions and penalty bids. Over-allotment involves sales in excess of the offering size, which creates a short position. Stabilizing transactions involve bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Syndicate short covering transactions involve purchases of securities in the open market after the distribution has been completed in order to cover syndicate short positions. Penalty bids permit the underwriters to reclaim selling concessions from dealers when the securities originally sold by the dealers are purchased in covering transactions to cover syndicate short positions. These transactions may cause the price of the securities sold in an offering to be higher than it would be otherwise. These transactions, if commenced, may be continued by the persons participating in the offering at any time.

Market Making

In the event that we do not list securities of any type or series on a U.S. national securities exchange, various broker-dealers may make a market in the securities, but will have no obligation to do so, and may discontinue any market making at any time without notice. Consequently, it may be the case that no broker-dealer will make a market in securities of any series or that the liquidity of the trading market for the securities will be limited.

Table of Contents

LEGAL MATTERS

The validity of the debt securities and the guarantees and certain other legal matters governed by English, U.S. federal and New York law will be passed upon for us by Linklaters LLP or any other law firm named in the applicable prospectus supplement. The validity of the debt securities and the guarantees will be passed upon for us by Allens Arthur Robinson or any other law firm named in the applicable prospectus supplement as to certain matters of Australian law. The validity of the debt securities and the guarantees and certain other legal matters governed by U.S. federal and New York law will be passed upon for any underwriters or agents by Davis Polk & Wardwell or any other law firm named in the applicable prospectus supplement as to certain matters of New York law.

EXPERTS

The consolidated financial statements of Rio Tinto plc and Rio Tinto Limited as of December 31, 2007 and 2006 and for each of the three years in the period ended December 31, 2007 and management's assessment of the effectiveness of internal control over financial reporting (which is included in management's report on internal control over financial reporting) incorporated in this document by reference to the Annual Report on Form 20-F for the year ended December 31, 2007 have been so incorporated in reliance on the audit report of PricewaterhouseCoopers LLP and PricewaterhouseCoopers, independent registered public accounting firms, given on the authority of said firms as experts in auditing and accounting. PricewaterhouseCoopers LLP is a member of the Institute of Chartered Accountants in England and Wales. PricewaterhouseCoopers is a member of the Institute of Chartered Accountants in Australia.

The consolidated financial statements of Alcan Inc. as of December 31, 2006, 2005 and 2004 and for each of the three years in the period ended December 31, 2006 and management's assessment of the effectiveness of internal control over financial reporting (which is included in management's report on internal control over financial reporting) incorporated in this document by reference to the Annual Report on Form 10-K for the year ended December 31, 2006 have been so incorporated in reliance on the audit report of PricewaterhouseCoopers LLP, independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting. PricewaterhouseCoopers LLP is a member of the Canadian Institute of Chartered Accountants.
