

MARSHALL & ILSLEY CORP

Form 425

March 04, 2011

Filed by Bank of Montreal  
Pursuant to Rule 425 under the Securities Act of 1933  
and deemed filed pursuant to Rule 14a-12 under the  
Securities Exchange Act of 1934  
Subject Company: Marshall & Ilsley Corporation  
SEC Registration Statement No.: 333-172012

This filing, which includes a March 2011 investor presentation by Bank of Montreal, may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and comparable safe harbour provisions of applicable Canadian legislation, including, but not limited to, statements relating to anticipated financial and operating results, the companies' plans, objectives, expectations and intentions, cost savings and other statements, including words such as anticipate, believe, plan, estimate, expect, intend, will, should, may, and other expressions. Such statements are based upon the current beliefs and expectations of our management and involve a number of significant risks and uncertainties. Actual results may differ materially from the results anticipated in these forward-looking statements. Such factors include, but are not limited to: the possibility that the proposed transaction does not close when expected or at all because required regulatory, shareholder or other approvals and other conditions to closing are not received or satisfied on a timely basis or at all; the terms of the proposed transaction may need to be modified to satisfy such approvals or conditions; the anticipated benefits from the proposed transaction such as it being accretive to earnings, expanding our North American presence and synergies are not realized in the time frame anticipated or at all as a result of changes in general economic and market conditions, interest and exchange rates, monetary policy, laws and regulations (including changes to capital requirements) and their enforcement, and the degree of competition in the geographic and business areas in which M&I operates; the ability to promptly and effectively integrate the businesses of M&I and BMO; reputational risks and the reaction of M&I's customers to the transaction; diversion of management time on merger-related issues; increased exposure to exchange rate fluctuations; and those other factors set out on pages 29, 30, 61 and 62 of BMO's 2010 Annual Report. A significant amount of M&I's business involves making loans or otherwise committing resources to specific companies, industries or geographic areas. Unforeseen events affecting such borrowers, industries or geographic areas could have a material adverse effect on the performance of our integrated U.S. operations. Additional factors that could cause BMO Financial Group's and Marshall & Ilsley Corporation's results to differ materially from those described in the forward-looking statements can be found in the 2010 Annual Report on Form 40-F for BMO Financial Group and the 2010 Annual Report on Form 10-K of Marshall & Ilsley Corporation filed with the Securities and Exchange Commission and available at the Securities and Exchange Commission's Internet site (<http://www.sec.gov>). In connection with the proposed merger transaction, BMO has filed with the Securities and Exchange Commission a Registration Statement on Form F-4 that includes a preliminary Proxy Statement of M&I, and a preliminary Prospectus of Bank of Montreal, as well as other relevant documents concerning the proposed transaction. **Shareholders are urged to read the Registration Statement and the preliminary Proxy Statement/Prospectus regarding the merger, the definitive Proxy Statement/Prospectus when it becomes available and any other relevant documents filed with the SEC, as well as any amendments or supplements to**

---

**those documents, because they will contain important information.** A free copy of the preliminary Proxy Statement/Prospectus, as well as other filings containing information about BMO and M&I, may be obtained at the SEC's Internet site (<http://www.sec.gov>). You can also obtain these documents, free of charge, from BMO at [www.BMO.com](http://www.BMO.com) under the tab "About BMO - Investor Relations" and then under the heading "Frequently Accessed Documents", from BMO Investor Relations, Senior Vice-President at (416) 867-6656, from M&I by accessing M&I's website at [www.MICorp.com](http://www.MICorp.com) under the tab "Investor Relations" and then under the heading "SEC Filings", or from M&I at (414) 765-7814.

BMO and M&I and certain of their directors and executive officers may be deemed to be participants in the solicitation of proxies from the shareholders of M&I in connection with the proposed merger. Information about the directors and executive officers of BMO is set forth in the proxy statement for BMO's 2011 annual meeting of shareholders, as filed with the SEC on Form 6-K on February 25, 2011. Information about the directors and executive officers of M&I is set forth in the proxy statement for M&I's 2010 annual meeting of shareholders, as filed with the SEC on a Schedule 14A on March 12, 2010. Additional information regarding the interests of those participants and other persons who may be deemed participants in the transaction may be obtained by reading the above-referenced preliminary Proxy Statement/Prospectus and the definitive Proxy Statement/Prospectus when it becomes available. Free copies of this document may be obtained as described in the preceding paragraph.

