Report of Independent Registered Public Accounting Firm

The Administrative Committee, as Plan Administrator
of the KB Home 401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of the KB Home 401(k) Savings Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with US generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2009, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Financial Statements

1. Description of the Plan

General

The following description of the KB Home 401(k) Savings Plan (the Plan) provides only general information. Eligible employees of KB Home (the Company) who elect to participate in the Plan (each, a Participant) should refer to the governing Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan in which all eligible employees of the Company may participate on the first day of the month following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may contribute up to 25% of their annual eligible compensation on a pretax basis. Participants may also contribute up to an additional 15% of their annual eligible compensation on an after-tax basis. All contributions are made in whole percentages through payroll deductions. Pretax contributions are eligible for tax deferred treatment up to the limits provided by the Internal Revenue Code (the Code).

Effective as of August 1, 2003, each Participant whose designated per payroll period contribution rate is at least 6%, who has attained (or will attain) age 50 before the close of a Plan year and whose contributions for the Plan year will exceed the limits of Code Section 402(g) or other Plan limit, is eligible to make a catch-up contribution in accordance with, and subject to the limitations of, Code Section 414(v).

Unless otherwise determined by its Board of Directors, the Company will match a Participant's pretax contribution up to 6% of annual eligible compensation (for Participants paid on a commission basis, the Company will match pretax contributions only up to \$50,000 of eligible compensation).

The Plan accepts rollover contributions transferred from other qualified retirement plans or from individual retirement accounts, subject to the applicable provisions of the Plan.

Plan assets are held in trust by Fidelity Management Trust Company, Inc. (the Trustee). Participants may direct the investment of their contributions among one or more of the several fund options offered by the Plan, and may elect to change the investments of their contributions or to transfer all or part of their account balances among such fund options.

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions and the earnings thereon. Subject to applicable Internal Revenue Service (IRS) rules and regulations, Company matching contributions and the earnings thereon vest to Participants over five years.

Participant Loans

Subject to the provisions of the Plan, a Participant may borrow up to 50% of the vested balance in the Participant's Plan account not to exceed \$50,000 in any one year period. The minimum amount of any such loan is \$1,000. Loans must be repaid within five years unless a loan is used to purchase a Participant's principal residence, in which case, the loan must be repaid within 15 years. The loans are secured by the vested balance in the borrowing Participant's Plan account and bear interest at the prime rate plus 1%, as of the last day of the preceding calendar quarter in which a loan was made.

Distributions and Withdrawals

Participants who terminate their employment with the Company may elect to withdraw or rollover their contributions, vested Company contributions, and related earnings thereon. Withdrawals or rollovers (to a separate defined contribution plan or individual retirement account) may be processed without a formerly employed Participant's consent if the Participant's vested benefits total less than \$5,000. Vested benefits totaling \$1,000 or less will be distributed as a lump-sum payment, and vested benefits totaling more than \$1,000 but less than \$5,000 will be rolled into an individual retirement account. Vested benefits totaling \$5,000 or more may be kept in the Plan. Participants may take hardship withdrawals subject to the limitations and requirements of the Plan.

Forfeitures

Unvested Company contributions for formerly employed Participants are forfeited and used by the Company to offset future matching contributions. For the Plan years ended December 31, 2009 and 2008, the Company used \$392,037 and \$2,069,320, respectively, of forfeitures to offset matching contributions. The forfeiture balances available to offset future matching contributions were \$196,461 and \$513,956 at December 31, 2009 and 2008, respectively.

1. Description of the Plan (continued)

Administrative Expenses

Certain administrative expenses of the Plan, such as recordkeeping fees, are paid directly by the Company. Other administrative expenses arising from Participants' individual investment elections or transactions under the Plan, such as Participant loan administration and withdrawal fees and fees related to the unitized employer stock fund in the Plan (the KB Home Stock Fund), are paid directly by such Participants.

Plan Termination

As of the date of this report, the Company expects and intends to continue the Plan, but reserves the right to amend, suspend or terminate the Plan (in whole or in part) at any time. In the event of Plan termination, benefits of all affected Participants, if not already so, shall become 100% vested and not subject to forfeiture.

Partial Plan Termination

The Company believes that a partial termination of the Plan under the Code and applicable IRS rules and guidance occurred during the Plan year ended December 31, 2008. As a result, certain formerly employed Participants became vested in previously unvested Company contributions, and the Company restored corresponding forfeited Company contributions of \$858,886 to such Participants during the Plan year ended December 31, 2009. To do so, the Company used the forfeiture balance available at the time and contributed \$150,466 to the Plan. The Plan financial statements as of December 31, 2008 reflect an estimated contribution receivable from the Company of \$288,841 in connection with such partial termination of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

The financial statements are based on information provided to the Company by the Trustee. Certain adjustments have been made to the information provided by the Trustee in order for the financial statements to conform to the accrual basis of accounting and U.S. generally accepted accounting principles (GAAP).

