**Canadian Pacific Announces Final Results of Tender Offer for Debt Securities**

June 11, 2009

Calgary, Alberta

Canadian Pacific Railway Limited (TSX/NYSE: CP) today announced the purchase by its wholly-owned subsidiary, Canadian Pacific Railway Company, of US\$475 million aggregate principal amount of debt securities pursuant to its previously announced tender offer, which expired as of 12:00 midnight, New York City time, on June 10, 2009.

The table below identifies the principal amount of each series of securities validly tendered in the tender offer and the principal amount that CP has accepted for purchase under the terms of the Offer to Purchase as well as the applicable proration factors. The amounts of each series of securities purchased in the tender offer were determined based on the aggregate principal amount of each series of securities validly tendered and not validly withdrawn on or before the expiration date, in accordance with the priorities and maximum tender amounts of each series of debt securities identified in the **Acceptance Priority Level and Maximum Tender Amount** column in the table below and subject to the maximum tender offer amount of US\$475 million. The principal amount tendered of each series of securities subject to the tender offer exceeded the respective principal amounts being accepted for purchase pursuant to the Offer to Purchase, therefore purchases of tendered securities of each series of securities will be subject to proration by the factor identified in the **Proration Factor** column in the table below.

The consideration for the securities accepted for purchase as set forth in the Offer to Purchase, plus accrued and unpaid interest, will be paid by CP today to The Depository Trust Company, which will allocate such funds to the holders entitled thereto. Securities that have been tendered but not accepted for purchase will be promptly returned to the tendering parties.

The following table identifies the principal amount of each series of securities validly tendered in the tender offer and the principal amount that CP has accepted for purchase under the terms of the offer to purchase.

**NOTES SUBJECT TO THE TENDER OFFER**

The following table provides the estimated aggregate principal amount validly tendered and not validly withdrawn for each series of debt securities subject to the tender offer as of 12:00 midnight, New York City time, on June 10, 2009.