## Forward Looking Statements & Non-GAAP Measures

### Caution Regarding Forward-Looking Statements

Bank of Montreal's public communications often include written or oral forward-looking statements. Statements of this type are included in this document, and may be included in other filings with Canadian securities regulators or the U.S. Securities and Exchange Commission, or in other communications. All such statements are made pursuant to the safe harbour provisions of, and are intended to be forward-looking statements under, the United States Private Securities Litigation Reform Act of 1995 and any applicable Canadian securities legislation. Forward-looking statements may involve, but are not limited to, comments with respect to our objectives and priorities for 2011 and beyond, our strategies or future actions, our targets, expectations for our financial condition or share price, and the results of or outlook for our operations or for the Canadian and U.S. economies.

By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions, forecasts, conclusions or projections will not prove to be accurate, that our assumptions may not be correct and that actual results may differ materially from such predictions, forecasts, conclusions or projections. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed in the forward-looking statements.

The future outcomes that relate to forward-looking statements may be influenced by many factors, including but not limited to: general economic and market conditions in the countries in which we operate; interest rate and currency value fluctuations; changes in monetary policy; the degree of competition in the geographic and business areas in which we operate; changes in laws; judicial or regulatory proceedings; the accuracy and completeness of the information we obtain with respect to our customers and counterparties; our ability to execute our strategic plans and to complete and integrate acquisitions; critical accounting estimates; operational and infrastructure risks; general political conditions; global capital market activities; the possible effects on our business of war or terrorist activities; disease or illness that impacts on local, national or international economies; disruptions to public infrastructure, such as transportation, communications, power or water supply; and technological changes.

With respect to the M&I transaction, such factors include, but are not limited to: the possibility that the proposed transaction does not close when expected or at all because required regulatory, shareholder or other approvals and other conditions to closing are not received or satisfied on a timely basis or at all; the terms of the proposed transaction may need to be modified to satisfy such approvals or conditions; the anticipated benefits from the proposed transaction such as it being accretive to earnings, expanding our North American presence and synergies are not realized in the time frame anticipated or at all as a result of changes in general economic and market conditions, interest and exchange rates, monetary policy, laws and regulations (including changes to capital requirements) and their enforcement, and the degree of competition in the geographic and business areas in which M&I operates; the ability to promptly and effectively integrate the businesses of M&I and BMO; reputational risks and the reaction of M&I's customers to the transaction; diversion of management time on merger-related issues; and increased exposure to exchange rate fluctuations. A significant amount of M&I's business involves making loans or otherwise committing resources to specific companies, industries or geographic areas. Unforeseen events affecting such borrowers, industries or geographic areas could have a material adverse effect on the performance of our integrated U.S. operations.

We caution that the foregoing list is not exhaustive of all possible factors. Other factors could adversely affect our results. For more information, please see the discussion on pages 29, 30, 61 and 62 of BMO's 2010 Annual Report, which outlines in detail certain key factors that may affect BMO's future results.

When relying on forward-looking statements to make decisions with respect to Bank of Montreal, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Bank of Montreal does not undertake to update any forward-looking statement, whether written or oral, that may be made, from time to time, by the organization or on its behalf, except as required by law. The forward-looking information contained in this document is presented for the purpose of assisting our shareholders in understanding our financial position as at and for the periods ended on the dates presented and our strategic priorities and objectives, and may not be appropriate for other purposes.

In calculating the pro-forma impact of Basel III on our regulatory capital and regulatory capital ratios, we have assumed our interpretation of the proposed rules announced by the Basel Committee on Banking Supervision (BCBS) as of this date and our models used to assess those requirements are consistent with the final requirements that will be promulgated by BCBS and the Office of the Superintendent of Financial Institutions Canada (OSFI). We have also assumed that the proposed changes affecting capital deductions, risk-weighted assets, the regulatory capital treatment for non-common share capital instruments (i.e. grandfathered capital instruments) and the minimum regulatory capital ratios are adopted as proposed by BCBS and OSFI. We also assumed that existing capital instruments that are non-Basel III compliant but are Basel II compliant can be fully included in such estimates. The full impact of the Basel III proposals has been quantified based on our financial and risk positions at January 31 or as close to January 31 as was practical. The impact of IFRS conversion on our capital ratios is based on the analysis completed as of October 31, 2010. In calculating the impact of M&I and LGM on our capital position, our estimates reflect expected RWA and capital deductions at closing based on anticipated balances outstanding and credit quality at closing and our estimate of their fair value. It also reflects our assessment of goodwill, intangibles and deferred tax asset balances that would arise at closing. The Basel rules could be subject to further change, which may impact the results of our analysis. In setting out the expectation that we will be able to refinance certain capital instruments in the future, as and when necessary to meet regulatory capital requirements, we have assumed that factors beyond our control, including the state of the economic and capital markets environment, will not impair our ability to do so.

Assumptions about the performance of the Canadian and U.S. economies as well as overall market conditions and their combined effect on the bank's business are material factors we consider when determining our strategic priorities, objectives and expectations for our business. In determining our expectations for economic growth, both broadly and in the financial services sector, we primarily consider historical economic data provided by the Canadian and U.S. governments and their agencies.

