Item 8.01. Other Events.

On October 8, 2009, ION Geophysical Corporation (the Company) issued a press release announcing that on October 1, 2009, the jury returned a verdict in its favor in a lawsuit filed by the Company against operating subsidiaries of battery manufacturer Greatbatch, Inc., including its Electrochem division (collectively Greatbatch), in the 24th Judicial District Court for the Parish of Jefferson in the State of Louisiana. A copy of the press release is attached as Exhibit 99.1.

The Company filed the lawsuit, styled *Input/Output, Inc. and I/O Marine Systems, Inc. v. Wilson Greatbatch Technologies, Inc., Wilson Greatbatch, Ltd. d/b/a Electrochem Lithium Batteries, and WGL Intermediate Holdings, Inc., Civil Action No. 578-881, Division A*, in 2002, alleging that Greatbatch had fraudulently misappropriated the Company's product designs and other trade secrets related to the batteries and battery pack used in the Company's DigiBIRD[®] marine towed streamer vertical control device and used the Company's confidential information to manufacture and market competing batteries and battery packs. The jury found that Greatbatch committed fraud, violated the Louisiana Unfair Trade Practices Act and breached a trust and nondisclosure agreement between Greatbatch and the Company, and awarded the Company \$21,733,411.00 in damages. In addition to the jury award, the Company will be entitled to recover its attorneys' fees and costs related to the case, along with prejudgment interest accruing from the date of filing of the lawsuit.
