3. Average number of shares outstanding:	For the nine months ended December 31, 2009:	137,762,402
	For the nine months ended December 31,	140,769,752

2008:

Explanation regarding proper use of business forecasts, and other significant matters

1. The consolidated financial forecast for the year ending March 31, 2010 has been revised. Regarding the assumptions for the forecasts and other matters, refer to [Qualitative Information and Financial Statements] Section 3 Qualitative information on consolidated financial performance forecast on page 4.

The financial forecasts given above are based on information as available at the present time, and include potential risks and uncertainties. As a consequence of the factors above and other, actual results may vary from the forecasts provided above.

2. Makita's basic policy on the distribution of profits is to maintain a consolidated dividend payout ratio of 30% or greater, with a lower limit on annual cash dividends of 18 yen per share. However, in the event special circumstances arise, computation of the amount of dividends will be based on consolidated net income attributable to Makita Corporation after certain adjustments.

The Board of Directors plans to meet in April 2010 for a report on earnings for the year ending March 31, 2010. At the time, in accordance with the basic policy regarding profit distribution mentioned above, the Board of Directors plans to propose a dividend equivalent to at least 30% of net income attributable to Makita Corporation. The Board of Directors will submit this proposal to the General Meeting of Shareholders scheduled for June 2010.

The consolidated dividend payout ratio is calculated as annual dividends per share divided by consolidated net income attributable to Makita Corporation per share (after adjustments for special circumstances) and multiplied by 100.

Table of Contents**[Qualitative Information and Financial Statements]****1. Qualitative Information on Consolidated Operating Results**

During the nine months (the period) ended December 31, 2009, in Japan and the United States, investment in construction of housing and other buildings remained weak, and economic condition remained severe, while some signs of early recovery were observed in emerging countries such as China and Brazil.

Under these circumstances, Makita's consolidated net sales for the period decreased by 23.9% to 181,794 million yen, compared with the same period of the previous year, mainly due to the decline in demand caused by the world recession and an unfavorable impact of the stronger yen against other currencies. Profit was affected by the decline in the rate of operation of our production sites. This decline resulted from the reduction of production volume carried out in response to the decrease in demand. As a result, the gross margin decreased. Selling, general and administrative expenses decreased by only 15.4% compared with the same period of the previous year despite our group-wide cost reduction efforts. Consequently, operating income decreased by 48.8% to 23,530 million yen (operating income ratio: 12.9%). Income before income taxes decreased by 37.5% to 26,397 million yen (income before income taxes ratio: 14.5%). Net income attributable to Makita Corporation decreased by 45.6% to 16,917 million yen (net income attributable to Makita Corporation ratio: 9.3%).

Net sales by region are as follows:

Net sales in Japan decreased by 12.3% to 30,875 million yen compared with the same period of the previous year, mainly due to the remained sluggish condition in housing investments.

Net sales in Europe decreased by 28.6% to 80,208 million yen. This decrease was mainly because the construction demand remained low in U.K. and countries in Eastern Europe, while demands were steady in Germany and France.

Net sales in North America decreased by 22.8% to 26,823 million yen. Strong sales achieved in the United States during the Christmas season mainly in home improvement retailer could not cover the decline recorded in the first six months of the current fiscal year.

Net sales in Asia decreased by 28.0% to 12,895 million yen. Although the construction demand has been recovering in China, the demand has not recovered in some countries in Southeast Asia.

In Central and South America and Oceania, the demand was robust in Brazil and Australia, the hubs of the regional economy. However, since the value of their local currencies decreased against yen, net sales decreased by 16.7% to 11,821 million yen in Central and South America and by 9.6% to 10,048 million yen in Oceania. Net sales in the Middle East and Africa decreased by 32.6% to 9,124 million yen mainly due to the remained sluggish condition in construction investments.

2. Qualitative Information on Consolidated Financial Position

The total assets as of December 31, 2009 increased by 7,261 million yen to 343,905 million yen compared with that as of March 31, 2009. The increase was mainly due to the increases in Cash and cash equivalents and other financial assets, while Inventories decreased resulting from the reduction of production volume.

The total liabilities as of December 31, 2009 decreased by 2,173 million yen to 48,725 million yen, compared with that as of March 31, 2009. The major reason for this decrease was the decrease in Accrued payroll.

Total equity as of December 31, 2009 increased by 9,434 million yen to 295,180 million yen, compared with that as of March 31, 2009. The principal factor for this increase was the increase in Retained earnings.

English translation of KESSAN TANSHIN originally issued in Japanese

Table of Contents**3. Qualitative Information on Consolidated Financial Performance Forecast**

The European market, which accounts for more than 40% of the consolidated net sales, has shown signs of modest recovery. During the second half of this fiscal year, the demand in the North America market has risen gradually compared with our previously forecast. Accordingly, it is expected that net sales exceeding the forecast will be recorded.

Since the operating rates of our production sites have increased in line with the recovery of demand, resulting in the decreasing cost of sales ratio, it is expected that profits will also improve. Accordingly, the forecasts of consolidated performance for the fiscal year ending March 2010 announced on October 27, 2009 are revised as follows:

Revised Forecast for consolidated performance during the fiscal 2010 (from April 1, 2009 to March 31, 2010)

	Yen (millions)			Net income	Yen
		Operating	Income	attributable	Earning per
	Net sales	income	before	to Makita	share
			income	Corporation	(Basic) net
			taxes	shareholders	income
					attributable to
					Makita
					Corporation
					common
					shareholders
Outlook announced previously					
(A)	230,000	26,000	28,000	16,700	121.22
Revised forecast (B)	242,000	30,000	33,000	21,000	152.44
Change (B-A)	12,000	4,000	5,000	4,300	
Percentage revision	5.2%	15.4%	17.9%	25.7%	
Actual results for the previous					
year ended March 31, 2009	294,034	50,075	44,443	33,286	236.88

The above forecast is based on the assumption of exchange rates of 90 yen to the U.S. dollar and 130 yen to the euro for the fourth quarter of the fiscal year.

The above forecast is based on information as available at the present time, and includes potential risks and uncertainties. As a consequence of the factors above and other, actual results may vary from the forecast provided above.

4. Other

- (1) Changes in important subsidiaries during the period (Changes in specific subsidiaries accompanied by changes in scope of consolidation): None
- (2) Adoption of simplified accounting methods and accounting methods that are specific to the preparation of quarterly consolidated financial statements:

With regard to the income tax expenses, the Company computes interim income tax expenses by multiplying reasonably estimated annual effective tax rate, which includes the effects of deferred taxes, by year-to-date income before income taxes for the reporting period.

- (3)

Changes in principle, procedure and presentation of the accounting policies concerning quarterly consolidated financial statements preparation:

Starting with this fiscal year beginning April 1, 2009, the Company has adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation (former Statement of Financial Accounting Standards (SFAS) No.160, Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No.51). This statement establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires the recognition of noncontrolling interests (minority interests) as equity in the consolidated financial statements. The amount of net income attributable to noncontrolling interests is now included in consolidated net income on the face of the consolidated income statement.

This statement also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. The adoption did not give rise to any material effect on the Company s consolidated results of operations and financial position. These financial statements presentation requirements have been adopted retrospectively and previous year amounts in the consolidated financial statements have been reclassified or adjusted to conform to this statement.