#### Non-GAAP Measures

Bank of Montreal uses both GAAP and non-GAAP measures to assess performance. Readers are cautioned that earnings and other measures adjusted to a basis other than GAAP do not have standardized meanings under GAAP and are unlikely to be comparable to similar measures used by other companies. Reconciliations of GAAP to non-GAAP measures as well as the rationale for their use can be found in Bank of Montreal's First Quarter 2011 Report to Shareholders and 2010 Annual Report, all of which are available on our website at [www.bmo.com/investorrelations](http://www.bmo.com/investorrelations).

Examples of non-GAAP amounts or measures include: cash earnings per share, cash productivity and cash operating leverage; revenue and other measures presented on a taxable equivalent basis (teb); amounts presented net of applicable taxes, earnings which exclude the impact of provision for credit losses and taxes, and core earnings which exclude non recurring items such as acquisition integration costs.

Bank of Montreal provides supplemental information on combined business segments to facilitate comparisons to peers.

Additional Information for Stockholders

Additional Information for Stockholders

In connection with the proposed merger transaction, BMO has filed with the Securities and Exchange Commission a Registration Statement on Form F-4 that includes a preliminary Proxy Statement of M&I, and a preliminary Prospectus of Bank of Montreal, as well as other relevant documents concerning the proposed transaction. Shareholders are urged to read the Registration Statement and the preliminary Proxy Statement/Prospectus regarding the merger, the definitive Proxy Statement/Prospectus when it becomes available and any other relevant documents filed with the SEC, as well as any amendments or supplements to those documents, because they will contain important information. A free copy of the preliminary Proxy Statement/Prospectus, as well as other filings containing information about BMO and M&I, may be obtained at the SEC's Internet site (<http://www.sec.gov>). You can also obtain these documents, free of charge, from BMO at [www.BMO.com](http://www.BMO.com) under the tab About BMO Investor Relations and then under the heading Frequently Accessed Documents, from BMO Investor Relations at [investor.relations@bmo.com](mailto:investor.relations@bmo.com) or 416-867-6642, from M&I by accessing M&I's website at [www.MICorp.com](http://www.MICorp.com) under the tab Investor Relations and then under the heading SEC Filings, or from M&I at (414) 765-7814.

BMO and M&I and certain of their directors and executive officers may be deemed to be participants in the solicitation of proxies from the shareholders of M&I in connection with the proposed merger. Information about the directors and executive officers of BMO is set forth in the proxy statement for BMO's 2011 annual meeting of shareholders, as filed with the SEC on Form 6-K on February 25, 2011. Information about the directors and executive officers of M&I is set forth in the proxy statement for M&I's 2010 annual meeting of shareholders, as filed with the SEC on a Schedule 14A on March 12, 2010. Additional information regarding the interests of those participants and other persons who may be deemed participants in the transaction may be obtained by reading the above-referenced preliminary Proxy Statement/Prospectus and the definitive Proxy Statement/Prospectus when it becomes available. Free copies of this document may be obtained as described in the preceding paragraph.

Expect expansion to continue in 2011 at a moderately strong pace, with support from low interest rates, high resource prices and firmer U.S. demand tempered by the high Canadian dollar. The unemployment rate should ease slightly by year end

Consumer spending is expected to moderate somewhat as households manage their debts, while business investment should remain strong, especially in the resource sector

Home sales have turned up recently, and prices have returned to record highs. However, minimal growth in sales and fairly steady prices are anticipated in 2011, with restraint stemming from tighter mortgage rules and higher interest rates

United States

The U.S. economy continues to improve. Consumer spending rose 4.1% in Q4, the fastest pace in almost five years, and exports and business investment remained strong. Housing activity is slowly improving but remains depressed because of the high number of foreclosures, and prices have softened.

Continued growth will reduce the U.S. unemployment rate to 8.6% by year end. However, it could take several years before the jobless rate returns to a more normal level of around 6%. Despite higher energy and food costs, inflation is expected to remain low in 2011 in response to the sizeable amount of slack in the labour market and economy. Looking Ahead... We have the business platform, balance sheet and expertise to generate sustainable growth. Changes to the economy, regulatory environment and North American banking industry are rapid and ongoing. BMO has emerged as a bank with visible momentum across all of our businesses and a strong capital position. BMO is well positioned for the future: Brand Promise stands out and gains relevance in the new environment. P&C Canada, PCG and BMO Capital Markets are producing strong financial results and demonstrating good market momentum. P&C U.S. continues to focus on the customer experience and increasing our presence and visibility in the market. Good business opportunities available in the U.S. and each of our businesses is well positioned. Investor Presentation | March 2011 19