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 below for the fair value measurement disclosures associated with the investments held by the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Loans

Participant loans are valued at amortized cost, which approximates fair value. Refer to Note 3 below for the fair value measurement disclosures associated with Participant loans.

Distributions

Distributions of Plan benefits to Participants who withdraw from the Plan are recorded when distributed.

Recent Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended Statement of Financial Accounting Standards No. 157 (codified as Accounting Standards Codification Topic No. 820, *Fair Value Measurements and Disclosures* (ASC 820)) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP

2. Summary of Significant Accounting Policies (continued)

157-4 for the reporting period ended December 31, 2009. The adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued Statement of Financial Accounting Standards No. 165, *Subsequent Events*, which was codified into Accounting Standards Codification Topic No. 855, *Subsequent Events (ASC 855)*, to provide general standards of accounting for and disclosure of events that occur after a balance sheet date, but before the corresponding financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In January 2010, the FASB issued Accounting Standards Update No. 2010-06, *Improving Disclosures about Fair Value Measurements (ASU 2010-06)*, which provides amendments to Accounting Standards Codification Subtopic No. 820-10, *Fair Value Measurements and Disclosures - Overall*. ASU 2010-06 requires additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in Level 3 fair value measurements, and the transfers in and out of Levels 1 and 2 of the fair value hierarchy and the reasons for those transfers. The Plan will adopt the guidance in ASU 2010-06 for the Plan year ending December 31, 2010, except for the provisions that will be effective for the Plan year ending December 31, 2011. Plan management is currently evaluating the impact on the Plan's financial statements of adopting ASU 2010-06.

3. Fair Value Measurements

ASC 820 provides a framework for measuring the fair value of assets and liabilities under GAAP, and establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy can be summarized as follows:

Level 1 Fair value determined based on quoted prices in active markets for identical assets or liabilities.

Level 2 Fair value determined using significant observable inputs, such as quoted prices for similar assets or liabilities or quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data, by correlation or other means.

Level 3 Fair value determined using significant unobservable inputs, such as pricing models, discounted cash flows, or similar techniques.

The following table presents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2009:

The fair values of money market funds and mutual funds are determined based on quoted market prices. The fair value of the KB Home Stock Fund is determined by the Trustee based on the combined fair value of the fund's underlying common stock and cash positions. The fair value of the fund's underlying common stock position is based on quoted market prices. The fair value of the fund's underlying cash position is valued at its carrying value, which approximates market value. Participant loans are valued at amortized cost, which approximates their fair value.

5. Risks and Uncertainties

The Plan's concentrations of credit and market risk are dictated by its terms, as well as by those of ERISA, and the investments directed by individual Participants in various mutual funds and other securities. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' individual Plan account balances, the amounts reported in the Statements of Net Assets Available for Benefits, and the amounts reported in the Statements of Changes in Net Assets Available for Benefits.

6. Tax Status of the Plan

The Plan has received a determination letter from the IRS dated January 23, 2009 stating that the Plan is qualified under Code Section 401(a) and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the Code to maintain its qualification. Plan management believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

7. Legal Matter

Bagley, et al., v. KB Home, et al.

This lawsuit was initially filed on March 16, 2007, against the Company, its directors, and certain of its current and former officers, and members of the Plan's Administrative Committee. On March 17, 2008, the two existing plaintiffs, together with two additional plaintiffs, filed a first amended complaint. The plaintiffs, who claim to be former employees of the Company who participated in the Plan, allege on behalf of themselves and on behalf of all others similarly situated that all defendants breached fiduciary duties owed to them and purported class members under ERISA by failing to disclose information to and providing other misleading information to Participants in the Plan about the Company's alleged prior stock option backdating practices. Plaintiffs also allege that defendants breached their fiduciary duties by failing to remove the Company's common stock as an investment option under the Plan. The Plan itself is not named as a defendant. The parties executed a settlement agreement on February 26, 2010 and an amended settlement agreement on April 5, 2010. The amended settlement, if approved by the court, provides for the settlement and dismissal with prejudice of the claims asserted by the individual plaintiffs and a proposed class described as all persons who were Participants in or beneficiaries of the Plan at any time between January 1, 2001 and February 26, 2010, and whose Plan accounts included investments in KB Home common stock at any time during that time period. On April 12, 2010, the court preliminarily approved the amended settlement and the conditional certification of the settlement class described in the amended settlement. The preliminary approved settlement is not material to the Company. The court set the fairness hearing on the proposed settlement for July 26, 2010.

8. Related Party and Party-in-Interest Transactions

Investments held by the Plan include shares of mutual funds managed by an affiliate of the Trustee. The Trustee acts as a trustee for only those investments held by the Plan. An investment held by the Plan also includes the common stock of the Company. The transactions associated with these investments qualify as exempt party-in-interest transactions under ERISA.
